Grade Reports, Incomplete Grades and Grade Appeals ................................ 22
Satisfactory Academic Progress .................................................................. 23
Course Retake and Grade Replacement ...................................................... 23
Academic Forgiveness .................................................................................. 23
Graduation .................................................................................................... 24
Degrees and Certificates ............................................................................. 26
Overview of Degrees & Certificates Offered ............................................. 26
Degree and Certificate, A-Z Listing ............................................................. 26
TMCC Academic Divisions ......................................................................... 29
Degrees and Certificates by Programs ........................................................ 30
Anthropology Emphasis .............................................................................. 30
  Associate of Arts Degree - Anthropology Emphasis ................................. 30
  Associate of Science Degree - Anthropology Emphasis ............................ 30

Associate of Arts / Associate of Science - Transfer Degrees .......................... 31
  Associate of Arts Degree - Transfer ......................................................... 31
  Associate of Science Degree - Transfer ................................................... 33
Biology .......................................................................................................... 35
  Associate of Science Degree - Biology Emphasis ...................................... 35
  Certificate of Achievement - Health Sciences ........................................... 37
Business ........................................................................................................ 37
  Associate of Applied Science - Business .................................................. 38
  Associate of Applied Science - Business - Massage Therapy, Entrepreneur Emphasis .................................................. 39
  Associate of Applied Science - Business - Office Management ............... 40
  Associate of Applied Science - Business, Personal Trainer Entrepreneurship .......................................................... 41
  Associate of Applied Science - Logistics Management ............................ 43
  Associate of Arts - Business Emphasis .................................................... 44
  Associate of Arts - Business - Entrepreneurship Emphasis ........................ 45
Bachelor of Applied Science - Logistics Operations Management .............. 46
Certificate of Achievement - Bookkeeping ................................................ 47
Certificate of Achievement - Business ....................................................... 48
Certificate of Achievement - Entrepreneurship .......................................... 49
Certificate of Achievement - Logistics Management .................................... 49
Certificate of Achievement - Logistics Technician ........................................ 50
Skills Certificate - Certified Professional Bookkeeper ................................ 51
Skills Certificate - Real Estate Salesperson ................................................ 51
Skills Certificate - Retail Management ....................................................... 52
Certified Nursing Assistant .......................................................................... 52
  Skills Certificate - Nursing Assistant ...................................................... 52
  Skills Certificate - Phlebotomy ................................................................. 53
Community Health Science .......................................................................... 53
  Associate of Science - Community Health Science Emphasis, Kinesiology Physical Education Track ................................. 54
  Associate of Science - Community Health Science Emphasis, Kinesiology Pre-Professional Track ........................................ 55
  Associate of Science - Community Health Science Emphasis, Pre-Nursing Track ................................................................. 56
  Associate of Science Degree - Community Health Science Emphasis, Public Health Track ................................................... 57
Computer Information Technology ............................................................... 58
  Associate of Applied Science - Computer Information Technology - Cyber Security Emphasis ................................................... 58

WELCOME TO TRUCKEE MEADOWS COMMUNITY COLLEGE

The President (http://www.tmcc.edu/president), faculty and staff of Truckee Meadows Community College enthusiastically welcome you to our great learning community. TMCC serves more than 25,000 students each year in credit and non-credit courses at five educational sites and online. We offer many outstanding educational programs designed to prepare you for a successful career, to help you transfer to a four-year degree program, or to explore lifelong learning opportunities. In addition to skills certificates and certificates of achievement, TMCC offers associate degrees and two applied bachelor of science degrees.

At TMCC you will find a robust and supportive environment where you can discuss and share a wide range of ideas with instructors and classmates. The College’s mission focuses on student success, academic excellence, and access to lifelong learning, each of which is part of your academic experience. By continuing your education beyond high school or expanding on your current skills, you are taking the first step to prepare for a more secure and exciting future.

TMCC continues to find ways to be a healthier college. We emphasize healthy people and a healthy planet. We recently signed a Resilience Commitment, as participants of the Climate Leadership Network led by Second Nature and have initiated a “Breathe Easy” campaign to join over 1,500 other college campuses in becoming Tobacco Free. We hope that you will join our efforts to promote health and sustainability as a member of our TMCC community.
GENERAL INFORMATION

- About Truckee Meadows Community College (p. 9)
- Academic Calendar (p. 11)
- Accreditation (p. 9)
- College Locations (p. 10)
- Family Education Rights and Privacy Act (FERPA) (p. 8)
- Notice of Nondiscrimination (p. 10)
- Student Responsibilities (p. 8)
- TMCC High School (p. 10)

Family Education Rights and Privacy Act (FERPA)

In accordance with institutional policy and the U.S. Family Education Rights and Privacy Act of 1974 (FERPA), Truckee Meadows Community College vigorously protects the privacy of student education records. The institution does not release private records of individual students, such as grades and class schedules, without prior written consent of the student or as specifically authorized by FERPA. Some of the exceptions to the prior written consent exceptions are reviewed below and are also found in the Statement of Policy in Accordance with FERPA (p. 332).

As permitted under federal law, the sole exception to the above practice is the release of “directory” information considered to be public in nature and not generally deemed to be an invasion of privacy. At Truckee Meadows Community College the following categories are defined as “directory” information: student name, address, telephone number, email address(s), semesters of enrollment, full-time/part-time status, degree(s) awarded, emphasis field(s), certificate field(s), honors and awards, and dates of graduation.

- Administrative offices will use photographs as an additional safeguard in verifying a student’s identity.
- Faculty and staff members will have access to student photos for class rosters, testing, and academic advising.
- Student photos CANNOT be released to third parties without consent of the student. Photos are for internal use only by College Officials.

Students have the right to request non-disclosure of directory information. If they do not restrict release of this information, it is probable that the information will be released and disclosed. Truckee Meadows Community College uses directory information for non-commercial, educational purposes, such as to mail notices to students about changes in policies, services or opportunities. Directory information may also be provided by commercial purposes to businesses affiliated with the institution, honor societies, the alumni association and foundation, or other individuals for purposes that may be beneficial to students. The institution exercises discretion in responding to requests for directory information and may or may not provide such information when requested, depending on the intended purpose of the request. The institution does not sell or rent student information for a fee.

It is important to consider carefully the potential consequences of restricting the release of directory information. If a student restricts release for non-commercial educational purposes, the institution will be unable to place the student’s name in publications such as honors and graduation programs; to confirm graduation and dates of attendance to potential employers; to verify enrollment with organizations such as insurance companies; or to send notifications about specialized scholarships without the express written authorization of the student.

If, after due consideration, a student wishes to restrict the release of directory information, they may access the FERPA restriction component of MyTMCC (http://my.tmcc.edu), navigate to Demographic Data > Security > Edit FERPA / DIRECTORY Restrictions, and select from the following choices:

- Do not disclose my information for commercial purposes.
- Do not disclose my information for non-commercial, education purposes.
- Do not disclose my information for both commercial and non-commercial purposes.

Students may also print this page, sign and return to the Admissions and Records Office.

Student Responsibilities

Student Responsibilities

- Read and understand the contents of the College Catalog.
- Become familiar with College policies and procedures.
- Be aware of College deadlines, including dates for registration, fee payments (http://www.tmcc.edu/accounting-services/students/tuition-and-fees), dropping classes and registration changes.
- Keep the College informed of changes in name, address, phone number, enrollment changes, which could affect financial aid awards and/or any other circumstances which could affect satisfactory progress toward a degree/ emphasis/certificate. See Change of Student Information.
- Attend class and complete all assignments in accordance with the expectations established by the instructor and behave in a manner which contributes to a positive learning environment for all in the classroom and on the campus. See Rules and Disciplinary Procedures for Students (p. 329) or contact the student conduct officer to address any conduct concerns.
- Use the College Catalog program worksheet to plan which courses to take each semester and utilize the Academic Advisor Report (AAR) in MyTMCC to track your program progress.
- Schedule an appointment with a faculty member in your chosen program of study or an academic advisor to discuss your time line and pathway to program completion.
- Physically or learning disabled students may call 775-673-7277 to receive a copy of this course catalog in a more accessible form.

Change of Student Information

While it is critical that all students keep the Admissions and Records office apprised of any changes, it is required of students who receive federal financial aid or Veterans benefits to keep name, address and degree, emphasis or certificate information current. Failure to do so may affect eligibility for continued benefits. Changes in degree, emphasis or certificate also affect advisement and course catalog choice for graduation. When the Admissions and Records office becomes aware of an incorrect address, a registration hold is placed until the address is...
corrected. Contact the Admissions and Records office to remove address holds.

- Request to change personal Identification data: Students can process a change of name by completing the NSHE form (http://system.nevada.edu/Nshe/index.cfm/administration/academics-student-affairs/forms/personal-identification-data) and bringing legal documentation supporting the name change to the Admissions and Records office.
- A change of address can be made through MyTMCC (http://my.tmcc.edu), or in-person at the Admissions and Records office.
- Students may submit the Degree, Emphasis or Certificate Change form (http://www.tmcc.edu/admissions/downloads) online or in person to the Admissions and Records office.

Disclaimer
The TMCC Course Catalog describes anticipated programs, courses and requirements. These are subject to modification at any time to accommodate changes in college resources or educational plans. The course catalog does not constitute a contractual commitment that the College will offer all the courses or programs described. The College reserves the right to eliminate, cancel, reduce or phase out courses, programs and requirements for financial, curricular or programmatic reasons. The College also reserves the right to limit enrollment in specific programs and courses, to change fees during the student’s period of study and to require a student to withdraw from the institution for cause at any time.

About Truckee Meadows Community College

About TMCC
Truckee Meadows Community College (http://www.tmcc.edu/about) is a public, 2-year institution located in Reno, Nevada. The College serves more than 28,000 students each year in credit and non-credit programs at five college sites and more than 20 community locations.

NSHE Board of Regents
TMCC is part of the Nevada System of Higher Education (http://system.nevada.edu/Nshe) (NSHE) and governed by the Board of Regents (http://system.nevada.edu/Nshe/index.cfm/administration/board-of-regents/current-regents1). The Chancellor (http://system.nevada.edu/Nshe/index.cfm/administration/chancellor) is appointed by the Board to serve as the NSHE’s chief executive officer.

Institutional Vision, Mission, Values and Core Themes

Vision
Truckee Meadows Community College creates the future by changing lives.

Mission
Truckee Meadows Community College promotes student success, academic excellence and access to lifelong learning by supporting high-quality education and services within our diverse community.

Values
The values upon which Truckee Meadows Community College bases its mission and vision statements are the principles, standards, and qualities the College considers worthwhile and desirable. Truckee Meadows Community College is committed to:

- Student access and success
- Excellence in teaching and learning
- Evidence of student progress through assessment of student outcomes
- Nurturing a climate of innovative and creative thought
- Collaborative decision making
- Community development through partnerships and services
- Ethical practices and integrity
- Respect, compassion, and equality for all persons
- Responsible and sustainable use of resources
- Fostering attitudes that exemplify responsible participation in a democratic society

Core Themes

- Core Theme I: Student Success
- Core Theme II: Academic Excellence
- Core Theme III: Access to Lifelong Learning

Accreditation
Truckee Meadows Community College is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in
the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution’s accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

Northwest Commission on Colleges and Universities
8060 165th Avenue N.E., Suite 100
Redmond, WA 98052
(425) 558-4224

Notice of Nondiscrimination

TMCC is in compliance with Executive Order 11246, Title VII Civil Rights Act (1964) as amended by the Equal Employment Opportunity Act of 1972; Title IX Regulation Implementing Education Amendments of 1972; Section 504, Rehabilitation Act of 1973, the Americans with Disabilities Act, the 1991 Civil Rights Act and all other federal, state and Nevada System of Higher Education rules, laws, regulations and policies.

All matters of alleged discrimination under the previously cited laws, regulations and policies should be referred to the Title IX and Section 504 Director. (http://titleix.tmcc.edu)

More information is available in the Policies and Regulations section regarding:

- Grievance Procedures Relating to Equal Opportunity (p. 307)
- NSHE Sexual Harassment Policy and Complaint Procedure (p. 308)

Equal Employment Opportunity and Affirmative Action Statement

TMCC is an EEO/AA (equal employment opportunity/affirmative action) institution and does not discriminate on the basis of sex, age, race, color, religion, physical or mental disability, creed, national origin, veteran status, sexual orientation, genetic information, gender identity, or gender expression in the programs or activities which it operates. All operating policies of the College pertaining to, but not limited to, the instructional programs, student services programs, learning resources services and the employment of all professional, classified and student employees direct such nondiscrimination.

College Locations

TMCC serves the residents of Washoe County at five college sites (http://www.tmcc.edu/about/college-locations) located in the Reno area, in addition to partnership locations (http://www.tmcc.edu/schedule/classlocations).

Dandini Campus
Location: 7000 Dandini Blvd, Reno, NV 89512
Phone: 775-673-7111

Located in north Reno, the main Dandini Campus opened in 1976 as a comprehensive campus and offers instruction in general education, science and liberal arts, including regionally and nationally ranked allied health programs.

Applied Technology Center (EDSN)
Location: 475 Edison Way, Reno, NV 89502
Phone: 775-856-5300

Located in east Reno, the Applied Technology Center opened in 1999 and offers occupational courses and ongoing training in industrial and manufacturing systems, renewable energy, automobile, construction, diesel, electronic, environmental control technology and welding technology.

Meadowood Center (MDWS)
Location: 5270 Neil Road, Reno, NV 89502
Phone: 775-829-9004

Located in central Reno, the Meadowood Center opened in 2003 and provides academic courses, professional certification programs, and workshops, Adult Basic Education, English as a Second Language, general education, customized training and personal enrichment courses.

Nell J. Redfield Foundation Performing Arts Center (RPAC)
Location: 505 Keystone Avenue, Reno, NV 89503
Phone: 775-789-5671

Located in west Reno, the Nell J. Redfield Foundation Performing Arts Center opened in 2003 and houses the College’s performing arts classes, including Dance, Music and Theater.

William N. Pennington Health Sciences Center (HSC)
Location: 18600 Wedge Parkway, Reno, NV 8911
Phone: 775-850-4000

Located off Mount Rose Highway in south Reno, the William N. Pennington Health Sciences Center opened in 2005 as a joint campus with the University of Nevada, Reno, and houses the Nursing, Paramedic and Emergency Medical Services (EMS), Radiologic Technology and Veterinary Technician programs as well as offering general education courses.

TMCC High School

TMCC High School is one of several hundred early college high schools on a college campus for degree-seeking 10th, 11th, and 12th graders throughout the country. Students attend college classes along with select high school classes, then graduate high school with 30 or more transferable college units or an Associate’s degree. The high school is a partnership between TMCC and Washoe County School District and students enroll after a rigorous application process.
# Academic Calendar

This calendar is subject to change. For the most current calendar please visit the VPAA ([http://www.tmcc.edu/vpaa](http://www.tmcc.edu/vpaa)) Website and navigate to the Academic Calendar.

ADMISSION

Admission to the College

TMCC follows the Community College Admission – General Policy outlined in the NSHE Board of Regents Handbook, Title 4, Chapter 16, Section 18 (http://system.nevada.edu/tasks/sites/Nshe/assets/File/BoardOfRegents/Handbook/T4CH16StudentAdmissionRegistrationGradesandExaminations(1).pdf). Students wishing to enroll at TMCC must complete an Application for Admission, which includes a $20 non-refundable fee, and follow the Steps to Enroll (http://www.tmcc.edu/steps-to-enroll).

- New Degree-Seeking Student – You are seeking a degree and have never been to college, including TMCC.
- New Transfer Student – You have never been to TMCC, but have completed credits at another college or university.
- Returning Student – You are a previous TMCC student who stopped taking classes for at least two years and are returning.
- Non Degree-Seeking Student – You are not seeking a degree but are interested in taking classes for personal enrichment or career skills enhancement; you will not be eligible for financial aid, veterans education benefits, or some scholarships.
- Military/Veteran Student – You are a new or returning TMCC student, currently or previously active in the armed forces.
- High School Student – You are currently enrolled in high school and wish to enroll in one of TMCC’s signature programs for high school students.
- International Student – You are a new student from any country besides the United States and will have an F1 visa. International Students with F1 visas who are on TMCC I-20s must satisfy the conditions outlined in the NSHE Board of Regents Handbook, Title 4, Chapter 16, Section 19 (http://system.nevada.edu/tasks/sites/Nshe/assets/File/BoardOfRegents/Handbook/T4CH16StudentAdmissionRegistrationGradesandExaminations(1).pdf).

Degree-Seeking Status

To be admitted to TMCC as a degree-seeking student, students must meet one of the following criteria: be a graduate of a high school or its equivalent (certificate of attendance is not equivalent to high school graduation); or be a qualified international student.

Students who do not meet the above criteria will be admitted, but they will be assigned the status of non-degree seeking. Students who are non-degree seeking are not eligible to receive financial aid nor some scholarships.

Continuous Enrollment in Math and English Courses

The NSHE Board of Regents requires degree-seeking students to complete their college-level English and math courses within their first year of school. Students working towards a degree or certificate must be continuously enrolled in English and math until completing the college-level classes required for their program. This may include: ENG 101, ENG 113, BUS 106, BUS 108 for English and MATH 120, MATH 120E, MATH 126, MATH 126E, BUS 117 or COT 110 for Mathematics.

For more information, please see the Board of Regents Handbook, Title 4, Chapter 16, Section 1 (http://system.nevada.edu/tasks/sites/Nshe/assets/File/BoardOfRegents/Handbook/T4CH16StudentAdmissionRegistrationGradesandExaminations(1).pdf).

Students Who Do Not Qualify for Degree-Seeking Status

Students who are not high school graduates or its equivalent or who are not qualified international students and score below ENG 98 or ENG 112 and MATH 95 in the ACCUPLACER, will remain admitted as non-degree seeking. These students will be referred to:

- Math Skills Center (http://www.tmcc.edu/math-skills-center)
- English Skills Center (http://catalog.tmcc.edu/coursesaz/esc)
- Adult Basic Education (http://www.tmcc.edu/abe)
- English Language Learners Program (http://www.tmcc.edu/abe/ellesl-program)

Changing From Non Degree-Seeking to Degree-Seeking

To qualify for degree-seeking status, students must:

- Provide proof of satisfactory completion of 6 credits of college-level courses equivalent to general education as established in the Board of Regents Handbook Title 4, Chapter 16, Section 25 (http://system.nevada.edu/tasks/sites/Nshe/assets/File/BoardOfRegents/Handbook/T4CH16StudentAdmissionRegistrationGradesandExaminations(1).pdf); or
- Take the ACCUPLACER placement test and score a minimum course placement of ENG 98 or
- Request and present official ACT or SAT transcripts. Transcripts must show a minimum course placement of ENG 101 and MATH 120; or
- Take one of the three state approved HSE exams and present evidence of official HSE transcript showing successful completion.

Time Limitation for Degree-Seeking Undeclared/Undecided

Students are limited to “Degree-Seeking Undeclared/ Undecided” for two semesters, after which they must declare a degree or certificate. Fall, Spring, and Summer each count as one semester. Those who do not declare a degree or certificate will be placed into non-degree status. Students who are non-degree seeking are not eligible to receive financial aid, veterans education benefits, and some scholarships.
ENROLLMENT / REGISTRATION

Course Registration and Enrollment

Adding a Class

Any person wishing to enroll for courses taught by the College must register during the scheduled registration periods using my.tmcc.edu. Each semester, the College publishes a class schedule with detailed information on courses offerings, registration procedures and dates, and add/drop periods. Registration periods are assigned to students based on the number of completed credits.

Students may add classes through my.tmcc.edu during the published registration periods. After the registration period, students may continue to add classes until the 100% refund period, but instructor permission may be required. After the 100% refund period and until the 50% refund period, a student must have instructor and department chair or coordinator permission to enroll. Registration after the 50% refund period requires approval of the department chair or coordinator and the academic dean.

Students who add classes or register late become immediately responsible for these class fees. Refunds are based on the times the class has met and not on attendance. See the Refund Policy (http://www.tmcc.edu/admissions/policies) for more information. It is important for students to verify the accuracy of their enrollment schedules and fees any time a change is made.

Attendance

Because instructors consider class attendance an integral part of the learning experience, students are required to attend the first class of each course in which they register and adhere to the attendance policy established by the course instructor and stated in the course syllabus. **It is the student's responsibility to withdraw from classes they are unable to attend.** During the 100% refund period, an instructor may, but is not required to, drop a student for non-attendance and/or not meeting the prerequisites for a class. For policy governing non-attendance for religious obligations, please refer to Religious Holiday Observations (p. 329).

Date of Matriculation

A student’s date of matriculation is the date of the first day of instruction in the semester or term in which enrollment first occurs. Registration in continuing education courses, which are not state funded, will not cause out-of-state tuition to be assessed, nor will enrollment in these courses be included in the date of matriculation for evaluation of residence.

Concurrent Enrollment

Veterans, international students and financial aid students who are concurrently enrolled at TMCC and any other post-secondary institution must notify the appropriate office which school is the parent institution and provide verification of fees paid and credits earned at the other institution.

Semester System

Units earned at TMCC are awarded on the basis of semester units. A regular Fall or Spring semester consists of 15 weeks. Summer and Winter sessions are offered in condensed timeframes but maintain a regular semester’s number of instructional hours and workload.

Credit/Unit Load

All classes taken for credit constitute the total credit load for each student. The maximum number of units a student may carry without the approval of an academic advisor is 18 units during the Fall/Spring terms and 14 units during Summer term (seven units per Summer session). A student wishing to carry more than 18 units in Fall/Spring and 14 units during Summer term must have a grade point average of 3.0 or higher, have completed one semester at or above full time enrollment (12 or more units) and get approval from an Academic Advisor.

Withdrawing from Class

Refunds for withdrawing from classes are based on the times the class has met and not on attendance. During the 100% refund period, an instructor may drop a student for non-attendance and/or not meeting prerequisites; in this case, no grade will appear on the student’s record.

If a student drops during the 100% refund period, no grade will appear on the student’s record. See the Refund Policy (http://www.tmcc.edu/admissions/policies) for additional information. A student may choose to withdraw from a course up to the midpoint (60%) of a course. After that period, a "W" is assigned to the course and no refund will be permitted. There may be conditions under which a student will be administratively withdrawn from a course. Date of last attendance will be recorded in MyTMCC (http://my.tmcc.edu).

Auditing a Class

A student who wishes to enroll for no credit may register as an auditor. An auditor pays regular fees and thereby has access to the classroom and course materials. A student who audits a course will not receive a grade or credit for that course. Students may change from credit to audit or audit to credit by completing the Audit Form (http://www.tmcc.edu/admissions/downloads) online and must do so by the last day to withdraw from a class.

Cancellation of Classes

The College reserves the right to cancel any class. Students will automatically receive a full refund for a canceled class.

Enrollment Status

Enrollment Verification

Truckee Meadows Community College has authorized the National Student Clearinghouse to act as our agent for all verifications of student enrollment. Please visit the Clearinghouse (http://www.studentclearinghouse.org) or contact them by phone at 703-742-4200.

Full-time, Part-time students

The enrollment status of students is determined by the number of units, excluding workforce development and continuing education units, in which they officially enroll each semester.

<table>
<thead>
<tr>
<th>Enrollment Status</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-time</td>
<td>12 units or more</td>

</table>

Developmental/Remedial Credit

NSHE Policy on Developmental/Remedial Credit

Per the Board of Regents Handbook, Title 4, Chapter 16, Section 3.1:

All degree-seeking students who place into developmental/remedial coursework must take the prescribed sequence of courses until remediation is completed. Students requiring remediation must complete all required coursework prior to completion of 30 college-level units unless otherwise authorized by the institution.

Important: If students do not complete required developmental/remedial coursework before completing 30 units they must pay for the remedial classes on their own. Financial Aid cannot fund developmental/remedial courses once the student has attempted 30 units.

Developmental Courses

TMCC offers the following developmental courses. Course descriptions may be found in the appropriate section of the catalog.

<table>
<thead>
<tr>
<th>Subject</th>
<th>Course Code</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>ENG 98</td>
<td>Preparatory Composition</td>
</tr>
<tr>

<td>ESL Grammar</td>
</tr>
<tr>
<td>Mathematics</td>
<td>MATH 95</td>
<td>Elementary Algebra</td>
</tr>
<tr>
<td></td>
<td>MATH 96</td>
<td>Intermediate Algebra</td>
</tr>
</tbody>
</table>

Students placing into ENG 101/ENG 113 or above but who place below standard in arithmetic must take the prescribed sequence of developmental math courses until completed. Likewise, students placing into MATH 120 or above but who place below standard in reading must take the prescribed sequence of developmental English courses until completed.

Online Developmental Course Registration Policies

Online Developmental English

Registration for online ENG 98 requires an ACCUPLACER score of 76-85.

Online Developmental Math

Registration for online developmental math classes is by departmental permission and limited to students who meet the following three requirements:

1. The student has not dropped or failed the class before, or the student has a minimum GPA of 3.0.
2. The student has a grade of A or B in the prerequisite class, or a qualifying ACCUPLACER math, ACT math or SAT math score, taken within the past two years.
3. The student has a minimum ACCUPLACER Reading score of 86 and a minimum ACCUPLACER Essay Sample score of 5 (or a minimum score of 440 on both the SAT Reading and Writing tests, or a minimum score of 18 on both the ACT Reading and Writing tests) or a C or higher in ENG 98, taken within the past two years.

Students who meet these requirements are advised to contact the Math department.

Satisfactory/Unsatisfactory Registration Option

Any student may choose to take any course on an S/U basis, but no course taken for a satisfactory/unsatisfactory grade (except those offered S/U ONLY) may be used to satisfy any TMCC general education or core requirements.

A maximum of six elective units graded S/U may be used to satisfy credit requirements for any degree or certificate earned at TMCC.

The Satisfactory/Unsatisfactory change form is available at Admissions and Records Documents and Forms. (http://www.tmcc.edu/admissions/downloads)

Courses only offered on an S/U basis will be approved by the College and published as such in the class schedule. Examples of these courses include those in which experience, not mastery is evaluated (field trips, physical education) or in which prerequisites disallow novices from enrolling (advanced field study or practicum).

Math/English Placement Testing

Initial Placement of Students into Math and English Courses

Degree-seeking students who meet or exceed the minimum English or mathematics scores on any one of the college readiness assessments listed below must be placed into a college-level course in that subject.
and are exempt from being placed into any form of remedial instruction in that subject provided that the student:

1. Was continuously enrolled in an English course and a mathematics course in his or her senior year of high school unless an exception is approved on a case by case basis by an NSHE institution; and
2. Enrolls in an NSHE institution after high school in any term (summer/fall/winter/spring) during the academic year following high school graduation.

For more information, please see the Board of Regents Handbook, Title 4, Chapter 16, Section 1 ([http://system.nevada.edu/tasks/sites/Nshe/assets/File/BoardOfRegents/Handbook/T4CH16StudentAdmissionRegistrationGradesandExaminations(1).pdf](http://system.nevada.edu/tasks/sites/Nshe/assets/File/BoardOfRegents/Handbook/T4CH16StudentAdmissionRegistrationGradesandExaminations(1).pdf)).

**ACCUPLACER**

Students planning to enroll in math and/or English classes at TMCC and who do not have current ACT/SAT test scores (less than two years old) should take the ACCUPLACER placement exam unless they meet the Alternate Pathways requirements described below. Many courses at TMCC require specific ACCUPLACER math and/or English scores as prerequisites for registration. Students may waive the ACCUPLACER requirement with ACT and/or SAT scores that are less than two years old. Official ACT and/or SAT scores must be submitted to the Admissions and Records Office.

**Alternate Pathways**

Washoe County School District (WCSD) high school graduates that are new students at TMCC can use Alternate Pathways for placement into college-level English and math courses within 2 years of high school graduation.

- WCSD graduates with an overall unweighted GPA $\geq 3.0$ may enroll in ENG 101, Recommended READ 135 or ENG 113, Recommended Non-Native READ 135.
- AP English course (passing with “C” or better) may enroll in ENG 101, Recommended READ 135 or ENG 113, Recommended READ 135.
- WCSD graduates with an overall unweighted GPA $\geq 3.0$ and complete Intermediate Algebra (Algebra 3-4 in WCSD) with a grade of B or higher may enroll in MATH 120 or MATH 126.

Students must have an active admission application and valid government-issued photo identification to take the ACCUPLACER exam at TMCC. ACCUPLACER testing is offered at Testing Services on a walk-in basis.

ACCUPLACER test scores take up to three business days to post to student accounts. Students will not be able to register for classes that have ACCUPLACER scores as prerequisites until scores are posted.

**Accommodations for Documented Disabilities**

If you are a student with a documented disability and would like to receive accommodations for the ACCUPLACER/Placement test, please schedule an appointment with the Disability Resource Center (DRC) to present your documentation before you take the ACCUPLACER/Placement test. Under the Americans with Disability Act (ADA), any student who needs accommodations which require special testing environments should be scheduled well in advance of the start of the term; requests within three weeks prior to the start of the term may not be possible to schedule.

**Course Placement Scores**

The highest valid score within the past twenty-four month period will determine course placement for students. TMCC’s English and Math Departments determine the ACCUPLACER cut score information for new and continuing students. Please see the respective English Department ([http://www.tmcc.edu/english/placement-and-test-prep](http://www.tmcc.edu/english/placement-and-test-prep)) and Math Department ([http://www.tmcc.edu/math/placement-and-test-prep](http://www.tmcc.edu/math/placement-and-test-prep)) web pages for course placement scores and policies. TMCC reserves the right to change course placement scores.

**Transfer to TMCC**

**Transferring in Credit**

TMCC accepts credit/units from a variety of training and educational programs toward an associate degree and/or certificate of achievement.

The maximum number of units allowed for transfer from all sources is 45 units per degree. The maximum number of units possible in each category is:

- From other colleges and universities: 45 units
- From credit by examination: 30 units
- From nontraditional sources: 15 units or a maximum of 25% of the total units required for the degree

Transcripts received from other colleges or universities must come directly from that school to the Admissions and Records Office to be classified as official transcripts. TMCC accepts official transcripts from students provided the envelope is not open. All other transcripts will be considered unofficial and will not be evaluated. For the full policy, see the Transfer Credit Policy on the Evaluation of Previous Training and Education (p. 338) section of this College Catalog.

**Credit by Exam**

TMCC accepts the following examinations for students attempting to earn college-level credit. Please refer to the section on Transfer Credit Policy on the Evaluation of Previous Training and Education (p. 338) and Credit by Examination Procedures ([http://www.tmcc.edu/admissions/downloads/credit-by-exam](http://www.tmcc.edu/admissions/downloads/credit-by-exam)) for more detail.

- ACT-PEP (Proficiency Examination Program)
- CBAPE (Advanced Placement)
- CLEP (College Level Examination Program)
- DANTES (Defense Activities for Nontraditional Education Support)-Subject Standardized Tests
Department Exams

A currently admitted student may petition for a departmental examination in certain courses approved by the College. Credit by Examination Procedure (http://www.tmcc.edu/admissions/downloads/credit-by-exam) is detailed in the Admissions and Records website. The credit by examination petition may be obtained from the Admissions and Records Office. The student must complete the petition and return it with the necessary fee. It will be approved or disapproved in accordance with the policies listed in Transfer Credit Policy on the Evaluation of Previous Training and Education (p. 338). Upon approval by the Admissions and Records Office, the petition will be forwarded to the department in charge of administering the examination. The examination is prepared by the department of the College responsible for instruction of the course. The examination will be comprehensive in nature, covering all the basic skills required of a student completing the course in the regular manner. Lists of courses (http://www.tmcc.edu/admissions/downloads/credit-by-exam) approved for department examinations and related fees are available in the Admissions and Records Office.
TUITION AND FEES

Tuition and Fees

Fees, Tuition and Other Charges Subject to Change Without Further Notice

Fees and tuition are set by the Nevada System of Higher Education Board of Regents (http://system.nevada.edu/Nshe/index.cfm/administration/board-of-regents/current-regents1) and are subject to change. Notwithstanding currently posted tuition and fees, all fees, tuition or other charges that students are required to pay each semester are subject to increase by action of the Board of Regents at any time before the commencement of classes (primarily due to budgetary shortfalls).

The amount charged at the time of registration is not a final bill and may be increased. You will receive a supplemental invoice for any additional amounts which the Board of Regents may impose. Fee changes put in place less than 30 days before commencement of classes will not be subject to late fee penalties.

Tuition and Fee Schedule

The following fees are in effect for the 2017 - 2018 school year.

Note: Auditors pay the same per-unit fees.

Books and Supplies: plan on spending an additional $300-$400.

Parking: at TMCC, parking is free.

Detailed Fee Information

Residency for Tuition Purposes

Pursuant to the passage of Senate Bill 32 (Chapter 374, Statutes of Nevada 2005), as of July 1, 2005, a financially independent student must be a bona fide resident of the State of Nevada for at least 12 months prior to matriculation to qualify for in-state tuition. Further, for a dependent student to qualify for in-state tuition, the student’s family must be a Nevada resident. Please contact the Admissions and Records Office (http://www.tmcc.edu/admissions) (http://www.tmcc.edu/admissions) for further details.

Nonresident Tuition

Students classified as nonresident students taking seven or more units shall pay nonresident tuition ($3,389.00/semester) plus per unit registration fees. Registration in Workforce Development and Community Education (WDCE) and Summer courses, which are not state-funded, shall not cause tuition to be assessed, nor shall enrollment in WDCE courses be included in date of matriculation for evaluation of residency. Students who plan to register for courses with TMCC as Nevada residents must provide proof of residency according to the regulations of the Nevada System of Higher Education. This is in conformity with Sections 10.020 and 396.540, Nevada Revised Statutes. Residency requirements can be obtained from the Admissions and Records Office (http://www.tmcc.edu/admissions). The regulations for determining residency and tuition charges are described in the Board of Regents Handbook, Title 4, Chapter 15, Section 3 printed in Regulations for Determining Residency and Tuition Charges of this College Catalog.

Application Fee

A $20 one-time, non-refundable fee is charged to first-time TMCC students only. This fee cannot be refunded, even if classes are full or you dropped or canceled your classes.
Excess Credit Fee
An Excess Credit Fee shall be charged to a student who has attempted credits equal to 150 percent of the credits required for the student's program of study. The amount of this additional fee is equal to 50 percent of the per credit registration fee. Attempted credits include all graded courses on a student's transcript, including but not limited to the grades of F and W (withdrawal) and repeated courses.

The fee will be charged, for example, after 90 credits have been attempted towards a 60-credit associate's degree or 45 credits towards a 30-credit certificate program.

Exceptions may apply on a case-by-case basis. The fee will be charged in all terms after passing the threshold number of credits until a degree is awarded to the student. Appeal procedures and other exceptions to this fee are outlined in the TMCC College Catalog.

See Also: NSHE Excess Credit Fee Appeal form (http://system.nevada.edu/Nshe/index.cfm/administration/academics-student-affairs/forms/excess-credit-fee-forms) | Policies and Procedures: Tuition Charges, Definitions, Excess Credit Fee

Western Undergraduate Exchange (WUE)
The Western Undergraduate Exchange (http://wue.wiche.edu) (WUE) is a program of the Western Interstate Commission for Higher Education (http://www.wiche.edu) (WICHE). Through WUE, students in western states may enroll in many two-year and four-year college programs at a reduced tuition level: 150 percent of the institution's regular resident tuition. To be eligible for WUE, students must be a resident of a WICHE State. Some colleges and universities have additional criteria. For further information about specific programs in WUE, contact the Admissions and Records Office (http://www.tmcc.edu/admissions).

Out-of-State Tuition
Fees are calculated as follows: if students take fewer than seven units, they will be charged per unit. If students are taking seven or more credits, they will pay the In-State Fee rate per unit and an additional $3,389.00 per semester.

Distance Education/Out-of-State Tuition
Students who physically reside outside the state of Nevada and who take online classes only may be eligible for a special distance education rate. To apply, students should submit the Request for Distance Education Special Tuition Rate form (http://www.tmcc.edu/admissions/downloads) to the Admissions and Records Office.

Lab and Special Fees
Some classes have additional lab fees or costs for supplies; refer to the class schedule (http://schedule.tmcc.edu) for details. These fees are added to the per-credit class fees.

Technology Fee
Fees printed in the class schedule include the $6.50 per credit technology fee approved by the NSHE Board of Regents (http://system.nevada.edu/Nshe/index.cfm/administration/board-of-regents).

TMCC Fitness Center
Students attending TMCC or other NSHE institutions may purchase a semester TMCC Fitness Center (http://www.tmcc.edu/fitness) pass from Accounting Services for $50 for the Spring/Fall Semester and $30 for the summer term. Day passes are also available for $5/day.

Fitness Center Refund policy: 100% during first week of purchase. After the first week, no refunds, no exceptions.

UNR Lombardi Recreation Center Fees
TMCC students enrolled in seven or more units may purchase a semester pass to the Lombardi Fitness Center at UNR. Please call the Lombardi Center at 775-784-1225 for more information.

Workforce Development and Community Education (WDCE) Course Fees
Registration fees for WDCE courses are variable to cover the cost of the instructor's salary, supplies, equipment and overhead. Fees are payable in full at the time of registration. Please see TMCC's Workforce Development and Community Education (http://www.tmcc.edu/wdce) program for more information.

Payment

Payment Information
Students should log in to MyTMCC (http://my.tmcc.edu) to find out how much they owe. During the early registration period, students must pay their fees by the published deadline. If a student enrolls after the early registration period they must pay your fees two days after they register. If a student does not pay by the deadline, their enrollment may be canceled.

TMCC Payment Plan
TMCC offers a 4- or 5-part payment plan to any student who owes $200 or more of eligible charges on their student account (current semester charges). Students can select which plan is best for them. The plan divides the balance into four or five equal installments. A student's enrollment may be canceled if any payment is not made on time. Please log in to MyTMCC (http://my.tmcc.edu) to sign up. Payment plan is available during Spring and Fall semesters. It is not available for summer semester.

Unpaid Fees and Delinquent Accounts
All fees must be paid by the due date. If a student does not pay, their enrollment may be canceled. Any balance due that is not covered by a payment plan or awaiting anticipated aid may be subject to a penalty fee of a minimum of $10 up to a maximum of $100 per semester. If a student owes any money to any NSHE institution, you are ineligible to register or receive a transcript, diploma or certificate. Delinquent accounts may be forwarded to a collection agency.

Federal/State/Employer Paid Programs
Students must submit the payment authorization from the paying party to the Cashier’s office on or before the Friday of the week that they register.

Ways to Pay
1. Credit and Debit Card (Visa, MasterCard, Discover or American Express) payments and e-check payments may be made online. Log in to MyTMCC (http://my.tmcc.edu) and follow the instructions carefully. Declined credit card and e-check transactions are reversed from the student's account, leaving the balance due and payable immediately. Outstanding balances are subject to the unpaid fees and delinquent accounts policy and may result in a student's enrollment being canceled.
2. Personal check payments (not made online) are accepted. Make checks payable to "Board of Regents" and write the student's NSHE ID number on the check. TMCC assesses a $25 collection fee on returned checks.
3. Pay by mail. Checks must be received by Accounting Services in time to be processed by the posted due dates and times. Make checks payable to "Board of Regents". Mail to: Accounting Services/Cashier's Office Truckee Meadows Community College 7000 Dandini Blvd., RDMT 318 Reno, NV 89512

4. Bring payment to Accounting Services/Cashier's Office, or the TMCC Cashier drop box to avoid lines. The drop box is located on the Dandini Campus (http://www.tmcc.edu/about/college-locations), Red Mountain Building, room 318.

Please contact Accounting Services (http://www.tmcc.edu/accounting-services/contact) with any questions regarding student fees or tuition. To pay fees online, please log in to MyTMCC (http://my.tmcc.edu).

Refunds

Refund Policy

Students who do not attend or stop attending their classes and fail to withdraw through MyTMCC (http://my.tmcc.edu) within the refund periods will be held responsible for all tuition and fees. Refunds for withdrawing classes are based on the number of times that the class has met and not the number of times that a student has attended.

Instructor withdrawals do not remove charges.

Withdrawals during the 100% refund period remove the class and grade from transcripts.

Withdrawals that result in any monies still owed will result in classes remaining on transcripts and a grade of W.

Refund Periods

**Fall/Spring Terms - Regular/Dynamic Extensive (DYE)**

- 100% refund if the class is dropped through MyTMCC (http://my.tmcc.edu) by 11:59 p.m. on the Sunday of the first official start date of classes.
- 50% refund if the class is dropped through MyTMCC (http://my.tmcc.edu) by 11:59 p.m. on the Sunday of the third week from the official start date of classes.

**Fall/Spring Terms - Dynamic (DYN)**

- 100% refund if the class is dropped through MyTMCC (http://my.tmcc.edu) by 11:59 p.m. on the first official start date that the class meets.
- 50% refund if the class is dropped through MyTMCC (http://my.tmcc.edu) by 11:59 p.m. of the first 20% of the class period starting from the first official start date of classes.

**Fall/Winter/Spring Terms - Dynamic Intensive (DIY)**

- 100% refund if the class is dropped through MyTMCC (http://my.tmcc.edu) by 11:59 p.m. the day before the first official start date of classes.

**Summer Courses (Lasting Five Weeks)**

- 100% refund if the class is dropped through MyTMCC (http://my.tmcc.edu) by 11:59 p.m. on the first official start date of classes.

- 50% refund if the class is dropped through MyTMCC (http://my.tmcc.edu) by 11:59 p.m. of the first 20% of the class period starting from the first official start date of classes.

**Cancelled Courses**

No action is required by the student. Students will receive a 100% refund.

Refund of dropped classes are issued after the third week of instruction.

Refunds related to credit card payments are refunded back to the credit card that was used to make the payment. Refunds for cash or check payments are made to direct deposit if a student has set this up in MyTMCC (http://my.tmcc.edu); otherwise a check is issued. All check refunds are mailed to the student's current on-file address.

**Refunds for Exceptional Circumstances**

Students are responsible for either paying for, or officially withdrawing online from, each class in which they register, even if they do not attend. If a student fails to withdraw online during the full-refund period, they will be responsible for all tuition and fees.

In the case of exceptional circumstance, upon presentation of documentation and approval of the president or the president’s designee, a refund of the registration fees and nonresident tuition for a semester may be given upon official withdrawal made at any time during the semester in the following instances:

1. Deployment of the student in the United States Armed Forces or Nevada National Guard;
2. An incapacitating illness or injury which prevents the student from returning to school;
3. Death or incapacitation resulting from an illness or injury of the student, or spouse, child, parent, or legal guardian of the student that prevents the student from returning to school;
4. Verifiable error on the part of the institution;
5. Involuntary job transfer outside the service area of the institution as documented by employer, or;
6. Other exceptional circumstances beyond the control of the institution or the student.

Refunds are made to the student or to the contributing party in proportion to the payment of original fees made by each.

Students may apply for an exception to the refund policy within a semester, whether or not they have dropped the class(s) online.

Students may apply for an exception to the refund policy within 90 days after the end of a semester provided they have dropped the class(s) online.

Students may not apply for an exception to the refund policy after 90 days from the end of a semester.

**Refunds for WDCE Courses**

Workforce Development and Community Education (http://www.tmcc.edu/wdce) (WDCE) programs adhere to different refund policies. Please consult WDCE’s course guide for refund details.
FINANCIAL AID, SCHOLARSHIPS AND STUDENT EMPLOYMENT

Financial Aid Eligibility and Application

Although the student and the student’s family have the primary responsibility for financing the costs of education, there is some aid available through TMCC for those families who cannot meet the total costs. This aid is available in the form of grants, loans, scholarships, student employment or a combination of these. These programs are regulated by federal (Title IV), state and campus guidelines.

Eligibility
Most of the financial aid guidelines specify eligibility requirements, which include, but are not limited to the following:

- Be a citizen, permanent resident or other eligible non-citizen of the United States, as documented by the Department of Homeland Security.
- Have earned a high school diploma or passed a state-approved high school equivalency exam.
- Be accepted to or registered in a financial aid-eligible degree, emphasis, or certificate program at the TMCC Admissions and Records Office.
- Not be in default or owe repayment on any Title IV loans.
- Not be in default or owe a repayment on any Title IV loans or grants.
- Be enrolled in classes that will apply to the declared degree, emphasis, or certificate requirements (not to include Workforce Development and Community Education classes).
- Certify that you have not been convicted of violating any federal or state drug possession or sale laws, while receiving Title IV funding.
- Provide any other documents, as required.

Note: Adjusted Diplomas and Certificates of Attendance are not considered equivalent and students are advised to take a high school equivalency exam.

Students who do not specifically meet any of the eligibility requirements may still be eligible for some types of aid and should see a financial aid coordinator to discuss their special circumstances.

Financial Aid Application Priority Deadlines

Financial Aid
To receive consideration for all Title IV and other financial aid funds students should apply as soon as possible beginning October 1 of the year prior to the year in which they plan to attend. Most awards are made on a first-come, first-served basis. Students must have a completed file and be eligible by July 1 for Fall, December 1 for Spring, or April 15 for Summer, in order for financial aid to disburse in time to pay fees.

Otherwise, financial aid awards may arrive after classes begin and students will be responsible for paying their own fees and buying their own books and supplies. If payment is not made by the date fees are due, the student will be dropped from all their classes. If a student is determined to be eligible after these dates and is enrolled, they will receive their financial aid award as a reimbursement.

Scholarships
Many scholarships are available to students. The TMCC Foundation General scholarship application has an annual due date of March 1.

Student Employment
Student employment and work-study positions are posted all year at studentjobs.tmcc.edu, but are filled according to job and fund availability and the qualifications of the applicant.

Financial Aid Application Process
Please refer to the Applying for Financial Aid webpage.

Types of Financial Aid, Scholarships, and Student Employment

Please refer to the Financial Aid Website for more information on:

- Grants
- Loans
- Work Study
- Scholarships
- Student Employment

Academic Progress Standards for Financial Aid Students

Federal and State regulations require all financial aid recipients to meet established progress standards. For complete details, please review the Financial Aid Academic Progress Policy.

Financial Aid Refund Policy

Students receiving aid may have their financial aid adjusted if they withdraw, stop attending or receive outside financial assistance. This can result in an overpayment and may require students to repay all or a portion of their financial aid funds. For more information, please visit the Financial Aid website.

Financial Aid Student Rights and Responsibilities

Financial Aid Student Rights

Students have an equal opportunity to receive financial aid. After submitting a proper application, students are entitled to expect an equitable determination for eligibility of available funds. Each student’s application is individually reviewed using the same evaluation criteria.

Students have the right to have access to information about all types of aid available at TMCC and their minimum requirements for eligibility, as well as other important Consumer Information Disclosures.
Students have a right to information regarding repayment schedules and interest rates for loans. This information is available in financial aid publications, but it is still important for students to read their own promissory notes carefully before signing.

Students have the right to appeal decisions made by the Financial Aid Office to the Financial Aid Appeals Committee.

**Financial Aid Student Responsibilities**

Students receiving financial aid from TMCC are required to accept certain responsibilities in order to receive their aid packages and/or maintain eligibility for continued aid awards. Students must check their To Do lists and Financial Aid status in MyTMCC (http://my.tmcc.edu) on a regular basis, as well as checking their TMCC email (http://www.tmcc.edu/email) regularly.

**Enrollment**

Students must be enrolled in a degree, emphasis, or certificate program. Any changes may result in the loss of eligibility and a delay in aid received. Workforce Development and Community Education classes are not considered part of the credit load nor in the completion rate.

**Important Federal Regulation**

Federal regulations mandate that funds only pay for classes that are required for a student’s declared program(s) of study. You will only receive financial aid for classes that are required for your degree program. You may still enroll in any class you want; however, your financial aid funding will be reduced to cover only those classes that are counted in your Academic Requirements report. If you receive a financial aid refund, you may authorize it be used to pay for additional classes not required for your degree.

<table>
<thead>
<tr>
<th>Enrollment Status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>FULL TIME</td>
<td>If a student’s award is based on full-time enrollment, the student must maintain 12 or more units.</td>

</tr>
<tr>
<td>LESS THAN 1/2 TIME</td>
<td>If a student’s award is based on less than half-time enrollment, the student must maintain 1-5 units.</td>
</tr>
</tbody>
</table>

See the Satisfactory Academic Progress Policy (p. 332) for a complete, detailed explanation of satisfactory academic progress.

**Change of Status**

Students are required to notify the TMCC Financial Aid Office in writing of any event that may alter their financial status such as a change of residency, receipt of additional educational benefits or acceptance of a scholarship. If it is determined that a student received money that exceeded his/her eligibility, the student is liable for repayment of the over-awarded amount.

Students should contact the Admissions and Records Office to report any changes in name or degree, emphasis, or certificate. Address changes can be made on my.tmcc.edu. This will ensure that the student receives all correspondence from the College and meets financial aid requirements.

Students are limited to “Degree-Seeking Undeclared” for two semesters, after which they must declare a degree or certificate. Fall, Spring and Summer each count as one semester. Those who do not declare a degree or certificate will be placed into Non-Degree status. Students who are non-degree seeking are not eligible to receive financial aid, veterans education benefits, and some scholarships. Students who are unsure of their career path should contact Career Services in the Counseling Center for assistance at 775-673-7060.

**Proper Use of Funds**

Financial aid funds are to be used for education-related expenses only. Direct educational costs are tuition, fees, books and supplies. Indirect educational costs include expenses for room and board, transportation and other applicable living expenses incurred while attending TMCC.
# Grades

## Grading Scale

</table>

The grade point value associated with each grade denotes how many points are accumulated for each credit earned with that grade. The grade point average is determined by dividing the sum of the grade points earned by the total number of units earned with a regular letter grade.

Individual faculty members choose whether to use the “plus” and “minus” grades. Students are informed of the instructor’s choice of grading scale at the beginning of the class in the course syllabus. Students may not appeal the format an instructor chooses. The following marks are also part of the grading system, but carry no grade point value.

- **P (Pass)**
  - Workforce Development and Community Education, developmental/remedial, credit-by-exam courses, or nontraditional credit only

- **S (Satisfactory)**
  - C or above

- **U (Unsatisfactory)**
  - D or below

- **I (Incomplete)**
- **IP (In Progress)**
- **AD (Audit)**
- **W (Withdraw)**
  - Student withdraws by the midpoint of the course. Date of last attendance is recorded in MyTMCC.

- **NR (Not Reported)**
  - Assigned by Registrar pending submission of final grade by instructor.

- **R (Replaced)**
  - Individual course grade replaced under academic forgiveness. Will not calculate into GPA.

## Grade Reports, Incomplete Grades and Grade Appeals

### Grade Reports

Students can access grades and print a copy of their grade report at my.tmcc.edu (http://my.tmcc.edu) approximately one week after the end of term. To receive a complete summary of their academic history, students should request an official transcript.

### Incomplete Grades

A temporary grade of Incomplete (I) may be granted to a student at the end of the semester if the student is performing passing work in the course, and there are extenuating circumstances (beyond the student’s control) that prevent the student from completing the course requirements by the end of the instructional period. Non-attendance, poor performance or requests to repeat the course are unacceptable reasons for issuance of the “I” grade. A class with an “I” grade cannot be used as a prerequisite for another class. A conference between the instructor and the student should be held prior to the due date for grades at the end of the semester and a detailed statement describing the work to be completed must be signed by the instructor and the student, and department chair or dean. Students have until the last day of the next regular semester to complete all agreed upon work for a course in which they receive an Incomplete. (Summer and Winter sessions are not defined as a semester for this purpose.) Failure to do so will result in the Incomplete grade being changed to an ‘F’ grade. Students must make arrangements with the instructor who originally issued the incomplete or, if the instructor is not available, the department chair or dean to complete the requirements.

### Grade Appeals

**Location:** Vice President of Academic Affairs Office, Sierra Building 200 I  
**Phone:** 775-673-7090  
**Fax:** 775-674-7691  
**Website:** http://tmcc.edu/vpaa

Every student has a right to receive a grade assigned upon a fair and unprejudiced evaluation based on a method that is neither arbitrary nor capricious; and the purpose of the Grade Appeal Policy (http://www.tmcc.edu/vpaa/policies-and-procedures/grade-appeal) is to provide the student with a safeguard against receiving an unfair final grade, while respecting the academic responsibility of the instructor. Thus, this policy recognizes that:

- Instructors have the right to assign a grade based on any method that is professionally acceptable, submitted in writing to all students, and applied equally.

A grade appeal shall be confined to charges of unfair action toward an individual student and may not involve a challenge of an instructor’s grading standard.

This policy does not cover instances where students have been assigned grades based on academic dishonesty or academic misconduct. For grade appeals alleging discrimination, harassment or retaliation in violation of TMCC’s Sexual Harassment Policy (p. 308), please contact the Equity and Inclusion Office (http://tmcc.edu/diversity).
A student who wishes to appeal the grade must do so within 90 days of the official ending date of class. The academic dean’s decision on a grade appeal is final.

**Satisfactory Academic Progress**

Students progressing towards a degree, emphasis, or certificate at Truckee Meadows Community College must maintain a minimum cumulative grade point average of 2.0, which is equivalent to an average grade of C, to be considered making satisfactory academic progress and remain in “good standing.” Students who meet the satisfactory academic progress requirements are considered to be in “good standing” status.

This policy applies to all degree-seeking or certificate-seeking students. Additional progress standards for veterans, scholarship awardees and financial aid recipients are also applied as appropriate.

See the Satisfactory Academic Progress Policy (p. 332) or Vice President for Academic Affairs (http://www.tmcc.edu/vpaa) to review the policy in its entirety.

**Course Retake and Grade Replacement**

**Course Retake**

Students have the right to retake any course and have only the highest grade used in the computation of their total grade point average. Students will not receive duplicate credit for retaken courses. Students who are receiving financial aid or Veterans benefits should consult with the appropriate office from which they are receiving aid before retaking a course.

For financial aid, students may repeat a course no more than one time, after which they may not receive funding for that class.

**Grade Replacement**

A student who has repeated a course may petition to have the higher grade remain on his/her transcript and have the lower grade changed to an "R" to indicate the course was retaken. Both the original and repeated course must be completed at TMCC. Students may replace up to 12 units of coursework. A "W" is considered an action, not a grade, and cannot be replaced by an "R." A student’s academic standing (Dean’s list, probation, suspension, etc.) cannot be retroactively changed by retaking courses.

Students may not apply for grade replacement for courses in which they received a sanction for academic dishonesty.

Procedures: A student must submit a Grade Replacement Request for Repeated Courses to the Admissions and Records Office after completing the repeated course and the new grade has posted. Additional information is available from the Admissions and Records Office.

Students must submit a completed Grade Replacement Request Form (http://www.tmcc.edu/admissions/downloads) online to the Admissions and Records Office; or, the form can be printed and submitted via fax, as a scanned document sent via email, or in person.

**Academic Forgiveness**

Students may petition, one time only, to have up to two consecutive semesters worth of units adjusted on their academic record. The names of the courses will remain on the transcript, grades will be converted to “W” and a notation will be placed on the record indicating that a petition was filed and academic forgiveness granted for the semester(s) indicated. Selected grades for the semester(s) will be converted and the forgiven coursework will not calculate into the TMCC GPA.

**Procedure**

To receive academic forgiveness one year needs to have passed following the semester(s) forgiven. A minimum of 15 units need to be completed with a cumulative minimum GPA of 2.2 in the interim. Transfer work can be considered and transcripts need to be submitted.

Students must complete the Academic Forgiveness form (http://www.tmcc.edu/admissions/downloads). The completed form must be submitted to the Admissions and Records Office in person, by fax, or as a scanned document sent via e-mail.
GRADUATION

Choice of Catalog for Graduation

Students may elect to graduate under one of the following catalogs as long as the catalog selected is not more than 6 years old. Students may not use a combination of course catalogs for graduation. Summer session is included in the previous course catalog year, i.e., Summer 2018 would be under the 2017-2018 course catalog.

- **Matriculation**: The catalog in effect the year that a student initially attends a class at TMCC. Workforce Development and Community Education (WDCE) and Career and Technical Education (CTE) College Credit classes do not apply towards initial attendance / enrollment.
- **Degree Declaration**: The catalog in effect the year a student officially declares a degree, emphasis or certificate.
- **First Offered**: If a degree, emphasis or certificate is offered for the first time after a student has matriculated, they may follow the catalog requirements for the year it is first offered.
- **Graduation**: The catalog in effect the year that a student will graduate. Nursing, Radiologic Technician, Dental Assisting, Dental Hygiene and Veterinary Technician programs require students to graduate under the course catalog year they were accepted into the program. If students interrupt their college studies for more than two consecutive semesters, including Summer session, the College encourages them to meet the requirements of the course catalog year under which they will complete the requirements for the degree, emphasis, or certificate.

Transferring in Units Towards Graduation

Students wishing to apply units earned at other institutions must submit an official transcript showing the posted grades to the Admissions and Records Office and complete the Credit Evaluation for Transfer Student form. Transcripts showing courses “in progress” may not be used towards graduation.

Graduation Requirements

Students must satisfy all of the following requirements to earn a degree or certificate of achievement at TMCC:

1. Submit a completed Application for Graduation (http://www.tmcc.edu/admissions/graduation-commencement/steps-to-graduate) to the Admissions and Records Office for each degree or certificate of achievement earned. Students may earn multiple degrees/certificates subsequently or simultaneously, provided that they satisfy the requirements for each degree. The application(s) must include the Graduate Outcomes Survey. Deadline dates for filing these applications are:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>November 1</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>April 1</td>
</tr>
<tr>
<td>Summer Session</td>
<td>June 1</td>
</tr>
</tbody>
</table>

If the first of the month falls on a weekend, the deadline will be the following Monday. Applications submitted after the deadline may be considered for the next semester. The date of graduation that will appear on a student’s diploma/certificate and permanent academic record is the last month of the semester in which the application for graduation is approved.

- **Choice of Catalog for Graduation**
  - Complete 15 semester, degree-applicable units “in residence”. This means that a student must complete a minimum of 15 degree-applicable units in person or through Web College at TMCC. This applies to all associate degrees and certificates of achievement. Developmental courses are not degree applicable. Units awarded for challenge examinations, military training, continuing education units, proprietary schools, Dual Credit through Washoe County Schools, Peace Officers Standard Training, American Institute of Banking, and Advanced American Red cross are not considered in residence.
  - Maintain a minimum, overall cumulative grade point average (GPA) of 2.0 and a minimum cumulative GPA of 2.0 for all coursework at TMCC. The overall cumulative GPA is calculated by combining the GPA of all courses taken at TMCC and the GPA of transfer courses used to fulfill the degree or certificate requirements.
  - Meet all financial and library obligations to the Nevada System of Higher Education. If a student has any outstanding debt, they may pay it at the Cashier’s Office (http://www.tmcc.edu/accounting-sessions). Library obligations can be cleared through the Elizabeth Sturm Library (http://www.tmcc.edu/library).
  - Complete the curriculum requirements for the degree, emphasis, or certificate according to their Choice of Catalog for Graduation (Matriculation, Degree Declaration, First Offered, Graduation).

Commencement

All graduating students are encouraged to participate in Commencement, which is held at the close of the Spring semester each year. At that time, all degrees and certificates of achievement are conferred upon the Fall, Spring and Summer graduates for the year. Diplomas are not handed out at Commencement. Please see the Commencement (http://www.tmcc.edu/admissions/graduation-commencement-commencement-information) website for additional information.

Student Right-to-Know

TMCC is pleased to provide the following information regarding our institution’s graduation/completion and transfer-out rates. The information is provided in compliance with the Higher Education Act of 1965, as amended. The rates reflect the graduation, completion and transfer-out status of students who enrolled during the Fall 2013 semester and for whom 150% of the normal time-to-completion has elapsed.

During the fall semester of 2013, 618 first-time, full-time, certificate or degree-seeking students entered TMCC. After 3 years, 31% of these students had graduated from our institution or completed their programs and 13% had transferred to other higher education institutions.

Questions related to this report should be directed to:

Institutional Research, Analysis and Effectiveness Office
775-673-8240

While reviewing this information, please bear in mind:

- Graduation and transfer-out rates are based on 3 years of attendance that equates to 150% of our longest program.
- Graduation (and transfer-out) rates do not include students who left the school to serve in the armed forces, on official church missions, or in
the foreign service of the federal government. Students who died or were
totally and permanently disabled are also excluded.

- The majority of TMCC’s students are not full-time (In Fall 2016, only
28% enrolled in 12 or more units per semester), and graduation is not the
only measure of success for all of our students.
DEGREES AND CERTIFICATES

Overview of Degrees and Certificates Offered

Bachelor of Applied Science

The Bachelor of Applied Science degree program in Logistics Operation Management and the Bachelor of Applied Science degree program in Emergency Management and Homeland Security are included under the accreditation of Truckee Meadows Community College. The College is granted candidacy status at the baccalaureate level. Bachelor of Applied Science degrees are designed to grow professional skills and respond to the demand for highly technical professionals in the workplace. BAS degrees contain a minimum of 40 upper division units, and 32 units must be earned at TMCC.

Associate of Arts and Associate of Science

Associate of Arts (AA) and Associate of Science (AS) degrees are designed for students who plan to transfer to a four-year college or university for a baccalaureate degree. Satisfactory completion of an AA or AS guarantees fulfillment of lower-division General Education requirements at UNR, UNLV, or NSC. Students planning to transfer should refer to the catalog of the institution they plan to transfer to or an applicable transfer agreement.

Students may choose from the following options:

- The Associate of Arts or Associate of Science Transfer degree, which uses any approved curriculum to fulfill General Education, Diversity, U.S./Nevada Constitutions, Foreign Language (AA only), additional Science (AS only) and Elective requirements.
- An emphasis of at least 15 units in a specific field of study, such as the Associate of Science-Chemistry Emphasis, which more closely aligns with a designated major at a four-year institution.
- A named AA or AS degree, such as the Associate of Arts Fine Arts Degree, which may require specific courses to fulfill General Education, Diversity, U.S./Nevada Constitutions, additional degree requirements and/or Electives.

Associate of Applied Science

The Associate of Applied Science (AAS) is a non-transfer degree designed for students who seek employment and/or certification following completion.

Certificate of Achievement

The Certificate of Achievement is a non-transferable certificate within an AAS degree program.

Associate of General Studies

The Associate of General Studies (AGS) is a non-transfer degree designed for students who desire a well-rounded education.

Certificate of Achievement General Studies

The Certificate of Achievement-General Studies (AGS) is a non-transferable certificate within the AGS degree.

Skills Certificate

Skills certificates may be designed as stackable credentials within existing associate degree tracks and are intended to provide training for entry level positions or career advancement. They are shorter and narrower in focus than certificates of achievement and do not have a General Education component. Skill certificates prepare students to take state, national and/or industry-recognized certification or licensing examinations. Please note that while skills certificate programs provide this instruction and training, TMCC does not guarantee that a student will pass the intended certification or licensing exam.

Degrees and Certificates

Anthropology

Degree Offered
- Associate of Arts Degree - Anthropology Emphasis

Associate of Arts Degree - Anthropology Emphasis

The Associate of Arts degree in anthropology is designed for students seeking careers in anthropology or related fields. The degree requirements include general education requirements to gain a breadth of knowledge in a wide array of disciplines. Students will also specialize in the theoretical, methodological, and topical concerns of anthropology. This course of study is designed as a university transfer degree or can be tailored for those wishing an emphasis in applied anthropology to gain the practical knowledge to enter the workforce in entry level positions. The Associate of Arts degree is fully accepted at any four-year institution in the NSHE system and is fully transferable to most four-year schools in the nation.

Emphasis Outcomes

- Understand the theory and methods used by anthropologists.

- Discuss core concepts of the discipline including stewardship of cultural heritage, the differences between ethnocentrism and cultural relativism, and why anthropologists assert race as a social construct.
- Conduct research, data analysis, and report writing on specific topics within anthropology.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### Associate of Arts / Associate of Science - Transfer Degrees

#### Degrees Offered

- Associate of Arts Degree - Transfer
- Associate of Science Degree - Transfer

### Associate of Arts Degree - Transfer

The Associate of Arts (AA) degree is designed for students who plan to transfer to a four-year college or university for a baccalaureate degree. Satisfactory completion of the degree guarantees fulfillment of lower-division general education requirements at UNR, UNLV, or NSC. Students who intend to transfer to other institutions should consult an advisor or follow the catalog of the transfer institution.

#### Degree Outcomes

Students completing the degree will:

- Be prepared to transfer to college and university baccalaureate programs with junior standing.
- Complete TMCC’s general education transfer requirements.
- Acquire the knowledge, skills, and values consistent with a liberal arts education.
- Acquire the knowledge of the subject matter appropriate to their academic emphasis.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

#### General Education Requirements

**English** 3-6

- Including ENG 102 or ENG 114

**Fine Arts**

- ART 100 Visual Foundations
- ART 101 Drawing I
- ART 160 Art Appreciation
- ART 260 Survey of Art History I
- ART 261 Survey of Art History II
- ART 263 Survey of African, Oceanic, & Native American Art
- ART 265 Introduction to Contemporary Art
- ART 270 Women in Art
- DAN 101 Dance Appreciation
- ENG 205 Intro to Creative Writing: Fiction and Poetry
- ENG 221 Writing Fiction
- ENG 224 Introduction to Screenwriting
- ENG 243 Introduction to the Short Story
- ENG 245 Introduction to the Novel
- ENG 252 Introduction to Drama
- ENG 261 Intro to Poetry
- ENG 267 Introduction to Women and Literature

Select one of the following options:

- **CH 203** American Experiences and Constitutional Change (both constitutions)
- **HIST 111** Survey of U.S. Constitutional History (both constitutions)
- **PSC 101** Introduction to American Politics (both constitutions)
- **HIST 101 & HIST 102** US History to 1877 and U. S. History since 1877
- **HIST 101 & HIST 217** US History to 1877 and Nevada History
- **HIST 101 & PSC 100** US History to 1877 and Nevada Constitution
- **HIST 101 & PSC 208** US History to 1877 and Survey of State and Local Government

### Elective Requirements 5

<table>
<thead>
<tr>
<th>Units</th>
<th>16-36</th>
</tr>
</thead>
</table>

Total Units 60

---

1. If you place into ENG 102 or ENG 114, the additional 3 required units will become elective credit.
2. See the diversity section of the general education descriptions for a complete list of courses. Can also be used to satisfy another General Education, Degree/Emphasis, or Elective requirement.
3. Options to Complete the Foreign Language Requirement:
   - Complete a fourth-semester transferable college course in a foreign language.
   - Complete a fourth-semester transferable college course in American Sign Language (ASL).
   - Demonstrate proficiency through placement examination or other means. Students interested in taking a placement examination should contact the TMCC testing center (http://testing.tmcc.edu) at 775-673-8241 for information.
   - Complete four years of high school foreign language.

   Students who have proficiency in a foreign language that is equivalent to that of students who have completed four semesters of college-level foreign language may be eligible to waive this requirement. Students will be required to provide appropriate documentation to the department to support this claim. Contact the Humanities department at 775-674-7945 or TMCC Academic Advising at 775-673-7062 for information. Additional elective units may be necessary to meet the total degree requirements.

4. May also be used to satisfy another General Education, Degree/Emphasis, or Elective requirement.
5. Any approved university transfer course will fulfill the elective units. Check TMCC course descriptions for transfer status to a baccalaureate degree of arts within the universities in the Nevada System of Higher Education (NSHE).

---

**Associate of Science Degree - Transfer**

The Associate of Science (AS) degree is designed for students who plan to transfer to a four-year college or university for a baccalaureate degree. Satisfactory completion of the degree guarantees fulfillment of lower-division general education requirements at UNR, UNLV, or NSC. Students who intend to transfer to other institutions should consult an advisor or follow the catalog of the transfer institution. Courses with a “C” or “D” designator or courses with a number less than 100 are not applicable toward either degree. Check TMCC course descriptions for transfer status to a baccalaureate degree of science within the universities in the Nevada System of Higher Education (NSHE).

**Degree Outcomes**

Students completing the degree will:

- Be prepared to transfer to college and university baccalaureate programs with junior standing.
- Complete TMCC’s general education transfer requirements.
- Acquire the knowledge, skills, and values consistent with a science, technology, engineering, or math education.
- Acquire the knowledge of the subject matter appropriate to their academic emphasis.

Additional College Requirements

Diversity 2,3 [3]
Science 4
U.S. and Nevada Constitutions [3]

Select one of the following options: 3

CH 203  American Experiences and Constitutional Change (both constitutions)
HIST 111  Survey of U.S. Constitutional History (both constitutions)
PSC 101  Introduction to American Politics (both constitutions)
HIST 101 & HIST 208  US History to 1877 and U. S. History since 1877
HIST 101 & HIST 217  US History to 1877 and Nevada History
HIST 101 & PSC 100  US History to 1877 and Nevada Constitution
HIST 101 & PSC 208  US History to 1877 and Survey of State and Local Government

Elective Requirements 5 24-30

Total Units 60

1  If you place into ENG 102 or ENG 114, the additional 3 required units will become elective credit.
2  See the diversity section of the general education descriptions for a complete list of courses.
3  May also be used to satisfy another General Education, Degree/Emphasis, or Elective requirement.
4  Any transferable science course.
5  Any approved university transfer course will fulfill the elective units. Check TMCC course descriptions for transfer status to a baccalaureate degree of arts within the universities in the Nevada System of Higher Education (NSHE).

Note: If you know your major, print the NSHE Transfer Agreements online. Major requirements will satisfy elective units.

For a suggested program sequence, please contact the academic advisement office at 775-673-7062.

Biology

Biology Degrees
- Associate of Science Degree - Biology Emphasis
- Associate of Science Degree - Community Health Science Emphasis

Certificate of Achievement
- Certificate of Achievement - Health Sciences

Associate of Science Degree - Biology Emphasis

This is a two-year transferable program leading to an Associate of Science with an emphasis in biology. The curriculum includes a core of courses in the biological and physical sciences and mathematics. All courses recommended will partially satisfy the bachelor of science in biology at the University of Nevada, Reno.

Emphasis Outcomes

Students completing the emphasis will:

- Apply principles of mathematics and physical sciences to laboratory practices and biological processes.
- Explain concepts and theories in molecular structure and function, cellular processes, and genetics.
- Demonstrate knowledge of the structural and physiological functions of organisms, their ecological context, and the evolutionary relationships and hierarchical organization of biological diversity.
- Demonstrate proficient use of standard laboratory equipment and follow safe laboratory practices; apply the method of scientific inquiry by designing a controlled experiment, and collecting, analyzing and interpreting data; and present findings in written and oral formats.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

General Education Requirements

English 3-6
Must include ENG 102 or ENG 114 1

Fine Arts 3

Humanities 3

Recommended:
PHIL 210  World Religions

Mathematics 3

Including:
### Associate of Science Degree - Biology Emphasis

---

1. If you place into ENG 102 or ENG 114 the additional 3 required units will become elective units.
2. Course may also count toward additional degree requirements. Please consult with Academic Advisement.
3. Math 181 is required for B.S. in Biology at UNR
4. CHEM 341/CHEM 342, at UNR, applies as CHEM 241/CHEM 241L & CHEM 242/CHEM 242L
5. PHYS 152 or PHYS 180L and PHYS 181L are required for a B.S. in Biology at UNR.
6. BIOL 100 cannot be used towards B.S. in Biology at UNR.

Recommended courses are listed in the course sequence; however, other courses may apply. Please see an advisor or the department.

7. See approved General Education list for the AA/AS Degree. (p. 181)
Certificate of Achievement - Health Sciences

This certificate of achievement prepares students for entry-level employment in allied health and fulfills many prerequisite requirements for accredited health sciences training programs. Students completing this certificate may gain an advantage in the competitive selection process of health sciences programs.

Certificate Outcomes

Students completing the certificate will:

- Apply the scientific method, describe cell and tissue structure, and describe skeletal, muscular, digestive and lymphatic systems and their interrelationships.
- Identify the components of the circulatory nervous, integumentary, respiratory, endocrine, urinary, reproductive and immune systems and describe their interrelationships.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Associate of Applied Science - Business

The Associate of Applied Science is a useful two-year degree that employers see as verification of your capabilities in the business area. You will undertake a broad spectrum of business related classes that will provide you with a strong foundation of business knowledge.

Degree Outcomes

Students completing the degree will:

- Identify and practice professional skills, including information technology literacy, information literacy, research, writing, and presentations.
- Identify and practice interpersonal/group skills, including interpersonal and teamwork, international perspective, cultural awareness and ethics, and personal responsibility.
- Identify and practice analytical skills, including problem-solving and decision-making in a business environment.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

**Associate of Applied Science - Business, Massage Therapy Entrepreneurship Emphasis**

The Associate of Applied Science in Business, Massage Therapy Entrepreneurship Emphasis is a useful two-year degree in which you will undertake a broad spectrum of entrepreneurship and massage related classes that will provide you with a strong foundation of business knowledge in order to prepare you to start your own business ventures. The required massage courses follow the guidelines established by local Nevada ordinances as well as the National Certification Board of Massage. Students completing the TMCC program will be eligible to take the national certification exam and also will be eligible to join either of the two nationally recognized professional organizations: American Massage Therapy Association (AMTA) or Associated Bodywork and Massage Professionals (ABMP).

It is strongly recommended that students take the .5 unit introduction to Massage Training prior to beginning the program.

**Emphasis Outcomes**

Students completing this Degree Emphasis will:

- Demonstrate their proficiency and knowledge of the fundamentals of small business management
- Apply skills and knowledge of safe and effective massage therapy fundamentals and techniques.
- Meet all requirements to become licensed massage therapists.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.

3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

## Associate of Applied Science - Business - Office Management Emphasis

This degree provides students with the skills needed to be successful in today's competitive business environment. Students will receive a well-rounded curriculum in general education requirements. The emphasis of the degree includes skills in office procedures, computer applications, communications, customer service, accounting, and supervision.

Students completing the Associate of Applied Science, Business - Office Management Emphasis Degree will:

- Demonstrate advanced keyboarding skills and an intermediate knowledge of hardware and software to perform a wide variety of administrative tasks including electronic filing, formatting and producing business documents and spreadsheets, creating presentations, developing and maintaining databases, and performing Internet research to meet modern business needs.
- Model excellent communication skills demonstrated by the ability to provide excellent customer service to internal and external customers; present information in a persuasive, logical, and organized manner using supportive visual aids and professional oral communication; and write informational, analytical, and technical documents, which are organized, precise, and relevant.
- Perform and understand general office procedures to include filing, equipment operation, mail distribution, phone calls, and tasks requiring base math calculations such as inventory and bookkeeping.
- Manage daily business functions of an organization by using effective problem-solving techniques, consistently meeting deadlines, effectively managing office projects and employees, demonstrating professional work habits such as ethics, team work, diversity, and confidentiality and maintaining a professional appearance and attitude.

1. See the diversity section of the general education descriptions for a complete list of courses. Can also be used to satisfy another General Education, Degree/Emphasis, or Elective requirement.

2. Please consult with a department adviser or Academic Advising.

3. See program recommendations or requirements.
### Additional College Requirements

#### Diversity
- Recommended:
  - **ANTH 208**: Fundamentals of Cultural Diversity

#### U.S. & Nevada Constitutions
- Required, choose one or two courses from the following:
  - **PSC 101**: Introduction to American Politics
  - or **CH 203**: American Experiences and Constitutional Change
  - **HIST 101**: US History to 1877
  - & **HIST 102**: and U.S. History since 1877
  - **HIST 101**: US History to 1877
  - & **HIST 217**: and Nevada History
  - **HIST 101**: US History to 1877
  - & **PSC 100**: and Nevada Constitution
  - **HIST 101**: US History to 1877
  - & **PSC 208**: and Survey of State and Local Government

#### Degree Requirements:
- **ACC 135**: Bookkeeping I
  - 3 units
- or **ACC 201**: Financial Accounting
- **BUS 101**: Introduction to Business
  - 3 units
- **IS 101**: Introduction to Information Systems
  - 3 units
- **MGT 171**: Supervision
  - 3 units
- **MGT 201**: Principles of Management
  - 3 units

#### Emphasis Requirements
- **BUS 112**: Customer Service
  - 3 units
- **CIT 107**: Databases
  - 1 unit
- **CIT 201**: Word Certification Preparation
  - 3 units
- **CIT 202**: Excel Certification Preparation
  - 3 units
- **COT 207**: Business Applications on the Internet
  - 3 units
- **COT 217**: Office Publications
  - 3 units
- **COT 240**: Executive Office Procedures
  - 3 units
- **Electives**: 4 units
  - **COM 215**: Introduction to Group Communication
  - **SPAN 101**: Basics of Spanish I
  - **SPAN 111**: First Year Spanish I
  - **PHIL 102**: Critical Thinking and Reasoning

#### Total Units
- 60 units

### Associate of Applied Science - Business, Personal Trainer

**Entrepreneurship Emphasis**

The Associate of Applied Science in Business, Personal Trainer Entrepreneurship Emphasis is a useful two-year degree in which you will undertake a broad spectrum of entrepreneurship and personal training classes that will provide you with a strong foundation of business knowledge in order to prepare you to start your own business ventures. The required personal trainer courses will prepare you to become a certified personal trainer with your choice of national certification agencies through a comprehensive program covering safe and effective exercise, fitness testing and analysis, body mechanics, wellness fundamentals, proper nutrition, and business management skills.

**Program Outcomes**

Students completing this Degree Emphasis will:

- **Demonstrate their proficiency and knowledge of the fundamentals of small business management.**
- **Apply skills and knowledge of safe and effective personal training fundamentals and techniques.**
- **Meet all requirements to become certified personal trainers.**

Students must be CPR and first aid certified to participate in this program. EMS 101 - CPR and First Aid, is strongly recommended.

**AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.**

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

### General Education Requirements

**Communications/English**
- Recommended: BUS 106, BUS 107, ENG 108, EPY 101

**Fine Arts/Humanities/Social Science**
- Recommended: ANTH 208 Fundamentals of Cultural Diversity
- or
  - PSY/SOC 276 Aging in Modern American Society

**Human Relations**
- Recommended: MGT 212 Leadership and Human Relations

**Mathematics**
- Required: MATH 120 or Higher
  - Recommended: BUS 117 Applied Business Math or MATH 120 Fundamentals of College Mathematics

**Science**
- Required: NUTR 121 Human Nutrition

### Additional College Requirements

**Diversity**
- Recommended: ANTH 208 Fundamentals of Cultural Diversity
  - or
    - PSY/SOC 276 Aging in Modern American Society

**U.S. and Nevada Constitutions**
- Choose 1 or 2 courses from the following:
  - PSC 101 Introduction to American Politics or CH 203 American Experiences and Constitutional Change
  - HIST 101 US History to 1877 & HIST 102 and U.S. History since 1877
  - HIST 101 US History to 1877 & HIST 217 and Nevada History
  - HIST 101 US History to 1877 & PSC 100 and Nevada Constitution
  - HIST 101 US History to 1877 & PSC 208 and Survey of State and Local Government

### Degree Requirements

**ENT 200** Fundamentals of Entrepreneurship 3
**ENT 230** Financing Your Small Business Venture 3
**ENT 240** Marketing for Small Business 3
**ENT 280** Entrepreneurship and Business Plan Development 3

### Emphasis Requirements

**PEX 173** Circuit Training 1
**PEX 174** Fitness Principles and Practices 2
**PEX 183** Weight Training 1
**PTR 100** Introduction to Personal Training 3
**PTR 120** Techniques of Teaching Weight Training 1

**Course** | **Title** | **Units**

## Associate of Applied Science Degree - Logistics Management

This program will provide the student with a degree in the field of logistics management. The program is well suited to the student seeking to obtain a career at the entry level of logistics management. Students will graduate with a core set of knowledge and skills that will allow them to advance in the logistics industry. Successful completion of this degree constitutes completion of the first 60 credits towards the Bachelor of Applied Science - Logistics Management degree.

### Degree Outcomes

Students completing the degree will:

- Identify the underlying theories and principles of the role of logistics management within business that is associated with the applied utilization of logistics knowledge.
- Identify, explain, and practice the tools that are used in entry to mid-level logistics positions, including Total Quality Management, Six Sigma, Lean and others.
- Identify the characteristics, uses, and purposes of the software used in the logistics industry.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Bachelor of Applied Science - Logistics Operations Management

This is an applied four-year degree which provides students with the technical expertise and knowledge needed to meet the Northern Nevada operations and logistics industry technical workforce needs. The Logistics Management AAS and Production Systems AAS are feeder degrees to the program. Students’ year 3, semester 1 classes are dependent on the AAS they earned. This degree responds to employers’ expressed needs to have a well-qualified logistics operations workforce trained and ready to meet workforce demand, thus ensuring long-term economic success for the region.

Degree Outcomes

Students completing the BAS in Logistics Operations Management will:

• Identify the underlying principles of the role of logistics operations management within business.
• Apply to concepts of the professional skills and competency in logistics operations management, such as transportation, procurement, operations design, supervision and management, safety, and warehousing.
• Will be prepared to work as logistics operations professionals within one or more of the job categories related to this field.

Completion of one of the following degrees is required for entrance into the BAS in Logistics Management.

Bachelor of Applied Science, Logistics Management

Bachelor of Applied Science, Productions Systems

General Education Requirements must be met. Depending on courses taken in the AAS, you may be required to take additional units to satisfy these requirements.

English

Composition II or ENG 114 Composition II For International Students

Fine Arts

Humanities

Mathematics

Required:

Fundamentals of College Mathematics (or higher)

Science

Social Science

Required:

Principles of Microeconomics

Students entering with either AAS in Productions Systems or Logistics Management will need to follow the specified courses in the first semester.

Select Option 1 or 2

Option 1 for AAS in Productions Systems graduates:

International Logistics Management

Logistics and Quality Management Tools II

Studies in Procurement and Logistics

Transportation Management

Option 2 for AAS in Logistics Management graduates:

Print Reading for Industry

See approved General Education list for the AA/AS Degree (p. 181)

**Capstones:**

- LGM 490 Field Study and Research Capstone
- LGM 491 Logistics Operations Management Internship

Total Units: 120

1. If you place into ENG 102 or ENG 114, there are no additional units of English required for the BAS. Students must have a total of 120 units to complete the BAS degree.

2. Must complete all modules to meet total unit requirements.

---

### Course Title Units

**Certificate of Achievement - Bookkeeping**

The certificate of achievement in bookkeeping shows that you have acquired the knowledge and skills necessary to be successful working in a bookkeeping position in the business world and makes you more marketable and appealing to employers.

### Certificate Outcomes

Students completing the certificate will:

- Possess knowledge of and be ready to perform basic functions of bookkeeping/accounting procedures and duties as required in entry level bookkeeping/accounting positions, such as assistant bookkeeper/accountant, accounting trainee, or business owner.
- Demonstrate proficiency in using accounting computer software (e.g. Peachtree and QuickBooks) to do basic bookkeeping/accounting and prepare basic accounting reports.
- Be prepared to pursue opportunities for professional development, career change, and pursuance of Associate and higher degrees in accounting or related disciplines.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students...
to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Certificate of Achievement - Entrepreneurship

This certificate allows the new entrepreneur the opportunity to get grounding in the fundamentals of being an entrepreneur. It suits entrepreneurial-minded individuals who want to start their business as soon as possible.

Certificate Outcomes

Students completing the certificate will:

- Develop a business plan, including the creation, development and presentation of innovative ideas.
- Identify and apply effective networking skills.
- Identify theories and apply principles in practice of each of the major business functions (accounting, marketing, economics, and finance) requisite for the owning and operating of a small business venture.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Certificate of Achievement - Logistics Management

Students will gain hands-on practical knowledge that will give them skills and knowledge to advance in a career in the logistics industry. Designed for working adults who have industry experience, the certificate of achievement quantifies and documents a core competency within the industry.

Certificate Outcomes

Students completing the certificate will:

- Identify the key components of the logistics discipline (including supply chain management, production planning and scheduling, reverse logistics) and analyze their integral function.
• Analyze the appropriate use of the software and hardware for logistics application.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)

Skills Certificate - Certified Professional Bookkeeper

Prepares Student to sit for the certified professional bookkeeper examination administered by the American Institute of Professional Bookkeepers.

Certificate Outcomes

Students will:

• Analyze the “double entry” system of bookkeeping and construct systems of accounting while comparing and contrasting generally accepted accounting principles in the areas of inventory, depreciation, error corrections and payroll.
• Design and construct systems of internal accounting controls and compare and contrast situations whereby the potential for fraud exists within such systems.
• Reinforce concepts in a review course and identify important skills necessary to pass the national certifications examination.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Real Estate Salesperson

Students completing the skills certificate-real estate salesperson curriculum will learn about professional organizations, types of property, the law of agency, law of contracts, listing agreements, easements, estates in the land, forms of ownership, legal descriptions, taxation, liens, contract law, deeds, probate, title insurance, recording, financing, leases, property management, appraisal, land use, subdividing, fair housing, ethical practices and closing statements. Also included is a study of the appropriate Nevada Revised Statutes and their Administrative Codes. Successful completion of RE 101 and RE 103 along with the passage of the Nevada Real Estate Exam qualifies one to become a licensed real estate salesperson in Nevada.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

• Understand basic real estate processes and principles, their applicability and how they relate to each other.
Skills Certificate - Retail Management

- Understand and apply Nevada real estate law including statutes, regulations and codes and how real estate laws, principles and outcomes impact the real estate profession.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

Skills Certificate - Retail Management

Successful completion of the courses in the Retail Management Skills Certificate qualifies you to receive the nationally recognized industry certification, while providing you with the valuable skills needed to start or advance your career in the retail industry.

The program is designed to meet the education requirements of the retail industry and is endorsed by the leading retailers across the nation. The Retail Management Certificate is an accredited business program that will give you the skills you need to get started or advance your career in the retail industry. The certificate, which was founded by WAFC, has been recognized as part of the White House’s Upskill Initiative, and leading organizations and foundations including the Clinton Global Initiative, ACT Foundation, and the U.S. Department of Labor.

Certificate Outcomes

Student completing this Skills Certificate will develop the skills associated with the WAFC certification’s core competencies of:

- Reading, writing, and oral communications in a business environment.
- Decision making, task completion, teamwork, interpersonal skills and leadership, business ethics, and adaptability.
- Merchandising, inventory management, financial management, technology, and customer service.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams.

Certified Nursing Assistant Skills Certificates

- Skills Certificate - Nursing Assistant
- Skills Certificate - Phlebotomy

Skills Certificate - Nursing Assistant

The nursing assistant course prepares students to assist the professional nurse in direct client care, undertaking those tasks which are supportive to the care of clients and in their scope of practice. This course takes place in the classroom, skills laboratory, and various clinical agencies. This course meets the Nevada State Board of Nursing requirements to prepare nursing assistants to be eligible to take the State written and manual skills nursing assistant exams.

This course may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).
Pre-Registration Requirements

Students must initiate a background check (good for 1 year; cost: $49.50) and show proof of receipt, complete a drug screen (good for 1 year; cost: $55) and have documentation of required immunizations and current major medical insurance and have a Basic Life Support (BLS) CPR card prior to enrolling in the CNA Program. Students will not be allowed to enroll in the CNA Program classes until all requirements are met. Please visit www.tmcc.edu/cna for more details.

Certificate Outcomes

Students completing the certificate will:

- Demonstrate competence with all skills required for certification.
- Demonstrate knowledge of common elements required for certification by the Nevada State Board of Nursing.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Phlebotomy

The skills certificate in phlebotomy is designed to give the student knowledge and skills necessary to perform the collection, identification, and preservation of specimens as applied to venipuncture technique and includes 100 hours of clinical experience. Students will learn standard precautions, local, federal, and state requirements. Completion of the skills certificate in phlebotomy will prepare students to become certified as a phlebotomy technician by the American Society for Clinical Pathology Certifications as a lab assistant in Nevada. After passing this national board, students are eligible to apply for the state licensure.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Pre-Registration Requirements

Students must initiate a background check (good for 1 year; cost: $49.50) and show proof of receipt, complete a drug screen (good for 1 year; cost: $55) and have documentation of required immunizations and current major medical insurance prior to enrolling in Phlebotomy/CLS classes. Students will not be allowed to enroll in Phlebotomy/CLS classes until all requirements are met. Please visit www.tmcc.edu/cna/phlebotomy-and-clls for more details.

Certificate Outcomes

Students completing the certificate will:

- Perform a minimum of 95 venipunctures.
- Perform a minimum of five dermal sticks.
- Follow universal safety precautions and procedures. They will be complaint with local, state, and federal requirements while in clinical areas.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

Associate of Science Degree - Community Health Science Emphasis

The Associates of Science Community Health Science (CHS) emphasis affords students a broad, integrated, and interdisciplinary perspective on a variety of health topics and allows them to begin developing an understanding of personal, public, and community health issues. The emphasis provides the lower division coursework towards bachelor degrees in community health, public health, health education, and other related areas. The TMCC CHS Pre-Nursing track prepares students to apply for the TMCC Nursing AS degree program and the other TMCC CHS tracks satisfy the lower division major requirements towards the following UNR Bachelor of Science degrees:
Degree Tracks Offered
- Associates of Science Degree – Community Health Science Emphasis – Kinesiology Pre-Professional Track
- Associates of Science Degree – Community Health Science Emphasis – Kinesiology Physical Education Track
- Associates of Science Degree – Community Health Science Emphasis – Pre-Nursing Track
- Associates of Science Degree - Community Health Science Emphasis – Public Health Track

Emphasis Outcomes Students completing the emphasis will:
- Recognize how the social, cultural, economic, political, geographical and biological environments affect personal and community health.
- Describe and apply behavioral strategies to promote personal health and wellness, and disease and illness prevention.
- Demonstrate the ability to gather and interpret evidence-based information, and effectively communicate, in both written and oral formats, on topics related to community health.

Associate of Science - Community Health Science Emphasis, Kinesiology Physical Education Track

This emphasis provides the lower division coursework towards bachelor degrees in community health, public health, health education, and other related areas and satisfies the lower division major requirements towards the UNR Bachelor of Science in Community Health Science, Kinesiology Physical Education. The B.S. in Community Health Science Kinesiology Physical Education prepares students for work in coaching, physical education instruction, and personal training.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### Associate of Science - Community Health Science Emphasis, Kinesiology Pre-Professional Track

This emphasis provides the lower division coursework towards bachelor degrees in community health, public health, health education, and other related areas and satisfies the lower division major requirements towards the UNR Bachelor of Science in Community Health Science, Kinesiology Pre-Professional. The B.S. in Kinesiology Pre-Professional is preparation for applying to Professional Schools in Physical Therapy, Occupational Therapy, and Physician Assistant Programs.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### General Education Requirements

#### English

- Required:
  - **ENG 102** Composition II  
    (3 units)
  - **ENG 114** Composition II For International Students  
    (3 units)

#### Fine Arts

- (3 units)

#### Humanities

- (3 units)

#### Mathematics

- Recommended:  
  - **MATH 126** Pre-Calculus I (or higher)  
    (3 units)

#### Science

- (6 units)

#### Social Science

- (3 units)

### Additional College Requirements

### Associate of Science - Community Health Science Emphasis, Pre-Nursing Track

This emphasis provides the lower division coursework towards potential bachelor degrees in community health, public health, health education, and other related areas and will prepare students to apply for the TMCC Nursing AS degree program.

#### Program Outcomes

Students completing this degree emphasis will:

- Recognize how the social, cultural, economic, political, geographical and biological environments affect personal and community health.
- Describe and apply behavioral strategies to promote personal health and wellness, and disease and illness prevention.
- Demonstrate the ability to gather and interpret evidence-based information, and effectively communicate, in both written and oral formats, on topics related to community health.

### Associate of Science Degree - Community Health Science Emphasis, Public Health Track

This emphasis provides the lower division coursework towards bachelor degrees in community health, public health, health education, and other related areas and satisfies the lower division major requirements towards the UNR Bachelor of Science in Community Health Science, Public Health. Public health careers include Health Educators, Community Health Workers, and Environmental and Occupational Health Specialists. The B.S. in Public Health is preparation for applying to Masters of Public Health (MPH) Programs, Health Administration Programs, or other graduate programs in Community and Public Health, including in epidemiology, biostatistics, and health policy and management.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

Computer Information Technology

Degrees

Associate of Applied Science Degree - Computer Information Technology
The Associate of Applied Science in Computer Information Technology offers the following four focused emphasis options:
• Associate of Applied Science - Computer Information Technology - Computer Programming Emphasis
• Associate of Applied Science - Computer Information Technology - Networking Emphasis
• Associate of Applied Science - Computer Information Technology - Cyber Security Emphasis
• Associate of Applied Science - Computer Information Technology - Web Development Emphasis

Certificates of Achievement
• Certificate of Achievement - Computer Technologies

Skills Certificates
• Skills Certificate - CISCO Certification: CISCO Certified Network Associate (CCNA) Routing and Switching Preparation
• Skills Certificate - CISCO Certification: CISCO Certified Network Associate (CCNA) Security Preparation
• Skills Certificate - CompTIA Certification Preparation
• Skills Certificate - Cybersecurity Skills Preparation
• Skills Certificate - Linux Professional Certification Preparation

Associate of Applied Science - Computer Information Technology - Cyber Security Emphasis

The Cybersecurity emphasis will prepare student to apply security measures in a network setting.

Emphasis Outcomes
Students completing this Degree Emphasis will:
• Demonstrate the technical proficiency required to recognize short-comings in security.
• Illustrate the technical proficiency required to configure and secure a network with the industry recognized Cybersecurity measure.
• Communicate and work effectively with other team members in a scenario-type project environment to complete the required tasks which will parallel real-world requirements.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

General Education Requirements

English/Communications 6
Recommended: BUS 107, ENG 101, ENG 107, ENG 108, COM 113 or COM 215 1

Required:
ENG 102 Composition II
or ENG 114 Composition II For International Students

Fine Art/Humanities/Social Science 3

Mathematics 3
Recommended:
MATH 126 Pre-Calculus I (or higher)

Science 3

Additional College Requirements

Diversity 3

Human Relations 3

U.S. and Nevada Constitutions 3 [3]

Required: Choose one or two courses from the following:
PSC 101 Introduction to American Politics
or CH 203 American Experiences and Constitutional Change
HIST 101 US History to 1877
& HIST 102 and U. S. History since 1877
HIST 101 US History to 1877
& HIST 217 and Nevada History
HIST 101 US History to 1877
& PSC 100 and Nevada Constitution
HIST 101 US History to 1877
& PSC 208 and Survey of State and Local Government
### Degree Requirements

- **CIT 112** Network + \[3\]
- **CIT 114** IT Essentials \[4\]
- **CIT 128** Introduction to Software Development \[4\]
- **CIT 173** Introduction to Linux \[3\]
- **CS 151** Introduction to Cybersecurity \[3\]

3. See program recommendations or requirements.

### Associate of Applied Science - Computer Information Technology - Networking Emphasis

The networking emphasis prepares students for careers in current and emerging information system technologies such as network design, network infrastructure, networking services, and information security. Students completing the degree will find employment in areas ranging from small office/home office network administration to enterprise scale networks. The Cybersecurity emphasis will prepare student to apply security measures in a network setting. The Web Development emphasis will prepare students to implement a business web presence by understanding the "back-end" programming aspect of a web page.

### Degree Emphasis Outcomes

Students Completing this Emphasis will:

- Demonstrate the technical proficiency required to create and maintain small to medium sized networks.
- Illustrate the technical proficiency required to configure and secure a network with the industry recognized Cybersecurity measure, to modify the base programming for webpage troubleshooting process.
- Students will communicate and work effectively with other team members in a scenario-type project environment to complete the required tasks which will parallel real-world requirements.

### AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

2 See Approved General Education List for the AAS Degree. (p. 184)

3 See program recommendations or requirements.

### Associate of Applied Science - Computer Information Technology - Computer Programming Emphasis

The computer programming emphasis provides students with entry level programming skills. Computer programming professionals must also have a broad knowledge of computer systems and technologies, as well as strong problem solving and analysis skills. They must be able to think logically and have strong verbal and written communication skills.

**Degree Outcomes**

Students completing the degree will:

- Fulfill the requirements for the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

**Emphasis Outcomes**

Students completing the emphasis will:

- Have the technical proficiency required to design and program a solution to a stated problem.
- Demonstrate an understanding of dynamic data structures and generic methods.
- Have the ability to communicate and work effectively with members of a team and members of external groups.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

2 See approved General Education list for the AAS Degree. (p. 184)

3 See program recommendations or requirements.

**Certificate of Achievement - Computer Technologies**

The certificate of achievement in computer technologies provides students with a broad knowledge of computer systems and technologies that can be used for entry-level employment or pursuit of an Associate of Applied Science degree.

**Certificate Outcomes**

Students completing the certificate will:
• Have the technical proficiency required to perform entry level technical support functions.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Total Units 30

Skills Certificate - Cisco Certification: Cisco Certified Network Associate (CCNA) Routing and Switching Preparation

This certificate prepares students to take the Cisco Certified Network Associate (CCNA) Routing and Switching exams. This certification validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:
• Perform basic configurations of network devices.
• Configure and troubleshoot basic operations of routers in a complex routed network for IPv4 and IPv6 using OSPF, EIGRP, and RIP.
• Configure and troubleshoot serial and broadband connections.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:
1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Cisco Certification: Cisco Certified Network Associate (CCNA) Security Preparation

This certificate prepares students to take the Cisco Certified Network Associate (CCNA) Security certification exams. This certification validates the skills required to develop a security infrastructure, recognize threats and vulnerabilities to networks, and mitigate security threats.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Perform basic configurations of network devices.
- Configure and troubleshoot routing in a small routed network.
- Identify basic security threats and vulnerabilities for a given network and apply necessary security measures to prevent a possible network compromise.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - CompTIA Certification Preparation

The skills certificate in CompTIA certification preparation provides students with a broad knowledge of computer systems, basic networking skills, security issues, and technologies that can be used for entry-level employment or pursuit of an Associate of Applied Science degree. This sequence of courses will serve as preparation for the CompTIA certifications.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Obtain the knowledge and skills required to implement a defined network architecture with basic network security, including general security concepts associated with communications, infrastructure, cryptography, and operational/organizational structure.
- Obtain the necessary competencies required for basic networking, including terminology, components, transmission media and protocols.
- Acquire the knowledge and skills required to install, configure, troubleshoot and upgrade a PC as an IT technician.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Cybersecurity

Skills Preparation

This certificate is designed to provide the knowledge and skills recommended by the National Security Agency for 2 year college programs. It provides foundational cybersecurity skills and preparation for professional certifications, such as Security+, that are recognized by the Department of Defense.

Certificate Outcomes

Students completing the certificate will:

- List the fundamental concepts of the Information Assurance / Cyber Defense discipline and describe how they can be used to provide system security.
- Describe cyber defense tools, methods and components.
- Describe and apply cyber defense methods to prepare a system to repel attacks.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Linux Professional Certification Preparation

Completion in the Linux Professional program is designed to help prepare students for a variety of industry-recognized Linux certification exams as well as provide practical hands-on skills for the work place. The program includes the core of Linux classes including Linux operating system basics, system administration, and Network+. These classes will help develop a student's knowledge and skill level in preparation for employment or to improve current professional skills.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Obtain competencies for an entry-level Linux professional
- Be able to configure, maintain and troubleshoot a Linux network.
- Acquire skills necessary to perform system administrative tasks.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Computer Science Degree

- Associate of Science Degree - Computer Science Emphasis
Associate of Science Degree - Computer Science Emphasis

This is a two-year transferable program leading to an Associate of Science with an emphasis in computer science. Computer science encompasses the methodology, tools, techniques, and theory of information derivation, storage, manipulation and communication. All courses recommended will partially satisfy the bachelor of science in computer science and engineering at the University of Nevada, Reno.

Emphasis Outcomes

Students completing the emphasis will:

- Have the ability to apply knowledge of computing and logical reasoning necessary to analyze a problem and identify, formulate and use the appropriate analytical skills to obtain a solution.
- Have the ability to design and implement a computer program to meet desired specifications for a problem.
- Have the ability to communicate and work effectively on a team to achieve a common goal.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

General Education Requirements

**English**

- Must include ENG 102 or ENG 114

**Fine Arts**

- Highly recommended for students wishing to major in Computer Science:
  - ART 100 - Visual Foundations
  - ART 260 - Survey of Art History I
  - ART 261 - Survey of Art History II
  - HUM 105 - The Art of Film
  - MUS 121 - Music Appreciation
  - THTR 100 - Introduction to Theater
  - THTR 105 - Introduction to Acting I
  - THTR 180 - Cinema as Art and Communication
  - THTR 210 - Theater: a Cultural Context

**Humanities**

- Highly Recommended:
  - CH 201 - Ancient and Medieval Cultures
  - or CH 202 - The Modern World

**Mathematics**

- Required:
  - MATH 181 - Calculus I

**Science**

- Required:
  - PHYS 180 - Physics for Scientists and Engineers I
  - PHYS 181 - Physics for Scientists and Engineers II

**Social Science**

- Recommended: Choose from courses that transfer to UNR.

**Additional College Requirements**

**Diversity**

- Recommended:
  - ANTH 201 - Peoples and Cultures of the World
  - ANTH 205 - Ethnic Groups in Contemporary Societies
  - EDU 203 - Introduction to Special Education
  - HIST 208 - World History I
  - HIST 209 - World History II
  - HIST 227 - Introduction to Latin American History & Culture I
  - PSY 276 - Aging in Modern American Society
  - SOC 205 - Ethnic Groups in Contemporary Societies
  - SOC 276 - Aging in Modern American Society

**Science**

- PHYS 180L - Physics for Scientists/Engineers Lab I
- PHYS 181L - Physics for Scientists/Engineers Lab II

**U.S. and Nevada Constitutions**

- Highly Recommended:
  - CH 203 - American Experiences and Constitutional Change

**Degree Requirements**

- CPE 201 - Digital Design
- CS 135 - Computer Science I
- CS 202 - Computer Science II
- CS 219 - Computer Organization
- ENGR 100 - Introduction to Engineering Design
- or CS 105 - Introduction to Computing
- MATH 182 - Calculus II
- MATH 283 - Calculus III

Total Units: 60

1. If you place into ENG 102 or ENG 114 the additional 3 required units will become elective units.
2. MATH 181 Additional unit used as elective.
3. Courses must be completed with a “C” or better.
4. CS Emphasis students must also maintain at least a “C” average in the Mathematics, Science and Degree requirements courses.

Construction and Design Technologies

Degrees

- Associate of Applied Science - Construction and Design-Architecture Emphasis (p. 67)
- Associate of Applied Science - Construction and Design-Residential Design Emphasis (p. 71)
- Associate of Applied Science - Construction and Design-Construction Management Emphasis (p. 68)
- Associate of Applied Science - Construction and Design-Landscape Architecture Emphasis (p. 69)

Skills Certificates

- Skills Certificate - Construction Estimating
- Skills Certificate - Construction Project Management

Associate of Applied Science Degree - Construction and Design - Architecture Emphasis

This transferable degree introduces students to the design philosophies, methodologies, theories, and techniques necessary to continue their education in the field of architecture. Courses adhere to standards established by national industry associations and may fulfill requirements for students transferring into accredited baccalaureate programs. Students are strongly encouraged to work with a faculty advisor to select appropriate courses for their selected baccalaureate program.

Emphasis Outcomes

Students completing the degree will:

- Identify and apply architectural design theories.
- Prepare basic architectural presentations demonstrating design and construction knowledge.
- Synthesize course knowledge and skills that will enable them to meet the requirements for acceptance into an accredited architectural program.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

---

**Associate of Applied Science Degree - Construction and Design - Construction Management Emphasis**

This course of study will provide the student with the basic, entry-level skills set and understanding of the construction industry as it relates to the residential, commercial and heavy construction markets. The successful student upon completion of this two-year program will possess the necessary knowledge to enter the construction management field.

**Degree Outcomes**

Students completing the degree will:

- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

**Emphasis Outcomes**

Students completing the emphasis will:

- Understand, develop, apply and demonstrate specific construction management skills related to supervision techniques, scheduling, cost control systems and construction contracts.
- Examine and evaluate construction project documents, plans and specifications as determined by the needs included in the material takeoff and estimating process.
- Formulate and organize management applications utilizing general construction knowledge in the areas of safety, construction materials, scheduling and methods for efficient production.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

⁴ See program recommendations or requirements.

Associate of Applied Science - Construction and Design - Landscape Architecture Emphasis

This transferable degree introduces students to the design philosophies, methodologies, theories, and techniques necessary to continue their education in the field of landscape architecture. Courses adhere to standards established by national industry associations and may fulfill requirements for students transferring into accredited baccalaureate programs. Students are strongly encouraged to work with a faculty
advisor to select appropriate courses for their selected baccalaureate program.

**Emphasis Outcomes**

Students completing the degree emphasis will:

- Demonstrate a basic knowledge of landscape architectural design theory as it relates to form, space, and order as it pertains to the practice of landscape architecture.
- Demonstrate the ability to prepare basic landscape architectural presentations demonstrating design and construction knowledge.
- Synthesize course knowledge and skills that will enable them to meet the requirements for acceptance into an accredited landscape architectural program.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Associate of Applied Science Degree - Construction and Design - Residential Design Emphasis

This course of study will provide the student with a foundation of knowledge and skills for design of residential projects. Completion of the emphasis degree will enhance the employment opportunities with architectural firms that specialize in residential architecture. The successful student upon completion of this degree will satisfy the educational requirements for candidates pursuing a residential designer professional registration as set forth by the Nevada State Board of Architecture, Interior Design and Residential Design.

Degree Outcomes

Students completing the degree will:

• Fulfill the requirements of the Associate of Applied Science.
• Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

• Identify and apply residential design theories.
• Prepare basic residential project types demonstrating design and construction knowledge.
• Synthesize the knowledge and skills that will enable them to meet the educational requirements for candidates pursuing a residential designer professional license.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

The Construction Estimating Skills Certificate will provide a credential for specialized education and training required for construction professionals to read plans and specifications for projects, develop project estimates and budgets and interpret contractual requirements. This certificate will enhance employment opportunities for students and address industry needs within the workforce.

Certificate Outcomes

Students will:

- Examine and evaluate construction plans, specifications, documents and contracts.
- Generate material take-off quantities.
- Prepare estimates and contract proposals.
- Review project budgets and actual costs data in order to implement efficient project management strategies.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Construction Technologies - Construction Project Management

Construction

The Construction Project Management Skills Certificate will provide a credential for specialized education and training required for construction professionals to manage projects, while utilizing proven management systems, methods and applications for efficient project completion. The certificate will enhance employment opportunities for students and address industry needs within the workforce.

Certificate Outcomes

Students will formulate and organize proven management applications used for safety, project site supervision, scheduling, cost control and contractual compliances in order to implement efficient project management strategies.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Associated of Applied Science Degree - Construction Technologies

- Heating, Ventilation, Air Conditioning/Refrigeration (HVAC/R) Emphasis

Certificate of Achievement

- Certificate of Achievement - Heating, Ventilation, Air Conditioning/Refrigeration (HVAC/R)

Skills Certificates

- Skills Certificate - Commercial Refrigeration
- Skills Certificate - Heating, Ventilation, Air Conditioning/Refrigeration (HVAC/R)

Associate of Applied Science Degree - Construction Technologies

- Heating, Ventilation, Air Conditioning/Refrigeration (HVAC/R) Emphasis

The AAS degree in heating, ventilation, air conditioning and refrigeration trains technicians to design and maintain complex heating, cooling and refrigeration systems in structures of all sizes and functions, from homes to casino resort hotels. The HVAC/R program combines classroom instruction with hands-on practice and provides industry upgrade training on an on-going basis.

Degree Outcomes

Students completing the degree will:

- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

- Demonstrate a comprehensive understanding of HVAC/R principles and applications and the skills to work safely and efficiently in the HVAC industry.
- Design residential and commercial HVAC/R systems.
- Gain knowledge and practical skills to troubleshoot and repair residential and commercial HVAC/R systems.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

2 The student must complete all topics for Modular Courses (M) in order to meet degree or certificate requirements.

Certificate of Achievement - Heating, Ventilation, Air Conditioning/Refrigeration (HVAC/R)

The HVAC/R certificate of achievement prepares individuals for entry-level positions in the heating, ventilation, air conditioning and refrigeration industries. The training focuses on maintenance, troubleshooting and repair of modern equipment used in residential, commercial and industrial buildings throughout Northern Nevada. Emphasizing hands-on training, the program prepares students with the knowledge and skills required for industry-standard certifications and sought by employers.

Certificate Outcomes

Students completing the certificate will:

- Demonstrate a comprehensive understanding of HVAC/R principles and applications and the skills to work safely and efficiently in the HVAC industry.
- Design residential and commercial HVAC/R systems.
- Gain the knowledge and skills to troubleshoot and repair residential and commercial HVAC/R systems.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

**Skills Certificate - Commercial Refrigeration**

The skills developed in this certificate program will help prepare students for entry level positions to install, service, or repair commercial refrigeration systems. Students will gain a basic knowledge of electrical systems and components, schematic reading, and troubleshooting techniques in commercial refrigerations. Students must pass all courses with a score of 70% or higher. This skills certificate will prepare students to take certification exams for: HVAC/R Excellence-Electrical and HVAC/R Excellence-Commercial Refrigeration.

---

**Certificate Outcomes**

Students completing the certificate will:

- Identify, troubleshoot, and repair commercial refrigeration units.
- Identify, explain, and apply design techniques to commercial Refrigeration systems.
- Identify, explain, and apply service and repair techniques to commercial refrigeration systems.

---

**Skills Certificates**

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

---

The skills developed in the certificate program will help prepare students for entry level positions to install, service, or repair air conditioning/heating systems. Students will gain a basic knowledge of electrical systems and components, schematic reading, and troubleshooting techniques in heating.

The skills certificate will prepare students to take the certification exams for: HVAC/R Excellence-Electrical and HVAC/R Excellence-Heating, Electrical, Air, Technology (H.E.A.T.). Students must pass all courses with a score of 70% or higher.
These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Identify, explain, troubleshoot, repair electrical systems and controls in HVAC/R systems and controls.
- Identify and apply the elements of design techniques in HVAC/R.
- Identify, troubleshoot and repair HVAC/R.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Associate of Applied Science - Criminal Justice - Law Enforcement Emphasis

TMCC’s Associate of Applied Science in law enforcement degree is designed for students wishing to explore or enter a highly rewarding career in the criminal justice system. The AAS in law enforcement provides students with a strong foundation for careers in law enforcement, probation, investigations, corrections, and corporate security.

The Associate of Applied Science in law enforcement is designed as a practitioner oriented and possibly terminal degree. This degree is not intended as a university transfer degree for those students who wish to continue on to complete their bachelor degree. Students interested in university transfer should instead major in the Associate of Arts in criminal justice degree.

The AAS in law enforcement allows students a greater opportunity to select and customize their educational experience around their specific interests in criminal justice.

Degree Outcomes

Students completing the degree will:

- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

- Describe the rights and protections granted under the US Constitution, particularly the Bill of Rights, to individuals involved in the criminal justice system.
- Explain the process of conducting a professional criminal investigation, the process of an arrest and pretrial detention, criminal trial procedures, and possible sanctions after conviction.
- Describe ethics adhered to by individuals involved in the various professions in the criminal justice system.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Associate of Arts Degree - Criminal Justice

TMCC’s Associate of Arts in criminal justice degree is designed for students wishing to explore or enter a highly rewarding career in the criminal justice system. It is designed as either a stand-alone associate degree in the field of criminal justice or as a university transfer option to UNR. The transfer option allows students to earn their university required lower division courses upon completion of their Associate of Arts.

Students are strongly encouraged to obtain academic advisement at TMCC for courses that are consistent with the UNR-TMCC transfer agreement to ensure a smooth transition in the university transfer process.

Degree Outcomes

Students completing the degree will:

• Describe the rights and protections granted under the US Constitution, particularly the Bill of Rights, to individuals involved in the criminal justice system.
• Explain the process of conducting a professional criminal investigation, the process of an arrest and pretrial detention, criminal trial procedures, and possible sanctions after conviction.
• Describe ethics adhered to by individuals involved in the various professions in the criminal justice system.

Note: In accordance with the TMCC/UNR transfer agreement, students who complete the TMCC Criminal Justice Degree Associate of Arts prior to entering the UNR Bachelor of Arts program fulfill all General Education requirements. Students who plan to transfer without a Degree should consult with an academic advisor at TMCC for important information about transferring general education courses.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

**Associate of Applied Science Degree - Culinary Arts**

The culinary arts curriculum has been designed to meet the needs of the multi-faceted industry we serve. Individual courses provide the skill sets necessary to work in and operate culinary facilities. They take into account the business, people, skills and general education required to achieve success in a wide range of different food operations.

**Degree Outcomes**

Students completing the degree will:
• Demonstrate basic and advanced culinary skills through a series of learned competencies including but not limited to knife care, cutting techniques, stock preparation, complete meal planning, and restaurant experience.

• Demonstrate the knowledge to work in commercial hot food kitchens, commercial cold food kitchens, and commercial bakery kitchens.

Certificate of Achievement - Culinary Arts Entrepreneurs

This degree allows the new entrepreneur the opportunity to get grounding in the fundamentals of being an entrepreneur. This certificate suits entrepreneurial-minded individuals who want to start their own business in the culinary arts or find a challenging position in a culinary environment such as a restaurant, supermarkets, bakery, pastry shop, hospital, ski and lake resorts, corporate cafeterias and casinos.

Certificate Outcomes

Students completing the certificate will:

• Demonstrate basic and intermediate culinary skills through a series of learned competencies including but not limited to knife care, cutting techniques, stock preparation, meal planning, and menu writing.

• Demonstrate the knowledge to work in commercial hot food kitchens, commercial cold food kitchens, and commercial bakery kitchens.

• Develop a business plan for a culinary environment which includes the creation, development and presentation of innovative ideas.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

4th semester Total Units: 3

Certificate of Achievement - Culinary Arts, Baking and Pastry

Trained baking and pastry professionals will find plenty of career opportunities in Northern Nevada. Challenging positions are open in retail and wholesale bakeries, pastry shops, upscale restaurants, hotels and casinos, assisted living centers, educational institutions, supermarkets, hospitals, ski and lake resorts, corporate cafeterias and commissaries. There is a real shortage of skilled and knowledgeable bakers and pastry cooks.

Certificate Outcomes

Students completing the certificate will:

- Demonstrate basic and advanced culinary skills through a series of learned competencies including but not limited to knife care, cutting techniques, stock preparation, and functions of the bakery including terminology and bakery fundamentals.
- Demonstrate the knowledge to work in commercial hot food kitchens, and commercial bakery kitchens.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
Dental Assisting

Degree

• Associate of Applied Science Degree - Dental Assisting

Certificate of Achievement

• Certificate of Achievement - Dental Assisting, Full-Time/Part-Time

Accreditation

The TMCC program in dental assisting is accredited by the Commission on Dental Accreditation and has been granted accreditation. The Commission on Recognition of Postsecondary Accreditation and by the United States Department of Education. The Commission on Dental Accreditation can be contacted at 312-440-4653 or at

211 East Chicago Avenue
Chicago, IL 60611

Associate of Applied Science Degree - Dental Assisting

Degree Outcomes

Students completing the degree will:

• Perform basic side chair functions to facilitate completion of restorative and advanced operative procedures as allowed by the state dental act.

• Demonstrate knowledge of radiation safety and proficiency in exposing, processing, and mounting dental radiographs.

• Demonstrate knowledge of infection and hazard control in the lab/workplace.

• Perform basic office procedures necessary to assist in managing the dental practice.

Accreditation

The TMCC program in dental assisting is accredited by the Commission on Dental Accreditation and has been granted accreditation. The Commission is a specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and by the United States Department of Education. The Commission on Dental Accreditation can be contacted at 312-440-4653 or at

211 East Chicago Avenue
Chicago, IL 60611

Complaints:
The Commission on Dental Accreditation will review complaints that relate to a program's compliance with the accreditation standards. The Commission is interested in the sustained quality of continued improvement of dental and dental-related education programs but does not intervene on behalf of individuals or act as a court of appeal for treatment received by patients or individuals in matters of admission, appointment, promotion or dismissal of faculty, staff or students.

A copy of the appropriate accreditation standards and/or the Commission's policy and procedure for submission of complaints may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611-2678 or by calling 1-800-621-8099 extension 4653.

Special Admission Requirements and Procedures

For program application and admission information, please visit the Dental Assisting Program Admissions Procedures page. (http://www.tmcc.edu/dental-assisting/admission-procedures)

Program completion time varies and depends on number of units taken per semester. Please contact the program coordinator at 775-673-7125 for more information.

The Dental Assisting Program offers a:

• Certificate of Achievement – Can be completed in 10-12 months, see certificate worksheet.

• Associate of Applied Science – Can be completed in 2 years, see degree worksheet.

Admission to the dental assisting AAS degree program and the certificate program is limited with special requirements and procedures.

Student progression in the program is contingent upon attaining a grade of "C" or better in all dental assisting curriculum. Courses are to be taken in the sequence outlined on the worksheet.

For additional program information please contact the program coordinator at 775-673-7125, or visit the Dental Assisting Program web site. (http://www.tmcc.edu/dental-assisting)

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)

2. Complete a minimum of 15 units within the college.

3. Satisfy General Education requirements for the AAS (p. 184).

4. Have no financial or library obligation to the college.

General Education Requirements are subject to change fall 2017. Contact program coordinator for details.
# Certificate of Achievement - Dental Assisting, Full-time/Part-time

## Certificate Outcomes

- Perform basic side chair functions to facilitate completion of restorative and advanced operative procedures as allowed by the state dental act.
- Demonstrate knowledge of radiation safety and proficiency in exposing, processing, and mounting dental radiographs.
- Demonstrate knowledge of infection and hazard control in the lab/workplace.
- Perform basic office procedures necessary to assist in managing the dental practice.

## Accreditation

The TMCC program in dental assisting is accredited by the Commission on Dental Accreditation. The commission is a specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and by the United States Department of Education. The Commission on Dental Accreditation can be contacted at 312-440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611.

**Complaints:**
The Commission on Dental Accreditation will review complaints that relate to a program’s compliance with the accreditation standards. The Commission is interested in the sustained quality of continued improvement of dental and dental-related education programs but does not intervene on behalf of individuals or act as a court of appeal for treatment received by patients or individuals in matters of admission, appointment, promotion or dismissal of faculty, staff or students.

A copy of the appropriate accreditation standards and/or the Commission’s policy and procedure for submission of complaints may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611-2678 or by calling 1-800-621-8099 extension 4653.

## Special Admission Requirements and Procedures

For program application and admission information, please visit the Dental Assisting Program Admission Procedures page. (http://www.tmcc.edu/dental-assisting/admission-procedures)

Program completion time varies and depends on number of units taken per semester. Please contact the program coordinator at 775-673-7125 for more information.

The Dental Assisting Program offers a:

- Certificate of Achievement – Can be completed in 10-12 months, see certificate worksheet.
- Associate of Applied Science – Can be completed in 2 years, see degree worksheet.

Admission to the dental assisting AAS degree program and the certificate program is limited with special requirements and procedures.

Student progression in the program is contingent upon attaining a grade of “C” or better in all dental assisting curriculum. Courses are to be taken in the sequence outlined on the worksheet.

For additional program information please contact the program coordinator at 775-673-7125, or visit the Dental Assisting Program website. (http://www.tmcc.edu/dental-assisting)

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

### Dental Hygiene Degree

- Associate of Science Degree - Dental Hygiene

### Dental Hygiene Program

The dental hygienist is dedicated to providing preventative and therapeutic dental hygiene care. Some of the responsibilities routinely performed by hygienists in Nevada include:
Performing oral cancer screening through examination of soft tissues.
Excluding periodontal (gum and bone) structure around and supporting teeth.
Taking and interpreting radiographs.
Removing stain, hard (calculus), and soft (plaque) deposits from tooth surfaces above and below the gum line utilizing scaling and root planing procedures.
Administering topical fluoride treatments.
Applying dental sealants.
Administering local anesthesia and nitrous-oxide sedation.
Designing and implementing treatment plans for individuals.
Designing and implementing oral health programs for groups.
Providing dental health education for individuals and groups.

Advertising of the TMCC dental hygiene program will prepare to complete the written Dental Hygiene National Board Examination, the Nevada State Board Clinical Examination and many other state/regional clinical examinations in the U.S.

The dental hygiene program is a two-year (four-semester) program once the student has been accepted which does not include the general education requirements for the Associate of Science degree or the science prerequisite courses for dental hygiene.

Dental hygiene students must meet certain technical standards:
- Possess good hand/eye coordination and manual strength and dexterity to perform instrumentation skills necessary for direct patient care.
- Hold a current CPR card and be able to perform emergency procedures required in the field.
- Be free from conditions which put other humans at risk (i.e., active tuberculosis. Persons with blood borne pathogen infections are not excluded from the program or clinic facility).}.
- Possess ability to read, write, record and report.
- Be able to understand and react quickly to verbal instructions and patient needs.
- Be able to effectively communicate with patients to explain procedures, provide instructions and educate.

Limited Entry
The dental hygiene program is a limited entry program. Twelve to fourteen students will be admitted each fall. The application is available on the Dental Hygiene (http://www.tmcc.edu/dental-hygiene) homepage under “Steps to Apply” tab. Application’s open in January and close in February. See Steps to Apply webpage for application dates.

A minimum GPA of 2.75 (4.0 scale) in general education and prerequisite courses is required. Recent completion of the following program degree requirements are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 223</td>
<td>Human Anatomy and Physiology I</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 224</td>

<tr>
<td>CHEM 220</td>
<td>Introductory Organic Chemistry</td>
<td>4</td>
</tr>
<tr>
<td>COM 113</td>
<td>Fundamentals of Speech Communications</td>
<td>3</td>
</tr>
</tbody>
</table>

Applicants not selected will not be carried forward to the next year, and must reapply for consideration. Additional program information is available in the dental clinic office 775-673-8293, located in the Red Mountain Building (RDMT) 415-A, Admissions and Records in RDMT 319, and Academic Advisement in RDMT 111.

Student Selection
The final selection of students will be conducted by the dental hygiene program screening committee. Applicants will be ranked using selection criteria including experience in the field, overall prerequisite GPA, prerequisite science GPA and other criteria established by the screening committee. The DH ACCUPLACER Test can be taken a maximum of three times and must have been taken within two years of applying. A minimum of eight hours of dental office observation must be completed within 13 months of applying.

Dental hygiene applicants are limited to repeating program prerequisite science courses (BIOL 223, BIOL 224, BIOL 251, and CHEM 220) once. This means the students will take the course for the first time, and may repeat the same course once. If a student enrolls in a prerequisite science course and withdraws from course with a “W,” this will be counted as one attempt.

Accepted Students
Students accepted into the program will be required to attend a mandatory new student orientation. Once accepted into the program, students will be required to show proof and adherence to the dental hygiene program infectious disease/immunization policy, prior to starting classes. A medical exam is required and medical insurance is recommended.

Licensure
All states require that dental hygienists be licensed. In addition to successfully graduating from the accredited dental hygiene program and passing the written Dental Hygiene National Board Examination, graduates must pass a Clinical Examination. The Nevada Dental Practice Act (NRS 631.290) requires that candidates for licensure be of good moral character and be citizens of the U.S. or lawfully entitled to remain and work in the U.S. Prospective students are advised that if they have felony or misdemeanor convictions or have a history of substance abuse or infectious disease that this may preclude subsequent licensure as a dental hygienist in Nevada (NAC 631.050).

Associate of Science Degree - Dental Hygiene

Accreditation and Regulation
The TMCC Dental Hygiene Program is accredited by the Commission on Dental Accreditation (CODA) and has been granted the accreditation status of approval without reporting requirements. The Commission is a specialized accrediting body recognized by the United States Department of Education.

The Commission on Dental Accreditation can be contacted at 312-440-4653 or at 211 East Chicago Avenue Chicago, IL 60611.

Apply
The application is available on the Dental Hygiene (http://www.tmcc.edu/dental-hygiene) Program website.
Degree Outcomes

Students completing the degree will be:

- Eligible to apply for and take the written National Board Dental Hygiene Examination (NBDHE).
- Eligible to apply for and take the ethics examination for state licensure.
- Eligible to apply for and sit for a state or regional clinical examination.

Note: It is highly recommended that all prospective Dental Hygiene students complete all general education courses in addition to the degree requirement courses prior to applying for admission to the program.

Total Units 109

Track 2: Dietetic Degree-Associate of Science (p. 90)
This track is for students who are seeking an Associate of Science (AS) degree.

Track 3: Students with a Four-Year Degree may obtain a Dietetic Skills Certificate (p. 92)
A student with a four-year didactic degree in nutrition from an institution accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) may qualify as a Track 3 student. The following conditions must be met with documentation provided to the Dietetic Technician Program Coordinator:

- Official Copies of All Transcripts.
- The original Statement of Verification issued from an Academy of Nutrition and Dietetics accredited four-year institution. The Statement of Verification must be for a didactic program in dietetics.

To complete the program to be eligible to take the national exam for DTR, students with a four-year degree must complete three of the three-unit courses comprised of 450 hours of supervised work experience at a satisfactory level.

To be considered for acceptance as a Track 3 student, please contact the Dietetic Technician Program Coordinator, Heather Williams at 775-673-7138.

After Track 3 students complete the three required dietetic technician supervised practice internship experiences (NUTR 291, NUTR 292 and NUTR 293), they will earn the skills certificate and become eligible to sit for the CDR National exam.

Accreditation
The Dietetic Technician Program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics, a specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the United States Department of Education. ACEND can be contacted at:

Accreditation Council for Education in Nutrition and Dietetics
Academy of Nutrition and Dietetics
120 South Riverside Plaza, Suite 2000
Chicago, IL 60606-6995
Phone: 1-800-877-1600 x5400
Fax: 312-899-4817
Email: acend@eatright.org

Associate of Applied Science Degree - Dietetic Technician
This program leads to an Associate of Applied Science Degree, Dietetic Technician. For a complete description of the program, please refer to the Dietetic Technology (p. 89) page.

Degree Outcomes
Students completing the degree will:

- Demonstrate application of theoretical and practical foundations to be adequately prepared as entry-level dietetic technician practitioners.
- Demonstrate academic and practical knowledge of standards appropriate to dietetic practice.

Dietetic Technology
Dietetic Technician Program
Upon successful completion of the dietetic technician program, the student is eligible to sit for the Commission of Dietetics Registration (CDR) national exam for Dietetic Technician, Registered (DTR). A student may complete the dietetic technician program by successfully completing one of the following three options.

Track 1: Dietetic Technician Degree-Associate of Applied Science (p. 89)
This track is for students who are seeking an Associate of Applied Science (AAS) degree. Students take eight units of science prerequisites: BIOL 190 and BIOL 190L. These units may not transfer to a four-year institution within the NSHE system.
• Be eligible to take the national credentialing exam for Dietetic Technician, Registered.

**Associate of Science Degree - Dietetics**

This is a two-year transferable program leading to an Associate of Science with an emphasis in dietetics. The curriculum includes an emphasis in the nutritional, biological and physical sciences. All recommended courses partially satisfy the bachelor of science in clinical dietetics at the University of Nevada, Reno. If the student wishes to seek a credential as a Dietetic Technician, Registered (DTR), the following courses should be added, from the AAS dietetic technician degree:

<table>

NUTR 292  Nutrition Internship-Community  3
NUTR 293  Nutrition Internship-Clinical  3

Degree Outcomes

Student completing the degree will:

• Demonstrate a basic knowledge of nutrition, science, and math that
  comprise the integral foundation applicable to a four-year degree.
• Synthesize and apply nutrition principles in a variety of settings.
• Demonstrate academic and practical knowledge of standards
  appropriate to dietetic practice.

AA/AS degrees are designed for students who plan to transfer to a four-
year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for
   graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AA/AS (http://
catalog.tmcc.edu/degrees-certificates/general-education/aa-as).
4. Have no financial or library obligation to the college.

4. See approved General Education list for the AA/AS Degree. (p. 181)
Skills Certificate - Dietetic Technician

Students with a Four-Year Degree (Track 3)

A student with a four-year didactic degree in nutrition from an institution accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) may qualify as a Track 3 student. This certificate is unique to the student who has earned a BS degree in dietetics, but has not completed a dietetic internship to become a Registered Dietitian (RD). It provides the opportunity to gain additional experience in the field, providing a professional pathway for completing students to enter the field at the entry-level and as a professional development certification.

The following conditions must be met with documentation provided to the Dietetic Technician Program Coordinator:

- Official Copies of All Transcripts.
- The original Statement of Verification issued from an Academy of Nutrition and Dietetics accredited four-year institution. The Statement of Verification must be for a didactic program in dietetics.

To complete the program to be eligible to take the national exam for DTR, students with a four-year degree must complete three of the three-unit courses comprised of 450 hours of supervised work experience at a satisfactory level.

To be considered for acceptance as a Track 3 student, please contact the Dietetic Technician Program Coordinator, Heather Williams at 775-673-7138.

After Track 3 students complete the three required dietetic technician supervised practice internship experiences (NUTR 291, NUTR 292 and NUTR 293), they will earn the skills certificate and become eligible to sit for the CDR National exam.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Demonstrate application of theoretical and practical foundations to be adequately prepared as entry-level dietetic technician practitioners.
- Apply appropriate foodservice, community, and clinical standards to dietetic practice.
- Be eligible to take the national credentialing exam for Dietetic Technician, Registered (DTR).

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

- Skills Certificate - Early Childhood Educator 4

Program Information

The Associate of Arts Degree in Early childhood Education is designed to serve students either as a stand alone Degree or as a University Transfer Degree.

The Associate of Applied Science Degree in Early Childhood Education prepares the graduate for a career working with young children and their families. The program has three degree emphases: Administration of Early Care and Education Programs, Preschool, and Infant/Toddler. Students select an emphasis based on their specific interest in one area of concentration.

Field Experience and Practicum Experience

All ECE degrees require courses with field experience and practicum experience in early childhood classrooms with young children (birth to age five). Field experiences and practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children.

- Students must complete the practicum experience through TMCC.
Students completing the degree will:

- Demonstrate competence in the knowledge and skills defined in the National Association for the Education of Young Children (NAEYC) Early Childhood Associate Degree Accreditation (ECADA) Standards for Initial and Advanced Early Childhood Professional Preparation Programs.
  1. Promoting Child Development and Learning
  2. Building Family and Community Relationships
  3. Observing, Documenting, and Assessing to Support Young Children and Families
  4. Using Developmentally Effective Approaches
  5. Using Content Knowledge to Build Meaningful Curriculum
  6. Becoming a Professional

**Emphasis Outcomes**

Students completing the emphasis will:

- Demonstrate proficiency as a preschool teacher in an early childhood education program.
- Demonstrate proficiency in the administration of early care and education programs.

**Field Experience and Practicum Experience:**

All ECE degrees require courses with field experience and practicum experience in early childhood classrooms with young children (birth to age five). Field experiences and practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children.

- Students must complete the practicum experience through TMCC.
- Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience or practicum experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience or practicum experience.
- Students must complete the practicum experience through TMCC.
- Two semesters of practicum are required. Students must complete the practicum courses in two, consecutive fall and spring semesters, during the final year of the ECE program of study.
- Students must work with the practicum instructor to arrange a practicum schedule and placement site.

Field Experience and Practicum Experience:

All ECE degrees require courses with field experience and practicum experience in early childhood classrooms with young children (birth to age five). Field experiences and practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children.

• Students must complete the practicum experience through TMCC.
• Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience or practicum experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience or practicum experience.
• Students must meet all of the prerequisite/corequisite requirements, as well as have the practicum instructor’s approval prior to enrolling in a practicum course.
• Two semesters of practicum are required. Students must complete the practicum courses in two, consecutive fall and spring semesters, during the final year of the ECE program of study.
• Students must work with the practicum instructor to arrange a practicum schedule and placement site.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

# Associate of Arts Degree - Early Childhood Education Emphasis

The Associate of Arts in early childhood education is designed to serve students either as a stand-alone associate degree, or as a university transfer degree. The transfer option allows students to complete specific lower division courses at TMCC and obtain an Associate of Arts degree in early childhood education; and then transfer to UNR as a junior to complete a bachelor of science degree in human development and family studies. Students are encouraged to obtain academic advisement from early childhood education faculty to facilitate the university transfer process.

## Degree Outcomes

Students completing these degrees will:

- Demonstrate competence in the knowledge and skills defined in the National Association for the Education of Young Children (NAEYC) Early Childhood Associate Degree Accreditation (ECADA) Standards for Initial and Advanced Early Childhood Professional Preparation Programs.

Semester Total 15

Total Units 65

---

1 A student must maintain a cumulative grade point average of 2.0 (C) or better, and a minimum grade of “C” must be earned in each of the degree and emphasis requirements.

2 Students must complete the practicum experience through TMCC and the course is repeated over 2 semesters.

3 See approved General Education list for the AAS Degree. (p. 184)

4 See program recommendations or requirements.
a. Promoting Child Development and Learning  
b. Building Family and Community Relationships  
c. Observing, Documenting, and Assessing to Support Young Children and Families  
d. Using Developmentally Effective Approaches  
e. Using Content Knowledge to Build Meaningful Curriculum  
f. Becoming a Professional  

- Demonstrate proficiency as a preschool teacher in an early childhood program.  
- Demonstrate the scope of knowledge and skills required to gain entry into a baccalaureate degree program.

Accreditation  
The AA Degree - Early Childhood Education is accredited by the National Association for the Education of Young Children (NAEYC) Early Childhood Associate Degree Accreditation (ECADA).

NAEYC/ECADA  
1313 L St. N.W. Suite 500  
Washington DC 20005  
800-424-2460, Extension 8007

Field Experience and Practicum Experience:  
All ECE degrees require courses with field experience and practicum experience in early childhood classrooms with young children (birth to age five). Field experiences and practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children.

- Students must complete the practicum experience through TMCC.  
- Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience or practicum experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience or practicum experience.  
- Students must meet all of the prerequisite/corequisite requirements, as well as have the practicum instructor’s approval prior to enrolling in a practicum course.  
- Two semesters of practicum are required. Students must complete the practicum courses in two, consecutive fall and spring semesters, during the final year of the ECE program of study.  
- Students must work with the practicum instructor to arrange a practicum schedule and placement site.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)  
2. Complete a minimum of 15 units within the college.  
4. Have no financial or library obligation to the college.

Total Units 60-63

1. If you do not place into ENG 102 or ENG 114 you will complete the degree with three additional units (63 units overall.)
2. Students must maintain a cumulative grade point average of 2.0 (C) or better, and a minimum grade of "C" must be earned in each degree and emphasis requirement.
3. Course may also count toward degree requirements. Please consult with Academic Advisement.
4. Students must complete the practicum experience through TMCC.

5. See approved General Education list for the AA/AS Degree. (p. 181)
6. See program recommendations or requirements.

### Skills Certificate - Early Childhood Educator 1

The skills certificate in early childhood educator 1 includes nine units in early childhood education. The courses are also required for the early childhood education AA and AAS degrees. The certificate is one of a series of four, stackable skills certificates available in early childhood education. Students may earn the skills certificates as they progress toward an AA/AAS degree in early childhood education, or as professional development certifications for non-degree seeking students.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

### Certificate Outcomes

Students completing the certificate will:

- Identify and apply the knowledge and skills required to proceed to the skills certificate: early childhood educator 2, including general knowledge about the early childhood education profession, lifespan human development, and positive guidance of young children birth through age eight.
- Identify and apply the knowledge and skills related to the six standards for the National Association for the Education of Young Children (NAEYC).

### Skills Certificate - Early Childhood Educator 2

The skills certificate in early childhood educator 2 includes 12 units in early childhood education. The courses are also required for the early childhood education AA and AAS degrees. The certificate is one of a series of four, stackable skills certificates available in early childhood education. Students may earn the skills certificates as they progress toward an AA/AAS degree in early childhood education, or as professional development certifications for non-degree seeking students.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

### Certificate Outcomes

Students completing the certificate will:

- Identify and apply the knowledge and skills required to proceed to the skills certificate: early childhood educator 3, including general knowledge about the early childhood education profession,
Skills Certificate - Early Childhood Educator 3

Lifespan human development, positive guidance of young children birth through age eight, and the observation, documentation, and assessment of young children.

• Identify and apply the knowledge and skills related to the six standards for the National Association for the Education of Young Children (NAEYC).

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Education Degrees

- Associate of Arts Degree - Secondary Education Emphasis
- Associate of Science Degree - Integrated Elementary Education with Specializations Emphasis
- Associate of Science Degree - Secondary Education Emphasis

Associate of Arts Degree - Secondary Education Emphasis

The Associate of Arts degree in secondary education is designed for students seeking careers in secondary education (junior and senior high schools). The degree requirements include a well-balanced general
education curriculum. Specific curriculum provides students with educational theory and practical field work in the secondary education school settings.

In addition, students will also need to select a “teaching major” and complete some of the coursework prior to transfer. This course of study is designated as a university transfer program that substantially meets the requirements for the first two years of study for the B.A. in secondary education majors at UNR. Also, please note: Any concerns or questions of requirements when entering a teaching certification program need to be addressed by advisors for any university of interest.

In order to complete an AA, the ‘teaching major’ courses will include a focus in foreign languages, English, social studies, history, music, art, career and technical.

**Emphasis Outcomes**

Students completing the emphasis will:

- Demonstrate the scope of knowledge and skills based on the Interstate New Teacher Assessment and Support Consortium (INTASC) standards and Five Domains of Professional Competence.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

**General Education Requirements**

- **English**
  
  Must include ENG 102 or ENG 114

- **Fine Arts**

- **Humanities**

- **Mathematics**

- **Science**

- **Social Science**

**Additional College Requirements**

**Associate of Science Degree - Integrated Elementary Education with Specializations Emphasis**

The Associate of Science degree in elementary education is designed for students seeking careers in elementary education. The degree requirements include a well-balanced general education curriculum.
Specific curriculum provides students with educational theory and practical field work in the elementary education school setting. This course of study is designated as a university transfer program that substantially meets the requirements for the first two years of study for the B.S. in elementary majors at UNR. Also, please note: Any concerns or questions of requirements when entering a teaching certification program need to be addressed by advisors at any university of interest.

For transfer into UNR, elementary education has emphasis embedded into three areas of focus: early childhood (ECE), special education (sp.ed), or English language learners (ELL).

**Emphasis Outcomes**

Students completing the emphasis will:

- Demonstrate the scope of knowledge and skills based on the Interstate New Teacher Assessment and Support Consortium (INTASC) standards and Five Domains of Professional Competence.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

Associate of Science Degree - Secondary Education Emphasis

The Associate of Science degree in secondary education is designed for students seeking careers in secondary education (junior and senior high schools). The degree requirements include a well-balanced general education curriculum. Specific curriculum provides students with educational theory and practical field work in the secondary education school settings.

In addition, students will also need to select a “teaching major” and complete some of the coursework prior to transfer. This course of study is designated as a university transfer program that substantially meets the requirements for the first two years of study for the B.S. in secondary education majors at UNR. Also, please note: Any concerns or questions of requirements when entering a teaching certification program need to be addressed by advisors for any university of interest.

In order to complete an AS, the ‘teaching major’ courses will include a focus in foreign languages, English, social studies, history, music, art, career and technical.

Emphasis Outcomes

Students completing the emphasis will:

- Demonstrate the scope of knowledge and skills based on the Interstate New Teacher Assessment and Support Consortium (INTASC) standards and Five Domains of Professional Competence.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

General Education Requirements

**English** 3-6

Must include ENG 102 or ENG 114

**Fine Arts** 3

**Humanities** 3

**Mathematics** 3

Recommended:

MATH 127 Pre-Calculus II

**Science** 6

Required:

Select one of the following:

- BIOL 100 General Biology for Non-Majors
- BIOL 191 and Intro to Organismal Biology Lab
- CHEM 100 Molecules and Life in the Modern World
- CHEM 121 General Chemistry I
- ENV 101 Introduction to Environmental Science
- GEOL 100 Earthquakes, Volcanoes and Natural Disasters
- GEOL 101 Geology: Exploring Planet Earth
- PHYS 100 Introductory Physics
- PHYS 151 General Physics I
- PHYS 180 Physics for Scientists and Engineers I and Physics for Scientists/Engineers Lab I

**Social Science** 3

**Additional College Requirements**

**Diversity** [3]

Recommended:

EDU 203 Introduction to Special Education

**Science** 6

Science courses fulfilling the 6 units include the following choices. Select one from each area:

**Biology**

- BIOL 100 General Biology for Non-Majors
- BIOL 191 and Intro to Organismal Biology Lab

**Physical Science**

- CHEM 100 Molecules and Life in the Modern World
- CHEM 121 General Chemistry I
- ENV 101 Introduction to Environmental Science
- GEOL 100 Earthquakes, Volcanoes and Natural Disasters
- GEOL 101 Geology: Exploring Planet Earth
- PHYS 100 Introductory Physics
- PHYS 151 General Physics I
Energy Technologies

Degrees

• Associate of Applied Science Degree - Energy Technologies - Geothermal Energy Emphasis
• Associate of Applied Science Degree - Energy Technologies - Solar Energy Emphasis
• Associate of Applied Science Degree - Energy Technologies - Wind Energy Emphasis

Certificate of Achievement

• Certificate of Achievement - Power Plant Operator

Skills Certificates

• Skills Certificate - Solar Energy Technician
• Skills Certificate - Wind Energy Technician

Associate of Applied Science Degree - Energy Technologies - Geothermal Energy Emphasis

The geothermal energy program is designed to provide students with the skills necessary to enter the workforce in the renewable energy field as Geothermal Power Plant Operators (GPO). GPOs control and monitor geothermal production for power plants. They regulate and distribute power among generators, monitor instruments to maintain voltage, and regulate electricity current from the plant. GPOs need strong mechanical, electrical, technical, and computer skills.

Degree Outcomes

Students completing the degree will:

• Fulfill the requirements of the Associate of Applied Science.
• Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

• Synthesize the design and operational aspects of the operation of a geothermal power plant.
• Identify, analyze, and solve technical problems associated with the operation of a geothermal power plant.
• Identify and apply the appropriate environmental regulations in the operation of a geothermal power plant.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Associate of Applied Science Degree - Energy Technologies - Solar Energy Emphasis

The solar energy program is designed to provide students with the skills necessary to enter the workforce in the renewable energy field as technicians in solar photovoltaic and thermal installations. The solar energy technician completes accurate site assessment and energy demand analysis from which a solar energy system will be designed and installed. The program prepares students to sit for industry-recognized certifications required to enter the workforce. Solar energy technicians need strong electrical, technical, and computer skills.

Degree Outcomes

Students completing the degree will:

• Fulfill the requirements of the Associate of Applied Science.
• Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

• Demonstrate knowledge of the operation of photovoltaic and solar thermal system.
• Demonstrate the ability to solve technical problems associated with the photovoltaic and solar thermal installations.
• Demonstrate an understanding of environmental regulations in the installation of photovoltaic and solar thermal systems.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

3. See program recommendations or requirements.

**Associate of Applied Science Degree - Energy Technologies - Wind Energy Emphasis**

The wind energy program is designed to provide students with the skills necessary to enter the workforce in the renewable energy field as large and small wind installers. Wind installers complete an accurate resource assessment and energy demand analysis from which a wind system will be designed and installed. The program prepares students to sit for industry-recognized certifications required to enter the workforce. Wind installers need strong mechanical, electrical, technical, and computer skills.

**Degree Outcomes**

Students completing the degree will:

- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.
Emphasis Outcomes
Students completing the emphasis will:

- Demonstrate knowledge of the operation of wind turbines and wind farms.
- Solve technical problems associated with wind turbines.
- Demonstrate knowledge of environmental regulations in the installation of wind turbines.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).

1 See approved General Education list for the AA/AS Degree. (p. 181)
3 See program recommendations or requirements.

Certificate of Achievement - Power Plant Operator

Power plant operators control and monitor pumps, vaporizers, condensers, turbines, generators, and auxiliary equipment used in power plants. They distribute power among generators, regulate the output from several generators, and monitor instruments to maintain voltage and regulate electricity flow from the plant. Computers are used to generate reports, maintain records, and track maintenance. Power plant operators generally need a combination of higher education, on-the-job training, and experience. Power plant operators also need strong mechanical, electrical, technical, and computer skills.
Certificate Outcomes

Students completing the certificate will:

- Develop a power plant system in a controlled lab environment.
- Identify, analyze, and provide solutions for technical problems associated with the operation of a power plant.
- Demonstrate the ability to communicate with and function effectively on a team.
- Apply appropriate environmental regulations for the operation of power plants.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Total Units 34

1. See program recommendations or requirements.

Skills Certificate - Solar Energy Technician

The solar energy technician skills certificate will prepare students for entry-level positions as solar photovoltaic (PV) installers. Students will assemble, install, or maintain solar photovoltaic systems on roofs or other structures in compliance with site assessment and schematics. This may include measuring, cutting, assembling, and bolting structural framing and solar modules; and the student may perform minor electrical work such as current checks. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Explain the basics of safety, electricity, and solar energy fundamentals.
- Examine PV module fundamentals and system components, including sizing principles.
- Apply PV system electrical and mechanical design principles.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Wind Energy Technician

The wind energy technician skills certificate will prepare students for entry-level positions as small wind turbine service technicians. Students will inspect, diagnose, adjust, and repair wind turbines, and perform maintenance on wind turbine equipment including resolving electrical, mechanical, and hydraulic malfunctions. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Examine the basics of electricity and wind energy fundamentals.
- Describe wind turbine system components, including sizing principles.
- Apply the principles of site assessment and electromechanical designs.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

English

Degree

- Associate of Arts Degree - English Emphasis

Associate of Arts Degree - English Emphasis

This degree emphasizes a critical understanding and appreciation of literature through an introduction to, and investigation of, its foundations and expressions. The English emphasis within the Associate of Arts degree program allows the TMCC English department to serve those students seeking a terminal degree or transfer into a baccalaureate program.

Emphasis Outcomes

Students completing the emphasis will:

- Identify and explain the methods and materials of literary research and gain the ability to conduct basic literary research.
- Evaluate/analyze/synthesize historical and cultural attitudes and ideas, including the ability to identify common and dissimilar traits, that emerge from literary masterpieces.
- Analyze literature of various periods and come to understand each as a unique art form that reflects human life, culture, trends, and ideas of the time.
- Cross-apply knowledge gained from previous courses in the analysis/synthesis and/or production of creative works.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

Fine Arts Degrees

• Associate of Arts Degree - Fine Arts
• Associate of Arts Degree - Fine Arts - Art History Emphasis
• Associate of Arts Degree - Fine Arts - Dance Emphasis
• Associate of Arts Degree - Fine Arts - Music Emphasis
• Associate of Arts Degree - Fine Arts - Musical Theater Emphasis
• Associate of Arts Degree - Fine Arts - Theater Emphasis

Certificate of Achievement

• Certificate of Achievement - Music
• Certificate of Achievement - Theater

Associate of Arts Degree - Fine Arts

The Associate of Arts—fine arts degree is primarily for the student who is planning to make a career in the fine arts. The emphasis is in studio art with an awareness of art history and fine art communication skills. The Associate of Arts—fine arts degree is a transferable degree satisfying lower-division university requirements for a baccalaureate degree in fine arts.

Degree Outcomes

Students completing the degree will:
• Acquire specific practical fine arts skills.
• Acquire the supportive and theoretical information necessary to sustain and forward techniques in the studio arts.
• Transfer to a baccalaureate program or become a professional in the studio arts or in a related field.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

**Associate of Arts Degree - Fine Arts - Art History Emphasis**

The art history emphasis area within the Associate of Arts degree allows the department of visual and performing arts to serve those students seeking to transfer into a baccalaureate program in art history. This emphasis area stresses critical analysis of art, knowledge and awareness of a variety of western and global artistic traditions and communications skills.

**Emphasis Outcomes**

Students completing the emphasis will:

- Successfully transfer to a baccalaureate program.
- Acquire the supportive and theoretical information necessary to sustain and forward analysis of the visual arts.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### Associate of Arts Degree - Fine Arts - Musical Theater Emphasis

This program is designed to provide the student with a well-rounded, intermediate level education in the universal language and art form of musical theater. The student will be introduced to and developed in the various areas of musical theater including historical study, appreciation, musical theater styles, vocal techniques, acting, dance and performance. The program will include repeated practical application in the rehearsal and preparation areas for public performance and presentation.

### Emphasis Outcomes

Students completing the emphasis will:

- Demonstrate competency in specific practical musical and theatrical skills, including voice, song, dance, acting, theatre production, and special projects.
- Demonstrate competence in skills relating to the knowledge of the historical and cultural dimensions of musical theater which is necessary to forward musical theater as an art form.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AA/AS.
4. Have no financial or library obligation to the college.

Associate of Arts Degree - Fine Arts - Theater Emphasis  
The theater program seeks to be an outstanding performing arts program within the visual and performing arts department, noted for its excellence in the classroom and on stage. The program provides our students with the knowledge and skills upon which they build careers and become productive citizens.  

Emphasis Outcomes  
Students completing the emphasis will:  

- Demonstrate competence in practical theatre skills including acting, design, technical direction, directing, stage management, playwriting and research.  
- Demonstrate competence in skills relating to the knowledge of the historical and cultural dimensions of theatre, including the works of
leading playwrights, actors, directors, and designers, both past and present.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

Total Units 60
Certificate of Achievement - Music

The certificate of achievement in music is formulated for the student who may want to develop skills in a conservatory-type setting; the student who does not wish to transfer to a four-year institution; the student who may already possess a degree in higher education; and the student who has a vocational interest in music.

Certificate Outcomes

Students completing the certificate will:

- Show competence in basic music skills.
- Complete the rehearsal and performance requirements for Music Ensemble.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

General Studies

Degree

• Associate of General Studies Degree

Certificate of Achievement

• Certificate of Achievement - General Studies

Associate of General Studies Degree

The Associate of General Studies (AGS) degree at TMCC is designed as a non-transfer degree for students who desire a well-rounded education for personal interest or further academic and/or career goals.

Student learning outcomes for the Associate of General Studies degree are determined by the student’s chosen academic and/or career emphases.

Degree Outcomes

Students completing the degree will:

• Be prepared for academic and/or workforce goals.
• Complete TMCC’s general education requirements.
• Acquire the knowledge, skills, and values of their broad academic focus.

Required:
Certificate of Achievement - General Studies

The Associate of General Studies certificate of achievement is highly flexible and allows students to combine classes from a diverse set of disciplines and fields. The certificate may fit personal needs or may be an important step in completion of the Associate of General Studies degree.

Certificate Outcomes

Students completing the certificate will:

- Demonstrate competencies specific to their choice of career, technical or general courses.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Graphic Communications Degree

- Associate of Applied Science Degree - Graphic Communications

Certificate of Achievement

- Certificate of Achievement - Graphic Communications

Associate of Applied Science Degree - Graphic Communications

Degree Outcomes

The graphic communications (GRC) program offers classes that lead to an associate degree or a certificate of achievement. Instruction includes the use of industry standard graphics software, and GRC computer labs are equipped with the latest Apple computers with support scanners, printers, a sound recording facility and a complete prepress/print shop facility. The program instructs in areas including; graphic design, advertising design, print production, web design, videography, and motion graphics.

Students completing the degree will:

- Identify and apply historical and current design theories and concepts in the production of visually engaging media that meets the requirements of the graphic communications industry.
• Acquire a broad skill set in current graphics related technologies, including computer software applications, processes and other production techniques used in the graphic communications industry.

• Develop and assemble a portfolio of work that will illustrate and communicate their visual design skills at a professional level.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Total Units 60
Certificate of Achievement - Graphic Communications

The certificate of achievement in graphic communications prepares students for jobs in areas of graphic communications. This includes graphic design, advertising design, web design, videography, and motion graphics. The program instructs in both theory and application on the latest print and display-based graphics software. GRC certificates are for students who may have a degree or have industry experience and are looking for certification in their field.

Certificate Outcomes

Students completing the certificate will:

- Understand and apply historical and current design theories and concepts in the production of visually engaging media that meets the requirements of the graphic communications industry.
- Acquire a broad skill set in current graphics related technologies, including computer software applications, processes and other production techniques used in the graphic communications industry.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

History

Degree

- Associate of Arts Degree - History Emphasis

Associate of Arts Degree - History Emphasis

The history emphasis area within the Associate of Arts degree allows the TMCC history department to serve those students seeking to transfer into a baccalaureate program in history. This emphasis area stresses historical thinking skills as well as historical knowledge.
Emphasis Outcomes

Students completing the emphasis will:

- Evaluate historical arguments and interpretations.
- Interpret evidence found in primary sources and develop a historical argument based on and sustained by the evidence available.
- Write historical essays that are coherent, cogent, and grammatically correct.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AA/AS degree.
4. Have no financial or library obligation to the college.

Human Development and Family Studies

Degrees

Human Development and Family Studies (p. 125)

Program Information

The Associate of Arts degree with an emphasis in Human Development and Family Studies prepares students to work with children, youth, and families in a variety of settings. The program is a study of theories and research of the human lifecycle, family systems, and the larger socio-economic environment. The Associate of Arts degree is designed to transfer to UNR. Students complete lower division courses at TMCC and then transfer to UNR to complete a Bachelor of Science degree in Human Development and Family Studies. Students are encouraged to obtain academic advisement from early childhood education faculty to facilitate the university transfer process.

Field Experience and Practicum Experience

The HDFS degree requires courses with field experience and practicum experience in an early childhood classroom with young children (birth to age five). Field experiences and practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children.

- Students must complete the practicum experience through TMCC.
- Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience or practicum experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience or practicum experience.
- Students must meet all of the prerequisite/corequisite requirements, as well as have the practicum instructor’s approval prior to enrolling in a practicum course.
- Two semesters of practicum are required. Students must complete the practicum courses in two, consecutive fall and spring semesters, during the final year of the ECE program of study.
- Students must work with the practicum instructor to arrange a practicum schedule and placement site.

Degree Outcomes

Students completing this degree will:

- Identify and describe elements of the developmental domains of the human lifecycle.
- Apply knowledge of human development, theory, and practices in practical setting.
- Demonstrate the scope of knowledge and skills required to gain entry into a baccalaureate degree program.

Associate of Arts - Human Development and Family Studies Emphasis

The Associate of Arts degree with an emphasis in Human Development and Family Studies prepares students to work with children, youth, and families in a variety of settings. The program is a study of theories and research of the human lifecycle, family systems, and the larger socio-economic environment. The Associate of Arts degree is designed to transfer to UNR. Students complete lower division courses at TMCC and then transfer to UNR to complete a Bachelor of Science degree in HDFS. Students are encouraged to obtain academic advisement from early childhood education faculty to facilitate the university transfer process.

Degree Outcomes

Students completing this degree will:

- Identify and describe elements of the developmental domains of the human lifecycle.
- Apply knowledge of human development, theory, and practices in practical setting.
- Demonstrate the scope of knowledge and skills required to gain entry into a baccalaureate degree program.

Field Experience and Practicum Experience:

The HDFS Degree requires courses with field experience and practicum experience in early childhood classrooms with young children (birth to age five).

- Students must complete the practicum experience through TMCC.
- Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience or practicum experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience or practicum experience.
- Students must meet all of the prerequisite/corequisite requirements, as well as have the practicum instructor’s approval prior to enrolling in a practicum course.
- Two semesters of practicum are required. Students must complete the practicum courses in two, consecutive fall and spring semesters, during the final year of the ECE program of study.
- Students must work with the practicum instructor to arrange a practicum schedule and placement site.

• Associate of Arts Degree - Spanish Emphasis

Associate of Arts Degree - Philosophy Emphasis

The Associate of Arts degree is primarily for the student who plans to transfer with junior standing to a four-year college or university for a baccalaureate degree. The philosophy emphasis is intended to adequately prepare the transfer student who plans to obtain a B.A. in philosophy.

Emphasis Outcomes

Students completing the emphasis will:

• Describe major historical developments in Western philosophy.
• Identify major philosophical figures and define their contributions to the history and the development of philosophical thought.
• Explain ethical theory.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

Total Units 60-63

3 See approved General Education list for the AA/AS Degree. (p. 181)
4 See program recommendations or requirements.
### Science
- 6 units

### Social Science
- 3 units

### Additional College Requirements

#### Diversity
- Required:
  - PHIL 210 World Religions 2 3 units

#### Foreign Language
- 0-14 units

#### U.S. and Nevada Constitutions
- 3 units

### Recommended:
- PHIL 207C Introduction to Social and Political Philosophy

### Degree Requirements
- PHIL 114 Introduction to Symbolic Logic 3 units
- PHIL 135 Introduction to Ethics 3 units
- PHIL 211 Introduction to Ancient Philosophy 3 units
- PHIL 213 Introduction to Modern Philosophy 3 units
- PHIL 224 Introduction to the Philosophy of Science 3 units

### Elective Requirements
Select electives from the following or see an advisor to choose courses that fulfill UNR's breadth requirement: 1-18 units
- PHIL 119 Introduction to the Old Testament
- PHIL 131 Introduction to Metaphysics
- PHIL 200 The Judeo-Christian Tradition
- PHIL 201 Philosophy Goes to the Movies
- PHIL 203 Introduction to Existentialism
- PHIL 204 Introduction to Contemporary Philosophy
- PHIL 225 Introduction to Indian Philosophy
- PHIL 244 Bioethics
- PHIL 295 Topical Issues in Philosophy

### Total Units
60 units

---

### 3rd semester
- Foreign Language 5 3 units
- Humanities 3 3 units
- PHIL 114 Introduction to Symbolic Logic 3 units
- Science 3 3 units
- U.S. and Nevada Constitutions 3 3 units

### 4th semester
- Elective 4 1 unit
- Foreign Language 5 3 units
- PHIL 135 Introduction to Ethics 3 units
- PHIL 224 Introduction to the Philosophy of Science 3 units

### Total Units
60 units

---

3. See approved General Education list for the AA/AS Degree. (p. 181)
4. See program recommendations or requirements.
5. See approved Foreign Language list for the AA Degree. (p. 183)

### Associate of Arts Degree - Spanish Emphasis

This degree emphasizes the study of the Spanish language structures and cultural topics with a focus on development of communicative proficiency in listening, speaking, reading and writing. A cultural-comparative approach will be drawn throughout the program, focusing on history and literature from Spain and Hispanic Latin American countries. The Spanish emphasis within the Associate of Arts degree program allows the TMCC Humanities department to serve those students seeking transfer into a baccalaureate program.

### Emphasis Outcomes

Students completing the emphasis will:

- Read, understand, interpret and communicate spoken and/or written Spanish.
- Identify values and cultural mores associated with Hispanic Iberian and Latin American cultures.
- Explain and analyze the major historical challenges of Spain and Hispanic Latin American countries and appraise their popular cultures and literature.

### AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### General Education Requirements

#### English
- 3-6 units

---

1. If you place into ENG 102 or ENG 114 the additional 3 required units will become elective units.
2. Course may also count toward degree requirements. Please consult with Academic Advisement.
Manufacturing Technologies

1. If you place into ENG 102 or ENG 114 the additional 3 required units will become elective units.

## Manufacturing Technologies

### Degrees

- Associate of Applied Science Degree - Manufacturing Technologies - Advanced Manufacturing Emphasis (p. 129)
- Associate of Applied Science Degree - Manufacturing Technologies - Automation and Robotics Emphasis (p. 130)
- Associate of Applied Science Degree - Manufacturing Technologies - Drafting Emphasis
- Associate of Applied Science Degree - Manufacturing Technologies - Food Processing Technology Emphasis
- Associate of Applied Science Degree - Manufacturing Technologies - Machining Emphasis
- Associate of Applied Science Degree - Manufacturing Technologies - Production Systems Emphasis
- Associate of Applied Science Degree - Manufacturing Technologies - Welding Emphasis

### Certificates of Achievement

- Certificate of Achievement - Advanced Manufacturing and Automation
- Certificate of Achievement - Computer Numeric Controlled (CNC) Machining (p. 137)
- Certificate of Achievement - Drafting Technologies
- Certificate of Achievement - Industrial Maintenance
- Certificate of Achievement - Welding Technology (p. 140)

### Skills Certificates

- Skills Certificate - CAD Technician (p. 140)
- Skills Certificate - Industrial Electricity
- Skills Certificate - Machining Level 1 CNC Milling: Operations and Programming
- Skills Certificate - Machining Level 1 CNC Turning: Operations and Programming
- Skills Certificate - Programmable Logic Controllers (PLC) 1 (p. 142)
- Skills Certificate - Welding: Flux-Cored Arc Welding (FCAW) & Gas Tungsten Arc Welding (GTAW)
Skills Certificate - Welding: Shielded Metal Arc-Welding (SMAW) and Gas Metal Arc-Welding (GMAW)

Associate of Applied Science Degree - Manufacturing Technologies - Advanced Manufacturing Emphasis

Manufacturing Technologies Advanced manufacturing Emphasis is a two year program designed to provide advanced training and technical job skills to students seeking employment and/or skill upgrades within the manufacturing and machine trades.

Degree Outcomes

- Students will read and interpret technical prints for the production and inspection of manufactured work pieces.
- Students will diagnose and repair electrical and mechanical components commonly used in a production operation. Students will use quality control standards to troubleshoot inefficiencies in a production system.
- Students will manage complex production systems, equipment, and controls. In doing so, students will apply quality and statistical process control techniques. Students will also produce precision machined work pieces within print specifications on computer numerical controlled (CNC) machine tools.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Associate of Applied Science - Manufacturing Technologies, Automation and Robotics Emphasis

Manufacturing Technologies Automation and Robotics Emphasis is a two year program designed to provide advanced training and technical job skills to students seeking employment within the advanced manufacturing field. Students will utilize state of the art equipment and robotics to integrate, diagnose, and troubleshoot highly advanced production systems.

Program Outcomes

Students completing this Degree Emphasis will:

- Students will operate equipment and tools used in manufacturing processes. Students will read and interpret technical prints for the diagnostic and troubleshooting of components and production systems.
- Students will understand programming, interfacing, and troubleshooting Programmable Logic Controllers.
- Students will be able to integrate and troubleshoot motor controls, pneumatics, hydraulics, computers, PLCs, and robotics into complex production systems. Students will apply quality and statistical process control techniques to manage complex production systems and troubleshoot inefficiencies.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

3 See approved General Educations requirements for the AAS Degree. (p. 184)

4 See Program recommendations or requirements.

Degree Outcomes

Students completing the degree will:

- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

- Understand drafting conventions including symbols, linetypes, lineweights, and dimension styles as applicable to mechanical drawings.
- Create complex drawings including orthographic projections, pictorials, working drawings, and development drawings; and prepare drawing details including auxiliary views, sections, tolerances, and surface finishes, all within specifications.
- Create complex 3D models to specifications using advanced commands.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Total Units 62

1. See approved General Education list for the AAS Degree. (p. 184)
2. See program recommendations or requirements.

Associate of Applied Science Degree - Manufacturing Technologies - Food Processing Technology Emphasis

The food processing technology emphasis prepares students for entry level employment in the food manufacturing industry. It provides an understanding of the selection, preservation, processing, packaging and distribution of safe, nutritious, and wholesome foods.

Degree Outcomes

Students completing the degree will:
- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:
- Practice occupational safety at all levels in a modern food processing plant.
- Have the ability to work in commercial food processing plants.
- Apply sanitation standards in a bulk food preparation environment.

To earn an AAS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

General Education Requirements

Diversity
Recommended:
LGM 202 International Logistics Management

Communications/English
Required:
ENG 101 Composition I
ENG 107 Technical Communications I

Fine Arts/Humanities/Social Science
Required:
PHIL 135 Introduction to Ethics

Human Relations
Recommended:
CE 201 Workplace Readiness

Mathematics
Required:
MATH 126 Pre-Calculus I (or higher)

Science
Required:
BIOL 190 & 190L Introduction to Cell and Molecular Biology and Introduction to Cell and Molecular Biology Laboratory
U.S. and Nevada Constitutions

Recommended:
PSC 101  Introduction to American Politics  3

Degree Requirements

MPT 140  Quality Control  3
OSH 222  General Industry Safety  1

Emphasis Requirements

Associate of Applied Science Degree - Manufacturing Technologies - Machining Emphasis

The manufacturing technologies, machining emphasis AAS degree program, is a two-year program designed to provide training and technical job skills to students seeking employment and/or skill upgrades within the manufacturing and machine trades. The program requires students to complete a variety of hands-on learning exercises ranging from manually machined projects to advanced multi-axis CNC tasks. This program is formatted to respond to the needs of industry and the working professional. The TMCC machining emphasis AAS curriculum aligns with the standards set forth by the National Institute for Metalworking Skills (NIMS) and prepares students to earn a variety of NIMS credentials.

Degree Outcomes

Students completing the degree will:

• Fulfill the requirements of the Associate of Applied Science.
• Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

• Read and interpret technical prints for the production and inspection of manufactured work pieces.
• Produce precision machined work pieces within print specifications on manually controlled machine tools.
• Produce precision machined work pieces within print specifications on computer numerical controlled (CNC) machine tools.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Associate of Applied Science Degree - Manufacturing Technologies - Production Systems Emphasis

The manufacturing technologies production systems emphasis AAS degree program is a two-year program designed to provide training and technical job skills to students seeking employment and/or skill upgrades as a manufacturing, assembly, fabrication, or distribution manager or technician. The program utilizes an advanced automated systems lab in which students demonstrate and manipulate production system controls and techniques at both the technician and managerial levels.

Degree Outcomes

Students completing the degree will:

• Fulfill the requirements of the Associate of Applied Science.
• Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

• Read and interpret technical prints for inspection of manufactured and/or assembled products.
• Manage complex production systems, equipment, and controls.
• Apply quality and statistical process control techniques to complex production and distribution systems.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:
1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

**General Education Requirements**

*Diversity* [3]

- Recommended: AAD 201 History of the Built Environment

*Communications/English* 6

- Required: ENG 102 Composition II or ENG 114 Composition II For International Students

*Human Relations* 3

- Recommended: MGT 171 Supervision (If planning on completing the BAS in Logistics Operations Management)

*Mathematics* [3]

- Required: MATH 120 Fundamentals of College Mathematics (or higher)

*Science* 3

- Recommended: PHYS 100 Introductory Physics

*Fine Arts/Humanities/Social Science* 3

- Recommended: AAD 201 History of the Built Environment

2. See approved General Education list for the AAS Degree. (p. 184)

3. See program recommendations or requirements.

**Associate of Applied Science Degree - Manufacturing Technologies - Welding Emphasis**

The Associate of Applied Science manufacturing technologies degree with a welding emphasis gives the student the training necessary to earn the American Welding Society structural steel certifications, which are required for employment in most areas of the construction and manufacturing fields involving welding, along with the general
education requirements and employability skills that are sought after by all employers in the construction and manufacturing trades.

**Degree Outcomes**

Students completing the degree will:

- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

**Emphasis Outcomes**

Students completing the emphasis will:

- Be proficient in four major welding processes and prepared for industry-standard certification.
- Identify and explain technical drawings and apply print reading techniques required in the welding industry.
- Consistently demonstrate safe and proper use of welding equipment, power tools, and accessories in the performance of welding and joinery.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).

Certificate of Achievement - Advanced Manufacturing and Automation.

This program prepares individuals in the core competencies of front-line production employment for the manufacturing industry. It complies with nationally recognized industry standards and emphasizes basic skills in workplace safety, quality practices and measurement, manufacturing processes and production, and maintenance awareness.

Certificate Outcomes

Students completing the certificate will:

- Introduction and basic operation of Autonomous Systems, Programmable Logic Controllers, and Robotics.
- Practice safety at all levels in a modern manufacturing and distribution plant.
- Diagnose and repair electrical and mechanical components commonly used in a production operation.
- Use quality control standards to troubleshoot inefficiencies in a production system.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Certificate of Achievement - Computer Numeric Controlled (CNC) Machining

The CNC machining certificate of achievement provides students with the skills and knowledge required for an entry level position as a computer numerical control (CNC) machine tool operator. This certificate stresses the skill sets required to set up, program, and operate CNC mills and lathes in order to produce high quality, precision machined components required by today’s competitive and diverse manufacturing industries. The certificate incorporates the general education skills that are strongly requested by commercial and industrial employers. The TMCC CNC machining certificate of achievement curriculum aligns with...
the standards set forth by the National Institute for Metalworking Skills (NIMS) and prepares students to earn a variety of NIMS credentials.

**Certificate Outcomes**

Students completing the certificate will:

- Read and interpret technical prints for the production and inspection of manufactured work pieces.
- Produce precision machined work pieces within print specifications on computer numerical controlled (CNC) machine tools.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

**General Education Requirements**

**Communications**

Recommended: ENG 107 Technical Communications I

**Human Relations**

Requirement is satisfied through embedded curriculum in the following courses: MPT 140, MTT 230, MTT 232, OSH 222.

**Mathematics**

Requirement is satisfied through embedded curriculum in the following courses: DFT 110, MPT 140, MTT 230, MTT 232.

**Certificate Requirements**

**Total Units** 30

---

**Certificate of Achievement - Drafting Technologies**

The drafting technology certificate is designed to provide training and technical job skills to students seeking employment and/or skill upgrades. A drafting technician works with designers and engineers within a variety of industries including manufacturing, architecture, construction and landscaping. The program is competency-based. Students complete a variety of hands-on learning exercises ranging from manually drafted drawings to advanced computerized two and three dimensional wireframe and solid modeling projects.

**Certificate Outcomes**

Students completing the certificate will:

- Demonstrate a basic knowledge of drafting theory as it relates to working with designers and engineers within a variety of industries including manufacturing, architecture and construction.
- Prepare technical drawings and presentations demonstrating understanding of manual drawing and CAD techniques.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

**General Education Requirements**

**Communications**

Recommended: ENG 107 Technical Communications I

1  See approved General Education list for the AAS Degree. (p. 184)
2  See program recommendations or requirements.

Program Outcomes

Student completing this Certificate will:

- Learn hands on technical skills in the areas of Electrical controls, Welding, Manual Machining, and HVAC.
- Diagnose and troubleshoot electrical and mechanical systems.
- Practice safety at all levels in a modern industrial environment.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)

Certificate of Achievement - Welding Technology

Based on the American Welding Society Entry Level Welder Standards, the welding technology certificate of achievement program gives students the welding skills necessary to qualify for an entry-level position in a diversity of occupations that utilize welding from construction to manufacturing along with part of the general education skills that are strongly requested by commercial and industrial employers.

Certificate Outcomes

Students completing the certificate will:

- Be proficient in two major welding processes and prepared for industry-standard certification.
- Identify and explain technical drawings and apply print reading techniques required in the welding industry.
- Consistently demonstrate safe and proper use of welding equipment, power tools, and accessories in the performance of welding and joinery.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Skills Certificate - CAD Technician

The drafting and CAD skills Certificate is designed to provide training and technical job skills to students seeking employment and/or skill upgrades. A drafting technician works with designers and engineers within a variety of industries including manufacturing, architecture, construction and landscaping. The program is competency-based. Students complete a variety of hands-on learning exercises ranging from manually produced drawings to intermediate computerized two dimensional projects.
Certificate Outcomes

Students completing the certificate will:

• Demonstrate academic and practical knowledge of drafting standards and theory as it relates to working with designers and engineers within a variety of industries including manufacturing, architecture and construction.
• Prepare technical drawings and presentations demonstrating understanding of manual and CAD drawings techniques.
• Be eligible to take the ADDA (AD) Apprentice Drafter and/or (CD) Certified Drafter Exams and/or the Autodesk Certified Professional Exam.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Industrial Electricity 1

This Skills Certificate program prepares students to take the PMMI Mechatronics Certifications Tests in the area of Industrial Electricity 1.

Certificate Outcomes

Students completing this certificate will:

• Apply theory of electricity and it’s application in various technical areas and use basic electronic measurement instruments for circuit troubleshooting.
• Evaluate DC series and parallel circuits in component selections and circuit design and be able to demonstrate AC circuitry through simple experiments with tests equipment.
• Apply relationships and mathematical calculations of voltage, ohms, amperes, three-phase voltage, and current to analyze basic electrical/electronic circuits.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0

Skills Certificate - Machining Level 1-CNC Milling: Operations and Programming

The CNC milling: operations and programming, skills certificate will introduce students to computer numerical control (CNC) milling operations, program formats, and machine setups. G and M codes, control functions, the letter address system, and math issues related to CNC mills are included. Students will program, set-up and produce a variety of CNC milling projects. This skills certificate will prepare students to take four credentialing exams: 1) Materials, Measurement, and Safety, 2) Job Planning, Benchwork, and Layout, 3) CNC Milling-Operations, and
Skills Certificate - Machining Level 1-CNC Turning: Operations and Programming

4) CNC Milling-Programming, Setup, and Operations through the National Institute for Metalworking (NIMS) Machining Level 1, an 11-part series of tests for entry-level positions. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Write ISO standard G-Code programs for CNC milling operations.
- Set-up, operate, and produce a finished product using CNC milling equipment.
- Employ appropriate workplace skills, including the application of personal and mechanical safety measures for CNC mill equipment.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

Skills Certificate - Programmable Logic Controllers (PLC) 1

This Skills Certificate program prepares students to take the PMMI Mechatronics Certification Test in the area of programmable Logic Controllers (PLC’s) 1.

Certificate Outcomes

Student completing this certificate will:

- Identify and apply concepts of PLC components, their relationships, and interactions with each other. Students will also identify different types of ladder logic used in PLC programming and explain and utilize common PLC functions within a PLC program.
- Identify and apply concepts of PLC components, their relationships, and interactions with each other. Students will also identify different types of ladder logic used in PLC programming and explain and utilize common PLC functions within a PLC program.
- Utilize different numbering systems within a PLC program and explain the AND, OR and NOT functions within PLC ladder logic, Bookean identities and mnemonic codes. Students will also differentiate between the decimal, BCD, binary, hexadecimal, and octal numbering systems. programming

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. **Skills Certificate - Welding: Flux-Cored Arc Welding (FCAW) & Gas Tungsten Arc Welding (GTAW)**

The welding: flux-cored arc welding (FCAW) and gas tungsten arc welding (GTAW) skills certificate will prepare students to take the American Welding Society (AWS) certified welding (CW) exams. Students will learn various cutting processes and develop manual skills using FCAW, GTAW, and plasma arc cutting (PAC) processes that comply with AWS standards, including critical safety procedures. Students will learn to fabricate simple parts from basic drawings, sketches, and technical plans. Students must pass all coursework with a score of 75% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

**Certificate Outcomes**

Students completing the certificate will:

- Use the FCAW, GTAW, and plasma arc cutting processes to produce a variety of welds.
- Fabricate simple parts from basic drawings, sketches, and technical plans.
- Demonstrate appropriate workplace skills and tools, including the application of personal and mechanical safety measures for using welding equipment and techniques.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Mathematics Degree

• Associate of Science Degree - Mathematics Emphasis

Associate of Science Degree - Mathematics Emphasis

This is a two-year transferable program leading to an Associate of Science with an emphasis in mathematics. This program will provide students with the necessary background in calculus and differential equations needed for a bachelor’s degree in mathematics and will also provide the computer science needed for a bachelor of science degree at UNR. All courses recommended will partially satisfy the degree requirements for any of the bachelor’s degree options offered by the mathematics department at the University of Nevada, Reno.

Emphasis Outcomes

Students completing the emphasis will:

• Select and apply the appropriate algorithm or methodology to solve mathematical problems.
• Use deductive reasoning to construct mathematical proofs.
• Communicate mathematical information formally through appropriate notation, terminology, and graphical representation as well as communicate mathematical ideas informally using everyday language.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

| Humanities 3 | 3 |
| Science 3 | 6 |
A student’s progression in the ADN program is contingent upon attaining and maintaining a grade of “C” or better in each course in the nursing curriculum.

Admission Requirements
The pre-requisite courses, MATH 126, BIOL 223, and BIOL 251 must be taken prior to application for admission to the nursing program. There are additional admission requirements. Please go online for information.

Accreditation and Regulation
The TMCC ADN program is approved by the Nevada State Board of Nursing and is accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN). Students may contact the Nevada State Board of Nursing at 1-888-590-6726.

ACEN, a U.S. Department of Education recognized accrediting agency for nursing programs, maintains information on TMCC’s nursing program. ACEN’s address is:

3343 Peachtree Road, NE, Suite 850
Atlanta, GA 30326

Program Outcomes
Students completing the program will:

• Achieve a passing score on the NCLEX-RN.
• Complete the program in a timely manner.
• Be employable.

Associate of Science Degree - Nursing

Degree Outcomes
Students completing the degree will:

• Practice professional nursing behaviors, incorporating personal responsibility, values, and expectations of the profession and accountability for lifelong learning.
• Integrate knowledge of the diverse and holistic needs of the individual to safely implement the nursing process.
• Communicate professionally and effectively with individuals, significant support persons, and members of the interdisciplinary health care team.
• Manage care within the interdisciplinary healthcare team to advocate for positive individual and organizational outcomes.
• Incorporate informatics to formulate evidence-based clinical judgments and management decisions.

Special Admissions Procedures
Program Information: 775-850-4054

The TMCC program prepares the graduate to practice as a registered nurse. The TMCC Nursing Program meets the minimum degree requirements for the Associate of Science Degree. The Associate of Science Degree in nursing is awarded upon completion of the curriculum and the student will be eligible to apply to take the national NCLEX-RN examination leading to licensure as a Registered Nurse.

Nursing program graduates are eligible to apply for licensure in the state of their choice. Each state has specific criteria for licensure eligibility. It is the student’s responsibility to contact the state to ascertain eligibility. Nursing program graduates are eligible to apply for licensure in the state of Nevada. Graduation from an accredited program is only one of the requirements and does not mean automatic licensure as a nurse. The State of Nevada licensure application contains five questions which may impact the applicant’s ability to obtain licensure. These questions have to do with revocation, denial or suspension of a license or certificate, conviction of a criminal offense, problems with drug or alcohol use, treatment for mental illness and physical disability which could impair one’s ability to practice nursing.

Nursing courses are to be taken in the sequence outlined on the following page. General education support courses may be taken as outlined or prior to acceptance into the program. However, because clinical experiences and/or theory courses may be scheduled during both day and evening hours, it is suggested that as many general education classes as possible be taken prior to acceptance into the program with the exception of required pre-requisites.

Background checks are a requirement of the clinical facilities with which Truckee Meadows Community College has a contract for nursing student clinical experience. If a student declines to provide a background check or if the background is unsatisfactory to the facility, the student will not be permitted to participate in the clinical portion of the program. Prospective students are advised that they will be withdrawn from the program if clinical requirements are not able to be met for any reason. TMCC will not be responsible for obtaining background checks and will not receive the results of any background investigations.

**Admission Requirements**
The pre-requisite courses, MATH 126, BIOL 223, and BIOL 251 must be taken prior to application for admission to the nursing program. There are additional admission requirements. Please go online for information.

**Accreditation and Regulation**
The TMCC ADN program is approved by the Nevada State Board of Nursing and is accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN). Students may contact the Nevada State Board of Nursing at 1-888-590-6726.

ACEN, a U.S. Department of Education recognized accrediting agency for nursing programs, maintains information on TMCC’s nursing program. ACEN’s address is:

3343 Peachtree Road, NE, Suite 850
Atlanta, GA 30326

**Program Outcomes**
Students completing the program will:

- Achieve a passing score on the NCLEX-RN.
- Complete the program in a timely manner.
- Be employable.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### Required Courses

**General Education Requirements**

**English**

- Must include ENG 102 or ENG 114

**Fine Arts**

- 3

**Humanities**

- 3

**Recommended:**

- CH 201 Ancient and Medieval Cultures
- or CH 202 The Modern World

**Mathematics**

- 3

**Required:**

- MATH 126 Pre-Calculus I (or higher)

**Science**

- [6]

**Required:**

- BIOL 190 Introduction to Cell and Molecular Biology and Introduction to Cell and Molecular Biology Laboratory
- BIOL 251 General Microbiology

**Social Science**

- 3

**Recommended:**

- CH 203 American Experiences and Constitutional Change
- or PSC 101 Introduction to American Politics

**Additional College Requirements**

**Diversity**

- [3]

**Required:**

- NURS 212 Cultural Aspects of Nursing Care

**Science**

- [6]

**Required:**

- BIOL 223 Human Anatomy and Physiology I
- BIOL 224 Human Anatomy and Physiology II

**U.S. and Nevada Constitutions**

- [3]

**Required:**

- CH 203 American Experiences and Constitutional Change
- or PSC 101 Introduction to American Politics

**Degree Requirements**

- BIOL 224 Human Anatomy and Physiology II (additional 2 units from Gen. Ed.)
- BIOL 251 General Microbiology (additional 2 units from Gen. Ed.)
- NURS 102 Professional Behaviors
- NURS 138 Nursing Care I
- NURS 142 Fundamentals of Pharmacology
- NURS 170 Nursing Care 2
- NURS 202 Nursing Care 3
- NURS 209 Principles of Pathophysiology
- NURS 212 Cultural Aspects of Nursing Care
Paralegal/Law Degree

- Associate of Applied Science Degree - Paralegal/Law

Associate of Applied Science Degree - Paralegal/Law

Paralegals assist attorneys in a variety of settings such as private legal practices, the public legal system, and corporate legal departments. TMCC's paralegal/law Associate of Applied Science program is the only American Bar Association (ABA) approved program in Nevada.

Degree Outcomes

Students completing the degree will:

- Exhibit knowledge of the following areas of the law: torts, civil procedure, ethics, and real property.
- Demonstrate the ability to do basic legal research and basic legal writing.
- Acquire the knowledge and skills to obtain entry-level employment as a paralegal.

The LAW 101 (Fundamentals of Law I) course is open to all students. Upon completion of LAW 101 with a grade of 'B' or better a student may register for additional LAW courses through normal registration procedures as long as the proper prerequisites have been met. A student must maintain a 3.0 GPA average through all legal specialty coursework to graduate with an AAS degree in paralegal. Students must complete a minimum of 12 semester units of paralegal "legal specialty" courses in a live traditional classroom format, or acceptable equivalents, as specified by the American Bar Association Standing Committee on Paralegals. Transfer units intended to satisfy legal specialty units will be reviewed by the program coordinator for course content to ensure that the course(s) satisfy ABA requirements. No more than 12 semester units will be allowed via transfer for legal specialty courses. No legal specialty transfer units are allowed via examination or portfolio. Paralegals may not provide legal services directly to the public, except as permitted by law.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

3 After completion of prerequisite semester, students apply for admission to the Nursing Degree program.
4 See approved General Education list for the AA/AS Degree. (p. 181)
5 See program recommendations or requirements.
Humanities:
- All English courses except ENG 101, ENG 102, ENG 107, ENG 108, ENG 112D, ENG 113, ENG 114, ENG 181, ENG 221
- All Foreign Languages
- CH 201 Ancient and Medieval Cultures
- CH 202 The Modern World
- CH 203 American Experiences and Constitutional Change
- HIST 105 European Civilization to 1648
- HIST 106 European Civilization since 1648
- HIST 217 Nevada History
- HUM 101 Introduction to Humanities I
- HUM 102 Introduction to Humanities II
- All Philosophy courses
- THTR 100 Introduction to Theater

Social Science:
- All Anthropology courses except ANTH 102
- CH 203 American Experiences and Constitutional Change
- All Geography courses except GEOG 103
- All History courses
- HDFS 201 Lifespan Human Development
- All Political Science courses
- All Psychology courses
- All Sociology courses

Human Relations
- Select one of the following:
  - MGT 171 Supervision
  - MGT 201 Principles of Management
  - MGT 212 Leadership and Human Relations
  - MGT 235 Organizational Behavior

Mathematics
- Select from MATH courses 100 or above (except MATH 100, MATH 105, MATH 107, MATH 108, MATH 122, MATH 123, MATH 190)

Science
- Select 3 units from the following:
  - CH 203 American Experiences and Constitutional Change
  - HIST 101 US History to 1877
  - HIST 102 US History since 1877
  - HIST 217 Nevada History
  - HIST 101 US History to 1877
  - HIST 102 US History since 1877
  - HIST 101 US History to 1877
  - HIST 102 US History since 1877
  - PSC 101 Introduction to American Politics

Degree Requirements
- IS 101 Introduction to Information Systems
- LAW 101 Fundamentals of Law I (LS)
- LAW 203 Real Property (LS)
- LAW 204 Torts (LS)
- LAW 205 Contracts (LS)
- LAW 231 Procedure - Civil (LS)
- LAW 259 Legal Writing (LS)
- LAW 261 Legal Research I (LS)
- LAW 263 Ethics (LS)
- LAW 264 Civil Evidence (LS)

Elective Requirements
- Select 12 units from the following:
  - LAW 198 Special Topics Legal Assistant
  - LAW 232 Procedure - Criminal (LS)
  - LAW 233 Business Structures (LS)
  - LAW 251 Bankruptcy (LS)
  - LAW 252 Family Law (LS)
  - LAW 255 Probate Procedures (LS)
  - LAW 295 Supervised Field Experience (LS)

Total Units: 63

1. May also count toward degree requirements. Please consult with Academic Advisement.
2. "LS" denotes legal specialty courses. A student must maintain a 3.0 GPA average through all legal specialty coursework to graduate with an AAS degree in Paralegal.
3. A course used to satisfy the US. & Nevada Constitution requirement may also apply to an additional degree requirement.

Degree

• Associate of Science Degree - Chemistry Emphasis (p. 149)
• (p. 149) Associate of Science Degree - Engineering Emphasis (p. 150)
• Associate of Science Degree - Environmental Science Emphasis (p. 151)
• Associate of Science Degree - Geoscience Emphasis
• Associate or Science Degree - Renewable Energy and Resources Emphasis

Associate of Science Degree - Chemistry Emphasis

This is a two-year transferable program leading to an Associate of Science with an emphasis in chemistry. The curriculum includes a core of courses in the physical sciences and mathematics which are advised by the American Chemical Society (ACS) for transfer to any ACS accredited chemistry program. All courses recommended will partially satisfy the bachelor of science in chemistry at the University of Nevada, Reno.

Emphasis Outcomes

Students completing the emphasis will:

• Demonstrate a basic knowledge of General Chemistry in topics such as stoichiometry, nomenclature, acids and bases, gas laws, equilibrium, kinetics, thermochemistry, and electrochemistry.
• Demonstrate a basic knowledge of Organic Chemistry in topics such as stoichiometry, organic nomenclature, acids and bases, organic synthesis, reaction mechanisms, and spectroscopy.
• Demonstrate knowledge of scientific methods and the relationship of theory, experiment, and data analysis.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### Associate of Science Degree - Engineering Emphasis

This is a two-year transferable program leading to an Associate of Science with an emphasis in engineering. The Associate of Science degree in engineering is designed for students planning to obtain a four-year engineering degree. Engineering is the practical application of scientific theory and principles. This program develops a strong foundation in mathematics and physical science while providing an introduction to the fundamental aspects of engineering. Students who complete the associate degree can transfer to other colleges or universities in many engineering disciplines including civil, chemical, computer, electrical, geological, mechanical, metallurgical, mining, computer science and engineering physics.

### Emphasis Outcomes

Students completing the emphasis will:

- Describe and apply the engineering design process.
- Demonstrate effective communication skills via writing and presentations, work effectively in teams, and perform basic computational skills appropriate to the engineering field.

### General Education Requirements

**Associate of Science Degree - Environmental Science Emphasis**

Environmental science focuses on issues that are of relevance to all citizens of the United States and all countries. With growth and development comes the need for people trained in environmental sciences that can deal with environmental issues. Sustainable development is a local and regional concern, especially as Nevada’s growth continues to lead the nation. The Associate of Science emphasis in environmental science is specifically designed to transfer seamlessly into the environmental science curriculum at the University of Nevada, Reno. It will also prepare students for transfer into similar programs at other four-year institutions.

**Degree Outcomes**

Students completing the degree will:

- Perform both laboratory and field experiments using the scientific method, which requires observation, hypothesis testing, data collection, and the application of basic biological and chemical principles to explain results.
- Demonstrate effective oral and written communication, teamwork and collaboration in scientific, mathematical and other settings.
- Utilize primary and secondary sources in the scientific literature to obtain information pertaining to environmental science.
- Explain the impacts of different environmental pollutants and critically evaluate various pollution mitigation efforts in the context of regional and global policies, economics, and politics.
- Analyze the impact of human activities on biodiversity, and how patterns of biodiversity have shaped human activities, employing the ecological, evolutionary, and geological factors that control patterns of biodiversity and extinction.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

**General Education Requirements**

**English**

- Must include ENG 102 or ENG 114 1

**Fine Arts**

- 3

**Humanities**

- Recommended:
  - CH 201 Ancient and Medieval Cultures

**Mathematics**

- Required:
  - MATH 127 Pre-Calculus II (or higher)
  - Recommended:
    - MATH 181 Calculus I (if transferring to UNR)
    - or MATH 176 Introductory Calculus for Business and Social Sciences

**Science**

- Required:
  - CHEM 121 General Chemistry I 4
  - CHEM 122 General Chemistry II 4
  - Recommended:
    - CH 203 American Experiences and Constitutional Change

**Additional College Requirements**

**Diversity**

- [3]

**Recommended:**

- NRES 211 Conservation, Humans and Biodiversity 3

**U.S. and Nevada Constitutions**

- [3]

**Recommended:**

- CH 203 American Experiences and Constitutional Change

**Degree Requirements**

- BIOL 190 Introduction to Cell and Molecular Biology 3
- BIOL 191 Introduction to Organismal Biology & 191L and Intro to Organismal Biology Lab 4
- CHEM 122 General Chemistry II (additional 2 units from General Education) 4
- CHEM 122 General Chemistry II (additional 2 units from General Education) 4
- CHEM 211 Introduction to Geotechnology 3
- GEOG 100 Earthquakes, Volcanoes and Natural Disasters 3
- ECON 102 Principles of Microeconomics 3
- NRES 200 Principles of Natural Resources & Environmental Science 3
### Associate of Science Degree - Geoscience Emphasis

The geoscience emphasis in physical science is designed to provide a solid foundation for students interested in geology, natural resources, physical geography, renewable energy (in particular geothermal energy), environmental sciences and planning, and teaching of science. After completing the emphasis program, students will be well prepared to either enter the work force as a technician or transfer to four-year professional baccalaureate degree programs. The program will maximize student transfer opportunities.

#### Emphasis Outcomes

Students completing the emphasis will:

- Relate how the various earth systems, consisting of the geosphere, hydrosphere, cryosphere, atmosphere, and biosphere, interact with each other so as to affect surface landforms, climate and weather, oceanic circulation patterns, and well being of life forms including the human condition.
- Utilize the theory of plate tectonics to explain the distribution of volcanoes, earthquakes, energy and mineral resources, and formation of different types of rocks and minerals.
- Demonstrate an ability to identify and classify rocks and minerals and relate their origin to both internal and external forces and processes. Much like words in a book tell a story, students will "read" rocks to interpret their history as written by nature.
- Recognize that changes in life over time involve feedbacks between life forms and the physical environment—that changes in our physical environment, driven by both internal and external forces, govern the explosions and extinctions of life forms with time and will continue to do so.
- Apply the scientific method and geologic knowledge gained in a capstone course to interpret the geologic history of select areas of the Reno region through field studies, involving rock and structure identification and plotting their distribution to make basic but informative geologic maps also useful in assessments of geological hazards.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

**Total Units** 60

1. If you place into ENG 102 or ENG 114, the additional 3 required units will become elective credit.
2. Course may also count toward degree requirements. Please consult with Academic Advisement.
3. NRES 211 will also satisfy 3 units in the Degree Requirements
4. For students transferring into a specific program at a university, choose electives appropriate for that program.

5. See approved General Education list for the AA/AS Degree. (p. 181)
6. See program recommendations or requirements.
### English
Must include ENG 102 or ENG 114.

### Fine Arts
- Recommended: THTR 210 Theater: a Cultural Context

### Humanities

### Mathematics
- Required: MATH 127 Pre-Calculus II (or higher)

### Science
- Required: CHEM 121 General Chemistry I
- Required: CHEM 122 General Chemistry II

### Social Science
- Recommended: GEOG 106 Introduction to Cultural Geography

### Additional College Requirements

### Diversity
- Recommended: THTR 210 Theater: a Cultural Context

### U.S. and Nevada Constitutions

### Degree Requirements
- ECON 102 Principles of Microeconomics
- GEOL 101 Geology: Exploring Planet Earth
- GEOL 102 Earth and Life Through Time
- GEOL 206 Geology of Geothermal Energy Resources
- GEOL 260 Introduction to Field Methods
- MATH 181 Calculus I
- MATH 182 Calculus II
- PHYS 151 General Physics I
- or PHYS 180/180L Physics for Scientists and Engineers I

### Elective Requirements
Select 6 units from the following:
- BIOL 100 General Biology for Non-Majors
- GEOG 103 Physical Geography of Earth's Environment
- GEOG 104 Physical Geography Lab
- GEOG 121 Climate Change: the Science Basis
- GEOG 210 Introduction to Geotechnology
- GEOG 210 Humanities
- NRES 100 Prin of Natural Resources & Environmental Sciences
- PHYS 181 Physics for Scientists and Engineers I
- PHYS 181L Physics for Scientists and Engineers Lab II (preferred)
- or PHYS 152 General Physics II

### Course Title Units

#### 1st semester
- CHEM 121 General Chemistry I 4
- ENG 101 or ENG 113 Composition I or Composition I for International Students 3
- GEOL 101 Geology: Exploring Planet Earth 4
- MATH 127 Pre-Calculus II 3
- Diversity/Fine Arts 3
- Semester Total 17

#### 2nd semester
- ENG 102 or ENG 114 Composition II or Composition II For International Students 3
- CHEM 122 General Chemistry II 4
- GEOL 206 Geology of Geothermal Energy Resources 3
- MATH 181 Calculus I 4
- Semester Total 14

#### 3rd semester
- ECON 102 or ECON 103 Principles of Microeconomics or Principles of Macroeconomics 3
- GEOL 102 Earth and Life Through Time 4
- GEOL 260 Introduction to Field Methods 2
- Humanities 3
- PHIS 180 & PHYS 181L Physics for Scientists and Engineers I or General Physics II 4
- Semester Total 16

#### 4th semester
- Elective 3
- MATH 182 Calculus II 4
- Social Science 3
- U.S. and Nevada Constitutions 3
- Semester Total 13
- Total Units 60

---

1. If you place into ENG 102 or ENG 114 the additional 3 required units will become elective units.
2. MATH 181 and MATH 182 are required of Geology majors at UNR prior to graduation.
3. Course may also count toward degree requirements. Please consult with Academic Advisement.
4. BIOL 100 is required for a UNR Geology Baccalaureate Degree.
5. PHYS 152 is required for UNR Geology baccalaureate degree.
6. See program recommendations or requirements.

### Associate of Science Degree - Renewable Energy and Resources Emphasis

This is an interdisciplinary emphasis that draws on courses in Engineering, Environmental Science, Geography, and Geoscience. The emphasis is designed for students seeking a broad exposure to the...
spectrum of renewable energy technologies and resources. Some specific components of the emphasis include:

1. understanding what constitutes a source of renewable energy and how renewable energy relates to the energy mix, currently dominated by the fossil fuels (coal, petroleum, and natural gas);
2. learning about the different types of renewable energy technologies, including the attributes and limitations of each; and
3. understanding the differences between renewable and nonrenewable resources and the implication their development has on global processes, including global climate change.

Students completing this emphasis will partially fulfill requirements for multiple baccalaureate degree programs at the University of Nevada, Reno (UNR), specifically in Engineering, Environmental Science, Geography, and Geology, and similar programs at other four year institutions. Completion of the emphasis can fulfill half the requirements for the renewable energy minor at UNR for any baccalaureate major.

**Emphasis Outcomes**

Students completing the emphasis will:

- Describe the various types of renewable energy technologies and renewable resources available and identify the attributes and limitations of each.
- Relate how sources of renewable energy and traditional sources of energy affect the environment locally and globally.
- Apply concepts learned in course work to laboratory activities and field studies that allow hands on learning simulating real-world investigations.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

4  See program recommendations or requirements.

Associate of Arts Degree - Psychology Emphasis

The Associate of Arts degree in psychology is designed for students seeking careers in psychology or related fields. The degree requirements include a well-balanced general education curriculum. Specific curriculum provides students with major concepts, theoretical perspectives and empirical findings in psychology. In addition, students will come to understand and apply basic research methods in psychology. This course of study is designed as a university transfer program that substantially meets the requirements for the first two years of study for the B.A. in psychology at UNR. In addition, students have the possibility to begin work on a minor in addiction treatment services that is available at UNR. Students wishing to transfer to any other baccalaureate program should work closely with TMCC advisors and advisors at the institution of transfer to obtain recommended courses for transfer.

Emphasis Outcomes

Students completing the emphasis will:

- Demonstrate familiarity with the major concepts, theoretical perspectives and empirical findings in psychology.
- Understand and apply basic academic research methods in psychology including research design, data analysis and interpretation.
- Apply psychological principles to understand human behavior.

AA/AS degrees are designed for students who plan to transfer to a four-year college or university.

To earn an AA/AS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
4. Have no financial or library obligation to the college.

### Paramedic Program

The paramedic program is designed for the student who desires education with a career goal as a Paramedic. The certificate of achievement from TMCC will be awarded after the student has completed all program and certificate requirements. This is a one year continuous program.

The Paramedic curriculum meets all requirements as outlined in the U.S. Department of Transportation (DOT) and the Paramedic National Standard Curriculum. The program is 1,400+ hours in length and based on specific objectives. The didactic/classroom phase includes 700+ hours of instruction. Activities include lectures, skills lab sessions, demonstrations and simulations. The second phase is completed in the hospital environment where the student is provided the opportunity to apply the cognitive knowledge and psychomotor skills gained in the classroom setting. The student is under direct supervision of a physician or registered nurse and will participate in direct patient care. The student must complete at least 240 hours of clinical/hospital experience. The third and final component of the paramedic program is the field rotation phase. The student will apply the knowledge and skills gained in the classroom and hospital under the direct supervision of a preceptor that is currently functioning in the role of a paramedic.

The Paramedic candidate will be required to complete a minimum of 480 hours of field rotation lab. Student progression in the program is contingent upon attaining a grade of “C” or better in all paramedic curricula. A “C” grade is equal to 80%. Courses must be taken in the sequence outlined.

### Special Requirements and Admission Procedures

Admission to the paramedic program enrollment is limited and requires special procedures. The paramedic office will maintain an interest list for the program and will notify applicants of the testing dates. Completed applications will be accepted by the paramedic office ONLY WITH VERIFICATION OF THE FOLLOWING:

- Fill out the online application.
- Current American Heart Association health care provider CPR or Red Cross professional rescuer CPR card.
- Current Nevada State EMT or Advanced EMT certification, or National Registry EMT or AEMT certification.

Students admitted to the paramedic program will be notified by the paramedic office. The admitted student must complete the following requirements prior to the start of classes.

- Satisfy all general college admission criteria.
- Pass a physical examination by your doctor.
- Provide evidence of current measles, mumps, rubella, and varicella immunizations or appropriate titer levels.

### Public Safety

#### Degrees

- Bachelor of Applied Science - Emergency Management & Homeland Security (p. 160)
- Associate of Applied Science - Prehospital Emergency Medicine
- Associate of Applied Science Degree - Fire Technology - Fire Suppression Emphasis

#### Certificate of Achievement

- Certificate of Achievement - Paramedic
- Certificate of Achievement - Fire Technology

#### Skills Certificates

- Skills Certificate - Emergency Medical Technician
- Skills Certificate - Emergency Medical Technician, Advanced
- Skills Certificate - Emergency Medical Technician Instructor Training

3. See approved General Education list for the AA/AS Degree. (p. 181)
4. See program recommendations or requirements.
5. See approved Foreign Language list for the AA Degree.
• Provide evidence of current diphtheria-tetanus (DT) immunization.
• Provide evidence of completed Hepatitis B immunization; and of a negative two step TB skin test or negative chest X-ray.
• Provide evidence of major medical health coverage.
• Be 18 years of age or older upon entrance to the program.
• Pass an EMS department background check and drug test.
• Failure to meet the above requirements by the deadline will result in the student’s exclusion from the program.

Associate of Applied Science Degree
- Fire Technology - Fire Suppression Emphasis

The fire technology degree is designed for individuals who wish to advance their careers in fire fighting or fire prevention. Students completing the Fire and Rescue Academy may also apply their academy credits toward completion of this degree. For those interested in a career in fire prevention or fire suppression systems, we recommend this degree with additional certificate courses in fire suppression systems.

Emphasis Outcomes

Students completing the emphasis will:

• Define the All Hazards approach and interdisciplinary relationships in the modern emergency service environment.
• Describe the elements and governmental levels of the National Response Framework specific to the Incident Command System (ICS), National Incident Management System (NIMS), Emergency Operations Center (EOC) functions, and through practical application, the principles of emergency mitigation, response and recovery.
• Identify and define the physical, mental, interpersonal and leadership aspects that have resulted from the multifaceted evolution of the emergency services professions and the ability to function cohesively amongst diverse ethnicity and backgrounds of people within the services and communities.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Association of Applied Science Degree - Prehospital Emergency Medicine

The objective of this degree is to train students with the necessary cognitive, psychomotor, and affective behaviors to provide advanced life support in the prehospital setting and to provide the necessary coursework to be licenced in the State of Nevada and nationally certified. This limited entry program offers a comprehensive and in-depth study of advanced life support skills which include pharmacology, advanced airway management procedures and skills, ECG interpretation and electrical therapy for specified cardiac patients. Associate degree recipients may see improved opportunity for managerial, clinical or educational advancement after sufficient field experience is obtained. The Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the committee of educational programs for the emergency medical services professions (CoAEMSP). Commission on Accreditation of Allied Health Education Programs
1361 Park Street
Clearwater, FL 33756
727-210-2350

Pre-Requisite Note: Emergency Medical Technician and/or Advanced Emergency Medical Technician are pre-requisites to the paramedic entrance process.

Degree Outcomes
Students completing the certificate will:

- Demonstrate Competency in all areas outlined in the National Registry of Emergency Medical Technician - EMT cognitive and Psychomotor examinations.
- Exhibit proficiency in all technical Skills required of Emergency medical care and transportation of critical and emergent patients.
- Demonstrate professional attitudes and ethical behaviors consistent with the expectations of the profession, area employers and the local medical community.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).  
4. Have no financial or library obligation to the college.

Bachelor of Applied Science - Emergency Management and Homeland Security

The Bachelor of Applied Science in Emergency Management and Homeland Security (BAS-EMHS) Program provides Students with a well-rounded foundation in the history, politics, defense and preparedness aspects of terrorism. It will also provide students with the management principles of planning, mitigation, response and recovery from natural and man made disasters in emergency management roles. Graduates of the program will be able to conduct planning analysis, write, and implement emergency plans for public and private entities while addressing the issues of homeland security within the emergency management role. Emergency Management and Homeland Security in one of the fastest growing disciplines in the United States today with excellent employment prospects for graduates in both the public and private sector.

Degree Outcomes

Students will:

- Identify the underlying principles and roles of Emergency Management and Homeland Security within the public organizations and private sector business.
- Apply the concepts of the professional skills and Competency in Emergency Management and Homeland Security planning, mitigation, response and recovery.

Degree Entry Prerequisite Information

Students entering this BAS will start from one of several prerequisite options. Please contact the Program Advisor for more details on transfer articulation.

AAS in Prehospital Emergency Medicine

Follow the program worksheet for AAS in prehospital Emergency Medicine with the additional prerequisite:

- AAS in Fire Technology
- EMHS 200 ICS/NIMS/EOC

Follow the Program Worksheet for AAS in Fire Technology

Units from AA. AS, or AAS Degree.

General Education Requirements must be met. Depending on courses taken in the AAS, you may be required to take additional units to satisfy these requirements.

Natural Science

Required:

- GEOL 100 Earthquakes, Volcanoes and Natural Disasters

Degree Requirements

- EMHS 300 Principles, Practices Philosophy & Doctrine of Emergency Management
- EMHS 302 Principles and Practices of Mitigation and Recovery in Emergency Management
- EMHS 304 Hazard Risk Management: Vulnerability and Risk
- EMHS 306 Advanced ICS-EOC Interface
- EMHS 311 International and Cyber Terrorism
- EMHS 313 Homeland Security: Preparedness, Prevention, Deterrence & Emergency Management
- EMHS 315 Domestic Terrorism and Homeland Security in the U.S.
### 3rd semester
- **EMHS 315** Domestic Terrorism and Homeland Security in the U.S. 3
- **EMHS 421** Critical Thinking and Strategic Intelligence 3
- **EMHS 423** Critical Infrastructure and Resource Protection 3
- **EMHS 425** Emergency Management/Homeland Security Leadership & Communication 3
- Elective 2 3

#### Semester Total

### Certificate of Achievement - Fire Technology

**Certificate Outcomes**

Students completing the certificate will:

- Learn about the different theaters of firefighting and prevention.
- Identify and properly use the different equipment needed in the different theaters of firefighting.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

**Elective Requirements**

Select 15 upper division elective credits. 1

- **EMHS 320** History of United States Hazards and Disasters 3
- **EMHS 321** Protecting the Homeland: Balancing Security and Liberty 3
- **EMHS 322** Trauma Treatment in an age of disaster and terrorism 3
- **EMHS 323** Physical Security and Deterrents to Terrorism 3
- **EMHS 325** Terrorism, Weapons of Mass Destruction and Homeland Security 3
- **EMHS 420** Advanced Disaster Case Study 3
- **EMHS 422** Public Health and Disasters 3
- **EMHS 427** Critical Incident Management for Public Safety 3
- **EMHS 429** Transportation Systems: Security and multi-modal transportation 3
- **EMHS 470** Emergency Management Homeland Security Internship 3

Total Units 120

---

1 Electives are designed to address the student’s emphasis within the degree program, whether Emergency Management, Public Health or Homeland Security.
Leadership and Ethics in Emergency Service 3

Elective Requirements
Six additional units required. Select from the following or other FS courses listed in the catalog:

- FT 110 Basic Wildland Firefighting
- FT 121 Fire Prevention I
- FT 122 Codes/Ordinances I

Total Units 30

EMS 108 Emergency Medical Technician I Basic Training is strongly recommended in addition to the other requirements.

Fire Technology students without prior fire service experience must take FT 101 Introduction to Fire Protection before entering the fire academy.

The curriculum follows National Wildland Cooperation Group standards.

For a suggested program sequence, please contact the academic advisement office at 775-673-7062.

Certificate of Achievement - Paramedic

Students interested in acquiring the paramedic certificate of achievement must complete the general education and the certificate requirements.

Certificate Outcomes
Students completing the certificate will:

- Apply the scientific and theoretical principles relevant to paramedic practice and will perform basic procedures; administer oral or intravenous drugs, read electrocardiograms (EKGs), and use a variety of complex equipment.
- Demonstrate the practical knowledge and skills to provide prehospital healthcare to diverse communities, utilizing the highest professional levels of knowledge, judgment, and ability.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Total Units 41
Skills Certificate - Advanced Emergency Medical Technician

Skills Certificate - Advanced Emergency Medical Technician

This skills certificate will provide training for students to work in the pre-hospital care environment. The student will build upon skills learned in the EMT class and learn how to perform invasive skills. This class will teach the student how to orally intubate a non-breathing patient, start an intravenous (IV) line, and administer medications via many different routes. The student will also learn more information on body systems and disease processes in both adults and children. This skills certificate will prepare students to receive EMT-Advanced Certification from the State of Nevada.

This course may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Pre-Registration Requirements

Class requirements include State of Nevada EMT certified, 18 years of age or older, current AHA health care provider CPR card, medical insurance, proof of two-step negative TB Skin test or negative chest X-ray, current Tetanus/Diptheria (TD), Hepatitis B (2nd in the series of 3), proof of 2 MMR (Measles, Mumps, Rubella), proof of Varicella (Chicken Pox), Background check from www.mystudentcheck.com (https://weborder.precheck.net/StudentCheck/studentmain.aspx), 5 panel drug testing from ARC and current drivers license or state identification.

Certificate Outcomes

Students completing the certificate will:

- Demonstrate the ability to comprehend proper history taking techniques and apply the process of clinical decision making and to use assessment findings to help form a field impression.
- Demonstrate the ability to explain the pathophysiological significance of examination findings.
- Demonstrate the ability to effectively document the essential elements of a patient assessment and follow an accepted format for dissemination of the patient information in verbal form, either in person or on the radio.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

1 Prerequisite: Nevada EMT-B certification, current healthcare provider CPR card (AHA or ARC), proof of health insurance, MMR, Hepatitis B, TD and 2-Step TBS skin test within 1 year.

Skills Certificate - Emergency Medical Technician

This skills certificate is designed for individuals who anticipate working with an ambulance service, a hospital emergency department, fire department, police department, mining operation or in other occupational fields where medical emergencies are common. At the successful completion of this course, the student will receive EMT-Basic Certification from the State of Nevada.

This course may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Pre-Registration Requirements

Class requirements include State of Nevada EMT certified, 18 years of age or older, current AHA health care provider CPR card, medical insurance, proof of two-step negative TB Skin test or negative chest X-ray, current Tetanus/Diptheria (TD), Hepatitis B (2nd in the series of 3), proof of 2 MMR (Measles, Mumps, Rubella), proof of Varicella (Chicken Pox), Background check from www.mystudentcheck.com (https://weborder.precheck.net/StudentCheck/studentmain.aspx), 5 panel drug testing from ARC.

Certificate Outcomes

Students completing the certificate will:

- Demonstrate the ability to understand the roles and responsibilities within an EMS system, methods to stay healthy and to prevent job related injuries in the field.
- Demonstrate the ability to gain knowledge of basic legal issues that impact decisions made in the field and the importance of ethics when making these decisions.
- Demonstrate the ability to effectively communicate psychologically and sociologically with all ages and cultures of patients in the prehospital environment.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Certificate Requirement
Skills Certificate - Emergency Medical Technician Instructor Training

This skills certificate provides training and instruction focused on the development of teaching skills as opposed to emergency care skills. Topics include the following:

1. components of teaching learning process;
2. methods of teaching (teaching theory and teaching skills);
3. preparation and use of a variety of media and materials; and
4. purposes and methods of evaluation.

These skills will be taught within the theme of emergency care. This skills certificate will provide students the training necessary to take the Nevada State EMS Instructor licensing exam and certification with the National Registry of Emergency Medical Technicians.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Demonstrate understanding of the three domains of adult learning; cognitive, psychomotor, and affective.
- Demonstrate understanding of various teaching methods, i.e., lecture, scenario, and skills application using various media and materials, such as PowerPoint, video, textbooks, articles, and simulation aids.
- Demonstrate understanding of various types of student evaluation, i.e., multiple choice, fill-in, matching and other types of cognitive evaluation tools, as well as, practical skills proctoring for psychomotor evaluation.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0

2. Have no financial or library obligation to the college

1. Prerequisite: Current healthcare provider CPR card, proof of health insurance, MMR, TD, Hepatitis B, 2-step TB skin test and 18 years of age.

Radiologic Technology Degree

- Associate of Applied Science Degree - Radiologic Technology

Certificate of Achievement

- Certificate of Achievement - Medical Imaging for Re-Entry Radiographers

Skills Certificate

- Skills Certificate - Magnetic Resonance Imaging (MRI)
acceptable to the American Registry of Radiologic Technologists (ARRT) which allows students to sit for the national certification examination in radiography.

**Degree Outcomes**

Students completing the degree will:

- Demonstrate clinical competence in diagnostic radiographic examinations.
- Be prepared to take the American Registry of Radiologic Technologists (ARRT) examination for radiographers.
- Demonstrate proficiency in radiation protection, equipment operation and quality control, image acquisition and evaluation, image procedures, and patient care and education.

**Radiologic Technology Program Information**

The mission of the Radiologic Technology Program is to provide general and basic science education, combined with a sound foundation in the theory and art of radiologic technology to meet the educational goals of the students. This is evidenced by a competency-based program employing various teaching methodologies and technologies. The graduates will have the knowledge and skills necessary to successfully take the American Registry of Radiologic Technologists Examination for Radiographers and become a member of the health care team. Once selected for the program, the students complete 21 months of educational experiences. Students are provided with 1,680 hours of clinical education experiences conducted in cooperation with departments of radiology in Reno, Sparks and Carson City.

Please note: Graduates from TMCC’s Radiologic Technology Program are eligible to apply for and take the American Registry of Radiologic Technologists (ARRT) Examination for Radiographers. The ARRT is the only organization granting permission to take the examination. Persons with prior felony or misdemeanor convictions may be admitted to the program but may be prohibited by the ARRT from taking the examination. The ARRT will conduct a pre-application review to determine the impact of a conviction on eligibility. Pre-application Review Forms may be requested from the Department of Regulatory Services at the ARRT office, 651-687-0048.

**Background Check and Drug Testing**

The hospitals associated with the program require a background check and drug testing to insure the safety of the patients treated by program students. Students selected for the program will be required to comply prior to starting the program (instructions to be provided by the program coordinator after being selected for admission to the Radiologic Technology Program).

**Admission to the Radiologic Technology Program**

The Radiologic Technology Program begins each fall semester. Admission to the program is limited and requires specific admission procedures. Students are selected by means of a formal program application and the calculation of assigned points. Applicants must be at least 17 years old.

**Program Application Process**

Complete the following:

- Submit an application for admission to the College.
- Submit the completed application in person, by mail, e-mail (radiologic@tmcc.edu), or fax to:
  
  William N. Pennington Health Science Center
  
  TMCC Radiologic Technology Program
  
  18600 Wedge Parkway, Building B, Room 101
  
  Reno, NV 89511
  
  Fax: 775-850-4058

Application must be received by May 28th of the current year.

Selection to the Radiologic Technology Program will be based on information obtained from the admission requirements and the number of points the applicant receives. Eligible students will be numerically ranked according to total points. Points will be awarded for a previously completed degree, credentialed health occupation, completion of general education degree requirements, HESI score, prerequisite GPA, and support area. Admission will be offered to the applicants on the list with the highest points. The point system can be found at www.tmcc.edu/x-ray. In the event of applicants having an equal number of points, the students’ HESI score will be used to break the tie. If the HESI score does not resolve the tie, lots will be drawn to decide selection. Selection to the Radiologic Technology Program is done on an annual basis. Applicants not selected must reapply for consideration the following year.

**Acceptable Alternative Documentation for CNA**

- Completion of EMT basic or higher course (Will no longer be acceptable for 2018-2019 applications)
- Completion of NON-ARRT RT
- Completion of a registered nursing program
- Completion of a paramedic program (Will no longer be acceptable for 2018-2019 applications)

Note: Equivalent courses from other accredited colleges are acceptable, but must be approved by TMCC. These courses must be documented through official transcripts on file with TMCC's records office before application to the program.

1 Must have been completed in the past five years with no more than two attempts including Audits and Withdrawals

- Document completion of Certified Nursing Assistant Training (CNA)
- Submit official transcripts of all previous college education to records office.
- Have a minimum grade point average of 2.7 in all coursework applying to the Associate of Applied Science Radiologic Technology Degree.
- Submit an official transcript showing proof of high school graduation or official results of high school equivalency to admissions and records (persons with a recognized degree exempt).
- Obtain the current Radiologic Technology Program Application.
- Submit the completed application in person, by mail, e-mail (radiologic@tmcc.edu), or fax to:
  
  William N. Pennington Health Science Center
  
  TMCC Radiologic Technology Program
  
  18600 Wedge Parkway, Building B, Room 101
  
  Reno, NV 89511
  
  Fax: 775-850-4058

Application must be received by May 28th of the current year.
After Acceptance to the Program

After selection for admission, in response to a letter from the program coordinator, the student will provide documentation of the following prior to the first day of class:

- Evidence of current major medical insurance coverage.
- Evidence of two negative TB skin tests done within the past year within 3 months of each other (persons with prior positive TB test must see program coordinator).
- Evidence of required immunization status for hepatitis B, Varicella, MMR, TDAP or TD, and influenza vaccine.
- Evidence of a current Health Care Provider CPR card (preferably from the American Heart Association).
- Complete an Essentials Function form for Clinical Education.
- A background check (instructions to be provided by the program coordinator).
- A drug test (instructions to be provided by the program coordinator).

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

After completing prerequisites, students apply for admission to the Radiologic program.

See approved General Education list for the AAS Degree. (p. 184)

6 See program recommendations or requirements.

Certificate of Achievement - Medical Imaging for Re-Entry Radiographers

TMCC offers a certificate of achievement for radiologic technologists (radiographers) who wish to re-enter the profession and become re-certified with the American Registry of Radiologic Technologists (ARRT), or graduates of an accredited program needing to become “registry eligible” again. Interested persons should contact the coordinator at 775-850-4045. An individualized educational plan will be developed following the receipt of transcripts and appropriate documentation demonstrating completion of an ARRT acceptable program and a minimum of an associates degree in an allied health profession.

Certificate Outcomes

Students completing the Certificate of Achievement will:

- Demonstrate clinical competence in diagnostic radiographic examinations.

- Be prepared to take the American Registry of Radiographic Technologists (ARRT) examinations for radiographers.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

General Education Requirements

The following must be completed at TMCC:

Communications 3
Human Relations 3
Mathematics 3

Required:

MATH 120 Fundamentals of College Mathematics (or higher)

Certificate Requirements

IS 101 Introduction to Information Systems (or equivalent)
RAD 103 Medical Ethics
RAD 112 Patient Care and Medical Terminology
RAD 116 Radiography I
RAD 118 Radiology Physics and Circuitry
RAD 124 Radiographic Photo and Techniques
RAD 126 Radiography II
RAD 128 Imaging Equipment
RAD 236 Radiographic Contrast-Routine Exams
RAD 238 Radiation Safety and Protection
RAD 242 Radiography Quality Management
RAD 244 Diagnostic and Therapeutic Radiation
RAD 247 Radiography Quality Control

The contents in the above courses must be verified by testing to obtain credit and meet ARRT requirements. Contact Program Coordinator for testing requirements.

The following Certificate Requirements must be completed at TMCC:

RAD 259 Seminar in Radiography 2
RAD 290 & 290 Internship in Radiologic Technology 8

Total Units 48

1 RAD 290 Internship is repeated in 2 semesters for 4 units (8 units Total)

Skills Certificate - Magnetic Resonance Imaging

This skills certificate in Magnetic Resonance imaging (MRI) is a professional certificate designed for those who want to continue their education after completing an associate degree (or higher) in the radiologic sciences. It is further designed to provide well trained and knowledgeable, entry-level MRI technologists to meet the needs of the medical imaging community and for those students who are in search of an MRI program that will prepare them to take the advanced certification examination in MRI administered by the American Registry of Radiologic Technologists (ARRT).

Certificate Outcomes

Students completing the Skills Certificate will:

- Learn patient screening procedures, safety issues, and biological considerations, MRI terminology, and imaging principles and physics.
- Learn cross-sectional anatomy and pathology to cover the entire human body.
- Learn imaging techniques of the entire human body to include patient positioning, protocols, pulse sequences, advanced imaging, and post processing procedures.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student’s transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Apprenticeships

Degree

- Associate of Applied Science Degree - Apprenticeship Program

Certificates of Achievement

- Certificate of Achievement - Apprenticeship

Associate of Applied Science Degree - Apprenticeship

Qualifying apprenticeship programs of four or more years may lead to an Associate of Applied Science in apprenticeship. The student that completes an apprenticeship will have the skills, knowledge and abilities to work at a journey person level in one of the associated building or utility trades. Individuals must apply and be accepted to a qualifying apprenticeship program to pursue this degree.

</tbody>
</table>
Degree Outcomes

Students completing the degree will:

- Demonstrate a comprehensive understanding of principles, skills, and applications of the specific trade to work safely and efficiently in the industry.
- Perform tasks in accordance with local and national regulations.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Certificate of Achievement - Apprenticeship

Qualifying apprenticeship programs for the certificate of achievement consist of two or more years of training. The student who completes this field of study will have the skills, knowledge and abilities to work in one of the building or utility trades and will be provided with basic technical-trade knowledge and manual skills required in the field. Besides general education requirements, the student will complete skill-specific courses and on-the-job training. Students must apply and be accepted into one of the qualified apprenticeship programs.

Certificate Outcomes

Students completing the certificate will:

- Demonstrate a comprehensive understanding of principles, skills, and applications of the specific trade to work safely and efficiently in the industry.
Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).

### Transportation Technologies

#### Degrees

- Associate of Applied Science Degree - Transportation Technologies - Automotive Certified Technician Emphasis
- Associate of Applied Science Degree - Transportation Technologies - Diesel Technician Emphasis

#### Certificates of Achievement

- Certificate of Achievement - Automotive ASE Technician
- Certificate of Achievement - Automotive General Service Technician
- Certificate of Achievement - Diesel General Service Technician
- Certificate of Achievement - Unmanned Aerial Systems Technician

#### Skills Certificates

- Skills Certificate - Automotive Service Excellence (ASE) - Basic
- Skills Certificate - Automotive Service Excellence (ASE) - Diesel Technician: Heavy Duty Power Trains
- Skills Certificate - Automotive Service Excellence (ASE) - Diesel Technician: Light and Heavy Duty (HD) Diesel Engines
- Skills Certificate - Automotive Service Excellence (ASE) - General
- Skills Certificate - Automotive Service Excellence (ASE) - Master

### Associate of Applied Science Degree

- Transportation Technologies - Automotive Certified Technician Emphasis

Certified by the National Automotive Technicians Education Foundation (NATEF), the TMCC automotive program prepares graduates for highly skilled apprentice positions as service, repair and maintenance technicians. The automotive certified technician emphasis meets the Automotive Service Excellence (ASE) standards necessary for a career in repair shops in new car dealerships or independent businesses. The
program emphasizes skills in diagnosis, troubleshooting, repair and maintenance of passenger vehicles and light duty trucks.

**Degree Outcomes**

Students completing the degree will:

- Fulfill the requirements for the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

**Emphasis Outcomes**

Students completing the emphasis will:

- Identify and implement safety procedures involved in diagnosis, service, and repair of all major light vehicle components and systems.
- Analyze and interpret diagnostic and test information to formulate correct repair procedures.
- Demonstrate correct repair strategies and techniques by applying knowledge of system operation and demonstrating mechanical skills to accomplish repair tasks.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

### Associate of Applied Science Degree - Transportation Technologies Diesel Technician Emphasis

The diesel technician program trains individuals for apprentice level positions servicing, repairing, and maintaining heavy equipment and over the road long-haul vehicles. The program emphasizes principles of operation, diagnosis and service procedures. Using the latest technology in diagnosis and repair equipment, this comprehensive training prepares graduates with skills that are in high demand in the diesel repair industry.

### Degree Outcomes

Students completing the degree will:

- Fulfill the requirements for the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

### Emphasis Outcomes

Students completing the emphasis will:

- Identify and implement safety procedures involved in diagnosis, service, and repair of all major medium/heavy duty truck and heavy equipment components and systems.
- Analyze and interpret diagnostic and test information to formulate correct repair procedures.
- Demonstrate correct repair strategies and techniques by applying knowledge of system operation and demonstrating mechanical skills to accomplish repair tasks.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 units within the college.

Certificate of Achievement - Automotive ASE Technician

The automotive ASE technician certificate of achievement is a program for individuals who would like to enter the automotive repair industry with the core skills established by the automotive service excellence certification. The successful student will become a qualified entry level technician with strong basic skills using the latest technology and repair equipment.

Certificate Outcomes

Students completing the certificate will:

- Identify and implement safety procedures involved in diagnosis, service, and repair of all major light vehicle components and systems.
- Analyze and interpret diagnostic and test information to formulate correct repair procedures.
- Demonstrate correct repair strategies and techniques by applying knowledge of system operation and demonstration of mechanical skills to accomplish repair tasks.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Certificate of Achievement - Automotive General Service Technician

The automotive general service technician certificate of achievement trains individuals in basic automotive repair and maintenance. Graduates of the program will be well qualified for entry level automotive maintenance and parts store positions. Successful students complete
the core areas of ASE training. All general service training may be applied
toward other automotive certificate and degree programs.

Certificate Outcomes

Students completing the certificate will:

- Identify and implement safety procedures involved in diagnosis,
  service, and repair of all major light vehicle components and systems.
- Analyze and interpret diagnostic and test information to formulate
  correct repair procedures.
- Demonstrate correct repair strategies and techniques by applying
  knowledge of system operation and demonstration of mechanical
  skills to accomplish repair tasks.

Certificates of Achievement are a set of courses within an AAS degree
that can serve as a stepping stone to an AAS degree or allow students
to enter the workforce. Certificates of Achievement have a general
education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for
   graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Certificate of Achievement - Diesel General Service Technician

The diesel general service technician certificate program is a one-
year, two-semester training program for the student that would like to
enter the heavy equipment/over the road repair field with skills in basic
maintenance. All general service training may be applied toward other
diesel degree programs.

Certificate Outcomes

Students completing the certificate will:

- Identify and implement safety procedures involved in diagnosis,
  service, and repair of all major medium/heavy duty truck and heavy
duty equipment components and systems.
- Demonstrate correct repair strategies and techniques by applying
  knowledge of system operation and demonstration of mechanical
  skills to accomplish repair tasks.

Certificates of Achievement are a set of courses within an AAS degree
that can serve as a stepping stone to an AAS degree or allow students
to enter the workforce. Certificates of Achievement have a general
education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for
   graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

Certificate of Achievement - Diesel General Service Technician

The diesel general service technician certificate program is a one-
year, two-semester training program for the student that would like to
enter the heavy equipment/over the road repair field with skills in basic
maintenance. All general service training may be applied toward other
diesel degree programs.

Certificate Outcomes

Students completing the certificate will:

- Identify and implement safety procedures involved in diagnosis,
  service, and repair of all major medium/heavy duty truck and heavy
duty equipment components and systems.
- Demonstrate correct repair strategies and techniques by applying
  knowledge of system operation and demonstration of mechanical
  skills to accomplish repair tasks.

Certificates of Achievement are a set of courses within an AAS degree
that can serve as a stepping stone to an AAS degree or allow students
to enter the workforce. Certificates of Achievement have a general

Certificate of Achievement - Unmanned Aerial Systems Technician

The UAS Certificate program will enable the student to gain knowledge of how unmanned aircraft systems operate and prepare for a future in the aerospace industry.

Certificate Outcomes
Students completing the certificate will be able to:

- Analyze the past, present, and future of unmanned aircraft systems (UAS) in civil aviation and explain how UAS can support a wide variety of civil applications.
- Explain theories of operations for unmanned aerial systems components.
- Use mathematical computations to develop and construct an unmanned aerial system.

Certificates of Achievement are a set of courses within an AAS degree that can serve as a stepping stone to an AAS degree or allow students to enter the workforce. Certificates of Achievement have a general education component.

To earn a Certificate of Achievement, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)
2. Complete a minimum of 15 semester credit hours within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

General Education Requirements

Communications  3
Recommended:
COM 215  Introduction to Group Communication

Human Relations  3
Recommended:
CE 201  Workplace Readiness

Mathematics  [3]
This requirement is satisfied by embedded curriculum in the following courses: ELM 110, ENRG 110, MPT 110, AV 102

Certificate Requirements

AV 101  Introduction to Unmanned Aerial Systems  3
AV 102  Unmanned Aerial System Construction Project  3
CIT 114  IT Essentials  4
ELM 110  Electrical/Electronic Circuits  3
or ENRG 110  Basic Electricity  3
MT 100  Fabricating Composites  3
MT 109  Small Engine Operation and Maintenance  3
MPT 110  Automated Production Concepts I  3
OSH 222  General Industry Safety  1
Elective  0-1

Total Units  30

1  A student who elects to take ENRG 110, must choose 1 units of electives to satisfy the total unit requirement.

1  See program recommendations or requirements.
Skills Certificate - Automotive Service Excellence (ASE) - General Service

The ASE general service skills certificate will introduce students to the theory and fundamental principles of automotive and light truck maintenance and repair procedures. Students will diagnose and repair various engine, steering, suspension, and brake systems. This general service skills certificate will help prepare students to take the Automotive Service Excellence (ASE) Engine Repair (A1), Steering and Suspension (A4), and Automotive Brakes (A5) exams. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Identify, test, and interpret failed engine systems and apply appropriate repair strategies.
- Identify, test, and interpret failed steering, suspension, and brake systems, and apply appropriate repair strategies.
- Demonstrate knowledge of the appropriate workplace skills and tools, including the application of personal and mechanical safety measures used in general automotive systems diagnoses and repair.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Skills Certificate - Automotive Service Excellence (ASE)-Basic

The ASE basic skills certificate will introduce students to the theory and fundamental principles of automotive and light truck maintenance and repair procedures. Students will learn fundamental principles of automotive and light truck automatic transmissions and transaxles, with emphasis on the mechanical, hydraulic, and electrical components of the transmission. The skills certificate will help prepare students to take the Automotive Service Excellence (ASE) Automatic Transmissions (A2), Manual Drive Trains and Axles (A3), and Automotive Electrical (A6) exams. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Identify, test, and interpret failed electrical systems and components, and formulate appropriate repair strategies.
- Identify, test, and interpret failed systems for automatic transmissions, manual drive trains and axles, and apply appropriate repair strategies.
- Demonstrate knowledge of the appropriate workplace skills and tools, including the application of personal and mechanical safety measures used in automotive systems diagnoses and repair.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

# Skills Certificate - Automotive Service Excellence (ASE)-Diesel Technician: Heavy Duty Power Trains

The automotive service excellence (ASE) diesel technician: heavy duty power trains skills certificate prepares students for entry-level positions as diesel technicians for medium-heavy truck drive trains. Students will diagnose, adjust and repair heavy duty transmission and power train components and equipment. The heavy duty power trains skills certificate will help prepare students to take the ASE Drive Train (T3) exam. This exam is part of the ASE T-Series Medium-Heavy Truck Certification Tests, a six-part series that may lead to a master medium-heavy truck technician status. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

## Certificate Outcomes

Students completing the certificate will:

- Analyze and apply the proper heavy duty drive and power train components, diagnosis, rebuild, and repair procedures.
- Identify, test, and interpret failed heavy duty drive and power train components, and apply appropriate repair strategies.
- Analyze and apply appropriate workplace skills and tools, including the application of personal and mechanical safety measures in the workplace.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

# Skills Certificate - Automotive Service Excellence (ASE)-Diesel Technician: Light and Heavy Duty (HD) Diesel Engines

The automotive service excellence (ASE) diesel technician: light and heavy duty diesel engines skills certificate will prepare students for entry-level positions as diesel technicians for light and heavy duty diesel engines. Students will diagnose, adjust, and repair light and heavy duty diesel engines. The light and heavy duty diesel engines skills certificate will help prepare students to take the ASE-Light Vehicle Diesel Engines (A9) and Diesel Engines (T2) exams. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

## Certificate Outcomes

Students completing the certificate will:

- Analyze and apply the proper light and heavy duty diesel engines diagnoses, rebuild, and repair procedures.
- Identify, test, and interpret failed light and heavy duty diesel engine components, and apply appropriate repair strategies.
- Analyze and apply appropriate workplace skills and tools, including the application of personal and mechanical safety measures in the workplace.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

Skills Certificate - Automotive Service Excellence (ASE)-Master

The ASE master skills certificate will introduce students to the theory, diagnosis, and hands-on skills to service and repair light-duty vehicle climate control and air conditioning systems. Students will learn EPA-approved safety requirements for the handling of refrigerant, recovery, recycling, and recharge of the refrigerant system. Students will also be introduced to the basic fundamentals of diagnosis and repair of engine fuel and ignition systems, and computerized fuel injection control sensors and components. Students will be introduced to hybrid vehicle propulsion systems and service procedures. The engine performance skills certificate will help prepare students to take the Automotive Service Excellence (ASE) Heating and Air Conditioning (A7), and Engine Performance (A8) exams. Students must pass all coursework with a score of 70% or higher.

These courses may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).

Certificate Outcomes

Students completing the certificate will:

- Identify, test, and interpret failed heating and air conditioning systems, and formulate appropriate repair strategies.
- Identify, test, and interpret failed engine, powertrain, and emission components, and formulate repair strategies.
- Demonstrate knowledge of the appropriate workplace skills and tools, including the application of personal and mechanical safety measures used in engine performance diagnosis and repair.

Skills Certificates provide training for entry level positions or career advancement and are designed to prepare students to take state, national and/or industry-recognized certifications or licensing exams. Skills certificates are awarded upon completion of coursework and marked on a student's transcripts at the end of the semester (Student are unable to declare intent to complete a skills certificate.) Skills Certificates are not eligible for Financial Aid.

To earn a skills certificate, students must:

1. Maintain a minimum cumulative GPA of 2.0
2. Have no financial or library obligation to the college

Veterinary Technician Program Information

The TMCC associate degree from the veterinary technician program prepares the student to practice as a licensed veterinary technician (LVT). Graduates may practice as a LVT in general or specialty private veterinary practices, universities, research facilities, pharmaceutical companies, zoos, or other areas where veterinary technicians' skills are needed. The TMCC veterinary technician program meets all of the minimum degree requirements for the Associate of Applied Science degree. The associate in applied science in veterinary technology will be awarded upon completion of all general education and core requirements. Upon completion of the degree the student will be eligible to apply to take the Veterinary Technician National Exam (VTNE) leading to licensure as a licensed veterinary technician. Students may also need to apply for individual state exams depending on the state in which they choose to work. The TMCC veterinary technician program is accredited by the American Veterinary Medical Association (AVMA).

Special Admissions Procedures

The following requirements MUST be fulfilled by June 1 of the year in which you are applying for consideration for selection to the veterinary technician program.

- Must be an admitted student at TMCC.
- Must have completed the following or equivalent courses:
  - BIOL 190 & 190L Introduction to Cell and Molecular Biology and Introduction to Cell and Molecular Biology Laboratory
  - ENG 101 Composition I
  - MATH 120 Fundamentals of College Mathematics (or higher)
Students must complete each class with a grade of “C” or better. The records office must receive an official copy of your transcript containing the course and grade.

• Submit veterinary technician program application and all required paperwork as described on the application (which is available online in the spring).
• Submit official transcripts of all college education.
• If spring semester course work has not been posted to your transcript, a letter from the College’s registrar documenting course work completed and final grade(s) must be provided to the records office.

Admission to the veterinary technician program will be based on completion of the special admissions procedures and the number of points an applicant receives. Eligible students will be numerically ranked, according to total points. In the event of applicants having an equal number of points, the students’ GPAs (in all course work applying toward an Associate of Applied Science veterinary technology degree) will be used to rank the tied group. In the event of a further tie, individual essays will be assessed to rank the tied group. Please see the veterinary technician program application for more information. From this ranked list, the fall class will be selected. Selection to the veterinary technician program occurs on a yearly basis for the fall semester. Re-entry students not selected will not be carried forward to the next year and must reapply for consideration.

An accepted student must submit to the veterinary technician program the following information on or before the first day of class.

• Evidence of current medical insurance.
• Evidence of required immunization status for Diphtheria and Tetanus, and Measles, Mumps, and Rubella.

Students’ progression in the veterinary technician program is contingent upon attaining and maintaining a grade of “C” or better in each class of the veterinary technician program (VETT classes). Veterinary technician courses are to be taken in the sequence outlined in the College catalog. General education support courses other than prerequisites may be taken at any time though it is strongly suggested classes be taken prior to acceptance into the program.

Veterinary technician students who are unable to progress from one course to another may apply for re-entry within one year of exiting the program. All re-entry admissions are on a space available basis. Re-entry is not guaranteed. Upon the student’s re-admission, the program coordinator will outline the necessary course work. Re-admission to the veterinary technician program is limited to one time only. Further information is available in the veterinary technician program handbook.

Veterinary technician graduates are eligible to take the Veterinary Technician National Exam (VTNE) and to apply for licensure in the state of their choice. Each state has specific criteria for licensure eligibility. It is the student’s responsibility to contact the state to ascertain eligibility requirements. Graduation from an AVMA accredited program is only one of the requirements and does not mean automatic licensure as a veterinary technician.

Associate of Applied Science Degree - Veterinary Technology

This program prepares the student to practice as a licensed veterinary technician (Vet Tech). Graduates may practice as technicians in general or specialty private practices, veterinary teaching hospitals, research facilities, pharmaceutical companies or other agencies where veterinary technicians’ skills are needed. Veterinary technicians may choose to specialize in areas including but not limited to anesthesia & analgesia, emergency & critical care, behavior, dermatology, dentistry, equine practice, nutrition, ophthalmology, zoo medicine, and surgical nursing.

Degree Outcomes

Students completing the degree will:

• Demonstrate a solid understanding of the knowledge needed within the field, including anatomy and physiology, laboratory procedures, medical and surgical nursing skills, and an understanding of a variety of species, including companion animals.
• Demonstrate competency in all essential job skills as outlined by the American Veterinary Medical Association (AVMA) Committee on Veterinary Technician Education and Activities (CVTEA), including pharmacology, surgical nursing, dentistry, clinical laboratory, animal nursing, diagnostic imaging, and anesthesiology.

Veterinary Technician Program Information

The TMCC associate degree from the veterinary technician program prepares the student to practice as a licensed veterinary technician (LVT). Graduates may practice as a LVT in general or specialty private veterinary practices, universities, research facilities, pharmaceutical companies, zoos, or other areas where veterinary technicians’ skills are needed. The TMCC veterinary technician program meets all of the minimum degree requirements for the Associate of Applied Science degree. The associate in applied science in veterinary technology will be awarded upon completion of all general education and core requirements. Upon completion of the degree the student will be eligible to apply to take the Veterinary Technician National Exam (VTNE) leading to licensure as a licensed veterinary technician. Students may also need to apply for individual state exams depending on the state in which they choose to work. The TMCC veterinary technician program is accredited by the American Veterinary Medical Association (AVMA).

Special Admissions Procedures

The following requirements MUST be fulfilled by June 1 of the year in which you are applying for consideration for selection to the veterinary technician program.

• Must be an admitted (http://www.tmcc.edu/vettech/application-procedures) student at TMCC.
• Must have completed the following or equivalent courses:
  BIOL 190 & 190L Introduction to Cell and Molecular Biology and Introduction to Cell and Molecular Biology Laboratory 4
  ENG 101 Composition I 3
  or ENG 113 Composition I for International Students
  MATH 120 Fundamentals of College Mathematics (or higher) 3
Students must complete each class with a grade of “C” or better. The records office must receive an official copy of your transcript containing the course and grade.

- Submit veterinary technician program application and all required paperwork as described on the application (which is available online in the spring).
- Submit official transcripts of all college education.
- If spring semester course work has not been posted to your transcript, a letter from the College’s registrar documenting course work completed and final grade(s) must be provided to the records office.

Admission to the veterinary technician program will be based on completion of the special admissions procedures and the number of points an applicant receives. Eligible students will be numerically ranked, according to total points. In the event of applicants having an equal number of points, the students’ GPAs (in all course work applying toward an Associate of Applied Science veterinary technology degree) will be used to rank the tied group. In the event of a further tie, individual essays will be assessed to rank the tied group. Please see the veterinary technician program application for more information. From this ranked list, the fall class will be selected. Selection to the veterinary technician program occurs on a yearly basis for the fall semester. Applicants not selected will not be carried forward to the next year and must reapply for consideration.

An accepted student must submit to the veterinary technician program the following information on or before the first day of class.

- Evidence of current medical insurance.
- Evidence of required immunization status for Diphtheria and Tetanus, and Measles, Mumps, and Rubella.

Students’ progression in the veterinary technician program is contingent upon attaining and maintaining a grade of “C” or better in each class of the veterinary technician program (VETT classes). Veterinary technician courses are to be taken in the sequence outlined in the College catalog. General education support courses other than prerequisites may be taken at any time though it is strongly suggested classes be taken prior to acceptance into the program.

Veterinary technician students who are unable to progress from one course to another may apply for re-entry within one year of exiting the program. All re-entry admissions are on a space available basis. Re-entry is not guaranteed. Upon the student’s re-admission, the program coordinator will outline the necessary course work. Re-admission to the veterinary technician program is limited to one time only.

Veterinary technician graduates are eligible to take the Veterinary Technician National Exam (VTNE) and to apply for licensure in the state of their choice. Each state has specific criteria for licensure eligibility. It is the student’s responsibility to contact the state to ascertain eligibility requirements. Graduation from an AVMA accredited program is only one of the requirements and does not mean automatic licensure as a veterinary technician.

AAS degrees are generally non-transfer degrees that are designed for students to enter the workforce.

To earn an AAS degree, students must:

1. Maintain a minimum cumulative GPA of 2.0 (see requirements for graduation.)

2. Complete a minimum of 15 units within the college.
3. Satisfy General Education requirements for the AAS (p. 184).
4. Have no financial or library obligation to the college.

General Education

General Education Mission

TMCC provides a coherent curriculum that consists of a rigorous foundation of interrelated academic and applied experiences that introduce students to diverse ways of thinking and of understanding the world.

General Education Competencies

Communications - Includes the ability to listen, speak, and write competently so as to gain skills to interact effectively with others; and to read with comprehension.

Critical Thinking - Includes the ability to grasp complexities, relationships, similarities and differences; to draw inferences and conclusions; to identify and troubleshoot problems; to collect and identify data to formulate and test solutions; and to identify how individual values and perceptions influence decision making.

Information Literacy - Includes the ability to understand information technology; use applications as tools; and to evaluate the applicability and validity of information.

People & Cultural Awareness - Includes the ability to develop a broad understanding of linguistic, political, social, environmental, religious, and economic systems; to attain skills to function effectively as responsible, ethical community members; and to learn to value, respect and critique the aesthetic and creative process.

Quantitative Reasoning - Includes the ability to use scientific reasoning skills including induction and deduction; to discern bias and subjectivity; to perform appropriate calculations; and to understand, evaluate, model and effectively use data.

General Education Requirements by Degree

General Education requirements reflect a classification of courses, by discipline, designed to meet the General Education Competencies. The requirements for the AA, AS and AAS degrees correspond to those established in Title 4, Chapters 14 and 16 of the NSHE Board of Regents Handbook.
• Associate of Applied Science and Certificate of Achievement (p. 184)
• Associate of Arts/Associate of Science (p. 181)
• Associate of General Studies (p. 187)

Associate of Arts/Associate of Science General Education and Additional Degree Requirements

General Education

English 3-6
Must include ENG 102 or ENG 114

HIST 101  US History to 1877
         & PSC 208  and Survey of State and Local Government

1 May also satisfy another degree requirement.
2 Three units of diversity course work are required to satisfy all associate degrees granted. A course used to satisfy the diversity requirement may also apply to a degree requirement. See the complete diversity list and refer to your specific program worksheet for more details.
3 A course used to satisfy the U.S. & Nevada constitution requirement may also apply to a degree requirement. See the complete list in this section and refer to your specific program worksheet for details.
4 Options to Complete the Foreign Language Requirement:
   • Complete a fourth-semester transferable college course in a foreign language.
   • Complete a fourth-semester transferable college course in American Sign Language (AM).
   • Demonstrate proficiency through placement examination or other means. Students interested in taking a placement examination should contact the TMCC testing center (http://www.tmcc.edu/testing) at 775-673-8241 for information.
   • Complete four years of high school foreign language.

Students who have proficiency in a foreign language that is equivalent to that of students who have completed four semesters of college-level foreign language may be eligible to waive this requirement. Students will be required to provide appropriate documentation to the department to support this claim. Contact the Humanities department at 775-674-7945 or TMCC Academic Advising at 775-673-7062 for information.

Options to Complete the Foreign Language Requirement:

1. Complete a fourth-semester transferable college course in a foreign language.
2. Complete a fourth-semester transferable college course in American Sign Language (AM).
3. Demonstrate proficiency through placement examination or other means. Students interested in taking a placement examination should contact the TMCC Testing Center at 775-673-8241 for information.
4. Complete four years of high school foreign language. Students who have proficiency in a foreign language that is equivalent to that of students who have completed four semesters of college-level foreign language may be eligible to waive this requirement. Students will be required to provide appropriate documentation to the department to support this claim. Contact the Humanities department at 775-674-7945 or TMCC Academic Advising at 775-673-7062 for information.
Additional elective credits may be necessary to meet the total degree requirements.

**Approved Foreign Language Requirement Courses**

**American Sign Language**
- AM 148 American Sign Language IV
  - 3 credits
- French
  - FREN 212 Second Year French II
  - 3 credits
- German
  - GER 212 Second Year German II
  - 3 credits
- Hebrew
  - HEB 222 Intermediate Hebrew II
  - 3 credits
- Portuguese
  - PORT 212 Second-Year Portuguese II
  - 3 credits
- Russian
  - RUS 212 Second-Year Russian II
  - 3 credits
- Spanish
  - SPAN 212 Second Year Spanish II
  - 3 credits

**Associate of Applied Science General Education and Additional College Requirements**

**General Education**

**General Education for AAS**

**Communications**
- BUS 107 Business Speech Communications
  - 3 credits
- BUS 111 Workplace Communications
- COM 113 Fundamentals of Speech Communications
- COM 215 Introduction to Group Communication
- COM 285 Communication Disabilities and Film
- ENG 101 Composition I
- ENG 102 Composition II
- ENG 107 Technical Communications I
- ENG 108 Technical Communications II
- ENG 113 Composition I for International Students
- ENG 114 Composition II for International Students
- ENG 205 Intro to Creative Writing: Fiction and Poetry
- ENG 220 Writing Poetry
- ENG 221 Writing Fiction
- ENG 224 Introduction to Screenwriting
- ENG 243 Introduction to the Short Story
- ENG 245 Introduction to the Novel
- ENG 252 Introduction to Drama
- ENG 261 Intro to Poetry
- EPY 101 Educational, Career, and Personal Development
- READ 135 College Reading Strategies
- THTR 160 Television Production I
- THTR 161 Television Production II
- English
  - BUS 106 Business English
  - 3 credits
  - BUS 108 Business Letters and Reports

**English**

**Human Relations**
- CE 201 Workplace Readiness
- DA 110 Orientation to Dental Assisting
- DA 112 Dental/Head and Neck Anatomy
- DA 125 Supervised Clinical
- EPY 101 Educational, Career, and Personal Development
- MGT 171 Supervision
- MGT 201 Principles of Management
- MGT 212 Leadership and Human Relations
- MGT 235 Organizational Behavior
- PSY 102 Psychology of Personal and Social Adjustment

**Fine Arts/Humanities/Social Science**

Select a course in one of the three areas below:

**Fine Arts**
- ART 100 Visual Foundations
- ART 101 Drawing I
- ART 124 Introduction to Printmaking
- ART 141 Introduction to Digital Photography
- ART 160 Art Appreciation
- ART 260 Survey of Art History I
- ART 261 Survey of Art History II
- ART 263 Survey of African, Oceanic, & Native American Art
- ART 265 Introduction to Contemporary Art
- ART 270 Women in Art
- DAN 101 Dance Appreciation
- DAN 138 Modern Dance, Beginning
- DAN 139 Modern Dance, Beginning/Intermediate
- ENG 202 Film Analysis and Interpretation
- ENG 205 Intro to Creative Writing: Fiction and Poetry
- ENG 220 Writing Poetry
- ENG 221 Writing Fiction
- ENG 224 Introduction to Screenwriting
- ENG 230 Writing Creative Non-Fiction
- ENG 243 Introduction to the Short Story
- ENG 245 Introduction to the Novel
- ENG 250 Introduction to Children’s Literature
- ENG 252 Introduction to Drama
- ENG 261 Intro to Poetry
- ENG 281 Introduction to Language
- ENG 282 Introduction to Language and Literary Expression
- ENG 288 Multicultural Literature
- ENG 298 Writing About Literature
- MUS 101 Music Fundamentals
- MUS 121 Music Appreciation
- MUS 122 Survey of Jazz

1. Any course that satisfies a general education requirement for the Associate of Arts or Associate of Science may also satisfy a general education requirement for an Associate of Applied Science degree.
2. Course also satisfies Diversity.
3. Only accepted program students may take the DA options.
4. Course also satisfies U.S. and/or Nevada Constitutions.
Please consult the appropriate program for course requirements.
May be identified as content included in other required courses for an Associate of Applied Science.

Certificate of Achievement

The certificate of achievement is a stackable credential within the Associate of Applied Science degree.

**Communications** 3

**Human Relations** 3

**Mathematics** 3

**Core Requirements** 21

**Total Units** 30

## Associate of General Studies General Education Requirements

### COMMUNICATIONS

Select 6 units from the following; note that at least 6 units must be from communications:

- BUS 107 Business Speech Communications
- COM 113 Fundamentals of Speech Communications
- COM 215 Introduction to Group Communication
- COM 285 Communication Disabilities and Film
- ENG 101 Composition I
- ENG 102 Composition II
- ENG 107 Technical Communications I
- ENG 108 Technical Communications II
- ENG 113 Composition I for International Students
- ENG 114 Composition II For International Students
- ENG 220 Writing Poetry
- ENG 221 Writing Fiction
- THTR 160 Television Production I
- THTR 161 Television Production II

### HUMANITIES

- Any AM course 100-level or above
- Any ART course 100-level or above
- CH 201 Ancient and Medieval Cultures
- CH 202 The Modern World
- CH 203 American Experiences and Constitutional Change
- DAN 138 Modern Dance, Beginning
- DAN 139 Modern Dance, Beginning/Intermediate
- Any ENG course (except ENG 101, ENG 102, ENG 107, ENG 108, ENG 112D, ENG 113, ENG 114)
- Any Foreign Language course 100-level or above
- HIST 105 European Civilization to 1648
- HIST 106 European Civilization since 1648
- HIST 208 World History I
- HIST 209 World History II
- HIST 227 Introduction to Latin American History & Culture
- MUS 121 Music Appreciation
- MUS 125 History of Rock Music
- MUS 225 Introduction to Music History I

### MATHEMATICS

- BUS 117 Applied Business Math
- COT 110 Business Machines
- CUL 245 The Business Chef
- ECON 261 Principles of Statistics I
- ECON 262 Principles of Statistics II
- Any MATH course 100-level or above
- PSY 210 Introduction to Statistical Methods
- SOC 210 Introduction to Statistical Methods
- STAT 152 Introduction to Statistics

### SCIENCE

- ANTH 102 Introduction to Physical Anthropology
- ANTH 110L Physical Anthropology Laboratory
- AST 104 Introductory Astronomy: Stars and Galaxies
- BIOL 100 General Biology for Non-Majors
- BIOL 106 Introduction to Evolution and Adaptation
- BIOL 190 Introduction to Cell and Molecular Biology
- BIOL 190L Introduction to Cell and Molecular Biology Laboratory
- BIOL 191 Introduction to Organismal Biology
- BIOL 191L Intro to Organismal Biology Lab
- BIOL 251 General Microbiology
- CHEM 100 Molecules and Life in the Modern World
- CHEM 121 General Chemistry I
- CHEM 122 General Chemistry II
- CHEM 201 General Chemistry for Scientists and Engineers
- CHEM 202 General Chemistry for Scientists and Engineers II
- ENV 101 Introduction to Environmental Science
- GEOG 103 Physical Geography of Earth's Environment
- GEOG 104 Physical Geography Lab
- GEOG 121 Climate Change: the Science Basis
- GEOL 100 Earthquakes, Volcanoes and Natural Disasters
- GEOL 101 Geology: Exploring Planet Earth
- GEOL 102 Earth and Life Through Time
- GEOL 105 Introduction to Geology of National Park
- GEOL 206 Geology of Geothermal Energy Resources
- NUTR 121 Human Nutrition
- PHYS 100 Introductory Physics
- PHYS 117 Introduction to Space Science and Engineering
- PHYS 151 General Physics I
- PHYS 152 General Physics II
- PHYS 180 Physics for Scientists and Engineers I
- PHYS 180L Physics for Scientists/Engineers Lab I
- PHYS 181 Physics for Scientists and Engineers II
- PHYS 181L Physics for Scientists/Engineers Lab II

### SOCIAL SCIENCE

- MUS 226 Introduction to Music History II
- THTR 100 Introduction to Theater
- THTR 209 Theater Practicum
- THTR 210 Theater: a Cultural Context
- THTR 232 Children's Theater
- THTR 258 Theater Experience and Travel
ANTH 101  Introduction to Cultural Anthropology
ANTH 201  Peoples and Cultures of the World
ANTH 202  Archaeology
ANTH/SOC 205  Ethnic Groups in Contemporary Societies
CH 201  Ancient and Medieval Cultures
CH 202  The Modern World
CH 203  American Experiences and Constitutional Change
Any CRJ course 100-level or above
Any ECON course 100-level or above
EDU 201  Introduction to Elementary Education
EDU 202  Introduction to Secondary Education
EDU 203  Introduction to Special Education
Any GEOG course 100-level or above
HDFS 201  Lifespan Human Development
HDFS 202  Introduction to Families
Any HIST course 100-level or above
JOUR 101  Critical Analysis of Mass Media
Any PSC course 100-level or above
Any SOC course 100-level or above
WMST 250  Introduction to Feminist Theory
WMST 255  The American Women’s Movement

ELECTIVE REQUIREMENTS

THTR 105  Introduction to Acting I
THTR 205  Introduction to Acting II
THTR 206  Theater Workshop: Acting III
THTR 209  Theater Practicum
THTR 210  Theater: a Cultural Context
THTR 240  Acting for the Camera
THTR 258  Theater Experience and Travel

U.S. AND NEVADA CONSTITUTIONS
CE 201  Workplace Readiness
EPY 101  Educational, Career, and Personal Development
MGT 171  Supervision
MGT 201  Principles of Management
MGT 212  Leadership and Human Relations
MGT 235  Organizational Behavior
PSY 102  Psychology of Personal and Social Adjustment

Certificate of Achievement - General Studies

The Associate of General Studies Certificate of Achievement is highly flexible and allows students to combine classes from a diverse set of disciplines and fields. The certificate may fit personal needs or may be an important step in completion of the Associate of General Studies degree.

General Education Requirements

Communications/English
BUS 106  Business English
BUS 107  Business Speech Communications
BUS 108  Business Letters and Reports
COM 113  Fundamentals of Speech Communications
COM 215  Introduction to Group Communication
COM 285  Communication Disabilities and Film
ENG 101  Composition I
ENG 102  Composition II
ENG 107  Technical Communications I
ENG 108  Technical Communications II

Total Units 60

1 Course also satisfies diversity
2 Course also satisfies U.S. and Nevada Constitutions
3 May also be clearly identified as content in other courses
4 Great latitude is allowed in the selection of the 27 elective units. Choice of units can focus on one area alone or from any combination of career, technical or general courses. Developmental courses (numbered less than 100) cannot be applied to any degree or certificate. Units earned in many WDCE “C” courses may be considered nontraditional and must be approved by the Vice President of Academic Affairs in order to be applied to the Associate of General Studies degree. Please check with a TMCC advisor for further information. The WDCE “C” courses may not be counted for financial aid credit requirements.

Total Units       30

1 Course also satisfies diversity
The following applications are currently being offered:

- Communications
- not apply toward the Associate of Applied Science degree in Graphic courses are tailored to meet the needs of industry professionals and may particular graphics software over a one-to four-week period. These short unit professional level software applications classes that focus on one

The Graphic Communications Program (GRC) offers a series of 0.5 - 1 unit professional level software applications classes that focus on one

To qualify for CTE College Credit, students must:

- Earn a minimum 3.0 grade point average in the CTE program core course sequence
- Pass the state end-of-program technical assessment
- Pass the state Workplace Readiness assessment

For complete eligibility requirements and application information, please visit www.tmcc.edu/cte-college-credit/ (http://www.tmcc.edu/cte-college-credit) or call 775-857-4964.

Jump Start Dual Credit

Jump Start Dual Credit courses are college courses that high school juniors and seniors may take for high school and college credit. Units earned in dual credit classes may be applied toward an associate degree at TMCC and baccalaureate degree at UNR, UNLV, and NSC. Students must meet college admission requirements, complete course prerequisites and have the approval of a high school principal and parent in order to enroll in dual credit courses. For more information, please visit http://www.tmcc.edu/dual-credit/ or call 775-674-7638.

Graphic Communications Workshops

The Graphic Communications Program (GRC) offers a series of 0.5 - 1 unit professional level software applications classes that focus on one particular graphics software over a one-to four-week period. These short courses are tailored to meet the needs of industry professionals and may not apply toward the Associate of Applied Science degree in Graphic Communications.

The following applications are currently being offered:

- Adobe ACA Certification Prep
- InDesign (beginning and advanced)
- Illustrator (beginning and advanced)
- Photoshop (beginning and advanced)
- Acrobat
- Dreamweaver
- Animate
- Premiere

These workshops are listed in the TMCC class schedule under the Graphic Communications section. The GRC program also offers customized workshops that can be developed to meet the specific needs of companies and organizations. For more information on customized workshops, please call 775-673-7266.

Internships are courses that integrate classroom study with related work experience in a student’s place of employment or major field of academic study. Theory and practice are blended by training in career-related areas of professional interest. This method of instruction serves as a testing ground to make a student's educational program more relevant and meaningful, while permitting employer's an ongoing pipeline of future employees.

An internship:

- Helps to provide greater meaning to formal education;
- Increases motivation for learning;
- Contributes to the student's development of a sense of responsibility;
- Provides an opportunity to move into jobs that require new skills and responsibilities;
- Shows the student a chance to explore specific jobs in relation to his or her capabilities;
- Offers preparatory opportunities to enter the working world in the student's selected professional area.

To be eligible for an internship, a student must:

- Have completed a department's specified number of units toward a declared degree, emphasis or certificate and/or have met published prerequisites;
- Have a 2.5 GPA or higher to qualify;
- Enroll in one to eight credits with department/program approval;
- Be available to work the necessary hours as agreed to by the employer, faculty, and student in a position directly related to the student’s major area of study (credit is awarded at a rate of 45 hours of work per credit);
- Be able to identify, with the help of the employer partner and faculty sponsor, a set of job-related learning objectives that will enhance the student's career development.

Academic credit is awarded for completing the mutually agreed upon learning objectives assigned by the faculty sponsor. For student’s wanting to complete an internship at their place of employment, the employer must agree to establish new learning objectives before the internship is approved. For more information visit the Internship Program website (http://www.tmcc.edu/career-center/internships/program-information), or contact the Internship Coordinator at 775-674-7645.

Workforce Development and Community Education

TMCC’s Workforce Development and Community Education (WDCE) offers northern Nevada’s largest selection of non-credit personal enrichment and professional success courses. Our classes, which start
weekly at dozens of area locations, are tailored to adults and esteemed elders. For more information, please see the WDCE section (p. 344) of this catalog, visit wdce.tmcc.edu (http://wdce.tmcc.edu) or call 775-829-9010.
COURSES A-Z

Art (ART)

ART 100 # - Visual Foundations Units: 3
Explores visual forms and contemporary concepts through a variety of media, presentations and discussions. Transfers to UNR/UNLV. Satisfies UNR Fine Arts core curriculum.
Term Offered: All Semesters

ART 101 # - Drawing I Units: 3
An introductory studio course emphasizing a disciplined foundation in drawing concepts based on visual observations.
Term Offered: All Semesters

ART 102 # - Drawing II Units: 3
Continued exploration of drawing techniques and concepts. Enrollment Requirements: Prerequisite: ART 100 and ART 101
Term Offered: Spring

ART 124 # - Introduction to Printmaking Units: 3
Introduction to printing processes emphasizing relief, intaglio, and screen techniques.
Term Offered: Fall

ART 135 # - Photography I Units: 3
Introduction to photography techniques focusing on black and white processes.
Term Offered: Spring and Fall

ART 141 # - Introduction to Digital Photography Units: 3
Introduction to photographic techniques. Topics include exposure, camera controls, digital printing, file management. Exploration of creative possibilities and thematic modes of photography; working in series.
Term Offered: Spring and Fall

ART 142 # - Introduction to Digital Photography II Units: 3
Continued exploration of photography utilizing digital based equipment with an emphasis on cameras (both traditional and digital) and scanning with an emphasis on the creation and manipulation of original images. Enrollment Requirements: Prerequisite: ART 141
Term Offered: Spring

ART 160 # - Art Appreciation Units: 3
This course provides an introduction to the formal elements and principles of design used by artists, the fine arts media, and the history of art.
Term Offered: All Semesters

ART 198 # - Special Topics in Art Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits. Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

ART 201 # - Life Drawing I Units: 3
Exploration of the human figure in pictorial space with emphasis on drawing from a live model and working with gesture, memory and imagination. Enrollment Requirements: Prerequisite: ART 100, ART 101, and ART 102
Term Offered: Fall

ART 209 # - Introduction to Gallery Practices Units: 1
A course in the practices and ethics of operating an art gallery. Enrollment Requirements: Prerequisite: ART 100 and instructor approval
Term Offered: Spring and Fall

ART 211 # - Ceramics I Units: 3
Introduction to basic hand building and wheel throwing techniques. Term Offered: All Semesters

ART 212 # - Ceramics II Units: 3
Intermediate emphasis in hand-building and wheel throwing techniques. Enrollment Requirements: Prerequisite: ART 211
Term Offered: All Semesters

ART 216 # - Sculpture I Units: 3
Introduction to the concepts of three-dimensional composition. Term Offered: Spring

ART 224 # - Beginning Printmaking: Relief Units: 3
Introduction to concepts and practices in printing woodcuts, linocuts and assembled relief surfaces. Enrollment Requirements: Prerequisite: ART 100 or ART 124

ART 231 # - Painting I Units: 3
Introduction to concepts of painting including color, form, and composition. Enrollment Requirements: Prerequisite: ART 100 and ART 101
Term Offered: Spring and Fall

ART 232 # - Painting II Units: 3
Intermediate course in painting, emphasizing various materials and methods. Enrollment Requirements: Prerequisite: ART 100 and ART 231
Term Offered: Spring

ART 235 # - Photography II - Photographic Lighting Units: 3
Introduction to artificial lighting techniques and theory; strobe equipment and electronic flashes. Students produce a portfolio of work demonstrating knowledge of these techniques. Enrollment Requirements: Prerequisite: ART 141
Term Offered: Spring and Fall

ART 236 # - Photography III Units: 3
Advanced photography course involving continued explorations of numerous photographic techniques, compositional styles, concepts and critical analysis of photography as a Fine Art. Enrollment Requirements: Prerequisite: ART 135 and ART 235
Term Offered: Spring and Fall

ART 245 # - Digital Media I Units: 3
Introduction to concepts and practices of computer art and related media with an emphasis on contemporary experimental applications. Enrollment Requirements: Prerequisite: ART 100 or one studio art course

ART 260 # - Survey of Art History I Units: 3
Art of the western world from prehistoric times through the Gothic period. Satisfies UNR Fine Arts core curriculum. Term Offered: Fall

ART 261 # - Survey of Art History II Units: 3
Art of the western world from the Renaissance to the present. Satisfies UNR fine arts core curriculum. Term Offered: Spring

ART 263 # - Survey of African, Oceanic, & Native American Art Units: 3
This course is a survey of African, Oceanic, and Native American art. Satisfies TMCC Diversity requirement. Term Offered: Spring
ART 265 # - Introduction to Contemporary Art  
Survey of the major art forms and movements since World War II and of the critical and cultural milieu in which those art forms developed.  
Term Offered: Fall

ART 270 # - Women in Art  
This class examines works of art by women artists and representations of women in art and visual culture from antiquity to the present.  
Term Offered: All Semesters

ART 288 # - Photography of Art and Artifacts  
A course where students will produce digital images of works of art that can be used for promotion and applications for exhibitions or entry to Bachelor of Fine Arts programs. Basic techniques covered include copy stand use, scanning, photographing large two dimensional works and three dimensional works.  
Enrollment Requirements: Prerequisite: ART 141  
Term Offered: Fall

ART 295 # - Special Topics in Art History  
Special topics in art history. May be repeated up to 12 credits.  
Term Offered: Fall

ART 296 # - Independent Study  
A course for advanced students to pursue individual creative work in any of the studio disciplines. Students must submit a written proposal describing projects and meet with tutorial faculty member on a regular basis.  
Term Offered: Spring and Fall

ART 297 # - Field Study  
This course provides an opportunity for students to study art within its cultural and art historical setting by traveling to see works where they're located. Depending on the length of the trip, and the amount of material to be covered in the class, the credits may vary from 1 to 3. Repeatable for 6 credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring and Fall

ART 298 # - Portfolio Emphasis  
Participants will develop a portfolio for use in the acquisition of exhibitions, fine art gallery representation, inclusion in the permanent collections of museum/corporations, and/or employment in their respective medium. Class will also cover professional and legal planning strategies and requirements requisite to success in the fine art marketplace.  
Enrollment Requirements: Prerequisite: 12 credits in studio art or instructor approval  
Term Offered: Fall

ART 299 # - Special Topics in Studio Art  
Various topics of special interest in Studio Fine Art will be introduced, studied and accomplished in depth more than allowed through the basic beginning and intermediate courses Studio Art mediums. Possible topics include: alternative photographic processes, digital photography, engraving, raku firing, water bath etching, portraiture/lighting techniques in photography, weaving, performance art, view camera, color photography, etc.  
Term Offered: All Semesters

Accounting (ACC)

ACC 105 # - Taxation for Individuals  
Units: 1-3  
Income, expenses, exclusions, deductions and credits. Emphasis on the preparation of individual income tax returns. This course is transferable as an elective to UNR.  
Term Offered: Spring

ACC 135 # - Bookkeeping I  
Units: 3  
An introductory course for those without previous study in bookkeeping or accounting. Includes the purpose and nature of accounting, measuring business income, basic accounting principles covering the accounting cycle from source documents through preparation of financial statements for a service business and a retail firm, banking procedures and payroll procedures. Some assignments will be solved using a computerized general ledger program.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring and Fall

ACC 136 # - Bookkeeping II  
Units: 3  
Continuation of ACC 135. Includes accounting principles, assets and equity accounting for external financial reporting. Topics covered include notes receivable and payable, uncollectible accounts, inventory, accounting for plant and equipment, partnerships, corporations, bonds, financial statement analysis and statement of cash flows. Use of computer software for setup of an actual accounting system and for simulated case studies.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring and Fall

ACC 180 # - Payroll and Employee Benefit Accounting  
Units: 3  
An introductory course covering the concepts and principles of payroll accounting with practical manual and computer applications. Legal responsibilities of employers and rights of employees are included.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring and Fall

ACC 201 # - Financial Accounting  
Units: 3  
Purpose and nature of accounting, measuring business income, accounting principles, assets and equity accounting for external financial reporting.  
Enrollment Requirements: Prerequisite: MATH 96 and ENG 98, or qualifying Accuplacer, ACT, SAT scores, or permission of the instructor  
Term Offered: Spring and Fall

ACC 202 # - Managerial Accounting  
Units: 3  
Forms of business organization; cost concepts and decision making; break-even analysis, fixed and variable costs and budgeting for internal reporting.  
Enrollment Requirements: Prerequisite: ACC 201  
Term Offered: Spring and Fall

ACC 220 # - Microcomputer Accounting Systems  
Units: 3  
This course introduces students to integrated accounting software prominently used in business. Topics covered include general ledger, accounts receivable, inventory, fixed assets, accounts payable, long-term liabilities, equity, payroll, bank reconciliation, adjusting and closing entries; creation and analysis of financial statements. This course uses QuickBooks and Microsoft Excel. Transferable as an elective to UNR and UNLV.  
Enrollment Requirements: Prerequisite: ACC 136 or ACC 201  
Term Offered: Spring
ACC 290 # - Certified Bookkeeper Course  Units: 1-8
Offers skills for working professionals and students who wish to advance their career in the bookkeeping profession. Upon successful completion, students will be able to sit for a national exam administered by the American Institute of Professional Bookkeepers (AIPB). Upon passing this exam and completing two years of bookkeeping experience, individuals earn the right to call themselves "Certified Bookkeepers." Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: ACC 135 and ACC 136 – OR – ACC 201; and ACC 180
Term Offered: All Semesters

ACC 295 # - Work Experience  Units: 1-8
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 75 hours of internship for one credit. The course may be repeated for up to eight credits.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: AS NEEDED

Advanced Magnetic Resonance Imaging (AMI)

AMI 201 # - Introduction of MRI, Patient Care, and Safety  Units: 2
This course covers patient screening procedures, safety issues, and biological considerations, magnetic resonance (MR) terminology, and elementary imaging principles. Also covered is an introduction to patient care in the MR environment, including professional ethics, and patient communications.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: Students must be ARRT credentialed, or have an Associate degree in an Allied Health field with permission of the program director
Term Offered: Fall

AMI 236 # - Cross-Sectional Anatomy and Pathology for Imaging Professionals  Units: 3
This course is a study of the human anatomy as viewed using cross-sectional images. This class is also used in imaging modalities like magnetic resonance imaging (MRI), computed tomography (CT), and ultrasound (US).
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: Students must be ARRT credentialed, or have an Associate degree in an Allied Health field with permission of the program director
Term Offered: Fall

AMI 238 # - Physics, Instrumentation, and Imaging for MRI  Units: 3
This course is an introduction and exploration of MRI physics, instrumentation, and application.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: Students must be ARRT credentialed, or have an Associate degree in an Allied Health field with permission of the program director
Term Offered: Fall

AMI 246 # - MRI Procedures of the Central Nervous System  Units: 3
This course is an exploration of the magnetic resonance imaging techniques of the Central Nervous System - head, neck and spine to include patient positioning, protocols, pulse sequences, and pathology.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: Students must be ARRT credentialed, or have an Associate degree in an Allied Health field with permission of the program director
Term Offered: Fall

AMI 248 # - Advanced MR Techniques and Post Processing  Units: 3
This course explores advanced imaging techniques and new technologies in magnetic resonance imaging (MRI).
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: AMI 201, AMI 236, AMI 238, AMI 246, and AMI 250 completed with a C or better
Term Offered: Spring

AMI 250 # - MRI Clinical Practicum I  Units: 1-3
A planned clinical experience is provided which gives the student the opportunity to incorporate the theory presented in AMI 201, and other pertinent courses. The student will expand their clinical skills while preforming magnetic resonance imaging procedures under the supervision of the clinical staff. Progression in the program is dependent on the student demonstrating clinical competence on a specific number of competency evaluations.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: Students must be ARRT credentialed, or have an Associate degree in an Allied Health field with permission of the program director

AMI 256 # - MRI Procedures of the Torso and Limbs  Units: 3
This course is an exploration of the magnetic resonance imaging techniques of the Torso and Limbs - abdomen, pelvis, and musculoskeletal system to include patient positioning, protocols, pulse sequences, and pathology.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: AMI 201, AMI 236, AMI 238, AMI 246, and AMI 250 completed with a C or better
Term Offered: Spring

AMI 260 # - MRI Clinical Practicum II  Units: 1-3
A planned clinical experience is provided which gives the student the opportunity to incorporate the theory presented in AMI 201, and other pertinent courses. The student will expand their clinical skills while preforming magnetic resonance imaging procedures under the supervision of the clinical staff. Progression in the program is dependent on the student demonstrating clinical competence on a specific number of competency evaluations.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: AMI 201, AMI 236, AMI 238, AMI 246, and AMI 250 completed with a C or better
AMI 290 # - Internship in Advanced Medical Imaging Units: 1-3
A course designed wherein students will apply knowledge to real life situations in cooperation with the clinical education site and a faculty advisor to maximize learning experiences. A planned clinical experience is provided which gives the student the opportunity to demonstrate clinical skills in performing competency examinations in accordance to ARRT specifications in advanced modalities such as MRI, CT, Mammography, CVI, etc. These skills should include analysis, synthesis and evaluation of the examinations performed. Competency evaluations are based on ARRT standards for the specific modality in which the student is applying for advanced certification. Transferability: May not transfer towards an NSHE bachelor's degree

Enrollment Requirements: Prerequisite: Students must be ARRT credentialed, or have an Associate degree in an Allied Health field with permission of the program director
Term Offered: Spring and Fall

Air Conditioning (AC)

AC 102 # - Refrigeration Theory Units: 3
An introductory course to present the fundamental principles of mechanical refrigeration. The course is designed for persons interested in pursuing a career in servicing, repairing and/or installing refrigeration and air conditioning equipment as well as building maintenance persons. Topics covered: basic physics, thermodynamics, the basic refrigeration cycle and common components used in mechanical refrigeration. This course is a prerequisite for all other courses in the Refrigeration and Air Conditioning and Building Maintenance core. Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

AC 102M # - Refrigeration Theory Units: 0.5
An introductory course to present the fundamental principles of mechanical refrigeration. The course is designed for persons interested in pursuing a career in servicing, repairing and/or installing refrigeration and air conditioning equipment as well as building maintenance persons. Topics covered: basic physics, thermodynamics, the basic refrigeration cycle and common components used in mechanical refrigeration. This course is a prerequisite for all other courses in the Refrigeration and Air Conditioning and Building Maintenance core. The student must complete all content for the following six areas in order to meet degree or certificate requirements. 1. Basic Physics and Thermodynamics (.5 credits) 2. Refrigeration Cycle (.5 credits) 3. Components found in mechanical refrigeration (.5 credits) 4. Cause and effect of the mechanical refrigeration system (.5 credits) 5. EPA guidelines (.5 credit) 6. Certification test (.5 credit) Transferability: May not transfer towards an NSHE bachelor's degree

AC 106 # - Residential Gas Heating Units: 6
Application of principles and skills in the troubleshooting, repair and maintenance of air conditioning, heating and ventilation equipment. Topics covered are the refrigeration cycle, gas furnace, oil furnaces, heat pump, chilled water systems, hot water systems and cooling. The student must complete all content for the following 12 areas in order to meet degree or certificate requirements. This course satisfies 10 hours of instruction toward completing the embedded Mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 10 hours of instruction toward completing the embedded Human Relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 10 hours of instruction toward completing the embedded Human Relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. Option A. This course satisfies 10 hours of instruction toward completing the embedded Mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. Option A. This course satisfies 10 hours of instruction toward completing the embedded Human Relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. Option A. This course satisfies 10 hours of instruction toward completing the embedded Mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. Option A.

Enrollment Requirements: Prerequisite: AC 102 and AC 107
Term Offered: Spring and Fall

AC 107 # - Electrical and Controls for HVAC Units: 6
This course will familiarize students with electrical applications and controls used in HVAC/R. Topics include basic electricity, wiring, schematics and controls found in heating, ventilation, air conditioning and refrigeration. This course satisfies 5 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 10 hours of instruction toward completing the embedded Mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. The student must complete all content for the following 12 areas in order to meet degree or certificate requirements. 1. Electrical Safety 2. Basic Concepts of Electricity 3. Introduction to the Training System 4. Switches 5. Voltage, Current, and Measuring Instruments 6. Resistance and Ohm's Law 7. Solving Series Circuits and Kirchhoff's Voltage Law 8. Solving Parallel and Mix Circuits 9. Capacitors and Electromagnetism and Inductors 10. Transformers, Relays, and Contactors 11. Electrical Distribution 12. Troubleshooting Methods. Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

AC 111 # - Heat Pumps Units: 3
An introductory course in the principles of mechanical refrigeration found in heat pumps. Students will learn fundamentals in servicing, repairing and/or installation of refrigeration and air conditioning equipment. Topics include basic physics, thermodynamics, the refrigeration cycle and common components used in heat pump systems. Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

AC 113 # - Schematic Reading for HVAC/R Units: 3
Application of principles and skills in reading schematics seen in HVAC/R. Followed by the operation of air conditioning, heading and Refrigeration equipment. Topics covered are the cooling cycle, gas furnaces, Ice-Machines and Refrigeration systems both residential and commercial. The students must complete all content for the following 6 areas in order to meet degree or certificate requirements. 1. Ladder Schematics 2. Combination Ladder and Pictorial 3. Wire to Wire Components and Sequence of Operation 4. Symbols and Power Identification 5. Wiring Location Exercise 6. Troubleshooting Schematic. Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall
AC 121 # - Sheet Metal I
This course will allow the student to understand the concepts of basic drawing, drawing equipment, and practical geometry. The use of the drawing equipment will further the student's ability to produce actual sheet metal work by using practical geometry and practical pattern drafting.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

AC 122 # - Sheet Metal II
This course will introduce students to the proper and safe use of the tools and equipment found in a sheet metal environment. Students will focus on practical pattern drafting. Using the skills developed in AC 121, Sheet Metal I, students will be able to develop patterns, transfer them to sheet metal, and form finished products.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: AC 150 or approval of instructor

AC 150 # - Basic Refrigeration Servicing
This course is designed for persons interested in entering the refrigeration service, installation or building maintenance fields. This course is oriented toward development of basic skills required in troubleshooting, repair and maintenance of refrigeration systems. Topics covered are soldering, silver soldering, service and troubleshooting tools and systems construction. This course satisfies 5 hours of instruction toward completing the embedded Human Relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 10 hours of instruction toward completing the embedded Mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: AC 121

AC 151 # - Commercial Refrigeration Servicing
Units: 6
This course is designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for an application, screening and required skills evaluation. Up to 16 semester hour credits may be earned on the basis of 75 hours of internship for one credit. May be repeated for up to 16 credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

American Sign Language (AM)

AM 145 # - American Sign Language I
Units: 3-4
This course is designed to introduce American Sign Language, a visual-expressive language used by the Deaf community in the United States, and to focus on the development of basic conversational skills, emphasizing receptive and expressive abilities.
Term Offered: Spring and Fall

AM 146 # - American Sign Language II
Units: 4
This course continues to stress the development of basic conversational skills with emphasis on expanding vocabulary and expressive skills.
Enrollment Requirements: Prerequisite: AM 145
Term Offered: Spring and Fall

AM 147 # - American Sign Language III
Units: 3
This course promotes the shifting from comprehension to production of American Sign Language (ASL) with the main emphasis of bringing fluency to a point of self-generated ASL.
Enrollment Requirements: Prerequisite: AM 146
Term Offered: Spring and Fall

AM 148 # - American Sign Language IV
Units: 3
This course encourages the student to expand command of disclosure in American Sign Language on various everyday topics (leading to fluency).
Enrollment Requirements: Prerequisite: AM 147
Term Offered: Spring and Fall

Anthropology (ANTH)

ANTH 101 # - Introduction to Cultural Anthropology
Units: 3
Analysis of the nature of culture, its universal aspects and range of variations revealed by human history and world ethnography. Satisfies UNR Social Science core curriculum.
Term Offered: Spring and Fall

ANTH 102 # - Introduction to Physical Anthropology
Units: 3
Biological and evolutionary origins of humans, with consideration of population genetics, living primates, fossil records and human variation. Includes eight laboratory experiences. Satisfies UNR science core curriculum.
Enrollment Requirements: Corequisite: ANTH 110L
Term Offered: Spring and Fall
ANTH 110L # - Physical Anthropology Laboratory Units: 1
Practical experience in aspects of physical anthropology: the mechanisms of inheritance, osteology and forensic science, comparative anatomy and human evolution, the processes of human growth and aging, and aspects of modern human variability. Includes eight laboratory experiences. Satisfies UNR and UNLV core requirements for a laboratory science course.
Enrollment Requirements: Corequisite: ANTH 102
Term Offered: Spring and Fall

ANTH 198 # - Selected Topics Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree

ANTH 201 # - Peoples and Cultures of the World Units: 3
Comparative survey of selected societies from throughout the world. Emphasis on the impact of global developments on traditional societies. Satisfies UNR social science or diversity core curriculum.
Term Offered: Spring and Fall

ANTH 202 # - Archaeology Units: 3
An examination of the research goals, theoretical foundations and methods of anthropological archaeology. Examples are drawn from notable archaeological sites worldwide.
Term Offered: Spring and Fall

ANTH 205 # - Ethnic Groups in Contemporary Societies Units: 3
Ethnic relations in the United States and other societies where cultural and racial pluralism illustrates problems and processes of social interaction. Same as SOC 205.
Term Offered: Spring and Fall

ANTH 208 # - Fundamentals of Cultural Diversity Units: 3
This course explores the roles of culture in structuring the individual's self-identity, learning styles and sense of reality. The range of diversity in human socio-cultural institutions will be examined in terms of the role of prejudice, stereotyping and compatibility in education, the workplace and other environments. An emphasis will be placed on providing the skills necessary to work and live together regardless of ethnic, religious, race, gender, age and other cultural affiliations.
Term Offered: Spring and Fall

ANTH 225 # - Archaeological Field Methods: Survey Units: 3
This course provides the student with introductory training in basic archaeological field survey techniques.
Enrollment Requirements: Prerequisite: ANTH 202 or permission of instructor

ANTH 226 # - Archaeological Field Methods: Excavation Units: 3
This course provides the student with introductory training in basic archaeological field excavation techniques.
Enrollment Requirements: Prerequisite: ANTH 202 or permission of instructor Term Offered: AS NEEDED

ANTH 227 # - Foundations of Archaeological Lab Methods Units: 3
Basic hands-on introduction to archaeological lab methods which may include some or all of the following: inventory, processing, cataloging artifacts and preparing them for analysis and curation.
Enrollment Requirements: Prerequisite: ANTH 202 or permission of instructor Term Offered: AS NEEDED

ANTH 229 # - Fundamentals of Applied Anthropology Units: 3
Fundamental survey of case studies examining various applications of anthropology in the resolution of human problems. Students will explore career opportunities for applied anthropologists and some of the roles of anthropologists in the world today. Students will participate in a class research project.
Enrollment Requirements: Prerequisite: ANTH 101 or SOC 101
Term Offered: Spring

ANTH 279 # - Para-Professional Skills in Social Science Units: 3
Students will learn basic technical skills to support professional anthropologists as they conduct various aspects of research, data management and analysis, composition and report production.
Enrollment Requirements: Prerequisite: ANTH 229 (may be taken concurrently)
Term Offered: AS NEEDED

ANTH 281 # - Introduction to Language Units: 3
Nature and function of language, including an introduction to the linguistics subsystems of modern English and the development of the English language. Same as ENG 281.
Term Offered: Fall

ANTH 290 # - Internship in Anthropology Units: 1-3
Supervised Para-professional work experience in one or more areas of anthropology under guidance of a professional anthropologist or related professional. Student will apply knowledge and skills to real on-the-job situations designed by a faculty advisor and an official from a public agency, academic institution or business.
Enrollment Requirements: Prerequisite: Student must have 30 credits of completed coursework prior to enrollment in ANTH 290 Student must have a minimum GPA of 2.5 Student must have permission of faculty member and internship coordinator
Term Offered: AS NEEDED

Architectural Design (AAD)

AAD 100 # - Introduction to Architectural Design Units: 3
This is a survey course of the profession of design. Covered in this course is a discussion of the fields of Architecture, Landscape Architecture and Planning. Other design fields may be discussed as they relate to these professions. Topics may include types of firms and their specialties, what it takes to become a licensed practitioner for whom a design professional might work, salaries that might be achieved and the professional associations to which a design professional might belong.
Term Offered: Spring and Fall

AAD 101 # - Design with Nature Units: 3
Introduces the concepts of natural systems and their influence on human activity and the living environment. Reviews the historical context and cultural adaptations and introduces the basic management and use of the natural systems. Reviews natural, biological, cultural and design management philosophies.
Term Offered: Fall

AAD 125 # - Construction Drawings and Detailing Units: 3
Analysis of assembling and detailing for construction in the field of architecture and landscape architecture. Techniques for the production of construction details will be discussed and demonstrated. Visits to construction sites and professional offices.
Term Offered: Spring and Fall
AAD 180 # - Design Foundation I  
Units: 3  
Investigation of the elements, principles and theories of design in three dimensions. Emphasis placed upon principles of organization, principles of visual and geometric logic, design methodology and color theory. Completion of this course satisfies 25 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. 
Enrollment Requirements: Corequisite: AAD 181  
Term Offered: Fall

AAD 181 # - Design Foundation I Discussion  
Units: 3  
Discussion of the elements, principles and theories of design in three dimensions. Emphasis placed upon principles of organization, principles of visual and geometric logic, design methodology and color theory. Completion of this course satisfies 20 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. 
Enrollment Requirements: Corequisite: AAD 180  
Term Offered: Fall

AAD 182 # - Fundamentals of Design II  
Units: 3  
Design is the main focus of this class. The students will create order among visual elements. Each student will be challenged with a series of design problems that will advance their skills in spatial sequencing and design methodologies. 
Enrollment Requirements: Prerequisite: AAD 180 and AAD 181 Corequisite: AAD 183  
Term Offered: Spring

AAD 183 # - Fundamentals of Design Discussion II  
Units: 3  
Design theories and principles will be researched, analyzed and applied to either site specific projects or with the actual construction of full scale forms. 
Enrollment Requirements: Prerequisite: AAD 180 and AAD 181 Corequisite: AAD 182  
Term Offered: Spring

AAD 198 # - Special Topics in AAD  
Units: 0.5-6  
This course will explore the study of special relevant topics in the profession of design. This course includes discussion of the fields of Architecture, Landscape Architecture, or Sustainable Planning and other related design professions. Topics may include, type of education and skills necessary, the specialties of each profession, what it takes to become a licensed practitioner, and might be seen as the future of these professions. 
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: AAD 100  
Term Offered: AS NEEDED

AAD 201 # - History of the Built Environment  
Units: 3  
This course will review the built form of architecture and urban design from various cultures and civilizations throughout history. Specific periods of study include the Ancient World, the Medieval Period, the Renaissance and Modern Times. Historical events along with developments in architecture of non-western civilizations that have shaped philosophies, cultures and civilizations will also be discussed. Same as course as HUM 201. Satisfies TMCC Diversity requirement. 
Enrollment Requirements: Prerequisite: ENG 98 or equivalent placement score  
Term Offered: Spring and Fall

AAD 202 # - Analysis of the Built Environment  
Units: 3  
This course will discuss the history of architecture and city design in western and non-western civilization. The time periods to be covered will be from classical Greek, Hellenistic and Roman, through the Romanesque period, including the events and architecture of non-western civilizations happening within the same time frame. The interactions that the architecture and design philosophies have had on the shaping of civilization will also be discussed. What civilization reflects through its architecture during these periods will be examined. 
Term Offered: Spring

AAD 223 # - Graphic Software for Arch, Const, Dsgnr, Planners  
Units: 3  
Application of graphic software packages for presentation techniques. Emphasis will be placed upon the preparation of materials for a portfolio. 
Enrollment Requirements: Prerequisite: AAD 180 and AAD 181 Corequisite: AAD 280  
Term Offered: Fall

AAD 230 # - Design with Climate  
Units: 3  
This course will prepare the student with the basic knowledge in the following areas of solar design history, solar procession, climatological data for Reno and northern Nevada, energy reflection, transmission and absorption, heat transfer, heat storage, types of collector systems and their sizing as it relates to architecture. 
Term Offered: Spring

AAD 257 # - Plant Materials  
Units: 3  
This course will identify the plants that will grow in this climate. The student will be given characteristics of the plants, soil adaptation, cultural needs, use of those plants in the landscape. 
Term Offered: Spring

AAD 265 # - Computer Applications in Architecture I  
Units: 3  
Advanced work in computer-aided drafting and design. Includes development of speed, understanding of CAD techniques and logic and the understanding of office environment that incorporates CAD as a drafting alternative. 
Enrollment Requirements: Prerequisite: AAD 223 and AAD 280 Corequisite: AAD 282  
Term Offered: Spring

AAD 280 # - Fundamentals of Architecture Design I  
Units: 3  
This course explores the elements, principles, and theories of design as applied to projects in various media. It emphasizes integration of design principles with the properties of wood, concrete, steel, glass, masonry and other construction materials. Consideration of environmental and climatic conditions and determinants is also discussed. 
Enrollment Requirements: Prerequisite: AAD 180 and AAD 181 Corequisite: AAD 223  
Term Offered: Fall

AAD 282 # - Fundamentals of Architecture Design II  
Units: 3  
Discussion of the elements, principles and theories of design. Emphasis is placed upon integration of design principles to urban landscapes, buildings, interiors, furnishings and environmental graphic applications. 
Enrollment Requirements: Prerequisite: AAD 280 Corequisite: AAD 265  
Term Offered: Spring
Architectural Design Tech (ADT)

ADT 105 # - Architectural Drafting I Units: 5
Basic techniques of architectural drafting. Use of drafting room equipment. Emphasizes residential buildings and leads to completion of a full set of professional level working drawings. Four hours lecture and three hours lab. Term Offered: Spring and Fall

ADT 120 # - Introduction to Lead and Sustainable Building Units: 3
This course will survey the Leadership in Energy and Environmental Design (LEED) construction methods, techniques, materials and associated points system. Discussions will include Green building and how they increase productivity, improve health, conserve the Earth’s resources, and cost less to operate and maintain than standard construction types. Other areas to be discussed will include Sustainable Sites; Water Efficiency; Energy and Atmosphere; Materials and Resources; Indoor Environmental Quality; and Innovation and Design Process. Case studies will be examined and used to identify the specific construction methods, point accumulation and how it assists in conservation. Term Offered: Spring and Fall

ADT 168 # - Landscape Management I Units: 3
Landscape Management I is the first of two courses designed for the nurseryman’s certification. Material covered will be valuable to the homeowner as well as the professional. The on campus field trip gives hands-on demonstrations of how irrigation components are installed and how they function. This course presents the practical field knowledge needed to work within the landscape industry. This course will prepare the student with basic knowledge to continue with Landscape Management II. Transferability: May not transfer towards an NSHE bachelor’s degree

ADT 170 # - Soil Management Units: 3
This course teaches the concepts that are used in the management of soils in landscape industry today. Techniques, standards and policies will be discussed that effect our usage of this resource. Basic laboratory work and field trips will be utilized to underscore the importance of earth’s fundamental resource, what makes up this primary resource and how it can be utilized, maintained and conserved for future generations. Transferability: May not transfer towards an NSHE bachelor’s degree

ADT 174 # - Urban Tree Care I Units: 3
This course covers the basics of tree care as it applies to trees in the urban environment. The semester will begin with biology of trees in order to help the student to understand why it is necessary to follow the practices that will be described throughout the class. Also, the biological portion of the class will increase the appreciation for trees, an understanding of the complex physiological processes that take place within trees will raise them from inanimate objects to fellow inhabitants and contributors to the environment in the urban setting. Completion of this course and Urban Tree Care II will provide the student with the resources necessary to prepare for the International Society of Arboriculture Certification for Arborists Examination. Transferability: May not transfer towards an NSHE bachelor’s degree

ADT 178 # - Fundamentals of Horticulture Units: 3
Introduction to horticulture practices including plant classification, plant structure, function, growth, propagation, development and limiting factors of growth. Two hours of lecture and three hours of laboratory each week. Transferability: May not transfer towards an NSHE bachelor’s degree

ADT 198 # - Special Topics in ADT Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be variable credit of one-half to six depending on the class content and number of hours required. The course may be repeated for up to six credits. Transferability: May not transfer towards an NSHE bachelor’s degree

ADT 230 # - Mechanical and Electrical Equip for Buildings Units: 3
Basic design computations and drafting concepts used in selection and layout of mechanical and electrical systems for buildings. Two hours lecture and three hour lab. Transferability: May not transfer towards an NSHE bachelor’s degree Enrollment Requirements: Prerequisite: ADT 105 or AAD 125 Term Offered: Fall

ADT 245 # - Statics and Strength of Materials Units: 3
This course provides students an introduction to the fundamental study of statics or external forces upon rigid bodies and how the internal strength of materials or stresses within a structural member react to various load conditions and applications. Students will study vector resultants, calculate equilibrium of forces, design truss solutions, analyze material stresses and strains and cover advanced topics including load tracing, deflection and calculating moment and shear force diagrams. Transferability: May not transfer towards an NSHE bachelor’s degree Enrollment Requirements: Prerequisite: MATH 108 or higher or qualifying Accuplacer Term Offered: Spring

ADT 256 # - Introduction to Land Use Planning Units: 3
This class will discuss the establishment of goals, policy development and implementation of plans for land use in various geographic areas. The use of GIS/GPS systems for data gathering and analytical tools will be discussed as well as their use to track resource scarcity and environmental deterioration problems. This is a lecture class. It is the prerequisite to Advanced GIS/GPS for architects, engineers and planners. Transferability: May not transfer towards an NSHE bachelor’s degree Term Offered: Fall

ADT 270 # - Greenhouse Management Units: 3
This course covers greenhouse management from the construction of the greenhouse itself, to the harvesting of the plants grown within it. Students will learn how to control the environment in the greenhouse, how to pasteurize soils and which are the best plants to propagate. Transferability: May not transfer towards an NSHE bachelor’s degree

ADT 290 # - Intern in Arch Design Technology Units: 1-8
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for an application, screening and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 75 hours of internship for one credit. The course be repeated for up to eight credits. Transferability: May not transfer towards an NSHE bachelor’s degree Enrollment Requirements: Prerequisite: AAD 100 Term Offered: AS NEEDED
Astronomy (AST)

AST 104 # - Introductory Astronomy: Stars and Galaxies  
Units: 3
An introductory astronomy course covering the cosmic perspective, visual astronomy, gravity, electromagnetic radiation, star properties and life cycles, star death and stellar remnants, galactic systems, exoplanets, the search for life in the universe, and Big Bang cosmology. Includes a required laboratory experiences. Satisfies UNR Science core curriculum requirements. Transfers to UNR as AST 110.

Enrollment Requirements: Prerequisite: MATH 120 or equivalent or qualifying ACCUPLACER, ACT/SAT test result

Term Offered: Spring and Fall

AST 198 # - Special Topics in Astronomy  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.

Transferability: May not transfer towards an NSHE bachelor’s degree

Term Offered: AS NEEDED

Automotive (AUTO)

AUTO 101 # - General Auto  
Units: 2-7  
An introductory course describing the principles of operation, design, construction and maintenance of automobiles. Activities include shop safety emphasis, use of service manuals, use of tools and fasteners, general maintenance of cooling systems, lubricating systems; an overview and demonstration of electrical, fuel and ignition systems; an overview and explanation of chassis, steering, suspension and brake systems. Human relations, leadership and work ethics related to the automotive industry will also be covered.

Transferability: May not transfer towards an NSHE bachelor’s degree

AUTO 111 # - Automotive Electricity  
Units: 4  
Foundation course in concepts and theories of light duty vehicle electrical circuits and components. Emphasis is placed on application of principles to operate electrical meters, scope meters, and other electrical test equipment. Schematic wiring diagrams will be used to interpret circuit operation and formulate diagnostic procedures. This course satisfies 20 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 101 or DT 101 or DT 250

AUTO 112 # - Automotive Electricity II  
Units: 4  
Building on prior training, AUTO 112 examines the fundamental operation and testing of electronic devices and components. Operation and diagnostic methods for testing and repair of the battery, charging systems, and starting systems.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 111 or instructor permission

Course may be taken concurrently with AUTO 111

AUTO 136 # - Engine Repair  
Units: 5  
This course introduces the theory and operation of internal combustion engines and related sub-systems used in light duty vehicles. Different types of light duty engines will be disassembled; parts will be identified and inspected. The engine will be reassembled to manufacturer’s specification.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 101 or instructor permission

AUTO 145 # - Automotive Brakes  
Units: 5  
This course introduces the theory and design requirements for brake systems used on automotive and light truck application. Emphasis is placed on mechanical, hydraulic and vacuum system operations. Students will be introduced to principles of hands-on skills for service and repair of brake systems. Student will be introduced to principles of operation and repair of anti-lock brake systems.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 101 or instructor permission

AUTO 150 # - Steering and Suspension Systems  
Units: 5  
This course introduces theory and practical application of operation, diagnosis, and hands-on skills to maintain and repair light duty vehicle steering and suspension systems. Emphasis will be placed on front wheel and rear wheel vehicles, four wheel drive, and all wheel drive vehicles. Students will be introduced to wheel alignment strategies and alignment procedures. Tore and wheel maintenance will be included.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 101 or instructor permission

AUTO 165 # - Auto Heating and Air Conditioning  
Units: 5  
This course introduces students to theory, diagnosis, and hands-on skills to service and repair light duty vehicle climate control and air conditioning systems. Presented in this course are operation of air distribution systems, refrigeration system and computer controlled systems. Students will be introduced to safe handling of refrigerant, recovery/recycling, and recharge of the refrigerant system. Students may apply for the ASE recovery and recycle license during class.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 111 or instructor permission

AUTO 198 # - Special Topics in Auto  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. This course may be repeated for up to six credits.

Transferability: May not transfer towards an NSHE bachelor’s degree

AUTO 205 # - Manual Drive Trains and Axles  
Units: 4  
This course covers theory and operation of the automotive and light truck manual drive trains and axles. Emphasis is placed on the manual transmissions, clutches, transfer cases and drive axles. Components will be checked for wear or failed parts. The drive train components will be reassembled to manufactures specifications.

Transferability: May not transfer towards an NSHE bachelor’s degree

AUTO 216 # - Automatic Transmissions  
Units: 5  
Study of theory and fundamental principles of automotive and light truck automatic transmissions and transaxles. Emphasis is placed on the mechanical, hydraulic, and electrical control systems of the transmission. Students will be introduced to service operations and hands-on skills needed for repair and overhaul of a variety of transmissions.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 101 or instructor permission

AUTO 225 # - Engine Performance I  
Units: 4  
Foundation course for engine performance concerns, testing, and repair. Study of operation and relationships of basic mechanical engine components, ignition system, and fuel delivery systems. Develop hands-on skills while testing and repair using specialized test equipment.

Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements: Prerequisite: AUTO 111 or instructor permission
**Term Offered:** All Semesters

**Transferability:** May not transfer towards an NSHE bachelor's degree

---

**AV 101 # - Introduction to Unmanned Aerial Systems**

A study into the wide variety of unmanned aircraft systems. Topics will include the development, applications, regulatory issues, and responsible use of this new technology.

*Transferability: May not transfer towards an NSHE bachelor's degree*

*Term Offered: All Semesters*

---

**AV 102 # - Unmanned Aerial System Construction Project**

This course will allow students to construct an unmanned aerial system of their design using locally acquired materials to fulfill various roles. This course satisfies 12 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A.

*Transferability: May not transfer towards an NSHE bachelor's degree*

*Enrollment Requirements: Prerequisite: AV 101*

*Term Offered: Spring and Fall*

---

**AV 110 # - Basic Ground School for Pilots**

A study of aviation fundamentals including principles of flight, aircraft and engine operations, weather, navigation, and radio communications as required by the Federal Aviation Administration (FAA) regulations. Topics will include general service, maintenance, and safety practices.

*Transferability: May not transfer towards an NSHE bachelor's degree*

---

**AV 210 # - Instrument Ground School (Airplane)**

This course provides in-depth study of the purpose, use and operation of flight instruments in airport departures, en route navigation, approaches and other aspects of instrument flight. The course will prepare the students to qualify as an instrument rated pilot.

*Transferability: May not transfer towards an NSHE bachelor's degree*

---

**AV 213 # - Unmanned Aircraft Simulation**

This course provides students the opportunity to gain flight skills by use of flight simulators prior to actual aircraft operation. These simulators will allow students to experience the flight characteristics that are unique to different classes of unmanned aircraft.

*Transferability: May not transfer towards an NSHE bachelor's degree*

---

**AV 216 # - UAS Flight Operations**

This course will introduce students to operations of a variety of Unmanned Aerial Systems in a real-world environment.

*Transferability: May not transfer towards an NSHE bachelor's degree*

---

**AV 217 # - UAV Sensor Data Processing**

This course will introduce students to the various methods of processing photographic, volumetric, and multispectral data gathered by a UAV to produce a product suitable for commercial use in support of various industries.

*Transferability: May not transfer towards an NSHE bachelor's degree*

---

**Biology (BIOL)**

**BIOL 100 # - General Biology for Non-Majors**

An introductory course emphasizing the processes of science and the fundamentals of biology. Includes a basic introduction to molecules, cells and metabolism, the flow of genetic information, evolutionary theory, and ecological processes. Connects life science concepts to the understanding of everyday concerns such as human health. Designed for the non-science major and meets UNR core curriculum science requirement; cannot be used for credit toward biology major. Three lecture hours per week and four laboratory experiences throughout the semester.

*Term Offered: ALLSEM&W*
BIOL 105 # - Introduction to Neuroscience
This course will provide a framework for understanding the fundamental, biological processes that are involved in human behavior and cognition. Topics surveyed will introduce basic principles of neuroscience, including: the divisions of the human nervous system, the cells of the nervous system and neural function. In addition, students will engage in discussion of how brain function supports higher-order cognitive processes and how behavior and cognition are impacted by neurological diseases. Same as PSY 105.
Term Offered: Spring and Fall

BIOL 106 # - Introduction to Evolution and Adaptation
An introductory course examining evolution and adaptation in organisms. Includes a review of history of the scientific process, Darwinian and Neo-Darwinian evolution, introduction to genetic variation, natural and artificial selection, theories on the origin of life, human evolution and genetically modified organisms (GMOs). Three hours of lecture per week and four labs per semester.
Term Offered: Spring and Fall

BIOL 110 # - Biology for Elementary/Middle Level Education
An introductory course emphasizing major concepts and pedagogical techniques in the field of biology. The course is designed for prospective teachers. It incorporates scientific methodology and content knowledge into hands-on investigation that may be used at the elementary and middle school levels. Transfers as 3 credits to UNR and meets TMCC and UNR requirements for AA and BS degrees in Elementary Education. Two hours of lecture and three hours of laboratory per week.
Term Offered: Fall

BIOL 113 # - Life in the Ocean
A survey of marine environments and their biotic communities with an emphasis on the natural history of marine organisms. This is an online course designed for non-science majors or anyone with a general interest in marine biology. Includes hands-on activities to be completed at home and virtual laboratory experiences online, including several virtual dissections. Satisfies the general education requirement in natural sciences and is transferable to UNLV as a general education course in the natural sciences.
Term Offered: All Semesters

BIOL 188 # - Foundations in Scientific Literacy
This course is designed to help prepare students for the first introductory majors Biology course, BIOL 190, by reviewing basic mathematics and introducing the scientific method, basic chemistry, fundamental concepts, laboratory techniques, and study skills used in the biological sciences. The class consists of 16.5 lecture hours and six hours of lab per semester. * Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

BIOL 190 # - Introduction to Cell and Molecular Biology
An introductory cell and molecular biology course covering basics of inorganic chemistry, water, pH, biological macromolecules, cell structure, membrane physiology, cell signaling, metabolism, cell division, heredity, gene expression, and gene regulation. Both BIOL 190 & BIOL 190L are prerequisites for the following biology courses: BIOL 191, BIOL 191L, BIOL 201, and BIOL 251. BIOL 190L can be taken as a pre or co-requisite for BIOL 223. BIOL 190 is a prerequisite for BIOL 223.
Enrollment Requirements: MATH 120 or higher as a prerequisite OR MATH 126 or higher as a corequisite AND ENG 101 or 113 as a prerequisite or corequisite; OR qualifying Accuplacer, SAT or ACT scores for these courses MATH 126 or higher is recommended for AS degrees
Term Offered: All Semesters

BIOL 190L # - Introduction to Cell and Molecular Biology Laboratory
An introductory laboratory course focusing on scientific inquiry and investigation of cell and molecular biology principles, use of laboratory equipment, and metric system measurements and conversions. Both BIOL 190 & BIOL 190L are prerequisites for the following biology courses: BIOL 191, BIOL 191L, and BIOL 251. BIOL 190L can be taken as a prerequisite or co-requisite for BIOL 223. It is highly recommended that BIOL 190 be taken with or before BIOL 190L.
Enrollment Requirements: MATH 120 or higher as a prerequisite OR MATH 126 or higher as a corequisite AND ENG 101 or 113 as a prerequisite or corequisite; OR qualifying Accuplacer, SAT or ACT scores for these courses MATH 126 or higher is recommended for AS degrees
Term Offered: All Semesters

BIOL 191 # - Introduction to Organismal Biology
A comprehensive introduction to the evolution, ecology, biodiversity, structure and function of living systems. Topics include natural selection, populations and communities, characteristics of viruses, prokaryotes, protists, fungi and comparative life processes in plants and animals. Students must enroll in BIOL 191L concurrently with this course.
Note: BIOL 190/190L plus BIOL 191/191L transfers to UNR as fulfilling BIOL 190, 191 and 192.
Enrollment Requirements: Prerequisite: BIOL 190 and BIOL 190L; Corequisite: BIOL 191L
Term Offered: Spring and Fall

BIOL 191L # - Intro to Organismal Biology Lab
A comprehensive laboratory introduction to the ecology, biodiversity and structure and function of living systems, with emphasis on the equipment and skills used to investigate organisms. Must be taken concurrently with BIOL 191. Note: BIOL 190/190L plus BIOL 191/191L satisfies BIOL 190, BIOL 191 and BIOL 192 at UNR.
Enrollment Requirements: Prerequisite: BIOL 190 and BIOL 190L -- AND -- Corequisite: BIOL 191
Term Offered: Spring and Fall

BIOL 198 # - Special Topics in Biology
Selected topics will be presented in lecture and/or laboratory format that focus on specific areas in the biological sciences. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

BIOL 200 # - Elements of Human Anatomy and Physiology
A basic survey of human anatomy and physiology for medical office workers and technicians. Supports the Surgical Technology program at Western Nevada College and satisfies the general education science requirement for an AAS, AGS and Certificate of GS at TMCC.
Term Offered: Spring

BIOL 202 # - General Botany
An introduction to the development, anatomy, physiology, taxonomy, diversity and evolutionary relationships of the major plant groups. Topics include organization of plant cells and tissue systems, morphology, respiration and photosynthesis, genetics, growth and development, environmental factors, nutrition, ecology, and mechanisms of evolution.
Term Offered: Spring
BIOL 223 # - Human Anatomy and Physiology I  Units: 4
An intensive lecture and laboratory-based course that examines the structure and function of the human body. Basic histology is covered along with the following body systems: integumentary, skeletal, muscular and nervous, including special senses. Required for most allied health programs. Three hours of lecture and three hours of lab per week. This course transfers for four credits to UNR, UNLV, and NSC.  
Enrollment Requirements: Prerequisite: BIOL 190 or corequisite: BIOL 190L  
Term Offered: All Semesters

BIOL 224 # - Human Anatomy and Physiology II  Units: 4
A continuation of BIOL 223 with increased emphasis on body chemistry. Body systems covered include circulatory, respiratory, digestive, reproductive, urinary, endocrine, lymphatic and immune. Required for most allied health programs. Three hours of lecture and three hours of lab per week. May not be taken prior to or concurrently with BIOL 223. This course transfers for four credits to UNR, UNLV, and NSC.  
Enrollment Requirements: Prerequisite: A grade of "B" or better in BIOL 223  
Term Offered: All Semesters

BIOL 251 # - General Microbiology  Units: 4
A lecture and laboratory course emphasizing the morphology and physiology of archaea, bacteria, algae, fungi, protozoa, helminthes, and viruses; principles of infectious disease and host immune response; and skills in aseptic procedure, isolation and identification. Satisfies the general education requirements for the AS Nursing degree and is recommended for all allied health students.  
Enrollment Requirements: Prerequisite: BIOL 190 and BIOL 190L  
Term Offered: All Semesters

BIOL 273 # - Research Experience  Units: 1-6
A research-intensive course designed to foster competency in experimental design, laboratory techniques, problem-solving ability, data collection and analysis, and communication of scientific information through open-ended investigation.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: A grade of 'B' or better in BIOL 190 and BIOL 190L and permission of the instructor  
Term Offered: AS NEEDED

BIOL 275 # - Gross Anatomy Dissection  Units: 1-3
A laboratory-intensive course designed to expand knowledge of human anatomy through the preparation of specimens for use in TMCC anatomy and physiology classes. Students will be expected to learn and demonstrate appropriate dissection technique and to complete 40 hours of in-class dissection. This is a one-credit laboratory course.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: A grade of 'B' or better in BIOL 223 AND permission of the instructor  
Term Offered: AS NEEDED

BIOL 290 # - Internship in Biology  Units: 1-8
A course designed for students to apply their knowledge to on-the-job situations in a collaborative program between a company, government agency or college department under the supervision of a faculty advisor. The course is available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening and required skills evaluation. The course may be repeated for up to 8 credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Instructor Approval  
Term Offered: AS NEEDED

BIOL 295 # - Current Topics in Infectious Disease  Units: 1-3
This is a seminar type course covering current topics/issues in infectious diseases.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: BIOL 251  
Term Offered: AS NEEDED

BIOL 298 # - Independent Study in Biology  Units: 1-3
Research and/or analysis of readings in selected topics in biology. For 1-3 credits, up to a maximum of 8 credits.  
Enrollment Requirements: Prerequisite: A grade of "B" or better in BIOL 190 and BIOL 190L and permission of instructor  
Term Offered: AS NEEDED

BIOL 299 # - Selected Topics in Biology  Units: 1-3
Selected topics will be presented in lecture and/or laboratory format that focus on specific areas in the biological sciences. The course may be repeated for up to four credits.  
Enrollment Requirements: Prerequisite: BIOL 100 or higher or permission of the instructor  
Term Offered: AS NEEDED

---

Business (BUS)

BUS 101 # - Introduction to Business  Units: 3
Survey course designed to give students a broad introduction to the principles, practices and functions of businesses as they are practiced in both the national and global economies. Relevance will be provided through research and Internet projects and assignments. Topics to be covered include management, marketing, finance, investments, and various other areas such as international business, small business, and ethics.  
Enrollment Requirements: Prerequisite: MATH 96 or a grade of 'C' or better in BUS 117; ENG 101, ENG 113 or BUS 108; or equivalent ACCUPLACER, SAT/ACT test results  
Term Offered: All Semesters

BUS 106 # - Business English  Units: 3
This course in practical business English includes principles of grammar, punctuation, and word usage, paragraph development and formatting of basic business correspondence. The English language is constantly changing and this course will reflect leading-edge practices in use in the business community.  
Enrollment Requirements: Prerequisite: ENG 98 or higher or qualifying ACCUPLACER, ACT/SAT test scores  
Term Offered: Spring and Fall

BUS 107 # - Business Speech Communications  Units: 3
This course provides business students and career professionals with intensive coaching in listening skills, oral grammar and effective speech construction. Students will practice delivering a variety of individual and small group presentations necessary to successful on-the-job communications.  
Term Offered: Spring and Fall

BUS 108 # - Business Letters and Reports  Units: 3
Improve letter and report writing skills, proper word choice, letter tone, structuring through units. Emphasis on inductive and deductive business letters, memorandums, and reports. This course is transferable as a general elective to UNR.  
Enrollment Requirements: Prerequisite: BUS 106 or ENG 101 or equivalent or qualifying ACCUPLACER, ACT/SAT test results  
Term Offered: Spring and Fall
BUS 111 # - Workplace Communications
This course focuses on how to effectively communicate within an employment area, a workplace, or a business sector. Assignments, readings, and classroom sessions will focus on common written and oral communication opportunities where the efficient operation of an employment setting is their main goal.
Transferability: May not transfer towards an NSHE bachelor’s degree

Units: 1-3

BUS 112 # - Customer Service
This course teaches fundamental service principles and practices to raise service levels and improve the customer experience at every point of contact. Issues of serving a diverse population will be addressed. Participants learn how to delight their customers, support their colleagues, and build a superior service culture.
Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements:
Prerequisite: BUS 106 or BUS 108; or ACCUPLACER WritePlacer minimum score of 6; or instructor approval
Term Offered: Spring

Units: 3

BUS 117 # - Applied Business Math
This course is designed to help current and potential business decision makers solve problems that routinely cause businesses to fail. A practical application of business mathematics, including but not limited to: bank reconciliations, present value, markup and markdowns, simple and compound interest, trade and cash discounts, sales and property taxes, payroll, understanding overhead and analyzing financial reports.
Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements:
Prerequisite: MATH 120; or qualifying Accuplacer, SAT/ACT scores

Units: 3

BUS 150 # - Personal Finance
An introductory course in personal financial planning. Topic areas include: personal financial statements, budgeting, time value concepts, banking, obtaining and managing credit, identity theft, interest rates, insurance, investments, retirement planning, and taxation.
Transferability: May not transfer towards an NSHE bachelor’s degree

Units: 3

BUS 198 # - Special Topics in Business
Various short courses and experimental classes covering a variety of subjects. The course will be a variable of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor’s degree

Units: 0.5-6

BUS 225 # - Business Operations Applied Statistics
This one semester course applies concepts of descriptive statistics, probability, and inferential statistics directly to business operations with an emphasis on the creation and interpretation of reports for decision-making. Topics include: methods to collect, present, and interpret data; interpretation of probability distributions; and variance, regression and time-series analysis. Excel and other appropriate software will be used to perform data analysis and prepare reports.
Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements:
Prerequisite: MATH 120; or qualifying Accuplacer, ACT, SAT scores; or permission of the instructor

Units: 3

BUS 272 # - Legal Environment
This course covers the fundamentals of business law; the legal system, legal reasoning, public, commercial, managerial and property law, and government regulation. Emphasis is placed upon those facets of the law that impact managers and small business owners.
Term Offered: Spring and Fall

Units: 3

BUS 275 # - Fundamentals of International Business
This course will introduce the student to the exciting world of International Business. It will examine the following: direct focus on the development of management skills in handling problems of multinational business; analysis of problems stemming from the movement of goods, services, human resources, technology, finance, legal and political risk and ownership across national boundaries.
Transferability: May not transfer towards an NSHE bachelor’s degree

Units: 3

BUS 325 # - Legal Environment
This course introduces students to the fundamental legal and regulatory parameters that define, promote, and limit business activities. Topics include an overview of the legal system, administrative agencies, constitutional law, consumer protection, contracts, criminal law, employment law, environmental law, ethics, forms of business organizations, product liability, property, and torts.
Transferability: May not transfer towards an NSHE bachelor’s degree

Units: 3

BUS 330 # - Business Presentations
In this course students will learn to appropriately prepare for various presentation types in the business environment, including in-person as well as virtual. Students will learn how to analyze and identify the audience’s needs, speak, improve their delivery, and develop engaging and relevant visual aids for their audience. Students will explore delivery related topics including: posture, movement, gestures, expression, voice projection and variety. Students will practice developing compelling content and framing their presentation with logic and building their argument. Through practice, students will discover their strengths and get helpful feedback for making improvements, including tips for managing nervousness and distractions.
Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements:
Prerequisite: ENG 102 or ENG 114 and LGM 201; or instructor’s approval

Units: 3

BUS 98 # - Fundamentals of Business
This course prepares students with the fundamental skills that are required to achieve success within business studies and the related disciplines. Students will focus upon skills in reading business materials, doing basic business calculations and on writing and presenting business analysis.

Units: 3

Chemistry (CHEM)

CHEM 100 # - Molecules and Life in the Modern World
A course for students with no science background. A general introduction into topics in inorganic and organic chemistry. Four laboratory experiences are required through the course period.
Transferability: May not transfer towards an NSHE bachelor’s degree

Enrollment Requirements:
Prerequisite: ENG 98 and MATH 96 or qualifying ACCUPLACER, ACT, SAT scores
Term Offered: All Semesters

Units: 3
CHEM 103 # - Preparatory Chemistry  
Units: 3  
This course is a preparatory course for students with a deficiency in high school chemistry or who have not had chemistry before who wish to qualify for CHEM 110 or 121. Focus will be on developing problem solving skills and study skills in chemistry required to succeed in CHEM 110 or 121. Does not satisfy the General Education Core Science requirement. 
Enrollment Requirements: Prerequisite: MATH 96 equivalent or higher, or qualifying ACCUPLACER, SAT/ACT scores  
Term Offered: AS NEEDED  

CHEM 120 # - Recitation for General Chemistry I  
Units: 1  
Students must be concurrently enrolled in CHEM 121 in order to take this course. This course is a recitation section for CHEM 121 that includes additional practice in problem solving and chemistry skills used in CHEM 121.  
Enrollment Requirements: Corequisite: Must be concurrently enrolled in CHEM 121  
Term Offered: AS NEEDED  

CHEM 121 # - General Chemistry I  
Units: 4  
A first semester general chemistry course which focuses on the chemical principles of atomic structure, electron configurations, inorganic nomenclature, stoichiometry, reactions in aqueous solutions, thermochemistry, gas laws, and Lewis structures. Course includes a weekly lab.  
Enrollment Requirements: Prerequisite: ENG 98 and MATH 120 or equivalent or qualifying ACCUPLACER, ACT/SAT scores for these courses  
Term Offered: All Semesters  

CHEM 122 # - General Chemistry II  
Units: 4  
A second semester general chemistry course covering topics on intermolecular forces, kinetics, equilibrium, acid/base chemistry, thermodynamics, and electrochemistry. Course includes a weekly lab.  
Enrollment Requirements: Prerequisite: C or better in CHEM 121 within 5 years  
Term Offered: Spring and Fall  

CHEM 198 # - Special Topics in Chemistry  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED  

CHEM 201 # - General Chemistry for Scientists and Engineers  
Units: 4  
A first semester course on the fundamental principles of chemistry including stoichiometry, atomic structure, periodic table, chemical bonding, molecular structure, kinetic theory of gases, gas laws, solutions, colligative properties, equilibrium and electrochemistry. Credit allowed for only one of the following: CHEM 121 or CHEM 201.  
Enrollment Requirements: Prerequisite: Previously or currently enrolled in MATH 181 – AND – completion of ENG 101 or ENG 102; or qualifying ACCUPLACER, ACT/SAT scores  
Term Offered: AS NEEDED  

CHEM 202 # - General Chemistry for Scientists and Engineers II  
Units: 4  
A continuation of the introductory sequence on the principles of chemistry including thermodynamics, electrochemistry, chemical kinetics, nuclear chemistry, metals and non-metals, coordination compounds, and properties of inorganic, organic and biological molecules. Credit allowed in only one of CHEM 122 or 202.  
Enrollment Requirements: Prerequisite: CHEM 121 or CHEM 201 with a grade of 'B' or better; MATH 181 – AND – ENG 101 or ENG 102, or qualifying ACCUPLACER, ACT/SAT scores  
Term Offered: AS NEEDED  

CHEM 220 # - Introductory Organic Chemistry  
Units: 4  
A laboratory course which acquaints students with some of the fundamental principles of carbon chemistry and biological chemistry.  
Enrollment Requirements: Prerequisite: CHEM 121 Recommended: CHEM 122  
Term Offered: Spring and Fall  

CHEM 241 # - Organic Chemistry I  
Units: 3  
Intensive introduction to the chemistry of carbon and its functional groups, including the structure and behavior of its molecules.  
Enrollment Requirements: Prerequisite: CHEM 122 or CHEM 202  
Term Offered: Spring  

CHEM 241L # - Organic Chemistry for Life Sciences Lab I  
Units: 1  
Laboratory exercises in introductory organic chemistry. Stereo chemistry, separation and purification techniques, micro-scale organic reaction procedures.  
Enrollment Requirements: Prerequisite or corequisite: CHEM 241  
Term Offered: Spring  

CHEM 242 # - Organic Chemistry II  
Units: 3  
Continuation of CHEM 241, covering simple and polyfunctional compounds, with emphasis on synthesis of organic molecules.  
Enrollment Requirements: Prerequisite: CHEM 241  
Term Offered: Fall  

CHEM 242L # - Organic Chemistry for Life Sciences Lab II  
Units: 1  
Laboratory exercises in intermediate organic chemistry with continued emphasis on micro-scale organic reaction procedures. Introduction to the identification of organic compounds using chemical and instrumental means (qualitative analysis).  
Enrollment Requirements: Prerequisite or corequisite: CHEM 242  
Term Offered: Fall  

Cisco (CSCO)  

CSCO 120 # - CCNA Internetworking Fundamentals  
Units: 4  
Prerequisite: Strongly recommend minimum ACCUPLACER Reading Comprehension score of 74. This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. It uses the OSI and TCP layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced.  
Term Offered: Spring and Fall
**Clinical Lab Specialist (CLS)**

**CLS 151 # - Phlebotomy**

Study of blood collection methods with emphasis on patient preparation, order of draw, identification, sample collection, and selected diagnostic tests performed in the clinical laboratory. This course must be taken concurrently with CLS 152, Applied Phlebotomy. If certification as a Phlebotomy Technician by the American Society for Clinical Pathology and licensure as a Lab Assistant in Nevada is desired, CLS 153 must be taken in addition to CLS 151 and CLS 152.

Transferability: May not transfer towards an NSHE bachelor's degree

Term Offered: All Semesters

**CLS 152 # - Applied Phlebotomy**

A laboratory and classroom experience in which students obtain knowledge in and supervised practice of blood collection methods routinely used to collect patent samples for diagnostic testing. This course must be taken concurrently with CLS 151, Phlebotomy. If certification as a Phlebotomy Technician by the American Society for Clinical Pathology and licensure as a Lab Assistant in Nevada is desired, CLS 153 must be taken in addition to CLS 151 and CLS 152.

Transferability: May not transfer towards an NSHE bachelor's degree

Term Offered: All Semesters

**CLS 153 # - Phlebotomy Clinical Practicum**

A clinical rotation in blood collection and specimen processing procedures. If certification as a Phlebotomy Technician by the American Society for Clinical Pathology and licensure as a Lab Assistant in Nevada is desired, CLS 153 must be taken in addition to CLS 151 and CLS 152. The student must complete 90 hours of supervised clinical experience and 100 successful venipunctures including dermal.

Transferability: May not transfer towards an NSHE bachelor's degree

Term Offered: All Semesters

**College Transition Math (CTM)**

**CTM 86 # - College Transition Math**

The College Transition Math course is an intensive course designed to develop basic mathematical skills in arithmetic and pre-algebra as well as skills in note taking, studying and time management.

Transferability: May not transfer towards an NSHE bachelor's degree

Enrollment Requirements: Prerequisite: ACCUPLACER score of 34-79 in Arithmetic (AR) or 50-75 in Elementary Algebra (AG)

Term Offered: All Semesters

**Communications (COM)**

**COM 101 # - Oral Communication**

Term Offered: All Semesters

**COM 113 # - Fundamentals of Speech Communications**

Principles and theories of speech communication. Participation in public speaking and interpersonal communication activities.

Term Offered: Spring and Fall

**COM 215 # - Introduction to Group Communication**

An introductory course in communication as it functions within small task groups. Emphasis is on observation and analysis of actual small group behavior and on improvement of communication skills within the small group setting. Topics covered include leadership, conflict, norms, role structure, cohesiveness and decision-making. Course stresses student involvement in exercises, discussions and group projects.

Term Offered: Spring and Fall

**COM 285 # - Communication Disabilities and Film**

This course will cover popular films and their portrayal of individuals with communication disabilities, including how those portrayals promote both negative and positive images and how these images influence public perception of those with communication disabilities. The realities of communication disabilities will also be discussed.

Term Offered: Fall
Community Health Sciences (CHS)

CHS 101 # - Introduction to Community Health Sciences  Units: 3
This course introduces the basic tenets of community health. These include concepts of health, health promotion and disease prevention, risk factors affecting community health, health information and research, ethics and health programs.
Term Offered: All Semesters

CHS 102 # - Foundations of Personal Health and Wellness  Units: 3
This course introduces the basic tenets of personal health and wellness. These include concepts of health, diet and exercise, relationships, disease prevention and making personal choices that promote a healthy lifestyle.
Term Offered: All Semesters

CHS 200 # - Introduction to Public Health Biology  Units: 3
This course introduces the basic biological principles and processes of human disease, the public health burden of infectious and chronic diseases, and the management of diseases through public health practices.
Enrollment Requirements: Prerequisite: CHS 101 or BIOL 100 or higher
Term Offered: All Semesters

CHS 230 # - Introduction to Environmental Health  Units: 3
This course introduces students to the basic tenets of environmental health. These include concepts of environmental influences on disease, inter-relatedness of scientific disciplines with environmental health, emerging environmental issues, and environmental risk factors and exposure.
Enrollment Requirements: Prerequisite: CHS 101 or BIOL 100 or higher, CHEM 100 or higher, or ENV 100 or higher
Term Offered: All Semesters

Computer Aided Drafting and Design (CADD)

CADD 100 # - Introduction to Computer-Aided Drafting  Units: 3-4
Introduction to the basic capabilities of a Computer Aided Drafting (CAD) system. Includes appropriate terminology, basic system design, typical hardware and software and applicable commands. Students will draw and solve drafting problems on a CAD system.
Term Offered: Spring and Fall

CADD 105 # - Intermediate Computer-Aided Drafting  Units: 3-4
Continuation of CADD 100 (formerly DFT 131). The course will cover advanced 2-D CAD operations. Student will draw and solve graphic problems on a CAD system.
Enrollment Requirements: Prerequisite: CADD 100 and either DFT 100 or ADT 105
Term Offered: Spring and Fall

CADD 140 # - Technical Drafting I  Units: 3-4
Applies the knowledge gained in DFT 100 to manufacturing situations according to industrial standards. Computer Aided Drafting Techniques are used to solve advanced drafting problems.
Enrollment Requirements: Prerequisite: DFT 100 or CADD 100 or approval of instructor
Term Offered: Spring and Fall

CADD 141 # - Technical Drafting II  Units: 3-4
Introduces shop processes, detail working drawings, precision dimensioning, limits and tolerances, design layouts, shop notes, parts lists, assembly drawings, developments and intersections, and pictorial drawings.
Transferability: May not transfer toward an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CADD 140 or approval of instructor
Course may be taken concurrently with CADD 140

CADD 142 # - Technical Drafting III  Units: 3-4
Covers descriptive geometry and electronic drafting. Advances concepts introduced in CADD 141 through project oriented problem solving.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CADD 140 Course may be taken concurrently with CADD 140

CADD 198 # - Special Topics in CADD  Units: 1-6
Various short courses and experimental classes covering a variety of subjects. The course will be variable credit of one to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree

CADD 200 # - Advanced Computer Aided Drafting  Units: 3-4
An advanced course providing instruction and skill development on advanced features of CADD. Emphasis will be on Alternate Dimensioning Practices, Advanced Texting and Formatting, Advanced Dynamic Block Properties and an introduction to solid modeling.
Enrollment Requirements: Prerequisite: CADD 105 and CADD 140

CADD 210 # - CADD Project  Units: 3-4
Each student will complete a project that will increase his/her CAD skills.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CADD 100 and CADD 140

CADD 245 # - Solid Modeling and Parametric Design  Units: 3-4
This course will introduce the student to 3D and solid modeling on a CAD system. Students will draw and solve graphic problems on a CAD system.
Enrollment Requirements: Prerequisite: CADD 100 and CADD 105

CADD 255 # - CAD Customization I  Units: 3-4
A basic course in customizing AutoCAD software. By using lecture as well as hands-on exercises, you will learn how to make AutoCAD more efficient and productive on an individual basis (screen appearance, pull-down menus, accelerator keys, tool bar groups and dialog boxes).
Enrollment Requirements: Prerequisite: CADD 100 and CADD 105
Term Offered: Spring and Fall

CADD 256 # - CAD Customization II  Units: 3-4
A basic course in customizing AutoCAD software. By using lecture as well as hands-on exercises, you will learn how to make AutoCAD more efficient and productive on an individual basis (tablet menus, line types, multi-line types, hatch patterns, intro to AutoLISP and script files).
Enrollment Requirements: Prerequisite: CADD 100 and CADD 105

CADD 290 # - Internship in CADD  Units: 1-6
A course designed wherein students will apply knowledge and skills to real-on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed most Core and Major requirements and have a 2.5 G.P.A. Contact the instructor for the application, screening and required skills evaluation. Up to 8 semester hour credits may be earned on the basis of 75 hours of internship for 1 credit. May be repeated for up to 6 credits.
Transferability: May not transfer towards an NSHE bachelor's degree
CADD 299 # - Capstone/Assessment  Units: 1-3
This course will be a final assessment of each student and determine their preparedness for job marketability. Each student will write a resume, develop a portfolio, demonstrate growth on the program post-test and apply for graduation.
Transferability: May not transfer towards an NSHE bachelor's degree

CPE 201 # - Digital Design  Units: 3
This course will introduce you to the fundamentals of number systems, binary arithmetic, Boolean logic and logic functions. We study the minimization of logic functions as sums of products, combinational circuits, sequential (state) machines, registers and register transfer, counters, memory and programmable logic devices. You will receive hands-on experience in laboratory experiments.
Enrollment Requirements: Prerequisite: Math 95 or ACCUPLACER Math or higher or qualifying SAT, ACT, or Accuplacer score
Term Offered: Spring and Fall

Computer Information Technology (CIT)

CIT 107 # - Databases  Units: 1
This beginning course is designed for people who are at an entry level and want to learn a general overview of current office database software, as well as be productive with simple tasks. Topics include creating and using a database, querying a database, maintaining a database, sharing data among applications, and creating reports and forms.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

CIT 112 # - Network +  Units: 3
This course covers basic networking terminology, network components, transmission media and protocols. It focuses on the OSI model of network computing. Course serves as preparation for the CompTIA Network+ exam.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

CIT 114 # - IT Essentials  Units: 4
This course is a comprehensive overview of the primary operating systems and the support of hardware devices. The class will also demonstrate the integration between hardware and software. Emphasis is on installing, configuring, troubleshooting and upgrading a PC and working with computer users as an IT technician.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

CIT 128 # - Introduction to Software Development  Units: 4
Prerequisite: Highly Recommend Math 95 or ACCUPLACER Math placement of 52 or greater. This is the first course in programming and software development, and assumes no prior programming experience. The course introduces the basic syntax of a programming language and stresses the principles of good software engineering. The course also introduces HTML (the language of the Web), Web scripting (dynamic Web content), and SQL (Structured Query Language), which is used to access relational databases.
Transferability: May not transfer towards an NSHE bachelor's degree

CIT 130 # - Beginning Java  Units: 3
Java is a general-purpose, object-oriented programming language best known for, but not limited to, creating applets to run on the Internet. This course will include applet creation, but the primary emphasis will be on general purpose object-oriented programming.
Enrollment Requirements: Prerequisite: CIT 128 or permission of instructor
Term Offered: Fall

CIT 134 # - Beginning C# Programming  Units: 3
C# is a general-purpose, object-oriented programming language best known for its ability to create single-source solutions capable of running on a variety of devices (via the .NET platform). This course is the first semester of C# programming, and will include exposure to the .NET platform, but the primary emphasis will be on general-purpose object-oriented programming.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CIT 128 or permission of instructor
Term Offered: Fall

CIT 151 # - Beginning Web Development  Units: 3
This course introduces students to HTML5 and XHTML coding and Web page development. Topics cover creating and managing a Web site and developing/designing Web pages, including tables and forms. Students will also learn to enhance Web pages with cascading style sheets, multimedia, and JavaScript. Web Standards and best practices are emphasized. No prior HTML experience is necessary.
Enrollment Requirements: Prerequisite: CIT 128 or instructor approval
Term Offered: Spring and Fall

CIT 152 # - Web Script Language Programming  Units: 3
This course concentrates on client-side scripting. Client-side technologies are used to validate form data, as well as to provide ways of interacting with visitors. This class builds upon the information presented in CIT 151 - Beginning Web Development (HTML5, XHTML and JavaScript), and will also provide an introduction to server-side scripting.
Enrollment Requirements: Prerequisite: CIT 151 with a C or better
Term Offered: Fall

CIT 153 # - Introduction to Linux  Units: 3
An introduction to the Linux Operating System. Topics include Linux origin, file systems, user commands and utilities, graphical user interfaces, text editors, manual pages and shells. Students are expected to have basic computer literacy prior to enrolling in this course.
Term Offered: Spring and Fall

CIT 154 # - Linux System Administration  Units: 3
This course covers a variety of topics: installing and configuring a Linux Server, managing users and groups, securing the system and much more. Students should complete CIT 173 or have knowledge of Linux fundamentals before attending this course.
Term Offered: Spring and Fall

CIT 156 # - Linux Shell Programming  Units: 3
This course teaches the student how to customize the shell's configuration and create custom programs (shell scripts) that increase productivity by automating mundane tasks and extending the Linux command set.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CIT 173
Term Offered: Spring
CIT 180 # - Database Concepts and SQL  Units: 3
This class is targeted for people with little or no SQL knowledge. The objective of this course is to familiarize students with the database concepts that they will need to be effective programmers. Although this course utilizes MySQL because of its open source nature, the topics presented in this course are fundamental and should apply to all relational databases. Course accents hands-on learning in a Structured Query Language (SQL) and SQL procedures.

Enrollment Requirements: Prerequisite: CIT 128 or permission of instructor
Term Offered: Spring

CIT 198 # - Special Topics in CIT  Units: 1-6
Various short courses and experimental classes covering a variety of subjects in the general Computer and Information Technology area. This class will have variable credit of 1 to 6 depending on the course content and number of contact hours required. This course may be repeated for up to six credits.

Transferability: May not transfer towards an NSHE bachelor's degree

CIT 201 # - Word Certification Preparation  Units: 3
This course is designed to prepare students for the entry-level Microsoft Word certification exam. Students will create documents using formatting basics, tables, graphics, citations, mail merges, tables of contents, and custom features.

Term Offered: Spring and Fall

CIT 202 # - Excel Certification Preparation  Units: 3
This course is designed to prepare students for the entry-level Excel certification exam. Students will create and edit workbooks, format and manage worksheets using formulas, charts, pictures and shapes.

Term Offered: Spring and Fall

CIT 203 # - Access Certification Preparation  Units: 3
This course is designed to prepare students for the entry-level Access certification exam. Students will create database tables, queries, forms and reports, use database tools, import, export, and secure and share data.

Term Offered: Spring and Fall

CIT 204 # - Powerpoint Certification Preparation  Units: 2
This course is designed to prepare students for the entry-level PowerPoint certification exam. Students will create and edit presentations, use color schemes and templates, add graphics and produce multimedia slideshows.

Term Offered: All Semesters

CIT 211 # - MCITP/MCTS Windows Workstation OS  Units: 3-5
This course provides students with the knowledge and skills necessary to perform administration tasks in a peer to peer network or a workstation based system using Microsoft Windows. This course is suitable for people with no prior experience in system administration.

Term Offered: Spring and Fall

CIT 212 # - MCITP/MCTS Windows Server OS  Units: 3-5
This course is intended for new-to-product support professionals who will be responsible for installing and configuring Microsoft Windows Server products and for those who are on the Microsoft Certified Systems Administrator (MCSA) or Microsoft Certified Systems Engineer (MCSE) certification tracks. It provides the knowledge and skills necessary to install and configure Windows Server products to create file, print and terminal servers.

Enrollment Requirements: Prerequisite or corequisite: CIT 211
Term Offered: Spring and Fall

CIT 213 # - MCITP/MCTS Network Infrastructure  Units: 3-5
This course is designed to provide support professionals with the infrastructure knowledge and skills necessary to install and configure the Microsoft Windows Server and Microsoft Windows workstation operating system products.

Enrollment Requirements: Prerequisite: CIT 212
Term Offered: Fall

CIT 214 # - MCITP Application Infrastructure  Units: 3-5
This course is designed to provide students with the knowledge and skills necessary to install, configure, and administer Microsoft Windows server services. The course also focuses on implementing Group Policies and understanding the Group Policy tasks required to centrally manage users and computers. This course may be repeated.

Enrollment Requirements: Prerequisite: CIT 212
Term Offered: Spring

CIT 215 # - MCITP Active Directory  Units: 3-5
This course teaches a topic which is selected from Microsoft’s Windows electives used in its certification programs. Topics will be selected based on current standards in computer networking and industry demands in training. Topics will include, but not be limited to, active directory design, infrastructure design, security design, SQL design, implementation and administration, SNA implementation, Exchange Server design, implementation and administration, Proxy Server design, implementation and administration, as well as implementation of new utilities and programs as developed. This course may be repeated under different topics up to 50 times.

Term Offered: Spring and Fall

CIT 216 # - Server+  Units: 3
The Server+ course covers system hardware, software, storage, best practices in an IT environment, disaster recovery and troubleshooting. This class prepares the successful student to take and pass CompTIA’s Server+ certification which is a globally accepted certification.

Transferability: May not transfer towards an NSHE bachelor's degree

CIT 217 # - Security+  Units: 3
This is a basic IT security course that covers the current objectives of the CompTIA Security+ certification exam. Topics will include general security concepts, communications security, infrastructure security, basics of cryptography, and operational/organizational security.

Transferability: May not transfer towards an NSHE bachelor's degree

Enrollment Requirements: Prerequisite: CIT 112 or CSCO 120 or instructor approval
Term Offered: AS NEEDED

CIT 230 # - Advanced Java  Units: 3
This course builds upon the foundation constructed in Beginning JAVA. Since JAVA works behind the scenes to power Internet applications, this class will focus more heavily upon application development with an emphasis on client-side and server-side techniques. Example topics include, but are not limited to, Swing, Collections, Multimedia, Networking, JDBC, Servlets and JSP, JavaBean and XML.

Enrollment Requirements: Prerequisite: CIT 130 with a 'C' or better
Term Offered: Spring
CIT 234 # - Advanced C# Programming
This course is the second semester of C# programming, and will include exposure to the .NET platform, but the primary emphasis will be on some of the more advanced features of the language including: dynamic data structures, reusable data structures, and use of existing collections.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CIT 134 with a grade of 'C' or better
Term Offered: Spring
Units: 3

CIT 251 # - Advanced Web Development
This course prepares students to use server-side web technologies. The course covers the concepts, design and basic coding of advanced web applications, and is currently using PHP with MySQL Database.
Enrollment Requirements: Prerequisite: CIT 130 or CIT 134; CIT 151; and CIT 180 All completed with a C or better
Term Offered: Spring
Units: 3

CIT 257 # - Web Languages
This course explores a variety of emerging technologies that are used in sophisticated Web sites. Students will explore advanced Internet topics that may include dynamic Web site content, database integration, e-commerce, security, server-side configurations, scripting, common gateway interfaces and Web application development. This particular course extends web programming with the introduction of MTS's App Inventor, a visual programming environment used to create mobile applications for the Android smart phone operating system.
Enrollment Requirements: Prerequisite: CIT 152 or instructor approval
Term Offered: Spring
Units: 3

CIT 263 # - Project Management
The purpose of this course is to help students gain the knowledge required to effectively plan, implement and complete IT projects across the organization. Topics will include business practices, interpersonal skills and management process.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CS 135 with a 'C' or better; MATH 127 or higher, or qualifying ACT, SAT or Accuplacer score
Term Offered: Spring
Units: 3

CIT 271 # - Information Assurance II
This course focuses on understanding the layers of hardware and software control measures required to control the flow of traffic into and out of the network perimeter and provide an optimized perimeter defense. This course covers the content of the Security Certified Network Specialist (SCNS) certification.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CIT 217
Term Offered: All Semesters
Units: 3

CIT 290 # - Internship in CIT I
Work and study in participating and approved business organizations. Department approval required before acceptance of student into course. Department review of student's activities and development on the job required. This class will have variable credit of one to six depending on the work hours required. This course may be repeated.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED
Units: 1-6

CIT 291 # - Internship in CIT II
Available to students who have completed most Core and Emphasis requirements and have a 2.5 GPA. Work and study in participating and approved business organizations. Department approval required before acceptance of student into course. Department review of student's activities and development on the job required. This class will have variable credit of one to six depending on the work hours required. This course may be repeated.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED
Units: 1-6

CIT 298 # - Advanced Special Topics in CIT
Various short courses and workshops covering a variety of subjects in the advanced general Computer and Information Technology area. This class will have variable credit of one to six depending on the course content and number of contact hours required. This course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED
Units: 1-6

CIT 299 # - Independent Study in CIT
The student will do a special project involving a subject or skill related to the CIT curriculum. The project will be designed with a faculty advisor. This class will have variable credit of one to six depending on the course content and number of contact hours required. This course may be repeated. It may be substitute for another course with special permission of the Division. This course may repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED
Units: 1-6

Computer Science (CS)

CS 105 # - Introduction to Computing
Introduction to essential concepts and practices in computing. Design, assemble, and operate basic computer hardware and software in a collaborative environment.
Term Offered: Spring and Fall
Units: 3

CS 135 # - Computer Science I
This course is an introduction to modern problem solving and programming methods. Emphasis is placed on algorithm development. A special focus will be on procedural and data abstraction, emphasizing design, testing, and documentation.
Enrollment Requirements: Prerequisite: MATH 127 or MATH 128 or satisfactory test placement into MATH 181 May be taken concurrently with MATH 127
Term Offered: Spring and Fall
Units: 3

CS 151 # - Introduction to Cybersecurity
Introduction to fundamental concepts of cybersecurity, common cybersecurity vulnerabilities and threats, and techniques and tools for detecting and defending against cyber-attacks.
Term Offered: Spring and Fall
Units: 3

CS 202 # - Computer Science II
This course builds on the concepts of Computer Sciences I. Emphasis on problem solving and program development techniques. Typical numerical and non-numerical problems are examined. Design, implementation, and abstraction principles of elementary data structures are studied.
Enrollment Requirements: Prerequisite: CS 135 with a 'C' or better; MATH 127 or higher, or qualifying ACT, SAT or Accuplacer score
Term Offered: Spring and Fall
Units: 3
CS 219 # - Computer Organization
Introduction to organization and integration of computer components. Topics include: computer abstractions and performance, arithmetic operations, instruction set architecture, assembly programming, datapath, pipelining, memory hierarchy, I/O, and parallel architectures. Enrollment Requirements: Prerequisite: CS 202 or CPE 201
Term Offered: Spring and Fall

CS 252 # - Digital Forensics Fundamentals
Introduction to the basic computer and networking, forensic process, digital evidence collection, preserving the evidentiary chain, cybercrime statutes, and the legal aspects of search and seizure.
Term Offered: AS NEEDED

Computer and Office Technology (COT)

COT 101 # - Computer Keyboarding I
This course involves developing basic skills for touch typing keyboard proficiency on computers. Elementary word processing functions are introduced. Development of speed and accuracy skills are an integral part of this course. Basic computer operations are introduced for using the keyboarding software.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

COT 110 # - Business Machines
This course develops skills using electronic printing calculators. The skills are applied to business math problems which include: touch addition of whole numbers, multiplication, division, fractions and decimals, percentages, markdown and markup, interest, payrolls, and installment buying.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

COT 198 # - Special Topics in COT
Various short courses and experimental classes covering a variety of subjects. The course will be variable credit of one-half to six depending on the course content and number of hours required. This course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

COT 207 # - Business Applications on the Internet
This course will cover the use of the internet for business and entrepreneurial purposes. Topics include integration of the Microsoft Office Suite with the World Wide Web, daily business practices and strategies online, and intranet/internet site development and technologies.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: IS 101 or the equivalent
Term Offered: Fall

COT 217 # - Office Publications
This course introduces students to basic techniques of desktop publishing and Web page publishing in an office. Students will learn how to plan and design a publication, format text, work with art, use styles, and work with multiple pages. The course will also cover the creation and maintenance of simple Web sites, including using links, tables, frames, and forms.
Enrollment Requirements: Prerequisite: IS 101 or the equivalent
Term Offered: Spring

COT 240 # - Executive Office Procedures
Administrative professionals must possess specific skills to succeed in and adjust to a diversified workforce with ever-emerging technologies. Topics covered in this course prepare students in today's dynamic workplace and include: workplace mail, records management, telecommunications (including technology and etiquette), written and verbal business communication, event planning, travel arrangements, skills for multitasking and prioritizing, proofreading skills, business ethics, and customer service.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: BUS 106 or BUS 108; or Accuplacer/WritePlacer minimum score of 6; or with instructor approval
Term Offered: Fall

COT 290 # - Internship in Computer/Office Technology
This real-world curriculum will reinforce the skills and knowledge acquired in the Administrative Professional program. Students will participate in on-the-job work experiences to satisfy learning objectives designed by a company official and faculty sponsor. Up to six semester credit hours may be earned on the basis of 75 hours of work experience per credit. The course may be repeated for up to six credits. Contact TMCC's Internship Coordinator to begin the application process and degree evaluation prior to contacting the department for approval and obtaining a faculty sponsor.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Construction Management (CONS)

CONS 101 # - Introduction to Construction Technology
This course is designed to give students with the ambition of careers in the construction industry the foundation required to be successful in further study in all areas of the industry. Topics include: basic safety, basic math, introduction to hand tools, introduction to power tools, introduction to blueprints, basic rigging. This course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

CONS 111 # - Commercial Building Codes
A basic course designed to introduce current building codes, with emphasis placed on the development and proper use of the code. Students will learn the format of the building code and develop an understanding of the provisions contained therein.
Transferability: May not transfer towards an NSHE bachelor's degree

CONS 120 # - Print Reading and Specification
A study of the fundamental language utilized in construction drawing. Stresses the reading and interpretations of representative construction prints.
Transferability: May not transfer towards an NSHE bachelor's degree

Courses are designed to provide practical work experience related to the student's educational program. Under the supervision of experienced personnel at a local business or agency, students complete specific occupational objectives developed by program faculty and the employer. Faculty will monitor the student's progress through direct contact, site visitsations, student reports and employer feedback.

Transferability: May not transfer towards an NSHE bachelor's degree
Core Humanities (CH)

CH 201 # - Ancient and Medieval Cultures  Units: 3
Critical survey of Near East, Greece, Rome and Middle Ages; origins of Judaism, Christianity, Islam, philosophy and science; concepts like heroism, justice, and romantic love.
Enrollment Requirements: Prerequisite: ENG 102 or ENG 114; or completion of CH 202 or CH 203 with a 'D' or better
Term Offered: All Semesters

CH 202 # - The Modern World  Units: 3
Analyzes Europe's legacy in shaping world ideas, institutions and cultures. Includes Renaissance; Reformation; Enlightenment; Romanticism; development of science and industry; political revolutions; colonialism; postcolonialism; globalization.
Enrollment Requirements: Prerequisite: ENG 102 or ENG 114; or completion of CH 201 or CH 203 with a 'D' or better
Term Offered: All Semesters

CH 203 # - American Experiences and Constitutional Change  Units: 3
Identities, ideas, and institutions from pre-contact to present, emphasizing civil rights, liberty, individualism, federalism, environmentalism, urbanization, industrialization, and cultural diversity. Satisfies the U.S. and Nevada Constitution requirements.
Enrollment Requirements: Prerequisite: ENG 102 or ENG 114; or completion of CH 201 or CH 202 with a 'D' or better
Term Offered: All Semesters

Counseling and Educational Psychology (CEP)

CEP 254 # - Biopsycho-Social Factors in Addiction  Units: 3
Theories of alcohol and other drug addictions with emphasis on the signs and symptoms of problematic use, as well as methods of assessment and intervention.
Enrollment Requirements: Prerequisite: CPD 116 or permission of instructor
Term Offered: AS NEEDED

CEP 255 # - Developmental Theories-Prevention/Education Strategies  Units: 3
Impact of addiction on development in children and families, prenatal addiction and fetal alcohol syndrome, and current prevention and education models and services.
Enrollment Requirements: Prerequisite: CPD 116
Term Offered: AS NEEDED

Counseling and Personal Development (CPD)

CPD 116 # - Substance Abuse-Fundamental Facts and Insights  Units: 3
This course covers the following topics related to substance abuse in our society: identification of substances, reasons for abuse of alcohol and of drugs, signs and symptoms of substance abuse, and approaches and techniques recognized as effective in substance abuse counseling. It is recommended that students take the BADA workshop Classification Of Alcohol in addition to this course for BADA certification. College credit can be given for the workshop.
Term Offered: Spring and Fall

CPD 120 # - Treatment Planning and Case Management  Units: 2
This course is structured to provide each student with a working knowledge and understanding of treatment planning from intake to aftercare. Discusses data acquisition, the importance of maintaining up-to-date counseling goals and objectives, documentation of the therapeutic process, and federal and state requirements. It is recommended that students take the BADA workshop Confidentiality in addition to this course for BADA certification. College credit can be given for the workshop.
Enrollment Requirements: Prerequisite: CPD 116
Term Offered: Spring and Fall

CPD 123 # - Career Choices and Changes  Units: 2
A course in life and career planning, offered to help students make informed occupational choices. The course includes self-assessment (personal values, abilities, and interests), opportunities for research into different careers, and training in proper decision-making and goal-setting procedures.
Term Offered: AS NEEDED

CPD 291 # - Substance Abuse Practicum I  Units: 3
To be taken in student's final semester. If taken earlier, permission of the department is required. Substance abuse counseling work experience. The student works in a counseling facility eight hours a week under the supervision of a facility employee to gain practical work experience.
Enrollment Requirements: Prerequisite: CPD 116 and CPD 120
Term Offered: AS NEEDED

Criminal Justice (CRJ)

CRJ 101 # - Introduction to Criminal Justice I  Units: 3
History, philosophy and functions of criminal justice system, law enforcement, criminal law and constitutional rights as they affect system functioning.
Term Offered: All Semesters

CRJ 102 # - Introduction to Criminal Justice II  Units: 3
Adjudicatory process, adult and juvenile corrections functions within the criminal justice system.
Term Offered: All Semesters

CRJ 103 # - Communication Within the Criminal Justice Field  Units: 3
This course is part of the Northern Nevada Law Enforcement Academy. It prepares the student to communicate within the criminal justice and law enforcement systems through report-writing, non-verbal communication, public speaking, interviewing and interrogation, and courtroom testimony. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Students must be accepted to the Northern Nevada Law Enforcement Academy

CRJ 104 # - Introduction to Administration of Justice  Units: 3
American criminal justice system, its development, components, and processes; includes consideration of crime and criminal justice as a formal area of study.
Term Offered: All Semesters

CRJ 106 # - Introduction to Corrections  Units: 3
History and analysis of development in corrections, recent innovations and future correctional systems structure and programs.
Term Offered: Spring and Fall
CRJ 110 # - Introduction to Nevada Law Enforcement  
Units: 3  
This course examines the law enforcement system in Nevada. It will also include an overview of the major criminal justice subsystems: police, prosecution, defense, courts, corrections, and juvenile justice.  
Transferability: May not transfer towards an NSHE bachelor’s degree  
Enrollment Requirements: Students must be accepted to the Northern Nevada Law Enforcement Academy

CRJ 125 # - Legal Careers and Law Schools  
Units: 1  
Introduction to careers in law; preparing and applying for law school.  
Term Offered: Spring and Fall

CRJ 126 # - Legal Research and Methods  
Units: 1  
Exposure to American legal thought, methods of reasoning, and research with a focus on identifying legal issues and developing basic legal research skills.  
Term Offered: Spring and Fall

CRJ 127 # - Legal Writing  
Units: 1  
Introduction to the process, structure and forms of legal argument and writing and citation skills.  
Term Offered: Spring and Fall

CRJ 155 # - The Juvenile Justice System  
Units: 3  
Decision-making processes, theories of delinquent behavior, court decisions and problems affecting the administration of justice during childhood and adolescence. Transfers as an elective to UNR.  
Term Offered: Spring

CRJ 162 # - Investigative Photography I  
Units: 3  
A course covering the photographic processes and their use in police, fire and security services. An elemental knowledge of photography is required.  
Transferability: May not transfer towards an NSHE bachelor’s degree

CRJ 163 # - Investigative Photography II  
Units: 3  
A course covering advanced investigative photographic techniques and the use of digital photography.  
Enrollment Requirements: Prerequisite: CRJ 162  
Term Offered: Spring and Fall

CRJ 164 # - Introduction to Criminal Investigation  
Units: 3  
Fundamentals of investigation, crime scene search and recording; collection and presentation of physical evidence, scientific aids, sources of information, case preparation, interviews and interrogations; follow-up.  
Term Offered: Spring and Fall

CRJ 198 # - Special Topics in Criminal Justice  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects. The class will be a variable credit of one-half to six credits depending on the course content and number of hours required. The class may be repeated for up to six hours of credits.  
Transferability: May not transfer towards an NSHE bachelor’s degree

CRJ 211 # - Police in America: An Introduction  
Units: 3  
Historical development, roles, socialization and problems of police work. Transfers to UNR as CJ 211 Police in America.  
Term Offered: All Semesters

CRJ 214 # - Principles of Police Patrol Techniques  
Units: 3  
Identification of community problems which require prevention, suppression or control through the basic methods and techniques of police patrol. Special attention to the responsibilities of officers in varying patrol situations such as foot beats, one-person cars, K-9 corps, and/or tactical units. Techniques of observation and perception. Recognition of police hazards; their evaluation and proper police patrol action.  
Term Offered: Spring and Fall

CRJ 215 # - Probation and Parole  
Units: 3  
Survey of the probation and parole system of the United States through development of the present system. Shows different systems within the United States, executive clemency, parole, rights of prisoners, probationers and parolees, treatment strategies, administrative aspects, and correctional and professional aspects of the parole and probation officer.  
Term Offered: Spring and Fall

CRJ 222 # - Criminal Law and Procedure  
Units: 3  
Integrated overview of the elements of substantive criminal law and the fundamental concepts of due process and fairness underlying American criminal procedures.  
Enrollment Requirements: Prerequisite: CRJ 101 or CRJ 104  
Term Offered: All Semesters

CRJ 225 # - Criminal Evidence  
Units: 3  
Origin, development, philosophy and constitutional basis of evidence; constitutional and procedural considerations affecting arrest, search and seizure; kinds of degrees of evidence and rules governing admissibility; judicial decisions interpreting rights and case studies.  
Term Offered: Spring and Fall

CRJ 226 # - Preventions and Control of Delinquency  
Units: 3  
Survey and evaluation of police programs designed to prevent juvenile delinquency. Techniques of enforcement relative to the control of delinquency; investigation procedures in individual cases of delinquency and methods of referral to related agencies.  
Term Offered: Fall

CRJ 234 # - Introduction to the Courts and American Legal System  
Units: 3  
Introduction to the role and organization of the judicial branch of government, its central actors, and processes.  
Term Offered: Spring and Fall

CRJ 265 # - Introduction to Physical Evidence  
Units: 3-4  
An overview of the forensic sciences. The role of science in the utilization of physical evidence in matters of criminal and civil law. Emphasis is placed on the value and assistance of modern scientific knowledge to the investigation. Includes laboratory demonstrations and direct experience examining physical evidence. Three hours lecture and three hours lab per week.  
Term Offered: Spring and Fall

CRJ 270 # - Introduction to Criminology  
Units: 3  
The course includes a brief history of the theories of criminology, the police, and the offender, with particular emphasis given to criminal career perspectives, detailing from a sociological standpoint, types of offenders who commit specific offenses.  
Term Offered: Spring and Fall

CRJ 285 # - Selected Topics in Criminal Justice  
Units: 1-6  
Selected topics in criminal justice. A course intended to provide flexibility in the criminal justice/correction program. Course subject will vary and cover critical and current issues in criminal justice.  
Transferability: May not transfer towards an NSHE bachelor’s degree

CRJ 289 # - Law and Justice  
Units: 3  
Survey of law and justice from a multi-disciplinary perspective with special emphasis on comparative justice systems, race, ethnicity, and gender.  
Term Offered: All Semesters
CRJ 290 # - Internship in Criminal Justice  Units: 1-8
Work with selected law enforcement agencies, correctional agencies, or security organizations; scheduling to occur during the final semester for the student in the program.
Transferability: May not transfer towards an NSHE bachelor's degree

CRJ 299 # - Special Topics  Units: 1-3
Introduction to a selected major topic or issue of importance for students in law enforcement, courts or corrections.
Enrollment Requirements: Prerequisite: CRJ 101 or CRJ 104
Term Offered: Spring and Fall

Culinary Arts (CUL)  Units: 2-6

CUL 100 # - Sanitation/HACCP
Course covers all aspects of food service sanitation, but focuses on causes and prevention of food-borne illness and the implementation of HACCP quality assurance systems. Instruction includes lecture, demonstrations and special projects. Each student takes the National Registry Food Service Manager Certification exam. Passing this confers both NRA (Nevada Restaurant Association) and Washoe County Food Service Manager certification.
Term Offered: Spring and Fall

CUL 101 # - Sanitation/HACCP (CFPM)  Units: 1
Passing this course confers both NRA (Nevada Restaurant Association) and Washoe County Health Department requirements to acquire a certification of Certified Food Protection Manager (CFPM). Course covers all aspects of food service sanitation, but focuses on causes and prevention of food-borne illness and the implementation of HACCP quality assurance systems. Instruction includes lecture, demonstrations, and special projects.
Term Offered: Spring and Fall

CUL 105 # - Basic Skills Development  Units: 3
Entry level course provides students with basic culinary skills to enroll in kitchen or baking production classes. Competencies include culinary history, professionalism, basic safety and sanitation, standardized recipe use and costing, basic nutrition and menu planning, introduction to ingredients, use of commercial kitchen equipment and hand tools, basic knife cuts and raw ingredient preparation. Students with previous culinary skills or training may challenge prior to the start of the semester.
Enrollment Requirements: Prerequisite: MATH 96 or equivalent/qualifying test scores Prerequisite or Corequisite: ENG 101 or equivalent /qualifying test scores
Term Offered: Spring and Fall

CUL 106 # - Understanding Culinary Techniques I  Units: 6
Course teaches introductory hot food cookery with emphasis on product utilization, cost effectiveness, timing and presentation. Students practice traditional and modern cooking techniques and good nutrition. Students will receive hands-on practice utilizing moist and dry heat cooking methods. Students prepare sauces, soups, starches, vegetables and center of the plate entrees. Some menus include practical baking of quick breads and home baked desserts. Chef instructors make frequent demonstrations to reinforce and amplify recipes and lectures.
Enrollment Requirements: Prerequisite: CUL 100, CUL 105, and ENG 101 or ENG 113 or equivalent/qualifying test scores
Term Offered: Spring and Fall

CUL 108 # - Understanding Culinary Techniques II  Units: 6
Continuation of CUL 106 covering the remainder of the portions of text not covered in CUL 105 or CUL 106. Instruction and kitchen expectations become more intense as students hone their skills on more difficult techniques and recipes. They will expand their repertoire in the preparation of sauces, proteins, starches, vegetables and fruits. Students receive a hands-on practical introduction to Garde Manger and the Bakeshop. Techniques and lectures augmented and reinforced by chef demonstrations.
Enrollment Requirements: Prerequisite: CUL 106
Term Offered: Spring and Fall

CUL 114 # - Buffet Catering  Units: 3
An introduction to on and off premise catering. Students learn professional techniques used by caterers to developing and market services. They develop menus, practice writing proposals and contracts, plan and execute functions. In the kitchen students prepare typical caterer foods such as fruit and vegetable mirrors, canapes, hors d'oeuvres, tea sandwiches and buffet sweets. Students gain experience as they work with phyllo dough, puff pastry, eclair paste, pie and tart dough, savory butters and fillings.
Enrollment Requirements: Prerequisite: CUL 106
Term Offered: Fall

CUL 125 # - Principles of Baking  Units: 3
Students learn fundamentals of bread and pastry making, with the emphasis on American products. Included are: baking ingredient properties, function and use of equipment, understanding bakery procedures, recipe conversion, proper storage and sanitation. Students produce home style products including pies, cookies, quick breads, yeast leavened goods, cakes and icings. Elementary cake decoration techniques are introduced; however, emphasis is on production of quality hand-crafted products.
Enrollment Requirements: Prerequisite: CUL 106
Term Offered: Fall

CUL 130 # - Garde Manger  Units: 3
Course introduces students to the three main items of the cold kitchen; reception foods, canapes and hors d'oeuvres and buffet arrangements. Students gain hands-on experience in the production of pate, galantines, terrines, salads and other foods that enhance buffets. Students will also be introduced to the use of aspic, techniques of food sculpture and ice carving, plus modern ways of decorating and arranging platters.
Enrollment Requirements: Prerequisite: CUL 106
Term Offered: Spring

CUL 170 # - Retail Deli and Bakery  Units: 3
Course designed to teach professional food preparation and bake-off techniques applicable in a variety of food service environments - supermarket bakery and deli departments, convenience stores, cafeteria's, fast food outlets and contract management companies. Structured to develop culinary skills while utilizing convenience foods and frozen bakery products. Emphasis on equipment use, proper handling and proofing of frozen dough, finishing and packing products, assembling sandwiches and platters and product display. Most of the course oriented toward working with convenience foods and bake-off techniques.
Enrollment Requirements: Prerequisite: CUL 106 and CUL 125
Term Offered: Spring

CUL 195 # - Selected Topics in Culinary Arts  Units: 1-6
Course designed to bring students current topical information on problems and/or issues, skills and/or techniques in various areas of food service. This course may be repeated for up to six credits.
Term Offered: Spring and Fall
**CUL 198 - Special Topics in Culinary Arts**  
Units: 0.5-6  
Various short courses and workshops covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.  
Term Offered: Spring and Fall

**CUL 200 - Aromatics/Restaurant Experience**  
Units: 4  
Feed the folks who visit the Golden Frog, TMCC's student run restaurant. Students develop team skills as they plan and implement menus, develop and cost recipes, cook and serve the food and wash the dishes. Enhance dishes by discovering seasonings and their characteristics. This is a realistic experience in running a restaurant, meeting time deadlines and satisfying customers. It gives students a look at running a successful restaurant while developing speed in the kitchen.  
Enrollment Requirements: Prerequisite: CUL 108  
Term Offered: Spring

**CUL 210 - American Regional Cuisine**  
Units: 3  
Through lecture and hands-on cooking, students explore seven American regional cuisines and their local food specialties - New England, Middle Atlantic, Deep South, Texas and Southwest, Midwest and Mountain States, Pacific Northwest, California and Hawaii. Authentic recipes and ingredients will be utilized. Correct cooking techniques and authentic traditional seasonings are emphasized.  
Enrollment Requirements: Prerequisite: CUL 108  
Term Offered: Fall

**CUL 220 - International Cuisine**  
Units: 3  
Through lecture and hands-on cooking, students explore seven important classical and trendy cuisines and some of their food specialties - French, German, Italian, Mexican, Japanese, Chinese and Caribbean. Authentic recipes and ingredients will be utilized. Correct cooking techniques and authentic traditional seasonings are emphasized.  
Enrollment Requirements: Prerequisite: CUL 108  
Term Offered: Spring

**CUL 225 - Advanced Baking**  
Units: 3  
An advanced course, utilizing CUL 125 principles with emphasis on more sophisticated American and European goods such as layered dough, baked custards, gelatinization, and restaurant type desserts. Students are expected to continue development of skills for producing quality products.  
Enrollment Requirements: Prerequisite: CUL 125  
Term Offered: Fall

**CUL 230 - Pastry Arts**  
Units: 3  
Course focus is on European style pastries and multi-portion desserts. Students gain experience making sponge cakes, butter creams, puff pastry, glazes and fillings, meringue, marzipan, chocolate and eclair dough. The emphasis on the production of fine pastry such as tea cookies, petit fours, chocolates and truffles, individual French pastries, torted and gateau.  
Enrollment Requirements: Prerequisite: CUL 125 and CUL 225

**CUL 245 - The Business Chef**  
Units: 3  
Course is intended to give the student the tools needed in today's tight labor market for advancement in the food service industry. Chefs, sous chefs, food managers, as well as owners, must know and understand food service math and the importance of the bottom line to an operations success. Students will be exposed to such topics as organizing a business's food costs, purchasing, equipment selection, facilities design, scheduling staff, calculate cost percentages, and breakeven points.  
Enrollment Requirements: Prerequisite: MATH 96 and ENG 101 or equivalent/ qualifying test scores  
Term Offered: Spring

**CUL 250 - Saucier**  
Units: 3  
This course teaches that sauces are created through patience, diligence and study and encourages the use of top quality ingredients. Students learn both classical and modern methods of sauce making and learn to use each sauce in at least one dish while learning other uses for the same sauce.  
Enrollment Requirements: Prerequisite: CUL 106  
Term Offered: Fall

**CUL 295 - Work Experience in Culinary Arts**  
Units: 1-6  
Students will apply knowledge and skills to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed most core and major requirements and have a 2.5 G.P.A. Contact the Program Coordinator at 775-674-7917 for the application, screening and required skills evaluation. Up to six credit hours may be earned on the basis of 75 hours of internship for one credit. This course may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).  
Enrollment Requirements: Prerequisite: CUL 108 and CUL 125 and department approval  
Term Offered: Spring and Fall

**Dance (DAN)**

**DAN 101 - Dance Appreciation**  
Units: 3  
This course is an exploration of the world's first and most universal art form. Various forms of multicultural ethnic dance forms, plus an overview of popular dance forms, are explored through the use of lecture, video and demonstration. Satisfies the Diversity requirement for TMCC. Satisfies UNR Fine Arts core curriculum and applies as a general elective at UNLV.  
Term Offered: Spring and Fall

**DAN 132 - Jazz Dance (Beginning)**  
Units: 1  
Beginning techniques of jazz dance. May be repeated to a maximum of four credits.  
Term Offered: Spring and Fall

**DAN 133 - Jazz Dance (Beginning/Intermediate)**  
Units: 1  
Beginning/Intermediate work in the techniques of jazz dance. Repeatable up to four credits.  
Enrollment Requirements: Prerequisite: DAN 132 or instructor approval  
Term Offered: Spring and Fall

**DAN 135 - Ballet, Beginning**  
Units: 1  
Beginning techniques of ballet. May be repeated to a maximum of four credits.  
Term Offered: Spring and Fall
DAN 136 # - Ballet, Beginning/Intermediate  Units: 1
Beginning/Intermediate work in the techniques of ballet. Repeatable up to four credits.
Enrollment Requirements: Prerequisite: DAN 135 or instructor approval
Term Offered: Spring and Fall

DAN 138 # - Modern Dance, Beginning  Units: 1
Beginning techniques of modern dance. May be repeated to a maximum of four credits.
Term Offered: Spring and Fall

DAN 139 # - Modern Dance, Beginning/Intermediate  Units: 1
Beginning/Intermediate work in the techniques of modern dance. Repeatable up to four credits.
Enrollment Requirements: Prerequisite: DAN 138 or instructor permission
Term Offered: Spring and Fall

DAN 144 # - Tap Dance (Beginning)  Units: 1
Beginning, basic techniques of tap dance. Repeatable up to four credits.
Term Offered: Spring and Fall

DAN 145 # - Intermediate Tap Dance  Units: 1
Intermediate Tap Dance is designed to reinforce the basic tap dance skills introduced in Beginning Tap Dance and to introduce students to new tap dance techniques. May be repeated for up to four credits.
Enrollment Requirements: Prerequisite: DAN 144
Term Offered: Spring and Fall

DAN 188 # - Choreography I: Improvisation for Composition  Units: 2
Practical application of the techniques of improvisation for its use in composition.

DAN 232 # - Jazz Dance (Intermediate)  Units: 1
Intermediate work in the techniques of jazz dance.
Enrollment Requirements: Prerequisite: DAN 133 or instructor approval
Term Offered: Spring and Fall

DAN 235 # - Ballet (Intermediate)  Units: 1
Ballet, Intermediate work in the techniques of ballet. Repeatable up to four credits.
Enrollment Requirements: Prerequisite: DAN 136 or instructor approval
Term Offered: Spring and Fall

DAN 236 # - Ballet (Intermediate/Advanced)  Units: 1
Ballet (Intermediate/Advanced) work in the techniques of ballet. Repeatable up to four credits.
Enrollment Requirements: Prerequisite: DAN 235 or instructor approval
Term Offered: Spring and Fall

DAN 238 # - Modern Dance Intermediate  Units: 1
Intermediate techniques of modern dance. May be repeated to a maximum of four credits.
Enrollment Requirements: Prerequisite: DAN 138 or equivalent
Term Offered: Spring and Fall

DAN 239 # - Modern Dance, Intermediate/Advanced  Units: 1
Intermediate/Advanced work in the techniques of modern dance. Repeatable up to four credits.
Enrollment Requirements: Prerequisite: DAN 238 or equivalent experience
Term Offered: Spring and Fall

DAN 244 # - Tap Dance (Intermediate)  Units: 1
Intermediate work in the techniques of tap dance. Repeatable up to four credits.
Enrollment Requirements: Prerequisite: DAN 145 or instructor approval
Term Offered: Spring and Fall

DAN 281 # - Dance Performance  Units: 1
Learning of repertory and new choreography leading to formal and informal performance opportunities. Repeatable up to four credits.
Enrollment Requirements: Prerequisite: Audition and/or approval of instructor

DAN 287 # - Concert Dance Company  Units: 1
Professionally structured rehearsal of repertory and new choreography in preparation for formal performances, educational outreach programs and possible touring. May be repeated for up to four credits.

DAN 288 # - Choreography II: Elements of Dance Composition  Units: 3
Elements of dance composition including experience in spatial relationships, dynamics, movement qualities and design. Exploration of these elements through movement studies.
Enrollment Requirements: Prerequisite: DAN 188

DAN 289 # - Independent Study: Dance  Units: 1-3
Tutorial study of special projects in Dance. A student submits a detailed project description and the objectives and learning outcomes specific to the project are formulated by the instructor and student.
Enrollment Requirements: Prerequisite: Approval of instructor

Dental Assisting (DA)

DA 110 # - Orientation to Dental Assisting  Units: 1-3
The legal, ethical, moral and professional responsibilities of dental personnel in the practice of dentistry. Personal requirements, professional conduct, interpersonal relationships, methods of acquiring and training certification of the dental assistant, recognition of dental forms, and an introduction to dental and medical terminology. One (1) hour of class time per week.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Fall

DA 111 # - Dental Radiography I  Units: 3
Production, characteristics and biologic effects of radiation; function, components and operation of the X-ray unit; radiation protection and monitoring; components and care of X-ray film; chemistry and techniques associated with X-ray film and the developing solutions. Review of anatomical landmarks, X-ray placement, identification and correction of radiographic errors; recording pertinent data; specialized procedures and techniques for pediatric dentistry. The bisecting technique adapted to an adult, pediatric manikins and human patients.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Fall

DA 112 # - Dental/Head and Neck Anatomy  Units: 3
The anatomy and physiology of the head and neck are included. Embryology, histology, tooth morphology, occlusion, and periodontal tissues are studied with special emphasis on tooth forms. Developmental and structural defects involving the oral cavity and teeth. Three (3) hours lecture are required per week.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Fall
DA 115 # - Dental Health Education Units: 1
Principles of preventive dentistry to include: nutritional physiology, essentials and counseling effect of nutrition on dental health; epidemiology, etiology and prevention of dental disease; design and management of a plaque control program and additional preventive measures, i.e., fluoride and sealant utilization. One (1) hour of class time per week is required.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Fall

DA 116 # - Preclinical Dental Science Units: 1.5
Principles of microbiology, disease transmission, the universal numbering system, dental clinical charting with geometric and anatomical representations, periodontal charting, local anesthetic, vital signs and emergency prevention are discussed in depth. An introduction to body systems; respiratory and circulatory as they impact dental care delivery are presented.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Fall

DA 117 # - Dental Materials and Techniques I Units: 2
An in-depth, comprehensive course of the properties, techniques and manipulation of dental materials used in operative dentistry. The dental materials discussed are bases and varnishes, amalgam and components, aesthetic and posterior composites, cements and impression materials. One two-hour lecture each week.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Fall

DA 119 # - Dental Chairside Procedures Units: 4
A course designed for the development of dexterity and professional competencies needed to assist in four and six handed dentistry procedures utilized in general dentistry are taught to laboratory proficiency. Demonstration of proper posture and form at chair side, positive communication, sterilization and disinfecting, adherence to infection control protocols and OSHA requirements of instrument names, use and care are stressed. Two hours of lecture and eight (8) hours laboratory are required each week.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Fall

DA 121 # - Dental Radiography II Units: 2-3
The intraoral paralleling technique with its variables; evaluation of film quality; recognition of anomalies with differential tissue densities; preliminary film interpretation for charting and tray setup; specialized procedures for endodontia, the edentulous and geriatric patient; panoramic radiography lateral jaw and skull surveys; also legal considerations.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Spring

DA 122 # - Clinical Dental Science Units: 2
A continuation of DA112 including the study of oral pathology, pharmacology, medical emergencies. Also included is an introduction of body systems: muscular, skeletal, endocrine, exocrine and reproductive systems.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Spring

DA 123 # - Practice Management and Procedures Units: 1-3
Principles of dental office routine, management of dental office supplies, team responsibilities, receptionist and secretarial duties, dental bookkeeping, appointment control, laboratory prescriptions, letter writing, collections, telephone technique and filing. Employment interview techniques, employee rights and benefits, and an introduction to computer application in a dental office.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Spring

DA 125 # - Supervised Clinical I Units: 4
A continuation of DA119 elevating laboratory proficiency to clinical proficiency in accordance with the State Dental Practice Act during two (2) rotations in selected private dental practices. One hour lecture and sixteen (16) clinical experience hours per week are required.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Spring

DA 127 # - Dental Materials and Lab Techniques II Units: 2
A practical, hands-on study of dental laboratory equipment safety and utilization of materials such as plaster/stone/die, model trimming, custom tray acrylic, aluminum and acrylic temporaries, simple orthodontic appliances and prosthetic cleaning and polishing.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: Spring

DA 135 # - Supervised Clinical II Units: 5
A continuation of DA 125 with clinical training in dental specialties, i.e., endodontics, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and an overview of oral pathology and dental public health. Thirty (30) hours of lecture and 128 hours of clinical experience are required.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: SUMMER

DA 137 # - Specialized Dental Assisting Units: 1
An introduction to dental assisting as it relates to the specialties in dentistry, orthodontics, pedodontics, oral surgery, periodontics, endodontics, and prosthodontics. A survey of the role of the dental assistant in public health dentistry is included.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program
Term Offered: SUMMER
DA 198 # - Special Topics Dental Assisting  Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor’s degree

DA 285 # - Selected Topics in Dental Assisting  Units: 1-6
A course designed to assist the working dental assistant in updating, reviewing and increasing proficiency in a variety of dental assisting areas. One (1) hour class time per week for each credit is required.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: Acceptance to the Dental Assisting Program

DA 290 # - Internship in Dental Assisting  Units: 1-8
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening and required skills evaluation. Up to 8 semester hour credits may be earned on the basis of 100 hours of internship for 1 credit. May be repeated for up to 8 credits.
Transferability: May not transfer towards an NSHE bachelor’s degree

Dental Hygiene (DH)

DH 102 # - Oral Biology  Units: 4
Histology and embryology of oral structure formation. Clinical recognition of normal oral structures, study of physiological and structural functions of the teeth, head and neck and supporting tissues.
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Fall

DH 103 # - Head and Neck Anatomy  Units: 2
Anatomy of the head and neck with emphasis on structure and physiology of the oral cavity.
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Fall

DH 104 # - Dental Hygiene I  Units: 3
Must be taken in sequence in dental hygiene curriculum. Introduction to dental hygiene practice. Use and care of instruments, medical and dental histories, appointment procedures and clinical operations. (2 hours lecture/discussion)
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Fall

DH 105 # - Intro to Clinical Practice  Units: 2
Must be taken concurrently with DH 104. Clinical application of diagnostic, preventive and therapeutic procedures utilized in patient care by a dental hygienist.
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Fall

DH 107 # - Legal and Ethical Implications in Dental Hygiene  Units: 1
Introduction to professional, legal and ethical concepts in Dental Hygiene. (1 hour lecture/discussion)
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Spring

DH 110 # - Concepts of Oral Health  Units: 2
Basic concepts of oral health care, adjunctive aids and foundation of preventive strategies. Introduction to product evaluation, disease process, needs assessment, behavior modification, learning principles, deposits, stains and fluoride.
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Spring

DH 112 # - Oral Radiology  Units: 3
A study of the theory of radiology, the techniques of film exposure, processing, mounting and interpreting. Radiation dosage and hazards as well as protection services for patient and operator are stressed. (2 lecture hours, 3 Clinic hours)
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Fall

DH 113 # - General and Oral Pathology  Units: 3
The fundamentals of microscopic and gross pathology disease, repair, healing and regression. Recognition of the normal and abnormal in the oral cavity and human body. (3 lecture hours)
Enrollment Requirements: Prerequisite: Successful completion of all first semester Dental Hygiene courses and acceptance in the Dental Hygiene program
Term Offered: Spring

DH 115 # - Clinical Practice I  Units: 3
Practice in performing oral prophylaxis, equipment maintenance and sterilization, patient management, patient education, use of fluorides, charting and inspection of teeth, patient scheduling and follow up care systems. 12 hours clinic.
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Spring

DH 118 # - Advanced Clinical Topics in Dental Hygiene  Units: 2
The focus of DH 118 is on advanced instrumentation, ultrasonic devices, root planing, gingival curettage, subgingival irrigation, hypersensitivity treatment, instrument sharpening, care of dental implants and oral prostheses, and other adjunct treatment.
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Summer

DH 120 # - Fundamentals of Nutrition in Dentistry  Units: 3
Introduction to principles of basic biochemistry. Application of nutritional education to dental hygiene practice. (3 hours lecture).
Enrollment Requirements: Prerequisite: Successful completion of all first semester Dental Hygiene courses and acceptance in the Dental Hygiene program
Term Offered: Spring

DH 122 # - Dental Hygiene II  Units: 3
Clinical application of therapeutic procedures and techniques utilized in patient care by dental hygienists. (15 hours lecture, 15 hours laboratory)
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Spring

DH 123 # - Dental Hygiene III  Units: 3
Clinical application of therapeutic procedures and techniques utilized in patient care by dental hygienists. (15 hours lecture, 15 hours laboratory)
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Spring

DH 125 # - Dental Hygiene IV  Units: 3
Clinical application of therapeutic procedures and techniques utilized in patient care by dental hygienists. (15 hours lecture, 15 hours laboratory)
Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program
Term Offered: Spring
DH 202 # - Pharmacology  
A study of drugs by groups with special emphasis on those used in dentistry including their physical and chemical properties, dosage and therapeutic effects. (2 lecture hours).  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Spring_

DH 203 # - Special Patients  
Considerations in the treatment of patients with specific physical and mental challenges with a special emphasis on the management of the geriatric patient. (2 lecture hours)  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Fall_

DH 205 # - Clinical Practice II  
Clinical application of diagnostic, preventive, and therapeutic procedures utilized in patient care by a dental hygienist, with increased levels of achievement in all dental hygiene skills. 1 hour seminar, 16 hours clinic.  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Fall_

DH 207 # - Periodontics I  
The study of periodontal diseases, etiologies, recognition of normal periodontium and deviations of normal, clinical assessment, treatment, and prevention of disease progression.  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Fall_

DH 208 # - Community Dental Health I  
Functions of health care agencies, literature, epidemiology of dental diseases, community preventive measures, program planning, the geriatric population and dental health educational methods. (2 lecture hours)  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Fall_

DH 209 # - Pain and Anxiety Control  
Administration of local anesthetics and nitrous oxide/oxygen analgesia. Pharmacological agents, physical and emotional evaluation of patients, anatomy and neurophysiology. Management of related medical emergencies. (2 hours lecture, 3 hours laboratory.)  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Spring_

DH 211 # - Dental Materials and Techniques  
Study of dental materials including physical and chemical properties, manipulation, utilization, and application in dental and dental hygiene procedures.  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Fall_

DH 214 # - Periodontics II  
Advanced study of periodontology with special emphasis on new surgical modalities and equipment. Orientation to all aspects of periodontal practice.  
_Enrollment Requirements: Prerequisite: DH 207 and acceptance in the Dental Hygiene program_  
_Term Offered: Spring_

DH 215 # - Clinical Practice III  
A continuation of Clinical Practice II. 1 hour seminar, 16 hours clinic.  
_Enrollment Requirements: Prerequisite: DH 205 and acceptance to the Dental Hygiene program_  
_Term Offered: Spring_

DH 216 # - Principles of Dental Practice  
Concepts of dental office management, productivity, marketing, interviewing and responsibilities of professionals. (1 lecture hour.)  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  
_Term Offered: Spring_

DH 218 # - Community Dental Health II  
Designed to prepare the students to function as an effective oral health practitioner, educator and resource person in a variety of community health settings. Includes field experience. Implement a program designed to change the health status of a target group. (1 hour lecture, 3 hours clinic/lab).  
_Enrollment Requirements: Prerequisite: DH 208 and acceptance in the Dental Hygiene program_  
_Term Offered: Spring_

DH 299 # - Independent Study  
Covers selected topics of interest to dental hygiene students, including review of Dental Hygiene National Board Examination. Graded pass/fail only.  
_Transferability: May not transfer towards an NSHE bachelor's degree_  
_Enrollment Requirements: Prerequisite: Acceptance to the Dental Hygiene program_  

**Diesel Tech (DT)**

DT 101 # - Basic Diesel Engines  
This course introduces the student to basics of diesel fundamentals through the use of lectures, films, visual inspection and demonstrations. The course objective is to build an educational foundation that will support advanced learning in diesel repair, troubleshooting and preventive maintenance. This course satisfies 12 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 15 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.  
_Transferability: May not transfer towards an NSHE bachelor's degree_

DT 106 # - Heavy Duty Transmissions and Power Trains  
This course is designed to expose the student to the theory, operation and service techniques used in maintaining and repairing manual and automatic transmissions. Drive trains, clutches, differentials, power dividers, reduction gears and power takeoffs will be covered.  
_Transferability: May not transfer towards an NSHE bachelor's degree_

DT 107 # - Heavy Duty Drive Trains  
This course provides students with introductory level basics on Heavy Duty Drive Trains including study in components, maintenance, diagnostics and repair. This course exceeds the student contact hours required for NATEF/ASE certification and prepares the learner for the ASE Certification Examination in Medium/Heavy Duty Drive Trains which assures the learner's ability to succeed as an entry-level Heavy Duty Drive Train technician specialist.  
_Transferability: May not transfer towards an NSHE bachelor's degree_
DT 110 # - Heavy Duty Electrical Systems  Units: 3
This course provides the student with theory, knowledge, information and basic skills for the understanding of electricity and how it pertains to diesel powered equipment. Topics will include starters, charging, electrical controls, power generation and electrical systems.
Transferability: May not transfer towards an NSHE bachelor's degree

DT 130 # - Heavy Duty Hydraulics  Units: 2
Theory of operation and service for heavy duty off-road vehicles and equipment. Topics will include diagnosis and repair of hydraulic pumps, motors, cylinders, and control valves.
Transferability: May not transfer towards an NSHE bachelor's degree

DT 198 # - Special Topics in Diesel Technology  Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree

DT 201 # - Diesel Brakes and Pneumatics  Units: 3
This course provides students with introductory level basics on Medium/Heavy Duty Truck Brake systems including study in components, maintenance, diagnostics and repair. This course exceeds the student contact hours required for NATEF/ASE certification and prepares the learner for the ASE Certification Examination in Brake Systems which assures the learner’s ability to succeed as an entry-level medium/heavy duty truck technician specialist. This course satisfies 8 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A. This course satisfies 7 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A.
Transferability: May not transfer towards an NSHE bachelor's degree

DT 210 # - Advanced Diesel Engines  Units: 4
This course provides students with introductory level basics on diesel engines including study in components, maintenance, diagnostics and repair. This course exceeds the student contact hours required for NATEF/ASE certification and prepares the learner for the ASE Certification Examination in Diesel Engines and entry-level employment as an engine technician specialist. This course is repeatable for up to fourteen credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: DT 101 or instructor permission Course may be taken concurrently with DT 101

DT 211 # - Light Duty Performance  Units: 2
Course will familiarize the student with specific makes of diesel fuel injection equipment used in a worldwide market. Upon completion of the course, students will be able to troubleshoot and service a variety of diesel powered equipment. This course satisfies 10 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A. This course satisfies 5 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A.
Transferability: May not transfer towards an NSHE bachelor's degree

DT 217 # - Electronic Fuel Injection II  Units: 3
This course will cover advanced topics in Cummins diesel powered equipment. Specific topics in preventive maintenance, trouble shooting and repair of computer controlled fuel injection systems will be covered.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: DT 101, DT 210, and AUTO 111 or instructor permission

DT 235 # - Steering and Suspension  Units: 2
This course provides students with introductory level basics in Medium/Heavy Duty Truck Steering and suspension including study in components, maintenance, diagnosis and repair. This course exceeds the student contact hours required for NATEF/ASE certification and prepares the learner for the ASE Certification Examination in Light/Heavy Duty Truck Steering and Suspension Systems which assures the learner’s ability to succeed as an entry-level medium/heavy duty truck technician specialist. This course satisfies 5 hours toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A. This course satisfies 5 hours toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A.
Transferability: May not transfer towards an NSHE bachelor's degree

DT 250 # - Preventive Maintenance  Units: 2
This course provides students with introductory level basics in preventive maintenance including study in components, maintenance, diagnostics and repair. This course exceeds the student contact hours required for NATEF/ASE certification and prepares the learner for the ASE Certification Examination in Preventive Maintenance which assures the learner’s ability to succeed as an entry-level medium/heavy duty truck technician specialist. This course satisfies 5 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A. This course satisfies 7 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines, Option A.

DT 290 # - Internship in Diesel Technology  Units: 0.5-6
The purpose of this course is to provide diesel power technology students with the opportunity to supplement course work with practical work experience related to the student’s Program Session I classroom and lab experience. The course is an extension to and application of the classroom learning through work experience under immediate supervision of experienced personnel at the industry work site. A qualified faculty member directly supervises the student’s internship experience by working closely with the student and the employer through telephone contact, site visitations, student reports and reports from the student’s supervisor. Credit is awarded (at a rate of 75 hours of work per credit) for the accomplishment of individualized specific occupational learning objectives written by the employer, student and faculty member; maintenance of time sheets; and final report. Student grades will be assigned as a cooperative effort between the faculty member and the job supervisor. May be repeated for 12 credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: DT 101, DT 202 and DT 211, with 20 average and approval of the instructor
**Drafting (DFT)**

**DFT 100 # - Basic Drafting Principles**  
Units: 3-4  
This entry level drafting course covers use of drafting instruments, lettering, perception theories, geometric and multi-view problem solving, sketching and dimensioning.  
Term Offered: All Semesters

**DFT 110 # - Print Reading for Industry**  
Units: 3  
A course designed to provide the fundamental concepts in reading technical drawings required by machine shops, engineering, electrical and welding industries. The course will start with simple prints and proceed to more advanced prints. This course satisfies 6 hours of instruction toward completing the embedded mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.  
Transferability: May not transfer towards an NSHE bachelor's degree

**DFT 240 # - Introduction to 3D Studio Max**  
Units: 3  
This course is an introduction to 3D StudioMax. Topics covered will include the 3D StudioMax program interface, managing object and project files, creating a basic scene, modeling, lighting, the materials editor, animation techniques, output of images and animations and introduction to the special effects and plug-in capabilities of 3D Studio Max.  
Enrollment Requirements: Prerequisite: CADD 105  
Term Offered: Fall

**Entrepreneurship (ENT)**

**ENT 200 # - Fundamentals of Entrepreneurship**  
Units: 3  
This course explores the basics of entrepreneurship. This is a survey course that briefly introduces students to the various aspects and activities involved in entrepreneurship. Students then complete the focused courses on each aspect and complete the degree with the capstone ENT 280. The course will look at the characteristics of entrepreneurs, the cycle of entrepreneurship, idea generation and validation of an idea’s ability to be successful, how to present your business idea to potential investors and how to take the plunge.  
Term Offered: Spring and Fall

**ENT 201 # - Entrepreneurship: Science and Engineering**  
Units: 3  
This course looks specifically at the required skills for the scientist, engineer or applied technologies student that is seeking to start his/her own business. The course will look at the aspects for entrepreneurship including an introduction to the business plan, the financial aspects and the marketing components. Students will explore the process of going from technology idea to market including the management of labs and intellectual property process.  
Term Offered: AS NEEDED

**ENT 210 # - The Art, Science and Discipline of Creativity**  
Units: 3  
This course explores creativity from an academic perspective. Students will read contrasting views of what creativity is, how to define creativity and what resources, skills and traits are required for creativity. Students will also explore the role of creativity in the changing economy of the world.  
Term Offered: Spring and Fall

**ENT 220 # - International Women's Entrepreneurship**  
Units: 3  
This course looks at the effects of women entrepreneurs on the world economy and at the paths that women take to business ownership. The course will look at each region and analyze the effects of micro financing, environmental concern and development status on the role of women within the economy. The course will also look at the role of women in creating change within their respective region and internationally.  
Term Offered: AS NEEDED

**ENT 230 # - Financing Your Small Business Venture**  
Units: 3  
This course explores the options that are available for financing your small business venture. Exploring ownership structures, venture capital, angel finance and the Small Business Administration. Students will complete the course with multiple avenues for financing new expanding existing business ventures.  
Enrollment Requirements: Prerequisite: ENT 200  
Term Offered: Fall

**ENT 240 # - Marketing for Small Business**  
Units: 3  
This course explores the marketing principles for the small business. Topics include integrated marketing approaches, ROI analysis, and how to effectively build relationships that build the small business venture.  
Term Offered: Spring and Fall

**ENT 260 # - Intellectual Property**  
Units: 3  
This course explores and defines the laws surrounding intellectual property. In particular students will become acquainted with the patent process, culminating in the draft of a provisional patent application.  
Enrollment Requirements: Prerequisite: ENT 200  
Term Offered: AS NEEDED

**ENT 280 # - Entrepreneurship and Business Plan Development**  
Units: 3  
This course provides an understanding of the principles of entrepreneurship and the knowledge and tools required to develop a quality business plan. Reflective of the body of entrepreneurship literature, student teams will use creativity and innovation techniques to generate new business ideas for which they will develop original, realistic and effective business plans. This is intended as a "hands-on" experience that explores the steps taken in the process of developing and presenting a proper business plan. This will provide the opportunity for student teams to participate in a variety of local business plan competitions.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring and Fall

**Early Childhood Education (ECE)**

**ECE 121 # - Parent Caregiver Relationships**  
Units: 1  
This course focuses on effective, positive communication skills to enhance family-teacher relationships in early childhood education programs. Students will learn formal and informal verbal and written communication strategies. Daily interactions, newsletters, phone conversations, informational bulletin boards, record keeping, family conferences and home visits will be introduced as methods of communication.  
Term Offered: Fall

**ECE 123 # - Health and Nutrition for Young Children**  
Units: 1  
This course focuses on the physical development, nutrition, health, safety and childhood illnesses and diseases of young children in early childhood education programs. Students are introduced to menu planning, selecting safe equipment and toys, routines to ensure good health, policies on safety and illness, and integrating nutrition and health into the early childhood curriculum.  
Term Offered: Spring
ECE 124 # - Sensorimotor Development in Infants and Toddlers Units: 1-3
This course is the study of sensorimotor development of young children from birth to age three. Students will be introduced to child development theory, as well as how to develop activities and materials to foster sensory and motor skills in infants and toddlers.
Term Offered: Spring and Fall

ECE 125 # - Language Development Infant Toddler Units: 1
This course is the study of language development in young children from birth to age three. Students will be introduced to child development theory, as well as how to develop activities and materials to foster language skills in infants and toddlers.
Term Offered: Spring and Fall

ECE 126 # - Social/Emotional Development for Infants and Toddlers Units: 1-3
The course is the study of social/emotional development in young children from birth to age three. Students will be introduced to child development theory, as well as how to develop activities and materials to foster social/emotional skills in infants and toddlers.
Term Offered: Spring and Fall

ECE 127 # - Role of Play for Infants and Toddlers Units: 1
This course is the study of the role of play as it affects the social, emotional, physical and intellectual growth and development of young children from birth to age three. Students will be introduced to theory and research on play, as well as how to develop activities and materials to foster play in infants and toddlers.
Term Offered: Spring and Fall

ECE 128 # - Self Help Skills for Infants and Toddlers Units: 1
This course is the study of self-help skills in young children from birth to age three. Students will be introduced to child development theory and research related to self-help skills, as well as how to develop activities and materials to foster self-help skills in infants and toddlers.
Term Offered: Spring and Fall

ECE 129 # - Environments for Infant and Toddler Units: 1-2
The course focuses on how to establish and maintain developmentally appropriate, high-quality infant/toddler environments in early childhood education programs. Students learn about the importance of relationship-based care, health and safety, space utilization, selecting appropriate equipment and materials, aesthetics, and making accommodations for children with differing abilities.
Term Offered: Spring and Fall

ECE 130 # - Infancy Units: 3
The course will provide a comprehensive introduction to the principles and basic concepts of the development of the child from conception to age three. Emphasis on the physical, emotional and social growth of the infant as well as understanding of the parenting process and the development of parenting skills.
Term Offered: Spring and Fall

ECE 151 # - Math in the Preschool Curriculum Units: 1
This course focuses on math in the preschool curriculum for young children in early childhood education settings. Students will learn how to plan activities and select materials to develop mathematics readiness, including math concepts such as shapes, counting sets, number sense, estimation, patterns, sorting, and classification.
Term Offered: Spring and Fall

ECE 152 # - Science in the Preschool Curriculum Units: 1
This course is the study of science in the preschool curriculum for young children in early childhood education settings. Students will learn how to plan developmentally appropriate activities and select materials to support science concepts including observation, experimentation, and exploration of the world around them.

ECE 154 # - Literature for Preschool Children Units: 1
This course focuses on the elements of quality literature for young children in early childhood education settings. Students learn criteria for selecting and using children's literature, techniques for effective read-alouds, and other story-telling strategies with and without visual aids.

ECE 155 # - Literacy and the Young Child Units: 1
This course focuses on teaching literacy skills to young children in early childhood education programs. Students learn about the developing auditory and visual perception skills of preschoolers, as well as effective techniques to support literacy development including listening, speaking, pre-reading and pre-writing skills.

ECE 156 # - Music in the Preschool Curriculum Units: 1
This course focuses on teaching techniques and music activities for preschool children in early childhood education settings. Students learn methods of including music in the preschool curriculum, including songs, finger plays, dance and rhythm activities.

ECE 157 # - Art in the Preschool Curriculum Units: 1
This course is the study of creative art for young children in early childhood education settings. Students will learn how to plan activities and select materials to develop creative expression and enjoyment of art through the use of a wide range of materials.

ECE 158 # - Activities for Physical Development in Young Child Units: 1
This course focuses on the physical development of young children in early childhood education settings. Students learn how to plan physical development activities, and select materials and equipment to support fine and gross motor development and coordination in preschool children both indoors and outdoors.

ECE 161 # - Social Studies in the Preschool Curriculum Units: 1
This course focuses on how to develop activities and materials for teaching social studies in early childhood education programs. Students will learn specific content appropriate for young children drawn from geography, history, economics, civics, government, and social emotional development. Strategies for teaching children about themselves, their families and their communities, as well as an introduction to multicultural and anti-bias-curriculum will also be explored.

ECE 167 # - Child Abuse and Neglect Units: 1
This course is an overview of the definitions, signs, and causes of child abuse and neglect. Students learn how and when to report suspected child abuse and neglect. The course also includes a discussion of the roles and responsibilities of community agencies such as law enforcement, social services, child care personnel, medical and psychosocial professionals.

ECE 168 # - Infectious Diseases and 1st Aid in Childcare Units: 1
This course focuses on infectious diseases and first-aid measures for young children in early childhood education settings. Students learn how to recognize communicable and acute illnesses, manage accidents and injuries, take measures to prevent the spread of illness and disease, and provide health education in early childhood education programs. Current research and community resources available to address childhood illness and first aid will also be explored.
ECE 169 # - Bilingual and Multicultural Experience in ECE  
Units: 1  
This course is an introduction to multicultural and anti-bias curriculum goals and methodology in early childhood education, including the lifestyles, values, and experiences of children from bilingual/bi-cultural families. Students are introduced to strategies, materials and resources designed to help enhance multicultural and anti-bias experiences in the early childhood classroom. An introduction to working with dual language learners and in bilingual and two-way immersion environments is also explored.

ECE 190 # - Professionalism in Early Care and Education  
Units: 3  
This course focuses on professional issues in Early Childhood Education including knowing about and upholding ethical guidelines and other professional standards related to early childhood practice; involvement in the early childhood field through professional organizations and activities; principles of effective leadership and advocacy for young children and for the early childhood profession; and public policy at the local, state, and national levels to support early childhood education in appropriate ways.
Transferability: May not transfer towards an NSHE bachelor's degree

ECE 198 # - Special Topics in ECE  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects in child development. The course will be of variable one-half to six credits depending on the course content and number of hours required. The course may be repeated up to a total of six credits.
Transferability: May not transfer towards an NSHE bachelor's degree

ECE 200 # - The Exceptional Child  
Units: 3  
This course is a study of young children with differing physical, social/emotional, language, and/or cognitive abilities. Students are introduced to typical and exceptional development, specific developmental disabilities, as well as strategies for including all children in early care and education programs. Adaptive teaching approaches to support children with differing abilities, working with families of exceptional children, and behavior and classroom management strategies are also explored.
Term Offered: Spring and Fall

ECE 204 # - Principles of Child Guidance  
Units: 3  
This course is a study of effective use of positive techniques to guide child behavior in early childhood settings. Emphasis is placed on the role of the early childhood professional in using specific positive techniques to help children build positive self-concepts and individual strengths within the context of appropriate limits and discipline. The study includes uses of direct and indirect guidance techniques as well as introduction to guidance systems. This course requires 15 hours of field experience in an early childhood classroom. Field experiences are focused learning opportunities that require the student to practice specific skills working with young children. Students must complete the field experience through TMCC. Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience. Students must work with the instructor to arrange a field experience schedule and placement site.
Term Offered: Spring and Fall

ECE 210 # - Observation, Documentation and Assessment of Young Children  
Units: 3  
This course focuses on how to observe, document, and assess the growth and development of young children in early care and education settings. Students learn and practice a variety of appropriate observation techniques, documentation methods, and assessment strategies and tools. Students are introduced to the goals, benefits, and uses of assessment for young children. Confidentiality and assessment partnerships with families and other professionals are also explored.
Enrollment Requirements: Prerequisite: ECE 250

ECE 224 # - Early Childhood Education (ECE)  
Units: 2  
This course focuses on the development of young children in the early childhood classroom. An introduction to working with dual language learners and in bilingual and two-way immersion environments is also explored.

ECE 231 # - Preschool Practicum: Early Childhood Lab  
Units: 2  
All ECE degrees require courses with practicum experience in early childhood classrooms with young children (birth to age five). Practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children.* Students must complete the practicum experience through TMCC.* Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in practicum experience courses. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with practicum experience.* Students must meet all of the prerequisite/co-requisite requirements, as well as have the practicum instructor's approval prior to enrolling in a practicum course.* Two semesters of practicum are required. Students must complete the practicum courses in two, consecutive fall and spring semesters, during the final year of the ECE program of study.* Students must work with the practicum instructor to arrange a practicum schedule and placement site.
Enrollment Requirements: Prerequisite or Corequisite (Fall): ECE 251; Prerequisite (Spring): ECE 231 (Must have earned 2 units in the previous fall semester with a C or better) Corequisite (Spring): ECE 245 Instructor approval required
Term Offered: Spring and Fall

ECE 232 # - Practicum: Infant and Toddler  
Units: 2  
All ECE degrees require courses with practicum experience in early childhood classrooms with young children (birth to age five). Practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children.** Students must complete the practicum experience through TMCC.** Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in practicum experience courses. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with practicum experience.** Students must meet all of the prerequisite/co-requisite requirements, as well as have the practicum instructor's approval prior to enrolling in a practicum course.** Two semesters of practicum are required. Students must complete the practicum courses in two, consecutive fall and spring semesters, during the final year of the ECE program of study.** Students must work with the practicum instructor to arrange a practicum schedule and placement site.
Enrollment Requirements: Prerequisite or Corequisite (Fall): ECE 252; Prerequisite (Spring): ECE 232 (Must have earned 2 units in the previous fall semester with a C or better) Corequisite (Spring): ECE 245 Instructor approval required
Term Offered: Spring
ECE 244 # - Practicum in Administration in ECE Programs  Units: 1-5
All ECE degrees require courses with practicum experience in early childhood classrooms with young children (birth to age five). Practicum experiences are focused student teaching experiences that require the student to demonstrate specific skills in an early childhood classroom with young children. Students must complete the practicum experience through TMCC. Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in the practicum experience courses. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with practicum experience. Students must meet all of the prerequisite/co-requisite requirements, as well as have the practicum instructor's approval prior to enrolling in a practicum course. This course is the second half of a two-part practicum and is taken in the spring semester during the final year of the program of study. Students must work with the practicum instructor to arrange a practicum schedule and placement site.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MGT 171, ECE 231 (2 units in previous fall semester with a C or better); Prerequisite or Corequisite: MGT 212, ECE 240; Corequisite: ECE 245; Instructor approval required

ECE 245 # - Practicum Seminar  Units: 2
Students discuss topics related to their practicum experiences in a seminar format. Topics may include but are not limited to: curriculum planning; child guidance; observation, documentation and assessment of children; professionalism, advocacy, and leadership in ECE; career options; the NAEYC/ECADA standards; the student portfolio; developmentally appropriate practices; family engagement; and current trends and issues in ECE.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Must be taken concurrently with ECE 231, ECE 232, or ECE 244 during the spring semester of the practicum experience sequence Instructor approval required

ECE 247 # - Effective Management and Supervision in Early Childhood Education  Units: 2
This course focuses on effective management and supervision in Early Care and Education (ECE) settings. Content includes effective communication with early childhood education staff and families; hiring, training, retaining, motivating, mentoring and supervising staff; professional development of staff; planning and facilitating effective staff meetings; and effective program management.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ECE 190 and COM 215

ECE 250 # - Introduction to Early Childhood Education  Units: 3
This course is an introduction and overview of the field of Early Childhood Education (ECE). Topics include: a history and theoretical foundation of early care and education, types of early childhood programs and settings, an overview of child care licensing and regulation, professional development in ECE, working with families, designing the classroom environment, ethical conduct, daily schedules, curriculum planning, positive guidance, child development, components of the early care and education system, and current trends and issues in ECE. The course also emphasizes the importance of developmentally appropriate practice (DAP) in the field.
Term Offered: Spring and Fall

ECE 251 # - Curriculum in Early Childhood Education  Units: 3
This course focuses on methods of planning developmentally appropriate curriculum for preschool age children (3-5 years old). Topics include theories of preschool curriculum development, children's play, curriculum objectives, lesson planning, daily schedules, assessing child development through the curriculum, evaluation of curriculum effectiveness, and the role of the teacher in facilitating curriculum for preschool children. Curriculum development in all content areas is explored including art, science, literature, music and movement, sensory, language arts/literacy, blocks, dramatic play, woodwork, cooking, math, social studies, multiculturalism, and outdoor play. This course requires 15 hours of field experience in an early childhood classroom. Field experiences are focused learning opportunities that require the student to practice specific skills working with young children. * Students must complete the field experience through TMCC. * Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience. * Students must work with the instructor to arrange a field experience schedule and placement site.
Enrollment Requirements: Prerequisite: ECE 190, ECE 204, ECE 210, and HDFS 201
Term Offered: Spring and Fall

ECE 252 # - Infant-Toddler Curriculum  Units: 3
This course focuses on planning and implementing a curriculum for children ages birth to 3 years old. The course includes a variety of child development theories and applies them to curriculum development for infants and toddlers. The major developmental domains such as physical, social, emotional, cognitive and language development are utilized in developing infant/toddler curriculum. Students will learn and apply best practice in infant/toddler curriculum planning including individualized curriculum, and caregiving relationships and routines as curriculum. An emphasis will be placed on the relationship between the environment and successful curriculum planning for infants and toddlers. This course requires 15 hours of field experience in an early childhood classroom. Field experiences are focused learning opportunities that require the student to practice specific skills working with young children. * Students must complete the field experience through TMCC. * Students are required to have fingerprints, an approved background check, and a clear TB test prior to enrolling in courses with field experience. If a student fails to meet these requirements, or if the background check is not approved, the student will not be permitted to participate in courses with field experience. * Students must work with the instructor to arrange a field experience schedule and placement site.
Enrollment Requirements: Prerequisite: ECE 127, ECE 128, ECE 129, ECE 130, ECE 190, ECE 204, ECE 210, and HDFS 201
ECE 290 # - Internship in Early Childhood Education  
Units: 1-8  
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for an application, screening and required skills evaluation. Up to 8 semester hour credits may be earned on the basis of 100 hours of internship for 1 credit. May be repeated for up to eight credits.

Transferability: May not transfer towards an NSHE bachelor's degree

Economics (ECON)

ECON 102 # - Principles of Microeconomics  
Units: 3  
The study of the allocation of resources to alternative uses in producing the nation's output and the role of relative prices in distributing these goods and services. Topics include: demand and supply, consumer behavior, business decision-making and market structures. See class schedule for details. Satisfies UNR Social Science core curriculum.

Enrollment Requirements: Prerequisite: BUS 117, MATH 120, MATH 126 or qualifying ACCUPLACER, ACT/SAT score
Term Offered: All Semesters

ECON 103 # - Principles of Macroeconomics  
Units: 3  
The study of the determination of output, employment and investment levels and strategies to promote growth, efficiency, equity and stability in the economy. Topics include: demand and supply, measurement of GDP, price fluctuations and the banking system. Satisfies UNR Social Science core curriculum.

Enrollment Requirements: Prerequisite: BUS 117, MATH 120, MATH 126, or qualifying ACCUPLACER, ACT/SAT score
Term Offered: All Semesters

ECON 104 # - Current Economic Issues  
Units: 3  
Analysis of the economic news of the day and its importance to consumers, business persons and voters. Discussion of the possible future economic effects of current policies and actions. Economic theories and concepts basic to the analysis of current events are reviewed, explained and applied.

Enrollment Requirements: Prerequisite: ENG 101 or BUS 98

EDU 201 # - Introduction to Elementary Education  
Units: 3  
Introduction to historical, philosophical, sociological and psychological foundations of elementary education, overview of curriculum, instruction and issues of diversity. Includes a field experience.

Term Offered: Spring and Fall

EDU 202 # - Introduction to Secondary Education  
Units: 3  
Introduces the prospective middle/secondary teacher to the role of thinker/reflective practitioner. Awareness of the historical, political and economic forces influencing schooling in the United States. Includes a field experience.

Term Offered: Spring and Fall

EDU 203 # - Introduction to Special Education  
Units: 3  
Survey of various types of exceptionalities. Emphasis on etiology, physical and educational characteristics.

Term Offered: Spring and Fall

EDU 204 # - Information Technology in Teaching  
Units: 3  
This course identifies and illustrates microcomputer applications in education. The hardware/software selection process is presented as well as uses of word processing, spreadsheet and Internet programs. Designed for teachers seeking a practical knowledge of how to operate and utilize microcomputers in the classroom. Special instruction fees.

Term Offered: Spring and Fall

EDU 207 # - Exploration of Children's Literature  
Units: 3  

Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Spring and Fall

EDU 208 # - Students with Diverse Abilities and Backgrounds  
Units: 3  
Focus on successful inclusion of students with various disabilities, students from culturally diverse backgrounds, and English language learners in a general education classroom.

Enrollment Requirements: Prerequisite: EDU 203
Term Offered: Spring and Fall
EDU 209 # - Exploring Teaching and Learning: Practicum  Units: 1
This practicum experience introduces prospective Dual Elementary/Special Education and Special Education teachers to teaching and learning contexts and developing professional dispositions. Emphasis is placed on differentiated instruction based on learner needs in local classrooms.
Enrollment Requirements: Corequisite: EDU 211
Term Offered: Spring and Fall

EDU 210 # - Nevada School Law  Units: 3
The course surveys federal and state legal issues relating to education. Concepts covered include teacher/student rights and responsibilities, teacher liability, and religious and liability issues.
Term Offered: Spring and Fall

EDU 211 # - Introduction to Teaching in Inclusive Classrooms  Units: 3
This introductory teaching methods course emphasizes instructional techniques applicable in all content areas and prepares students to begin to differentiate instruction based on learner needs.
Enrollment Requirements: Corequisite: EDU 209
Term Offered: Spring and Fall

EDU 212 # - Family Involvement for Students With/Without Disability  Units: 3
Focus on academic progress and social-emotional development through collaborative and productive professional relationships with families of students with and without disabilities.
Term Offered: Spring and Fall

EDU 214 # - Preparing Teachers to Use Technology  Units: 3
Lab course on advanced skills and strategies for integrating information technology in to the classroom. Special instructions fees.
Term Offered: Spring and Fall

Educational Leadership and Psychology (EPY)

EPY 101 # - Educational, Career, and Personal Development  Units: 3
This course provides a foundation for student success by introducing proven strategies in communication, critical thinking, and college success methods. Study skills, career exploration and personal development will also be explored.
Term Offered: Spring and Fall

Electrical and Mechanical Technology (ELM)

ELM 110 # - Electrical/Electronic Circuits  Units: 4
This course covers basic AC/DC circuit principles and practices. Students will explore areas of electrical and electronic circuits including: circuit theory, components, circuit construction and analysis, soldering techniques, proper test equipment usage, and applications in various technical fields. This course satisfies 30 hours of instruction toward completing the embedded math curriculum requirements and satisfies 15 hours of instruction toward completing the embedded Human Relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Summer and Fall

ELM 127 # - Introduction to AC Controls  Units: 3
An introduction to hard-wired industrial control. Emphasis is on the control of electrical motors through relay logic. Topics include circuit design using industrial control diagrams, circuit construction with industrial control panels and devices, troubleshooting methodology and practice. Completion of this course satisfies 10 hours of instruction toward completing the embedded Human Relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENRG 110 or ELM 110 or instructor approval

ELM 129 # - Electric Motors and Drives  Units: 3
This course covers the construction and operating principles of single and poly phase motors; motor control using relay and timing circuits; and variable speed drives applications. Additional emphasis is placed on maintenance and troubleshooting of electric motors.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ELM 127 or instructor approval

ELM 134 # - Introduction to Instrumentation  Units: 3
An introduction to the fundamentals of instrumentation and process control. Concepts and measurement of physical variables and brief descriptions of individual processes and combination of processes used in industry. Theory of operation and application of associated process instruments covered.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENRG 110, ELM 110, or ELM 127; or instructor approval

ELM 140 # - Industrial Robotics I  Units: 3
An introductory course in Industrial Robotic Systems designed to teach basic robotic system operation and programming using Fanuc Industrial Robots. Upon fulfilling all the course requirements, students receive a FANUC certificate of course completion.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ELM 110 and ELM 134, or instructor approval

ELM 233 # - Introduction to Instrumentation  Units: 3
An introduction to the fundamentals of instrumentation and process control. Concepts and measurement of physical variables and brief descriptions of individual processes and combination of processes used in industry. Theory of operation and application of associated process instruments covered.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENRG 110 or ELM 110 or instructor approval
### Emergency Management and Homeland Security (EMHS)

**EMHS 200 # - ICS/NIMS/EOC**  
Units: 3  
This course will develop students' comprehension of the systems utilized to prepare for, respond to, mitigate and recover from emergencies of all types and complexities. The course will cover the Incident Command System (ICS), National Incident Management System (NIMS) and Emergency Operations Center (EOC) functions in the modern emergency services.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 300 # - Principles, Practices Philosophy & Doctrine of Emergency Management**  
Units: 3  
This course focuses on the philosophical and theoretical underpinnings of the emergency management profession and the principles that define effective practice.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 302 # - Principles and Practices of Mitigation and Recovery in Emergency Management**  
Units: 3  
This course examines sustainable disaster mitigation and recovery including principles, concepts, processes, and practices currently used in the United States.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 304 # - Hazard Risk Management: Vulnerability and Risk**  
Units: 3  
This course will discuss underlying risk assessment and analysis theory, and explore the key steps and actions that can be taken to manage risk inclusive of: studying and understanding the community or entity at risk.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 306 # - Advanced ICS-EOC Interface**  
Units: 3  
Advanced Incident Command System and Emergency Operations Center Interface is designed to enhance the student’s understanding of methods to effectively manage the critical interface between field incident scenes, managed under the National Incident Management System and jurisdictional emergency operations centers. The course builds upon concepts learned in FT 200 ICS/NIMS/EOC.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 311 # - International and Cyber Terrorism**  
Units: 3  
The course examines issues and concepts that make up the field of International and Cyber Terrorism. It will examine anti-terrorism and counter-terrorism measures that are utilized and evolving to deal with this complex problem.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 313 # - Homeland Security: Preparedness, Prevention, Deterrence & Emergency Management**  
Units: 3  
This course examines the roots of terrorism, religious and political extremism, radicalization, terrorist structures, intelligence, combating terrorism and the evolution of emergency management relative to homeland security.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 315 # - Domestic Terrorism and Homeland Security in the U.S.**  
Units: 3  
The course examines the emergence, history and growth of domestic terrorism and groups that utilize terror and violence within the United States. The course will identify domestic terrorist organizations and their motivations, goals and tactics in achieving their goals.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 320 # - History of United States Hazards and Disasters**  
Units: 3  
This course presents an overview of background and history of hazards, disasters and Emergency Management in the United States. It covers the birth of disaster response and identifies some of the early disasters that helped found the fundamentals of Emergency Management.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 321 # - Protecting the Homeland: Balancing Security and Liberty**  
Units: 3  
This course will examine the Federal Government response to terrorism since the 9/11 terrorist attacks and how that response affects protecting the Homeland and balancing security and liberty.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 322 # - Trauma Treatment in an age of disaster and terrorism**  
Units: 3  
This course provides a broad overview of the causes and "first responder" treatment of psychological trauma in both human caused and natural disasters.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 323 # - Physical Security and Deterrents to Terrorism**  
Units: 3  
This course will focus on the development and implementation of a physical security program and deterrents to terrorism utilizing a hazards analysis and vulnerability process.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 325 # - Terrorism, Weapons of Mass Destruction and Homeland Security**  
Units: 3  
The course examines the issues and concepts of terrorism, weapons of mass destruction and organized crime relative to the development and establishment of Homeland Security.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 410 # - Social Dimensions, Lifecycle and Ethics of Disaster**  
Units: 3  
This course will examine the common patterns that make up the disaster lifecycle across a spectrum of historical and current events. Vulnerability, hazards, risk, technology, human behavior, and community will be explored to identify how they contribute to or mitigate the impact of disaster on societies. Ethical considerations will be explored that influence all phases of the disaster lifecycle.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required

**EMHS 412 # - Emergency Management Fiscal Administration**  
Units: 3  
This course will examine the processes and challenges of fiscal administration and management within the emergency management and disaster arenas. It will also explore the processes and administration of federal grant funds.  
**Enrollment Requirements:** Students must be admitted to the Emergency Management/Homeland Security program Department approval required
EMHS 414 # - Organizational Crisis & Continuity Management  Units: 3
This course will explore various strategies to insure public and private organizational continuity during and following crisis.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 416 # - Introduction to Exercise Design and Evaluation  Units: 3
This course is designed to introduce students to the fundamentals of emergency management exercise design, management and evaluation. Students will design an exercise, identify the logistics necessary for execution and management of the exercise, and develop an exercise evaluation plan.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 420 # - Advanced Disaster Case Study  Units: 3
This course will focus on the analysis of disaster events across a broad spectrum of causation, mitigation, response and recovery and their impacts on involved communities.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 421 # - Critical Thinking and Strategic Intelligence  Units: 3
This course offers an overview of critical thinking and its applications in the homeland security context. The focus is on essential elements of thought, asking the right questions, uncovering fallacies in reasoning and statistical misrepresentations. Evidence evaluation in a homeland security setting is featured with several examples interpreting real-world information. This course then examines the role of intelligence in homeland security policy and practice and how critical thinking applies to intelligence. The course analyzes the intelligence process with an emphasis on the role of the policy maker.
Enrollment Requirements: Prerequisite: EMHS 300 or EMHS 311 Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 422 # - Public Health and Disasters  Units: 3
The course examines the issues and concepts that make up the field of Public Health and how Public Health prepares for and supports disaster response. It will examine the intersection of security and public health policy, threats to public health, legal and policy infrastructure and the tools that are available to improve preparedness, response and recovery efforts.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 423 # - Critical Infrastructure and Resource Protection  Units: 3
Critical Infrastructure Protection (CIP) is a cornerstone of homeland security. This course examines the framework of CIP and provides the tools and techniques to identify, plan and implement protection for CIP.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 425 # - Emergency Management/Homeland Security Leadership & Communication  Units: 3
This course will introduce students to concepts, theories, principles and practices of leadership, public information and communication in All-Risk environments, as well as effective leadership principles in an emergency management shared power context.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 427 # - Critical Incident Management for Public Safety  Units: 3
This course prepares the student in the direct response, operations and management of critical incidents. Emphasis is placed upon the theoretical and applied models to understand and manage disasters, terrorism, and school/workplace violence.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 429 # - Transportation Systems: Security and multi-modal transportation  Units: 3
This course examines issues and concepts that make up the field of transportation systems and their security from potential terrorist attacks or terrorist activity. It also examines historical transportation disasters.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

EMHS 470 # - Emergency Management Homeland Security Internship  Units: 3
This course will provide the student with the practical experience in an actual work environment. Emphasis is placed on all phases of the industry in the student’s area of specialization (Local or State Emergency Management Office, Public Health, Homeland Security or Business Continuity). Students are acquainted with occupational responsibilities through realistic work situations and are provided with insights into management applications on the job. Topics include: Adaptability to the job setting, use of proper interpersonal skills, application of emergency preparedness skills and techniques, and professional development.
Enrollment Requirements: Prerequisite: Students must be admitted to the Emergency Management/Homeland Security program and have completed 30 program credits

EMHS 490 # - Emergency Management Homeland Security Capstone  Units: 3
This is a capstone course which will provide the student with a thorough review of all theories, techniques, and management practices within the field of emergency management and homeland security.
Enrollment Requirements: Students must be admitted to the Emergency Management/Homeland Security program Department approval required

Emergency Medical Services (EMS)

EMS 101 # - CPR and First Aid  Units: 1
This course is a video-based instructional module in CPR and First Aid. It includes peer practice, manikin practice, and case discussions. This course may be conducted to train students in the academic setting or to provide emergency training in the workplace.
Transferability: May not transfer towards an NSHE bachelor’s degree

EMS 108 # - Emergency Medical Technician Training  Units: 6
This course is designed for individuals who anticipate working with an ambulance service, a hospital emergency department, fire department, police department, mining operation or in other occupational fields where medical emergencies are common. At the successful completion of this course, the student will be eligible to receive EMT Certification from the National Registry of EMT’s and the State of Nevada Health Division. Student must be 18 years old upon completion of this class. * Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: Current American Heart Association Healthcare Provider CPR card
EMS 109 # - Emergency Medical Service Refresher  Units: 2
The Emergency Medical Technician refresher course is offered for individuals who wish to recertify their EMT-Basic or Intermediate certification as well as renew their CPR certification. This course will recertify EMT-Basic and Intermediate certificates for a two year period. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Current EMT Basic or Intermediate Certification

EMS 110 # - Emergency Medical Tech Instructor Training  Units: 3
This course trains instructors to teach the Department of Transportation Basic Training Program for Emergency Medical Technician-Ambulance. The course emphasis is on the development of teaching skills as opposed to emergency care skills. Course includes the following: 1) components of teaching-learning process; 2) methods of teaching (teaching theory and teaching skills); 3) preparation and use of a variety of media and materials; and 4) purposes and methods of evaluation. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT I Basic certification and department approval

EMS 113 # - EMS First Responder  Units: 4
This course emphasizes development of student skills in patient assessment and emergency medical care procedures including life threatening emergencies, injuries to various body parts, emergency childbirth, techniques of moving patient, etc. Transferability: May not transfer towards an NSHE bachelor's degree

EMS 114 # - First Responder Refresher  Units: 1
This 16-hour course is designed to review and update knowledge and skills in the First Responder (EMS 113) course for those persons who have been certified as First Responders. Transferability: May not transfer towards an NSHE bachelor's degree

EMS 115 # - Advanced Emergency Medical Technician  Units: 7
The Advanced Emergency Medical Technician course will build upon skills learned at the EMT level including performing specified invasive skills per national standard curriculum for EMS. The student will also obtain more in-depth knowledge on body systems and disease processes in adults and children. Transferability: May not transfer towards an NSHE bachelor's degree

EMS 198 # - Special Topics in EMS  Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits. Transferability: May not transfer towards an NSHE bachelor's degree

EMS 200 # - Fundamentals of Paramedic Medicine  Units: 3
Information will be provided that defines the roles and responsibilities of the paramedic and the importance of scene safety and wellness when practicing in the field. The course also provides information on injury prevention and the use of protective equipment needed to protect the paramedic in the field. It will provide the student with an understanding of the medical-legal and ethical issues which will impact them in their career. At the completion of this course, the EMT-Basic skills will be assessed and reviewed. * This course satisfies 10 contact hours of Human Relations general education requirements. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 201 # - Intro to Paramedic Fundamentals  Units: 6
The Introduction to Paramedic Fundamentals course is designed to measure and ensure the basic knowledge base of Paramedic students in the areas of basic EMS knowledge, medical math, medical terminology, and anatomy and physiology for the Paramedic. *This course satisfies 10 hours of Human Relations general education requirement. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to TMCC Paramedic Program

EMS 202 # - Advanced Cardiology for Paramedics  Units: 3
This course prepares the Paramedic student to understand and treat cardiac dysrhythmias specific to S-T Elevation Myocardial Infarction (STEMI) per current American Heart Association guidelines and protocols utilizing 12-Lead Electrocardiography and pharmacological treatments. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to TMCC Paramedic Program
Term Offered: Spring and Fall

EMS 203 # - Assessment Based Management I  Units: 3
This course will assist the Paramedic student to become familiar with nationally recognized testing. Computer adaptive testing will be utilized to simulate the nationally recognized testing environment. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to TMCC Paramedic Program
Term Offered: Spring and Fall

EMS 205 # - Principles of Pathophysiology  Units: 3
This course prepares the student to understand basic medical terminology, microscopic and gross anatomy and physiology. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 206 # - Prin Pharmacology/Medication Admin/Venous Access  Units: 3
This course prepares the student to understand and be able to integrate the principles of pathophysiological pharmacology and the assessment findings to formulate a field impression and implement a pharmacologic management plan for patients in the prehospital environment. The course also introduces the paramedic student to venous access, IV therapy, medication administration and drug calculations that will be used in treating patients in the prehospital environment. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 207 # - Airway Management and Ventilation for Paramedics  Units: 2
Students successfully completing this course will demonstrate a behavioral, cognitive, and psychomotor understanding of, and proficiency with, basic and advanced airway management. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program
EMS 209 # - Patient Assessment for Paramedics Units: 3
This course introduces the Paramedic student to a comprehensive physical examination and assessment, which includes history taking, clinical decision making, communications, and documentation. * This course satisfies 5 hours of Human Relations general education requirement.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 210 # - Principles of Cardiology for the Paramedic Units: 3
This course prepares the Paramedic student to identify single and multilead cardiac rhythms and treat those rhythms considered to be life-threatening with electrical therapy. The skills taught include defibrillation, cardioversion, and cardiac rhythm interpretation. It will also prepare the student to assess, manage and treat various cardiovascular emergencies that includes ventricular fibrillation, bradycardia, tachycardia, myocardial infarction, cardiogenic shock, pulmonary edema, angina pectoris, congestive heart failure, hypertension, PEA (pulseless electrical activity), and asystole.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 211 # - Paramedic Care for Medical Emergencies and ACLS Units: 4
This course will prepare the Paramedic student to identify, assess, manage, and treat various medical emergencies and communicable diseases. Advanced Cardiac life Support is required for healthcare providers who either direct or participate in the resuscitation of a patient, in the prehospital or hospital setting. * This course satisfies 10 hours of Human Relations general education requirement.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 212 # - Paramedic Trauma Emergencies and ITLS Units: 3
This course will prepare the paramedic student to identify, assess, manage, and treat various types of trauma emergencies. The ITLS course will teach paramedic students the skills necessary to recognize mechanisms of injury, assess, perform critical interventions, package for transport, and fundamental knowledge and experiences necessary to deliver the trauma patient to the emergency department. * This course satisfies 10 hours of Human Relations general education requirement. This course may not transfer to a baccalaureate degree in art or science within the universities in the Nevada System of Higher Education (NSHE).
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 214 # - Pediatrics & Special Consideration for Para/Pals Units: 3
This course prepares the Paramedic to identify, assess, manage, and treat age related emergencies, and other special challenges. The student will also be introduced to the concept of assessment based management. Topics include Neonatology, Pediatrics, Geriatrics, Abuse and Assault, and Patients with Special Challenges. *
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 215 # - Assess Based Management/Operation for Paramedic Units: 3
This course addresses the principles of Assessment Based Management that will teach the paramedic student how to implement a plan for patients with common complaints. The course will also prepare the Paramedic for the concepts of medical incident command, ambulance and rescue operations, hazardous materials incidents, and crime scene awareness. *
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: EMT or EMT Advanced and acceptance into the Paramedic Program

EMS 216 # - Hospital Clinical Experience for the Paramedic Units: 4
This course allows the paramedic student to apply learned classroom skills and knowledge in the hospital environment such as telemetry, intensive care unit, psychiatric unit, emergency department, and labor and delivery. The student will function under the direction of a nurse or paramedic preceptor.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Completion of TMCC Paramedic Program didactic courses EMS 200 through EMS 215

EMS 217 # - Field Internship for the Paramedic Units: 4
This course is designed to introduce the Paramedic student to the advanced life support prehospital operations. The student will also become familiar with procedures and care provided by paramedics in the field, and will be a third person on a paramedic rescue unit and will work directly with his or her paramedic preceptor. *
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Completion of the Didactic and Clinical portion of the Paramedic Program, EMS 216

Energy Technology (ENRG)
ENRG 110 # - Basic Electricity Units: 3
An introductory course in electrical principles, applications, and distribution. This course provides an overview of safety, circuits, wiring, grounding, resistance, current, voltage, and troubleshooting. Students will develop a basic understanding of how electricity is distributed and the implications of the emergence of renewable energy resources. This course satisfies 30 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

ENRG 120 # - Fundamentals of Energy Efficiency Units: 3
This course introduces students to techniques for the description, measurement, and analysis of energy use in buildings systems to maximize efficiency. It will include evaluation and recommendation of alternative energy solutions that will result in greater energy efficiency and energy cost savings.
Term Offered: All Semesters

ENRG 130 # - Introduction to Solar Energy Units: 3
This course will introduce students to solar energy, its history, sun movement, regional climatological data, energy reflection, transmission and absorption, heat transfer, storage, collector systems, and sizing.
Term Offered: AS NEEDED
ENRG 132 # - Solar Photovoltaic Technologies  Units: 3
This course is designed to give students the basic knowledge of solar energy principles and photovoltaic applications. Topics will include PV markets and applications, safety, basic electrical, solar energy fundamentals, PV module fundamentals, system components, PV system sizing, PV system electrical and mechanical design, performance analysis, and troubleshooting.
Enrollment Requirements: Prerequisite: ENRG 130
Term Offered: AS NEEDED

ENRG 142 # - Solar Thermal Technologies  Units: 3
This course introduces students to solar hot water and space heating systems. Topics will include system selection, site analysis, design and sizing, component selection, installation, troubleshooting, maintenance, codes and safety. The course will explore the application of solar thermal systems in both residential and commercial settings.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENRG 130
Term Offered: AS NEEDED

ENRG 150 # - Introduction to Wind Energy  Units: 3
This course will cover basic principles of wind energy. Class topics will include the many facets of the proper placement (siting) of individual wind turbines as well as wind farms. Also addressed will be the physical restrictions, institutional restrictions, wind turbine noise, placement near the grid, spacing of turbines, social aspects of wind turbines, installation and environmental issues associated with wind turbines.
Term Offered: AS NEEDED

ENRG 152 # - Wind Energy Technologies  Units: 3
This course is designed to give the student an overview of the operation of wind turbine sites. Topics will include principles of operation, including safety, electromechanical maintenance, failure prediction, environmental issues, wind energy resource analysis, and financial analysis.
Enrollment Requirements: Prerequisite: ENRG 150

ENRG 171 # - Well Design, Construction, and Geology  Units: 1
This course is designed to give students a basic understanding of the energy source fueling a geothermal power plant. Students will also gain an understanding of the basic principles of geology as they relate to geothermal systems. Methods of drilling, well construction and development will also be covered.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MATH 96 or higher; ENG 101 or ENG 113 or higher
Term Offered: AS NEEDED

ENRG 172 # - Fluids, Piping, Valves and Pumps  Units: 4
This course is designed to give students a basic understanding of fluid properties, fluid dynamics, and fluid systems equipment. Class topics will include gases, vapors, liquids, density, viscosity, laws of thermodynamics and conservation, and the relationship of pressure, elevation head, friction losses, parallel flow, series flow, work, and water hammer. Students will also gain an understanding of the typical equipment found in fluid systems such as piping, valves, pumps, compressors, and turbines.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MATH 120 or higher and ENG 101 or higher, or qualifying placement scores
Term Offered: AS NEEDED

ENRG 173 # - Geothermal Plants, Turbines, and Generators  Units: 3
This course is designed to give students a basic understanding of thermodynamics and geothermal power plant systems equipment. Class topics will include the laws of thermodynamics, heat engine power cycles, geothermal power plant configuration, and common equipment used in geothermal power plants. Students will also gain an understanding of the principles used in geothermal power plant operation, common references, performance evaluation, and maintenance practices.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MATH 96 or higher; ENG 101 or 113 or higher
Term Offered: AS NEEDED

ENRG 174 # - Environmental Regulations for Geothermal Plant Operators  Units: 1
Students will be familiarized with the required permits and regulations governing the operational phase of a Geothermal Power Plant. Typical permits covered will include Federal Land Agency approvals and mitigation measures, State drilling permits and well closure requirements, State operating permits (UIC, NPDES, and Solid Waste Site permits), and conditional or special use permits issued by local entities (counties and municipalities).
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENG 101 or 113 or higher
Term Offered: AS NEEDED

ENRG 178 # - Special Topics in Energy Technologies  Units: 0.05-6
Various short course and experimental classes covering a variety of subjects. The course is variable credit of one-half to six credits depending on the course content and number of hours required. This course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

ENRG 215 # - Electrical Distribution Systems  Units: 3
This course will give students an overview of electrical distribution systems. Topics will cover power transmission over the grid, data collection and analysis, data communication, and networking.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

ENRG 271 # - Fundamentals of Process Controls and Instrumentation  Units: 3
This course will provide students with hands-on practical knowledge of geothermal process controls and instrumentation used in a geothermal power plant. Topics will cover the commonly used types of instruments (temperature, pressure, flow, level, speed, vibration), actuators and positioners (pneumatic, hydraulic), and controllers (PLCs, governors, voltage regulators, dedicated loop controllers), and materials of construction, selection, principles of operation, common references, performance evaluation, maintenance practices, and calibration.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MATH 126; ENG 101 or 113 or higher; ENRG 173
Term Offered: AS NEEDED
Engineering (ENGR)

ENGR 100 # - Introduction to Engineering Design
This course is an overview of engineering practice and provides exposure to the environment in which engineers work. The course introduces the design process including initial conceptualization (sketching), detailed drawings (drafting), and prototype fabrication (machine shop). Learning to work as part of an engineering team is a central part of this course.
Term Offered: Spring and Fall
Units: 3

ENGR 110 # - Introduction to Renewable Energy
This course is designed to give the student basic knowledge in the following areas of solar energy: history, sun movement, climatological data for Reno, Nevada; energy reflection, transmission and absorption, heat transfer, heat storage, collector systems and sizing.
Term Offered: Spring and Fall
Units: 3

ENGR 243 # - Fluid Mechanics, Hydraulics and Hydrology
Overview study of the behavior of fluids at rest and in motion and principles of hydrology; quantitative hydraulics; prediction of runoff; hydrologic applications in urban settings; overview of storm water systems.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MATH 126 and ENGR 100
Term Offered: Spring and Fall
Units: 3

ENGR 244 # - Introduction to Engineering Economics
Consideration of various economic calculations such as present worth, benefit-cost and rate of return analyses in engineering decision making.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: MATH 126 and ENGR 100
Term Offered: AS NEEDED
Units: 2

ENGR 245 # - Materials Behavior and Statistical Analysis
Construction materials behavior and various specifications used in quality control and quality assurance.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: MATH 126 and ENGR 100
Term Offered: AS NEEDED
Units: 4

English (ENG)

ENG 101 # - Composition I
Writing intensive course designed to strengthen college level writing skills, with particular attention to persuasion, analysis, synthesis and an introduction to research methodologies. Focus on process through drafting, revising and editing is emphasized. Conventions of standard English are reviewed. Additionally, critical reading strategies of college level texts are developed.
Enrollment Requirements: Prerequisite: Grade of ‘C’ or better in ENG 98 or qualifying placement; High School GPA, ACCUPLACER Reading Comprehension (RC) 86+, SAT, ACT, or AP RC 76-85, cannot take online and corequisite of READ 135 is required Fall ESL READ 135 (1007)
Term Offered: All Semesters
Units: 3

ENG 102 # - Composition II
Continuation and extension of English 101 with an exploration of essay forms with particular attention to interpretation, analysis and synthesis, while emphasizing analytical reading and writing, critical thinking and research methodologies.
Enrollment Requirements: Prerequisite: ENG 101 or equivalent or qualifying SAT/ACT score
Term Offered: All Semesters
Units: 3

ENG 107 # - Technical Communications I
Introduction to expository methods with concentration on specific writing forms including memorandums, cover and business letters, formal and informal reports, manuals, and proposals. Suggested for students in occupational fields.
Enrollment Requirements: Prerequisite: ENG 97 or ENG 98 or qualifying ACCUPLACER, ACT/SAT score
Term Offered: All Semesters
Units: 3

ENG 108 # - Technical Communications II
A continuation of expository methods. Concentration on developing writing projects required on the job. Lecture and individual instruction. Suggested for students in occupational fields.
Units: 3

ENG 112A # - ESL Listening Skills
This is a bridge-to academics ESL course to help students establish and practice the listening skills necessary for successful academic work. These include techniques for predicting, focusing, note taking, main idea and organizational-pattern recognition and summarizing.
Enrollment Requirements: Prerequisite: ACCUPLACER test score; or UNR-IELC Bridge test; or 81-level courses (ENG 81A and ENG 81C)
Term Offered: Spring and Fall
Units: 3

ENG 112B # - ESL Reading Skills
This course helps students establish and practice the reading skills necessary for successful academic work. Academic content material (e.g. text chapters, literature and news articles) is used to develop students’ skills in recognizing organizational patterns, critical analysis, summarizing and synthesizing. Techniques to develop comprehension and retention are emphasized.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: ACCUPLACER test score; or UNR-IELC Bridge test; 81-level courses (ENG 81A and ENG 81C); or ENG 112D with WCSC GPA < 30 Corequisite: ENG 112D with WCSC GPA < 30
Term Offered: Spring and Fall
Units: 3

ENG 112C # - ESL Composition
This course improves the non-native speaker’s academic writing skills, including rhetorical style and use of rhetorical patterns, grammar, paragraph and essay development and writing strategies.
Enrollment Requirements: Prerequisite: ACCUPLACER test score; UNR-IELC Bridge test; 81-level courses (ENG 81A and 81C); or ENG 112D with WCSC GPA < 30 Corequisite: ENG 112C with WCSC GPA < 30
Term Offered: Spring and Fall
Units: 3

ENG 113 # - Composition I for International Students
Writing the expository essay; develops fluency and emphasizes development, coherence, style, revision, and editing for target-language accuracy. This course satisfies the English 101 requirement for non-native English speakers.
Enrollment Requirements: Prerequisite: Qualifying high school GPA; ACCUPLACER, ACT/SAT, or AP placement score; UNR-IELC Bridge test; C- or better in 112-level courses; C- or better in ENG 112D Corequisite: READ 135 (section 1007) with qualifying ACCUPLACER test score
Term Offered: Spring and Fall
Units: 3

ENG 114 # - Composition II For International Students
Exploration of essay forms with particular attention to interpretation and argument; emphasis on analytical reading and writing, critical thinking, and research methodologies; attention to language skill development and needs of learners of English as a second language. This course satisfies the English 102 requirement for non-native English speakers.
Enrollment Requirements: Prerequisite: ENG 113 or equivalent or qualifying SAT/ACT score
Term Offered: Spring and Fall
Units: 3
ENG 181 # - Vocabulary and Meaning  Units: 3  Problems of meaning, word derivation and word formation are investigated with a view to enlarging and refining a working English vocabulary. Transfers for two credits to UNLV/UNR.
Term Offered: All Semesters

ENG 199 # - Literary Journal  Units: 3  ENG 199 "Literary Journal" is a hands-on practicum in the preparation and production of a literary journal. Students who enroll in this course will become editorial board members of The Meadow, TMCC's award-winning literary arts journal. Working closely with faculty, students help to select the art, poetry, fiction and nonfiction content of the journal. Further, students edit and copyedit content and participate in production, layout and printing of the journal. Students are involved in every aspect of the journal, from publicity through distribution.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Spring and Summer

ENG 200 # - Novels Into Film  Units: 3  Examination of selected novels and their translation into film, designed to explore each art form's and each work's distinct structures and meanings.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Spring

ENG 202 # - Film Analysis and Interpretation  Units: 3  Introduces the critical study and interpretation of film art, exploring aspects of film style and basic theoretical concerns while presenting a survey of important film genres, both narrative and non-narrative.
Enrollment Requirements: Prerequisite: ENG 101 or equivalent or qualifying SAT/ACT score
Term Offered: Spring

ENG 205 # - Intro to Creative Writing: Fiction and Poetry  Units: 3  Beginning writers' workshop in both poetry and fiction.
Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 101 or qualifying English placement score
Term Offered: Spring and Fall

ENG 220 # - Writing Poetry  Units: 3  The study of poetry writing methods and forms with concentration on the student's creative writing.
Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 101 or qualifying English placement score
Term Offered: Spring and Fall

ENG 221 # - Writing Fiction  Units: 3  The study of fiction writing methods and forms with concentration on the student's creative writing.
Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 101 or qualifying English placement score
Term Offered: All Semesters

ENG 222 # - Advanced Fiction: Novel Writing  Units: 3  This course is a continuation of ENG 221 with an emphasis on novel writing. The class will be conducted as a writer's workshop.
Enrollment Requirements: Prerequisite: ENG 221 or instructor approval
Term Offered: Spring and Summer

ENG 223 # - Themes of Literature  Units: 3  The study of themes and ideas significant in poetry, prose, and film of various literary periods.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Spring and Summer

ENG 224 # - Introduction to Screenwriting  Units: 3  The study of screenwriting methods and forms with a concentration on the student's creative writing.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Fall

ENG 225 # - Advanced Screenwriting  Units: 3  This course continues the work of English 224 by developing advanced screenwriting skills with an emphasis on the student's creative writing. This course will focus on the production and revision of a feature length screenplay.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENG 224 or instructor approval
Term Offered: Spring

ENG 230 # - Writing Creative Non-Fiction  Units: 3  The study of creative non-fiction writing methods and the art of the personal essay with concentration on the student's creative writing.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: AS NEEDED

ENG 231 # - World Literature I  Units: 3  Introduction to aesthetic and ideological trends in the Western world. Reading of literary masterpieces through the year 1650.
Enrollment Requirements: Prerequisite: Completion of ENG 101 or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: Summer and Fall

ENG 232 # - World Literature II  Units: 3  Introduction to aesthetic and ideological trends in the Western world through reading of literary masterpieces from 1650 to present.
Enrollment Requirements: Prerequisite: Completion of ENG 101 or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: Spring and Summer

ENG 235 # - Survey of English Literature I  Units: 3  Major figures and movements in American literature from the Colonial period to the Civil War.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Fall

ENG 236 # - Survey of English Literature II  Units: 3  Major figures and movements in American literature from the Colonial period to the Civil War.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Spring

ENG 241 # - Survey of American Literature I  Units: 3  Major figures and movements in American literature from the Colonial period to the Civil War.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: Fall
ENG 242 # - Survey of American Literature II  
A study of major thought and expression in the American literary experience from the Civil War to the present. Writers include Twain, James, Hemingway, Faulkner and others. Transfers to UNR as a general elective.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: Spring

ENG 243 # - Introduction to the Short Story  
The study of short story masterpieces with an eye toward understanding the genre and its characteristics.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: Spring

ENG 245 # - Introduction to the Novel  
Introduction to the form and development of the novel. May be taught thematically.  
Enrollment Requirements: Prerequisite: ENG 101 or instructor approval  
Term Offered: Spring

ENG 250 # - Introduction to Children's Literature  
A survey of historical periods, major writers, and trends in children's literature, primarily in the Western tradition.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: Spring

ENG 252 # - Introduction to Drama  
Introduction to the genre of drama with attention to plays and playwriting through time.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: Fall

ENG 258 # - Ashland Theatre Festival  
Field trip to Ashland, Oregon to see classical, period, modern and Shakespearean plays. Students study plays prior to the field trip, discuss productions and write brief reviews of the plays.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: Fall

ENG 261 # - Intro to Poetry  
A study of the poetry genre emphasizing the elements of poetry, its basic types and forms, and representative poets.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: AS NEEDED

ENG 264 # - Psychology and Literature  
An examination of major works of literature to discover the correlation between their universal themes and the theories of psychology as they relate to the human experience.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: AS NEEDED

ENG 267 # - Introduction to Women and Literature  
A consideration of women as writers and as characters in literature. Readings are drawn from poetry, drama, fiction and biography.  
Enrollment Requirements: Prerequisite: Completion of ENG 101 or qualifying ACCUPLACER, SAT, or ACT scores  
Term Offered: Spring and Fall

ENG 271 # - Introduction to Shakespeare  
Shakespeare's principal plays read for their social interest and their literary excellence. Selections from comedies, tragedies and histories.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval

ENG 275 # - Contemporary Literature  
The reading of recent literature of various types to acquaint students with contemporary writers.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: AS NEEDED

ENG 281 # - Introduction to Language  
Nature and function of language, including an introduction to the linguistics subsystem of Modern English and the development of the English language.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval 
Term Offered: Fall

ENG 288 # - Multicultural Literature  
A survey of authors from various ethnic and cultural backgrounds. Readings include biography, essays, poetry, novels, drama, and short fiction.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: AS NEEDED

ENG 294 # - Intro to Women's History and Literature in the Us  
This interdisciplinary survey course examines women's history and literature in the United States from the colonial period to present. It explores the dynamics and cultural construction of race, ethnicity, class and gender in women's historical experience as well as in the portrayal of women in literature, and to a lesser extent, in art, music, and film. Multi-cultural perspectives will be included through examination of African American, Native American, and Latina writers.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: AS NEEDED

ENG 297 # - Reading and Interpreting  
Methods for creating personal, critical responses to literature representing a range of time periods and genres. Based on a thematic approach.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: Spring

ENG 299 # - Writing About Literature  
Introduction to literary study—literary terms, genre, time periods, and analysis.  
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval  
Term Offered: Fall
ENG 299 # - Special Topics in English
The successful student will be able to initiate one on one dialog between student and tutor, focusing on the degree to which the paper fulfills the requirements of the assignment. Diagnose written communication problems and offer suggestions for improving the writing quality. Help peers to evaluate their own writing in terms of fulfilling requirements of assignment, including the appropriate content, and accurately using grammar.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113 or instructor approval
Term Offered: AS NEEDED

ENG 81A # - ESL Listening and Speaking
ENG 081A is an ESL Listening and Speaking course in which students learn speaking and listening skills based on academic content. Using topics typically covered in college courses, students engage in dialogs and discussions, take lecture notes, prepare oral presentations and learn to recognize and use various communication patterns. Satisfactory/Unsatisfactory grading. Course may be repeated for up to 6 credits.
Enrollment Requirements: Prerequisite: Qualifying ACCUPLACER test score
Term Offered: Fall

ENG 81C # - ESL Reading/Writing
ENG 081C assists the ESL student to develop basic reading and writing skills in preparation for college courses. The reading segment will help students to improve confidence, fluency, speech and accuracy in reading. The writing segment will help students to develop short, well-organized paragraphs in several rhetorical styles. Students will learn techniques for revising their own writing with attention to identifying grammar and spelling problems and to expanding vocabulary.
Enrollment Requirements: Prerequisite: Qualifying ACCUPLACER test score
Term Offered: Spring

ENG 83 # - Pronunciation and Spelling for Non-Native Speakers
ESL students will learn the skills to correct their pronunciation and spelling problems. Students will understand the relationship between written and spoken English. This course is ideal for students who experience persistent pronunciation and/or written communication problems.
Enrollment Requirements: Prerequisite: ACCUPLACER placement of English 081 level or above
Term Offered: AS NEEDED

ENG 88 # - ESL Grammar
ENG 088, an intermediate-level English grammar course for non-native speakers, builds understanding of the forms, meanings and uses of key grammar structures, especially those expected in formal written communications. Application of grammar to the development and editing of the students’ own writing and to understanding of written texts is emphasized. This course is especially useful for students taking the ENG 112D, 113 or 114 writing courses. Grading is S/U; the course may be repeated for up to six credits.
Enrollment Requirements: Prerequisite: Qualifying ACCUPLACER test score or completion of ENG 81A and ENG 81C
Term Offered: Spring and Fall

ENG 95 # - Basic Writing II
English 95 provides instruction in basic writing skills particularly sentence patterns and paragraph development leading to the writing of short essays. The course also introduces students to concepts of grammar, mechanics, punctuation, spelling, and word usage. Students in this course must co-enroll in READ 95.
Enrollment Requirements: Prerequisite: ACCUPLACER Reading Comprehension score 56-75
Corequisite: Must be taken concurrently with READ 95

ENG 97 # - Basic Technical Communications
Individualized instruction in reading technical texts and writing short reports similar to those required in business and industry. Designed for students in industrial technology courses.
Enrollment Requirements: Prerequisite: ACCUPLACER Reading Comp 86+ and WritePlacer 1-4
Term Offered: AS NEEDED

ENG 98 # - Preparatory Composition
An intensive course designed to develop writing skills. A step-by-step review of grammatical relationships, sentence patterns, punctuation and usage with concentration on the writing of expository paragraphs and essays. Student writing will primarily be generated from the critical reading of texts taken from across the disciplines. Upon successful completion of the course, the student may move directly into English 101. May be repeated for a maximum of six credits.
Enrollment Requirements: Prerequisite: Qualifying high school GPA, ACCUPLACER Reading Comprehension (RC) score 76-85, or SAT/ACT placement Corequisite: READ 95 REQUIRED with RC score of 56-75, SAT below 440, or ACT below 18
Term Offered: All Semesters

English Skills Center (ESC)

ESC 1 # - English Skills Course
The English Skills Course (ESC-01) is an intensive course designed to develop college-level writing, reading, presentation, and study skills. It includes a step-by-step review of grammatical relationships, sentence patterns, punctuation and usage with concentration on the writing of expository paragraphs leading to essays. Additionally, it includes improvement in fundamental reading skills, including: word-attack skills, vocabulary development, reading comprehension, and fluency. Successful students will learn effective reading strategies to utilize before, during, and after reading. Study skills and presentation skills are embedded in the course.
Enrollment Requirements: Prerequisite: ACCUPLACER Reading Comprehension score 20-55
Term Offered: Spring and Fall

Environmental Science (ENV)

ENV 101 # - Introduction to Environmental Science
This course explores the fundamental components and interactions of earth’s natural systems, the relationships between humans and environment, and solutions to current and potential environmental problems.
Term Offered: Spring and Fall

ENV 198 # - Special Topics in Environment
Covers selected topics of interest to students in environmental science. May be repeated for up to 6 credits.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: AS NEEDED

ENV 290 # - Internship in Environmental Studies
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Department review of student’s activities and development on the job required.
Term Offered: AS NEEDED
ENV 299 # - Special Topics in Environmental Science  
Units: 0.5-3
Consideration of selected current problems and conceptual issues in environment. Issues selected will depend upon current interest of staff and students. No prerequisite.
Term Offered: AS NEEDED

Fire Science (FS)

FS 150 # - Physical Fitness and Nutrition for Fire Service  
Units: 3
This course will assist the student in meeting the National Fire Protection Association Standards related to wellness for first responders. This course will also assist the student in preparing for the physical ability portion of Fire Service Testing. The course includes lectures on fitness, nutrition, stress and disease prevention. The course also includes aerobic and muscle development. Students will be required to complete a physical performed by a doctor meeting NFPA standards. This course will be required for those students not taking the Firefighter II program in the Academy format.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Fall

FS 198 # - Special Topics in Fire Science  
Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: AS NEEDED

Fire Science Technology (FT)

FT 100 # - Introduction to Emergency Services  
Units: 3
This course is designed to give a broad overview of each of the disciplines of emergency services including; Fire, Rescue, EMS, Law Enforcement, Hazardous Materials, and Emergency Management/ Emergency Operations Center functions.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring and Fall

FT 101 # - Introduction to Fire Protection  
Units: 3
This course covers the philosophy and history of fire protection; history of loss of life and property by fire; review of municipal fire defenses; study of the organization and function of federal, state, county and private fire protection agencies. The student will understand the hiring requirements of different agencies and the current job market in suppression, wildland firefighting, prevention and public education. In addition the student will learn the basic terms related to the fire service.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring and Fall

FT 102 # - Entry Level Firefighter  
Units: 3
This course will give the student the basic skills and knowledge necessary to combat structure fires under direct supervision.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring and Fall

FT 106 # - Firefighter I Academy  
Units: 12
The academy covers all of the National Fire Protection Association and Nevada State Firefighter I requirements. The curriculum covers fire behavior, firefighter safety, personal protective equipment, self-contained breathing apparatus, portable fire extinguishers, water supply, fire hose and appliances, nozzles, fire streams, basic building construction, ladders, ropes and knots, rescue procedures, forcible entry, ventilation, salvage and overhaul, hazardous material mitigation to the operational level, basic terrorism, and wildland firefighting (S-110, 130, 190).
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: EMS 108, MATH 95 or higher, ENG 101 and FT 101 or FT 102
Term Offered: Fall

FT 109 # - Internship in Firefighting  
Units: 5
A course designed wherein the students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening and required skills evaluation. Up to 8 semester hour credits may be earned on the basis of 100 hours of internship for 1 credit. May be repeated for up to 8 credits.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: FT 106 (or Firefighter II) and EMS 108 (or EMT-B)
Term Offered: AS NEEDED

FT 110 # - Basic Wildland Firefighting  
Units: 3
This course introduces most aspects of wild land fire control including fire prevention, fire preparedness and fire suppression. Students will become familiar with the Incident Command System, fire behavior, maps, map reading and fire suppression with special emphasis on fire line safety.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Fall

FT 121 # - Fire Prevention I  
Units: 3
Familiarization with national, state and local laws and ordinances influencing fire prevention and fire underwriting; principles and problems relating to fire prevention.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring

FT 122 # - Codes/Ordinances I  
Units: 3
Familiarization with national, state and local laws and ordinances which influence the field of fire protection.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Fall

FT 125 # - Build Construction I  
Units: 3
Fundamentals of building construction and design with emphasis on fire resistance of building materials, assemblies, exposures and related data focused on fire protection. The course will also deal with related codes and statutes and introduce basic blueprint reading.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring

FT 131 # - Hazardous Materials  
Units: 3
A review of basic properties of solids, liquids and gases and the storage, handling, law, standards and firefighting practices pertaining to hazardous materials.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring and Fall

FT 132 # - Hazardous Materials II  
Units: 3
A review of basic properties of solids, liquids and gases and the storage, handling, law, standards and firefighting practices pertaining to hazardous materials.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring and Fall
FT 151 # - Fire Protection Hydraulics and Water Supply  Units: 3
Review of basic mathematics; hydraulic laws and formulae as applied
to fire science; application of formula and mental calculations on
hydraulic problems; water distribution systems; water supply problems;
underwriter's requirements for pumps.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: FREN 111 or a French CAPE
ACT/SAT test results
Term Offered: AS NEEDED

FT 200 # - Leadership and Ethics in Emergency Service  Units: 3
This course is designed to give a comprehensive view of leadership
in emergency services. It is designed around 12 topics of leadership
including: problem solving, decision making, planning skills and cycles,
communication, managing multiple roles, creativity, enhancing your
personal power base, ethics, situational leadership, delegating, coaching,
and discipline. This course and material are directly structured and
related to the National Fire Academy and Emergency Management
Institute under direction of FEMA and Homeland Security.
Term Offered: Spring and Fall

FT 206 # - Firefighter II Academy  Units: 10
This academy builds on the Firefighter I Academy and reinforces
those basic skills. In addition this academy covers: fire department
communications, foams, fireground operations (tactics and strategies),
advanced rescue operations, firefighter survival, fire prevention, public
education, advanced building construction, pre-planning, equipment
operation, equipment maintenance, equipment and hose testing,
hydraulic problems; water distribution systems; water supply problems;
stakeholder’s requirements for pumps.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: FT 106 or Firefighter I Certification

FT 212 # - Fire and Ecology  Units: 3
Fire Ecology and Ecosystem Management studies the science of
ecosystem management and the effects of fire on ecosystem. In addition
the course studies the past and future of fire as a tool in ecosystem
management as well as the social, economic, legal and political
considerations.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

French (FREN)

FREN 111 # - First Year French I  Units: 4
Introduction to the language through the development of language skills
and through structural analysis. Includes an introduction to French
culture. This course transfers to UNR as FREN 111.
Term Offered: Fall

FREN 112 # - First Year French II  Units: 4
Introduction to the language through the development of language skills
and through structural analysis. Includes an introduction to French
culture. This course transfers to UNR as FREN 112.
Enrollment Requirements: Prerequisite: FREN 111 or a French CAPE
Placement score over 260
Term Offered: Spring

FREN 198 # - Special Topics in French  Units: 1-6
Various short courses and experimental classes covering a variety of
subjects. The course will be a variable credit of one to six credits
depending on the course content and number of hours required. The
course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: AS NEEDED

FREN 211 # - Second Year French I  Units: 3
Emphasis is on structural review, conversation, writing, and readings from
texts. This course transfers to UNR as FREN 211.
Enrollment Requirements: Prerequisite: FREN 112 or a French CAPE
Placement score over 337
Term Offered: Fall

FREN 212 # - Second Year French II  Units: 3
A continuation of French 211. Structural review, conversation, writing and
readings in modern literature. This course transfers to UNR as FREN 212.
Enrollment Requirements: Prerequisite: FREN 211 or equivalent or qualifying
CAPE placement score
Term Offered: Spring

Geography (GEOG)

GEOG 103 # - Physical Geography of Earth's Environment  Units: 3
Spatial study of the processes and dynamic systems shaping the
Earth's physical environment. Topics include the nature and distribution
of weather, climate, vegetation, soils, and landforms. Emphasis is
placed upon the interconnectedness of the environment and the
interrelationships between it and human society. Field trips may be
required. Satisfies UNR science core curriculum.
Enrollment Requirements: Prerequisite: MATH 120 or 126 and ENG 98 or
qualifying placement scores Corequisite: GEOG 104
Term Offered: Spring and Fall

GEOG 104 # - Physical Geography Lab  Units: 1
This course is designed to provide supplemental exercises in topics
covered in the Physical Geography lecture course (See GEOG 103
for description). Lab experiences will include map analysis and
interpretation, weather forecasting, landform identification, tectonics,
biogeography, and habitat analysis. Field trips may be required.
Enrollment Requirements: Prerequisite: MATH 120 or 126 and ENG 98 or
qualifying placement scores Corequisite: GEOG 103
Term Offered: Spring and Fall

GEOG 106 # - Introduction to Cultural Geography  Units: 3
An introduction to the distribution, characteristics, and complexity of the
human cultural landscape. Issues addressed include human-environment
interaction, population growth, development, resource utilization, popular
and folk culture, and the role of technology in society. Satisfies UNR
social science core curriculum.
Enrollment Requirements: Prerequisite: Completion of or concurrent
enrollment in ENG 98 or qualifying English placement score
Term Offered: Spring and Fall

GEOG 121 # - Climate Change: the Science Basis  Units: 4
This course explores the science of climate change and how scientists
use models, observations, and theory to make predictions about future
climate. The possible consequences of climate change and its impact
on the landscape, water resources, species distributions, and human
populations are explored. Laboratory experiences investigate climate
data and data models. This course may include fieldwork. Satisfies UNR
natural science core curriculum.
Enrollment Requirements: Prerequisite: MATH 120 or 126 and ENG 98 or
qualifying placement scores
Term Offered: Spring
Geography (GEOL)

GEOL 100 # - Earthquakes, Volcanoes and Natural Disasters  Units: 3
This course will emphasize the geology of earth's natural hazards including earthquakes, volcanoes, tsunamis, landslides, global warming and ozone depletion. Students will learn how geologic processes can directly affect people, property and human made structures. Procedures to mitigate such hazards will be explored. In addition to earth's natural hazards, some other important concepts to be addressed include population growth pressures on natural resources, uniformitarian and geology as a foundation to understanding our environment. Course entails three hours of lecture per week and four 3-5 hour mandatory laboratory exercises per semester.
Enrollment Requirements: Prerequisite: Completion of ENG 98 or higher and MATH 96 or higher, or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: Spring and Fall

GEOL 101 # - Geology: Exploring Planet Earth  Units: 4
A lecture- and laboratory-based course covering fundamental geologic concepts of plate tectonics, formation of rocks and minerals, earth forces that cause earthquakes and volcanoes, and the significance of geologic time in effecting changes in the distribution of continents and oceans. The laboratory experience reinforces and applies concepts discussed during lecture, including effective use of topographic and geologic maps, identification of common rocks and minerals, and three-dimensional interpretation of rock structures, such as folds and faults. The course consists of three hours lecture, three hours lab per week, and one full-day mandatory field activity. Completion of course transfers for four credits to UNR/UNLV.
Enrollment Requirements: Prerequisite: Completion of ENG 98 or higher and MATH 96 or higher, or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: Spring and Fall

GEOL 102 # - Earth and Life Through Time  Units: 4
A lecture- and laboratory-based course examining the evolution of Earth through time including major events in the evolution of the crust, plate tectonics, and biosphere. Course is a continuation of an introductory sequence that begins with how physical processes shaped our planet in GEOL 101 and set the stage for how geological environments and life have changed through time as explored in this course. Course will emphasize how fossils are used to interpret ancient environments, the relationships between organisms, and to sequence the physical and paleobiological history of the Earth. The course consists of 3 hours of lecture and 3 hours of lab per week. A full-day field study is required. Course transfers four credits to UNR.
Enrollment Requirements: Prerequisite: GEOL 101 or consent of instructor
Term Offered: Fall

GEOL 105 # - Introduction to Geology of National Park  Units: 3
A general survey course that examines basic geologic process of the rock cycle, geologic structures, geologic time, and plate tectonics using selected national parks as exemplars of those processes. The course consists of 3 hours of lecture per week and a total of two three-hour labs, and one full-day field study.
Enrollment Requirements: Prerequisite: Completion of ENG 98 or higher and MATH 96 or higher, or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: AS NEEDED

GEOL 106 # - Geology of Geothermal Energy Resources  Units: 3
This course surveys the characteristics, distribution and energy potential of geothermal resources, both world wide and here in Nevada. Course content includes (1) geologic controls on distribution and nature of geothermal systems, (2) the main types of geothermal systems and how energy is harnessed using current technology, and (3) potential geothermal resources that may provide useful energy with emerging technology. The course consists of three hours of lecture per week and one three-hour-long lab and one half-day and one full-day of field studies. The field studies include examining and garnering geologic data of a producing geothermal field and collecting water chemistry and geologic data of an undeveloped but potential geothermal resource. Transfers three credits to UNR and satisfies elective credit for baccalaureate degree in geology.
Enrollment Requirements: Prerequisite: ENG 98 and MATH 96; or qualifying Accuplacer, ACT, or SAT scores
Term Offered: AS NEEDED

GEOL 200 # - World Regional Geography  Units: 3
Survey of the world's major geographic regions, synthesizing their unique physical conditions, economic and political character, and distinctive cultures. Emphasis is placed upon the historical influences and contemporary trends that help explain current problems and conditions, and how these factor influence cultural diversity. Satisfies UNR social science core curriculum.
Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 98 or qualifying English placement score
Term Offered: Spring and Fall

GEOL 205 # - Applications of Geographic Information Systems  Units: 3
Beginning techniques focusing on concepts and hands-on experience using Geographical Information System (GIS), special database software used in solving problems that can be mapped.
Term Offered: AS NEEDED

GEOL 210 # - Introduction to Geotechnology  Units: 3
Provides fundamental map concepts including the origins of maps, types of maps and projections, mapping techniques, location reference systems, and interpreting topographic maps. The uses of Geographic Information Systems (GIS), Global Positioning Systems (GPS), and remote sensing for data analysis and assimilation are also introduced.
Term Offered: Spring and Fall

GEOL 290 # - Internship in Geography  Units: 1-8
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for an application, screening and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 100 hours of internship for one credit. May be repeated for up to eight credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Geology (GEOL)

GEOL 100 # - Earthquakes, Volcanoes and Natural Disasters  Units: 3
A lecture- and laboratory-based course covering fundamental geologic concepts of plate tectonics, formation of rocks and minerals, earth forces that cause earthquakes and volcanoes, and the significance of geologic time in effecting changes in the distribution of continents and oceans. The laboratory experience reinforces and applies concepts discussed during lecture, including effective use of topographic and geologic maps, identification of common rocks and minerals, and three-dimensional interpretation of rock structures, such as folds and faults. The course consists of three hours lecture, three hours lab per week, and one full-day mandatory field activity. Completion of course transfers for four credits to UNR/UNLV.
Enrollment Requirements: Prerequisite: Completion of ENG 98 or higher and MATH 96 or higher, or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: Spring and Fall

GEOL 101 # - Geology: Exploring Planet Earth  Units: 4
A lecture- and laboratory-based course covering fundamental geologic concepts of plate tectonics, formation of rocks and minerals, earth forces that cause earthquakes and volcanoes, and the significance of geologic time in effecting changes in the distribution of continents and oceans. The laboratory experience reinforces and applies concepts discussed during lecture, including effective use of topographic and geologic maps, identification of common rocks and minerals, and three-dimensional interpretation of rock structures, such as folds and faults. The course consists of three hours lecture, three hours lab per week, and one full-day mandatory field activity. Completion of course transfers for four credits to UNR/UNLV.
Enrollment Requirements: Prerequisite: Completion of ENG 98 or higher and MATH 96 or higher, or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: Spring and Fall

GEOL 102 # - Earth and Life Through Time  Units: 4
A lecture- and laboratory-based course examining the evolution of Earth through time including major events in the evolution of the crust, plate tectonics, and biosphere. Course is a continuation of an introductory sequence that begins with how physical processes shaped our planet in GEOL 101 and set the stage for how geological environments and life have changed through time as explored in this course. Course will emphasize how fossils are used to interpret ancient environments, the relationships between organisms, and to sequence the physical and paleobiological history of the Earth. The course consists of 3 hours of lecture and 3 hours of lab per week. A full-day field study is required. Course transfers four credits to UNR.
Enrollment Requirements: Prerequisite: GEOL 101 or consent of instructor
Term Offered: Fall

GEOL 105 # - Introduction to Geology of National Park  Units: 3
A general survey course that examines basic geologic process of the rock cycle, geologic structures, geologic time, and plate tectonics using selected national parks as exemplars of those processes. The course consists of 3 hours of lecture per week and a total of two three-hour labs, and one full-day field study.
Enrollment Requirements: Prerequisite: Completion of ENG 98 or higher and MATH 96 or higher, or qualifying ACCUPLACER, SAT, or ACT scores
Term Offered: AS NEEDED

GEOL 206 # - Geology of Geothermal Energy Resources  Units: 3
This course surveys the characteristics, distribution and energy potential of geothermal resources, both world wide and here in Nevada. Course content includes (1) geologic controls on distribution and nature of geothermal systems, (2) the main types of geothermal systems and how energy is harnessed using current technology, and (3) potential geothermal resources that may provide useful energy with emerging technology. The course consists of three hours of lecture per week and one three-hour-long lab and one half-day and one full-day of field studies. The field studies include examining and garnering geologic data of a producing geothermal field and collecting water chemistry and geologic data of an undeveloped but potential geothermal resource. Transfers three credits to UNR and satisfies elective credit for baccalaureate degree in geology.
Enrollment Requirements: Prerequisite: ENG 98 and MATH 96; or qualifying Accuplacer, ACT, or SAT scores
Term Offered: AS NEEDED

GEOL 100 # - Earthquakes, Volcanoes and Natural Disasters  Units: 3
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

GEOL 100 # - World Regional Geography  Units: 3
Survey of the world's major geographic regions, synthesizing their unique physical conditions, economic and political character, and distinctive cultures. Emphasis is placed upon the historical influences and contemporary trends that help explain current problems and conditions, and how these factor influence cultural diversity. Satisfies UNR social science core curriculum.
Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 98 or qualifying English placement score
Term Offered: Spring and Fall

GEOL 205 # - Applications of Geographic Information Systems  Units: 3
Beginning techniques focusing on concepts and hands-on experience using Geographical Information System (GIS), special database software used in solving problems that can be mapped.
Term Offered: AS NEEDED

GEOL 210 # - Introduction to Geotechnology  Units: 3
Provides fundamental map concepts including the origins of maps, types of maps and projections, mapping techniques, location reference systems, and interpreting topographic maps. The uses of Geographic Information Systems (GIS), Global Positioning Systems (GPS), and remote sensing for data analysis and assimilation are also introduced.
Term Offered: Spring and Fall

GEOL 290 # - Internship in Geography  Units: 1-8
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for an application, screening and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 100 hours of internship for one credit. May be repeated for up to eight credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED
German (GER)

GER 101 # - Conversational German I Units: 3
A basic course emphasizing spoken communication. Course assumes that students have had no prior formal training. Writing, listening and reading skills will be explored. Transferability: May not transfer towards an NSHE bachelor's degree. Term Offered: Fall

GER 111 # - First Year German I Units: 4
Introduction to patterns of German through development of language skills and structural analysis. Includes an introduction to German culture. This course transfers to UNR as GER 101. Term Offered: Fall

GER 112 # - First Year German II Units: 4
A continuation of GER 111. This course transfers to UNR as GER 102. Enrollment Requirements: Prerequisite: GER 111 or equivalent or qualifying CAPE placement score. Term Offered: Spring

GER 198 # - Special Topics in German Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits. Transferability: May not transfer towards an NSHE bachelor's degree. Term Offered: AS NEEDED

GER 211 # - Second Year German I Units: 3
Structural review, conversation and writing, reading in modern literature. Enrollment Requirements: Prerequisite: GER 112 or equivalent or qualifying CAPE placement score. Term Offered: Fall

GER 212 # - Second Year German II Units: 3
A continuation of GER 211. Structural review, conversation and writing, reading in modern literature. Enrollment Requirements: Prerequisite: GER 211 or equivalent or qualifying CAPE placement score. Term Offered: Spring

Graphic Communications (GRC)

GRC 107 # - Design Fundamentals Units: 3-4
Foundation course in the application and appreciation of the basic principles and elements of design, including form, shape, value and spatial relationships. Emphasis will be placed on developing creative skills and working with the design process. Challenge by portfolio is available. Term Offered: Spring and Fall

GRC 109 # - Color and Design Units: 3-4
Color theories, color technologies and the applications of color in art and design. Intermediate, two-dimensional design problems focusing on the compositional, optical and psychological aspects of visual communication. Term Offered: Spring and Fall

GRC 110 # - Drawing and Illustration Units: 4
Foundation course for developing basic skills and techniques in visualizing and rendering images in 2D and 3D presentations. Projects will focus on manual techniques and their applications in print and digital media. Challenge by portfolio is available. Transferability: May not transfer towards an NSHE bachelor's degree. Term Offered: Spring and Fall

GRC 118 # - Computer Graphics/Print Media Units: 3-4
Foundation course that introduces computer systems and applications as they relate to graphic communication for print media. Class will present a project-based overview of vector-draw, image manipulation, page layout and electronic publishing software. Challenge exam is available. Enrollment Requirements: Prerequisite: GRC 107 and GRC 109, or approval of instructor. Term Offered: Spring and Fall

GRC 119 # - Digital Media Units: 3-4
Foundation course that introduces computer systems and applications as they relate to graphic communications for digital media. Class will present a project-based overview of content creation, Web design, Web animation, digital video and 3D modeling. Challenge exam is available. Enrollment Requirements: Prerequisite: GRC 107, GRC 109, and GRC 110 or approval of instructor. Term Offered: Spring and Fall

GRC 120 # - Software Applications-Beginning Photoshop Units: 0.5-1
Software workshop focusing on beginning techniques and applications of the current version of Adobe Photoshop. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree. Transferability: May not transfer towards an NSHE bachelor's degree. Term Offered: AS NEEDED

GRC 123 # - Software Applications-Advanced Photoshop Units: 0.5-1
Software workshop focusing on advanced techniques and applications of the current version of Adobe Photoshop. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree. Transferability: May not transfer towards an NSHE bachelor's degree. Term Offered: AS NEEDED
GRC 124 # - Software Applications-Beginning Illustrator  
Units: 0.5-1  
Software workshop focusing on beginning techniques and applications of the current version of Adobe Illustrator. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

GRC 125 # - Graphics Software Certification  
Units: 1-2  
Intermediate level graphic design software courses meant to prepare students for the Adobe Certified Associate (ACA) exams. Classes will include information on production processes, design principles and software specific instruction, as outlined in the current published Adobe ACA exam objectives. Please verify version of Adobe software in the current class schedule. Course does not include taking the ACA exam. This course may be repeated for up to eight credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: NoneNOTE: If student is working towards the Graphic Software Skills Certificate, GRC 118 and GRC 119 should be taken prior to this class

GRC 126 # - Software Applications-Advanced Illustrator  
Units: 0.5-1  
Software workshop focusing on advanced techniques and applications of the current version of Adobe Illustrator. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree.  
Transferability: May not transfer towards an NSHE bachelor's degree

GRC 127 # - Software Applications-Beginning InDesign  
Units: 0.5-1  
Software workshop focusing on beginning techniques and applications of the current version of Adobe InDesign. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

GRC 128 # - Software Applications-Advanced InDesign  
Units: 0.5-1  
Software workshop focusing on advanced techniques and applications of the current version of Adobe InDesign. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

GRC 129 # - Software Applications-Beginning Dreamweaver  
Units: 0.5-1  
Software workshop focusing on beginning techniques and applications of the current version of Adobe Dreamweaver. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

GRC 130 # - Software Applications-Beginning Flash  
Units: 0.5-1  
Software workshop focusing on beginning techniques and applications of the current version of Adobe Flash. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree.  
Term Offered: AS NEEDED

GRC 131 # - Software Applications-Premiere/Soundbooth  
Units: 0.5-1  
Software workshop focusing on beginning techniques and applications of the current version of Adobe Premiere and Soundbooth. Class is taught hands on with software demonstrations. Class may be used toward the Graphic Communications Certificate but may not be used toward the AAS Graphic Communications Degree.  
Term Offered: AS NEEDED

GRC 132 # - Basic Principles of Animation  
Units: 3  
Introduction to the principles and techniques of 2D animation. Manual assignments will be completed for output to analog and digital formats for screening and portfolio. Course lectures and discussions will include professional production processes for TV, film, games and the Web, as well as potential strategies to gain employment in the field.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: GRC 107 and GRC 110 or approval of instructor  
Term Offered: Fall

GRC 135 # - Storyboarding  
Units: 3  
Introduction to techniques and strategies for visual storytelling. Visual language and syntax for narrative, non-linear, alternative and experimental storytelling methodologies will be explored. Story structure, character development, style, premise, genre, and format (commercial ad, interstitial, PSA, short, feature, music video, Web, games, etc.) will be discussed.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: GRC 107 and GRC 110 or approval of instructor  
Term Offered: Spring

GRC 136 # - Graphic Communications Fundamentals  
Units: 6  
Introduction to the fundamental theories, concepts and technologies of the graphic communications industry. Course will integrate basic business math and business communication instruction into an integrated, project-based curriculum.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Acceptance into the GRC Web Design Fast-Track program

GRC 137 # - Graphics Content Development and Production Techniques  
Units: 6  
Introduction to the creation, development and production of static and dynamic content for use in Internet-based designs. Course will integrate basic business math and business communication instruction into an integrated, project-based curriculum.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: GRC 136 or Acceptance into the GRC Web Design Fast-Track program

GRC 138 # - Graphics Web Design I  
Units: 6  
Introduction to the creation, layout and production of web pages, including the integration of imagery, typography and color. Basic programming concepts, including HTML and CSS. Course will integrate basic business math and business communication instruction into an integrated, project-based curriculum.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: GRC 137 or Acceptance into the GRC Web Design Fast-Track program
GRC 144 # - Electronic Layout and Typography Units: 3
Introduction to typography and page layout software. Typographic theory, copy acquisition, proofreading and fundamentals of typographical layout and design.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 118 or approval of instructor
Term Offered: Spring

GRC 153 # - Commercial Printing Processes Units: 4
An intermediate course in commercial printing processes including screen printing and offset lithography. Hands-on class will focus on electronic pre-press and printing methods used in commercial printing.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 118 or approval of instructor
Term Offered: Spring

GRC 156 # - Design with Illustrator Units: 3
An introductory/intermediate class in the creation and execution of designs and illustrations in the digital environment. Class will focus on vector-draw software, including the tools and techniques required to produce professional-level artwork.
Enrollment Requirements: Prerequisite: GRC 110 and GRC 118, or approval of instructor
Term Offered: Fall

GRC 175 # - Web Design and Publishing I Units: 4
Introduction to authoring for the World Wide Web using industry standard software applications. Topics covered include planning, designing and building a Web site, aesthetics, creating and optimizing computer graphics for Web, information architecture, navigation and interactivity, Web publishing, Web hosting and site management.
Enrollment Requirements: Prerequisite: GRC 119 or approval of instructor
Term Offered: AS NEEDED

GRC 182 # - Digital Video Production Units: 4
Introduction to the basic principles and practices of digital video production. The course covers every phase of introductory digital video preproduction, production and post-production processes from "concept to final output", including story and concept development, lighting, recording and capturing footage, importing and managing clips, editing methods, transitions, special effects, titles, and credits, sound design and output to different formats.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 119 and GRC 135 or instructor approval
Term Offered: AS NEEDED

GRC 183 # - Design with Photoshop Units: 3
An intermediate course in the application of graphics software to create pixel based images using industry standard pixels based software. Class will cover digital camera and scanner operation and emphasize image manipulation and optimization processes for pixel images.
Enrollment Requirements: Prerequisite: GRC 118 or approval of instructor
Term Offered: Fall

GRC 188 # - Web Animation and Interactivity I Units: 3
Introduction to animation and interactivity for use in CD-ROM, DVD or Web based interactive documents using industry standard software applications. Course content focuses on planning, design and building animated and interactive digital content. Topics include information architecture, interface design and navigation, introductory programming, drawing, audio, video, and publishing options.
Enrollment Requirements: Prerequisite: GRC 118 and GRC 119, or approval of instructor
Term Offered: AS NEEDED

GRC 198 # - Special Topics in Graphic Communications Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The class will be a variable credit of one-half to six credits depending upon class content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

GRC 238 # - Graphics Web Design II Units: 6
Intermediate course in the creation, layout and production of web pages, including developing intermediate-level layout and design skills. Continued instruction in programming languages relevant to web design and production. Course will integrate human relations instruction into an integrated, project-based curriculum.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 138 or Acceptance into the GRC Web Design Fast-Track program

GRC 239 # - Graphics Web Design III Units: 6
Advanced course in the creation, layout and production of web pages, including developing advanced-level layout and design skills. Continued instruction in programming languages relevant to web design and production. Course will integrate human relations instruction into an integrated, project-based curriculum, including the development of a student portfolio website for employment in the industry.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 238 or Acceptance into the GRC Web Design Fast-Track program

GRC 244 # - Electronic Layout and Typography II Units: 3
Advanced studio covering typography, graphic design and advertising theories and techniques for print media. Class will focus on creativity and the creative process and how these principles affect communication of ideas. Topics include image/copy interaction, production techniques and the use of type in complex compositions as well as multipage documents.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 144 and GRC 156 or approval of instructor
Term Offered: AS NEEDED

GRC 256 # - Advanced Design with Illustrator Units: 3
An intermediate/advanced class in the creation and execution of designs and illustrations in the electronic environment. Class will focus on vector-draw software and more advanced principles of design to produce artwork for print and digital media.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 122 and 156, or approval of instructor
Term Offered: AS NEEDED

GRC 275 # - Web Design II Units: 3-4
Advanced Web page design using industry-standard applications. Topics include planning and design, programming, interactivity, behaviors, animation, page weighting, meta tags, databases, Web hosting and site management.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 175 or approval of instructor
Term Offered: AS NEEDED
GRC 282 # - Motion Graphics for Video  Units: 3
The principles of animation and motion design applied to graphics production for use in time-based and interactive scenarios. An exploration of animated title sequences, time-based image composing, and audio design principles for applications in entertainment and advertising content creation.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 132 and GRC 182 or instructor approval
Term Offered: AS NEEDED

GRC 283 # - Electronic Imaging II  Units: 3
An advanced course in the application of graphics software to create pixel based imagery using industry standard pixel based software. Class will cover advanced image manipulation and optimization processes for pixel images as well as simple based animation and video manipulation.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 119 and GRC 132 or approval of instructor
Term Offered: AS NEEDED

GRC 284 # - 3D Modeling and Animation  Units: 3
Introduction to basic 3 dimensional modeling and animation techniques and production processes. Topics include 3D modeling, texturing, lighting, animation and rendering using industry-standard 3D software.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 119 and GRC 132 or approval of instructor
Term Offered: AS NEEDED

GRC 288 # - Web Animation II  Units: 3
Advanced animation and interactivity for the Web and CD-ROM using Macromedia Flash. The course extends the skills acquired in GRC 188: Web Animation and Interactivity I, and emphasizes methodology and problem solving.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: GRC 188 or approval of instructor
Term Offered: AS NEEDED

GRC 290 # - Internship in Graphic Communications  Units: 1-8
Supervised work experience with a selected graphic communications business, dependent upon students selected major emphasis. Course is designed to apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor. Available to students entering their last semester of instruction for the GRC associates degree. Contact the department advisor for application, screening and required skills evaluation. 75 hours on the job per credit.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

GRC 294 # - Portfolio Workshop  Units: 1-3
Development of a portfolio for employment in the graphic communications or digital media or transfer to a four-year program. Class will deal with the professional and legal requirements of working in the graphic communications or digital media industry.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: PR: Minimum 24 units of GRC classes or approval of instructor
Term Offered: Spring

GRC 296 # - Independent Study  Units: 1-6
This course is designed for advanced students to pursue work in a specific area of graphic communications. Students must submit a written proposal which becomes a contract for the course of study. Students must meet with a faculty advisor on a regular basis. Course may be repeated up to 6 credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Health Information Technology (HIT)

HIT 180 # - Health Information Management  Units: 3
Students who wish to work in the healthcare industry must show skills as pertaining to the collection, storage and safety of patient's information. Students will learn the basics of Information Technology to accomplish this to include computers, software, servers and networking.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

Hebrew (HEB)

HEB 113 # - Hebrew I  Units: 4
Development of language skills in listening, speaking, reading, writing and structural analysis. Emphasis placed on speaking.
Term Offered: Fall

HEB 114 # - Hebrew II  Units: 4
The object of this course is to develop a basic proficiency in Hebrew through practice in the use of basic language skills and acquisition of vocabulary.
Enrollment Requirements: Prerequisite: HEB 113
Term Offered: Spring

HEB 198 # - Special Topics in Hebrew  Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

HEB 221 # - Intermediate Hebrew I  Units: 3
Structural review, conversation, reading, and writing in Modern Hebrew.
Enrollment Requirements: Prerequisite: HEB 114
Term Offered: AS NEEDED

HEB 222 # - Intermediate Hebrew II  Units: 3
Structural review, conversation, reading, and writing in Modern Hebrew.
Enrollment Requirements: Prerequisite: HEB 221
Term Offered: AS NEEDED
HIST 101 # - US History to 1877  
Survey of U.S. political, social, economic, diplomatic and cultural development from colonial times to 1877. Satisfies the United States Constitution requirement.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: All Semesters

HIST 102 # - U.S. History since 1877  
Survey of U.S. political, social, economic, diplomatic and cultural development from 1877 to the present. Includes examination of the Nevada Constitution and satisfies the Nevada Constitution requirement.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: All Semesters

HIST 105 # - European Civilization to 1648  
Survey of the development of Western civilization up to 1648.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: All Semesters

HIST 106 # - European Civilization since 1648  
Survey of the development of Western civilization from 1648 to the present.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: All Semesters

HIST 111 # - Survey of U.S. Constitutional History  
A survey of the origin, development, and history of the United States Constitution and the Nevada Constitution. Satisfies the U.S. and Nevada Constitution requirements.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: All Semesters

HIST 208 # - World History I  
A survey of the societies and cultures of Asia, Africa, the Middle East, Europe, the Americas and Oceania to 1600. Satisfies TMCC Diversity requirement.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: Spring and Fall

HIST 209 # - World History II  
A survey of the societies and cultures of Asia, Africa, and Middle East, Europe, the Americas and Oceania since 1600. Satisfies TMCC Diversity requirement.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: Spring and Fall

HIST 215 # - History of Sexuality in the United States  
History of sexual identities, practices, and politics in the United States, focusing on the 19th century through present.  
Term Offered: AS NEEDED

HIST 217 # - Nevada History  
Nevada history from exploration to the present. Includes examination of the Nevada Constitution and satisfies the Nevada Constitution general education requirement.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: All Semesters

HIST 225 # - Introduction to the Vietnam War  
The United States involvement in Vietnam beginning during WW II. Decisions made by seven U.S. presidents and their impact and retrospective views of the disastrous ending of the war will be examined.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: AS NEEDED

HIST 227 # - Introduction to Latin American History & Culture I  
An overview of Hispanic history including language, literature, geography, religion, music and politics from the pre-Columbian era to 1826.  
Term Offered: AS NEEDED

HIST 228 # - Intro to Latin American History and Culture II  
An overview of Hispanic history including language, literature, geography, religion, music and politics from 1826 to the present.  
Term Offered: AS NEEDED

HIST 247 # - Introduction to the History of Mexico  
A brief review of Pre-Colombian and Colonial Mexico; Mexican national history beginning with the War of Independence in 1810; political history, geographical, economical and social review. Will satisfy three credits of humanities requirements.  
Term Offered: Spring and Fall

HIST 248 # - Introduction to the American Civil War  
Era of the Civil War from the events immediately preceding the national conflict to its conclusion. Topics covered include: strategy, tactics, battles, generals, politics, economics, why the North won, why the South lost, technology and European diplomatic relations.  
Term Offered: AS NEEDED

HIST 251 # - Introduction to Historical Methods  
Introduction to the basic concepts and techniques of historical investigation and writing.  
Enrollment Requirements: Prerequisite: Completion of 90 units in History with grades of “C” or better  
Term Offered: Spring

HIST 273 # - Introduction to the History and Culture of the Cold War  
This course examines the history and culture of the Cold War (from 1945 through the Vietnam conflict) and its lasting legacy. In particular, the course addresses the Cold War’s influence on politics, economics, diplomacy, national identity, popular culture, and notions of race, class and gender.  
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled  
Term Offered: AS NEEDED
HIST 288 # - Hitler & Stalin: Studies in Tyranny  Units: 3
This class explores the dramatic impact both Hitler and Stalin had on the shaping of the 20th Century. This class will analyze the Empires of Continental Europe and connect the weaknesses and collapse of these empires with the emergence of Fascism and Communism. The rise to power of Hitler and Stalin will be analyzed, as will be their ability to consolidate and maintain power. The class will explore uneasy alliances, military decisions and their outcomes, persecution of populations and the Cold War.
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled
Term Offered: AS NEEDED

HIST 289 # - Introduction to the History of the Middle East  Units: 3
History of the Middle East from antiquity through the fifteenth centuries with special emphasis on Islam in both the religious and cultural senses and upon its institutional, political, and economic development; from the sixteenth to the twentieth century with emphasis upon the Ottoman system, the economic, cultural, and political impact of imperialism and the emergence of the modern state systems. Includes cross-cultural comparisons across the region and places Middle Eastern culture within the context of the world community.
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled
Term Offered: AS NEEDED

HIST 291 # - Intro to Women's History and Literature in the Us  Units: 3
This interdisciplinary survey course examines women's history and gender relations in the United States from the colonial period to the present. It explores the dynamics and cultural construction of race, ethnicity, class, and gender in women's historical experience. In addition, it examines the portrayal of women in literature and, to a lesser extent, in art, music and film. Multi-cultural perspectives will be included through examination of African American, Native American and Latina writers.
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled
Term Offered: AS NEEDED

HIST 294 # - Introduction to African American History II  Units: 3
A survey of African American history from emancipation to the present. Topics include the meaning of emancipation; the emergence of legal racial segregation; strategies of accommodation and resistance in the early 20th century; the emergence and decline of the modern civil rights movement; and contemporary issues in African American studies.
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled
Term Offered: AS NEEDED

HIST 295 # - Special Topics in History  Units: 1-3
Provides students with the opportunity to explore the significance and historical origins of world issues and events requiring special focus. This course allows faculty the flexibility to address issues and concepts of immediate relevance in global society. Students may repeat this course to a maximum of nine credits.
Enrollment Requirements: Prerequisite: ENG 101 or equivalency completed or concurrently enrolled
Term Offered: AS NEEDED

Human Development and Family Studies (HDFS)

HDFS 201 # - Lifespan Human Development  Units: 3
This course is the study of human growth and development from conception through death. All domains of development are studied including physical, cognitive, and social/emotional aspects of development.
Term Offered: Spring and Fall

HDFS 202 # - Introduction to Families  Units: 3
This course is a study of contemporary family life. Students are introduced to family research and theory and the family life cycle. The dynamics of family systems, including communication, gender issues, intimacy and love, marriage and divorce, sexuality, parenting, balancing work and family, diversity in family structure, and family stress are also explored.
Term Offered: Spring and Fall

HDFS 232 # - Diversity in Children  Units: 3
This course focuses on the development of young children from birth through eight years old. It examines the typical and atypical physical, social/emotional, language and cognitive development of young children. The course is also a study of how children are diverse in many ways including language, culture, race, religion, ethnicity, gender/s, sexuality, family circumstance, and ability. Students explore their own understanding of diversity, multiculturalism, and tolerance and apply concepts of both child development and diversity to their own work with young children. Satisfies TMCC Diversity requirement.
Term Offered: Spring and Fall

Humanities (HUM)

HUM 101 # - Introduction to Humanities I  Units: 3
A survey of the major cultural influences from ancient Egypt through the Renaissance in western civilization: music, art, literature, film and philosophy. Course considers important movements and figures.
Term Offered: Spring and Fall

HUM 102 # - Introduction to Humanities II  Units: 3
A survey of the major cultural influences from the Baroque to the Modern Era in western civilization: music, art, literature, film and philosophy. Course considers important movements and figures. A continuation of Humanities 101.
Term Offered: Spring and Fall

HUM 105 # - The Art of Film  Units: 3
This course will introduce the study of films from particular genres (for example, the science fiction film), directors (for example, the films of Alfred Hitchcock) or stars (for example, the films of Katherine Hepburn) and relate them to the human values these films depict. It will also introduce some of the techniques and language of filmmaking in general. (Same as THTR 180.)
Enrollment Requirements: Prerequisite: Completion of ENG 101 or equivalent
Term Offered: Spring and Fall

HUM 106 # - Introduction to the American Motion Picture  Units: 3
This course gives insight into the development of film as an artistic medium in the United States, organized chronologically and discussing outstanding directors and producers.
Enrollment Requirements: Prerequisite: Completion of ENG 101 or equivalent
Term Offered: Spring and Fall
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.

Transferability: May not transfer towards an NSHE bachelor's degree

Term Offered: AS NEEDED

HUM 201 # - History of the Built Environment

This course will review the built form of architecture and urban design from various cultures an civilizations throughout history. Specific periods include the Ancient World, the Medieval Period, the Renaissance and Modern Times. Historical events along with developments in architecture of non-western civilizations that have shaped philosophies, cultures and civilizations will also be discussed. Same course as AAD 201. Satisfies TMCC Diversity requirement.

Enrollment Requirements: Prerequisite: ENG 98 or equivalent placement score

Term Offered: Spring and Fall

HUM 211 # - Survey of Chinese Culture

Survey of Chinese Culture will introduce the student to key events and concepts from China's cultural development from roughly the time of the ancient Shang dynasty to the People's Republic of China. China's contributions to philosophy, literature and art. Fulfills TMCC and UNR Diversity requirement.

Term Offered: Fall

HUM 214 # - Survey of Middle East Culture

Survey of Middle East Culture introduces students to the many peoples, cultures, and religions of the Middle East. A fundamental focus of the course is the understanding and analysis of interrelations between diverse cultures. The course explores the unique trends and forms of literature, architecture, paintings, and music that have spread throughout the Middle East region. It also analyzes how thinkers, writers and artists in these societies have expressed the religious, political and gender divisions within their own cultures. Finally, the course includes an examination of the complex relationships between the Middle East and the West. The class fulfills UNR's diversity requirement.

Term Offered: AS NEEDED

HUM 225 # - A Cultural Perspective: Spain...New Mexico

A perspective of cultural diversity in Spain and the American Southwest. This course will introduce the differing cultures of Spain within a historical context. Students will look closely at the intertwining of art, religion and history during the Middle Ages, focusing on the Camino de Santiago, the St. James pilgrimage route across northern Spain that is still traveled today. The course will include a study of the influence of the Moors upon the language, art and philosophy of Spain. It will trace the first Spanish explorers as they brought the traditions of the Old World into New Mexico, before the founding of Jamestown. This blending of the Spanish and Pueblo cultures has resulted in the uniqueness of the Southwest today. The course will be taught in English and is the same as Spanish 225.

Term Offered: AS NEEDED

HUM 260 # - American Indian Literature and Culture

This course explores the continuity between oral traditions of American Indian culture and literary works of contemporary American Indian authors. Participants will gain knowledge of tribal creation accounts, trickster cycles, and traditions of illness and curing.

Term Offered: AS NEEDED

HUM 271 # - Film and Literature

This course introduces students to the world's great literature through study and analysis of the written text and the experience of viewing the adaptation of the text to the film medium. Students will not only gain a historical perspective and aesthetic understanding of classic literary works, but they will also experience the visual interpretation of the work in another medium.

Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 101 or qualifying English placement score

Term Offered: Spring and Fall

HUM 272 # - Shakespeare Through Film

This course introduces students to the plays of Shakespeare through reading the plays, viewing film versions of the plays and exploring Shakespeare's art through discussion and writing. The critical emphasis will evaluate the film presentations as an interpretation of Shakespeare's text.

Term Offered: Fall

HUM 295 # - Issues in Humanities

Explores ideas, issues, and movements worthy of special focus for their significant impact on the cultural, social, political, or spiritual values of human civilization.

Term Offered: Spring and Fall

Interdisciplinary Studies (IDS)

IDS 299 # - General Internship Program

The purpose of this course is to prepare students for the world of work by providing a structured internship experience that reinforces classroom concepts through hands-on application. This course takes a reflective approach to career development by facilitating students' understanding and competence of a particular career path.

Enrollment Requirements: Prerequisite: Student must have 30 credits of completed coursework prior to enrollment in IDS 299 Student must have a minimum GPA of 2.5 Student must have permission of faculty member and internship coordinator

International Business (IBUS)

IBUS 280 # - International Business Cultures

This course, through classroom exploration, examines the impacts on business practices by the culture in which you live and the culture in which you interact. This course prepares students for IBUS 281 and IBUS 282. The course explores the culture and languages of the countries to be visited during the current year's International Business Practices Field Study. Topics covered include: meeting, time orientation, Hofstede's cultural dimensions, Hall's cultural factors, verbal and non-verbal communication, foods and etiquette. Students must apply for admission to the course in the preceding fall. Students must complete this course in the spring with a satisfactory grade to travel on the field study trip in the summer.

Term Offered: AS NEEDED
IBUS 281 # - International Business Practices Field Study  
This course is a five week field study that through travel and interaction with businesses and universities in the country of interest allows students to discover how business is practiced differently in different regions of the world. The course looks at: human resource management, financial management, marketing and accounting practices. Topics will include: foreign currency exchange, financial markets that are impacted in that country, marketing and advertising in that country, benefits and expectations of and by employees. This course requires a trip journal and reflective notes within the journal. This course requires admission in the preceding fall and satisfactory completion of IBUS 280.  
Enrollment Requirements: Prerequisite: IBUS 280  
Term Offered: AS NEEDED

IBUS 282 # - Field Study International Business Emphasis Exploration  
This course allows students to explore a functional business area in more depth during the field study. Students will have opportunities to meet with individuals that practice in their emphasis and to ask questions. Students may also have an opportunity to participate in field trips that differ from their classmates that will allow them more insight into how their emphasis is impacted in different cultures. This course requires a final reflective paper prior to the end of the second term of the summer session. This course requires admission in the preceding fall, satisfactory completion of IBUS 280 and concurrent enrollment in IBUS 281.  
Enrollment Requirements: Prerequisite: IBUS 280 Corequisite: IBUS 281  
Term Offered: AS NEEDED

Information Systems (IS)

IS 101 # - Introduction to Information Systems  
Prerequisite: Highly recommend ACCUPLACER reading placement score of 50 or higher. An introduction to ACCUPLACER reading placement score of 50 or higher. students are introduced to business, industry and education applications of popular software using spreadsheets, word processors, and data bases. "Hands on" experience is provided through student use of open lab.  
Term Offered: Spring and Fall

IS 201 # - Computer Applications  
Advanced topics in spreadsheets, microcomputer-based database management systems and macro-programming.  
Enrollment Requirements: Prerequisite: IS 101 or equivalent  
Term Offered: Spring and Fall

Italian (ITAL)

ITAL 111 # - First Year Italian I  
Introduction to the language through the development of language skills and through structural analysis. Includes an introduction to Italian culture. Transfers to UNR as ITAL 111.  
Term Offered: Fall

ITAL 112 # - First Year Italian II  
Introduction to the language through the development of language skills and through structural analysis. Includes an introduction to Italian culture. This course transfers to UNR as ITAL 112.  
Enrollment Requirements: Prerequisite: ITAL 111 or equivalent course or instructor's approval  
Term Offered: Spring

ITAL 211 # - Second Year Italian I  
Emphasis is on structural review, conversation, writing, and readings from texts. This course transfers to UNR as ITAL 211.  
Enrollment Requirements: Prerequisite: ITAL 112 or equivalent course or instructor's approval  
Term Offered: Fall

ITAL 212 # - Second Year Italian II  
Emphasis is on structural review, conversation, writing, and readings from texts. Completion of ITAL 212 meets the Associate of Arts language requirement. This course transfers to UNR as ITAL 212.  
Enrollment Requirements: Prerequisite: ITAL 211 or equivalent course or instructor's approval  
Term Offered: Spring

Japanese (JPN)

JPN 101 # - Conversational Japanese I  
A course emphasizing spoken communication. Writing, listening and reading skills will be explored.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring and Fall

JPN 102 # - Conversational Japanese II  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: JPN 101 or instructor approval

JPN 198 # - Special Topics in Japanese  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

Journalism (JOUR)

JOUR 101 # - Critical Analysis of Mass Media  
Survey of the role of newspapers, radio, television, advertising and public relations organizations. Interpretation of the day's news and analysis of media performance.  
Term Offered: Spring and Fall

JOUR 102 # - News Reporting and Writing  
Introduction to the principles of researching news stories, gathering information in the appropriate arena and writing clear and accurate articles in accordance with journalistic standards established by the Associated Press. Explores the roles and responsibilities of a reporter for a news organization in keeping the public informed as well as acting as a watchdog. Examines ethical concerns in journalism and legal issues that influence media coverage.  
Enrollment Requirements: Prerequisite: ENG 98 or qualifying Accuplacer, ACT or SAT scores  
Term Offered: Spring and Fall

JOUR 105 # - News Production I  
Introduction to news and features gathering, writing and presentation with practical application demonstrated in production of a campus print publications, Web pages, and electronic programming (e.g., podcasts).  
Term Offered: Spring and Fall
JOUR 106 # - News Production II  
Units: 3  
Students write and edit more complex news and feature materials as staff members for campus newspaper, Web pages, podcasts, and other student journalistic vehicles.  
Enrollment Requirements: Prerequisite: JOUR 105  
Term Offered: Spring and Fall

JOUR 107 # - Multimedia News Reporting and Writing I  
Units: 3  
Introduction to collecting, analyzing and presenting information across contemporary news media platforms. Emphasizes writing in journalistic styles with clarity.  
Enrollment Requirements: Prerequisite: ENG 101 and co-enrolled in JOUR 108  
Term Offered: Spring and Fall

JOUR 108 # - Media Production I  
Units: 2  
Introduction to media production tools and computer interfaces; emphasis on visual literacy, imaging, video and audio editing.  
Enrollment Requirements: Prerequisite: ENG 101 and co-enrolled in JOUR 108  
Term Offered: Spring and Fall

JOUR 115 # - Photojournalism Basics  
Units: 3  
Course emphasizes practical and technical considerations of print and Web photographic publishing. Students must already possess background in film and digital photography.  
Enrollment Requirements: Prerequisite: ART 141 or permission of instructor  
Term Offered: AS NEEDED

JOUR 118 # - Web Page Basics  
Units: 3  
Course introduces basic Web design and emphasizes factors typical to journalistic dissemination, such as posting timely material, legal, and other considerations.  
Enrollment Requirements: Prerequisite: JOUR 101  
Term Offered: AS NEEDED

JOUR 119 # - Digital Audio Basics  
Units: 3  
Course introduces beginning digital audio capture and editing for both traditional radio and new media such as podcasts.  
Enrollment Requirements: Prerequisite: JOUR 101  
Term Offered: AS NEEDED

JOUR 130 # - Digital Video Basics  
Units: 3  
Course introduces beginning digital video capture and editing for short journalistic television segments, commercials, and Internet clips with a journalistic emphasis.  
Enrollment Requirements: Prerequisite: JOUR 101  
Term Offered: AS NEEDED

JOUR 198 # - Special Topics in Journalism  
Units: 1-3  
In-depth project assignments such as what makes news in a changing technological environment or how news is obtained and reported are studied and applied in reporting news for traditional and new media.  
Term Offered: AS NEEDED

JOUR 199 # - Literary Magazine Journalism  
Units: 3  
A hands-on practicum in the preparation and production of a literary journal, The Meadows.  
Enrollment Requirements: Prerequisite: JOUR 101  
Term Offered: AS NEEDED

JOUR 207 # - Multimedia News Reporting and Writing II  
Units: 3  
Additional methods of collecting, analyzing and presenting information across contemporary news media platforms. Builds an understanding of public information sources. Emphasizes writing in journalistic styles.  
Enrollment Requirements: Prerequisite: ENG 102, JOUR 107 with a "C" or better; JOUR 108 with a "C" or better Co-enroll JOUR 208  
Term Offered: Spring and Fall

JOUR 208 # - Media Production II  
Units: 1  
Practice in using media production tools and computer interfaces; additional development of visual literacy, imaging, video and audio editing.  
Enrollment Requirements: Prerequisite: ENG 102, JOUR 107 with a "C" or better; JOUR 108 with a "C" or better Co-enroll JOUR 207  
Term Offered: AS NEEDED

JOUR 210 # - Introduction to Public Relations  
Units: 3  
Not recommended for students seeking a journalism degree. Study of practice of public relations including media, employee, consumer, community, shareholder, and customer relations. Emphasis is on history of public relations, its role, and impact on today’s society.  
Enrollment Requirements: Prerequisite: JOUR 101  
Term Offered: AS NEEDED

JOUR 212 # - Principles of Advertising  
Units: 3  
Not recommended for students seeking a journalism degree. Examination of the purpose, function, and role of advertising in society. Emphasis is on the practical application of advertising as part of the marketing mix including customer identification, branding, message development, and media selection.  
Enrollment Requirements: Prerequisite: JOUR 101  
Term Offered: AS NEEDED

JOUR 215 # - Photojournalism Practicum  
Units: 1-3  
Students work independently on assigned and personal photojournalism projects. Output could be used for campus print and Web vehicles, such as The Echo and Journalism program Web pages. Course will emphasize portfolio-building for students.  
Enrollment Requirements: Prerequisite: JOUR 115 or instructor approval  
Term Offered: AS NEEDED

JOUR 218 # - Web Pages Workshop  
Units: 1-3  
Course for students to work independently on assigned and personal Web page projects. Output could be used for campus Web vehicles, such as Journalism Web Pages, parallel to The Echo. Course will emphasize portfolio-building for students.  
Enrollment Requirements: Prerequisite: JOUR 118 or instructor approval  
Term Offered: AS NEEDED

JOUR 219 # - Digital Audio Practicum  
Units: 1-3  
Course for students to work independently on assigned and personal digital audio projects. Output could be used for campus Web and other vehicles, such as a TMCC radio station or podcasts. Course will emphasize portfolio-building for students.  
Enrollment Requirements: Prerequisite: JOUR 119 or instructor approval  
Term Offered: AS NEEDED

JOUR 225 # - News Production III  
Units: 3  
Advanced news gathering, news writing and news presentation in print, Web and other electronic media, and introduction to media management, with practical application demonstrated by production of a campus journalistic media.  
Enrollment Requirements: Prerequisite: JOUR 102 and JOUR 106  
Term Offered: AS NEEDED

JOUR 226 # - News Production IV  
Units: 3  
Advanced news gathering, writing and presentation with advanced publications management, with practical application demonstrated by applying efforts toward production of a campus publication.  
Enrollment Requirements: Prerequisite: JOUR 225  
Term Offered: AS NEEDED
Logistics Management (LGM)

LGM 201 # - Essentials of Logistics Management
Introduction to supply chain management from both analytical and perspectives. Stressing a unified approach, the course allows students to develop a framework for making intelligent decisions within the supply chain. Key logistics functions are covered to include demand planning, procurement, inventory theory and control, transportation planning and execution, reverse logistics, and flexible contracting. Concepts covered include postponement, portfolio management, dual sourcing, and others. Emphasis is placed on ability to recognize and manage risk, analyze various tradeoffs, and model logistics systems.

Term Offered: Spring and Fall
Units: 3

LGM 202 # - International Logistics Management
This course analyzes and defines the functions of the supply chain that are involved in international supply chain management. Themes include supply chain activities in international business with special emphasis on management of transportation, global sourcing, customs issues and facility location in a global environment.

Term Offered: Spring
Units: 3

LGM 205 # - Logistics Planning and Control
This course provides theoretical and hands on training in the use of production planning, demand management, master scheduling, materials requirements, and capacity planning tools and techniques. Themes include: Master scheduling, ERP, MRP and inventory management.

Term Offered: AS NEEDED
Units: 3

LGM 206 # - Logistics Planning and Control Laboratory
This course complements the Logistics Planning and Control lecture course. In this course, students will work on problems using Microsoft Excel and other appropriate technology for conducting analysis required in LGM 205. Highly recommended for all students, required for students who have no prior or little knowledge of Excel.

Transferability: May not transfer toward an NSHE bachelor's degree
Enrollment Requirements: Corequisite: LGM 205
Term Offered: AS NEEDED
Units: 1

LGM 207 # - Service Logistics
This course explores the role of logistics and logistics principles in service organizations. Students will look at applications of TQM and master planning, along with other logistics principles, in increasing the effectiveness and increasing output of the service organization.

Enrollment Requirements: Prerequisite: LGM 201
Term Offered: AS NEEDED
Units: 3

LGM 208 # - Logistics and Quality Management Tools I
This course will introduce students to the concepts and tools that are utilized in improving and managing quality within logistics disciplines. The first part of the course will look at Theory of Constraints, Lean and Total Quality Management.

Enrollment Requirements: Prerequisite: LGM 201
Term Offered: Fall
Units: 3

LGM 209 # - Logistics and Quality Management Tools II
This is the second course in the Logistics and Quality Management Tools sequence. This course will focus upon Six Sigma and synthesis of the tools for maximum impact in creating continuous improvements.

Enrollment Requirements: Prerequisite: LGM 208
Term Offered: Fall
Units: 3

LGM 210 # - Studies in Procurement and Logistics
This course analyzes both the theory and applications of strategic issues in procurement and supply chain management process. Themes include the procurement cycle, purchasing research, relationships with suppliers, negotiation and commodity planning. Emphasis is placed on cost, price and value analysis.

Enrollment Requirements: Corequisite: LGM 201
Term Offered: Spring and Fall
Units: 3

LGM 212 # - Transportation Management
This course analyzes carrier economics, regulation and rate making practices as well as evaluating the public policy issues related to carrier transportation; includes course work in the planning and design of logistically oriented urban service systems. Themes include customer service, distribution operations, purchasing and negotiation.

Term Offered: Spring
Units: 3

LGM 280 # - Current Topics in Logistics
This course will explore current topics in the logistics industry. Topics will change each semester. The course will be run as an exploratory course with students, instructors and guest lecturers each bringing their own concept of what's new and hot to the classroom.

Enrollment Requirements: Corequisite: LGM 201
Term Offered: AS NEEDED
Units: 3

LGM 285 # - CPIM Prep
This course allows students to spend time focusing on the preparation for the APICS Certified Production Inventory Manager certification exams.

Transferability: May not transfer toward an NSHE bachelor's degree
Term Offered: AS NEEDED
Units: 3

LGM 320 # - Logistics Security
In this course students will be provided an in-depth view of modern border and transportation security, including the protection of seaports, airports, ships, aircraft, trains, trucks, pipelines, etc. Course includes discussions with officials from security organizations such as TSA, Coast Guard, US Customs, Border Protection and FBI. The course will cover specific facets of transportation security, including physical and procedural controls, and regulations of the Department of Homeland Security, the Transportation Security Administration, the US Coast Guard and others. The course will also provide discussions on current threats, counter terrorism measures, new technologies, and the importance of both passenger and cargo security to the global economy.

Enrollment Requirements: Prerequisite: ENG 102 or ENG 114 and LGM 201; or instructor approval
Term Offered: Spring
Units: 3
LGM 330 # - Warehousing Units: 3
This course provides an in-depth approach of the methods to organize and operate a warehouse including warehousing principles, site selection, facility design, facility size, JIT (Just in Time), automation, and advanced warehouse technology.
Enrollment Requirements: Prerequisite: MATH 120, ENG 102 or ENG 114, or qualifying test results, and LGM 201; or instructor approval
Term Offered: Spring

LGM 340 # - Production & Logistics Information Systems Units: 3
This course is a study of information systems and information management in business environments. It provides fundamental concepts of the needs of management, the use of information technology in various business subsystems including logistics, the use of information systems to gain a competitive advantage, and managing information as an organizational resource.
Enrollment Requirements: Prerequisite: ENG 102 or ENG 114 and LGM 201; or instructor approval
Term Offered: Fall

LGM 352 # - Decision Modeling for Logistics Units: 3
This course provides an analysis of decision making in the current logistics environment and the quantitative tools and methods needed for finding solutions to problems relating to purchasing, inventory, transportation, and warehouse management.
Enrollment Requirements: Prerequisite: Satisfied with one course BUS 225 or STAT 152 -OR- satisfied with two courses ECON 261 and ECON 262
Term Offered: AS NEEDED

LGM 410 # - Finance and Budgeting Units: 3
This rigorous introductory course provides an overview of finance and budgeting issues as they apply to non-accounting majors. It aims to demystify financial statements, cost analysis, budgeting, performance evaluation, and the use of financial data in the business decision-making process. This course will use case discussions, problem sets, online tutorials, and individual and group exercises.
Enrollment Requirements: Prerequisite: MATH 120 or MATH 126, or equivalent/qualifying test scores, or instructor approval
Term Offered: AS NEEDED

LGM 420 # - Safety and Risk Management Units: 3
This course will illustrate facts about environmental risk as perceived from individual and societal perspectives. Students will learn the principles of risk assessment and modeling and how safety management works in practice. The course will examine approaches to solving environmental risk problems as well as review the appropriate role of these methods in effective public and private decision making.
Enrollment Requirements: Prerequisite: BUS 225 and LGM 201, or instructor approval
Term Offered: Fall

LGM 450 # - Sustainability: Environmental and Financial Impact Units: 3
This course focuses on the science, engineering and ethics of sustainability by examining ecological, social and environmental issues. The course will review the environmental policy issues and the impact human population has on the current environment. Explore new sources of energy, and examine water quality, waste treatment, reclamation, and conservation efforts. The course will demonstrate how managers can collaborate to meet these challenges and determine the financial impact on company by calculating the return on investment.
Enrollment Requirements: Prerequisite: BUS 225, LGM 352, and LGM 410
Term Offered: AS NEEDED

LGM 460 # - Legal Concepts for Transportation and Logistics Management Units: 3
This course takes an in-depth look at transportation law and regulations. Topics include federal jurisdiction and pre-emption, U.S. and international contract law including the UCC and CISG, insurance, liability, environmental law; as well as specific regulations pertaining to the railroad, motor carrier, ocean, and airline industries.
Enrollment Requirements: Prerequisite: BUS 325, LGM 210, and LGM 212; or instructor approval
Term Offered: AS NEEDED

LGM 470 # - Import Export Management Units: 3
This course explains how companies strategically navigate the complexity of international trade. The course will examine how to identify potential risks, apply quality control procedures, and prepare documentation accurately. This course will also cover compliance and security regulations including: C-TPAT guidelines, Incoterms, in-house compliance programs, freight cost-reduction methods, TSA regulations, Improved technology options, and current export initiatives.
Enrollment Requirements: Prerequisite: LGM 201, LGM 202, and LGM 320
Term Offered: AS NEEDED

LGM 490 # - Field Study and Research Capstone Units: 3
This capstone course provides an opportunity for students to work on logistics operations management practice projects that are of particular interest to them. Projects will consist of a logistics operations problem that approximates a professional practice experience.
Enrollment Requirements: Prerequisite: B or better in BUS 225, BUS 330, LGM 340, and LGM 420 Declared BAS - Logistics Operations Management and 45 credits completed in the core requirements with a cumulative 25 GPA or higher
Term Offered: AS NEEDED

LGM 491 # - Logistics Operations Management Internship Units: 3
This capstone course provides on-the-job opportunities in a program designed by a company official and a faculty advisor for practical, professional learning experiences.
Enrollment Requirements: Prerequisite: Declared BAS - Logistics Operations Management and 45 credits completed in the core requirements with a cumulative 25 GPA or higher
Term Offered: AS NEEDED

Machine Tool Technology (MTT)

MTT 101 # - Introduction to Machine Shop Units: 3
Introduces safety procedures, use of bench tools, layout tools, power saws, drill presses, precision measurement tools, rotary tables and indexing devices, lathe and mill cutting tools and tool holding, work holding and machining applications as well as the various hand tools related to the machine shop.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters
MTT 105 # - Machine Shop I  Units: 3
Introduces basic lathe applications which will consists of identifying lathe components and controls, understanding turning safety, calculating speeds and feeds, using various tools and tool holders, identifying basic tool geometry, and the use of common lathe tooling. Students will perform basic lathe operations, which will consist of facing, turning, and drilling. Students will be required to produce specified parts to a tolerance of +/- .004 in. and perform competencies set by manufacturing standards.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite or Corequisite: MTT 101
Term Offered: All Semesters

MTT 110 # - Machine Shop II  Units: 3
This course is a continuation of MTT 105 and teaches students to prepare single point external and internal unified screw thread. generate angles with the compound rest within one degree, ream holes concentric within .001 inches, determine cutting speeds, and perform facing, grooving, part-off, and tuning operations.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite or Corequisite: MTT 105
Term Offered: All Semesters

MTT 140 # - Inspection Techniques  Units: 3
Exposes the student to the principles of dimensional metrology and explores Geometric Dimensioning and Tolerancing (GD&T) concepts and applications. Students will learn how to use common measuring instruments relating to state-of-the-art manufacturing environments. Students will also learn the importance of Quality Control, TQM, and SPC processes as they relate to manufacturing environments.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MTT 145 # - Lean Manufacturing Systems  Units: 3
This course explores Lean Manufacturing principles, practices, and techniques from a technical standpoint with an emphasis on the frontline worker's perspective. Topics include waste definition and minimization, value stream analysis, continuous process improvement, and workplace design.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MTT 150 # - Metallurgy I  Units: 3-4
Offers a study of metallurgical properties in an effort to understand both the behavior of metals and their service to industry. Characteristics during heating, cooling, shaping, forming, and the stresses related to their mechanical properties are covered. The theory behind the alloys, heat treatment processes, and the impact they have on strength, toughness, hardness, elasticity, ductility, malleability, wear resistance and fatigue resistance is investigated. This course fulfills the natural sciences degree requirement for nontransferable AAS degrees only.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MTT 198 # - Special Topics in Manufacturing  Units: 1-6
This course introduces and discusses special topics related to Manufacturing Technology.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

MTT 230 # - Computer Numerical Control I  Units: 4
Covers computer numerical control (CNC) lathe operations, program format, and machine setup. G & M codes, control functions, the letter address system, and math issues related to CNC are included. This course satisfies 7.5 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 8 hours of instruction toward completing the embedded mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

MTT 232 # - Computer Numerical Control II  Units: 4
Covers computer numerical control (CNC) milling operations, program format, and machine setup. G & M codes, control functions, the letter address system, and math issues related to CNC are included. Students will program, set-up and produce a variety of CNC milling projects. This course satisfies 7.5 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 8 hours of instruction toward completing the embedded mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

MTT 234 # - Computer Numerical Control III  Units: 4
This course covers the advanced programming concepts related to CNC Mill/Turning centers and synchronized fourth axis mills. Mill/Turn and fourth axis topics include program format, machine set-up, related G & M codes, live tooling, and indexing devices. Students will program, set-up, and produce a variety of precision machined projects.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MTT 250, MTT 232, and MTT 293
Term Offered: AS NEEDED

MTT 235 # - Machine Shop III  Units: 3
Introduces basic milling machine applications which will consist of identifying mill components and controls, understanding milling safety, calculating speeds and feeds, using various tools and tool holders, identifying basic tool geometry, and the use of common milling machine tooling. Students will perform basic milling operations consisting of facing, squaring, slotting, and drilling. Students will be required to produce specified parts to a tolerance of +/- .004 in. and perform competencies set by manufacturing standards.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MTT 260 # - Machine Shop IV  Units: 3
This is a continuation of MTT 250 and prepares students to determine hole locations by coordinates and degrees, use a rotary table, boring head, form tools, angle work, and work within +/- .001 inch tolerance.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MTT 250 Course may be taken concurrently with MTT 250
Term Offered: All Semesters
MTT 261 # - Machine Projects  Units: 1-6
This course allows for further development of existing manual machining skills with hands-on instruction related to the design and production of components on manually operated machine tools. Students will plan, set-up, and produce a variety of precision machined projects.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MTT 105 or MTT 110 or concurrent enrollment in either of these courses
Term Offered: All Semesters

MTT 291 # - CNC Practice  Units: 1-6
This course allows for the further development of computer aided manufacturing and/or CNC skills with hands-on instruction related to the design and production of machined parts using CAD/CAM software, CNC milling machines, and CNC turning centers. Students will plan, program, set-up, and produce a variety of precision machined projects.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MTT 292 or MTT 293 or concurrent enrollment in any of these courses
Term Offered: All Semesters

MTT 292 # - Computer-Aided Manufacturing I  Units: 4
This course provides the student with the essential concepts and techniques that are required for successful creation of two-dimensional part geometry, generation and verification of 2 1/2 axis toolpath models, as well as post processing of 2 1/2 axis NC codes within a computer-aided manufacturing (CAM) system. Students are required to produce a variety of lab exercises on robotic (CNC) machinery utilizing multi-tool programs. Coursework will primarily focus on 2D geometry projects. Basic understanding of milling machine operations is recommended. This course satisfies 8 hours of instruction toward completing the embedded mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

MTT 293 # - Computer-Aided Manufacturing II  Units: 4
This course is a continuation of MTT 292 with the addition of simultaneous three axis motion control and provides the student with the essential concepts and techniques that are required for successful creation of three-dimensional part geometry, solids, and surfacing, generation and verification of three axis tool path models, as well as, post processing of three axis NC codes within a computer-aided manufacturing (CAM) system. Requires students to produce a variety of lab exercises on robotic (CNC) machinery utilizing multi-tool programs. A familiarity with Mastercam, CNC programming techniques, and CNC operations is recommended.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MTT 292 or instructor approval
Term Offered: Spring

MGT 201 # - Principles of Management  Units: 3
Fundamentals and principles of management; administrative policies, objectives, procedures, problems of organization control and leadership.
Term Offered: Spring and Fall

MGT 212 # - Leadership and Human Relations  Units: 3
The focus of the course is on understanding and managing human behavior in organizations. Central to the course is better understanding oneself as a leader and exploring some of the more effective ways of leading others.
Term Offered: Spring and Fall

MGT 235 # - Organizational Behavior  Units: 3
Concepts, theories and case studies concerning the behavior of people in modern business organizations.
Enrollment Requirements: Prerequisite: MGT 201 or permission of the instructor
Term Offered: AS NEEDED

MGT 283 # - Introduction to Human Resources Management  Units: 3
Designed to develop an understanding of the duties and responsibilities of personnel at the mid-management level. Areas covered include: employee needs, human relations, orienting and training employees, benefit programs and economics of supervision. All MGT 283 students must take the English assessment test before enrolling. Students must bring their assessment report to the first class meeting. Attendance beyond the first class is subject to instructor approval.
Term Offered: Spring

MGT 290 # - Internship in Management  Units: 1-8
A course designed wherein students will apply knowledge and skills to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed most core and major requirements and have a 2.5 GPA. Contact the instructor for the application, screening, and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 75 hours of internship for one credit. May be repeated for up to eight credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Manufacturing and Production Technology (MPT)

MPT 110 # - Automated Production Concepts I  Units: 3
This course introduces students to the concepts of production systems management and control. This course stresses materials resource planning and basic production line controls, to include robotic, conveyor, machine tool, and quality integration. This course satisfies 10 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. Completion of all six area (total 3 credits), satisfies 15 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MGT 171 # - Supervision  Units: 3
Supervision provides a skill building approach to develop people and the conceptual skills necessary to successfully supervise employees. In addition, the functional supervisory skills of planning, organizing, staffing, leading and controlling will be developed.
Term Offered: Spring and Fall

MGT 211 # - Management (MGT)

MGT 171 # - Supervision  Units: 3
Supervision provides a skill building approach to develop people and the conceptual skills necessary to successfully supervise employees. In addition, the functional supervisory skills of planning, organizing, staffing, leading and controlling will be developed.
Term Offered: Spring and Fall

MPT 120 # - Automated Production Concepts II
This course introduces students to the concepts of production systems management and control. This course stresses materials resource planning and basic production line controls, to include robotic, conveyor, machine tool, and quality integration. This course satisfies 12 hours of instruction toward completing the embedded human relations curriculum requirements and also satisfies 15 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MPT 110 or instructor approval
Term Offered: All Semesters

MPT 130 # - Automated Production Concepts III
This course is a continuation of MPT 110 and MPT 120 Automated Production Concepts I & II and serves as the capstone course for the AAS Manufacturing Technology, Production Systems Emphasis. Students are required to combine concepts from all core courses to complete a comprehensive complex production system evolution.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MPT 120
Term Offered: All Semesters

MPT 135 # - Material Handling
This course provides an overview of the functions and operation of various types of common powered and non-powered industrial material handling equipment. OSHA regulations and standards governing the safe use of powered industrial trucks are covered. The student must complete all content for the following four areas in order to meet degree or certificate requirements. 1. Basic Material Handling Equipment (.5 Credits) 2. Safe and Effective Equipment Operation (.5 Credits) 3. Warehouse Procedures (.5 Credits) 4. Automated Warehouse Concepts (.5 Credits) Completion of all four areas (total of 2 credits), satisfies 6 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MPT 140 # - Quality Control
This course introduces students to the fundamental principles and practices of industrial quality control. Total Quality Management (TQM), Acceptance Sampling Systems are discussed in depth. This course satisfies 24 hours of instruction toward completing the embedded human relations curriculum requirements and also satisfies 20 hours of instruction toward completing the embedded math curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MPT 150 # - Solid Modeling for Manufacturing Technicians
This course is an introduction to Solid Works software for utilization within a manufacturing environment. The course covers creation, retrieval and modification of 3-D and layout drawings using basic Solid Works commands. Includes skills needed to create parametric models of parts and assemblies; generate dimensioned layouts; and Bill of Materials of those parts and assemblies.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

MPT 160 # - Mechanical Drive Systems I
This course covers the basic and intermediate principles and practices of mechanical drive systems used in industry. Students will learn proper installation, troubleshooting, repair and maintenance techniques; of Mechanical Drive Systems such as Belt, Chain, and Gear Drives. Transferability: May not transfer towards an NSHE bachelor's degree

MPT 165 # - Customer Service for Technicians
This course is focused on effective communication and customer service skills for a technical environment. It will focus on common oral and written communication opportunities where attaining mutual understanding and agreement between product/service providers and customers is essential for smooth business operation and customer satisfaction.
Transferability: May not transfer towards an NSHE bachelor's degree

Marketing (MKT)

MKT 127 # - Introduction to Retailing
This course focuses on the implications of managerial decisions and the various methods used to measure the profitability of those decisions in the field of retailing. It also addresses the importance of understanding consumer behavior in relation to customer requirements, taste and expectations, emphasizing the retailing implications of market factors.
Enrollment Requirements: Prerequisite: MKT 210

MKT 131 # - Advertising
This course focuses upon the development of a strategy for communicating the offerings of an organization. Emphasis will be placed upon understanding consumer behavior and understanding the social and ethical implications of marketing communication. Students will work in groups to create their own IMC plans for a brand of their choice.
Enrollment Requirements: Prerequisite: ENG 101 or BUS 98 or qualifying Accuplacer score
Term Offered: AS NEEDED

MKT 210 # - Marketing Principles
Intense study of marketing philosophy including: segmenting and developing target markets, pricing, distribution and location analysis, promotion and product development. Upon completion of this course, the student will understand the marketing concept and be able to explain how an organization can develop an effective marketing strategy.
Enrollment Requirements: Prerequisite: Pass MATH 96 or C or better in BUS 117; AND ENG 101 or ENG 113 or BUS 108; or equivalent ACCUPLACER, SAT, ACT test results; or permission of department
Term Offered: Spring and Fall

MKT 295 # - Internship
A course designed wherein students will apply knowledge of real on-the-job situations in a program designed by a company official and faculty adviser to maximize learning experiences. Available to students who have completed most core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening, and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 75 hours of internship for one credit. May be repeated for up to eight credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED
Math (MATH)

MATH 100 # - Math for Allied Health Programs
A review of basic mathematics with emphasis on those mathematical skills needed for the dental assisting program. This course will include a review of arithmetic, material on the metric system, apothecary system, dosages and solutions.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

MATH 105 # - Applied Topics in Math
A course including the following topics: review of arithmetic, algebra, geometry and graphical representation.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

MATH 106 # - Geometry
This course is designed to provide a basic working knowledge of practical geometry for students who have never taken a course in geometry or who need a refresher course. Theory is not emphasized. Some of the topics covered are: area of plane figures, similarity, volume of solids, angle measure, and properties of special triangles.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MATH 95 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years)
Term Offered: AS NEEDED

MATH 107 # - Real Estate Math
Review of basic arithmetic principles. A general mathematics course designed to assist the student who wishes to pass the state exam and the student who wants to be more proficient and knowledgeable in the real estate profession. Decimals, percentages, fractions, prorations, tax rate, interest, discount and depreciation are included.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

MATH 108 # - Math for Technicians
This applied mathematics course is designed to give the student math skills as they are applied to specific career choice areas. Topics for all individual applied areas (transportation, metalworking, construction, etc.) will include algebra and trigonometry, but the focus of the presentation and utilization will be specific to the industry area. The course will include demonstrations and hands-on exercises applying mathematics as it will be needed in the specific technical environment.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Qualifying ACCUPLACER, ACT/SAT test results A graphing calculator may be required for this course
Term Offered: AS NEEDED

MATH 120 # - Fundamentals of College Mathematics
Mathematical concepts particularly relevant to informed and aware citizenship in modern society. Topics covered include functions, graphs, problem solving, topics in finance, geometry, probability and statistics. Satisfies UNR core curriculum. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 96 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (within 2 years)
A graphing calculator may be required
Term Offered: All Semesters

MATH 120E # - MATH 120 Expanded
This course covers the same material as MATH 120 and requires students to be concurrently enrolled in a co-requisite section of MATH 96A. This course covers mathematical concepts particularly relevant to informed and aware citizenship in modern society. Topics covered include functions, graphs, problem solving, topics in finance, geometry, probability and statistics.
Enrollment Requirements: Corequisite: MATH 96A
Term Offered: AS NEEDED

MATH 122 # - Number Concepts for Elementary School Teachers
Mathematics needed by those teaching new-content mathematics courses at the elementary school level with emphasis on the structure of the real number system and its subsystems. Designed for students seeking a teaching certificate in elementary education. Open to others with approval of department chair.
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 120 or MATH 126 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years)
A graphing calculator may be required for this course
Term Offered: Fall

MATH 123 # - Statistical & Geometrical Concepts for Elementary School Teachers
A continuation of MATH 122. Topics covered may include geometry, algebra, probability, statistics and computers.
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 120 or MATH 126 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years)
A graphing calculator may be required for this course
Term Offered: All Semesters

MATH 126 # - Pre-Calculus I
The study of equations and inequalities involving radical, rational, quadratic or absolute value terms. Also includes polynomial, rational, exponential and logarithmic functions, their graphs and applications. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 96 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (within 2 years)
A graphing calculator may be required
Term Offered: All Semesters

MATH 126E # - Math 126 Expanded
The course is equivalent to MATH 126, but students enrolled in this course must also be enrolled in MATH 96D. The course covers the study of functions, their properties and their graphs, including quadratic functions, polynomials, rational functions, exponential and logarithmic functions, and their applications.
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 96 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (within 2 years)
A graphing calculator may be required
Term Offered: All Semesters

MATH 127 # - Pre-Calculus II
This course is a continuation of Math 126. It includes the study of circular functions, their graphs and applications, analytic trigonometry, the coordinate geometry of lines and conics and elementary vector algebra. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 126 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years)
A graphing calculator may be required
Term Offered: All Semesters
MATH 128 # - Pre-Calculus and Trigonometry  
Units: 5
MATH 128 Transfer credit.
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 96 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years) A graphing calculator may be required
Term Offered: Spring and Fall

MATH 176 # - Introductory Calculus for Business and Social Sciences  
Units: 3
Topics covered include graphing functions, derivatives, integrals, applications, the Fundamental Theorem of Calculus. This course is designed for business, social science or biological science majors.
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 126 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years) A graphing calculator may be required
Term Offered: Spring and Fall

MATH 181 # - Calculus I  
Units: 4
Topics covered include functions, the derivative, differentiation of functions, applications of the derivative, understanding the definite integral, finding integrals and applications of integrals. Throughout the course topics will be viewed geometrically, numerically and algebraically. This course is oriented toward students of mathematics, physical science and engineering. Satisfies UNR math core curriculum. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 127 or MATH 128 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (within 2 years) A graphing calculator may be required
Term Offered: Spring and Fall

MATH 182 # - Calculus II  
Units: 4
A continuation of MATH 181. Topics covered include a continuation of the definite integral, finding integrals and applications of integrals, differential equations and approximations of functions with simpler functions. Throughout the course topics will be viewed geometrically, numerically and algebraically. This course is oriented toward students of mathematics, physical science and engineering. Satisfies UNR math core curriculum. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 181 or MATH 128 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (within 2 years) A graphing calculator may be required
Term Offered: Spring and Fall

MATH 283 # - Calculus III  
Units: 4
A continuation of MATH 182. Topics covered include vectors, differentiating and integrating functions of many variables, optimization, parametric curves and surfaces, line integrals, flux integrals and vector fields. Throughout the course topics will be viewed geometrically, numerically and algebraically. This course is oriented toward students of mathematics, physical science and engineering. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 182 (taken within 2 years)
Term Offered: Spring and Fall

MATH 285 # - Differential Equations  
Units: 3
Theory and solving techniques for constant and variable coefficient linear equations and a variety of non-linear equations. Emphasis on those differential equations arising from real world phenomena. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 182 or equivalent A graphing calculator may be required for this course
Term Offered: Spring and Fall

MATH 90 # - Continuing Studies in Math  
Units: 0.5-3
This developmental course is for assessment purposes. Developmental students may register for this course without taking Accuplacer.
Enrollment Requirements: Prerequisite: MATH 93 or equivalent or qualifying Accuplacer score, ACT/SAT test results
Term Offered: Spring and Fall

MATH 92 # - Algebra Review  
Units: 1
Provides a review of algebra that will refresh previously taught concepts.
Term Offered: AS NEEDED

MATH 95 # - Elementary Algebra  
Units: 3
A first course in algebra. Topics covered include the fundamental operations on real numbers, first degree equations, inequalities in one variable, polynomials, integer exponents, solving quadratic equations by factoring. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 93 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years)
Term Offered: All Semesters

MATH 96 # - Intermediate Algebra  
Units: 3
A second course in algebra. Topics covered include: solving quadratic, rational and radical equations, simplifying rational and radical expressions and complex numbers, and solving application problems. Note: Computer use and graphing calculator may be required (TI-83/84 recommended).
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 95 or equivalent or qualifying ACCUPLACER, ACT/SAT test results (taken within 2 years)
Term Offered: All Semesters

MATH 96A # - Intermediate Algebra - Basic Properties  
Units: 1
This course is a corequisite course for MATH 120E. Students need to be enrolled in both MATH 96A and MATH 120E. This course reviews the algebraic concepts needed to be successful in Math 120. Topics include, but are not limited to, exponents and radicals, solving linear, nonlinear, and absolute value equations and inequalities, and algebraic techniques involving exponents, radical, rational expressions and their applications.
Enrollment Requirements: Prerequisite: A grade of C or better in MATH 95 or qualifying ACCUPLACER, ACT/SAT scores Corequisite: MATH 120E
Term Offered: AS NEEDED

MATH 96D # - Algebra Review for Math 126  
Units: 2
This course is a corequisite course for MATH 126E. Students need to be enrolled in both MATH 096D and MATH 126E. This course reviews the algebraic concepts needed to be successful in Math 126. Topics include, but are not limited to, algebraic operations of polynomials and rational expressions, solving nonlinear and absolute value equations and inequalities, and algebraic techniques involving exponents and radicals and their applications.
Enrollment Requirements: Prerequisite: ACCUPLACER Elementary Algebra score of 105+ and College Level Math score of 39-54; or SAT score of 490; or ACT score of 21
Term Offered: AS NEEDED

MATH 98 # - Algebra Review for Math 126  
Units: 1
This course is a corequisite course for MATH 126E. Students need to be enrolled in both MATH 098 and MATH 126E. This course reviews the algebraic concepts needed to be successful in Math 126. Topics include, but are not limited to, algebraic operations of polynomials and rational expressions, solving nonlinear and absolute value equations and inequalities, and algebraic techniques involving exponents and radicals and their applications.
Enrollment Requirements: Prerequisite: ACCUPLACER Elementary Algebra score of 105+ and College Level Math score of 39-54; or SAT score of 490; or ACT score of 21
Term Offered: AS NEEDED

Math Skills Center (SKC)

SKC 80 # - Skills Center Mathematics Level I  
Units: 1.5
The course is intended to provide a thorough review of basic skills needed in math and applied fields; such as time management, basic study skills and basic arithmetic skills.
Transferrability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters
SKC 85 # - Skills Center Mathematics Level II  Units: 1.5
The course prepares students for success in math 096. Includes time
management and basic study skills, as well as pre-algebra skills.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

Massage Therapy (MASG)

MASG 101 # - Introduction to Massage Training  Units: 0.5
Learn about TMCC's massage certificate and degree programs, career
opportunities available to licensed massage therapists, information on
various massage modalities, and licensing procedures in Nevada.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

MASG 106 # - Meridians of Oriental Medicine  Units: 1
This course is an introduction to the guiding principles, history and
theory of acupuncture using acupressure and alternative methods to
enhance the benefits of massage as it relates to the meridians of oriental
medicine. Learn about each of the 14 major meridians and how the
Five Element Theory relates to these meridians, the organs and Yin and
Yang. Explore the biophysical connection and how Oriental massage
techniques can be applied to points and along meridians to enhance
healing through massage.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

MASG 107 # - Massage Mechanics and Positioning  Units: 1
Learn proper body mechanics and feel while using forearms, loose fists,
elbows, knuckles, and hands. Discover the keys to career longevity and
excellent touch. Work on creative client positioning with variations on
side-lying and supine as well as seated positions.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

MASG 113 # - Reflexology  Units: 0.5
Reflexology is the application of appropriate pressure to specific points
and areas on the feet and hands which correspond to different body
organs and systems to provide a beneficial effect on a person's general
health. Learn the history of Reflexology, examine a map of the feet and
hands, and discover how to apply Reflexology in your massage practice
to relieve tension in the body.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: SUMMER

MASG 117 # - Aromatherapy for Massage  Units: 0.5
Aromatherapy uses essential oils as an adjunct therapy in combination
with multiple styles of massage therapy. Identifying the need and
purpose of the modality is addressed as well as when to practice the
technique based on indications and contraindications from the client's
health history. Aromatherapy is practiced to enhance the therapeutic and
relaxation properties of massage therapy. The therapeutic uses of 18
essential oils are explored and the students are provided the opportunity
to practice blending the oils to enhance therapeutic benefits and induce a
deeper relaxation response for the client.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

MASG 118 # - Facilitated Stretching and Muscle Energy Techniques  Units: 1
Learn facilitated stretching techniques and muscle energy techniques
(MET), including Proprioceptive Neuromuscular Facilitation (PNF), which
is used for the rehabilitation of neurologic and soft tissue disorders.
Explore ways to incorporate these techniques into massage to help
counteract muscle hypertonicity and spasms, improve flexibility and
range of motion, and restore muscle strength.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: SPRING and FALL

MASG 119 # - Chair Massage  Units: 0.5
Learn the fundamentals of chair massage and how to utilize and adapt
current massage skills for performing seated massage. Explore ways
to market a business and introduce touch to the public through seated
massage.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: SUMMER

MASG 125 # - Reiki  Units: 0.5
Reiki is an energy modality used as an adjunct therapy in combination
with multiple styles of massage therapy. Identifying the need and
purpose of the modality is addressed as well as ways in which to practice
the technique with other methods during the individualized session.
Reiki addresses the bioelectric circuits of the human energy system and
provides a modality for identifying when regions of the body may need
additional focus during the session.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: SPRING

MASG 128 # - Acupressure  Units: 0.5
Explore the acupressure system of energy locks for the 12 meridians
in this introduction to their location and usage. Learn a system for
addressing these energy locks and the symptoms of blockage along the
meridian lines. Practice palpation of the 26 locations on each side of
the body and simple release techniques that can be incorporated into
massage.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: SUMMER

MASG 129 # - Deep Tissue and Neuromuscular Therapy  Units: 1
This course is designed to enhance students' skills and understanding
of the concepts of deep tissue and neuromuscular therapy. Students
will learn how to safely integrate deep tissue and neuromuscular
techniques into their massage routine in prone, supine, seated and
side-lying positions. Students will be shown proper body mechanics for
administering these techniques and will practice what they learn in class
on one another.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: FALL

MASG 130 # - Sports and Athletic Massage  Units: 1
Students will learn the various strokes and techniques used in sports
and athletic massage, what effect each has on the tissue, and when to
use them. Additionally, the course will cover sports-specific routines,
sports injury prevention and treatment, nutrition conducive to athletes,
as well as psychology of the athlete as it pertains to interaction with the
massage therapist.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: SPRING and FALL
MASG 132 # - Hot Stone Massage
Hot stone massage is a restorative stone thermotherapy and an adjunctive therapy which can be used with all styles of massage therapy. This course will explore types of stones, their optional uses and placement, proper sanitation, and how to incorporate hot stones into multiple massage modalities.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

Units: 1

MASG 135 # - Myofascial Release
Learn to treat skeletal muscle immobility and pain using myofascial release by relaxing contracted muscles through both the superficial fascia and deep fascia, improving blood and lymphatic circulation, and stimulating the stretch reflex in muscles.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

Units: 1

MASG 137 # - Osteo Symmetry
This course is an introduction to Osteo Symmetry which is a manual therapy developed to release structural tension patterns and unwind energy blockages from the bones. This decreases strain on the nervous system, increases flexibility and restores natural mobility and posture. Using palpation, mobility and visual assessment students will learn to recognize and release restrictions in the skeletal structure.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

Units: 1

MASG 140 # - Prenatal Massage
Learn benefits, precautions and contraindications for prenatal massage. Anatomical and physiological changes that occur during pregnancy will be discussed, as well as specific conditions and complications that may arise during each trimester. Other topics covered will include legal considerations, communicating with healthcare providers, pregnancy loss, and positioning and draping the maternal client.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

Units: 1

MASG 142 # - Geriatric Massage
Learn normal psychosocial and physiological developmental concepts related to the geriatric client. Explore common pathologies found in this age group and find out for which conditions or pathologies massage is indicated and contraindicated. When massage is indicated, discover the benefits, what type of techniques are appropriate for each individual client, and whether or not the student has the necessary training to perform those techniques or should refer the client to other professionals.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

Units: 1

MASG 149 # - Medical Terminology for Massage Professionals
Medical terminology is used by physicians, nurses, physical therapists, chiropractors and those involved in the numerous allied health professions. The same terms apply to anatomy, physiology, kinesiology, and every other endeavor pertaining to the human body. The focus of this course is to demystify the highly specific and daunting vocabulary of the "secret language" used in these professions. Rather than rote memorization of long, unwieldy words, students will develop the knowledge and skills to decode, decipher, and discover the meaning of virtually any new scientific term.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

Units: 1

MASG 160 # - Lymphatic Massage
Learn about the anatomy and physiology of the lymphatic system, common pathologies related to this system and the indications, contraindications and precautions necessary for massage therapists to be aware of. When massage is indicated, discover the benefits of lymphatic massage, what type of techniques are appropriate for each individual client, and whether or not the student has the necessary training to perform those techniques or should refer the client to other professionals.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

Units: 1

MASG 201 # - Fundamentals of Professional Massage
This course will provide a thorough introduction to the theory and practice of massage therapy. Students will learn to organize a full-body massage suited to the needs of individual clients using both table and chair techniques. They will learn the classic massage movements of touch, effleurage, petrissage, tapotement, friction and joint movements. Other major topics include ethics; scope of practice; the benefits and effects of massage; indications and contraindications for massage; proper body mechanics; history of massage; draping; universal precautions of sanitation; client assessment procedures, consultation and documentation; licensure requirements; and Nevada laws.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

Units: 4

MASG 202 # - Anatomy and Physiology I for Massage and Fitness Professionals
This course provides a fundamental overview of human anatomy and physiology and is the first course of a two part series which will cover cell structures and functions, tissues and membranes, integumentary system, skeletal system, muscular system, nervous system and special senses. Through a systematic and detailed progression, students will learn the basics of structure and function of selected organs and organ systems and how they interact with and support one another. This course will provide a solid base of theoretical and practical knowledge for massage therapists to apply in their career. Same as PTR 202.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

Units: 4

MASG 203 # - Pathology for Massage Professionals
Review body systems and learn conditions within those systems as related to pathology. Understand which conditions or pathologies are indicated and contraindicated for massage therapy as covered by current professional standards. When massage is indicated, learn to identify what types of techniques are appropriate for each individual client.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

Units: 3

MASG 205 # - Kinesiology for Massage and Fitness Professionals
Kinesiology is a scientific study of human body movement which addresses physiological, biomechanical, and psychological mechanisms of movement. This course is a detailed, systematic hands-on study specifically designed for massage therapists and will incorporate both theoretical concepts and practical palpatory anatomy practice. Same as PTR 210.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

Units: 3
MASG 208 # - Anatomy and Physiology II for Massage and Fitness Professionals
Units: 4
This course provides a fundamental overview of human anatomy and physiology and is the second course of a two-part series which will cover the nervous, endocrine, cardiovascular, lymphatic-immune, respiratory, digestive, and urinary systems. Through a systematic and detailed progression, students will learn the basics of structure and function of selected organs and organ systems and how they interact with and support one another. This course will provide a solid base of theoretical and practical knowledge for massage therapists to apply in their career. Same as PTR 208.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MASG 201
Term Offered: Spring and Fall

MASG 210 # - Massage Clinic
Units: 4
This course will provide extensive opportunity for students to put to practical use what they have learned in Fundamentals and modality classes and to organize a massage suited to the individual needs of various clients as they work in the TMCC Massage Clinic. Other major topics include reviewing ethics, scope of practice, the benefits and effects of, as well as the indications and contraindications for massage, proper body mechanics, massage techniques, therapeutic procedures, consultation, documentation, draping, sanitation, and Nevada law.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: must complete MASG 201 and 75% of massage program requirements to take this course; Permission to enroll is given by program officer
Term Offered: Spring and Fall

MASG 216 # - Ethics for Massage Professionals
Units: 0.5
This class is designed to expand students' knowledge about the field of ethics as it relates to the profession of massage to ensure the student has the tools to set boundaries and manage an ethical practice. This class will provide thought-provoking information, examples and scenarios for resolving ethical dilemmas.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

MASG 221 # - Massage Exam Practice and Licensure Process
Units: 0.5
The MBLEx is the sole licensing exam for the Massage Profession. It is designed to provide a standard examination for students of Massage for entry-level professional scope of practice in gaining licensure. The exam has eight concentrated areas of content: client assessment, reassessment, and treatment plans; benefits and physiological effects of techniques; pathology with contraindications, areas of caution, and special populations; massage and bodywork modalities/culture/history; ethics, boundaries, laws and regulations; guidelines for professional practice; kinesiology; and anatomy and physiology. Explore the sections of the certification exam to better prepare to take the MBLEx exam and practice two exam formats in class. Go through the application process and learn Nevada state and national requirements for licensure.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

MASG 224 # - Trigger Point Therapy
Units: 1
A trigger point is a tight area within muscle tissue that causes pain in other parts of the body. Understand pain referral patterns to locate these trigger points and practice hands-on skills to release pain through massage.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring

Mechanical Engineering (ME)

ME 241 # - Statics
Units: 3
Static force systems. Topics include resolution and composition of forces, equilibrium of force systems, friction, centroids, moments of inertia, cables, beams, fluid statics, work.
Enrollment Requirements: Prerequisites: PHYS 180 AND Corequisite: MATH 182
Term Offered: Spring

Mechanical Technology (MT)

MT 100 # - Fabricating Composites
Units: 3
This course will allow students to create and repair basic composite products.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

MT 108 # - Fluid Power (Pneumatics, Hydraulics, Instrumentation)
Units: 3
This course covers the basic and intermediate principles and practices of Fluid Power for both hydraulic and pneumatic systems. Students will learn and demonstrate applications of industrial use of fluid power components, theory and calculations of fluid control, measuring and calculations of fluid flow, pressure regulation, and troubleshooting, repair and maintenance techniques. The student must complete all content for the following six areas in order to meet degree or certificate requirements.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: ENRG 110 or ELM 110 or instructor approval
Term Offered: All Semesters

MT 109 # - Small Engine Operation and Maintenance
Units: 3
This course introduces students to the operation and maintenance of small engines used in a variety of technical settings. Students will operate, maintain, and repair two-cycle and four-cycle engines.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

MT 290 # - Internship in Mechanical Technology
Units: 1-8
This course provides the student with the opportunity to acquire real-world experience under the supervision of qualified industry personnel. This course is an extension supplemental to classroom/lab experiences. Student grades will be assigned as a cooperative effort between faculty and job supervisor.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Mental Health & Developmental Disabilities (MHDD)

MHDD 101 # - Role of the Technician
Units: 1
Basic skills in behavioral observation, documentation and approaches to intervention as a treatment team member. Other topics include guardianship, rights, confidentiality, abuse and neglect, and program implementation.
Term Offered: AS NEEDED
### Military Occupations (MIL)

**MIL 101** - Leadership and Personal Development
Mission of the armed services, role of the military, evolution of weapons and warfare. Introductory orienteering, marksmanship, physical fitness, and briefing skills.

**MIL 101L** - Military Science Lab and Physical Training I
MIL 101L introduces students to the personal challenges and competencies that are critical for effective leadership and the structure of the ROTC Basic courses. Students will learn basic tactical skills and how to successfully navigate using a compass and map. The focus is on developing basic knowledge and comprehension of basic tactics, physical fitness, and organizational skills that will allow students to achieve a team-oriented goal. Students will also learn how to live a physically fit lifestyle. This will introduce students to time management skills that will help them develop and achieve different responsibilities.

**MIL 102** - Introduction to Tactical Leadership
MIL 102 introduces students to the personal challenges and competencies that are critical for effective leadership. Students will learn how the personal development of life skills such as land navigation, tactics, effective Army communication, and army leadership relate to leadership, officership, and the Army profession. The focus is on developing basic knowledge and comprehension of Army leadership dimensions, attributes and core leader competencies while gaining a big picture of understanding the ROTC program, its purpose in the Army, and its advantages for the student.

**MIL 102L** - Military Science Lab and Physical Training II
MIL 102L introduces students to the personal challenges and competencies that are critical for effective leadership and the structure of the ROTC Basic courses. Students will learn basic tactical skills and how to successfully navigate using a compass and map. The focus is on developing basic knowledge and comprehension of basic tactics, physical fitness, and organizational skills that will allow students to achieve a team-oriented goal. Students will also learn how to live a physically fit lifestyle. This will introduce students to time management skills that will help them develop and achieve different responsibilities.

**MHDD 102** - Medical Component
This course covers basic medical information including infection control, safety procedures, confidentiality, awareness of normal bodily functions, personal care and recognition of signs and symptoms that need to be reported to medical staff.

**MHDD 105** - Conflict Prevention and Response Training
This course focuses on the application of prevention and response techniques to support persons in crisis or conflict with others. These applications are for use by service providers as approved by the State of Nevada, Division of Mental Health and Development Services.

**MHDD 106** - Teaching and Active Treatment
Defining “active treatment” and its necessary components. Implementing active treatment in a service context of dignity, respect, privacy, access to choices and participation in the therapeutic process with the use of effective teaching methods.

**MHDD 107** - Medication Fundamentals
Study of major categories of psychotropic and seizure medications, rationale for use of medication, typical dosages, main effects, assessment of effectiveness and potential side effects.

**MHDD 109** - Introduction to Therapeutic Interventions
Basic approaches to behavioral intervention including defining behavior, data collection, principles and applications of behavior change techniques and implementation of behavioral programs.

**MHDD 126** - Understanding Developmental Disabilities
Definition, history, diagnosis and causes of developmental disabilities. Development and delivery of effective direct support services to persons with developmental disabilities.

**MHDD 150** - Issues in Substance Abuse
Overview of substance abuse issues and study of basic treatment approaches. Includes biological and lifestyle factors as well as legal issues.

**MHDD 153** - Life Span Development
Growth and development through the life span. Includes social learning theory, family dynamics and human relations and development as relating to mentally ill and developmentally disabled clients.

**MHDD 154** - Advanced Therapeutic Interventions
A comprehensive working knowledge of interdisciplinary therapeutic intervention including assessing, planning, implementing and evaluating a client’s treatment program.

**MHDD 160** - Understanding Mental Illness
An in-depth analysis of major diagnostic categories encountered with the seriously mentally ill. Review of treatment plans which have proven useful in addressing these disorders.

**MHDD 295** - Practicum
A career-related work experience, under qualified supervision. Work directly with mentally ill or developmentally disabled clients within a local service-provider agency. Preparation for occupation as MHT/MRT.

**Term Offered:** AS NEEDED
MIL 201 # - Innovative Team Leadership Units: 2
MIL 201 explores the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and two historical leadership theories that form the basis of the Army leadership framework. Aspects of personal motivation and team building are practiced planning, executing and assessing team exercises. While participation in the leadership labs is not mandatory during MSL II year, significant experience can be gained in a multitude of areas and participation in the labs is highly encouraged. The focus continues to build on developing knowledge of the leadership attributes and core leader competencies through the understanding of Army rank, structure, and duties as well as broadening knowledge of land navigation and squad tactics. Case studies will provide a tangible context for learning the Soldier’s Creed and Warrior Ethos.
Term Offered: AS NEEDED

MIL 201L # - Military Science Lab and Physical Training III Units: 1
MIL 201L introduces students to the personal challenges and competencies that are critical for effective leadership and the structure of the ROTC Basic courses. Students will learn basic tactical skills and how to successfully navigate using a compass and map. The focus is on developing basic knowledge and comprehension of basic tactics, physical fitness, and organizational skills that will allow students to achieve a team oriented goal. Students will also learn how to live a physically fit lifestyle. This will introduce students to time management skills that will help them develop and achieve different responsibilities.
Term Offered: AS NEEDED

MIL 202 # - Foundations of Tactical Leadership Units: 2
MIL 202 examines the challenges of leading teams in the complex operational environment. The course highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army Leadership Requirements Model explores the dynamics of adaptive leadership in the context of military operations. MIL 202 prepares Cadets for MSL 301. Cadets develop greater self awareness as they assess their own leadership styles and practice communication and team building skills. Case studies give insight into the importance and practice of teamwork and tactics in real-world scenarios.
Term Offered: AS NEEDED

MIL 202L # - Military Science Lab and Physical Training IV Units: 1
MIL 202L introduces students to the personal challenges and competencies that are critical for effective leadership and the structure of the ROTC Basic courses. Students will learn basic tactical skills and how to successfully navigate using a compass and map. The focus is on developing basic knowledge and comprehension of basic tactics, physical fitness, and organizational skills that will allow students to achieve a team oriented goal. Students will also learn how to live a physically fit lifestyle. This will introduce students to time management skills that will help them develop and achieve different responsibilities.
Term Offered: AS NEEDED

Music (MUS)

MUS 101 # - Music Fundamentals Units: 3
Notation, terminology, intervals, scales and chords. Designed to furnish a foundation for musicianship and music theory.
Term Offered: Spring and Fall

MUS 105 # - Vocal Techniques Units: 2
Fundamentals of tone production, breath control, and practical techniques involved in reading and interpreting songs. May be repeated for a maximum of 4 credits.
Term Offered: Spring and Fall

MUS 107 # - Guitar Class I Units: 2-3
This course is geared toward the beginning level guitarist. Topics will include chording, music reading, melody playing, right hand technique and style.
Enrollment Requirements: Prerequisite: Student must supply own acoustic guitar
Term Offered: Spring and Fall

MUS 108 # - Guitar Class II Units: 2-3
This course is geared toward the intermediate level guitarist. Emphasis is placed on improving individual performance on the guitar and will include playing chords and melodies, reading music and guitar technique.
Enrollment Requirements: Prerequisite: Successful completion of Guitar I (MUS 107) or instructor approval
Student must supply own guitar
Term Offered: Spring

MUS 111 # - Piano Class I Units: 2-3
Beginning piano class. Music reading and keyboard techniques from beginning through early intermediate levels. No previous musical training required.
Enrollment Requirements: Prerequisite: No previous musical training required
Term Offered: Spring and Fall

MUS 112 # - Piano Class II Units: 2-3
Continuation of beginning piano class. Music reading and keyboard techniques from early intermediate through intermediate levels.
Enrollment Requirements: Prerequisite: MUS 111 or instructor approval
Term Offered: Spring and Fall

MUS 113 # - Fundamentals of Music Composition I Units: 2
Techniques and principles of music composition. Each level may be repeated to a maximum of four credits.
Enrollment Requirements: Prerequisite: MUS 203 or instructor approval
Term Offered: Spring and Fall

MUS 121 # - Music Appreciation Units: 3
Historical and cultural background of music. A general course in music appreciation open to all students. Representative works presented and analyzed. Satisfies the UNR Fine Arts core curriculum.
Term Offered: Spring and Fall

MUS 122 # - Survey of Jazz Units: 3
Survey of Jazz is an introduction to the historical evolution of jazz music from its roots in the blues and ragtime to contemporary eclecticism. There will be extensive listening and discussion in class as well as assigned listening and reading. This class satisfies UNR Fine Arts Core Curriculum.
Term Offered: AS NEEDED

MUS 125 # - History of Rock Music Units: 3
Survey of Rock music from its origins in Blues through Contemporary Rock styles. Examples of various styles will be analyzed.
Term Offered: Spring and Fall

MUS 131 # - Introduction to Music Literature Units: 3
The purpose of MUS 131 is to introduce the student to deep aspects of musical experience and musical history in a formal manner through listening, score reading and study, and lectures.

MUS 166 # - Introduction to Midi Sequencers and Synthesizers Units: 2
This course is geared toward the beginning and intermediate level electronic musician. The course is an introduction to digital music synthesis, sampling and sequencing. Keyboard experience is useful but not required.
MUS 203 # - Music Theory I  
Units: 3
The study of basic materials of music including rhythm, pitch, and harmony. This class includes aural, sight-singing, and basic keyboard recognition components. Knowledge of music fundamentals is necessary for entrance into this class.
Term Offered: Fall

MUS 204 # - Music Theory II  
Units: 3
Enrollment Requirements: Prerequisite: Successful completion of MUS 203
Term Offered: Spring

MUS 207 # - Music Theory III  
Units: 3
A more in-depth study of the counterpoint and traditional harmonic practices of the eighteenth and nineteenth centuries through writing, analysis, and aural perception.
Term Offered: Fall

MUS 208 # - Music Theory IV  
Units: 3
A study of late nineteenth-century harmonic practices and twentieth-century idioms through writing, analysis, and aural perception.
Enrollment Requirements: Prerequisite: Successful completion of MUS 207E
Term Offered: Spring

MUS 211 # - Sight-Singing and Dictation I  
Units: 1
This course will teach the techniques of sight-singing, ear training and music dictation. This will include learning solfege, rhythmic-reading, melodic and harmonic dictation.
Enrollment Requirements: Prerequisite: MUS 101 or instructor approval
Term Offered: Fall

MUS 212 # - Sight-Singing and Dictation II  
Units: 1
This course will teach the techniques of sight-singing, ear training and music dictation. This will include utilizing solfege, complex rhythm-reading, melodic and harmonic dictation.
Enrollment Requirements: Prerequisite: MUS 211
Term Offered: Spring

MUS 213 # - Fundamentals of Music Composition II  
Units: 2
Techniques and principles of music composition. Each level may be repeated to a maximum of four credits.
Enrollment Requirements: Prerequisite: MUS 113

MUS 225 # - Introduction to Music History I  
Units: 3
Chronological study of the composers and their work from the beginning through the Baroque period. Satisfies the UNR Fine Arts core curriculum.
Term Offered: AS NEEDED

MUS 226 # - Introduction to Music History II  
Units: 3
Chronological study of the composers and their work from the classical through romantic periods. Satisfies the UNR Fine Arts core curriculum.
Term Offered: AS NEEDED

MUS 235 # - Finale: An Introduction  
Units: 1
Introduction to computerized methods of music notation. Students use Finale to produce parts and scores according to professional standards in all fields of music. May be repeated to a maximum of two credits.
Enrollment Requirements: Prerequisite: MUS 101 or instructor approval

MUS 290 # - Internship in Music  
Units: 1-8
A course wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 100 hours of internship for one credit. May be repeated for up to eight credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

MUS 299 # - Special Topics in Music  
Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Music Applied (MUSA)

MUSA 101 # - Bass-Lower Division  
Units: 1-2
Private instruction in bass. Students will participate in seven hours of instruction per credit per semester. Maximum of eight lower-division credits.
Enrollment Requirements: Corequisite: Must also be enrolled in a music ensemble class (MUSE)
Term Offered: AS NEEDED

MUSA 103 # - Bassoon-Lower Division  
Units: 1-2
Private instruction in bassoon. Students will participate in seven hours of instruction per credit per semester. Maximum of eight lower-division credits.
Enrollment Requirements: Corequisite: Must also be enrolled in a music ensemble class (MUSE)

MUSA 105 # - Cello-Lower Division  
Units: 1-2
Private instruction in cello. Students will participate in seven hours of instruction per credit per semester. Maximum of eight lower-division credits.
Enrollment Requirements: Corequisite: Must also be enrolled in a music ensemble class (MUSE)

MUSA 107 # - Clarinet-Lower Division  
Units: 1-2
Private instruction in clarinet. Students will participate in seven hours of instruction per credit per semester. Maximum of eight lower-division credits.
Enrollment Requirements: Corequisite: Must also be enrolled in a music ensemble class (MUSE)

MUSA 109 # - Drum Set-Lower Division  
Units: 1-2
Private instruction in drum set. Students will participate in seven hours of instruction per credit per semester. Maximum of eight lower-division credits.
Enrollment Requirements: Corequisite: Must also be enrolled in a music ensemble class (MUSE)
Term Offered: AS NEEDED

Natural Resources (NRES)

NRES 100 # - Prin of Natural Resources & Environmental Sciences
This course involves the study of topics and issues related to natural resources and environmental sciences. Major topics covered include ecological principles, ecosystem functioning, population dynamics, conservation biology, resource use and management, and human-caused environmental impacts. There are four mandatory lab experiences.
Term Offered: Fall

NRES 210 # - Environmental Pollution
This course explores environmental issues associated with anthropogenic interactions with the biosphere, lithosphere, atmosphere, and hydrosphere. Major topics include air pollution, water pollution, environmental toxicology, global climate change, energy use, and solid waste management.
Enrollment Requirements: Prerequisite: MATH 126
Term Offered: Fall

NRES 211 # - Conservation, Humans and Biodiversity
This course explores the fundamental concepts and principles of biodiversity conservation. Major topics include: patterns and processes creating biodiversity; causes and consequences of biodiversity loss; and approaches to conserving biodiversity.
Term Offered: Spring

Nursing (NURS)

NURS 102 # - Professional Behaviors
This introductory course provides the student with an understanding of the professional nurse's role within the health care system. Emphasis is placed on ethics, professional obligations, values, expectations of the profession and accountability for lifelong learning. Students will learn the methods of communicating professionally and effectively with individuals, significant support persons, and as members of the interdisciplinary health care team. The impact of family will be included.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Acceptance to the Nursing program
Term Offered: Spring and Fall

NURS 129 # - Level 1 - Basic Nursing Skills
The course will prepare the future nursing student to provide holistic basic nursing care to residents in long-term care facilities. Students will provide total patient care and comfort measures at the level of a nursing assistant while incorporating basic principles of safety and infection for self and others. This is an alternate prerequisite (in lieu of the Certified Nursing Assistant class) for the nursing program. Note: This class does NOT prepare students to sit for the Nevada State Board of Nursing Certified Nursing Assistant Examination.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: MANDATORY STEPS OF ENROLLMENT:
Background check, Drug Test, HCP CPR card, Major Medical Insurance and Immunizations
Term Offered: AS NEEDED

NURS 130 # - Nursing Assistant
This course provides knowledge and skills necessary to assist the professional nurse in direct patient care, undertaking those tasks which are supportive to the care of the patient in various health-care settings. Students are introduced to the roles and responsibilities of a Certified Nursing Assistant. Emphasis is placed on acquiring proficiency in direct and indirect care to patients, as defined by the Nevada State Board of Nursing’s Scope of Practice. The lab/clinical portion of this course includes selected skills that students have to perform. After satisfactory completion of this course, students are eligible to take the State exam and after passing that exam can become "Certified" Nursing Assistants.
Enrollment Requirements: MANDATORY STEPS OF ENROLLMENT:
Background check, Drug Test, HCP CPR card, Major Medical Insurance and Immunizations
Term Offered: All Semesters

NURS 138 # - Nursing Care I
This introductory course provides the students with the foundations of the arts and science of nursing. Students are exposed to the core competencies that define the roles and responsibilities of an associate degree nurse. Focus is placed on acquiring proficiency to carry out basic independent and interdependent nursing actions that assist clients across the lifespan in meeting their health-care needs. Each student identifies care planning activities and develops an individualized care plan and assessment focusing on unique client/patient needs. Emphasis is on assessment, teaching and learning, and communication in health and wellness. This course may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).
Enrollment Requirements: Prerequisite: Acceptance to the Nursing program
Term Offered: Spring and Fall

NURS 140 # - Medical Terminology
The development of a basic medical vocabulary used to describe the body's anatomical systems with emphasis on the definition, use, spelling and pronunciation of terms. Attention will be focused on disease, normal body structure and function and pharmacology terminology.
Term Offered: All Semesters
**NURS 142 # - Fundamentals of Pharmacology**  
This course provides an introduction to common pharmacotherapies encountered by nurses with emphasis on safe, quality, patient-centered, socio-culturally appropriate, evidence-based nursing care. Various groups of drugs will be studied in relation to their actions on selected body systems focusing on safe administration of medications to clients across the lifespan. This course may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE).  
*Enrollment Requirements: Prerequisite: BIOL 223, BIOL 224, BIOL 251, and acceptance to the nursing program*  
*Term Offered: Spring and Fall*

**NURS 152 # - Foundations of Pharmacology in Nursing I**  
Provides students with an overview of pharmacology with an emphasis on clinical applications within the context of the nursing process and prioritization of needs; with special consideration given to the physiological, psycho/social, cultural, and spiritual needs of the patients. Explores indications, modes of action, effects, contraindications and interactions for selected drugs. Specific nursing responsibilities related to drug administration are emphasized.  
*Transferability: May not transfer towards an NSHE bachelor’s degree*  
*Enrollment Requirements: Prerequisite: Acceptance to the nursing program*

**NURS 153 # - Foundations of Pharmacology in Nursing II**  
Provides a continuation of study of pharmacological principles and practices to achieve safe administration of medications. Selected drug classifications are presented, with an emphasis on understanding intended and unintended effects of drugs on body systems. Provides an overview of pharmacology with an emphasis on clinical applications within the context of the nursing process and prioritization of needs.  
*Enrollment Requirements: Prerequisite: NURS 102, NURS 138, NURS 152, and NURS 212 and admitted to the nursing program*

**NURS 170 # - Nursing Care 2**  
The focus of this course is on nursing care and management of the individual across the health wellness illness continuum using the nursing process. Student will integrate knowledge of the diverse and holistic needs of the individual. Students will apply and implement communication strategies through collaboration, and teaching and learning; topics include stress and coping and grief and loss. The childbearing and child rearing family are also included as a population.  
*Enrollment Requirements: Prerequisite: Acceptance into the Nursing Program NURS 138 and NURS 212*  
*Term Offered: Spring and Fall*

**NURS 202 # - Nursing Care 3**  
The focus of this course is a continuation of the nursing care and management of patients/clients with an altered health status that affects both individuals and families across the lifespan. The childbearing and child rearing family are also included as a population. The course applies the concepts of clinical pharmacology, psychopathology, pathophysiology, health maintenance, promotion and restoration to the care of patients/clients. The lab/clinical portion of this course include selected observation, clinical assignments and the use of computer simulation and skills laboratory.  
*Transferability: May not transfer towards an NSHE bachelor’s degree*  
*Enrollment Requirements: Prerequisite: BIOL 223, BIOL 224, BIOL 251, NURS 102, NURS 138, NURS 170 and NURS 212*  
*Term Offered: Spring and Fall*

**NURS 209 # - Principles of Pathophysiology**  
This course is designed to offer students the opportunity to explore and apply the principles of Pathophysiology gained in this course to future nursing courses. The concepts of physiology and pathophysiology, dealing with disease caused by alteration of function, across the life span will be the focus of the course. This theory course will utilize the body systems approach in the presentation of the principles of pathophysiology. Emphasis is placed on the integration of physiological and developmental variables as they relate to client scenarios with altered body systems across the life span.  
*Enrollment Requirements: Prerequisite: BIOL 190, BIOL 223, BIOL 224 and BIOL 251*  
*Term Offered: Spring and Fall*

**NURS 212 # - Cultural Aspects of Nursing Care**  
Nurse-client encounters involve the interaction of three cultural subsystems: the culture of the nurse, the culture of the client and the culture of the setting. This course explores the influence of culturally diverse backgrounds within the health care system of the United States. The weaving of gender, age, race, ethnic and religious diversities of the nurse and client will be emphasized. This course fulfills the diversity requirement at TMCC. This course is offered online only and is open only to students admitted to the nursing program.  
*Enrollment Requirements: Prerequisite: Restricted to enrolled Nursing students only*  
*Term Offered: Spring and Fall*

**NURS 240 # - RN Refresher-Theory**  
The RN Refresher Course is designed to assist inactive professional nurses to update their knowledge and skills in order to renew their licenses and return to active nursing practice. This theory portion is an on-line program that spans one semester. Students who successfully complete this course can then take NURS 242 which includes 135 hours of clinical practice with an RN preceptor.  
*Transferability: May not transfer towards an NSHE bachelor’s degree*  

**NURS 242 # - RN Refresher - Clinical**  
This RN Refresher Course is designed to assist inactive professional nurses to update their knowledge and skills in order to renew their nursing licenses and return to active nursing practice. NURS 240 must be taken prior to this course. This program includes 135 hours of clinical with an RN preceptor. This is a Pass/Withdraw class. Students must have a temporary nursing license from the Nevada State Board of Nursing and have taken NURS 240 (RN Refresher Course-Theory).  
*Transferability: May not transfer towards an NSHE bachelor’s degree*  

**NURS 274 # - Nursing Care 4**  
The focus of this course is the culmination of the care and management of the holistic, diverse, acutely-ill adult client. Emphasis is on the refinement of clinical decision making skills, achievement of clinical competence, and demonstration of professional nursing practice. The capstone experience of this course provides opportunities to incorporate informatics, to explore quality improvement opportunities using the National Patient Safety Goals.  
*Transferability: May not transfer towards an NSHE bachelor’s degree*  
*Enrollment Requirements: Prerequisite: BIOL 223, BIOL 224, BIOL 251; NURS 102, NURS 138, NURS 170, NURS 202, NURS 209 and NURS 212*  
*Term Offered: Spring and Fall*
Nutrition (NUTR)

NUTR 100 # - Introduction to Dietetic Technician Program  Units: 0.5
This course is designed for those students who have an interest in becoming a Dietetic Technician Registered (DTR). It is an introductory directed study course designed to give the student a greater knowledge of what a DTR does and what career opportunities are open in the field. The goal of this course is to help the student in making an appropriate career choice. Transferability: May not transfer towards an NSHE bachelor’s degree
Term Offered: Spring and Fall

NUTR 121 # - Human Nutrition  Units: 3
This course is designed as an introductory course in nutrition and should acquaint the student with the concepts of nutrients, nutrient requirements and the effect of malnutrition and diet choices on human health. This class meets for four mandatory lab experiences.
Term Offered: Spring and Fall

NUTR 220 # - Food Service Systems Management  Units: 3
Organization and operation of food service, management principles, food service personnel, labor laws, regulatory agencies, food cost control and record keeping.
Term Offered: Fall

NUTR 221 # - Quantity Food Purchasing  Units: 3
Food purchasing for food service systems, understanding cost factors, food laws, quality standards and basic manufacturing processes.
Term Offered: Spring

NUTR 222 # - Principles of Food Science  Units: 3
This course covers the basic fundamentals of food science and underlying technology associated with the food industry. An emphasis will be given to the functional and chemical aspects of the nutrients in foods. Four laboratory experiences will cover applications in food systems, such as food processing and preparation of foods.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: BIOL 190 and BIOL 190L

NUTR 223 # - Principles of Nutrition  Units: 3
A course designed for the student in the field of allied health and for students majoring in Dietetic Technology. Emphasis on the functions of the major nutrients and their role in maintaining good health, beginning at the cellular level and extending to include interactional properties of nutrients and diets.
Enrollment Requirements: Prerequisite: BIOL 190 and BIOL 190L or permission of instructor
Term Offered: Spring and Summer

NUTR 226 # - Food Processing Microbiology  Units: 4
To introduce the students to the fundamentals of food microbiology and underlying technology associated with providing a safe, nutritious supply of fresh and processed foods to humans. Students will be introduced to how the food industry and regulatory agencies deal with potential health hazards associated with the ecology and physiology of disease-causing organisms that can be present in food, and how food preservation and processing can extend food availability in a safe manner.
Transferability: May not transfer towards an NSHE bachelor’s degree
Enrollment Requirements: Prerequisite: BIOL 190 and BIOL 190L
Term Offered: All Semesters

NUTR 233 # - Community and Lifecycle Nutrition  Units: 3
This course is designed for students majoring in the Dietetic Technician Program. Application of nutritional principles and practices in health care, public health and community nutrition services including community resources and governmental regulation. Lifecycle nutrition will be studied as it pertains to the general nutritional needs and problems associated with pregnancy, lactation, infancy, childhood, adolescence and the aging population.
Enrollment Requirements: Prerequisite: NUTR 223
Term Offered: Fall

NUTR 243 # - Medical Nutrition Therapy for Dietetic Techs I  Units: 3
A course designed for students in the Dietetic Technician Program or other allied health fields. Nutritional care of individuals, applications of nutrition in the clinical setting and specific disease states and nutrition related care for the patient will be studied. This is one part of a two-part course series.
Enrollment Requirements: Prerequisite: NUTR 223
Term Offered: Fall

NUTR 244 # - Medical Nutrition Therapy for Dietetic Techs II  Units: 3
A course designed for students in the Dietetic Technician Program or other allied health field. Nutritional care of individuals, applications of nutrition in the clinical setting and specific disease states and nutrition related care for the patient/client will be studied. This is part of a two-part course series.
Enrollment Requirements: Prerequisite: NUTR 243
Term Offered: Spring

NUTR 253 # - Cultural Considerations in Nutrition and Health Care  Units: 3
Four major non-western cultures are examined regarding cultural norms in the following areas. Cultural attitudes, beliefs and behaviors associated with access to biomedical health care and to traditional health practices (Complementary and Alternative medicine) among different cultural groups. Cultural attitudes, beliefs and behaviors regarding food consumption as it varies across cultural groups. Theoretical and practical approaches to cross cultural communication methods and the meaning of various communication models among groups.
Term Offered: Spring and Fall
NUTR 291 # - Nutrition Internship-Food Service  Units: 3
Supervised experience in a food service setting. Application of classroom theories to actual operations. Registration requires approval of the instructor. This course is designed for students majoring in the Dietetic Technician Program. The Practicum provides a total of 150 hours supervised experience in the area of Food Service Management. The student will interact and apply appropriate assistance and leadership based on the mission of the facility where placed.***Department Consent Required***
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Department Consent Required
Term Offered: Spring and Fall

NUTR 292 # - Nutrition Internship-Community  Units: 3
Supervised experience in a Community Nutrition setting. Application of classroom theories to actual situations. Registration requires approval of the instructor. This course is designed for students majoring in the Dietetic Technician Program. The Practicum provides a total of 150 hours supervised experience in the area of Community Nutrition. The student will interact and apply appropriate nutrition assistance based on the age, health, cultural background and medical needs of the patients/clients. Experience sites may include: senior residence facilities, senior centers, WIC offices, or public feeding programs.***Department Consent Required***
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisites: NUTR 223, NUTR 233 and approval of the instructor
Term Offered: Spring and Fall

NUTR 293 # - Nutrition Internship-Clinical  Units: 3
Supervised experience in a variety of health care and nutrition settings. Application of classroom theories to actual operations. Registration requires approval of the instructor. This course is designed for students majoring in the Dietetic Technician Program. The Practicum provides a total of 150 hours supervised experience in the area of Clinical Nutrition. The student will interact and apply appropriate nutrition assistance based on the age, health, cultural background and medical needs of the patients/clients. Experience sites may include hospitals or the practice of a Consulting Registered Dietitian.***Department Consent Required***
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisites: NUTR 223, NUTR 233 and approval of the instructor
Term Offered: Spring and Fall

NUTR 298 # - Special Topics in Nutrition  Units: 1-3
Covers selected topics of interest to students enrolled in the Dietetic Technician program or other Allied Health programs. May be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Occupational Saftey and Health (OSH)
OSH 101 # - Intro to Safety and Health  Units: 3
An overview of elements included in a comprehensive accident prevention program. Skill development in accident investigation, record keeping systems, development and presentation of safety training topics and safety awareness programs. OSHA, EPA and workers compensation issues are addressed.
Term Offered: AS NEEDED

OSH 222 # - General Industry Safety  Units: 1
This is a general safety course for an industrial environment. Students will learn OSHA regulations, personal safety and understand the importance of safe work habits. This course satisfies 6 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

Law/Paralegal (LAW)

LAW 101 # - Fundamentals of Law I  Units: 3
(Legal Specialty course) Relationship and delineation of the function and responsibility of the legal assistant, the attorney and the client; survey of substantive areas of the law; structure of the legal system; basic legal terminology; ethics and liability of the legal profession.
Term Offered: Spring

LAW 198 # - Special Topics Legal Assistant  Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be one variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Enrollment Requirements: Prerequisite: LAW 101
Term Offered: AS NEEDED

LAW 203 # - Real Property  Units: 3
(Legal Specialty course) Discussion of real property law, including landlord/tenant law, deeds of trust and foreclosures. The course will also cover the practical application of practice in these areas.
Enrollment Requirements: Prerequisite: LAW 101 with a grade of “B” or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259
Term Offered: Fall

LAW 204 # - Torts  Units: 3
(Legal Specialty course) An overview of tort law. Concepts to be discussed include intentional torts, strict liability, negligence, proximate cause, re ipsa loquitur, comparative responsibility, premises liability, product liability, professional negligence and worker’s compensation.
Enrollment Requirements: Prerequisite: LAW 101 with a grade of “B” or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259
Term Offered: Spring

LAW 205 # - Contracts  Units: 3
(Legal Specialty course) A survey of contract law. Discussion of the essential elements of contracts, with special emphasis placed on the practical analysis of contracts. Discussion on the filing of a complaint for breach of contract. Also, discussion of debtor/creditor rights.
Enrollment Requirements: Prerequisite: LAW 101 with a grade of “B” or better, LAW 259, and LAW 261 This course can be taken concurrently with LAW 259
Term Offered: Fall

LAW 231 # - Procedure - Civil  Units: 3
(Legal Specialty course) Emphasis on jurisdiction of the court system in Nevada. Discussion of complaints, summons, answers, supplemental pleadings. Will also cover pretrial tactics, motions, exceptions, venue, discovery, depositions and summary judgments.
Enrollment Requirements: Prerequisite: LAW 101 with a grade of “B” or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259
Term Offered: Spring
LAW 232 # - Procedure - Criminal  
Units: 3  
An overview of the procedure involved in criminal cases. Includes a discussion of complaints, indictments, writs of habeas corpus, trial motions and post-conviction remedies.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259  
Term Offered: Fall

LAW 233 # - Business Structures  
Units: 3  
(Legal Specialty course) A survey of corporate, partnership and agency law. Discussion of some types of employment law. The drafting of corporate and partnership agreements will also be covered.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259  
Term Offered: Fall

LAW 251 # - Bankruptcy  
Units: 3  
(Legal Specialty course) This course will provide a basic knowledge of bankruptcy law, with emphasis on understanding the schedules, preparing proofs of claims and motion practice within the bankruptcy court.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259  
Term Offered: SUMMER

LAW 252 # - Family Law  
Units: 3  
(Legal Specialty course) Covers the law related to family issues. Includes a discussion of rights and obligations of parties to each other and their offspring. Divorce, custody and support, spousal agreements, termination of parental rights, adoptions and collection of child support are all discussed.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259  
Term Offered: SUMMER

LAW 255 # - Probate Procedures  
Units: 3  
(Legal Specialty course) Law related to estate planning issues. Includes procedure to distribute a person's estate upon one's death; creation and administration of a trust and procedure to appoint another to act on one's behalf. Also includes a discussion of health care documents and related elderly care issues.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better, LAW 259 and LAW 261 This course can be taken concurrently with LAW 259  
Term Offered: SUMMER

LAW 259 # - Legal Writing  
Units: 3  
(Legal Specialty course) In-depth study and development of legal writing skills. Emphasis is placed on writing assignments which assume knowledge of basic legal research skills, development of memoranda of points and authorities and analyses of case facts. Also discussed will be office memoranda and appeal briefs.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better and LAW 261  
Term Offered: Fall

LAW 261 # - Legal Research I  
Units: 3  
(Legal Specialty course) Covers legal research and terminology. The student will become familiar with the law library and develop legal research skills through the use of legal digests, encyclopedias, reporter systems, indexes, Shepard's, treatises, cases, statutes, legal periodicals, government documents and other research material. Emphasis is placed on developing legal briefing skills and finding answers to legal research questions.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better  
Term Offered: Spring

LAW 263 # - Ethics  
Units: 1-3  
(Legal Specialty course) Covers the relationship between the attorney, client and legal assistant. Discusses what a legal assistant may and may not do. Also discusses conflicts of interest, dealing with witnesses and adverse parties and confidentiality.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better  
Term Offered: Spring and Fall

LAW 264 # - Civil Evidence  
Units: 3  
(Legal Specialty course) Covers interviewing skills, fact pattern analysis, discovery preparation and evidence. Emphasis is placed on preparation of documents throughout the court process.  
Enrollment Requirements: Prerequisite: LAW 101 with a grade of "B" or better, LAW 231, LAW 259, LAW 261 and 12 additional semester LAW units  
Term Offered: Spring

LAW 295 # - Supervised Field Experience  
Units: 3  
(Legal Specialty course) Please consult with the program coordinator. Legal assistant work experience under the supervision of an attorney. The student will work at a local law firm or agency eight hours a week for the 15-week semester to gain practical work experience. The student reports and evaluates his/her experience with the program coordinator.  
Enrollment Requirements: Prerequisite: LAW 101 with a 'B' or better, LAW 231, LAW 259, LAW 261, LAW 263 and 12 semester LAW units  
Term Offered: Spring and Fall

Personal Trainer (PTR)

PTR 100 # - Introduction to Personal Training  
Units: 3  
Explore the career of personal training as you learn about certification requirements, career opportunities, paths and recommendations. Requirements and expectations of the TMCC Personal Trainer program as well as information on the courses within the program will be discussed. Discover the importance of communication skills and how to build relationships with clients and the general public. Scope of practice and legal issues pertaining to certification will also be covered.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Fall

PTR 120 # - Techniques of Teaching Weight Training  
Units: 1  
Examine the fundamental concepts and techniques for teaching weight training, including proper lifting technique and safety guidelines. Discover the best ways to present and demonstrate information for clients as well as how to critique and provide corrective feedback to clients for improved performance.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring
PTR 200 # - Pilates Reformer Instructor Certification  Units: 4
This course provides total immersion into Pilates principles, Pilates exercises, communication methods and goal oriented training. Students will learn and practice anatomy, biomechanics, and their application to personal training strategies with an emphasis on client safety and communication. Students completing the required hours and passing the practical and written exams will be certified to teach standard reformer Pilates.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: CPR Certification
Term Offered: Spring and Fall

PTR 202 # - Anatomy and Physiology I for Massage and Fitness Professionals  Units: 4
This course provides a fundamental overview of human anatomy and physiology and is the first course of a two part series which will cover cell structures and functions, tissues and membranes, integumentary system, skeletal system, muscular system, nervous system and special senses. Through a systematic and detailed progression, students will learn the basics of structure and function of selected organs and organ systems and how they interact with and support one another. This course will provide a solid base of theoretical and practical knowledge for personal trainers to apply in their career. Same as MASG 202.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

PTR 205 # - Fitness Analysis and Application  Units: 3
Explore the tests used to measure a client's overall fitness level in conjunction with the five health related components of physical fitness. Practice hands on testing and use those test results to look at the areas that need improvement and the best mode to use for improvement in the particular area of fitness. There will be in-depth hands-on training for body composition, cardiovascular fitness, muscular strength, muscular endurance, and flexibility. Discover how to train clients based on their test results and discuss methods to work with special needs and special population issues.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Fall

PTR 208 # - Anatomy and Physiology II for Massage and Fitness Professionals  Units: 4
This course provides a fundamental overview of human anatomy and physiology and is the second course of a two part series which will cover cell structures and functions, tissues and membranes, integumentary system, skeletal system, muscular system, nervous system and special senses. Through a systematic and detailed progression, students will learn the basics of structure and function of selected organs and organ systems and how they interact with and support one another. This course will provide a solid base of theoretical and practical knowledge for personal trainers to apply in their career. Same as MASG 208.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: PTR 202
Term Offered: Spring and Fall

PTR 210 # - Kinesiology for Massage and Fitness Professionals  Units: 3
Kinesiology is a scientific study of human body movement which addresses physiological, biomechanical, and psychological mechanisms of movement. This course is a detailed, systematic hands-on study specifically designed for personal trainers and will incorporate both theoretical concepts and practical practice. Same as MASG 205.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: Spring and Fall

PTR 250 # - Personal Training Practicum  Units: 2
This course is designed to give advanced Personal Trainer students an opportunity to train clients under the supervision of course instructor in the TMCC Fitness Center. Students will serve as a teaching assist for one of the activity or lecture courses within the TMCC Personal Trainer program, serve on expert panels, and present health topic information to groups as needed. Students will observe and interview certified personal trainers within the fitness community. In addition to hands-on skills training, students will meet weekly for national test review and preparation.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Students must have completed required courses for Personal Trainer program prior to admission into this course Permission will be given to students to register for this course by the department program officer.
Term Offered: AS NEEDED

Philosophy (PHIL)

PHIL 101 # - Introduction to Philosophy  Units: 3
Basic problems in different areas of philosophy such as ethics, political theory, metaphysics and epistemology.
Term Offered: Spring and Fall

PHIL 102 # - Critical Thinking and Reasoning  Units: 3
Non-symbolic introduction to logical thinking and everyday life, law, politics, science, advertising; common fallacies; the uses of language, including techniques of persuasion.
Term Offered: Spring and Fall

PHIL 114 # - Introduction to Symbolic Logic  Units: 3
Methods and principles of correct reasoning and argumentation with application to the various sciences.
Term Offered: Spring

PHIL 119 # - Introduction to the Old Testament  Units: 3
This course will teach students to appreciate, interpret and respond to the Old Testament as a secular, literary, narrative text. We will examine the different genres, literary forms, and historical contexts of a wide variety of biblical texts in the Old Testament. By applying the methods of modern literary criticism such as form, function and genre to the Old Testament, students will learn how to analyze and interpret this ancient text through modern eyes. Furthermore, they will learn how the Old Testament, as a complex narrative of human drama, functions as a continuing source for modern authors (such as Milton or Faulkner) and will find the introduction of the terms, concepts and purposes of literary theory and literary criticism applicable to other literature courses at TMCC or UNR.
Term Offered: AS NEEDED

PHIL 131 # - Introduction to Metaphysics  Units: 3
Selected problems concerning human nature and reality, e.g., mind and body, freedom and determinism, space and time, God, causality.
Term Offered: Fall

PHIL 135 # - Introduction to Ethics  Units: 3
This course introduces ethical theory in the context of case studies drawn from literature, films and the media. The course introduces students to classical and modern examples of ethical theory such as ethical relativism, egoism, utilitarianism, the categorical imperative and theories of moral development.
Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 101 or qualifying English placement score
Term Offered: Spring and Fall
PHIL 198 # - Special Topics in Philosophy  Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits. Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

PHIL 200 # - The Judeo-Christian Tradition  Units: 3
The major religious/philosophic beliefs found in the Old and New Testaments will be studied along with the way these concepts were modified in post-Biblical through modern times. Concepts that will be surveyed include: Biblical cosmology, the nature of deity, salvation, worship, the authority of scripture, the authority of the religious instruction, life after death, etc. Satisfies UNR's CH 201.
Term Offered: AS NEEDED

PHIL 201 # - Philosophy Goes to the Movies  Units: 3
This course introduces participants to philosophical problems dramatized through the medium of film. Participants will experience complex philosophical problems underlying many of the films produced for popular consumption or regarded as classic films. The films will function as case studies allowing analysis of ethical issues and aesthetic values. The films or film clips presented will follow background readings and discussion of the philosophical contexts important to understanding the issues involved.
Term Offered: AS NEEDED

PHIL 202 # - Introduction to the Philosophy of the Arts  Units: 3
Varieties of artistic representation and expression, the relationship of artworks to their embodiments, and the nature of interpretation and aesthetic response.
Term Offered: Spring

PHIL 203 # - Introduction to Existentialism  Units: 3
Readings from Kierkegaard, Nietzsche, Jaspers, Sartre, Heidegger. An examination of the existentialist concepts 'being' and 'nonbeing', 'estrangement', 'dread', 'anxiety' and 'freedom.'
Term Offered: Fall

PHIL 204 # - Introduction to Contemporary Philosophy  Units: 3
Introduces current philosophical thought from several areas of study, including postmodern philosophy, science, theology, art, psychology, and the social sciences. Introduces major movements of twentieth century thought: neo-Kantianism, dialectical materialism, phenomenology, existentialism, neo-positivism, and American pragmatism.
Term Offered: Spring

PHIL 207C # - Introduction to Social and Political Philosophy  Units: 3
Major political philosophers, e.g., Plato, Aristotle, Machiavelli, Hobbes, Rousseau, Mill, Marx, on topics such as justice, freedom, equality, tyranny, war, racism, sexism, power, consent, economics, with a special emphasis on the Constitutions of the United States and Nevada. Satisfies the U.S. and Nevada Constitution requirements.
Enrollment Requirements: Prerequisite: ENG 102 or ENG 114, or CH 201 or CH 202
Term Offered: Spring

PHIL 210 # - World Religions  Units: 3
A critical introduction to the nature and practices of various religions. Studies the main moral and religious views of Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, Jainism, Sikhism. Satisfies TMCC and UNR Diversity requirement.
Enrollment Requirements: Prerequisite: Completion of or concurrent enrollment in ENG 101 or qualifying English placement score
Term Offered: All Semesters

PHIL 211 # - Introduction to Ancient Philosophy  Units: 3
Major thinkers from the sixth through the second century B.C.E., e.g., the pre-Socrates, Socrates, the sophists, Plato, Aristotle, the atomists, cynics, skeptics, stoics and Epicureans.
Term Offered: Fall

PHIL 213 # - Introduction to Modern Philosophy  Units: 3
Major thinkers from the Renaissance through the 18th century, e.g., Bacon, Hobbes, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume and Kant.

PHIL 224 # - Introduction to the Philosophy of Science  Units: 3
Philosophical problems and implications of historical and contemporary scientific inquiry, e.g., the nature of laws, theories, explanations, scientific revolutions, values, relations of science and society.

PHIL 225 # - Introduction to Indian Philosophy  Units: 3
In this course students will survey the remarkable unfolding of Indian religion and philosophy from 500 B.C. to modern times. Readings include translations of original works or commentaries on Hinduism, Buddhism, Jainism, and Vedantism, as well as a historical survey that puts the readings in context. Students will explore consciousness, meditation, reincarnation and parallels between Eastern and Western thought.
Term Offered: AS NEEDED

PHIL 224 # - Introduction to the Philosophy of Science  Units: 3
Philosophical problems and implications of historical and contemporary scientific inquiry, e.g., the nature of laws, theories, explanations, scientific revolutions, values, relations of science and society.

PHIL 244 # - Bioethics  Units: 3
This course provides a balanced systematic, unbiased ethical framework designed to help students understand and analyze a wide range of issues currently controversial in medicine or that are likely to arise in the future. Treatment of such issues as abortion and euthanasia, cloning, genetic screening, just health care, patients' rights, the use of human and animal subjects in research.
Term Offered: Fall

PHIL 245 # - Contemporary Moral Issues  Units: 3
Topical questions in practical ethics, e.g., war and terrorism, world hunger, abortion, racial discrimination, gender roles, the environment from a multicultural perspective.
Term Offered: Fall

PHIL 246 # - Topics in Philosophy  Units: 3
This course offering allows faculty response to community and student interest in ethical, aesthetic and cultural issues through learning activities focused on a specific topic not included in regular offerings. Examples of such topics include ethics and the media, environmental aesthetics, the culture and values of the sixties or other topics utilizing faculty expertise or specialized knowledge of an adjunct faculty. These course offerings will demonstrate the viability and relevance of a humanistic perspective on contemporary issues. The course may be repeated for up to 6 credits as topics vary.

PHIL 295 # - Topical Issues in Philosophy  Units: 3
This course offering allows faculty response to community and student interest in ethical, aesthetic and cultural issues through learning activities focused on a specific topic not included in regular offerings. Examples of such topics include ethics and the media, environmental aesthetics, the culture and values of the sixties or other topics utilizing faculty expertise or specialized knowledge of an adjunct faculty. These course offerings will demonstrate the viability and relevance of a humanistic perspective on contemporary issues. The course may be repeated for up to 6 credits as topics vary.

Physical Education (PEX)

PEX 143 # - Karate  Units: 1-2
Perform basic karate techniques such as blocks, strikes and kicks, and utilize basic stances while performing these skills using form, focus and control.
Term Offered: Spring and Fall

PEX 146 # - Self Defense  Units: 1-2
Enhance your sense of safety and well-being by learning basic self-defense techniques including punches, kicks, grabs and escapes. Increase your awareness of any situation that may be potentially threatening.
Term Offered: Spring and Fall
ZUMBA is a program that was inspired by Latin music and dance movements including salsa, merengue, reggaeton, samba, flamenco, and cumbia. ZUMBA also infuses a variety of international styles (e.g. West African, bollywood, and hip-hop). Basic principles of aerobic, interval, and resistance training are incorporated into each workout to maximize caloric output, cardiovascular benefits, and total body toning.

Term Offered: Spring and Fall

**PEX 149 # - ZUMBA**

units: 1-2

**PEX 151 # - Boxing**

practice the basic techniques and drills of boxing including punches, footwork, speed, balance and agility. Boxing is an exhilarating cardiovascular workout that will promote physical fitness and injury avoidance.

Term Offered: Spring and Fall

**PEX 155 # - Fencing**

Discover the sport and art of foil fencing as you learn the fundamental skills of the sport to include offensive, defensive and countereffensive techniques along with the international rules governing fencing.

Term Offered: Spring and Fall

**PEX 155A # - Fencing, Intermediate/Advanced**

Develop intermediate to advanced fencing skills and learn to apply these skills to strategy, tactics and techniques for bouts and tournaments.

Enrollment Requirements: Prerequisite: PEX 155

Term Offered: Spring and Fall

**PEX 169 # - Yoga**

Yoga is a way of balancing life by uniting body, mind and spirit through the use of postures, movement, breath and breath meditation. Yoga exercises and breathing techniques performed correctly and consistently will promote firm muscles, healthy skin, good posture, flexibility, and coordination. Discover the practice and philosophy of yoga as you develop strength, flexibility and inner awareness through yoga postures and styles, breathing exercises, history, terminology, meditation, relaxation and stress reduction techniques.

Term Offered: Spring and Fall

**PEX 169A # - Yoga, Intermediate/Advanced**

This course is designed for students with previous yoga experience. Students will expand on basic knowledge incorporating more difficult yoga postures (asana) and introducing various breathing (pranayama) techniques. Postures include standing, inverted, back bend, forward bend and twists and all physical movements are adapted to various physical limitations. A maximum of three classes/1-6 credits from 100-199 may be taken during any one semester or summer session except for special programs listed in the class schedule. When beginning, intermediate and advanced classes are scheduled in an activity, the student should consult the department to determine in which level to enroll. A student may enroll in the same class four times for credit.

Term Offered: Spring and Fall

**PEX 170 # - Cardio Fitness**

Gain cardiovascular endurance and discover the benefits of a variety of cardiovascular exercises as you learn how to use proper form and execute movement safely. Coordination and muscle strengthening leads to mind body connection, greater flexibility and increased stamina. Step and floor aerobics, boot camp style cardio, kickboxing, strength training, and outdoor fitness are the major formats covered. Pump iron, use resistance tubing, and utilize other equipment that will contribute to your overall fitness.

Term Offered: Spring and Fall

**PEX 172 # - Body Contouring and Conditioning**

Achieve a total body workout through cardiovascular conditioning, body toning and strength training techniques. Discover a variety of different cardio and toning workouts and learn how to isolate muscles during strength training to benefit your overall fitness and health.

Term Offered: Spring and Fall

**PEX 173 # - Circuit Training**

Explore proper fitness and strength training techniques and fundamentals, while learning a variety of circuit training workout routines and concepts.

Transferability: May not transfer towards an NSHE bachelor's degree

Term Offered: Spring and Fall

**PEX 174 # - Fitness Principles and Practices**

Individuals pursuing a certificate in Personal Training or those with an interest in overall health and wellness will learn about the body systems and functions as related to physical activity. Components of health related fitness and principles of physical fitness, nutrition, weight management, stress management techniques and special populations will be explored.

Term Offered: Spring and Fall

**PEX 176 # - Yoga, Advance**

For students with proficiency in basic yoga techniques. Continue to develop strength, flexibility and awareness of the nuances of the practice. This course is suitable for those who have prior yoga experience, or those who are interested in improving their practice but are not ready for the intensity of an Advanced class.

Term Offered: Spring and Fall

**PEX 177 # - Pilates**

This course will further enhance techniques learned in the novice program. This knowledge of strength training principles and fundamentals, will increase knowledge about weight room safety, muscle groups, strength training routines, spotting techniques, nutrition, modes of resistance training and proper workout structure.

Term Offered: Spring and Fall

**PEX 178 # - Pilates, Intermediate/Advanced**

Geared toward intermediate to advanced weight lifters who have knowledge of strength training principles and fundamentals, this course will further enhance techniques learned in the novice program. This course will utilize Canvas as an assist throughout the semester.

Transferability: May not transfer towards an NSHE bachelor's degree

Enrollment Requirements: Prerequisite: PEX 183 or instructor approval

Term Offered: Spring and Fall

**PEX 179 # - Strength Training for Women**

*Maximum of two credits per semester for a total of three credits in one academic year.*

This course is designed for women who want to learn the correct techniques of strength training. The use of a variety of fitness equipment will be integrated within the class. Participants will work on developing cardiorespiratory endurance, muscular strength and endurance, body composition, nutrition and behavior modification in the context of weight training.

Term Offered: Spring and Fall

**PEX 180 # - Strength Training for Men**

*Maximum of two credits per semester for a total of three credits in one academic year.*

This course is designed for men who want to learn the correct techniques of strength training. The use of a variety of fitness equipment will be integrated within the class. Participants will work on developing cardiorespiratory endurance, muscular strength and endurance, body composition, nutrition and behavior modification in the context of weight training.

Term Offered: Spring and Fall

**PEX 181 # - Personal Training**

*Maximum of two credits per semester for a total of three credits in one academic year.*

Students pursuing a certificate in Personal Training or those with an interest in overall health and wellness will learn about the body systems and functions as related to physical activity. Components of health related fitness and principles of physical fitness, nutrition, weight management, stress management techniques and special populations will be explored.

Term Offered: Spring and Fall

**PEX 182 # - Personal Training, Intermediate/Advanced**

This course is designed for students who want to expand their knowledge and skills in the field of personal training. Participants will work on developing cardiorespiratory endurance, muscular strength and endurance, body composition, nutrition and behavior modification in the context of weight training.

Term Offered: Spring and Fall

**PEX 183 # - Weight Training**

Novice lifters who have limited knowledge of strength training principles and fundamentals will increase knowledge about weight room safety, muscle groups, strength training routines, spotting techniques, nutrition, modes of resistance training and proper workout structure.

Term Offered: Spring and Fall

**PEX 183A # - Weight Training Advanced**

Geared toward intermediate to advanced weight lifters who have knowledge of strength training principles and fundamentals, this course will further enhance techniques learned in the novice program. This course will utilize Canvas as an assist throughout the semester.

Transferability: May not transfer towards an NSHE bachelor's degree

Enrollment Requirements: Prerequisite: PEX 183 or instructor approval

Term Offered: Spring and Fall

**PEX 199 # - Special Topics**

Various short courses and experimental classes covering a variety of subjects in physical education. The course will be variable credit of one to two depending on the course content and number of hours required. This course may be repeated for up to six credits.

Term Offered: Spring and Fall

**PEX 207 # - Total Fitness and Weight Control**

Get the tools and information you need to make educated decisions concerning fitness, nutrition and weight control. Topics covered include the principles of fitness, cardiorespiratory endurance, muscular strength and endurance, body composition, nutrition and behavior modification. Class includes both exercise and lecture.

Term Offered: Spring and Fall

**PHYS 100 # - Introductory Physics**

An introductory course covering the basic concepts of physics for non-science majors. Topics include a broad range of topics from both classical and modern physics. Includes four required lab experiences. Satisfies UNR Science core curriculum requirements.

Enrollment Requirements: Prerequisite: MATH 120 or higher or qualifying ACCUPLACER, ACT/SAT test results

Term Offered: Spring and Fall
PHYS 117 # - Introduction to Space Science and Engineering  Units: 3
Term Offered: AS NEEDED

PHYS 151 # - General Physics I  Units: 4
An algebra based course in introductory Newtonian Mechanics covering vectors, one and two dimensional kinematics, work and energy, momentum and impulse, rotational dynamics, oscillations, fluids, sound and heat.
Enrollment Requirements: Prerequisite: MATH 127 or MATH 128
Term Offered: Spring and Fall

PHYS 152 # - General Physics II  Units: 4
The second semester of an algebra based introductory physics course. The second semester focuses on electromagnetism covering topics of electrostatics, electric fields, electric potential, capacitance, electrodynamics, simple circuits, magneto-statics, magnetic fields, electromagnetic induction, electromagnetic waves, and physical optics.
Enrollment Requirements: Prerequisite: PHYS 151
Term Offered: Spring

PHYS 180 # - Physics for Scientists and Engineers I  Units: 3
A calculus based course in introductory Newtonian Mechanics covering vectors, one and two dimensional kinematics, particle dynamics, work and energy, momentum and impulse, rotational dynamics, oscillations, gravitation, fluids, wave properties and sound.
Enrollment Requirements: Prerequisite: MATH 181; Corequisite: PHYS 180L
Students must co-enroll in both PHYS 180 and PHYS 180L to receive credit
Term Offered: Spring and Fall

PHYS 180L # - Physics for Scientists/Engineers Lab I  Units: 1
Laboratory experiments to accompany PHYS 180.
Enrollment Requirements: Prerequisite: MATH 181; Corequisite: PHYS 180
Students must co-enroll in both PHYS 180 and PHYS 180L to receive credit
Term Offered: Spring and Fall

PHYS 181 # - Physics for Scientists and Engineers II  Units: 3
The second semester of a calculus based introductory physics course. The second semester covers topics in electromagnetism and thermodynamics including electrostatics, electric fields, electric potential, capacitance, electrodynamics, simple circuits, magneto-statics, magnetic fields, electromagnetic induction, Maxwell's equations, electromagnetic waves, physical optics, thermodynamic laws and kinetic theory.
Enrollment Requirements: Prerequisite: PHYS 180 Corequisite: PHYS 181L
Students must co-enroll in both PHYS 181 and PHYS 181L to receive credit
Term Offered: Spring

PHYS 181L # - Physics for Scientists/Engineers Lab II  Units: 1
Laboratory experiments to accompany PHYS 181.
Enrollment Requirements: Prerequisite: PHYS 180 Corequisite: PHYS 181
Students must co-enroll in both PHYS 181 and PHYS 181L to receive credit
Term Offered: Spring

PHYS 182 # - Physics for Scientists and Engineers III  Units: 3
An introductory course in modern physics covering light and optics, relativity, quantum physics, atoms and molecules, nuclear physics and radioactivity, and the Standard Model and elementary particles.
Enrollment Requirements: Prerequisite: PHYS 181 Co-Requisite: PHYS 182L
Students must co-enroll in both PHYS 182 and PHYS 182L to receive credit
Term Offered: AS NEEDED

PHYS 182L # - Physics for Scientists and Engineers Lab III  Units: 1
Laboratory experiments to accompany PHYS 182.
Enrollment Requirements: Prerequisite: PHYS 181 Co-Requisite: PHYS 182 Students must co-enroll in both PHYS 182 and PHYS 182L to receive credit
Term Offered: AS NEEDED

PHYS 198 # - Special Topics in Physics  Units: 1-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits. This course may not transfer to a baccalaureate degree of art or science within the universities in the Nevada System of Higher Education (NSHE). Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Political Science (PSC)

PSC 100 # - Nevada Constitution  Units: 1
Introduction to the political history of Nevada through an examination of the Nevada Constitution. Satisfies the Nevada Constitution requirement. Not open to students who have obtained credit for PSC 103, PSC 108 or HIST 102, HIST 111, HIST 217.
Term Offered: All Semesters

PSC 101 # - Introduction to American Politics  Units: 3
Term Offered: All Semesters

PSC 208 # - Survey of State and Local Government  Units: 3
Organization, working principles and functional processes of state and local governments in the United States, including Nevada. (satisfies the Nevada Constitution requirement.)
Term Offered: Spring

PSC 210 # - American Public Policy  Units: 3
Analysis of the interplay of forces involved in policy-making at all levels of American government. Study of the impact of policy on individuals and institutions.
Term Offered: Fall

PSC 211 # - Introduction to Comparative Politics  Units: 3
An introduction to the comparative study of selected developed and developing societies. Emphasis will be given to the study of institutions and their functions, various administrative and decision-making processes and contemporary problems and issues.
Term Offered: Fall

PSC 227 # - Introduction to Political Philosophy  Units: 3
Major political philosophers, e.g. Plato, Aristotle, Machiavelli, Hobbes, Rousseau, Mill, Marx, on topics such as justice, freedom, equality, tyranny, war, racism, sexism, power, consent and economics. Co-listed with PHIL 207.
Term Offered: All Semesters

PSC 231 # - Introduction to International Relations  Units: 3
A topical introduction to international relations stressing the principles of a systematic approach to world politics. Emphasis will be given to major issues/crises confronting contemporary global society.
Term Offered: Spring and Fall
PSC 240 # - Social Science Research Methods Units: 3
An overview of the methods and analytical techniques used in the research of social phenomena. Emphasis will be on the design and execution of research.

PSC 250 # - The Politics of International Terrorism Units: 3
The course will examine the definition of international terrorism, its underlying social, political and economic classes, its use as a political tool, its manifestations in the world and the measures to be taken for its prevention.
Term Offered: Fall

PSC 290 # - Internship in Political Science Units: 1-8
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 100 hours of internship for eight credit. The course may be repeated for up to eight credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

PSC 295 # - Special Topics in Political Science Units: 3
The course will focus on a contemporary issue or concern of topical interest within the field of Political Science. The issue may be domestic, comparative and/or international in scope. Examples include: Middle East and African government and politics, international organizations, the Nevada Legislature and the politics of nationalized healthcare. May be repeated one time for three credits (maximum six credits total). Repeated course title must be different.
Enrollment Requirements: Prerequisite: PSC 101 or approval of the instructor
Term Offered: Spring and Fall

PSC 299 # - Government Internship Units: 3-6
Provides students the opportunity to be selected to serve in federal, state, or local government offices normally within the TMCC service area. If more students apply than there are positions available, students must submit resumes and will be selected by a review committee.
Enrollment Requirements: Prerequisite: PSC 101 plus one Political Science three-unit elective and consent of instructor
Term Offered: AS NEEDED

Psychology (PSY)

PSY 101 # - General Psychology Units: 3
Survey of the basic foundations of psychology with emphasis on psychological theories, research methods and principles of behavior.
Term Offered: All Semesters

PSY 102 # - Psychology of Personal and Social Adjustment Units: 3
Personality adjustment in healthy persons; adjustment techniques and reactions to frustration and conflict in the context of various social groups.
Term Offered: Spring and Fall

PSY 105 # - Introduction to Neuroscience Units: 3
This course will provide a framework for understanding the fundamental, biological processes that are involved in human behavior and cognition. Topics surveyed will introduce basic principles of neuroscience, including: the divisions of the human nervous system, the cells of the nervous system and neural function. In addition, students will engage in discussion of how brain function supports higher-order cognitive processes and how behavior and cognition are impacted by neurological diseases. Same as BIOL 105.
Term Offered: Spring and Fall

PSY 130 # - Human Sexuality Units: 3
A survey of human sexuality emphasizing biological, psychological and socio-cultural influences. Topic areas will include sexual orientation, gender identity, communication, intimacy, sexual variation and dysfunction.
Term Offered: Spring and Fall

PSY 198 # - Special Topics in Psychology Units: 1-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Portuguese (PORT)

PORT 111 # - First-Year Portuguese I Units: 4
This is a first course in Portuguese for those with no previous knowledge of the language. Student acquire basic speaking, reading, and writing skills, including the Portuguese alphabet and phonetic system, while learning about Portuguese and Brazilian cultures. Class activities include interactive exercises and role-playing. Principles of grammar and syntax are introduced as students become more comfortable with the spoken language.
Term Offered: Spring and Fall

PORT 112 # - First-Year Portuguese II Units: 4
For students with an elementary knowledge of Portuguese, this course reviews simple elements of grammar and introduces more advanced and complex grammatical and syntactical elements. Portuguese 112 is a continuation course to Portuguese 111. Students expand their language proficiency and knowledge of Portuguese and Brazilian cultures in a classroom setting that emphasizes communication skills.
Enrollment Requirements: Prerequisite: PORT 111 or instructors approval
Term Offered: Spring and Fall

PORT 211 # - Second-Year Portuguese I Units: 3
This third course is an intermediate-level course for students familiar with basic structures of the Portuguese language. Portuguese 211 is a continuation course to Portuguese 112. Students synthesize more advanced and complex forms of Portuguese grammar. More detailed emphasis is given to oral communication, listening skills, written communication, and the reading of more complex texts. Special attention is paid to improving students' ability to understand spoken Portuguese and converse on a number of topics pertaining to different times and places. Through a variety of sources, students continue to become more familiar with the cultures of Portugal and Brazil.
Enrollment Requirements: Prerequisite: PORT 112 or instructors approval
Term Offered: Spring and Fall

PORT 212 # - Second-Year Portuguese II Units: 3
This fourth course advances students toward high-intermediate fluency. Portuguese 212 is a continuation course to Portuguese 211. Through communicative activities and content-based materials, students improve their oral and written expression in areas such as proposing hypotheses, supporting opinions, and engaging in sustained dialogue. A systematic review of grammar is combined with literacy and cultural readings. Students continue to become familiar with Portuguese and Brazilian cultures.
Enrollment Requirements: Prerequisite: PORT 211
Term Offered: AS NEEDED
PSY 210 # - Introduction to Statistical Methods Units: 4
Practice with statistical methods especially useful in the presentation and interpretation of psychological, sociological and educational data, includes elementary computer application.
Enrollment Requirements: Prerequisite: PSY 101; or SOC 101; MATH 96 or equivalent or qualifying Accuplacer, ACT/SAT test results
Term Offered: Spring and Fall

PSY 228 # - Psychology of Dreams Units: 3
An introduction to the study of dreams through psychological theory, covering etiology and interpretation.
Term Offered: Spring and Fall

PSY 233 # - Child Psychology Units: 3
A study of the growth and development of the child with special consideration given to theories of learning and personality formation.
Term Offered: All Semesters

PSY 240 # - Introduction to Research Methods Units: 3
An overview of the methods and analytical techniques used in the research of social phenomena. Emphasis will be on the design and execution of research.
Enrollment Requirements: Prerequisite: PSY 101 Completion of PSY 210 is strongly recommended
Term Offered: AS NEEDED

PSY 241 # - Introduction to Abnormal Psychology Units: 3
An overview of abnormal psychology with emphasis on symptomology, etiology, diagnosis, treatment and prevention.
Term Offered: Spring and Fall

PSY 261 # - Introduction to Social Psychology Units: 3
Nature of the person and interpersonal relationships, their formation and maintenance and their institutional, ideological and societal contexts; empirical examination of beliefs, attitudes, influence. Same as SOC 261.
Term Offered: Spring and Fall

PSY 275 # - Undergraduate Research Units: 3
This course is designed to provide experience with conducting empirical research with human subjects. Students will define relevant psychological phenomenon, conduct a literature review, design an experiment, collect and analyze data, and synthesize previous knowledge with new knowledge related to the topic.
Enrollment Requirements: Prerequisite: PSY 210 and PSY 240
Term Offered: Spring

PSY 276 # - Aging in Modern American Society Units: 3
The psychological and sociological development and the changes attendant to the process of aging in society; theory and research in the field, implications for social policy, and perspectives on death and dying. Same as SOC 276. Satisfies TMCC and UNR Diversity core curriculum.
Term Offered: Spring and Fall

PSY 299 # - Special Topics Units: 1
Research from any field of psychology in which the student is adequately prepared. May be repeated with study of a new problem.
Term Offered: AS NEEDED

Radiologic Technology (RAD)

RAD 101 # - Exploration of Radiology Units: 0.5
This course is designed for those students who have an interest in becoming a radiological technologist. It is an introductory directed study course designed to give the student a greater knowledge of what a radiological technologist does and what career opportunities are open in this field. The goal of this course is to aid students in making a career choice that is right for them.
Term Offered: Spring and Fall

RAD 103 # - Medical Ethics Units: 1
This course is an introduction to the medical profession, the patient and paramedical personnel, regarding professional ethics and medical-legal responsibilities. This course will also provide the student with respect for interpersonal relationships, along with moral and ethical responsibilities to increase effective communication and empathy for the patient. One (1) hour of class time per week required.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Selection to the Radiological Technology Program and concurrent enrollment in all semester I courses
Term Offered: Fall

RAD 110 # - Fundamentals of Clinical Radiography I Units: 2
A planned clinical experience is provided which gives the student the opportunity to observe and apply theoretical principles while performing radiographic procedures under supervision of the clinical staff. Progression in the program is dependent on the student demonstrating clinical competence on a specified number of competency evaluations (the number to be identified in the syllabus).
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Selection to the Radiological Technology Program and concurrent enrollment in all semester I courses
Term Offered: Fall

RAD 112 # - Patient Care and Medical Terminology Units: 2
This course covers nursing procedures and practices relative to radiological technology with emphasis on patient handling, safety, comfort and communications as employed by the radiological technologist. Aseptic techniques and procedures used to maintain a sterile field are explained. Etymology of disease terms, nomenclature of surgical procedures and use of prefixes, suffixes, roots, combining forms and plurals of medical terms are covered. Two (2) hours of class time per week are required.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Selection to the Radiological Technology Program and concurrent enrollment in all semester I courses
Term Offered: Fall

RAD 116 # - Radiography I Units: 3
Radiological positioning, related anatomy, considerations for the various problems encountered during positioning and pediatric radiography are discussed. This course covers chest, abdomen, upper extremities to include shoulder girdle and lower extremities to include hip; the study and identification of anatomical structures on X-ray film. Radiation safety measures concerning both patient and technologist are covered. Five (5) hours of class time per week are required.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Selection to the Radiological Technology Program and concurrent enrollment in all semester I courses
Term Offered: Fall
RAD 118 # - Radiology Physics and Circuitry  
Course will establish a knowledge base of atomic structure and terminology, x-ray unit circuitry, radiation production, the nature and characteristics of radiation, and the photon interactions with matter. 
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Selection to the Radiological Technology Program and concurrent enrollment in all semester I courses  
Term Offered: Fall

RAD 124 # - Radiographic Photo and Techniques  
Fundamentals of photographic processes, darkroom equipment, darkroom chemistry, processing solutions and their functions. Types and uses of X-ray film and film holders. Manipulation of exposure factors, principles and practices in technique chart construction and appropriate radiation safety measures. Five (5) hours of class time per week are required.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all semester I courses  
Term Offered: Spring

RAD 125 # - Clinical Radiography I  
A planned clinical experience is provided which gives the student the opportunity to build upon previous clinical experience and apply theoretical principles while performing radiographic procedures under supervision of the clinical staff. Progression in the program is dependent on the student demonstrating clinical competence on a specified number of competency evaluations (the number to be identified in the syllabus) and demonstrating continued competence on examinations in which competence has already been demonstrated.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all semester I Radiological Technology Program and support courses  
Term Offered: Spring

RAD 126 # - Radiography II  
Advanced radiographic positioning of vertebral column and skull, demonstration and practice of these more complicated radiographic positions; topographical anatomy, pediatric radiography and film critique are integrated into the specific studies. Five (5) hours of class time per week are required.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all semester I courses  
Term Offered: Spring

RAD 128 # - Imaging Equipment  
This course will investigate the evolution of radiographic equipment and provide a knowledge base of routine equipment utilized in modern imaging departments.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all semester I courses  
Term Offered: Spring

RAD 198 # - Special Topics Radiologic Technology  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

RAD 220 # - Clinical Radiography II  
A planned clinical experience is provided which gives the student the opportunity to improve and perfect clinical skills while applying theoretical principles to radiographic procedures being performed under supervision of the clinical staff. Progression in the program is dependent on the student demonstrating clinical competence on a specified number of competency evaluations (the number to be identified in the syllabus) and demonstrating continued competence on examinations in which competence has already been demonstrated.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses  
Term Offered: SUMMER

RAD 230 # - Clinical Radiography III  
A planned clinical experience is provided which gives the student the opportunity to incorporate the theory presented in RAD 236 and other pertinent courses and expand clinical skills while performing radiographic procedures under supervision of the clinical staff. Progression in the program is dependent on the student demonstrating clinical competence on a specified number of competency evaluations (the number to be identified in the syllabus) and demonstrating continued competence on examinations in which competence has already been demonstrated.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses  
Term Offered: Fall

RAD 236 # - Radiographic Contrast-Routine Exams  
A study of different types of contrast media and how each is used to delineate specific anatomic parts or organs; common radiographic procedures using contrast media; indications; contradictions; patient preparation, care and positions are explained. Two (2) hours of class time per week are required.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses  
Term Offered: Fall

RAD 238 # - Radiation Safety and Protection  
Accent on radiation health and safety; definitions and significance of various terms employed in radiation protection; biological effects of radiation; methods and instruments used in monitoring: national and state requirements regarding diagnostic radiation are discussed in detail. Two (2) hours of class time per week are required.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses  
Term Offered: Fall

RAD 242 # - Radiography Quality Management  
A study of health care communications, customer service, quality improvement, team building, health care systems, accreditation issues and present and future health care trends as each relates to the Radiology department’s quality assurance programs.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Successful completion of all previous program courses (second year, second semester program student) or ARRT certified radiographer  
Term Offered: Spring
RAD 244 # - Diagnostic and Therapeutic Radiation Units: 2
A survey of medical and surgical diseases employing special radiographic procedures with an introduction to the therapeutic uses of radiation, radium and isotopes; overview of medical pathology selected on the basis of relevance to radiological exams. These lectures are presented by radiologists and other specialists from the affiliated hospitals. Two (2) hours of class time per week are required. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses
Term Offered: Fall

RAD 245 # - Clinical Radiography IV Units: 3
A planned clinical experience is provided which gives the student increased responsibility to function more independently under direct and/or indirect supervision while performing radiographic procedures. Progression in the program is dependent on the student demonstrating clinical competence on a specified number of competency evaluations (the number to be identified in the syllabus) and demonstrating continued competence on examinations in which competence has already been demonstrated. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses
Term Offered: Spring

RAD 247 # - Radiography Quality Control Units: 1
A study of quality control methods are examined and discussed pertaining to the equipment and usage within a radiography department. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses
Term Offered: Spring

RAD 250 # - Clinical Radiography V Units: 3
A planned clinical experience is provided which gives the student the opportunity to demonstrate clinical skills in performing competency and continued competency evaluation examinations. These skills should include analysis, synthesis and evaluation of the examinations performed. These experiences will facilitate the transition from student technologist to graduate technologist. At the end of this course, the student will have met all radiographic competency requirements. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Successful completion of all previous Radiological Technology Program courses

RAD 259 # - Seminar in Radiography Units: 2
A general review and integration of all aspects of medical radiological technology is obtained through the use of simulated registry examination and the use of computer review programs. Preparation for the national A.R.R.T. examination. Two (2) hours of class time per week are required. Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: Current successful completion of all previous Radiological Technology Program courses or instructor approval
Term Offered: Spring

RAD 290 # - Internship in Radiologic Technology Units: 1-6
A course designed wherein students will apply knowledge to real on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Available to students who have completed all core and major requirements and have a 2.5 GPA. Contact the appropriate chairperson for the application, screening and required skills evaluation. Up to 12 semester credit hours may be earned on the basis of 100 hours of internship for one credit. The course may be repeated for up to 12 credits. Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

Reading (READ)

READ 135 # - College Reading Strategies Units: 3
This course will provide improvement of reading comprehension, critical thinking skills, vocabulary, and study techniques through reading and analyzing a variety of texts, including book-length works and textbook selections from various areas. Term Offered: All Semesters

READ 93 # - Reading Improvement Units: 3
Provides improvement in fundamental reading skills, including word-attack skills, vocabulary development, reading comprehension and fluency. You will learn various reading strategies to utilize before, during, and after reading. Term Offered: AS NEEDED

READ 95 # - Reading and Improvement Units: 1.5
Reading 95 provides improvement in fundamental reading skills including word identification skills, vocabulary development, reading comprehension and fluency. Students will learn various reading strategies to utilize before, during, and after reading. Enrollment Requirements: Prerequisite: Qualifying high school grade point average, ACCUPLACER Reading Comprehension (RC) score 56-75, or SAT/SAT placement Corequisite: ENG 98 Term Offered: All Semesters

Real Estate (RE)

RE 101 # - Real Estate Principles Units: 3
This is the first half of the introduction to real estate. Subjects included are professional organizations, types of property, the law of agency, listing agreements, easements, estates in the land, forms of ownership, legal descriptions, taxation, liens, contract law, deeds, probate, title insurance and recording. It can be taken concurrently with RE 103. Successful completion of RE 101 and RE 103 along with the passage of the Nevada Real Estate Exam qualifies one to become a licensed real estate salesperson in Nevada. This course may be taken for personal interest, for a degree and/or for pre-licensing. This course transfers to the University of Nevada at Las Vegas as FIN 130, Real Estate Principles. Term Offered: Spring and Fall
Russian (RUS)

RUS 111 # - First-Year Russian I
Units: 4
A first course in Russian for those with no previous knowledge of the language. Students acquire basic speaking, reading, and writing skills, including the Cyrillic alphabet, while learning about Russian culture. Class activities include interactive exercises and role-playing. Principles of grammar and syntax are introduced as students become more comfortable with the spoken language.

RUS 112 # - First-Year Russian II
Units: 4
For students with elementary knowledge of Russian, this course reviews simple elements of grammar (present, past, and future tenses) and introduces more complex grammatical and syntactical elements. Students expand their vocabulary and knowledge of Russian culture in a classroom setting that emphasizes communication skills.

RUS 211 # - Second-Year Russian I
Units: 3
An intermediate-level course for students familiar with the basic structure of the Russian language. It begins with a review and moves on to cover more complex grammatical forms. Special attention is paid to improving students’ ability to understand spoken Russian and converse on a number of topics pertaining to different times and places.

RUS 212 # - Second-Year Russian II
Units: 3
Intermediate-level study of Russian is continued. A systematic review of grammar is combined with literary and cultural readings. Students acquire the knowledge to meet most practical writing needs (brief descriptive paragraphs, simple letters, and summaries of day-to-day activities). Enhancement of communicative skills through sustained conversation in Russian is emphasized.

Social Work (SW)

SW 101 # - Introduction to Social Work
Units: 3
This course presents an overview of public and private services, the profession of social work and an analysis of their functions as modes of social problem solving.

Term Offered: Spring and Fall

SW 250 # - Social Welfare, History, and Policy
Units: 3
Explores the historical development of the social work profession and current policies governing the social service delivery system within the United States. Social policy is presented as a social construction influenced by a range of ideologies and interests. Special attention is paid to social welfare policy and programs relevant to the practice of social work, including poverty, child and family well being, mental and physical disability, health, racial, ethnic, and sexual minorities. The course includes a focus on the role of policy in creating, maintaining, or eradicating social inequities.

Enrollment Requirements: Prerequisite: SW 101 with a C or better

Term Offered: Spring and Fall

Sociology (SOC)

SOC 101 # - Principles of Sociology
Units: 3
Sociological principles underlying the development of culture, structure and function of society, human groups, institutions, deviance, stratification and social change. Satisfies UNR Social Science core curriculum.

Term Offered: All Semesters

SOC 102 # - Contemporary Social Issues
Units: 3
This course examines selected problems of contemporary society and provides practice in the application of relevant sociological perspectives and theory. The course has two main objectives: (1) to acquaint the student with critical thinking skills and sociological concepts, theories, methods and knowledge; and (2) to apply these so that we better understand our society.

SOC 110 # - Conflict Resolution
Units: 3
This course will explore a variety of theories and frameworks for analyzing conflict and the techniques, process models, and third-party roles used to constructively intervene in conflict. The course will be an excellent introduction should students decide to pursue further training or credentialing to be fully trained as mediators or facilitators.

Transferability: May not transfer towards an NSHE bachelor's degree

SOC 120 # - Human Violence: Individual to Global-Level Conflict
Units: 3
Conflict and the need for peace occur in all human arenas. This course will examine such disparate forms of direct violence as personal assault; domestic violence; school shootings; group and mass violence, including ethno-political conflict, genocide, terrorism, and war. Concepts and strategies of peace, effective conflict resolution skills, and reconciliation and reconstruction following conflict will be addressed. This course will examine the key concepts, themes, theories, and practices involved in the study of direct violence. Students will be introduced to the issues of peace and violence across a wide range of interpersonal, community, national and international contexts. The course will focus on multiple levels of analysis from micro to macro, and multidisciplinary perspectives.

Transferability: May not transfer towards an NSHE bachelor's degree
**SOC 130 # - Structural Violence**  
Units: 3  
This course will focus on the structural aspects of peace, conflict, and violence. This refers to a form of violence based on the systematic ways in which social structures or social institutions of society harm people by preventing them from meeting their basic needs. The arrangements are structural because they are embedded in the political and economic organizations of our social world; they are violent because they cause injury to people. Examples include hunger, preventable diseases, and extreme poverty caused by unjust structures of society and by ethnic conflict and oppressive regimes, as well as ecological degradation. Based on an understanding of these threats to human security, we will examine and evaluate various strategies which contribute to peace building and conflict resolution, human rights and self-determination, reconciliation and reconstruction, nonviolence, transformation of a hierarchical social order, and promoting ecological balance.  
Transferability: May not transfer towards an NSHE bachelor's degree

**SOC 140 # - Cultures Of Peace**  
Units: 3  
This course will focus on historical examples of peace cultures and on the efforts to establish peace by upholding human rights and the dignity of all persons as ideals, and through resisting the legitimization of violence in education, literature, and the mass media. Philosophies and methods practiced in different societies to build communities of peace will be featured.  
Transferability: May not transfer towards an NSHE bachelor's degree

**SOC 198 # - Special Topics in Sociology**  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

**SOC 201 # - Peace and Conflict**  
Units: 3  
This introductory course is a survey of the field of Peace and Conflict Studies. The course will examine the problem of violence in human affairs from the micro to the global level. Alternative approaches to understanding and resolving conflict will be explored.

**SOC 205 # - Ethnic Groups in Contemporary Societies**  
Units: 3  
Ethnic relations in the United States and other societies where cultural and ‘racial’ pluralism illustrates problems and processes of social interaction. Same as ANTH 205.  
Term Offered: Spring and Fall

**SOC 210 # - Introduction to Statistical Methods**  
Units: 4  
Same as PSY 210. Practice with statistical methods especially useful in the presentation and interpretation of psychological, sociological and educational data. Includes elementary computer application.  
Enrollment Requirements: Prerequisite: PSY 101 or SOC 101; MATH 96 or equivalent or qualifying Accuplacer, ACT/SAT test results  
Term Offered: Spring and Fall

**SOC 240 # - Social Science Research Methods**  
Units: 3  
An overview of the methods and analytical techniques used in the research of social phenomena. Emphasis will be on the design and execution of research.  
Term Offered: Spring and Fall

**SOC 261 # - Introduction to Social Psychology**  
Units: 3  
Nature of the person and interpersonal relationships, their formation and maintenance and their institutional, ideological and societal contexts; empirical examination of beliefs, attitudes, influence. Same as PSY 261.  
Term Offered: Spring and Fall

**SOC 275 # - Introduction to Marriage and the Family**  
Units: 3  
Sex roles, dating patterns, mate selection, marital interaction; alternative forms of marriage and family life.  
Term Offered: AS NEEDED

**SOC 276 # - Aging in Modern American Society**  
Units: 3  
The psychological and sociological development and the changes attendant to the process of aging in society; theory and research in the field, implications for social policy and perspectives on death and dying. Same as PSY 276.  
Term Offered: Spring and Fall

### Spanish (SPAN)

**SPAN 101 # - Basics of Spanish I**  
Units: 3  
A basic course emphasizing spoken communication. Course assumes that students have had no prior formal training. Writing, listening and reading skills will be explored.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: Spring and Fall

**SPAN 102 # - Basics of Spanish II**  
Units: 3  
A continuation of Spanish 101.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: SPAN 101  
Term Offered: AS NEEDED

**SPAN 111 # - First Year Spanish I**  
Units: 4  
Introduction to basic Spanish language structures and cultural topics with a focus on development of communicative proficiency in listening, speaking, reading and writing. For true beginners only. This course transfers to UNR as SPAN 111.  
Term Offered: All Semesters

**SPAN 112 # - First Year Spanish II**  
Units: 4  
Continued introduction to basic Spanish language structures and cultural topics with a focus on proficiency in the four skills as described for SPAN 111. This course transfers to UNR as SPAN 112.  
Enrollment Requirements: Prerequisite: SPAN 111 or a Spanish CAPE Placement score over 178  
Term Offered: All Semesters

**SPAN 198 # - Special Topics in Spanish**  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED

**SPAN 211 # - Second Year Spanish I**  
Units: 3  
Study at the intermediate level of Spanish language structures and culture with continued emphasis on proficiency in the four skills as described for SPAN 111. This course transfers to UNR as SPAN 211.  
Enrollment Requirements: Prerequisite: SPAN 112, or a Spanish CAPE Placement score of 320 or higher  
Term Offered: Fall

**SPAN 212 # - Second Year Spanish II**  
Units: 3  
Study at the intermediate level of Spanish structures with an emphasis on writing, reading, and conversation. This course transfers to UNR as SPAN 212. Completion of SPAN 212 satisfies the College of Liberal Arts foreign language requirement.  
Enrollment Requirements: Prerequisite: SPAN 211, or a Spanish CAPE Placement score of 347 or more  
Term Offered: Spring
SPAN 221 # - Iberia and its Cultures Units: 3
Introduction to the nationalities and cultures of Iberia; emphasis on the Spanish state, through geographical, historical, socio-economic and artistic topics. Taught in English.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113

SPAN 222 # - Hispanic-America and its Culture Units: 3
Introduction to the culture and civilization of Hispanic-American nations. Taught in English; no knowledge of Spanish required. The course will produce 15-20 pages of writing in the production of finished products.
Enrollment Requirements: Prerequisite: ENG 101 or ENG 113

SPAN 225 # - A Cultural Perspective: Spain...New Mexico Units: 3
A perspective of cultural diversity in Spain and the American Southwest. This course will introduce the differing cultures of Spain within a historical context. Students will look closely at the intertwining of art, religion and history during the Middle Ages, focusing on the Camino de Santiago, the St. James pilgrimage route across northern Spain that is still traveled today. The course will include a study of the influence of the Moors upon the language, art and philosophy of Spain. It will trace the first Spanish explorers as they brought the traditions of the Old World into New Mexico, before the founding of Jamestown. This blending of the Spanish and Pueblo culture has resulted in the uniqueness of the Southwest today. The course will be taught in English and is the same as HUM 225.
Term Offered: Fall

SPAN 226 # - Spanish for Heritage Speakers I Units: 3
This is a course designed for native Spanish speaking students who want to improve their literacy in the language. Students will study and practice basic Spanish grammar for improving and developing written and oral communication and reading skills.
Term Offered: Fall

SPAN 227 # - Spanish for Heritage Speakers II Units: 3
This course is a follow up course to SPAN 226. This course is specifically designed and intended for students who speak the Spanish Language as their native language but have had no advanced formal training in the grammatical aspects of the language. It is based on the study and practice of advanced Spanish grammar and its application to all five aspects of the language, i.e., writing, reading, interpreting, speaking and understanding. Completion of SPAN 227 satisfies the College of Liberal Arts foreign language requirement in colleges and universities in the state of Nevada.
Enrollment Requirements: Prerequisite: Completion of SPAN 226
Term Offered: Spring

Statistics (STAT)

STAT 152 # - Introduction to Statistics Units: 3
Descriptive statistics, probability models, statistical estimation and hypothesis testing, linear regression analysis, and special topics.
Enrollment Requirements: Prerequisite: A grade of 'C' or better in MATH 126 or equivalent or qualifying ACCUPLACER, ACT/SAT test results A graphing calculator may be required for this course
Term Offered: Spring and Fall

Supply Chain Management (SCM)

SCM 474 # - Purchasing and Global Sourcing Units: 3
This course synthesizes the principles of the global supply function, reinforces the steps of the procurement cycle, and evaluates the appropriate sourcing and supply decisions in international business contexts. Topics include global sourcing, contracting, business simulation, spend analysis, decision making, international business context, negotiation, purchasing process, purchasing quality, purchasing services such as transportation, sources of supply, supply chain alliances, supply base optimization, and value analysis.
Enrollment Requirements: Prerequisite: LGM 201, LGM 202, LGM 210, and LGM 352
Term Offered: AS NEEDED

Surveying (SUR)

SUR 119 # - Construction Surveying Units: 3
The objectives of the course are to introduce the principles and methods associated with basic surveying for construction projects and layout purposes. Training to develop proper field note-taking procedures and the use of surveying field equipment is emphasized in labs (tape, level and transit).
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: MATH 108

SUR 161 # - Elementary Surveying Units: 4
A basic course designed to impart basic knowledge of the surveying discipline, plus training in the use of traditional and basic surveying equipment (tape, level and transit).
Enrollment Requirements: Prerequisite: MATH 126 or instructor’s approval
Term Offered: Spring and Fall

Theater (THTR)

THTR 100 # - Introduction to Theater Units: 3
A survey course covering a variety of different aspects of theater including play analysis, historical style, play writing, acting, directing, technical theater and more. Representative plays are analyzed from a performance-based perspective. No previous experience in theater is required. Satisfies UNR Fine Arts core curriculum and applies as a general elective at UNLV.
Term Offered: Spring and Fall

THTR 105 # - Introduction to Acting I Units: 3
Interpretation of drama through the art of the actor. Development of individual insights, skills and disciplines in the presentation of dramatic material to the audience and the learning of basic exercises for the actor.
Term Offered: Spring and Fall

THTR 116 # - Dance Styles: Musical Theater Units: 1-2
Specialized study in the various dance forms encompassed in musical theater. Special emphasis is placed on the fundamentals of movement and dance techniques to achieve a solid movement base. The course may be repeated for a maximum of four credits.
THTR 133 # - Fundamentals of Directing  
Units: 3  
The course is designed for theater students or for persons within the community who have a desire to learn about the overall role and function of the stage director and to apply this knowledge in a practical manner. The course includes a study of the history, theory and conceptualization matrixes of directing and the practical experience in selecting and casting a play, planning rehearsals, blocking, script analysis and working with actors. Also included are scenery, lighting, costume, properties and stage management concepts and coordination.  
Term Offered: FALL

THTR 160 # - Television Production I  
Units: 3  
Television Production I explores the purposes, scope, methods and materials for visual and aural broadcasting, planning, organization, rehearsing, editing and recording announcements and programs; studio procedures and presentations; preparations and treatment of content and form. Television Production I is a combination of "book learning" and hands-on experience in a television studio. At the completion of this course a student will have experience in camera operation, technical direction, directing, audio operation, tape operation, on-camera experience and other studio related activities.  
Term Offered: SPR

THTR 161 # - Television Production II  
Units: 3  
Television Production II is an intermediate study and practice of the knowledge, procedures and skills developed in THTR 160. The course is designed as a field production class. The students' job will include shooting, editing, producing, directing, lighting, writing, presenting and all other skills required to produce high quality materials in the field. Multiple deadlines will be faced which will require diligent work outside of class.  
Enrollment Requirements: Prerequisite: THTR 160 or equivalent
Term Offered: FALL

THTR 175 # - Introduction to Musical Theater Literature  
Units: 3  
This course examines the development of the genre from its operatic roots in Europe to the present day. It will focus on the social and political influences on the art, the influence of composers on each other and landmark productions. The students will also have practical experiences in the prime performance areas of musical theater (acting, singing and dancing).  
Term Offered: FALL

THTR 176 # - Musical Theater Workshop I  
Units: 1-3  
Performance of Musical Theater Production.  
Term Offered: SPR

THTR 180 # - Cinema as Art and Communication  
Units: 3  
This course will teach students to appreciate, interpret and respond to selected films from a variety of genres, directors or actors and to recognize the human values these films depict. It will also introduce students to some of the techniques of filmmaking in general. (Same as HUM 105.)  
Enrollment Requirements: Prerequisite: Completion of concurrent enrollment of ENG 101 or equivalent
Term Offered: SPR

THTR 198 # - Special Topics in Theater  
Units: 0.5-6  
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.  
Term Offered: SPR

THTR 204 # - Theater Technology I  
Units: 3  
This course consists of a three-hour-a-week lecture/discussion/demonstration plus 25 hours of lab during the semester. The course focuses on safety, functions of scenery, costuming, tools and material, scene painting, stage draperies, color in theater, lighting and electricity, stage sound and specialized theater equipment.  
Term Offered: SPR EVEN

THTR 205 # - Introduction to Acting II  
Units: 3  
Continued work on scenes and on principles of auditioning, role analysis, play rehearsal and problems related to sustaining a stage performance.  
Enrollment Requirements: Prerequisite: THTR 105 or approval of instructor
Term Offered: SPR

THTR 206 # - Theater Workshop: Acting III  
Units: 3  
A continuation of the study of acting at the intermediate/advanced level with an emphasis on internal work, auditioning, script analysis, characterizations and performance.  
Enrollment Requirements: Prerequisite: THTR 105 and THTR 205 or comparative experience with instructor approval
Term Offered: SPR

THTR 207 # - Laboratory Theater: Acting IV  
Units: 3  
Intensive and individualized work for advanced acting students.  
Enrollment Requirements: Prerequisite: THTR 105, THTR 205 and THTR 206 or comparative experience with instructor’s approval
Term Offered: SPR

THTR 209 # - Theater Practicum  
Units: 1-6  
An advanced course for serious students of theater who want to pursue acting, directing and play production in depth. The course culminates with a public performance. Rehearsal hours are arranged and announced at the beginning of the semester.  
Term Offered: SPR

THTR 210 # - Theater: a Cultural Context  
Units: 3  
This is a course designed to increase one’s understanding and appreciation of multicultural theatrical art forms and artists who are creating outside of mainstream American theatre. The language, as well as the aural and visual components of the plays, will be explored.  
Enrollment Requirements: Prerequisite: College level writing skills recommended
Term Offered: SPR

THTR 232 # - Children’s Theater  
Units: 3  
Rehearsal and performance of plays for Children Theater including singing, dancing and acting skills for the college student. The course culminates in multiple public performances.  
Term Offered: SPR

THTR 240 # - Acting for the Camera  
Units: 3  
Introduction to performance in television and film. Basic performance techniques will be explored, culminating in a final project.  
Term Offered: SPR

THTR 258 # - Theater Experience and Travel  
Units: 1-2  
A rehearsal and touring field study class in which students travel to an arranged destination for the purpose of performance, play viewing, play study or possible workshop attendance.  
Enrollment Requirements: Prerequisite: Approval of instructor
Term Offered: SPR

THTR 276 # - Musical Theater Workshop II  
Units: 1-3  
Continuation of Rehearsal and Performance of Musical Theater Productions.  
Enrollment Requirements: Prerequisite: THTR 176 plus audition and/or approval of instructor
Term Offered: SPR
THTR 290 # - Internship in Speech and Theater Units: 1-8
A course designed wherein students will apply knowledge to real-on-the-job situations in a program designed by a company official and a faculty advisor to maximize learning experiences. Contact the appropriate chairperson for the application, screening and required skills evaluation. Up to eight semester hour credits may be earned on the basis of 100 hours of internship for one credit. May be repeated for up to eight credits. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Consultation, application, and assignment of internship status Term Offered: AS NEEDED

THTR 295 # - Independent Study: Theater Units: 1-3
Tutorial study of special projects in theater. A student submits a detailed project description and the objectives and learning outcomes specific to the project are formulated by the instructor and the student. Enrollment Requirements: Prerequisite: Approval of instructor Term Offered: Spring and Fall

Veterinary Technology (VETT)

VETT 101 # - Introduction to Animal Health Technology Units: 4
An introductory course in veterinary technology. Including but not limited to the various roles of veterinary technicians in the veterinary profession. The laws and ethics of veterinary medicine. The behavior of various animal species with regard to humane restraint and handling. Breed classifications of common domestic animals. Proper cleaning techniques of a veterinary facility. Proper medical record keeping techniques. Principles of general animal care including but not limited to physical exams and basic sampling techniques. Three hours of lecture and three hours of lab per week. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program Term Offered: Fall

VETT 105 # - Veterinary Medical Terminology Units: 1
This course is an introduction to medical terms, laymen's terms, and abbreviations utilized by veterinarians and their clients. It includes canine and feline breed identification. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program Term Offered: Fall

VETT 110 # - Comparative Animal Anatomy and Physiology I Units: 4
This course is designed to provide the student with the understanding of anatomy and physiology of domestic species that are most often encountered in food animal and companion animal practice. Topics include cell anatomy, cell metabolism and basic histology. Body systems include: integument, skeletal, muscular, nervous, and special senses. All information will be comparative with each species including canine, feline, equine, porcine, ruminants and avian. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program Term Offered: Fall

VETT 112 # - Comparative Animal Anatomy and Physiology II Units: 4
This course is designed to provide the student with the understanding of anatomy and physiology of domestic species that are most often encountered in food animal and companion animal practice. Body systems include: Cardiac, lymphatic, digestive, reproductive, urinary, respiratory and endocrine. All information will be comparative with each species including canine, felines, equine, porcine, ruminants and avian. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program and successful completion of VETT 110 Term Offered: Spring

VETT 125 # - Veterinary Office Procedures Units: 1
This course is designed to introduce to the veterinary technician student the roles and responsibilities of the receptionist, office manager, and hospital managers with regard to the veterinary facility. The course will introduce basic management procedures common in a veterinary clinic with respect to a veterinary technician. Topics covered include: basic communication techniques, record keeping, filing, computer software, resume construction and interviewing techniques. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program Term Offered: Fall

VETT 128 # - Animal Nursing Units: 4
A course that highlights basic and advanced nursing procedures, including but not limited to restraint, behavior awareness, physical exams, reproduction, necropsy, specimen collection, euthanasia, companion animal diseases, emergency and critical care, laws and ethics, and practice management skills for veterinary technicians. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program Term Offered: Spring

VETT 203 # - Clinical and General Pathology Units: 4
The course includes information in hematology, clinical chemistry, urinalysis and microbiology. The student will learn collection, handling, and transporting of biological samples. Students will learn laboratory procedures to assist in the diagnostic process. Two hours of lecture and six hours of lab per week. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program Term Offered: Spring

VETT 205 # - Veterinary Diagnostic Imaging Units: 2
A course that deals with the principles of diagnostic imaging. Topics include: radiographic theory, equipment, positioning, safety regulations, safety equipment, film processing, radiographic technique evaluation, and an introduction to alternative imaging techniques. Transferability: May not transfer towards an NSHE bachelor's degree Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program Term Offered: Spring
VETT 208 # - Lab Animal Science and Exotics  
This course includes the principles involved with breed recognition, restraint, husbandry, nutrition, breeding, health conditions, disease recognition, and zoonotic potential of laboratory animals, reptiles and birds. The course also includes the technician's role in a research facility, zoological facility and a general veterinary practice.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Spring

VETT 209 # - Parasitology  
This course includes the study of internal and external parasites of domestic animals. The student will learn identification, life cycles, routes of transmission, prevention and treatment protocols for the various parasites. Laboratory techniques used for identification will be covered in detail. The student will also learn the importance of public health safety, including procedures and protocols.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Fall

VETT 211 # - Animal Nutrition  
A course in the normal and therapeutic nutritional needs of various species of animals. Topics include components of food, calculating energy requirements, digestion, and life stage needs.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Fall

VETT 225 # - Pharmacology and Toxicology  
This course is designed to instruct veterinary technician students on the pharmacology and physiology of drugs, rules on filling prescriptions, and handling, storing, and documentation of controlled substances. Emphasis will be placed on classification of drugs, route and methods of administration of drugs, calculating dosages, and physiological action on the systems of the body. This course is worth 2.0 credits.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Fall

VETT 227 # - Advanced Animal Nursing  
A course in small animal diseases and management.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Spring

VETT 235 # - Anesthesia, Surgical Nursing & Dental Procedures  
This course consists of three sections: anesthesia, surgical nursing and dental procedures. The anesthesia section includes an overview of pharmacology, the use and application of anesthetic agents, the physiological effects of anesthetic agents, monitoring procedures, pain management, and basic anesthetic protocol. The surgical nursing section includes the understanding of sterile techniques including the methods, by which sterilization is achieved, appropriate behavior in a surgical setting, care of equipment and instruments, and the roles of the operating room staff. The dental section includes a basic understanding of dental anatomy, instrument identification and function, dental exams and cleaning, personnel safety and client education. Three hours of lecture and three hours of lab per week.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: VETT 110 and VETT 112 Corequisite: VETT 225 Must be admitted to the Veterinary Technician Program  
Term Offered: Fall

VETT 240 # - Large Animal Medicine  
This course includes large animal husbandry, restraint techniques, diseases, nursing and herd health management. The student will acquire the knowledge and skills through lecture and laboratory. Special topics include anatomy, reproduction and nutrition will also be discussed as they relate to each species. Three hours of lecture and three hours of lab per week.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: VETT 110 and must be admitted to the Veterinary Technician Program  
Term Offered: Fall

VETT 250 # - Small Animal Critical Care  
A course in procedures, nursing and diseases with respect to the critically ill patient. Prerequisite: Admission to the veterinary technician program and successful completion of the first semester of the veterinary technician program.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Spring

VETT 266 # - Directed Clinical Practices  
An externship allowing students to observe companion, food and equine practices. Students will observe all aspects of a working clinic. Externships will allow valuable exposure to the reception area, treatment and surgical areas, radiology, laboratory, kennel and stables.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Fall

VETT 267 # - Advanced Clinical Practices  
An externship allowing students to participate in every aspect of a companion animal, food animal and equine practices. Students will participate in all aspects of a working clinic, under direct supervision. Externships will allow valuable exposure to the reception area, treatment and surgical areas, radiology, laboratory, kennel and stables. Prerequisite: Completion of all required courses in the veterinary technician program.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: Must be admitted to the Veterinary Technician Program  
Term Offered: Spring
**Welding (WELD)**

**WELD 101 # - Basic Metals**
Units: 3
Basic techniques of metal forming and fabrication using drill press, lathe, milling machine; soldering; brazing; oxyacetylene and electric arc welding.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: All Semesters

**WELD 198 # - Special Topics in Welding**
Units: 0.5-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one-half to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Transferability: May not transfer towards an NSHE bachelor's degree
Term Offered: AS NEEDED

**WELD 211 # - Welding I**
Units: 3
This course introduces the learner to the world of welding. The course includes general shop safety and environmental issues; introduction to oxygen/fuel gas supply systems, the oxyfuel cutting process, and the SMAW (Shielded Metal Arc-Welding) process; and an introduction to interpreting basic welding symbols. This course satisfies 4 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 8 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A. This course satisfies 4 hours of instruction toward completing the embedded mathematics curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Enrollment Requirements: Corequisite: WELD 212 20/20 vision (corrected), good hand-eye coordination, general good health
Term Offered: All Semesters

**WELD 212 M # - Welding II**
Units: 0.5
This course is a continuation of Welding I and emphasizes SMAW vertical and overhead positions and machine oxyfuel gas cutting. In addition, the course introduces GMAW (gas metal arc welding) and air carbon arc cutting. The student must complete all content for the following six areas in order to meet degree or certificate requirements. 1. Apply quality shielded metal arc welds in all positions in compliance with AWS D1.1 standards. (.5 Credits)2. Introduce advanced flame cuts through the use of machine operated equipment (.5 Credits).3. Introduce Basic Gas Metal Arc Welding safety, equipment and conduct basic operations (.5 Credits).4. Introduce Basic Gas Metal Arc Welding theory and technique for fillet and groove welds. (.5 Credits).5. Introduce air carbon arc cutting equipment and operation (.5 Credits).6. Apply fabrication of simple parts from a basic drawing or sketch using the SMAW, GMAW and machine OFC processes (.5 Credits)
Completion of all six areas (total of 3 credits) satisfies 4 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Enrollment Requirements: Prerequisite: WELD 101 or WELD 212M or instructor approval Corequisite: WELD 222M

**WELD 221 M # - Welding II Practice**
Units: 2
This course is designed to give learners the opportunity to hone their skills in oxyfuel machine cutting, SMAW vertical and overhead positions, GMAW basic skills and air carbon arc cutting processes. Ample practice time is allocated to perfect skills and complete lab assignments. This course satisfies 3.5 hours of instruction toward completing the embedded human relations curriculum requirements, in accordance with Embedded Curriculum Guidelines Option A.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: WELD 221 May also be taken concurrently with WELD 221
Term Offered: ALLSEM&W

**WELD 222 M # - Welding III**
Units: 3
This course is a continuation of Welding II and focuses on the GMAW and the FCAW processes. The Air Carbon Arc Cutting section will further develop skills in the process. The student will develop skills required to make fillet and groove welds in all positions using GMAW and FCAW processes. The student will be introduced to the Plasma Arc Cutting Process.
Transferability: May not transfer towards an NSHE bachelor's degree
Enrollment Requirements: Prerequisite: WELD 222 or instructor approval Corequisite: WELD 232
Term Offered: All Semesters
WELD 232 # - Welding III Practice  
Units: 2

This course is designed to give learners the opportunity to hone their skills in the GMAW and FCAW processes in all positions by providing them with hands-on time and individual instruction. The learner will also practice Air Carbon Arc Cutting and Plasma Arc Cutting on ferrous and nonferrous materials. Ample practice time is allocated to perfect skills and complete lab assignments. WELD 232 is required concurrently with WELD 231, but may be taken as a separate course.  
Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: WELD 231 May be taken concurrently with WELD 231  
Term Offered: All Semesters  

WELD 241 # - Welding IV  
Units: 3

This course is a continuation of WELD 231 and places an emphasis on the GTAW process in all positions on ferrous and nonferrous materials. This course also covers the advanced FCAW process and concentrates on the skills needed to pass the AWS certification test in all positions using the FCAW process. The Student at this level of training may opt to develop skills in the welding of pipe using the SMAW or FCAW processes. Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: WELD 222 or WELD 232 or instructor approval Corequisite: WELD 242  
Term Offered: All Semesters  

WELD 242 # - Welding IV Practice  
Units: 2

This course is designed to give learners the opportunity to work on their skills in the GTAW process, perfect their skills in the FCAW process by providing them with individualized instruction and full hands-on practice in preparation and welding of ferrous and nonferrous materials. At this point in training students may also start developing skills necessary to weld pipe using the SMAW or FCAW processes. Ample practice time is allocated to perfect skills and complete lab assignments. WELD 242 is required concurrently with WELD 241, but may be taken as a separate course. This course may be repeated for up to six credits. Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: WELD 241 May be taken concurrently with WELD 241  
Term Offered: All Semesters  

WELD 250 # - Welding Certification Preparation  
Units: 1-12

This course is a contractual course designed for the advanced student who is pursuing AWS (American Welding Society), ASME (American Society of Mechanical Engineers), or API (American Petroleum Institute) certification(s). This course is also beneficial to the student requiring additional hands-on practice in order to better their individual skill in a selected process or processes. Instruction will be given on an individual basis. Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Prerequisite: WELD 241 or instructor approval  
Term Offered: All Semesters  

WELD 290 # - Internship in Welding  
Units: 1-8

This course is designed for the student who wants to get practical on-the-job training in welding with a local company. 200 working hours per credit. Transferability: May not transfer towards an NSHE bachelor's degree  
Term Offered: AS NEEDED  

WF 244 # - Field Observer  
Units: 2

Field Observer is designed to provide the skills needed to perform tasks seven through 21 in the field Observers Job Task Book. Topics covered are: mapping from aircraft, observing field conditions, reporting hazardous situations, maintaining field maps, calculating, measuring, identifying and estimating fire behavior, safety in field observations, transmitting field data and collecting and analyzing data. Transferability: May not transfer towards an NSHE bachelor's degree  

Women's Studies (WMST)  

WMST 101 # - Introduction to Women's Studies  
Units: 3

Interdisciplinary analysis of women in culture and society from historical and cross-cultural perspectives.  
Enrollment Requirements: Prerequisite: Completion of ENG 98 or equivalent/qualifying ACCUPLACER, SAT, or ACT score May be taken concurrently with ENG 98 and READ 135  
Term Offered: All Semesters  

WMST 250 # - Introduction to Feminist Theory  
Units: 3

Introduces theory and methods in feminist research and issues from traditional and contemporary perspective. Transferability: May not transfer towards an NSHE bachelor's degree  
Enrollment Requirements: Dual Requisite: ENG 101 completed or concurrently enrolled  
Term Offered: Fall  

WMST 255 # - The American Women's Movement  
Units: 3

Introduction to American women's history and politics focusing on race, gender, and class relations, and the legal and economic status of women.  
Enrollment Requirements: Prerequisite: ENG 101 completed or concurrently enrolled  
Term Offered: Spring  

Wildland Fire Science (WF)  

WF 205 # - Fire Operations in the Urban Interface  
Units: 3

Transferability: May not transfer towards an NSHE bachelor's degree
CAMPUS RESOURCES

Computer and Network Access

TMCC Information Technology (IT) maintains and supports all computer labs and wireless networks on all TMCC sites. All systems, including wireless access, require a username and password to log on.

Students use the same username and password to log on to computers, TMCC Google mail, Canvas, and MyTMCC. IT Customer Service/Student Support can assist with passwords or access problems. Further assistance with passwords or mobile device configurations is available in the Student Center in the Red Mountain Building on the Dandini Campus. Additionally, students can reset their password online (https://www.tmcc.edu/it/students/self-service.html).

In addition to classroom computer labs, TMCC offers Computer Labs that are available to TMCC students for research and studying. These Computer Labs are located on the Dandini Campus (SIER 109), Meadowood Center (MDWS 124), William N. Pennington Applied Technology Center at Edison Way (EDSN 108) and the William N. Pennington Health Science Center at the Redfield campus (HSC 100). The Computer Labs are equipped with computers, printers and the most commonly-used software.

Library

Elizabeth Sturm Library (http://www.tmcc.edu/library)

The Elizabeth Sturm Library is located in the Sierra Building on the Dandini Campus. Library hours vary by semester and may be found on the library’s website. Students may reach a librarian in person at the reference desk or by phone at 775-674-7602.

Materials are checked out at the circulation desk. Patrons must have a library card to check out materials. Books may be checked out for a three week loan period and renewed twice, unless another patron has requested the item. Patrons may renew their material either at the library circulation desk or by phone at 775-674-7600. Reserve items are available for library use at the circulation desk. Photocopying is available.

William N. Pennington Applied Technology Center Library

The TMCC Applied Technology Center Library, located at 475 Edison Way, assists the vocational-technical programs and the College’s collaborative efforts with Washoe County School District students. For hours and assistance, call 775-856-5300.

Meadowood Center Library

Library services are available on the first floor of the TMCC Meadowood Center, 5720 Neil Road. The Meadowood Center Library collection includes materials that support Adult Basic Education, ESL, general studies and grant writing. For hours and assistance, call 775-824-3816.

William N. Pennington Health Science Center Library

The Library also provides services at the first floor of the TMCC William N. Pennington Health Science Center, 18600 Wedge Parkway, Building B. The Health Science Center collections primarily support the Nursing, Radiologic Technology, and Veterinary Technology curriculums. For hours and assistance, call 775-850-4049.
**STUDENT SERVICES**

**Academic Advisement**

**Academic Advisement**

Academic Advisement assists new, continuing, transfer, and international students in identifying, planning for, and achieving educational and personal goals. In addition to meeting with an advisor during New Student Orientation, students will meet with an advisor during their first semester at an On-Track advising session where students learn how to use my.tmcc.edu and other campus systems to help plan future semesters and graduate. It is recommended that students seek academic advisement before registering each semester, before transferring to another college or university, and/or before graduation to assist in:

- Creating an educational plan
- Identifying courses needed towards graduation
- Understanding transfer information and procedures
- Navigating and understanding campus tools and resources

**New Student Orientation**

Student Orientation, Advising, and Registration (SOAR) is designed around you, helping to uncover answers to the questions you have and introducing you to resources, programs and services. SOAR is a two-part process.

SOAR (Part I) is online and covers information and resources you need to start your education at TMCC on the track to success. Once you have been officially admitted to TMCC and have received your student ID number, username and password, you will be able to access SOAR (https://tmcc.instructure.com) in TMCC's online learning management system, Canvas. You will be able to access the valuable information during part one throughout your first year at TMCC.

SOAR (Part II) is your chance to meet with the advising staff, prepare a first semester class schedule and register. Once you have completed all the modules in Part I, you will be given access to schedule a SOAR Part II session.

The Academic Advisement Office offers these sessions at various times including evenings and weekends. For more information, please visit the New Student Orientation (http://www.tmcc.edu/advisement/new-students/soar) website.

**Transfer Center**

Links to the system transfer agreements are available online at transfer.tmcc.edu (http://transfer.tmcc.edu). Transfer agreements provide information on how TMCC courses and programs transfer to the various colleges and/or majors at the NSHE universities or state college. Advisors are available to discuss course transfer options to other four-year colleges and universities.

Students should contact the admissions office of the college to which they wish to transfer for information regarding the acceptability of any community college course.

Students planning to transfer should select courses using the current catalog for the institution they plan to attend.

---

**International Student Advisement Center**

http://www.tmcc.edu/advisement/international-students/

F-1 visa students who are on TMCC I-20s must meet admission requirements listed in Admission to the College (p. 305).

New international students must attend an orientation prior to their first semester at TMCC. This session will provide academic advisement, international student rules, regulations and responsibilities and information about services and programs at TMCC. New international students must bring their passport with a valid visa and their I-94 to International Student Services.

Each semester before registering for classes, all international students on TMCC I-20s must meet with the international student advisor to determine their academic schedule and enroll in a minimum of 12 units. Students who are not U.S. citizens or immigrants who are interested in attending TMCC on an F-1 visa must follow special application procedures as outlined in Admission to the College (p. 305).

**Financial Aid Eligibility and Application**

Although the student and the student’s family have the primary responsibility for financing the costs of education, there is some aid available through TMCC for those families who cannot meet the total costs. This aid is available in the form of grants, loans, scholarships, student employment or a combination of these. These programs are regulated by federal (Title IV), state and campus guidelines.

**Eligibility**

Most of the financial aid guidelines specify eligibility requirements, which include, but are not limited to the following:

- Be a citizen, permanent resident or other eligible non-citizen of the United States, as documented by the Department of Homeland Security.
- Have earned a high school diploma or passed a state-approved high school equivalency exam.
- Be accepted to or registered in a financial aid-eligible degree, emphasis, or certificate program at the TMCC Admissions and Records Office.
- Not be in default or owe a repayment on any Title IV loans or grants.
- Be enrolled in classes that will apply to the declared degree, emphasis, or certificate requirements (not to include Workforce Development and Community Education classes).
- Certify that you have not been convicted of violating any federal or state drug possession or sale laws, while receiving Title IV funding.
- Provide any other documents, as required.

**Note:** Adjusted Diplomas and Certificates of Attendance are not considered equivalent and students are advised to take a high school equivalency exam.

Students who do not specifically meet any of the eligibility requirements may still be eligible for some types of aid and should see a financial aid coordinator to discuss their special circumstances.
Financial Aid Application Priority Deadlines

Financial Aid
To receive consideration for all Title IV and other financial aid funds, students should apply as soon as possible beginning October 1 of the year prior to the year in which they plan to attend. Most awards are made on a first-come, first-served basis. Students must have completed their file and be eligible by July 1 for Fall, December 1 for Spring, or April 15 for Summer, in order for financial aid to disburse in time to pay fees. Otherwise, financial aid awards may arrive after classes begin and students will be responsible for paying their own fees and buying their own books and supplies. If payment is not made by the date fees are due, the student will be dropped from all their classes. If a student is determined to be eligible after these dates and is enrolled, they will receive their financial aid award as a reimbursement.

Scholarships
Many scholarships are available to students. The TMCC Foundation operates a scholarship application (https://tmcc.academicworks.com) that has an annual due date of March 1.

Student Employment
Student employment and work-study positions are posted all year at studentjobs.tmcc.edu, but are filled according to job and fund availability and the qualifications of the applicant.

Financial Aid Application Process
Please refer to the Applying for Financial Aid webpage.

Types of Financial Aid, Scholarships, and Student Employment

Please refer to the Financial Aid Website for more information on:

Grants (http://www.tmcc.edu/financialaid/types/grants)
Loans (http://www.tmcc.edu/financialaid/types/loans)
Work Study (http://www.tmcc.edu/financialaid/types/workstudy)
Scholarships (http://www.tmcc.edu/financialaid/types/scholarships)
Student Employment (http://www.tmcc.edu/financialaid/student-employment/types-of-student-employment)

Academic Progress Standards for Financial Aid Students
Federal and State regulations require all financial aid recipients to meet established progress standards. For complete details, please review the Financial Aid Academic Progress Policy (http://www.tmcc.edu/financialaid/eligibility/academic-progress-policy).

Financial Aid Refund Policy
Students receiving aid may have their financial aid adjusted if they withdrawn, stop attending or receive outside financial assistance. This can result in an overpayment and may require students to repay all or a portion of their financial aid funds. For more information, please visit the Financial Aid Website (http://www.tmcc.edu/financialaid).

Student Organizations and Activities

Student Government Association (SGA) of TMCC
Location: Dandini Campus, Red Mountain Building 121
Phone: 775-673-7203
Website: http://www.tmcc.edu/sga/

The SGA is comprised of a President, Vice President, Treasurer, Secretary, two Chairs, and five student senators elected or appointed annually by the student body. The SGA meets regularly to serve the TMCC student body by:

- Serving as the official voice of the student body of TMCC;
- Providing student representation on college committees;
- Recommending action to the appropriate campus bodies or individuals on issues, programs and services affecting students;
- Reviewing requests for new student organizations and recognizing those that meet specified requirements.

Any TMCC student interested in an opportunity to serve or volunteer on an activity or event should contact the SGA at 775-673-7203 for additional information.

SGA-recognized Clubs and Organizations
Student clubs and organizations may be formed if they have as their purpose one or more of the following objectives:

- To increase and stimulate the students’ knowledge and interest in their curricular field;
- To promote a feeling of fellowship among students with similar academic interests;
- To sponsor educational and recreational activities;
- To instill a feeling of unity and loyalty to the College.

All student organizations must have an approved advisor, a constitution or bylaws, and be approved by the SGA. TMCC students may also participate in specified clubs and organizations at the University of Nevada, Reno. More information about clubs at UNR can be obtained from the Center for Student Engagement Office at 775-784-6589.

Veterans Resources

Veterans Resource Center
The mission of the TMCC Veterans Resource Center (VRC) is to assist student veterans in their successful transition from military service to the academic environment. The staff within the VRC is there to help guide all veterans, eligible dependents and spouses, Nevada National Guard members, and active duty personnel in their educational goals. Entirely operated by veterans, the staff of the VRC is dedicated in using their own personal experiences to support other veterans and their families. Services within the Veterans Resource Center include:

- Information regarding the details of VA educational benefits
- Assistance with the VA education benefits application (VONAPP)
- Computers for student veterans for use with VA benefit and TMCC enrollment related materials
- Assistance with retrieving military transcripts
- Private student veteran study areas
• Room for veterans to study, gather, and network
• Student veteran events around campus
• Information about our own Truckee Meadows Veterans Club (TMVC)
• External veteran-related information such as: Disabled American Veterans, Nevada Job Connect, Vietnam Veterans of America, Veterans of Foreign Wars, Veterans Upward Bound, Wounded Warrior Project, and many more
• Direct access to Veterans Integration to Academic Leadership (V.I.T.A.L.) representatives as well as VA counseling services
• Referrals to other College resources
• Free Coffee

Veterans Education Benefits

Location: Veterans Resource Center, Red Mountain Building 241
Phone: 775-337-5612
Website: http://www.tmcc.edu/veterans-benefits/

The Veterans Education Benefits Associate and Veterans Pre-Admission Associate are available to assist veterans, active duty personnel, National Guard members, Reservist, spouses and dependents who are eligible for Veterans Educational Benefits. Eligibility is determined by the U.S. Department of Veterans Affairs by submitting an online application. If you are a student looking to utilize Veterans Educational Benefits please visit Steps to Enroll for Veterans (http://www.tmcc.edu/steps-to-enroll/military).

All prior credit, both military and other education institutions, must be evaluated by TMCC's Admissions and Records Office via a request for official transcripts. To request a military transcript and submit TMCC's Transfer Credit Evaluation Request please see the following links:

• Army, Navy, Marine Corps, and Coast Guard (https://jst.doded.mil/smart/signin.do)
• Transfer Credit Evaluation Request (http://www.tmcc.edu/advisement/downloads/credit-evaluation-for-transfer-students)

Per Executive Order 13607, all students using VA Education Benefits must attend a "veteran new student" workshop. Call 775-337-5612 to schedule the workshop. After the completion of 6 units, all students using VA Education Benefits must also attend a "veteran on-track" workshop. Call 775-337-5612 to schedule the “on-track” workshop.

Students who are looking to utilize Veteran Educational Benefits must submit a Veterans Course Submittal Form once enrolled for the upcoming semester. In addition, students must submit a course submittal form if there are any type of adjustment to their schedule, such as adding, dropping, withdrawing, and auditing.

• Veterans Course Submittal Form (http://www.tmcc.edu/veterans-benefits/downloads)

Below are the following progression standards for students receiving Veterans Education Benefits. Students using VA education benefits at Truckee Meadows Community College must maintain satisfactory academic progress toward a degree or certificate to remain in good standing. Students who meet the satisfactory academic progress requirements are considered to be in “good standing” status.

Veteran students who feel, because of extenuating circumstances, they have not been able to meet their progression standards, may submit an appeal to the Financial Aid Academic Progress Appeals Committee. Satisfactory progress is defined as follows.

1. Grade Point Average – As the "W" grade has no impact in determining the grade point average, it is interpreted as no credit, as if the class were never taken. An adjusted enrollment certification will be submitted to the Veterans Administration for any veteran student who receives a "W" grade. This may result in the veteran student having to pay back a portion of their veterans education benefits received for that semester.

2. Credit Completion – Veteran students must carefully review their courses and degree program to assure that
   - no more than the number of credits required for the degree have been earned; and
   - all such credits are directly applicable to the degree objective.

   To ensure that all courses are applicable, students using VA education benefits must report all previous education and training to the College. It is the student’s responsibility to order transcripts from institutions previously attended. After two semesters of enrollment, the Department of Veterans Affairs will be notified if the student has failed to order transcripts. This may result in a delay or cessation of veterans education benefits. This includes any credits awarded before the student began using veterans education benefits. Veterans may be denied education benefits or asked to reimburse education benefits received for credit earned in excess of their degree requirements.

   - Students with questions regarding withdrawal/auditing from courses are encouraged to visit the Veterans Resource Center.

3. Attendance – Students are expected to attend all classes for which they have registered.

Additional Resources & Priority Registration

Veterans have access to an Academic Advisor who is familiar with VA Education Benefits. It is important to meet with an Academic Advisor to develop an education plan to ensure students are taking the required courses for their designated degree program. In order to schedule an appointment students can contact the Veterans Resource Center.

TMCC prides itself on our veteran friendly community with our experienced and knowledgeable staff. Because of our veteran friendly community we offer priority registration to veterans, eligible dependents and spouses, Nevada National Guard members, and active duty personnel. With priority registration, students have the opportunity to enroll for classes one week prior to the registration date for the upcoming semester.

Veterans Upward Bound

Location: Meadowood Center, 5270 Neil Road, S303
Phone: 775-829-9007
Website: http://www.tmcc.edu/veterans-upward-bound/

The Veterans Upward Bound Program is an educational program funded by the U.S. Department of Education. It is designed to assist veterans in preparing for success in college and other post-secondary training.

Veterans Upward Bound provides a comprehensive program of support services to improve both academic and motivational skills. Services are available for college preparation and High School Equivalency completion. Specific services include developmental courses to improve basic skills, tutoring, career counseling and advisement, college
orientation, assistance with admissions, financial aid and referrals to other agencies. Veterans must meet program eligibility requirements.

For more information, visit the Veterans Upward Bound Office.

ADLISH, JOHN
Community College Professor, Biology
University of Nevada, Reno, NV, B.S., Ph.D.

ALBRECHT, JOHN
General Counsel, Presidents Office
University of Wisconsin, Milwaukee, WI, B.S.
University of Wisconsin, Madison, WI, J.D.

ALEXANDER, TOM
Network Support Specialist, System Support Services
Truckee Meadows Community College, Reno, NV, A.A.S.

ALLEN, YEVONNE
Specialist, Equity and Inclusion
University of Nevada, Reno, NV, B.A.

ALQUIST, SCOTT
Program Manager, Safety Training
Certified Environmental Inspector
Certified Hazardous Materials Responder/Trainer
Certified FEMA Instructor
OSHA Authorized Instructor

ANAYA-AREVALO, GRECIA
Academic Advisor, Academic Advisement
University of Nevada, Reno, NV, B.A.

ANDERSON, CAL
Webmaster, Web Services
Las Positas College, Livermore, CA, A.A.
University of Nevada, Reno, NV, B.S.

ANDERSON, TAMARA
Web College Support Specialist, Web College
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.S., M.S.

ARAGONA, PATRICIA
Specialist, Technical Sciences Division
Orange Coast College, Costa Mesa, CA, A.A.
California State University, Fullerton, CA, B.A.

ARMBRECHT, JULIE
Community College Professor, Reading
California Polytechnic State University, San Luis Obispo, CA, B.S.

Arizona State University, Tempe, AZ, M.Ed.

B

BADER, DEBORAH
Community College Professor, Nursing
University of Nevada, Reno, NV, B.S.N., M.S.N

BADILLO DELGADO, NAYESDI
Coordinator, Student Outreach
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.A., B.A.
Virginia Polytechnic Institute and State University, Blacksburg, VA, M.A.

BAILEY, JONATHAN
Community College Instructor, Radiologic Technology
The Art Institute of Atlanta, Atlanta, GA, A.A.
State University of West Georgia, Carrollton, GA, B.A., M.A.

BALE, STEVEN
Community College Professor, Computer Technologies
Ricks College, Rexburg, ID, A.A.S, A.L.E.
Brigham Young University, Provo, UT, B.S., M.P.A., J.D.
University of Nevada, Reno, NV, Ph.D.
CISSP – Computer Information Security Professional
MCT - Microsoft Certified Trainer
CTT+ - Certified Technical Trainer
MCDBA – Microsoft Certified Database Administrator
MCST – Microsoft Certified Desktop Support Technician
CCNA - Cisco Certified Network Associate
CCDA - Cisco Certified Design Associate
A+ - PC Technician Certification
Network+ - Certified Network Technician
Security+ - Certified Security Technician
Server+ - Certified Server Technician
CNA - Novell Certified Network Administrator Netware 3.11

BARTL, CLIFFORD
Community College Professor, Diesel Technology
University of Nevada, Reno, NV, B.S.

BAVARO, BEVERLY
Web Support Assistant, Web Services

BEIN, ERIKA
Community College Professor, English
University of Nevada, Reno, NV, B.A., M.A.
University of Louisville, KY, M.A.

BELL, JOHANNA
Specialist, Workforce Development and Continuing Education
University of Nevada, Reno, NV, B.A.

BERRY, KATHLEEN
Marketing Manager, Workforce Development and Continuing Education
University of Nevada, Reno, NV, B.A.
Accredited in Public Relations

BHATTARAI, SAMEER
BLAQUE, BRIDGETT
Community College Professor, Environmental Science
Tribhuvan University, Kathmandy, Nepal, B.S.
Troy University, Troy, AL, M.S.
George Mason University, Fairfax, VA, Ph.D.

BLOMQUIST, AMY
Academic Advisor, Academic Advisement
University of Nevada, Las Vegas, NV, B.S.
University of Nevada, Reno, NV, M.A.

BLUHM, SUSAN
Community College Professor, Nursing Assistant
Massasoit Community College, Brockton, MA, A.D.N.
New England College, Henniker, NH, B.A.

BODEN, DAVID
Community College Professor, Geography/Geology
University of California, Davis, CA, B.A.
Colorado School of Mines, Golden, CO, M.A.
Stanford University, Stanford, CA, Ph.D.

BOSCHERT, NICHOLAS
Coordinator, Financial Aid
Cuesta College, San Luis Obispo, CA, A.A.
California State University, Chico, CA, B.A.

BOUWERAERTS, DANIEL
Community College Professor, Graphic Communications
Santa Monica College, Santa Monica, CA, A.A.
California Polytechnic State University, San Luis Obispo, CA, B.S.
University of Nevada, Reno, NV, M.A.

BOUWERAERTS, PATRICIA
Marketing Specialist, Marketing & Communication
Truckee Meadows Community College, Reno, NV, A.A.
Northern Illinois University, Dekalb, IL, B.A.
DePaul University, Chicago, IL, M.A.
University of Nevada, Reno, NV, M.A.

BRADY, KAYLENE
Coordinator, Student Services
University of Nevada, Reno, NV, B.A.

BREITAG, KENNETH
Budget Analyst, Budget and Planning
Stanford University, Stanford, CA, B.A.

BREWSTER, CATHY
Manager, Professional Development
Texas A&M University, College Station, TX, B.A., M.A.
University of Texas at Austin, Austin, TX, M.L.S.

BRIGGS, LAURA
Community College Professor, Biology
University of Nevada, Reno, NV, B.S., Ph.D.

BROCHU, GABRIELA
Community College Professor, Foreign Languages
University of Nevada, Reno, NV, M.A.
National University of Cordoba, Cordoba, Argentina, Ph.D.

BROCK, ARNOLD
Community College Professor, Criminal Justice
University of California, Sacramento, CA, B.A.
University of the Pacific, McGeorge School of Law, Sacramento, CA, J.D.

BROWN, NATALIE
Program Director, Academic Advisement
University of Nevada, Reno, NV, B.A., M.A., Ph.D.

BUBNOVA, ELENA
Executive Director, Institutional Research
University of Kazakhstan, Kazakhstan, B.S.
University of Nevada, Reno, NV, M.A.

BUCHANAN, BARBARA
Vice President, Academic Affairs
Stephen F. Austin University, Nacogdoches, TX, B.A., M.A.
Texas A&M University, College Station, TX, Ph.D.

BUEHLER, LISA
Community College Professor, Accounting
Fort Lewis College, Durango, CO, B.A.
Idaho State University, Pocatello, ID, M.A.
City University, Bellevue, WA, M.B.A.
Concord Law School, Los Angeles, CA, J.D.

BULLIS, ERIC
Community College Instructor, Liberal Arts
University of Nevada, Reno, NV, B.A., Northwestern University, Evanston, IL, M.A.,
California State University, Chico, CA, M.A.
Michigan State University, East Lansing, MI, Ph.D.

BURRIGRUD, DEBRA
Student Loan Coordinator, Financial Aid
Regents College of New York (Excelsior College), Albany, NY, B.A.

BURKE, EDMUND
Community College Professor, Biology
Ulster Polytechnic, Belfast, Northern Ireland, B.S.
University of Ulster, Belfast, Northern Ireland, M.S.
University of Nevada, Reno, NV, Ph.D.

BURROUGHS, AMBER
Manager, Student Outreach
University of Nevada, Reno, NV, B.A., M.A.

BURTON, DEAN
Community College Professor, Visual Arts
University of Arizona, Tucson, AZ, B.A.
San Jose State University, San Jose, CA, M.A.

BYINGTON, SAM
Community College Instructor, Automotive Technology
ASE Certified Master Technician

C

CALHOUN, WILMA
Community College Instructor, Nursing
University of Nevada, Reno, NV, B.S.N., M.S.N

CANNAN, KAREN
Community College Professor, Culinary Arts
Certified Executive Pastry Chief
Certified Food Protection Manager Instructor
Truckee Meadows Community College, Reno, NV, A.A.S.

CARDOZA, CHERYL
Community College Professor, English
California State University, Chico, CA, B.A.
Purdue University, West Lafayette, IN, M.A.

CARDOZA, THOMAS
Community College Professor, Humanities
California State University, Chico, CA, B.A.
Purdue University, West Lafayette, IN, M.A.
University of California, Santa Barbara, CA, Ph.D.

CARTER, KELLIE
Community College Professor, Veterinary Technology
Truckee Meadows Community College, Reno, NV, A.A.
California State University, Turlock, CA, B.A.
Oregon State University, Corvallis, OR, B.A.

CAVANAUGH, AMY
Community College Instructor, Biology
Drew University, Madison, NJ, B.A.
University of Louisville, Louisville, KY, M.S., Ph.D.

CHANNING, JILL
Dean, Liberal Arts Division
Wright State University, Dayton, OH, B.A., M.A.
The University of North Carolina, Greensboro, NC, Ph.D.

CHAVEZ, YULIANA
Program Director, Student Outreach
University of Nevada, Reno, NV, B.A., M.A.

CLEVELAND, DARRYL
Director, Occupational and Safety Training
California State University, Long Beach, CA, B.S.
University of Nevada, Reno, NV, M.A.

COLES, JOHN
Community College Professor, Psychology
Arizona State University, Phoenix, AZ, M.C., B.S.
Oregon State University, Corvallis, OR, Ph.D.

COLLIER, JAMES
Community College Professor, Biology
Carleton College, Northfield, MN, B.A.
University of Denver, Denver, CO, M.S.
Idaho State University, Pocatello, ID, D.A.

CONNOLLY, TARA
Academic Advisor, Academic Advisement
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.A., M.A.

CORBETT, EDWARD
Community College Instructor, Computer Technologies
University of California, Berkeley, CA, B.S., M.S.
California Institute of Technology, Pasadena, CA, Ph.D.

COTTER, JAMES
Community College Professor, Mathematics
St. Louis University, St. Louis, MO, B.A.
Regis College, Toronto, Ontario, Canada, B.S.T.
Regis College, Toronto, Ontario, Canada, M.Div.

University of Nevada, Reno, NV, Ph.D.

COVERT, JODY
Director, Nursing
University of Nevada, Las Vegas, NV, B.S.N.
University of Phoenix, Reno, NV, M.S.N.

CREELMAN, JOHN
Community College Instructor, Diesel Technology
Truckee Meadows Community College, Reno, NV, A.A.S.

CROYSDILL, CONSOLACIAN
Community College Professor, Nursing
San Bernardino Valley College, San Bernardino, CA, A.D.N.
Orvis School of Nursing, University of Nevada, Reno, NV, B.S.N., M.S.N.

CULLINAN, PATRICIA
Community College Professor, English
Yuba College, Marysville, CA, A.A.
California State University, Chico, CA, B.A., M.A.

DALPE, KYLE
Interim Dean, Technical Sciences Division
University of Connecticut, CT, B.A.
University of Texas-Tyler, TX, M.A.
University of Nevada, Reno, NV, Ph.D.

DALTON, MICHAEL
Associate, Human Resources
Truckee Meadows Community College, Reno, NV, A.A.

DANIELS, ANDREW
Community College Instructor, Industrial Maintenance
Tribhuvan University, Kathmandy, Nepal, B.S.
Troy University, Troy, AL, M.S.
George Mason University, Fairfax, VA, Ph.D.

DAVIS, BEN
Manager, Facilities Operations and Capital Planning
Spokane Community College, Spokane, WA, A.A.
University of Phoenix, Phoenix, AZ, B.S.
University of Maryland University College, Adelphi, MD, M.S.

DAVIS, PAUL
Community College Professor, Political Science
Santa Monica College, Santa Monica, CA, A.A.
Long Beach State College, Long Beach, CA, B.A.
San Diego State University, San Diego, CA, M.A.
University of Utah, Salt Lake City, UT, Ph.D.

DEADMOND, JEREMY
Program Director, User Support Services
University of Nevada, Reno, NV, B.S.

DEADMOND, MELISSA
Associate Dean, Assessment and Planning
Albertson College of Idaho, Caldwell, ID, B.S.
University of Nevada, Reno, NV, Ph.D.

DEBOY, KENNETH
Specialist, System Support Services
Truckee Meadows Community College, Reno, NV, A.A.S.
Demay, Kristen
Counselor, Counseling
California Polytechnic State University, San Luis Obispo, CA, B.S.
University of Nevada, Reno, NV, M.A.

Do, Hieu
Community College Instructor, Mathematics
Eastern Oregon University, La Grande, OR, B.S.
Oregon State University, Corvallis, OR, M.S., Ph.D.

Dobbert, Thomas
Director, Information Technology
Truckee Meadows Community College, Reno, NV, A.G.S.
University of Phoenix, Reno, NV, B.S.
University of Nevada, Reno, NV, M.S.

Doherty, William
Community College Professor, Computer Technologies
University of Nevada, Reno, NV, B.S., M.B.A., Ph.D.

Donohue, Rain
Coordinator, ABE/ESL
University of Colorado, Boulder, CO, B.A.
School of International Training, Brattleboro, VT, M.A.

Douglass, Ana
Community College Professor, English
University of California, Santa Cruz, CA, B.A.
Rutgers University, New Brunswick, NJ, M.A., Ph.D.

Dugan, Kevin
Community College Professor, Psychology
California State University, Stanislaus, CA, B.A.
California State University, Chico, CA, M.A.
University of Nevada, Reno, NV, Ph.D.

Durbin, Jeanette
Specialist, Budget and Planning
University of Phoenix, Phoenix, AZ, A.A., B.A.

Durham-Taylor, Patricia
Community College Professor, Nursing
University of Rhode Island, Kingston, RI, B.S.N.
University of Nevada, Reno, NV, M.S.N., Ed. Spec., Ph.D.

Eckman, Lael
Associate, ABE/ESL
University of Nevada, Las Vegas, NV, B.A.

Ehlers, Kurt
Community College Professor, Mathematics
United States Naval Academy, Annapolis, MD, B.S.
California State University, Hayward, CA, M.S.
University of California, Santa Cruz, CA, Ph.D.

Elbe, Susan
Coordinator, Financial Aid
University of Nevada, Reno, NV, B.A.
Santa Clara University, Santa Clara, CA, M.A.

Ellis, Gregory
Community College Professor, Computer Technologies
Brigham Young University, Provo, UT, B.A.
University of Phoenix, Reno, NV, M.S.

Ellsworth, Julie
Interim Dean, Sciences Division
University of Michigan, Ann Arbor, MI, B.S.
University of Nevada, Reno, NV, Ph.D.

Ennis, Damien
Community College Professor, Mathematics
Johns Hopkins University, M.S.
University of Nevada, Reno, NV, B.S., M.S., Ph.D.

Evans, Wes
Community College Professor, Environmental Control-HVAC
Southeast Community College, Milford, NE, A.A.
University of Phoenix, Reno, NV, B.S.
University of Nevada, Reno, NV, M.S.

F

Faires, Nancy
Community College Professor, Foreign Languages
University of Houston, Houston, TX, B.A.
Rice University, Houston, TX, M.A.
University of Nevada, Reno, NV, Ph.D.

Farmer, Lisa
Executive Assistant, Presidents Office
Truckee Meadows Community College, Reno, NV, A.S.

Farung-Morrison, Tanya
Community College Instructor, Foreign Languages
State University of New York, Geneseo, NY, B.A.
Temple University, Philadelphia, PA, M.A.
University at Buffalo SUNY, Buffalo, NY, Ph.D.

Farrenkopf, Paula
Community College Professor, Mathematics
Montclair State College, Upper Montclair, NJ, B.S., M.S.

Ferrell, Gail
Community College Professor, Mathematics
San Diego State University, San Diego, CA, B.A.
University of Nevada, Reno, NV, M.A., Ph.D.

Fisher, Natalie
Associate, Web College
Truckee Meadows Community College, Reno, NV, A.A.

Fitzsimmons, John
Librarian, Elizabeth Sturm Library
San Diego State University, San Diego, CA, B.A.
University of Pittsburgh, Pittsburgh, PA, M.L.S.

Flesher, Anne
Community College Professor, Mathematics
University of Virginia, Charlottesville, VA, B.A.
University of Colorado, Boulder, CO, M.A.

Fletcher, Brian
Community College Professor, Political Science
University of California, Los Angeles, CA, B.A.
University of Wisconsin, Madison, WI, M.A., Ph.D.

Fletcher, Robert
Community College Professor, Psychology
California State University, Chico, CA, B.A., M.A.

FLOCHINI, RANDY
Community College Professor, Criminal Justice
University of Nevada, Reno, NV, B.A.
University of Phoenix, Reno, NV, M.A.

FOX, VERONICA
Director, Human Resources
Title IX Coordinator
City University, Seattle, WA, M.B.A
Western Washington University, Bellingham, WA, B.A.
Peninsula College, Port Angeles, WA, A.A.

FRASER, HUGH
Community College Professor, English
Santa Clara University, Santa Clara, CA, B.S.
San Francisco State University, San Francisco, CA, M.A.

FREDRICKSON, JUDITH
Community College Professor, Computer Technologies
Florida State University, Tallahassee, FL, M.S.
University of Nevada, Reno, NV, B.A., Ph.D.

FREEMAN, TAMERA
Manager, External Funding and Grants
University of Nevada, Reno, NV, B.A.

FRENCH, CATHERINE
Specialist, ABE/ESL
Madonna University, Livonia, MI, A.A., B.A., M.A.

FROCK, ERIN
Counselor, Counseling
University of Nevada, Reno, NV, B.A., M.A.

FUTIA, ANTHONY
Program Director, Student Activities Leadership
Jefferson Community College, Watertown, NY, A.A.
State University of New York, Utica, NY, B.S.
Boston University, Boston, MA, M.S.
Glendale University College of Law, Glendale, CA, J.D.

G

GALLEGOS, WILLIAM
Community College Professor, Mathematics
Adams State College, Alamosa, CO, B.A.
New Mexico State University, Las Cruces, NM, M.S.

GARAND, WILLIAM
Program Director, Application Support Services
Phoenix Institute of Technology, Electronic Technician
Microsoft Certified NT and SQL Administrator

GARLOCK, CANDACE
Community College Instructor, Liberal Arts
University of Nevada, Reno, NV, B.A.
Boise State University, Boise, ID, M.A.

GARLOCK, MICHELLE
Coordinator, Nursing
Oxford College of Emory University, Oxford, GA, A.A.
Oxford University, London, England, A.A.

Emory University, Atlanta, GA, B.S.N.

GENZ, KENNETH
Support Assistant, Application Support Services
University of Nevada, Reno, NV, B.S.

GIREN-NAVARRO, MARYNIA
Community College Instructor, Sociology
University of Wroclaw, Wroclaw, Poland, B.A., M.A.

GOLDEN, TERESA
Manager, Facilities Operations and Capital Planning
University of Nevada, Reno, NV, B.S.

GRAHAM-WILLIAMS, HEATHER
Community College Professor, Nutrition
University of California, Davis, CA, B.S., M.S., Ph.D.

GRAY, MEEGHAN
Community College Professor, Biology
California State Polytechnic University, Pomona, CA, B.S.
University of Nevada, Reno, NV, Ph.D.

GRIFFIN, ROBIN
Community College Professor, English
East Carolina University, Greenville, NC, B.A.
University of Nevada, Reno, NV, M.A.

GUY, TOMMIE
Program Manager, Finance and Administrative Services
Texas A&M University, College Station, TX, B.A.

H

HALL, KURT
Counselor, Counseling
Chico State University, Chico, CA, B.A.
University of Nevada, Reno, NV, M.A.

HALL, PRECIOUS
Community College Professor, Political Science
High Point University, High Point, NC, B.A.
Georgia State University, Atlanta, GA, M.A., Ph.D.

HAMM, BERNARD
Business Process Associate, Accounting Services
Southern Oregon University, Ashland, OR, B.S.
Loyola College, Columbia, MD, M.Ed.

HAMMETT, JULIA
Community College Professor, Anthropology
San Jose State University, San Jose, CA, B.A.
University of North Carolina, Chapel Hill, NC, M.A., Ph.D.

HAMPTON, WADE
Community College Professor, Humanities
University of California, Santa Barbara, CA, B.A.
California State University, Chico, CA, M.A.
University of Nevada, Reno, NV, M.A.

HAWKINS, TARA
Manager, Foundation
Northern Illinois University, DeKalb, IL, B.A., M.A.

HAYES, TANJA
Community College Instructor, Economics
University of Nevada, Reno, NV, B.S.
Columbia University, New York, NY, M.S.

HEJNY, WARREN
Community College Professor, Radiologic Technology
University of Southern Colorado, CO, A.A.S.
College of St. Francis, Joliet, IL, B.S.

HENDERSON, PHYLLIS
Community College Professor, Education
University of Nevada, Reno, NV, B.S., M.S., Ph.D.

HERNANDEZ, ANGIE
Coordinator, Technical Sciences Division
Carroll College, Helena, MT, B.A.

HERNANDEZ, ROBERT
Director, Veterans Upward Bound
University of Nevada, Reno, NV, B.V., M.P.A.

HESTIYAS, BLISIN
Community College Professor, Mathematics
Madurai Kamaraj University, Tamil Nadu, India, B.S.
Manonmaniam Sundaranar University, Tamil Nadu, India, M.S.

HILGERSOM, KARIN
President, TMCC
California State University, Stanislaus, Turlock, CA, B.A.
University of Oregon, Eugene, OR, M.S., Ph.D.

HOCH, MARCIA
Specialist, Counseling
Portland State University, Portland, OR, B.S., M.S., Ed.D.

HOLCOMB, SCOTT
Community College Instructor, Welding
AWS Welding Certificates

HOLMES, MICHAEL
Community College Professor, Construction
University of Florida, Gainesville, FL, B.A.
Saint Mary's College, Moraga, CA, M.B.A.

HOOOPER, KEITH
Community College Instructor, Mathematics
Eastern Washington University, Cheney, WA, B.A.
Washington State University, Pullman, WA, M.S.
University of Utah, Salt Lake City, UT, M.S.

HOUSE, CATHY
Community College Professor, Computer Technologies
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.A., M.A.

HOUSE, ELLEN
Community College Professor, Nursing
Palomar College, San Marcos, CA, A.A.
University of San Diego, San Diego, CA, B.S.N.
University of California, Los Angeles, CA, M.N.
University of San Diego, San Diego, CA, D.N.Sc.

HUBER, SCOTT
Community College Professor, Biology
University of Idaho, Moscow, ID, B.S.
Idaho State University, Pocatello, ID, M.S.

HUGHES, ANDREW
Director, Admissions and Records
New Mexico Military Institute, Roswell, NM, A.A.
Arizona State University, Tempe, AZ, B.A.
Argosy University, Phoenix, AZ, M.A.

HUMPHREY, ELIZABETH
Community College Professor, English
University of Nevada, Reno, NV, B.A., M.A.

IANNACCHIONE, MARCELLA
Coordinator, Career Center
University of Nevada, Reno, NV, B.S.

ILL, TIMOTHY
Videographer, Marketing & Communications
North Dakota State University, Fargo, ND, B.A.

IRINTICHEVA, VIRGINIA
Community College Instructor, Biology
Saint Louis University, Saint Louis, MO, B.S., Ph.D.

JARVIS, PATRICIA
Instructional Designer, Web College
Truckee Meadows Community College, Reno, NV, A.A.
Eastern New Mexico University, Portales, NM, B.A., M.A.

JENSEN, LARS
Community College Professor, Mathematics
University of Copenhagen, Copenhagen, Denmark, M.S.
University of Pennsylvania, Philadelphia, PA, Ph.D.

JIA, LESLIE
Coordinator, Financial Aid
University of Nevada, Reno, NV, B.S., M.A.

JIMENEZ-ORTIZ, MARIA
Gear Up Ambassador, Student Outreach
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.A.

JORGENSEN, CRISTA
Budget Analyst, Budget and Planning
University of Nevada, Reno, NV, B.S.

JORGENSEN, JAY
Specialist, Disability Resource Center
Illinois Valley Community College, Oglesby, IL, A.A.
University of Maryland, Heidelberg, Germany, B.A.
Assumption College, Worcester, MA, M.A.

KAUFMAN, JENNIFER
Specialist, Veterans Upward Bound
Sonoma State University, Rohnert Park, CA, B.A.

KATKOVA, OLGA
Community College Professor, Chemistry
D.Mendeleev Russian University of Chemical Technology, Moscow, Russia, M.S.
Bowling Green State University, Bowling Green, OH, M.S.
University of Nevada, Reno, NV, M.A.

KEARNS, THOMAS
Assistive Technician, Disability Resource Center
Truckee Meadows Community College, Reno, NV, A.A.

KEMP, JOHN
Community College Professor, History
University of New Mexico, Albuquerque, NM, B.A., M.A., Ph.D.

KERSTEN, JENNIFER
Specialist, Veterans Upward Bound
University of Pennsylvania, Philadelphia, PA, B.A.
University of Phoenix, Salt Lake, UT, M.A.

KIRCHMAN, ROBERT
Community College Professor, Management
Occidental College, Los Angeles, CA, B.A.
Golden Gate University, San Francisco, CA, M.B.A.

KIRKPATRICK, KATHLEEN
Director, Marketing & Communications
University of Nevada, Reno, NV, B.A.
Saint Mary’s University of Minnesota, Winona, MN, M.A.

KOLBET, KATHLEEN
Community College Professor, Chemistry
University, Spokane, WA, B.S.
University of Illinois Champaign, Urbana, IL, Ph.D.

LAM, JONATHAN
Community College Instructor, Biology
Chinese University of Hong Kong, Hong Kong, B.S.
The Ohio State University, Columbus, OH, Ph.D.

LAMBERT, TED
Community College Professor, Mathematics
University of Nevada, Reno, NV, B.S., M.S.
University of Michigan, Ann Arbor, MI, M.S., Ph.D.

LAVAKA, SIONE
Academic Advisor, Academic Advisement
University of Nevada, Reno, NV, B.A.

LEATHEN, MATTHEW
Community College Instructor, Chemistry
University of Wisconsin, Madison, WI, B.S.
University of Michigan, Ann Arbor, MI, Ph.D.

LEVARIO-GUTIERREZ, ESTELA
Vice President, Student Services
California State University, Fresno, CA, B.A.
National University, San Diego, CA, M.S.

LINK, JENNIFER
Associate, Dental Hygiene
Truckee Meadows Community College, Reno, NV, A.S.
University of Nevada, Reno, NV, B.S.

LIVELY, ROBERT
Community College Instructor, English
University of Nevada, Reno, NV, B.A., M.A.

Executive Assistant, Finance and Administrative Services
Monterey Peninsula College, Monterey, CA, A.A.
University of California, Santa Cruz, CA, B.A.

LOKKEN, FRED
Community College Professor, Political Science
University of Wisconsin-La Crosse, La Crosse, WI, B.S.
Washington State University, Pullman, WA, M.A.

LORANZ, DANIEL
Community College Professor, Chemistry
Beloit College, Beloit, WI, B.S.
Michigan State University, East Lansing, MI, M.S.
Montana State University, Bozeman, MT, Ph.D.

LOWE, SHARON
Community College Professor, History
University of California, San Diego, CA, B.A.
University of Nevada, Reno, NV, M.A.
Union Institute & University, Cincinnati, OH, Ph.D.

LUNDAHL, SUSAN
Computer Support Specialist, User Support Services
Truckee Meadows Community College, Reno, NV, A.A.S.

MACHEN, CASEY
Community College Instructor, Mathematics
University of Nevada, Reno, NV, B.S.
Michigan State University, East Lansing, MI, Ph.D.

MAJEWSKI, ALEXANDER
Community College Instructor, Industrial Maintenance
University of Nevada, Reno, NV, B.S., B.A.

MARSTON, RON
Community College Professor, Graphic Communications
University of Nevada, Reno, NV, B.G.S.
Lesley University, Cambridge, MA, M.Ed.

MARTINEZ, MIGUEL
Coordinator, Student Outreach
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.A.
Virginia Tech, Blacksburg, VA, M.A.

MARTINEZ, SANDRA
Community College Professor, Dental Assisting
Truckee Meadows Community College, Reno, NV, A.G.S.
Eastern New Mexico University, Portales, NM, B.A.

MARTINEZ, VICTORIA
Master Teacher, Child Care Center
Truckee Meadows Community College, Reno, NV, A.A.
Ashford University, San Diego, CA, B.A, M.A.

MAYNARD, MARK
Community College Instructor, English
University of San Diego, San Diego, CA, B.A, M.A.
Antioch University, Los Angeles, CA, M.A.

MAYNARD, MOLLY
Community College Professor, Reading
West Valley College, Saratoga, CA, A.A.
San Jose State University, San Jose, CA, B.A., M.A.
California State University, Fullerton, CA, Postsecondary Reading and Learning Certification

MCCOOL, SHANNON
Community College Professor, Mathematics
University of Nevada, Reno, NV, B.S., M.S., M.Ed.

MCDONALD, LORI
Director, Dental Hygiene
Shasta Community College, Redding, CA, A.A.
Oregon Health Sciences University, Portland, OR, B.S.
University of Nevada, Reno, NV, M.A.

MCDOWELL, NICOLE
Program Manager, Workforce Development and Community Education
California State University, Fresno, CA, B.A.
Saint Mary’s College of California, Moraga, CA, M.Ed.

MCGILICUDDY, LINDA
Community College Professor, Dental Assisting
University of Nevada, Reno, NV, B.S., C.D.A.
University of Nevada, Reno, NV, M.P.H.

MCMURRAY, MAI AHN
Community College Professor, English
St. Mary’s College, Moraga, CA, B.A.
University of Nevada, Reno, NV, M.A.

MEBUST, KREG
Community College Instructor, Architecture
Kansas State University, Manhattan, KS, B.A.
University of Nevada, Reno, NV, M.A.

MELA, KENNETH
Specialist, Veterans Upward Bound
University of Nevada, Reno, NV, B.S.

MENDEZ, TERENCE
Community College Instructor, Emergency Medical Services
Southwestern Oregon Community College, Coos Bay, OR, A.A.
Lane Community College, Eugene, OR, A.A.S.
Excelsior College, Albany NY, B.S.
Oregon State University, Corvallis, OR, M.A.

MERANDA, KERI
Master Teacher, Child Care Center
University of Nevada, Reno, NV, A.A., B.S.
Nova University, Ft. Lauderdale, FL, M.S.

MESINA, OLGA
Specialist, Disability Resource Center
University of Nevada, Reno, NV, B.A., M.A.
Texas Tech Health Sciences Center, Lubbock, TX, M.S.

MILLER, PETER
Program Director, Financial Aid

MILLER, RANDY
Program Director, System Support Services
Cisco Certified Network Associate, CCNA
Cisco Certified Design Associate, CCDA
Foundry Certified Network Engineer, FCNE
TCP/IP Network Analyst

MILLER, STACI
Academic Advisor/Transfer Articulation Coordinator, Academic Advisement
San Joaquin Delta College, Stockton, CA, A.A.
California State University, Stanislaus, CA, B.S.
University of California, Laverne, CA, M.S.

MONToya, MICHELLe
Coordinator, Tutoring and Learning Center
University of Nevada, Reno, NV, B.A.
University of Phoenix, Reno, NV, M.A.

MUHLE, JULIe
Community College Professor, Dental Assisting
Truckee Meadows Community College, Reno, NV, A.G.S., A.A.S.
Eastern New Mexico University, Ruidoso, NM, B.A., M.Ed.

MURGOLO-POORE, MARIE
Dean, Business Division
California State University, Fullerton, CA, B.A.
Curtin University of Technology, Bentley, West Australia, Australia, M.S., Ph.D.

N

NAMIE, JOYLIN
Community College Instructor, Anthropology
Skidmore College, Saratoga Springs, NY, B.A.
University of California, San Diego, CA, M.A, Ph.D.

NEUFELDT, ERIC
Community College Instructor, English
California State University, Hayward, CA, B.A., M.A.
Oklahoma State University, Stillwater, OK, M.F.A.

NEW, JIM
Vice President, Finance and Administrative Services
College of Eastern Utah, Price, UT, A.A.S.
Utah State University, Logan, UT, B.S., M.S.

NEWHALL, WILLIAM
Community College Professor, Mathematics
University of California, Davis, CA, B.S.

NICOLET, DIANE
Director, E.L. Cord Child Care Center
University of Northern Colorado, Greeley, CO, B.A.
Webster University, St. Louis, MO, M.A.T.

NOEL, MICHELLe
Specialist, Technical Sciences Division
David Lipscomb University, Nashville, TN, B.A.
University of Tennessee, Knoxville, TN, M.L.S.

NOREEN, MICHELe
Community College Professor, Veterinary Technology
Drexel University, Philadelphia, PA, B.S.
North Carolina State University, Raleigh, NC, D.V.M.

NYSWONGER, NEVIN
Community College Instructor, Diesel Technology
American River College, Sacramento, CA, A.A.
OLSEN, JEFF
Community College Professor, Mathematics
Humboldt State University, Arcata, CA, B.S.
University of California, Davis, CA, M.S.
University of Oregon, Eugene, OR, M.S.

OLSON, CHERYL
Program Director, Technical Sciences Division
University of Nevada, Reno, NV, B.S.

O’NEAL, NANCY
Community College Professor, Business
Purdue University, West Lafayette, IN, B.S.
California Polytechnic State University, San Luis Obispo, CA, M.B.A.

ORTHEL-CLARK, HALEY
Community College Instructor, Psychology
California State University, Chico, CA, B.A.
Northern Arizona University, Flagstaff, AZ, M.A.

ORTIZ, ELIZABETH
Specialist, Disability Resources Center
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.A.

OSWALD, KELLY
Community College Professor, Manufacturing Technologies
Pikes Peak Community College, Colorado Springs, CO, A.A.S.

OWENS, THEODORE
Community College Professor, Music
University of Oklahoma, Norman, OK, B.M., M.M.

OZBEK, KAREN
Community College Instructor, ESL
Illinois Valley Community College, Oglesby, IL, A.A.
Southern Illinois University, Carbondale, IL, B.A., M.A.

PAINTER, BARBARA
Executive Assistant, Academic Affairs
Wayland Baptist University, Plainview, TX, B.S.
Central Michigan University, Mount Pleasant, MI, M.S.

PENTECOST, COURTNEY
Academic Advisor, Academic Advisement
Northern Michigan University, Marquette, MI, B.S.
Suffolk University, Boston, MA, M.A.

PETRY, PERLA
Academic Advisor, Academic Advisement
University of Nevada, Reno, NV, B.S., M.A.

PEZZUTO, DEBRA
Coordinator, ABE/ESL
Consumnes River College, Sacramento, CA, A.A.
California State University, Sacramento, CA, B.A.

PIERCE, JENNIFER
Academic Advisor, Academic Advisement
Boise State University, Boise, ID, B.A.
University of Nevada, Reno, NV M.A.

PIERROTT, CYNTHIA
Program Manager, ABE/ESL
University of Nevada, Las Vegas, NV, B.A.

PORTER, REBECCA
Community College Professor, Mathematics
University of Nevada, Reno, NV, B.S., M.S.

POTTER, KARA
Community College Instructor, Nursing
Norwich University, Northfield, VT, B.S.
San Jose State University, San Jose, CA, M.S.

PROEBSTEL, WILLIAM
Specialist, Disability Resources Center
University of Nevada, Reno, NV, B.A. M.A.

PURDY, MELANIE
Counselor, Counseling
University of Nevada, Reno, NV, B.A., M.A., Ph.D.

RAUBOLT, LEE
Assistant Director, Admissions and Records
Embry Riddle Aeronautical University, Prescott, AZ, B.S., M.S.

REID, JOHN
Community College Professor, History
University of Nevada, Reno, NV, B.A., M.A.
Michigan State University, East Lansing, MI, Ph.D.

ROBERTS, DAVID
Executive Director, Facilities Operations and Capital Planning
University of Florida, Gainesville, FL, B.S.
Troy State University, Tampa, FL, M.S.

RODRIGUE, CRAIG
Community College Professor, Culinary
California Culinary Academy, San Francisco, CA, Certificate

ROE, NANCY
Job Placement Specialist, Applied Industrial Technologies
Southern Nazarene University, Bethany, OK, B.S.

RUBALCABA, MICAELA
Community College Professor, Education
Stanford University, Stanford, CA, M.A.
University of California, Berkeley, CA, B.A., Ph.D.

RUBIO, JORGE
Specialist, Technical Sciences Division
Truckee Meadows Community College, Reno, NV, A.S.
University of Nevada, Reno, NV, M.S.

RUF, BRIAN
Community College Professor, Drafting
University of Nevada, Reno, NV, B.S.

SAKAMURA, ERIKO
Coordinator, ABE/ESL
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.A., M.A.
SANCHEZ, VICTOR
Lead Server Administration Specialist, Application Support Services
University of Phoenix, Seattle, WA, B.S.

SANFORD, PATTI
Community College Professor, Dental Hygiene
University of Southern California School of Dentistry, Los Angeles, CA, B.A.
San Jose State University, San Jose, CA, M.A.

SANTOS, LAUREL
Community College Instructor, Manufacturing
Truckee Meadows Community College, Reno, NV, A.A.
University of Nevada, Reno, NV, B.S., M.A.

SAWYER, GRETCHEN
Executive Director, Foundation
California State University, Sacramento, CA, B.A.
California State University, Fullerton, CA, M.S.

SCARNATI, BRANDY
Program Director, Web College
Truckee Meadows Community College, Reno, NV, A.A.
University of Phoenix, Reno, NV, B.S.
University of Nevada, Reno, NV, M.S.

SCHEIBLE, BEN
Community College Professor, Real Estate
Stanford University, Stanford, CA, A.B.
University of the Pacific, McGeorge School of Law, Sacramento, CA, J.D.

SCHEIBLE, BEN
Community College Professor, Real Estate
Stanford University, Stanford, CA, A.B.
University of the Pacific, McGeorge School of Law, Sacramento, CA, J.D.

SCHNEIDER-ERGER, LINDA
Specialist, ABE/ESL
Mount Mercy University, Cedar Rapids, IA, B.S

SCHOPPE, TRENTON
Community College Instructor, Welding

SCHULZ, MICHAEL
Community College Instructor, Emergency Medical Services
Azusa Pacific University, Azusa, CA, B.S.

WRAY, CAROLYN
Community College Professor, Theater

YARNEVICH, JOHN
Community College Professor, History

ZIDECK, STEPHEN
Community College Professor, Mathematics

1 Deceased
2 Posthumously
APPEAL OF TMCC POLICY

Students appealing the application of a TMCC policy or procedure should begin the process by completing the “Student Appeals Form” and filing it with the Admissions and Records Office. Appeals will be accepted for review if students begin the process within six months from the date of occurrence or six months from when it could be reasonably assumed that the student was aware of the occurrence.

The Student Appeals Board consists of the designee of the President as chair, three faculty members, one counselor, one administrator, two staff members and one student representative. Departmental consultants attending meetings will be non-voting participants. The Board meets monthly, except January and July, to hear appeals and recommend action to the Vice President of Student Services, who has final authority.

The Student Appeals Board is responsible to hear appeals initiated by the Admissions and Records procedures, which may include residency issues and refund issues. To initiate an appeal for one of the issues listed below, the student should contact the following:

- Affirmative action appeal – contact the affirmative action officer or the Director of Equity and Inclusion, and follow guidelines listed in the Board of Regents Handbook.
- Classroom or departmental procedures - contact the appropriate department.
- Disciplinary issues-contact the Student Conduct Office.
- Financial aid appeals - contact the Financial Aid Office.
- Grade change issues - contact the instructor or follow the procedures outlined in the Course Catalog under Appeal of Class Grade.
POLICIES AND REGULATIONS

Admission Policies

Community College Admission-General Policy

Board of Regents Handbook, Title 4, Chapter 16, Section 18

1. In the admission of students, community colleges shall not discriminate on the basis of a person’s age, disability, ethnicity, gender, national origin, race, religion, or sexual orientation.

2. All applicants must qualify for admission by satisfying at least one of the following:
   a. A graduate of a high school or its equivalent; or
   b. A qualified international student.

3. A student who does not meet the community college requirements for admission established in subsection 2 may apply to be admitted under alternate criteria or test scores that demonstrate college readiness. Each college shall establish procedures and requirements for such alternate admission.

4. When admitting a student, the institution may consider the student’s standing at a previously attended institution, including, but not limited to, records of disciplinary action.

5. All applicants for admission shall complete such tests, furnish such information, and meet such deadlines as required by the regulations published in the admissions sections of the catalog governing the semester of initial enrollment. The initial semester of enrollment shall be considered the date of matriculation except where otherwise defined by the institution.

6. Admission to an NSHE community college implies general admission to the College only and does not constitute admission to a specific curriculum or courses that may require additional admission criteria, as published in the College catalog governing the semester of initial enrollment.

7. Programs designed as limited entry require fulfillment of selective admissions criteria as contained in the institutional catalog and other appropriate college documents. Continuation in selective admissions programs is likewise contingent upon fulfillment of conditions specified by the institution and contained in official institutional documents.

Admission Criteria for Students Less Than 18 Years Old

Student(s) under 18 years old can be considered for special admission.

Admission is for one semester only.

Students must reapply each semester until they graduate from high school or turn 18.

Registrations are processed through the Admissions and Records Office.

Early Admission for Juniors and Seniors

Juniors with a 3.0 GPA and seniors with a 2.5 GPA can take any class for which they meet the prerequisites.

Juniors and seniors who do not meet the minimum GPA requirements may only take occupational or community service classes.

TMCC or WCSD Dual Credit Program

Students requesting dual credit should indicate dual credit by marking the box.

Student’s signature on application form allows TMCC to release transcript to home high school at the end of the term.

Students must be eligible high school juniors (GPA 3.0) or seniors (GPA 2.5).

Student must meet all course prerequisites.

Students pay for all costs of college enrollment, including the application fee, class fees and textbook costs.

Students Below Junior Level

Students below the junior level may register in workforce development classes for audit.

Academically talented students below junior level may take academic classes on a case-by-case basis upon review of transcripts, ACT/SAT scores, grade reports or other evidence of academic aptitude. Evidence is reviewed and student is interviewed by the director of advising for approval.

Students Excused from Compulsory Attendance (Home Schooled)

Students provide a letter from the school district stating they have been excused from compulsory attendance and proof of level of education (grade level).

Students below junior level follow same criteria as listed above. See “Students Below Junior Level.”

Special Admissions

Students who do not qualify for any of the above programs or who have special circumstances can be considered for admission on a case-by-case basis by presenting grades, test scores, courses taken, recommendations and other supporting documents to the Admissions and Records and Advising directors.

TMCC High School

TMCC High School students must follow the admissions procedure and complete the admission form. For more information, contact TMCC High school at 775-674-7660.

Community College Admission of International Students

Board of Regents Handbook, Title 4, Chapter 16, Section 19

To qualify for admission to a community college, an international student must satisfy the following conditions:

1. Official evidence of an educational level equivalent to graduation from an accredited United States high school;
   a. Official transcripts of permanent academic records (must be in English). Applicants should have their transcripts certified or notarized by an appropriate official prior to submitting them for evaluation.
2. Competency in the English language as defined in the College catalog governing the semester of initial enrollment; and
   a. Students who speak English as a second language should be able to demonstrate English preparedness for college classes by having completed one of the following:
      I Intensive English Language Center (IELC) at UNR or,
      II International TOEFL score of at least 61 (IBT) or 500 (PBT).
         (Institution code: 4960).
      III Completion of ENG 113 or ENG 101 (or equivalent) at a U.S. college or university,
      IV Passing scores in the reading and writing sections of the U.S. high school proficiency examinations.
      V International English Language Testing System (IELTS - must be academic version) with an equivalency score of 6.
      VI Scholastic Aptitude Test (SAT) score of 500 or higher on the Critical Reading (formerly Verbal) section. College Board Code: 1096.
      VII American College Testing (ACT) score of 21 or higher. College Code: 2499.
   Exemption: Students coming from the following English-speaking countries are exempt from the English language testing requirements: Australia, Bahamas, British Guyana, Canada (except for Quebec), Ireland, Jamaica, New Zealand, St. Vincent, Trinidad and Tobago, and United Kingdom.
   b. International students admitted into the country on an I-20 from TMCC must be enrolled in the College as a full-time student (a minimum of 12 credit hours) until they complete their full course of study or transfer to another institution and meet the progression standards. (p. 322)

3. Evidence of sufficient financial support as defined in the College catalog governing the semester of initial enrollment. Admission to TMCC implies general admission to the College only and does not constitute admission to a specific curriculum or courses which may require additional admission criteria.

College Annual Security Report

TMCC publishes an Annual Security Report. This report includes statistics for the previous three years concerning reported crimes that occurred at the College and its sites. The report also includes institutional policies concerning campus safety and security, such as policies regarding sexual assault and other matters. If you would like a printed copy of this report, please contact University Police Services (http://www.tmcc.edu/police/contact).

General safety and security information is also available on the TMCC StaySafe website at staysafe.tmcc.edu.

Drug, Alcohol and Tobacco Prevention Policy

As a part of the Drug-Free Schools and Communities Act, campuses are asked to provide students and employees with information on campus rules and regulations pertaining to alcohol and other drugs, the health and social effects, legal sanctions and counseling and treatment programs available.

Electronic Smoking Devices — The use of e-cigarettes and other electronic, alternative smoking devices is not permitted inside TMCC buildings.

Standards of Conduct — The unlawful manufacture, distribution, dispensation, possession or use of alcohol and illegal drugs is prohibited; a violation of any such prohibition will result in disciplinary action up to and including termination of employment or expulsion of students.

The TMCC president has the authority to designate the time and place for special events where alcoholic beverages may be served on the TMCC campus to persons 21-years-old or over. Except as provided above, the storage, possession or use of alcoholic beverages is not permitted on TMCC-owned or supervised property.

Any student or employee who exhibits offensive behavior on TMCC-owned or supervised property while under the influence of alcoholic beverages or illegal drugs shall be subject to disciplinary action (NSHE Board of Regents Handbook, Title 4, Chapter 20).

Legal Sanctions — Any act prohibited by local, state or federal law which occurs on TMCC premises or at a TMCC-sponsored function on or off such premises shall constitute cause for discipline which, for students, can include a warning, reprimand, restitution, probation, suspension or expulsion. Sanctions against employees can include any of the above in addition to termination of employment.

It is the policy of the State of Nevada, with respect to employees of state agencies, that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance in the workplace is prohibited. Any employee who violates this policy is subject to disciplinary action which may include termination of employment. The specifics of the policy are addressed in Chapter 453 of the Revised Statutes of Nevada, Nevada Administrative Code 284.650.

Federal penalties for trafficking in methamphetamine, heroin, cocaine, PCP, LSD, fentanyl, marijuana and hashish include imprisonment for five years to life and fines of up to $8 million. Federal penalties for illegal possession of a controlled substance include imprisonment for one year to 20 years and fines of up to $250,000.

Notice to Students and Employees Regarding Illicit Drugs and Alcohol

Truckee Meadows Community College (TMCC) believes that the unlawful possession or abuse of drugs and alcohol by students and employees presents multilevel risks to the individual, the learning environment and the College community as a whole. Substance abuse impedes the process of learning, teaching, personal development and the overall exercise of a person’s true talents and abilities. There are also serious criminal and disciplinary sanctions that can be imposed on students and employees which will disrupt their studies or careers.

TMCC provides this notice in compliance with federal law as part of TMCC’s program to prevent the possession, use, and distribution of illicit drugs and alcohol by students and employees. The information provided here includes campus rules and regulations pertaining to drugs and alcohol, possible health and social effects, the legal sanctions, and contact information for services and programs that can provide further information and assistance. Additionally, this notice informs students of the implications for eligibility of financial aid when students are convicted of possession or sale of illegal drugs.

Illegal Drugs

TMCC is a drug free institution. Nevada state law and the Nevada System of Higher Education (NSHE) regulations prohibit the manufacture,
distribution, possession or use of illegal or unauthorized drugs or drug paraphernalia on TMCC property or at a TMCC-sponsored activity.

The possession or use of prescription drugs without a proper prescription is a crime in the State of Nevada. A student’s possession of a “medical marijuana card” or similar documentation supporting the use of illegal drugs will not excuse or permit the manufacture, distribution, or use of illegal or unauthorized drugs or drug paraphernalia on TMCC property or at a TMCC-sponsored activity.

Violations of the law or NSHE regulations will result in disciplinary action for students and employees up to and including expulsion of students and/or termination of employment pursuant to Nevada state law, the TMCC Student Conduct Code and the NSHE Code, and referral for criminal prosecution. Nevada law requires TMCC to immediately terminate the employment of any employee who is convicted of violating a federal or state law prohibiting the sale of a controlled substance regardless of where the incident occurred. The term "controlled substance" means any drug defined as such under the regulations adopted pursuant to NRS 453.146. Many of these drugs have a high potential for abuse. Such drugs include, but are not limited to, heroin, marijuana, cocaine, PCP, and crack. They also include legal drugs which are not prescribed by a licensed physician.

These violations are serious matters and can significantly impact education and employment.

Alcohol
TMCC does not permit possession of alcohol on its property except for limited situations. The legal age for drinking alcohol in the State of Nevada is 21 years of age. Moreover, alcohol abuse or excessive drinking by those of lawful age has become more prevalent with tragic cases reported of death or serious impairment. This includes the forced consumption of alcohol in conjunction with initiations or affiliation with any organization; TMCC prohibits any type of initiations requiring the consumption of alcohol.

NSHE regulations allow the use or consumption of alcohol on TMCC property only in the following limited situations:

1. Upon receipt of a timely advance application, the TMCC President may grant permission in writing for the sale or distribution of alcoholic beverages at a TMCC sponsored event (including student organizations) and guest organizations approved to use TMCC facilities. Such consideration will be based upon, but not limited to, such factors as number and ages of people in attendance, purpose of the event, supervision, security provisions, location, date and time of the function. The President’s decision to allow alcohol is discretionary, and the decision is final. No other TMCC officer, manager, or employee may approve the use of alcohol on campus or at a TMCC-related event/function.

2. Alcohol procured and used in association with approved TMCC academic classes (e.g. culinary classes).

Impairment in the Workplace and Classroom
It is the policy of the State of Nevada to ensure that its employees do not report for work in an impaired condition resulting from the use of alcohol or illegal drugs, or consume alcohol or use illegal drugs while on duty (including driving a personal vehicle while on College business or driving a state vehicle). Alcohol and drug-abuse and the use of alcohol and drugs in the workplace are issues of concern to the State of Nevada. Any employee who appears to be in an impaired condition at work is subject to a screening test for alcohol or drugs, and disciplinary action up to and including termination of employment. Referral to an employee assistance program is also possible.

Any State employee convicted of driving under the influence in violation of NRS 484.379 or any other offense for which driving under the influence is an element of the offense, and the offense occurred while driving a State vehicle or a private vehicle while on TMCC business, is subject to discipline up to and including termination.

Any TMCC student who comes to campus in an impaired condition resulting from the use or consumption of alcohol, nonprescribed drugs or illegal drugs may be referred for discipline under the TMCC Student Conduct Code, especially if their impaired condition causes the student to act out in a particular manner.

For more information related to drug/alcohol abuse, please refer to the following: National Institute on Drug Abuse and National Institute on Alcohol Abuse and Alcoholism.

Grievance Procedures Relating to Equal Opportunity
TRUCKEE MEADOWS COMMUNITY COLLEGE PROCEDURE FOR IMPLEMENTING NEVADA SYSTEM OF HIGHER EDUCATION HANDBOOK TITLE 4, CHAPTER 8, SECTION 13

NSHE Handbook Title 4, Chapter 8, Section 13 (hereafter, “Section 13”) provides the policy prohibiting discrimination on the basis of age, disability, whether actual or perceived by others (including service-connected disabilities), gender (including pregnancy related condition), military status or military obligations, sexual orientation, gender identity or expression, genetic information, national origin, race, or religion. Discrimination includes, but is not limited to, harassment based upon any of these bases, and retaliation for reporting or participating in an investigation of discrimination. This procedure states how Section 13 will be implemented at Truckee Meadows Community College.

Discrimination complaints may be filed with the Primary Officer (who is the Human Resources Director) by a student, faculty, staff, or guest. The Primary Officer is designated as the Title IX Coordinator as well. The Primary Officer for receiving complaints, investigating and making recommendations regarding complaints of discrimination is:

Human Resources Director
Human Resources Office
7000 Dandini Blvd.
Sierra Library 200
Reno, Nevada 89512
Voice: 775-674-7654
FAX: 775-674-7560

If a complaint is received regarding the Primary Officer, the Human Resource Office shall deliver the complaint to the TMCC President noting that the complaint is regarding the Primary Officer and requesting that the President designate another person to investigate and make a recommendation regarding the complaint. If the President designates another person to investigate a complaint, that person shall perform the duties of the primary officer as stated in this procedure.

Any person in a supervisory, managerial, administrative or executive role or position at TMCC, such as a supervisor, department chair, or director of a unit, who receives a complaint of alleged discrimination or observes
or becomes aware of conduct that may constitute discrimination, the person must immediately forward the complaint or report the conduct to the Primary Officer.

The Primary Officer shall make an initial review of the complaint or conduct and make a determination whether the complaint or conduct alleges discrimination. If the complaint alleges discrimination, the Primary Officer shall note in writing the date the complaint was received by the Primary Officer and begin an investigation. Also, if the complaint alleges sexual violence, the Primary Officer shall notify the complainant that the complainant may report the conduct to the appropriate law enforcement office. If the Primary Officer has received a report of conduct which alleges discrimination, the Primary Officer shall summarize the information in writing, note in writing the date the information was received by the Primary Officer and begin an investigation. If the complaint does not allege discrimination, the Primary Officer shall meet with the person filing the complaint and notify the person that the complaint does not allege discrimination and that no investigation will be conducted. In addition, the Primary Officer shall notify the person by letter or email of this conclusion. The Primary Officer shall inform the person that the person may bring the information to the TMCC Human Resources Office or to the TMCC student conduct officer.

The Primary Officer shall notify the TMCC police, general counsel, and President if a complaint of sexual harassment is received which requires the person subject to the investigation to be placed on administrative leave and excluded from one or more of the TMCC properties. A person may be placed on administrative leave and excluded from the TMCC properties if necessary to reduce or eliminate any contact between the subject of the investigation and the person alleging sexual harassment, to protect life, limb or property, or to insure maintenance of order. The President may consult with the TMCC police and general counsel or other faculty and staff before placing a person on administrative leave and excluding the person from the TMCC properties.

The Primary Officer shall notify the TMCC police, general counsel, and President if a complaint of discrimination other than sexual harassment is received and the conduct alleged may be a threat to protect life, limb or property, or to the maintenance of order. The President may consult with the TMCC police and general counsel before placing a person on administrative leave and excluding the person from the TMCC properties.

The Primary Officer shall begin the investigation by interviewing the complainant. At that time, the Primary Officer shall notify the complainant of the right to have an advisor for assistance, support, and advice and shall postpone the initial interview upon the request of the person to identify an advisor. During that interview, the Primary Officer shall ask

1. for a response to all information provided by the complainant
2. for the names and contact information for all witnesses and documentary evidence including electronic mail and information maintained electronically
3. a response to the proposed resolution
4. any other relevant facts

The Primary Officer shall interview witnesses suggested by either party and gather all documentary evidence. The Primary Officer need not interview witnesses with only information tangential to the complaint or who will provide repetitive information. The Primary Officer may consult with the general counsel, the student conduct officer, and any other faculty or staff during the investigation.

The investigation must be completed within 45 days of the date the complaint was received by the Primary Officer unless the Primary Officer notifies the complainant and the subject of the complaint that extraordinary circumstances require additional time by email or in writing. Such notice must be given within 45 days of the complaint being received and state the date by which the investigation shall be complete.

Upon completion of the investigation, the Primary Officer shall submit a written report to the President. The report shall make findings based upon the preponderance of the evidence. Also, the Primary Officer shall include a recommendation regarding resolution of the matter. The recommendation is advisory only.

If a report of conduct which may be discrimination is received by the Primary Officer and no complaint is filed, the Primary Officer shall investigate all of the facts and circumstances regarding that report. The Primary Officer shall submit a written report to the President summarizing the facts and circumstances and making recommendations appropriate to the circumstances to the President.

If a report of conduct which may be discrimination is received by the Primary Officer and a complaint is filed, the President shall accept or reject the recommendation made by the President within 10 college working days of receipt of the written report. If disciplinary action is required to implement the course of action being pursued by the President, then the procedures of NSHE Code, Title 2, Chapter 6, or Chapter 10, or NRS and NAC Chapter 284 shall be initiated. Within 5 college working days of the President’s rejection or acceptance of the recommendation, the President shall notify the complainant and the person accused of discrimination of the outcome of the investigation. That notice shall be either in writing or by email to the last known mailing or email address of the person. In the case of harassment complaints, the notice to the complainant shall include any action which directly relates to the victim of harassment and his or her safety.

**NSHE Sexual Harassment Policy and Complaint Procedure**

*Board of Regents Handbook, Title 4, Chapter 8, Section 13. Revised Dec. 2015.*

**Section 13. Policy Against Discrimination and Sexual Harassment; Complaint Procedure**

**Introduction**

This policy is divided into four parts. Section A states the NSHE policy against discrimination. Section B states the NSHE policy against sexual harassment, training requirements, and sexual harassment definition.
and examples. Section C describes the remedies and interim measures that are available. Section D contains the complaint and investigation procedure for discrimination and sexual harassment complaints. These procedures are in addition to disciplinary complaints brought against professional employees or students under Title 2, Chapter 6, Chapter 8 or Chapter 10 of the NSHE Code (or if applicable, institution student codes of conduct), or against classified employees under the Nevada Administrative Code Chapter 284 or Desert Research Institute Technologists under the Technologists Manual. However, information gathered as part of the complaint process under this section may be used in connection with disciplinary proceedings.

**Title IX Notice of Non-Discrimination**

NSHE and its member institutions do not discriminate on the basis of sex in their education programs and activities; Title IX of the Education Amendments Act of 1972 is a federal law that states at 20 U.S.C. §1681(a):

"No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

The Chancellor and each president shall designate an administrator to serve as the Title IX coordinator, whose duties shall include overseeing all Title IX complaints and identifying and addressing any patterns or systemic problems that arise during the review of such complaints.

Inquiries concerning the application of Title IX may be referred to each member institution's Title IX coordinator or the Office for Civil Rights of the United States Department of Education. Each member institution shall include on its website and in its general catalog, its Title IX coordinator's name, office address, telephone number, and email address.

Although it is the application of Title IX to athletics that has gained the greatest public visibility, the law applies to every single aspect of education, including course offerings, counseling and counseling materials, financial assistance, student health and insurance benefits and/or other services, housing, marital and parental status of students, physical education and athletics, education programs and activities sponsored by the institution, and employment.

Member institutions shall notify all students and employees of the name or title and contact information of its Title IX coordinator.

**A. NSHE Non-Discrimination Policy**

The Nevada System of Higher Education (NSHE) is committed to providing a place of work and learning free of discrimination on the basis of a person's age, disability, whether actual or perceived by others (including service-connected disabilities), gender (including pregnancy related conditions), military status or military obligations, sexual orientation, gender identity or expression, genetic information, national origin, race, or religion. Where discrimination is found to have occurred, the NSHE will act to stop the discrimination, to prevent its recurrence, to remedy its effects, and to discipline those responsible.

No employee or student, either in the workplace or in the academic environment, should be subject to discrimination.

It is expected that students, faculty and staff will treat one another and campus visitors with respect.

All students, faculty, staff, and other members of the campus community are subject to this policy. Students, faculty, or staff who violate this policy are subject to discipline up to and including termination and/or expulsion, in accordance with the NSHE Code (or in the case of students, any applicable student code of conduct) or, in the case of classified employees, the Nevada Administrative Code or, in the case of Desert Research Institute (DRI) technologists, the Technologists Manual. Other lesser sanctions may be imposed, depending on the circumstances. Complaints may also be filed against visitors, consultants, independent contractors, service providers and outside vendors whose conduct violates this policy, with a possible sanction of limiting access to institution facilities and other measures to protect the campus community.

a. Non-discrimination Policy.

All employees shall be given a copy of this non-discrimination policy and each institution shall maintain documentation that each employee received the nondiscrimination policy. New employees shall be given a copy of this policy at the time of hire and each institution's Human Resources Office shall maintain documentation that each new employee received the policy.

Each institution shall provide this policy to its students at least annually and may do so electronically.

Each institution shall include this policy and complaint procedure on its website and in its general catalog.

Each institution shall have an ongoing nondiscrimination training program and shall designate a person or office to be responsible for such training.

b. Prevention of Sexual Harassment Training.

Within six months after an employee is initially appointed to NSHE, the employee shall receive training regarding the prevention of sexual harassment. At least once every two years after the appointment, an employee shall receive training concerning the prevention of sexual harassment.

It is illegal to discriminate in any aspect of employment or education, such as:

- hiring and firing;
- compensation, assignment, or classification of employees;
- transfer, promotion, layoff, or recall;
- job advertisements;
- recruitment;
- testing;
- grading;
B. Policy Against Sexual Harassment

1. Sexual Harassment is Illegal Under Federal and State Law.

The Nevada System of Higher Education (NSHE) is committed to providing a place of work and learning free of sexual harassment, including sexual violence. Where sexual harassment is found to have occurred, the NSHE will act to stop the harassment, to prevent its recurrence, to remedy its effects, and to discipline those responsible in accordance with the NSHE Code, in the case of students, any applicable student code of conduct, in the case of classified employees, the Nevada Administrative Code, or in the case of DRI technologists, the Technologists Manual. Sexual harassment, including sexual violence, is a form of discrimination; it is illegal.

No employee or student, either in the workplace or in the academic environment, should be subject to unwelcome verbal or physical conduct that is sexual in nature. Sexual harassment does not refer to occasional compliments of a socially acceptable nature. It refers to behavior of a sexual nature that is not welcome, that is personally offensive, and that interferes with performance. It is expected that students, faculty and staff will treat one another with respect.

2. Policy Applicability and Sanctions

All students, faculty, staff, and other members of the campus community are subject to this policy. Individuals who violate this policy are subject to discipline up to and including termination and/or expulsion, in accordance with the NSHE Code (or applicable Student Code of Conduct), in the case of classified employees, the Nevada Administrative Code, or in the case of DRI technologists, the Technologists Manual. Other, lesser sanctions may be imposed, depending on the circumstances.

3. Training, Employees and Students.

All employees shall be given a copy of this policy and each institution shall maintain documentation that each employee received the policy. New employees shall be given a copy of this policy at the time of hire and each institution’s Human Resources Office shall maintain a record that each new employee received the policy.

Each institution shall provide this policy to its students at least annually and may do so electronically.

Each institution shall include this policy and complaint procedure on its website and in its general catalog.

Each institution shall have an on-going sexual harassment prevention and awareness campaign and training program for employees and students.

See also Special Training with Regard to Sexual Violence, Section D(4)(c) below.

4. Sexual Harassment Defined.

Under this policy, unwelcome sexual advances, requests for sexual favors, and other visual, verbal or physical conduct of a sexual or gender bias nature constitute sexual harassment when:

a. Educational Environment:

   1. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s academic status (“quid pro quo”);

   2. Conduct that is sufficiently severe, persistent or pervasive so as to interfere with or limit a student’s ability to participate in or benefit from the services, activities or opportunities offered by the institution (“hostile environment”).

b. Workplace Environment:
Sexual violence is a severe form of sexual harassment, and refers to physical sexual acts or attempted sexual acts perpetrated against a person’s will or where a person is incapable of giving consent, including but not limited to rape, sexual assault, sexual battery, sexual coercion or similar acts in violation of state or federal law.

a. Sexual Harassment Examples. Sexual harassment may take many forms—subtle and indirect, or blatant and overt. For example,

   - It may occur between individuals of the opposite sex or of the same sex.
   - It may occur between students, between peers and/or co-workers, or between individuals in an unequal power relationship (such as by a supervisor with regard to a supervised employee or an instructor regarding a current student).
   - It may be aimed at coercing an individual to participate in an unwanted sexual relationship or it may have the effect of causing an individual to change behavior or work performance.
   - It may consist of repeated actions or may even arise from a single incident if sufficiently severe.
   - It may also rise to the level of a criminal offense, such as battery or sexual violence.
   - Sexual violence is a physical act perpetrated against a person’s will or where a person is incapable of giving consent due to the victim’s use of drugs or alcohol or other factors which demonstrate a lack of consent or inability to give consent. An individual also may be unable to give consent due to an intellectual or other disability. Sexual violence includes, but is not limited to, rape, sexual assault, sexual battery, and sexual coercion.

Examples of unwelcome conduct of a sexual or gender related nature that may constitute sexual harassment may, but do not necessarily, include, and are not limited to:

- Rape, sexual assault, sexual battery, sexual coercion or other sexual violence;
- Sexually explicit or gender related statements, comments, questions, jokes, innuendoes, anecdotes, or gestures;
- Other than customary handshakes, uninvited touching, patting, hugging, or purposeful brushing against a person’s body or other inappropriate touching of an individual’s body;
- Remarks of a sexual nature about a person’s clothing or body;
- Use of mail, text messages, social media, electronic or computer dissemination of sexually oriented, sex-based communications;
- Sexual advances, whether or not they involve physical touching;
- Requests for sexual favors in exchange for actual or promised job or educational benefits, such as favorable reviews, salary increases, promotions, increased benefits, continued employment, grades, favorable assignments, letters of recommendation;
- Displaying sexually suggestive objects, pictures, magazines, cartoons, screen savers or electronic files;
- Inquiries, remarks, or discussions about an individual’s sexual experiences or activities and other written or oral references to sexual conduct.

Even one incident, if it is sufficiently serious, may constitute sexual harassment. One incident, however, does not necessarily constitute sexual harassment.

b. Sexual Assault.

Sexual Assault means a person subjects another person to sexual penetration, or forces another person to make a sexual penetration on himself or herself or another, or on a beast, against the will of the victim or under conditions in which the perpetrator knows or should know that the victim is mentally or physically incapable of resisting or understanding the nature of his or her conduct.

c. Dating Violence.

Dating Violence is an act committed by a person who is or has been in a “dating relationship” with the reporting party:

1. The existence of such a relationship shall be determined based on the reporting party’s statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship. “Dating relationship” means frequent, intimate associations primarily characterized by the expectation of affection or sexual involvement. The term does not include a casual relationship or an ordinary association between persons in a business or social context; and

2. For the purpose of this definition:
Dating violence is committed by a person who is or has been in a social relationship of a romantic or intimate nature with the reporting party. Dating violence includes, but is not limited to, mental, sexual or physical abuse or the threat of such abuse. Dating violence does not include acts covered under the definition of domestic violence.

For the purpose of complying with the requirements of this Section and 34 CFR 668.41, any incident meeting this definition is considered a crime for the purpose of Clery Act reporting.

d. Domestic Violence.
\begin{itemize}
\item Domestic Violence is an act that includes but is not limited to violence that occurs when a person commits one of the following acts against or upon the person’s spouse or former spouse, any other person to whom the person is related by blood or marriage, any other person with whom the person is or was actually residing, any other person with whom the person has had or is having a dating relationship, any other person with whom the person has a child in common, the minor child of any of those persons, the person’s minor child or any other person who has been appointed the custodian or legal guardian for the person’s minor child:
\begin{enumerate}
\item A battery.
\item An assault.
\item Compelling the other person by force or threat of force to perform an act from which the other person has the right to refrain or to refrain from an act which the other person has the right to perform.
\item A sexual assault.
\item A knowing, purposeful or reckless course of conduct intended to harass the other person. Such conduct may include, but is not limited to:
\begin{itemize}
\item Stalking.
\item Arson.
\item Trespassing.
\item Larceny.
\item Destruction of private property.
\item Carrying a concealed weapon without a permit.
\item Injuring or killing an animal.
\end{itemize}
\item A false imprisonment.
\item Unlawful entry of the other person’s residence, or forcible entry against the other person’s will if there is a reasonably foreseeable risk of harm to the other person from the entry.
\end{enumerate}
\end{itemize}

e. Stalking.
Stalking is defined to be when a person who, without lawful authority, willfully or maliciously engages in a course of conduct that would cause a reasonable person to feel terrorized, frightened, intimidated, harassed or fearful for the immediate safety of a family or household member, and that actually causes the victim to feel terrorized, frightened, intimidated, harassed or fearful for the immediate safety of a family or household member. Stalking includes but is not limited to:

1. Engaging in a course of conduct directed at a specific person that would cause a reasonable person to:
\begin{itemize}
\item Fear for the person’s safety or the safety of others; or
\item Suffer substantial emotional distress.
\end{itemize}

2. For the purpose of this definition:
\begin{itemize}
\item Course of conduct means two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means follows, monitors, observes, surveils, threatens or communicates to or about, a person, or interferes with a person’s property.
\item Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.
\item Reasonable person means a reasonable person under similar circumstances and with similar identities to the victim.
\end{itemize}

e. Coercion.
Coercion is:
\begin{itemize}
\item the use of violence or threats of violence against a person or the person’s family or property;
\item depriving or hindering a person in the use of any tool, implement or clothing;
\item attempting to intimidate a person by threats or force, or
\item when committed with the intent to compel a person to do or abstain from doing an act that the person has the right to do or abstain from doing.
\end{itemize}

In the context of sexual misconduct, coercion is the use of pressure to compel another individual to initiate or continue sexual activity against an individual’s will. Coercion can include a wide range of behaviors, including intimidation, manipulation, threats, and blackmail. A person’s words or conduct are sufficient to constitute coercion if they impair another individual’s freedom of will and ability to choose whether or not to engage in sexual activity. Examples of coercion include threatening to “out” someone based on sexual orientation, gender identity, or gender expression and threatening to harm oneself if the other party does not engage in the sexual activity.

g. Consent.
Consent is defined as:
\begin{itemize}
\item An affirmative, clear, unambiguous, knowing, informed, and voluntary agreement between all participants to engage in sexual activity. Consent is active, not passive. Silence or lack of resistance cannot be interpreted as consent. Seeking and having consent accepted is the responsibility of the person(s) initiating each specific sexual act regardless of whether the person initiating the act is under the influence of drugs and/or alcohol.
\end{itemize}
C. Remedies and Interim Measures.

It may be necessary or advisable to take actions (as determined by the institution) designed to minimize the chance that the respondent will either continue to harass or retaliate against the complainant and to provide additional support to the complainant. Such actions (as determined by the institution) may also be necessary or advisable on behalf of a respondent. The measures themselves must not amount to retaliation against the complainant or the respondent. Depending on the specific nature of the problem, interim measures and final remedies may include, but are not limited to:

For Students:

• Issuing a no contact directive;
• Providing an effective escort to ensure safe movement between classes and activities;
• Not sharing classes or extracurricular activities;
• Moving to a different residence hall (complainants should only be moved upon their request);
• Providing written information regarding institution and community services including but not limited to medical, counseling and academic support services, such as tutoring;
• Providing extra time to complete or re-take a class or withdraw from a class without an academic or financial penalty;
• Restricting to online classes;
• Providing information regarding campus transportation options;
• Reviewing any disciplinary actions taken against the complainant to see if there is a connection between the sexual violence and the misconduct that may have resulted in the complainant being disciplined1 ; and
• Requiring the parties to report any violations of these restrictions.

For Employees:

• Provide an effective escort to ensure safe movement between work area and/or parking lots/other campus locations;
• Issuing a no contact directive;
• Placement on paid leave (not sick or annual leave);
• Placement on administrative leave;
• Transfer to a different area/department or shift in order to eliminate or reduce further business/social contact;
• Providing information regarding campus transportation options;
• Instructions to stop the conduct;
• Providing information regarding institution and community services including medical, counseling and Employee Assistance Program;
• Reassignment of duties;
• Changing the supervisory authority; and
• Directing the parties to report any violations of these restrictions.

Interim measures and final remedies may include restraining orders, or similar lawful orders issued by the institution, criminal, civil or tribal courts. Interim measures and final remedies will be confidential to the extent that such confidentiality will not impair the effectiveness of such measures or remedies.

Final remedies may also include review and revision of institution sexual misconduct policies, increased monitoring, supervision or security at locations where incidents have been reported; and increased and/or targeted education and prevention efforts.

Any interim measures or final remedies shall be monitored by the Title IX coordinator throughout the entire process to assess whether the interim measures or final remedies meet the goals of preventing ongoing harassment or discrimination, protecting the safety of the parties and preventing retaliatory conduct.

D. Complaint and investigation Procedure.

This section provides the complaint and investigation procedure for complaints of discrimination or sexual harassment, including sexual violence (except that complaints against students may be referred to student disciplinary processes)2 . The Chancellor (for the System Office) and each president shall designate no fewer than two administrators to receive complaints. The administrators designated to receive the complaints may include the following: (1) the Title IX coordinator; (2) the affirmative action officer; (3) the human resources officer; or (4) any other officer designated by the president. The president shall also designate a primary investigating officer (primary officer) to process all complaints. The primary officer may be any of the individuals identified in this paragraph. All complaints, whether received by the affirmative action officer, human resources officer or other designated officer, must immediately be forwarded to the primary officer. All Title IX complaints must be immediately forwarded to the Title IX coordinator.
An individual filing a complaint of alleged discrimination or sexual harassment shall have the opportunity to select an independent advisor for assistance, support, and advice and shall be notified of this opportunity by the primary officer, or the primary officer’s designee. It shall be the choice of the individual filing the complaint to utilize or not utilize the independent advisor. The independent advisor may be brought into the process at any time at the request of the complainant. The means and manner by which an independent advisor shall be made available shall be determined by each institution or unit.

An individual against whom a complaint of alleged discrimination or sexual harassment is filed shall have the opportunity to select an independent advisor for assistance, support, and advice and shall be notified of this opportunity by the primary officer, or by the primary officer’s designee. It shall be the choice of the individual against whom the complaint is filed to utilize or not utilize the independent advisor. The independent advisor may be brought into the process at any time at the request of the respondent. The means and manner by which an independent advisor shall be made available shall be determined by each institution or unit.

The individual filing a complaint of sexual harassment and the individual against whom a complaint is filed must be provided with a written explanation of their rights and options, including the available interim measures, and written notification of services available to victims on campus and in the community.

If anyone in a supervisory, managerial, administrative or executive role or position, such as a supervisor, department chair, or director of a unit, receives a complaint of alleged discrimination or sexual harassment, or observes or becomes aware of conduct that may constitute discrimination or sexual harassment, the person must immediately contact one of the individuals identified in this section above to forward the complaint, to discuss it and/or to report the action taken. Title IX complaints must be immediately provided to the Title IX coordinator.

Complaints of discrimination or sexual harassment should be filed as soon as possible with the supervisor, department chair, dean, or one of the administrators listed in this section above and/or designated by the president to receive complaints of alleged sexual harassment or discrimination.

1. Employees.
   a. An employee who believes that he or she has been subjected to discrimination or sexual harassment by anyone is encouraged—but it is neither necessary nor required, particularly if it may be confrontational—to promptly tell the person that the conduct is unwelcome and ask the person to stop the conduct. An employee is not required to do this before filing a complaint. A person who receives such a request must immediately comply with it and must not retaliate against the employee.

   b. The employee may file a discrimination or sexual harassment complaint with his or her immediate supervisor, who will in turn immediately contact one of the officials listed above in Section D or to any chair, dean, or director of an administrative unit who will in turn immediately contact one of the officials listed above in Section D to forward the complaint, to discuss it and/or to report the action taken. Title IX complaints must be immediately provided to the Title IX coordinator.

   c. If the employee feels uncomfortable about discussing the incident with the immediate supervisor, the employee should feel free to bypass the supervisor and file a complaint with one of the other listed officials or with any other supervisor.

   d. After receiving any employee’s complaint of an incident of alleged discrimination or sexual harassment, the supervisor will immediately contact any of the individuals listed in Section D above to forward the complaint, to discuss it and/or to report the action taken. The supervisor has a responsibility to act even if the individuals involved do not report the complaint to that supervisor.

2. Students.
   a. A student who believes that he or she has been subjected to discrimination or sexual harassment by anyone is encouraged—but it is neither necessary nor required particularly if it may be confrontational—to promptly tell the person that the conduct is unwelcome and ask the person to stop the conduct. A student is not required to do this before filing a complaint. A person who receives such a request must immediately comply with it and must not retaliate against the student.

   b. The student may file a complaint with his or her major department chair or director of an administrative unit, who will in turn immediately contact one of the officials listed in Section D above.

   c. If the student feels uncomfortable about discussing the incident with the department chair or director of an administrative unit, the student should feel free to bypass the person and file a complaint with one of the above officials in Section D or to any chair, dean, or director of an administrative unit who will in turn immediately contact one of the officials listed above in Section D to forward the complaint, to discuss it and/or to report the action taken. The chair, dean or director of an administrative unit has a responsibility to act even if the individuals involved do not report to that person.

3. Non-Employees and Non-Students.
   Individuals who are neither NSHE employees nor NSHE students and who believe they have been subjected to discrimination or sexual harassment by a NSHE employee during the employee’s work hours or by a NSHE student on campus or at a NSHE-sponsored event may utilize any of the complaint processes set forth above in this Section D.

4. Training, Investigation and Resolution.
   a. General Requirements. The Title IX coordinator, executives, administrators designated to receive complaints, primary officer or designee, and appropriate management with decision-making authority shall have training or experience in handling discrimination and sexual misconduct complaints, and in the operation of the NSHE and Nevada Administrative Code disciplinary procedures.

   b. Primary Prevention and Awareness Training. Institutions must offer new students and new employees primary prevention and awareness training that promotes awareness of rape, domestic violence, dating violence, sexual assault and stalking as defined in this policy. The training must address safe and positive
options for bystander intervention to prevent harm or intervene in risky situations and the recognition of abusive behavior and how to avoid potential attacks.

c. Special Training With Regard to Sexual Violence. The training for each of the individuals identified in paragraph 4.a above, should include annual training on how to investigate and conduct hearings in a manner that protects the safety of complainants and promotes accountability; information on working with and interviewing persons subjected to sexual violence; information on particular types of conduct that would constitute sexual violence, including stalking and same-sex sexual violence; the proper standard of review for sexual violence complaints (preponderance of the evidence); information on risk reduction; information on consent and the role drugs or alcohol can play in the ability to consent; the importance of accountability for individuals found to have committed sexual violence; the need for remedial actions for the respondent, complainant, and institution community; how to determine credibility; how to evaluate evidence and weigh it in an impartial manner; how to conduct investigations; confidentiality; the effects of trauma, including neurobiological change; and cultural awareness training regarding how sexual violence may impact students differently depending on their cultural backgrounds.

d. Investigation. After receiving a complaint of the incident or behavior, the primary officer, or designee, will initiate an investigation to gather information about the incident. If the primary officer is unable to initiate an investigation, due to a conflict or for any other reason, the president shall designate another individual to act as primary officer for the matter. Each institution may set guidelines for the manner in which an investigation shall be conducted. The guidelines shall provide for the prompt, thorough, impartial, and equitable investigation and resolution of complaints, and shall identify the appropriate management level with final decision-making authority. The guidelines shall, at a minimum, provide the person subject to the complaint with information as to the nature of the complaint, and shall further provide that the person filing the complaint and the person who is the subject of the complaint have equal rights to be interviewed, identify witnesses and provide documentation pertaining to the complaint. In most cases, an investigation should be completed within 45 calendar days of receipt of the complaint.

e. Standard of Review. The standard for evaluating complaints shall be a preponderance of the evidence (i.e., the evidence establishes that it is more likely than not that the prohibited conduct occurred). At the completion of the investigation, findings and a recommendation will be made to the appropriate management regarding the resolution of the matter. The recommendation is advisory only.

f. Management Determination. After the recommendation has been made, a determination will be made by appropriate management regarding the resolution of the matter. If warranted, disciplinary action up to and including involuntary termination or expulsion will be taken. Any such disciplinary action shall be taken, as applicable, in accordance with NSHE Code Chapter 6, Chapter 8 or Chapter 10 (or applicable Student Code of Conduct), or, in the case of classified employees, Nevada Administrative Code (NAC) Chapter 284, or in the case of DRI technologists, the Technologists Manual. Other appropriate actions will be taken to correct problems and remedy effects, if any, caused by the conduct, if appropriate. If proceedings are initiated under Title 2, Chapter 6, Chapter 8 or Chapter 10, the applicable Student Code of Conduct, the NAC Chapter 284, or Technologists Manual, the investigation conducted pursuant to this policy may be used as part of such investigations. The administrative officer, in his or her discretion, may also supplement the investigation with additional investigation. In any disciplinary hearings conducted pursuant to a Student Code of Conduct or under Title 2, Chapter 6, Chapter 8, Chapter 10, the NAC Chapter 284, or Technologists Manual, the standard of evidence shall be by a preponderance of the evidence, (i.e., the evidence establishes that it is more likely than not that the prohibited conduct occurred). In connection with any such disciplinary hearings, the person filing the complaint and the person who is the subject of the complaint have equal rights to be interviewed, identify witnesses, and provide and receive documentation and witness lists pertaining to the complaint, and if an appeal is provided, to appeal the decision.

g. Parties to be Informed. After the appropriate management has made a determination regarding the resolution of the matter, and depending on the circumstances, both parties may be informed concurrently of the resolution (see subparagraph i below).

h. Confidentiality of Actions Taken. In the event actions are taken against an individual under NSHE Code Title 2, Chapter 6, Chapter 8 or Chapter 10 (or applicable Student Code of Conduct) or NAC Chapter 284, or the Technologists Manual, such matters generally remain confidential under those sections, except that final decisions following hearings or appeals of professional employees and State of Nevada personnel hearings involving classified employees are public records. Student matters generally remain confidential under the Family Educational Rights and Privacy Act, 20 U.S.C. §1232g, 34 CFR Part 99 (FERPA).

i. Crime of Violence Exception to the Family Educational Rights and Privacy Act (FERPA). When discriminatory conduct or sexual harassment involves a crime of violence or a non-forcible sexual offense, FERPA permits the institution to disclose to the complainant the final results (limited to the name of the respondent, any violation found to have been committed, and any sanction imposed) of a disciplinary proceeding against the respondent, regardless of whether the institution concluded that a violation was committed. With respect to an institutional disciplinary proceeding alleging sexual violence, domestic violence, dating violence or stalking

j. Disclosure of Sanction Imposed. In the event a student is found to have engaged in sexual harassment of another student, the institution shall disclose to the student who was harassed, information about the sanction imposed on the student who was found to have engaged in harassment when the sanction directly relates to the harassed student.

k. Resignation of Employee or Withdrawal of Student. If a student respondent withdraws from the institution or an employee respondent ends employment (e.g., resigns, retires) while an investigation of a complaint involving gender discrimination or sexual harassment is pending under this policy, the Title IX coordinator shall take appropriate action, which may include completing the investigation to the extent reasonably practicable, in order to prevent the reoccurrence of and to remedy the effects of the alleged misconduct.

l. Title IX Coordinator Monitoring. The institution Title IX coordinator has primary responsibility for coordinating the institution’s efforts to comply with and carry out its responsibilities under Title IX. The Title IX coordinator is responsible for monitoring all aspects of the investigation and any disciplinary process to help ensure that:

1. the process is fair and equitable to both the complainant and the respondent;
2. the applicable policies and procedures of NSHE and of the institution are followed; and
3. the interim measures and final remedies are followed.

5. Prompt Attention. Complaints of discrimination or sexual harassment are taken seriously and will be dealt with promptly, thoroughly, impartially, and equitably. Where discrimination is found to have occurred, the NSHE institution or unit where it occurred will act to stop the discrimination or sexual harassment, to prevent its recurrence, to remedy its effects, if any, and to discipline those responsible. Rev. 268 (12/15) Title 4, Chapter 8, Page 23

6. Confidentiality. The NSHE recognizes that confidentiality is important. However, in some limited circumstances confidentiality cannot be guaranteed. The administrators, faculty or staff responsible for implementing this policy will respect the privacy of individuals reporting or accused of discrimination or sexual harassment to the extent reasonably possible and will maintain confidentiality to the extent possible. Examples of situations where confidentiality cannot be maintained include, but are not limited to, necessary disclosures during an investigation, circumstances where the NSHE is required by law to disclose information (such as in response to legal process), or when an individual is in harm’s way.

a. Confidentiality in Complaints Involving Sexual Violence. In complaints involving sexual violence the following applies:

1. Varying Confidentiality Obligations. Complainants who are victims of sexual violence are encouraged to talk to somebody about what happened in order for them to receive the support they need, and so the institution can respond appropriately. Different individuals at the institution have different abilities to maintain a complainant’s confidentiality:

• Some are required to maintain near complete confidentiality; talking to them is sometimes called a “privileged communication.”
• Other employees may talk to a complainant in confidence, and generally only report to the institution that an incident occurred without revealing any personally identifying information. Disclosures to these employees will not trigger investigation into an incident against the complainant’s wishes, except in certain circumstances discussed below.
• Complainants are encouraged to talk to one of the individuals identified in this Section 6.
• Some employees are required to report all the details of an incident (including the identities of both the complainant and all others involved) to the Title IX coordinator. A report to these employees (called “responsible employees”) constitutes a report to the institution – and generally obligates the institution to investigate the incident and take appropriate steps to address the situation.

This policy is intended to make employees, students and others aware of the various reporting and confidential disclosure options available to them so they can make informed choices about where to turn should they want to report an act of sexual violence. The institution encourages such complainants to talk to someone identified in one or more of these groups.

2. Privileged and Confidential Communications. A complainant or respondent may wish to consult with professional counselors, pastoral counselors or others. Certain professionals are not required to report incidents unless they have been granted permission:

• Professional Counselors. Professional, licensed counselors who provide
3. Complainant Options. A complainant who reports an act of sexual violence to a professional listed above in Section 6.a.2 must understand that, if they want to maintain confidentiality, the institution will be unable to conduct a full investigation into the incident and will likely be unable to pursue disciplinary action against the respondent.

A complainant who at first requests confidentiality may later decide to file a complaint with the institution or report the incident to local law enforcement, and thus have the incident fully investigated. A complainant shall be assisted in reporting the incident to local law enforcement if the complainant requests such assistance.

Other Reporting Obligations: While professional counselors may maintain a complainant’s confidentiality vis-à-vis the institution, they may have reporting or other obligations under state law. For example, there may be an obligation to report child abuse, an immediate threat of harm to self or others, or to report in the case of hospitalization for mental illness.

NSHE Employee Assistance Program providers would follow these guidelines, as would professionals in NSHE institution student counseling and psychological services areas, and professionals in community health clinics that reside on or are associated with NSHE institutions.

b. Reporting to “Responsible Employees”

1. “Responsible Employees” Defined and Duties. A “responsible employee” is an employee who has the duty to report incidents of sexual violence or other sexual misconduct, or who a complainant could reasonably believe has this authority or duty. When a complainant reports an incident of sexual violence to a responsible employee, the complainant has the right to expect the institution to take prompt and appropriate steps to investigate what happened and to resolve the matter promptly and equitably.

A responsible employee must report to the Title IX coordinator all relevant details about the alleged sexual violence shared by the complainant and that the institution will need to determine what happened—including the name(s) of the complainant, respondent(s) and any witnesses, and any other relevant facts, including the date, time and specific location of the alleged incident. To the extent possible, information reported to a responsible employee will be shared only with people responsible for handling the institution’s response to the report. A responsible employee should not share information with law enforcement without the complainant’s consent or unless the complainant has also reported the incident to law enforcement.

Institutions must identify in their policies those employees who are designated as “responsible employees” and may also designate those employees who are not considered “responsible employees.” Responsible employees may include but are not limited to the following employees (or categories of employees):

• Title IX coordinator
• Anyone in a supervisory, managerial, administrative or executive role or positions, such as a provost, vice provost, vice president, dean, department chair, director of a unit, resident director, resident assistant, supervisor, student advocate or faculty advisors to student clubs.

Before a complainant reveals any information to a responsible employee, the employee will inform the complainant of the employee’s reporting obligations. If the complainant wants to maintain confidentiality, the employee will direct the complainant to confidential resources.

If the complainant wants to tell the responsible employee what happened but also wants to maintain confidentiality, the employee will inform the complainant that the institution will consider the request, but cannot guarantee that the institution will honor it. In reporting the details of the incident to the Title IX coordinator, the responsible employee will also inform the coordinator of the complainant’s request for confidentiality. Responsible employees will not pressure a complainant regarding the extent of the report the complainant wants to make. Responsible employees will not pressure a complainant to request confidentiality, but will honor and support the complainant’s wishes, including for the institution to fully investigate an incident. By the same token, responsible employees will not pressure a complainant to make
a full report if the complainant is not ready to make such a report.

2. Requesting Confidentiality From the Institution: How the Institution Will Weigh the Request and Respond.

   a. Request for Confidentiality. If a complainant discloses an incident to a responsible employee but wishes to maintain confidentiality or requests that no investigation into a particular incident be conducted or disciplinary action taken, the institution will weigh that request against the institution's obligation to provide a safe, non-discriminatory environment for everyone, including the complainant. If the Institution honors the request for confidentiality, a complainant will be informed that the institution's ability to investigate the incident and pursue disciplinary action against the respondent may be limited.

   There are times when, in order to provide a safe, nondiscriminatory environment for all, the institution may not be able to honor a complainant's request for confidentiality. The institution shall designate an individual to evaluate requests for confidentiality made by a complainant.

   b. Factors to Be Considered. When weighing a complainant's request for confidentiality or a complainant's request that no investigation or discipline be pursued, the institution will consider a range of factors, including the following:

      i. The increased risk that the identified respondent will commit additional acts of sexual or other violence, such as:

         • whether there have been other sexual violence complaints about the same respondent;
         • whether the respondent has a history of arrests or other records indicating a history of violence;
         • whether the respondent threatened further sexual violence or other violence against the complainant or others;
         • whether the sexual violence was committed by multiple persons;
         • whether the circumstances of the incident indicate that the behavior was planned by the respondent or others;
         • whether the reported sexual violence was committed with a weapon;
         • whether the complainant is a minor;
         • whether the institution possesses other means to obtain relevant evidence of the reported sexual violence (e.g., security cameras or personnel, physical evidence);
         • whether the complainant's information reveals a pattern of behavior (e.g., illicit use of drugs, alcohol, coercion, intimidation) at a given location or by a particular group;
         • other factors determined by the institution that indicate the respondent may repeat the behavior or that others may be at risk.

   Based on one or more of these factors, the institution may decide to investigate and, if appropriate, pursue disciplinary action even though the complainant requested confidentiality or requested that no investigation or disciplinary action be undertaken. If none of these factors is present, the institution will work to respect the complainant's request for confidentiality.

   c. Actions After Decision to Disclose. If the institution decides that a complainant's confidentiality cannot be maintained, the institution will inform the complainant in writing or via email prior to starting an investigation and the institution will, to the extent possible, only share information with people responsible for handling the institution's response.

   The institution will inform the respondent that retaliation against the complainant is prohibited and will take ongoing steps to protect the complainant from retaliation or harm and work with the complainant to create a safety plan. Retaliation against the complainant, whether by the respondent, or employees, students or others, will not be tolerated. The institution will also:

   1. assist the complainant in accessing other available advocacy, academic support, counseling, disability, health or mental health services, and legal
assistance both on and off institution property;
2. provide other security and support, which could include issuing a no-contact order, helping arrange a change of living or working arrangements or course schedules (including for the respondent pending the outcome of an investigation) or adjustments for assignments or tests;
3. inform the complainant of the right to report a crime to the institution and/or local law enforcement and to have a criminal investigation proceed simultaneously; and
4. provide the complainant with assistance if the complainant wishes to report a crime.

The institution will not require a complainant or a respondent to participate in any investigation or disciplinary proceeding.

Because the institution is under a continuing obligation to address the issue of sexual violence institution-wide, reports of sexual violence (including non-identifying reports) will also prompt the institution to consider broader remedial action – such as increased monitoring, supervision or security at locations where the reported sexual violence occurred; increasing education and prevention efforts, including to targeted population groups; conducting climate assessments/complainant surveys; and/or revisiting its policies and practices.

Issuance of Timely Warning: If the institution determines that the respondent poses a serious and immediate threat to the institution community, police or security services may be called upon to issue a timely warning to the community. Any such warning will not include any information that identifies the complainant.

If the institution determines that it can follow a complainant’s request for confidentiality, the institution will also take immediate action as necessary to protect and assist the complainant.

d. Reports to Other NSHE Institutions. If a responsible employee receives a complaint about sexual misconduct that has occurred at another NSHE institution, the responsible employee shall report the information to his or her Title IX coordinator, who shall provide the information to the Title IX coordinator at the other NSHE institution.

e. Public Awareness Events–Not Notice to the Institution. Public awareness events such as “Take Back the Night,” the Clothesline Project, candlelight vigils, protests, “survivor speak outs” or other forums in which complainants disclose incidents of sexual violence, are not considered notice to the institution of sexual violence for purposes of triggering the institution’s obligation to investigate any particular incident(s). Such events may, however, inform the need for institution-wide education and prevention efforts, and the Institution will provide information about complainants’ Title IX rights at these events.

f. Off-Institution Counselors and Advocates. Off-institution counselors, advocates, and health care providers will also generally maintain confidentiality and will not share information with the institution unless the complainant requests the disclosure and signs a consent or waiver form.

7. Retaliation.
Retaliation against an individual who in good faith complains of alleged discrimination or sexual harassment or provides information in an investigation about behavior that may violate this policy is against the law, will not be tolerated, and may be grounds for discipline. Retaliation in violation of this policy may result in discipline up to and including termination and/or expulsion. Any employee or student bringing a discrimination or sexual harassment complaint or assisting in the investigation of such a complaint will not be adversely affected in terms and conditions of employment and/or academic standing, nor discriminated against, terminated, or expelled because of the complaint. Intentionally providing false information is also grounds for discipline.

“Retaliation” may include, but is not limited to, such conduct as:

• the denial of adequate personnel to perform duties;
• frequent replacement of members of the staff;
• frequent and undesirable changes in the location of an office;
• the refusal to assign meaningful work;
• unwarranted disciplinary action;
• unfair work performance evaluations;
• a reduction in pay; • the denial of a promotion;
• a dismissal;
• a transfer;
• frequent changes in working hours or workdays;
• an unfair grade;
• an unfavorable reference letter.

a. Employees

1. An employee who believes that he or she has been subjected to retaliation may file a retaliation
complaint with his or her immediate supervisor, who will in turn immediately contact the Title IX coordinator or any other responsible employee designated by the institution.

2. If the employee feels uncomfortable about discussing the alleged retaliation with the immediate supervisor, the employee should feel free to bypass the supervisor and file a complaint with the Title IX coordinator, any responsible employee designated by the institution or with any other supervisor.

3. After receiving any employee’s complaint of an incident of alleged retaliation, the supervisor will immediately contact the Title IX coordinator or a responsible employee designated by the institution to forward the complaint, to discuss it and/or to report the action taken. The supervisor has a responsibility to act even if the individuals involved do not report to that supervisor.

b. Students

1. A student who believes that he or she has been subjected to retaliation may file a retaliation complaint with his or her major department chair or director of an administrative unit, who will in turn immediately contact the Title IX coordinator or any responsible employee designated by the institution.

2. If the student feels uncomfortable about discussing the alleged retaliation with the department chair or director of an administrative unit, the student should feel free to bypass the person and file a complaint with the Title IX coordinator, a responsible employee designated by the institution, or to any chair, dean, or director of an administrative unit who will in turn immediately contact one of the those officials to forward the complaint, to discuss it and/or to report the action taken. The chair, dean or director of an administrative unit has a responsibility to act even if the individuals involved do not report to that person.

c. Complaints of retaliation under Title IX must be immediately provided to the Title IX coordinator.

8. False Reports.

Because discrimination and sexual harassment frequently involve interactions between persons that are not witnessed by others, reports of discrimination or sexual harassment cannot always be substantiated by additional evidence. Lack of corroborating evidence or “proof” should not discourage individuals from reporting discrimination or sexual harassment under this policy. However, individuals who make reports that are later found to have been intentionally false or made maliciously without regard for truth, may be subject to disciplinary action under the applicable institution and Board of Regents disciplinary procedures. This provision does not apply to reports made in good faith, even if the facts alleged in the report cannot be substantiated by subsequent investigation.

Every supervisor of employees has responsibility to take reasonable steps intended to prevent acts of discrimination or sexual harassment, which include, but are not limited to:

a. Monitoring the work and school environment for signs that discrimination or harassment may be occurring;
b. Refraining from participation in, or encouragement of actions that could be perceived as discrimination or harassment (verbal or otherwise);
c. Stopping any observed acts that may be considered discrimination or harassment, and taking appropriate steps to intervene, whether or not the involved individuals are within his/her line of supervision; and
d. Taking immediate action to minimize or eliminate the work and/or school contact between the two individuals where there has been a complaint of sexual harassment, pending investigation.

If a supervisor receives a complaint of alleged discrimination or sexual harassment, or observes or becomes aware of conduct that may constitute discrimination or sexual harassment, the supervisor must immediately contact the Title IX coordinator or a responsible employee designated by the institution to forward the complaint, to discuss it and/or to report the action taken. Failure to take action to prevent the occurrence of or stop known discrimination or harassment may be grounds for disciplinary action.

10. Relationship to Freedom of Expression.

The NSHE is committed to the principles of free inquiry and free expression. Vigorous discussion and debate are fundamental rights and this policy is not intended to stifle teaching methods or freedom of expression. Discrimination or sexual harassment, however, is neither legally protected expression nor the proper exercise of academic freedom; it compromises the integrity of institutions, the tradition of intellectual freedom and the trust placed in the institutions by their members.

Title IX Coordinator

The Director of Human Resources Office serves as the Title IX and 504 Coordinator for TMCC. Any faculty, staff, student, or guest who believes they have experienced or witnessed sexual harassment or discrimination at TMCC should report to our office (http://titleix.tmcc.edu) immediately.

1 For example, if the complainant was disciplined for skipping a class in which the respondent was enrolled, the institution should review the incident to determine if the complainant skipped class to avoid contact with the respondent.

2 Note: Sexual misconduct that also constitutes a criminal offense may be prosecuted independently and simultaneously by law enforcement agencies.

3 Note: Campus Security Authorities, who are designated by the institutions in accordance with Clery Act requirements, have an independent responsibility to report sexual and other crimes (which may be reported anonymously) to campus police.
Policy for Implementation and Awarding of the Continuing Education Unit

A. Authorization
As part of the Business Division, TMCC's Workforce Development & Community Education (WDCE) is authorized to develop and implement policies and procedures for non-credit activities utilizing the Continuing Education Unit as the standard unit of measurement of individual participation.

B. Definition of Continuing Education Unit
1. The Continuing Education Unit (CEU) is a unit that certifies participation in non-credit continuing education courses and programs. The primary purpose of the CEU is to provide a permanent record of educational accomplishments of an individual who has completed one or more significant educational experiences.
2. TMCC follows the International Association of Continuing Education and Training (IACET) guidelines for the recording of Continuing Education Units (CEUs). One CEU is 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction.

C. Course and Program Qualifications
Non-credit courses and programs for which individuals may be awarded Continuing Education Units shall satisfy the following criteria:
1. The course or program shall be planned to meet the educational needs of a specific target population of individuals.
2. The following elements shall be determined during the planning stages and prior to the time the program is approved for implementation:
   a. purposes and objectives;
   b. student performance requirements;
   c. evaluation procedures suitable for measuring the effectiveness of design and operation;
   d. the number of contact hours to be recommended for satisfactory completion of performance requirements.
3. The course or program shall be of an instructional nature approved by Workforce Development & Community Education which will determine the quality of course or program content and resource personnel.
4. WDCE shall provide for student registration which will include the gathering of sufficient information from the student to ensure a permanent record of individual participation.

D. Course and Program Review and Approval Procedure
1. Course and program review and approval shall be the responsibility of Workforce Development & Community Education.
2. Upon receiving the request for course or program approval form including appropriate supporting documents, the dean of the Business Division, or his/her designate, will review the proposed course or program to determine compliance with CEU policy.
3. Courses and programs must be submitted for review and approval no later than two weeks prior to the start date. A decision to award the CEUs cannot be made after the program has been offered.

E. Administration
1. Only one TMCC unit/department will be responsible for the administration of the continuing education unit process. The administrative responsibility for awarding CEUs shall rest with Workforce Development & Community Education.
2. Workforce Development & Community Education shall maintain records of all CEUs awarded for no less than seven years, along with a complete listing of all approved CEU courses and programs. The form and content of these records should be consistent with nationally recognized standards for the maintenance of Continuing Education Unit records for students and programs. Procedures for recording CEUs shall be established by Workforce Development & Community Education. Transcripts will be made available upon request to individuals who have been awarded CEUs by TMCC.

F. Calculating CEUs
1. In computing the number of Continuing Education Units to be awarded, only the number of completed instructional hours, or the equivalent, shall be considered. CEU credit may be awarded in a class by using the following criteria as a guideline: 75% attendance along with demonstrated competency by testing and/or demonstrated competency by practicum. If attendance by itself is sole criterion, then the student must attend 90% of the class. When appropriate, a decimal fractional part of a Continuing Education Unit may be awarded but not less than 0.1 CEU per program. Instructional hours do not include time involved in coffee or refreshment breaks, meals, or social activities.
   a. Activities for which CEUs may not be awarded are:
      I. Credit programs carrying academic credit, either secondary or collegiate.
      II. Orientation programs that deal with such internal topics.
      III. Committee meetings or other business activities.
      IV. Policy assignments, conferences, delegate assemblies, or similar meetings for policy-making purposes.
      V. Attendance at entertainment or recreational lecture series, cultural performances, and social activities.
      VI. Work experience, on-the-job training or apprenticeships do not qualify for the award of CEUs, unless structured as part of a planned educational experience that fulfills these program criteria.
      VII. Study, assigned readings, reports, written assignments, and other related activities outside of the class or meeting schedule.

G. Awarding of CEUs
1. A completed Continuing Education Unit Approval Form must be submitted to Workforce Development & Community Education two weeks before the course or program begins.
2. Within ten days after the course or program completion, a typed alphabetical registration list giving activity title, location, date of activity, name of program director, and number of CEUs awarded as the heading must be submitted. The list should include every participant’s name. This list must be signed by the qualified person certifying that attendees met the minimum requirements for satisfactorily completing the program.
3. Course or program evaluation forms must be submitted with registration list.
4. All material must be submitted to WDCE before CEUs can be awarded. Materials must be submitted within 10 business days of the non-credit course/program’s conclusion.

H. CEU Fees
1. All fees for Continuing Education Units (CEUs) shall be determined by WDCE.
2. Fees for CEUs shall include all administrative costs.

Summary of Required Documents and Payment for Awarding CEUs
Before the program:

At least two weeks before the course or program begins, these documents should be submitted to WDCE:

• Completed request for course or program approval form
• Program outline or agenda, with schedule
• A copy of program brochure or flyer
• Instructor’s vita or description
• Sample evaluation form to be used in the program

During the program, these items need to be completed:

• Participant sign-in (sheet format available at WDCE)
• Evaluation of the course (form developed by the entity offering course or program)
• CEU Registration Form
• CEU payments, to be made by the entity or participants requesting CEUs

After the program:

No later than 10 business days after the course or program’s conclusion, the following should be submitted to WDCE:

• Alphabetical list of participants receiving CEUs. The course or program title, location, date of activity, name of instructor or responsible person, and number of CEUs awarded should be on the heading of the sheet. This list must be signed by the qualified person certifying that attendees met the minimum requirements for satisfactorily completing the program.
• Program evaluations.
• CEU payments, if not paid during the program.

Policy on Unsupervised Children
TMCC discourages students, staff and visitors from leaving children unsupervised in the building or campus grounds. TMCC employees and police personnel will try to locate parents or other adults responsible for the children and ask that children not be left unsupervised.

Continued lack of supervision of children can result in TMCC staff and police personnel contacting Washoe County Child Protective Services. Responsible adults may face charges of abandonment and/or neglect of younger children.

Parents or adults responsible for children are encouraged to find appropriate care for their children during the period they are attending classes at TMCC.

Children are not allowed to sit in on TMCC classes. Any exception to this policy must be approved by the instructor.

Parents seeking drop-in child care services can call the Child Care Resource and Referral Services at 775-856-6200 or 1-800-753-5500 for a list of child care facilities.

Progression Standards for F-1 International Students on TMCC’s I-20

In order to maintain full-time student status, International students with F-1 visas on TMCC’s I-20 must meet the following grade point average, attendance and credit completion requirements.

1. SATISFACTORY PROGRESS REPORT:
The student must enroll in and maintain a minimum of 12 unit hours per academic semester. In certain circumstances enrollment in fewer than 12 units may be approved by the foreign student’s advisor.
If a student fails to maintain the 12 units, he/she may need to be reinstated to F-1 status by U.S.C.I.S.

The student must maintain a grade point average (GPA) of 2.0 and make satisfactory academic progress to remain in good standing.

2. ACADEMIC STANDARDS:
For purposes of meeting academic performance as outlined in this policy, letter grades are interpreted as the following definitions and categories:
   a. A course will be considered complete if a grade of “A,” “B,” “C,” “D,” “F,” “S,” “U,” or “P” is awarded.
   b. A course will not be considered complete if a grade of “W,” “I,” “IP,” “AD,” “NR,” or “X” is awarded.

3. ATTENDANCE:
Students are expected to attend all classes for which they have registered. Progress reports are required each semester to verify attendance and progress in each course.

Progression Standards for Students Receiving Veterans Education Benefits

Students using VA education benefits at Truckee Meadows Community College must maintain satisfactory academic progress toward a degree or certificate to remain in good standing. Students who meet the satisfactory academic progress requirements are considered to be in “good standing” status.

Veteran students who feel, because of extenuating circumstances, they have not been able to meet their progression standards, may submit an appeal to the Financial Aid Academic Progress Appeals Committee. Satisfactory progress is defined as follows.

1. Grade Point Average — As the “W” grade has no impact in determining the grade point average, it is interpreted as no credit, as if the class were never taken. An adjusted enrollment certification will be submitted to the Veterans Administration for any veteran student who receives a “W” grade. This may result in the veteran student having to pay back a portion of their veterans education benefits received for that semester.
2. Credit Completion — Veteran students must carefully review their courses and degree program to assure that
   a. no more than the number of credits required for the degree have been earned; and
   b. all such credits are directly applicable to the degree objective.

To ensure that all courses are applicable, students using VA education benefits must report all previous education and training to the College. It is the student’s responsibility to order transcripts from institutions previously attended. After two semesters of enrollment, the Department of Veterans Affairs will be notified if the student has failed to order transcripts. This may result in a delay or cessation of veterans education benefits. This includes any credits awarded before the student began using veterans education benefits. Veterans may be denied education benefits or asked to reimburse education benefits received for credit earned in excess of their degree requirements.

Students with questions regarding withdrawal from courses are encouraged to visit the Financial Aid Office to contact the TMCC VA Certifying Official.

3. Attendance — Students are expected to attend all classes for which they have registered.

**Regulations Concerning Off-Campus Organizations**

Organizations that are not affiliated with TMCC must request approval to conduct activities or events on the campus.

1. Procedures for presentation of programs or activities
   The presentation of programs or activities that are open to the entire college population including the student body and the staff require that the sponsor adhere to the following procedures.
   a. The sponsor must submit a request to the Scheduling Office outlining appropriate details regarding the planned programs.
   b. The program must be presented for review by the College president if the nature of the program, event or activity is not covered by TMCC and Nevada System of Higher Education (NSHE) policy and/or if the vice president of academic affairs feels it is an important issue for the president and the president’s cabinet to be aware of the proposed activity.
   c. TMCC charges rental and/or activity fees to off-campus organizations. These rates are applied according to campus rental and activity fee schedules. Under certain circumstances, requests for waivers will be considered by the President’s Cabinet.

2. Reservation of facilities for meetings or other purposes
   a. The sponsor of an approved program must reserve the desired facility in accordance with campus policy and availability based on facility space. Determination of the availability of the facility and reservation confirmation shall be made by the Scheduling Office.
   b. Facilities are normally available during the regular operational hours of the College. However, facility use on days and hours when the College is not offering instructional programs is possible. The Scheduling Office will forward these requests to the President’s office for approval. The College can require the organization to pay an additional fee for special supervision and security in these instances.

3. The College regulations governing the distribution of printed and manufactured materials is designed to permit maximum freedom of expression and to prevent attempts to coerce or intimidate students into buying or receiving printed materials.
   a. Organizations desiring to distribute printed and manufactured material on campus must identify the organization and request approval from the Director of Retention and Support Services.
   b. Distribution of any non-college related material in classrooms is expressly prohibited.
   c. Advertising material may not be distributed at TMCC without approval and inclusion of the following disclaimer: *Note: The contents of this document do not reflect the opinions or endorsement by Truckee Meadows Community College; not printed or distributed at TMCC expense; delivery beyond drop-box level is optional.*
   d. Materials may be distributed only in the designated areas, the atrium or at scheduled meetings.
   e. Tables may be set up in authorized areas. Requests must be submitted to the Scheduling Office. Tables may not be scheduled for periods longer than one week at a time. These tables and the distribution of materials must not obstruct or delay traffic. Organizations distributing materials will be asked to keep noise at a level that does not interfere with or interrupt classroom instruction.
   f. Tables must be staffed at all times and a placard identifying the organization must be displayed. Vendors may not wander from the reserved space and/or actively solicit customers.
   g. Written material of any kind is not to be distributed in parking areas. Such distribution of materials on the windshields of cars or any locations that results in littering may be considered by the College as a violation of the littering law and the distributor and/or company or organization responsible for the distribution may be subject to a fine as determined by campus policy.
   h. The collection of signatures for petitions or request for completion of surveys is subject to the same regulations as those which govern distribution of materials. Such matters should be submitted to the Director of Retention and Support Services.
   i. Anyone wishing to distribute materials on campus must contact the Scheduling Office to reserve space. All materials must be presented for approval at the time of reservations. Rates will be assessed according to the current fee structure.
   j. Prior to scheduling, the organization requesting the activity must submit proof of liability insurance for the minimum amount of $1,000,000 to the Scheduling Office.
   k. Request for space and distribution of material(s)/form(s) must be made at least ten working days prior to the planned event.

4. Fund raising on campus
   College facilities may not be used for the purpose of raising monies to aid projects not related to some authorized activity of the College or College group(s) without the permission of the President. No efforts at conversion and solicitation by uninvited non-campus groups or individuals will be permitted on campus.
5. Posting of materials
Permission may be granted to post materials on a space-available basis to educational institutions or public service agencies to announce activities and events.

a. All materials to be posted must be stamped for approval at the Dandini Campus RDMT 315. For posting at Meadowood see the information desk.

b. All materials must clearly designate the sponsoring organization.

c. Material may be authorized for posting only on bulletin boards located outside classrooms. Any material posted in unauthorized locations or without stamped approval is subject to removal.

d. Material may be posted on designated bulletin boards only.

The presentation of programs or activities includes:

1. Meetings intended solely for members of the recognized student organization require no approval.
2. The presentation of programs or activities open to the entire student body or the public requires that the sponsor adhere to the following procedures:
   a. Meetings required for the College-sponsored event must be approved by the College in advance of the event.
   b. Any event that meets any of the following criteria requires additional approval by President’s Cabinet before beginning any activities:
      i. Any TMCC-sponsored event that is scheduled off campus or which the use of SIER 108, VSTA 206, OR the Student Center is being requested (exception – table or for which the use of SIER 108, VSTA 206, OR the Student Center is being requested (exception – table for distribution of material authorized by the Director of Retention and Support Programs);
      ii. Any event which sales are involved;
      iii. Any event that brings a dignitary, high-profile person or major or controversial speaker on campus;
      iv. Charity Drives

   Standard college meetings for faculty and staff are exempt from this approval process.

3. All student organizations are subject to the regulations of and derive their authority from the Board of Regents, Nevada System of Higher Education and the rules and regulations of TMCC.

A. Definition: A recognized student organization is defined as a group which adheres to the following policies:

a. Operates under the advisorship of a member of the College full-time or part-time faculty or staff member.

b. Maintains in the student government office, a club packet which has been approved by the student senate; a current list of officers; and signature of the faculty or staff advisor.

c. Schedules and holds a minimum of one meeting per month during the academic year, and one event per semester.

d. Agrees to utilize student fee monies received from the SGA within the current fiscal year for the direct benefit of the students from whom they are collected.

e. Submits an expenditure report at the end of each semester including how student fee monies received from the SGA were spent.

f. Other reports as requested by the SGA.

B. Privileges: The privileges of recognized student organizations include:

a. Use of the name of the Student Government Association of TMCC;

b. Ability to request funds from the SGA;

c. Use of the campus building, equipment and services of the College when available and officially scheduled; and

d. Publicity for events, use of bulletin boards on campus and the campus newspaper, ECHO.

C. Procedures for presentation of programs or activities

a. Meetings intended solely for members of the recognized student organization require no approval.

b. The presentation of programs or activities open to the entire student body or the public requires that the sponsor adhere to the following procedures:
   a. The sponsor must submit an event request to the Student Life and Development office outlining appropriate details including the nature of the program, date and time, anticipated attendance, services needed (e.g., custodial, security, etc.), equipment required, proposed facility to be utilized, and all details regarding admission charges or other funds to be collected in conjunction with the program.
   b. Upon review of this data, the Student Event Management Committee will meet with the sponsor to discuss approval/disapproval.
   c. An event that meets any of the following criteria requires additional approval by President’s Cabinet before beginning any activities:
      i. Any event for which the audience is expected to be 50 persons or more;
      ii. Any TMCC-sponsored event that is scheduled off campus or which the use of SIER 108, VSTA 206, OR the Student Center is being requested (exception – table for distribution of material authorized by the Director of Retention and Support Programs);
      iii. Any event for which sales are involved;
      iv. Any event that brings a dignitary, high-profile person or major or controversial speaker on campus;
      v. Charity Drives

   Standard college meetings for faculty and staff are exempt from this approval process.

D. Reservation of facilities for meetings or other purposes

a. The sponsor of an approved program must reserve the desired facility in accordance with campus policy and based on facility space. Determination of the availability of the facility shall be made by the scheduling office.

b. Facilities are normally available during the regular operational hours of the College. However, facility use on days and hours when the College is not offering instructional programs is possible. The Scheduling Office will forward these requests to the President’s office for approval. The College can require the organization to pay an additional fee for special supervision and security in these instances.
c. Programs must be implemented in such a manner so as not to constitute interference with the instructional programs or general college operations. Only at times when classes are not in session may sound amplifying equipment be used.

d. Financial Institutions requesting to come on campus to deliver workshops or table space must submit an online request to the NSHE Specialist II for Default Prevention and Financial Literacy at least 10 business days prior to the date of their event.

E. Distribution of materials: The College regulations governing the distribution of printed and manufactured materials are designed to permit maximum freedom of expression and to prevent attempts to coerce or intimidate students into buying or receiving printed materials.

a. Organizations desiring to distribute such material on campus must identify the organization and request approval from the Director of Retention and Support Services or designee.

b. Distribution of any material in classrooms is expressly prohibited.

c. Commercial material may not be distributed at TMCC unless it includes the following disclaimer:

   "Note: The contents of this document do not reflect the opinions or endorsement by TMCC; not printed or distributed at TMCC expense; delivery beyond drop-box level is optional."

d. Materials may be distributed at designated areas, the atrium or at scheduled meetings.

e. Tables may not be scheduled for periods longer than one week at a time.

f. Tables must be staffed at all times with a placard identifying the organization displayed.

g. The distribution of materials is to be coordinated with the scheduling office. An information copy of any material to be distributed must bear the name of the sponsor. Distribution of any material on campus is subject to the approval of the Director of Retention and Support Programs.

h. Written material of any kind is not to be distributed in parking areas. Such distribution of materials on the windshields of cars or other locations that results in littering may be considered by the College as a violation of the littering law and the distributor and/ or company or organization responsible may be subject to a fine.

i. The collection of signatures for petitions or request for completion of surveys is subject to the same regulations as those which govern distribution of materials. Such matters should be submitted to the Director of Student Life and Development.

F. Fundraising on campus

a. The procedure for solicitation should follow that outlined in "procedures for presentations of programs or activities" (Section C).

b. The solicitations of funds in classrooms is expressly prohibited.

c. All funds collected for an activity on campus (including membership dues) must be deposited to the credit of the organization involved with the College cashier within 24 hours of collection. Funds may be withdrawn through the normal fund expenditure procedures outlined by the College Cashier’s Office.

d. Tables for fund raising purposes may be placed only in designated areas.

G. Posting of materials

a. All materials to be posted by student organizations must be approved by the Public Information Office, RDMT 201 and stamped at the Dandini Campus, RDMT 315.

b. All materials must clearly designate the sponsoring organization, contact name, and contact phone number or email address.

c. Material may be authorized for posting only on bulletin boards located outside classrooms unless designated for department use only. Any material posted in unauthorized locations, or without being stamped, is subject to removal.

d. Material may not be posted on doors, painted surfaces, classrooms, or outside of buildings. Bulletin boards outside classrooms are available for the posting of material on a space available basis. Sponsors are responsible for the removal of their material after the expiration date or once the material becomes obsolete. Any obsolete material may be removed by any member of the College staff.

e. The number and size of posters any one organization may post is subject to limitation.

H. Alcoholic beverages: If a group or organization desires to serve alcohol for a special event on or off campus they must submit a written request to the president of the College. The College president has the authority to designate the time and place for special events where alcoholic beverages may be served. If serving of alcohol is approved, the sponsor must provide approved security to check identification of any student attending the function to ensure compliance with Nevada State Law and the legal and appropriate use of alcohol.

---

**Regulations for Determining Residency and Tuition Charges**

*Board of Regents Handbook, Title 4, Chapter 15, Section 1*

These regulations have been enacted to provide uniform rules throughout the Nevada System of Higher Education (the “System”) and all member institutions thereof, for the purpose of determining whether students shall be classified as resident students or nonresident students for tuition charges.

**Definitions**

*Board of Regents Handbook, Title 4, Chapter 165 Section 2*

For the purposes of these regulations, the terms stated below shall have the following meanings.

1. “Alien” means a person who is not a citizen of the United States of America.

2. “Armed Forces of the United States” means the Army, the Navy, the Air Force, the Marine Corps and the Coast Guard on active duty and does not include the National Guard or other reserve force, with the exception of active members of the Nevada National Guard.

3. “Clear and convincing evidence” means evidence that is clear in the sense that it is not ambiguous, equivocal or contradictory and convincing in the sense that it is of such credible, reliable, authentic and relevant nature as to evoke confidence in the truth of it.

4. “Continuously enrolled” means enrollment within a normal academic year for which continuous enrollment is claimed. A person need not attend summer sessions or other between-semester sessions in order to be continuously enrolled.

5. “Date of matriculation” means the first day of instruction in the semester or term in which enrollment of student first occurs, except that at the University of Nevada School of Medicine it means the date that a notice of admittance is sent to a student, and at the
community colleges it excludes correspondence courses and community service courses that are not state funded. A person who enrolled in an institution of the Nevada System of Higher Education but withdrew enrollment during the 100% refund period, may for the purposes of these regulations, be deemed not to have matriculated and any determination concerning residency status shall be voided until such time as the person again enrolls at a System institution.

6. “Dependent” means a person who is not financially independent and is claimed as an exemption for federal income tax purposes under Section 152 of the Internal Revenue Code (26 U.S.C. § 152) by another person for the most recent tax year.

7. “Family” means the natural or legally adoptive parent or parents of a dependent person, or if one parent has legal custody of a dependent person, that parent.

8. “Financially independent” means a person who has not been and will not be claimed as an exemption, for federal income tax purposes under Section 152 of the Internal Revenue Code (26 U.S.C. § 152) by another person, except his or her spouse, for the most recent tax year.

9. “Most recent tax year” means the income tax return submitted for the prior income year.

10. “Legal guardian” means a court appointed guardian of a dependent person, who was appointed guardian at least 12 months immediately prior to the dependent person’s date of matriculation and for purposes other than establishing the dependent person’s residence.

11. “Nonresident” means a person who is not a resident.

12. “Objective evidence” means evidence that is verifiable by means other than a person’s own statements.

13. “Relocated” means evidence of permanent, full-time employment or establishment of a business in Nevada prior to the date of matriculation.

14. “Residence” is a term which for the purposes of these regulations is synonymous with the legal term “domicile,” and means that location in which a person is considered to have the most settled and permanent connection, intends to remain and intends to return after any temporary absences. Residence results from the union of a person’s physical presence in the location with objective evidence of an intent to remain at that location for other than a temporary purpose.

15. “Resident” means a person who has established a bona fide residence in the State of Nevada with the intent of making Nevada the person’s true, fixed and permanent home and place of habitation, having clearly abandoned any former residence and having no intention to make any other location outside of Nevada the person’s home and habitation. The term also includes a member of the Armed Forces of the United States who has previously established a bona fide residence in the State of Nevada, but who has been transferred to a military posting outside of Nevada while continuing to maintain a bona fide residence in Nevada. When residence for a particular period is required under these regulations, this shall mean that the person claiming residence for the period must be physically present and residing in Nevada during all of the period required, excluding temporary, short-term absences for business or pleasure.

16. “Returning student” means a student who reenrolls after a break in enrollment of one or more semesters. A “returning student” retains prior resident status, if any, as long as there is no indication that the student has established residency elsewhere.

17. “Student” means a person who is enrolled at an institution of the Nevada System of Higher Education.

18. “Spouse” means a person’s partner in legal marriage or a person’s domestic partner if the domestic partnership is registered with the Office of the Nevada Secretary of State.

19. “Tuition” means a monetary charge assessed against nonresident students which is in addition to registration fees or other fees assessed against all students.

**Tuition Charges**

*Board of Regents Handbook, Title 4, Chapter 15, Section 3*

1. Tuition shall not be charged to current enrollees or graduates of a Nevada high school.

2. Tuition shall not be charged to returning students who had established an exemption from charges at any NSHE institution in their prior enrollment period.

3. Tuition shall be charged to nonresident students, except that at the community colleges no tuition shall be charged for registration in community service courses which are not state funded.

4. Tuition shall not be charged to a professional employee, classified employee, postdoctoral fellow, resident physician or resident dentist of the Nevada System of Higher Education currently employed at least half time, or the spouse or dependent child of such an employee.

5. Tuition shall not be charged to a graduate student enrolled in the Nevada System of Higher Education and employed by the System in support of its instructional or research programs, only during the period of time of such employment.

6. Tuition shall not be charged to a member of the Armed Forces of the United States on active duty, stationed in Nevada as a result of a permanent change of duty station pursuant to military orders, or to a person whose spouse, family or legal guardian is a member of the Armed Forces of the United States stationed in Nevada as a result of a permanent change of duty station pursuant to military orders, including a Marine currently stationed at the Marine Corps Mountain Warfare Training Center at Pickle Meadows, California, or domiciled in Nevada. The spouse, child or legal guardian of the member shall not be charged tuition. If the spouse, child or legal guardian of the member was enrolled prior to the reassignment and remains continuously enrolled at an NSHE institution.

7. Tuition shall not be charged to a veteran of the Armed Forces of the United States who was honorably discharged and who on the date of discharge was on active duty stationed in Nevada, including a marine stationed at the Marine Corps Mountain Warfare Training Center at Pickle Meadows, California pursuant to military orders.

8. Except as otherwise provided in Subsection 7 of this Section, tuition shall not be charged to a veteran of the Armed Forces of the United States who was honorably discharged within the five years immediately preceding the date of matriculation of the veteran at any NSHE institution. It will be necessary to supply documentation (DD214, copy 4) in support of the student’s discharge date and character of service.

9. Tuition shall not be charged to a student enrolled in the University Studies Abroad Consortium or in the National Student Exchange Program, only during the period of time of such enrollment. Time spent in Nevada while a student is in the National Student Exchange Program shall not be counted towards satisfying the residence requirement Section 4, Paragraph 2 below, nor shall enrollment through the Consortium or the Exchange Program be included in the “date of matriculation” for evaluation of Nevada residency.
10. Tuition shall not be charged to members of federally recognized Native American tribes, who do not otherwise qualify as Nevada residents, and who currently reside on tribal lands located wholly or partially within the boundaries of the State of Nevada. (B/R 8/04)

**Excess Unit Fee (Effective Fall 2014)**

1. A 50 percent excess unit fee on the per-unit registration fee shall be charged to a student who has accrued attempted units equal to 150 percent of the units required for the student’s program of study. The excess unit fee shall be imposed on registration fees charged in the current semester and in subsequent semesters, including Summer terms, where a student’s cumulative unit hour total exceeds 150 percent of the units required for the student’s program of study.

2. Units from previously earned degrees or certificates shall be excluded from the 150 percent unit calculation.

3. Institutions shall establish an appeals process and may exclude from the 150 percent calculation the following:
   a. Units earned through examinations for determining credit for prior learning as authorized in Title 4, Chapter 14;
   b. Units attempted while enrolled as a high school student if those units do not meet the degree requirements for the student’s program of study;
   c. Units attempted at an institution outside NSHE if those units do not meet the degree requirements for the student’s program of study;
   d. Units attempted for remedial courses;
   e. Dissertation units; and
   f. Other units determined by the institution as inappropriate for the 150 percent unit calculation.

4. Community Service and non-unit bearing continuing education courses are not subject to the provisions of this section. Units for post-baccalaureate and post-masters certification courses are also not subject to the provisions of this section.

**Resident Students**

*Board of Regents Handbook, Title 4, Chapter 15, Section 4*

As supported by clear and convincing evidence, any person to whom one of the following categories applies shall be deemed a resident student for tuition purposes:

1. Except as provided otherwise in this section, a dependent person whose spouse, family or legal guardian is a bona fide resident of the State of Nevada for at least 12 months prior to the date of matriculation. Some or all of the following pieces of objective evidence of Nevada residency may be required with the student’s application for enrollment.
   a. Evidence of Nevada as the spouse’s, parent’s or legal guardian’s permanent, primary residence at the date of matriculation (examples of evidence include home ownership, a lease agreement, rent receipts, utility bills).
   b. The student’s birth certificate or proof of legal guardianship.
   c. The spouse’s, parent’s or legal guardian’s tax return for the most recent tax year, which indicates the student claimed as a dependent.
   d. A Nevada driver’s license or Nevada identification card for the spouse, parent or legal guardian.
   e. A Nevada vehicle registration for the spouse, parent or legal guardian.
   f. Nevada voter registration for the spouse, parent or legal guardian.
   g. Evidence that the student’s spouse, family or legal guardian has relocated to Nevada for the primary purpose of permanent full-time employment or to establish a business in Nevada (examples of evidence include a letter from the employer or copy of business license).

2. Except as provided otherwise in this section, a financially independent person whose family resides outside the State of Nevada, if the person himself or herself is a bona fide resident of the State of Nevada for at least 12 months immediately prior to the date of matriculation. Some or all of the following pieces of objective evidence of Nevada residency may be required with the student’s application for enrollment.
   a. Evidence of 12 months physical, continuous presence in the State of Nevada prior to the date of matriculation (examples of evidence include a lease agreement, rent receipts, utility bills).
   b. The student’s tax return for the most recent tax year, indicating a Nevada address. If no federal tax return has been filed by the student because of minimal or no taxable income, documented information concerning the receipt of such nontaxable income. If the student is under the age of 24, a copy of the parent’s or legal guardian’s tax return for the most recent tax year that indicates the student was not claimed as a dependent.
   c. The student’s Nevada driver’s license or Nevada identification card.
   d. The student’s Nevada vehicle registration.
   e. The student’s Nevada voter registration.
   f. Evidence that the student, and/or the person’s spouse, has relocated to Nevada for the primary purpose of permanent full-time employment or to establish a business in Nevada (examples of evidence include a letter from the employer or copy of business license).

3. A former member of the Armed Forces of the United States who was relocated from Nevada as a result of permanent change of duty station pursuant to military orders, will be considered a Nevada resident for tuition purposes under the following conditions:
   a. He/She was a resident of Nevada prior to leaving the state as a member of the Armed Forces; and
   b. He/She maintained his/her Nevada residency while a member of the Armed Forces; and
   c. He/She returns to the state of Nevada within one year of leaving the Armed Forces.

   It will be necessary for the student to supply documentation in support of each of these conditions (e.g., drivers license, property ownership, evidence of absentee voting, etc.)

4. A graduate of a Nevada high school. (B/R 8/06)

5. A financially independent person who has relocated to Nevada for the primary purpose of permanent full-time employment or to establish a business in and living in Nevada. (B/R 6/05)

6. A financially dependent person whose spouse, family or legal guardian has relocated to Nevada for the primary purpose of permanent full-time employment or to establish a business in and living in Nevada. (B/R 12/05)

7. Licensed educational personnel employed full-time by a public school district in the State of Nevada, or the spouse or dependent child of such an employee. (B/R 11/96)
Reclassification of Nonresident Status

Adapted from Board of Regents Handbook, Title 4, Chapter 15, Section 8

There is a rebuttable presumption that a nonresident attending an institution of the Nevada System of Higher Education is in the State of Nevada for the primary or sole purpose of obtaining an education. Therefore, a nonresident who enrolls in an institution of the System shall continue to be classified as a nonresident student throughout the student’s enrollment, unless and until the student demonstrates that his or her previous residence has been abandoned and that the student is a Nevada resident. Each student seeking reclassification from nonresident to resident student status must submit the Application for Residency Reclassification. Students seeking reclassification from nonresident to resident student status must satisfy the following four conditions:

1. Application and Written Declaration
   a. The student must apply in writing to the Admissions and Records Office for reclassification to resident student status. The application must include a written declaration of intent to relinquish residence in any other state and to certify to the establishment of bona fide residence in Nevada. A declaration form prescribed by the Chancellor and approved by the Board shall be utilized by each institution. The filing of a false declaration will result in the payment of nonresident tuition for the period of time the student was enrolled as a resident student and may also lead to disciplinary sanctions under Title 2, Chapter 10 of the Nevada System of Higher Education Code. Disciplinary sanctions include a warning, reprimand, probation, suspension or expulsion.

2. Bona Fide Residence and Intent to Remain in Nevada
   a. Ownership of a home in Nevada.
   b. Lease of living quarters in Nevada.
   c. Mortgage or rent receipts and utility receipts for the home or leased quarters.
   d. Nevada driver’s license or Nevada identification card issued 12 months prior to the date of application.
   e. Nevada vehicle registration.
   f. Nevada voter registration.
   g. Evidence of employment in Nevada such as a letter from employer on employer’s letterhead, W2 income tax for or pay stubs.
   h. A license for conducting a business in Nevada
   i. Admission to a licensed practicing profession in Nevada
   j. Registration or payment of taxes or fees on a home, vehicle, mobile home, travel trailer, boat or any other item of personal property owned or used by the person for which state registration or payment of a state tax or fee is required.
   k. A Nevada address listed on Selective Service registration card
   l. Evidence of active savings or checking accounts in Nevada financial institutions
   m. Evidence of summer term enrollment at an NSHE institution within the prior academic year
   n. Any other evidence that objectively documents intent to abandon residency in any other state and to establish Nevada residence

4. Financial Status
   An application for reclassification must include the following objective evidence of financial status:
   a. If financially independent, a true and correct copy of the student’s federal income tax return for the most recent tax year showing a Nevada address. If the student is under the age of 24, a copy of the parent’s or legal guardian’s tax return for the most recent tax year must be submitted that indicates the student was not claimed as a dependent. If no federal tax return has been filed because of minimal or no taxable income, documented information concerning the receipt of such nontaxable income must be submitted.
   b. If financially dependent, a true and correct copy of the spouse, parent or legal guardian’s federal income tax return for the most recent tax year showing a Nevada address must be submitted and must indicate the student filed jointly with a spouse or was claimed as a dependent. Students may also be required to provide documentation such as a birth certificate, proof of legal guardianship, or a marriage certificate to prove the relationship. A dependent person whose parent or legal guardian is a nonresident is not eligible for reclassification to resident student status.

5. The presentation by a person of one or more items of evidence as indicia of residence is not conclusive on the issue of residency. Determinations of residence shall be made on a case-by-case basis and the evidence presented shall be given the weight and sufficiency it deserves, after taking all available evidence into consideration.

6. Because residence in a neighboring state other than Nevada is continuing qualification for enrollment in the WICHE Western Undergraduate Exchange program at an NSHE institution, a student who was initially enrolled in a System institution under any of those policies shall not normally be reclassified as a resident student following matriculation. A nonresident student who subsequently disenrolls from the WICHE Western Undergraduate Exchange Policy and pays nonresident tuition for at least 12 months may apply for reclassification to resident student status. An application for reclassification may be submitted under the provisions of this section if the material facts of a student’s residency, or the parent’s or legal guardian’s residency, have substantially changed following matriculation.

7. When a student has been reclassified to resident student status, the reclassification shall become effective at the registration period in
the System institution immediately following the date the student receives notice of the reclassification decision.

8. No reclassification under these regulations shall give rise to any claim for refund of tuition already paid to the Nevada System of Higher Education (B/R 3/17).

Administration of the Regulations

Board of Regents Handbook, Title 4, Chapter 15, Section 9

Each institution of the Nevada System of Higher Education shall designate an appropriate office to implement and administer these regulations.

a. Each designated office shall make the initial decisions on the resident or nonresident student status of persons enrolling in the institution. If a verifiable error occurs when the initial decision is made to classify a student as a nonresident for tuition purposes, the designated office shall correct the decision and reclassify the student as a resident for tuition purposes without requiring the student to apply for residency reclassification.

b. Each designated office shall make the initial decision on application for reclassification from nonresident to resident student status.

c. The president of each System institution shall establish an appellate procedure under which a person may appeal decisions of the designated office concerning tuition or status as a resident or nonresident student to an appellate board.

I A person may appeal a decision of the designated office to the appellate board within thirty (30) days from the date of the decision. If an appeal is not taken within that time, the decision of the designated office shall be final.

II The appellate board shall consider the evidence in accordance with the standards and criteria of these regulations and shall make a decision, which shall be final. No further appeal beyond the appellate board shall be permitted. (B/R 5/95)

d. In exceptional cases, where the application of these regulations works an injustice to an individual who technically does not qualify as a resident student, but whose status, either because of the residence of the student or his family, is such as to fall within the general intent of these regulations, then the appellate board shall have the authority to determine that such a student be classified as a resident student. It is the intent of this provision that it applies only in the infrequent, exceptional cases where a strict application of these regulations results, in the sole judgment of the appellate board, in an obvious injustice.

Uniformity of Decisions

Board of Regents Handbook, Title 4, Chapter 15, Section 10

The decision of an institution of the Nevada System of Higher Education to grant resident student or nonresident status to a person shall be honored at other System institutions unless a person obtained resident student status under false pretenses or the facts existing at the time resident student status was granted have significantly changed.

Students granted nonresident student status by an institution retain the status of any student now classified as a resident (in-state) student before the effective date of these regulations. Any student enrolled in a System institution prior to the beginning of the Spring semester 1997 who had been classified as a nonresident (out-of-state) student is eligible for reclassification as a resident student under the Board of Regents residency regulations in effect at the time the student commenced his or her current period of continuous enrollment. No reclassification under these regulations shall give rise to any claim for refund of tuition already paid to the Nevada System of Higher Education.

NOTICE: Filing a false Declaration of Intent of Residency will result in the payment of nonresident tuition for the period of time a student was enrolled as a resident student and may also lead to disciplinary sanctions under Chapter Six of the Nevada System of Higher Education Code. Disciplinary sanctions include a warning, reprimand, probation, suspension or expulsion.

Audits of Residency Determinations

Per NSHE Board of Regents policy, institutions shall determine procedures to ensure that resident determinations are accurate on the basis of information reported on the application for admission pursuant to the Board policy. If documentation is not required for each student during the admission process, every Fall and Spring the institution shall conduct random audits by selecting at least 10 percent of the applicant population and collecting the appropriate documentation from each student confirming residency status as originally reported on the student’s application for admission. (B/R 6/10)

Religious Holiday Observations

It is the policy of NSHE to be sensitive to the religious obligations of its students. Religion is one area of diversity recognized by TMCC. Any student missing class, quizzes, examinations or any other class or lab work because of observance of religious holidays shall, whenever possible, be given an opportunity during that semester to make up the missed work. The make-up will apply to the religious holiday absence only. It shall be the responsibility of the student to notify the instructor in writing, on the first day of class or no later than 10 days in advance, of his or her intention to participate in religious holidays which do not fall on state holidays or periods of class recess. Examples of such holidays are Rosh Hashanah and Yom Kippur.

If the student has notified the instructor in a timely manner, and the instructor will not provide an opportunity to make up the work, the student shall have the right to appeal the decision. This appeal shall be directed to the dean of the instructional division or other appropriate administrative officer, who will be the final authority for determining whether a make-up is feasible.

Rules and Disciplinary Procedures for Students

The following conduct, being incompatible with the purpose of an academic community, is prohibited and shall constitute cause for discipline or lead to procedures and disciplinary sanctions established in Title 2, Chapter 10 of the NSHE Code.

Relevant excerpts from the code of conduct and disciplinary procedures are included in this catalog. The entire code of conduct and disciplinary procedures are available in the NSHE Code, Title 2, Chapter 10. Should there be any inconsistencies between this catalog and the NSHE Code, Title 2, Chapter 10, the NSHE Code will govern.
10.2.1 Prohibited Conduct

The following conduct is prohibited.

A. Acts of dishonesty, including but not limited to the following:
   1. Cheating, plagiarism, fraudulently obtaining grades, falsifying research data or results, assisting others to do the same, or other forms of academic or research dishonesty;
   2. Furnishing false information to any institution or System official, faculty member, or office;
   3. Forgery, alteration, misuse, theft, or using without permission, any institutional document or record.

B. Disorderly, lewd or indecent conduct, including the disruption, obstruction, or unauthorized interruption of teaching, convocations, recruiting interviews, social events, research, meetings, business administration, disciplinary proceedings, or other institutional or System activities, including public service functions and outreach activities on or off campus, or other activities when the conduct occurs on institutional premises.

C. Conduct that endangers the health or safety of any member or guest of the System community.

D. Physical abuse, verbal abuse, threats, intimidation, coercion, and/or conduct that threatens or endangers the health or safety of any person.

E. Interference by force, threat or duress with the lawful freedom of movement of persons or vehicles on institutional premises.

F. Resisting or obstructing institutional or other public officials in the performance of their duties.

G. Failure to comply with the directions of institutional officials acting in accordance with their duties and/or failure to identify oneself to these persons when requested to do so.

H. Acts of physical force or disruptive acts which interfere with institutional activities, freedom of movement on the campuses, freedom for students to pursue their studies, freedom of speech, freedom to be heard, and freedom to pursue research of their own choosing.

I. Failure of the student to present proper credentials, student identification card, driver's license, or parking registration to institutional officials upon their request.

J. Forgery, alteration, falsification or destruction of System documents or furnishing false information in documents submitted to the System.

K. Willful damage, destruction, defacement, theft or misappropriation of equipment or property belonging to, in the possession of, or on premises occupied by the System.

L. Knowing possession on any premises of the System of any firearms, explosives, dangerous chemicals or other instruments of destruction, or other dangerous weapons as defined by the laws of the State of Nevada, without the written authorization of institutional president or the president's authorized agent.

M. Continued occupation of buildings, structures, grounds or premises belonging to or occupied by the System after having been ordered to leave by the institution's president, the president's designee, or chancellor.

N. False reporting of any emergency situation, including but not limited to, misuse of campus or System emergency notification equipment. Unauthorized tampering with, and/or accessing of, safety, security, or fire protection equipment or devices. Setting off a fire alarm for reasons other than actual fire or emergency, involvement in setting or causing any unauthorized fire in or on institution property.

O. The unauthorized possession, loan, modification, or distribution of keys, pass cards or institutional identification cards. Unauthorized or unlawful entry or access to institutional or System facilities, including buildings and grounds. The reproduction, manufacture or duplication of any key, pass card, institutional or System identification card or unlocking devise for use on institution or System facilities or locks without proper authorization.

P. Abuse, unauthorized use, or theft of institutional or System computer facilities and resources, including but not limited to:
   1. Unauthorized entry into or transfer of a file to use, read, or change the contents or for any other purpose; and/or a violation of copyright laws;
   2. Use of another individual's identification and/or password;
   3. Interfering with the work of another student, faculty member or institution or System official, or with the normal operation of the institution or System computing system; or,
   4. Violating the institution's Standards of Conduct for the Use of Institution's Computers.

Q. Willfully destroying, damaging, tampering, altering, stealing, misappropriating or using without permission any System program or file of the System.

R. Violation of the institution's policies and regulations governing residence in institution owned or controlled property, and access to and use of all institutional facilities, including responsibility for the conduct of guests.

S. Use, possession, or distribution of alcoholic beverages without authorization (except as expressly permitted by System or Institutional regulations, such as the —Alcoholic Beverage Policy), or public intoxication. Alcoholic beverages may not, in any circumstances, be used by, possessed by, or provided to, any person under twenty-one years of age.

T. Use, possession, manufacturing or distribution of marijuana, heroin, narcotics, or other controlled substances, use or possession of any illegal and/or unauthorized drugs, prescription drugs, and drug paraphernalia or being under the influence of illegal drugs except as expressly permitted by law.

U. Contempt of student disciplinary proceedings including impairing or interrupting any proceeding or providing false information to institution or System officials and student hearing board members during the course of the conduct resolution process. Failure to comply with the terms of any sanction imposed in accordance with the rules of conduct.

V. The repeated use of obscene or abusive language in a classroom or public meeting of the System and which, if occurring in a class is not significantly related to the teaching of the subject matter.

W. The use of threats or violence against a faculty member or the faculty member's family in order to secure preferential treatment for grades, loans, employment, or other service or privilege accorded by the System.

X. Any act of unlawful discrimination based on race, creed, color, sex, age, sexual orientation, disability or national origin, gender identity, or genetic information, or any act of employment or educational retaliation against any person who has made a complaint about such discrimination.

Y. Any act of sexual harassment when submission to a request or demand of a sexual nature is either an explicit or implicit term or condition of employment or of academic study or grading, or where
verbal or physical conduct of a sexual nature has the effect of creating an intimidating, offensive or hostile work or educational environment. Sexual harassment includes sexual violence.

Z. Sexual assault, which is the use of, or threat to use, force or violence of a sexual nature, defined as sexual assault, against any member or guest of the institutional community on institution-owned or institution controlled property or at any institution sponsored program.

AA. Acts of hazing. Hazing is defined as any method of initiation into or affiliation with the university, college or community college community, a student organization, a sports team, an academic association, or other group engaged in by an individual that intentionally or recklessly endangers another individual.

BB. Intentionally making an accusation that is false or is made with reckless disregard for the truth against any member of the System community by filing a complaint or charges under the rules of conduct or under any applicable established complaint or grievance procedures in the System.

CC. Willful incitement of individuals to commit any of the acts herein prohibited.

DD. Any other conduct that violates applicable stated prohibitions, policies, procedures, rules, or regulations of the institution or Board of Regents.

EE. Any act prohibited by local, state or federal law that occurs on System premises or at a System-sponsored function on or off such premises.

10.2.2 Institutions may prohibit other conduct.

An institution may adopt policies which prohibit other conduct not included.

10.4.9 Sanctions.

The following are the disciplinary sanctions that may be imposed on a student found to have violated the rules of Conduct. More than one sanction may be imposed.

A. Warning. A notice, oral or written, that the student has violated the rules of Conduct.

B. Reprimand. A written reprimand for violation of specified regulations.

C. Restitution. Compensation for loss, damage, theft or misappropriation of property, or injuries sustained in an incident of student misconduct. This may take the form of appropriate service, monetary, or material replacement or combination of these.

D. Probation. Probation consists of a designated period of time and includes the probability of more severe disciplinary sanctions if the student is found to have violated any institutional regulation(s) during the probationary period.

E. Loss of Privileges. Denial of specified privileges for a designated period of time. This may include denying the student access to any campus, site, or building while permitting the student to enroll in off-campus classes such as internet or correspondence classes.

F. Discretionary and Educational Sanctions. Participation in specific educational programs, such as alcohol or other drug educational intervention conferences, assessments, educational activities, including on-line instructional workshops, and work assignments or service to the institution or the community, and other related discretionary assignments.

G. Residence Hall Suspension. Separation of the student from the residence halls for a period of time, after which the student is eligible to return. The minimum period of suspension is one semester and the maximum period is two semesters. Conditions for readmission may be specified in the suspension.

H. Residence Hall Permanent License Cancellation. Permanent separation of the student from the residence halls.

I. Withholding of a Degree. Prior to the awarding of a degree, the institution may withhold a degree from a student.

J. Institutional Suspension. Exclusion for a definite period of time from attending classes and from participating in other activities of the System, as set forth in a written notice to the student. The official transcript of the student shall be marked –DISCIPLINARY SUSPENSION EFFECTIVE ____ TO ____. The parents or legal guardians of minor students shall be notified of the action.

A student who is enrolled in his or her last semester before graduation or is not currently enrolled in the System and who was not registered during the previous semester or who graduated at the end of the previous semester may request that the notation of the disciplinary suspension be removed from the official transcript when two years have elapsed since the expiration of the student’s suspension. Such request must be submitted in writing to the president or his designee. If the request is not granted, the student at yearly intervals thereafter may submit a request for removal of the notation.

K. Deferred Institutional Suspension. Deferred separation of the student from the institution until the close of the current semester or some other time frame for review of student progress in addressing the conduct matter.

L. Institutional Expulsion. Termination of student registration and status for an indefinite period of time. Permission of the president shall be required for readmission. The official transcript of the student shall be marked –DISCIPLINARY EXPULSION EFFECTIVE ____ TO ____. The parents or legal guardians of minor students shall be notified of the action.

A student who is enrolled in his or her last semester before graduation or who is not currently enrolled in the System and who was not registered during the previous semester or who graduated at the end of the previous semester may request that the notation of the disciplinary expulsion be removed from the official transcript when four years have elapsed since the expiration of the student’s expulsion or termination. Such request must be submitted in writing to the president or designee. If the request is not granted, the student at yearly intervals thereafter may submit a request for removal of the notation.

Disciplinary Procedures

Disciplinary procedures for all NSHE students are fully outlined in Board of Regents Handbook, Title 2, Chapter 10.

Emergency Removal for Disciplinary Procedures

Board of Regents Handbook, Title 2, Chapter 10, Section 10.4.10.

The President, or the student conduct officer, may impose an immediate emergency removal (hereafter, “removal”) prior to the resolution of a charge of violation of the rules of conduct on the charged student. This removal includes the immediate exclusion from the institution and all of the institution’s campuses, sites, locations, and property of a student for
Satisfactory Academic Progress Policy

Satisfactory Academic Progress

Students at Truckee Meadows Community College must maintain satisfactory academic progress towards a degree or certificate to remain in good standing. Students who meet the satisfactory academic progress requirements are considered to be in "good standing" status. The college has established and will apply the following standard of academic progress to all degree-seeking (program) students.

This policy applies to the general student population. Additional progress standards for millennium scholarship and financial aid recipients are applied when appropriate.

Requirements

Grade Point Average (GPA): All TMCC program students are required to maintain a minimum cumulative 2.0 GPA.

Notification

- Students will be notified by the college when their cumulative GPA falls below a 2.0.
- Mandatory services follow-up strategies will be implemented by the counseling department.

Academic Probation

Students whose GPA falls below 2.0 will be placed on academic probation. The academic probation process may include the following series of actions as determined by counseling department faculty/staff:

- Reduced course load
- Referral to the Tutoring and Learning Center (http://www.tmcc.edu/tutoring)
- Assigned to academic mentor/advisor
- Financial assistance referral
- Follow-up counseling appointments
- Third probationary semester: Students who do not return to good academic standing after two semesters on academic probation; but who have increased their cumulative GPA, will be allowed to continue their education but will remain on academic probation.

Academic Disqualification

Students on academic probation who have not achieved academic improvement (identified as an increase in cumulative GPA) after three consecutive semesters on academic probation will be dismissed from TMCC for one semester, commencing immediately. Students may appeal their dismissal to the college, per the review of the Academic Intervention Committee.

Applies

A student who fails to make satisfactory academic progress and is dismissed from TMCC has the right to appeal their dismissal. All appeals will be reviewed by the Academic Intervention Committee. The Academic Intervention Committee, chaired by the Director of Counseling, may be composed of Counselors, Advisors, the Retention Coordinator, the Tutor/ Accommodation Specialist, and Faculty Academic Mentors.

To be reinstated after the dismissal term, the student must agree to adhere to the conditions established for probationary students re-admitted to TMCC (see Reinstatement). A student returning from dismissal will remain on academic probation until meeting the cumulative standards defined above (2.0 GPA).

For a second or subsequent dismissal, the student may not enroll for two full semesters.

Reinstatement

A student who has been academically disqualified by TMCC may return to the College after the period of dismissal has passed. The student remains on academic probation, and must agree to adhere to the established conditions of this probation. The student remains on academic probation until meeting the cumulative standards defined by the Satisfactory Academic Progress Policy.

Statement of Policy in Accordance with the Family Educational Rights and Privacy Act

Each semester, TMCC publishes information in the class schedule for students concerning the Family Educational Rights and Privacy Act of 1974, as amended. This act was designed to protect the privacy of educational records and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. This
is not a means for challenging the fairness of a grade. A student wishing to challenge the fairness of a grade should read the section on Appeal of Grade (p. 22) in the Appeals Procedures section of this course catalog.

No one shall have access to, nor will the campus disclose any information from a student’s educational records without the written consent of the student except to:

- personnel within the institution and college work study students performing an assigned college function;
- the Nevada System of Higher Education;
- University Police performing an assigned System function;
- the Controller General of the United States;
- the Secretary of the United States Department of Health, Education and Welfare;
- the United States Commissioner of Education;
- the Assistant Secretary of Education;
- the Nevada State Education Department;
- officials of other institutions in which the student is seeking to enroll;
- accrediting agencies carrying out their accreditation function;
- persons in compliance with a judicial order;
- parents who have established the student’s dependency as defined by the Internal Revenue Code of 1954, Section 152;
- officials providing student financial aid;
- the Veterans Administration, Social Security Administration, the Guaranteed Student Loan program, Wells Fargo Bank, Bank of America, Chase Manhattan Bank, City Bank Corporation of New York and the United Student Aid Fund;
- organizations conducting studies for or on behalf of educational agencies;
- persons in an emergency in order to protect the health and safety of students or other persons.

Students may authorize the release of non-directory information to specific individuals by changing security settings via the MyTMCC Student Center.

At the registrar’s discretion, the campus may provide directory information to agencies, businesses and individuals with legitimate interest in the educational or career goals of the student, in accordance with the provisions of the Act to include: student name, address, telephone number, email address(es), semesters of enrollment, full-time/part-time status, degree(s) awarded, emphasis field(s), certificate field(s), honors and awards, and date(s) of graduation.

Under the provisions of FERPA, school officials may release directory information at their discretion without prior consent of the student. A "school official" is:

- any person employed by the College in an administrative, supervisory, academic, research or support staff position (including law enforcement units and student workers);
- a person of a company with whom the College has contracted (such as an attorney, auditor or collection agent);
- a person serving on the Board of Regents;
- a person assisting another school official in performing his or her tasks.

Students may have directory information withheld by changing security settings via the MyTMCC Student Center. TMCC assumes that failure to specifically request the withholding of directory information indicates individual approval for disclosure. TMCC maintains records of requests and disclosures of personally identifiable information with the exception of the information disclosed to parties described above in the performance of their duties. The records of request, whether granted or not, shall include the names of the persons who requested the information and their legitimate interests in the information.

The law provides students with the right to inspect and review information in their educational records, to challenge the content of their educational records, to have a hearing if the outcome of the challenge is unsatisfactory, and to submit explanatory statements for inclusion in their file if they feel the decision of the hearing panel to be unacceptable.

Students wishing to review their educational records must file a written request with the custodian of the records listing the item or items of interest. Records covered by the Act will be made available for inspection within 45 days of the request. Students may have copies made of their records with certain exceptions, e.g., a copy of academic records for which a financial hold exists, or a transcript of an original or source document which exists elsewhere. Copies would be made at the students’ expense of one dollar per page. Educational records do not include records of instructional, administrative and educational personnel which are in the sole possession of the maker and are not accessible or revealed to any individual except a temporary substitute; records of the law enforcement unit; employment records or alumni records. Persons who have not enrolled may not review their educational records.

Educational records may be located in the following offices of TMCC.

- Administration: may include disciplinary hearing records, and student appeal documents. The custodian of these records is the division administrator. This office may also have records of disciplinary investigations. The custodian of these records is the associate dean of instructional support.
- Admissions and Records Office: may include application for admission, transcripts of previous training, resident fee application, applications for change in tuition status, letters of recommendation, academic records, registration materials, veteran certification records. The custodian of these records is the director of admissions and registrar.
- Business Office: may include registration payments, student loan files and miscellaneous fee records. Custodian of the records is the controller.
- Institutional Research and Assessment Office: may include test scores. The custodian of these records is the Executive Director of Institutional Research.
- Student Development Office: may include appeals and grievances. The custodian of these records is the vice president of student services.
- Financial Aid Office: may include financial aid records, scholarship records, and employment records. The custodian of these records is the director of financial aid.
- Instructional departments: may include records of students under the Job Training Partnership Act (JTPA) and records relating to student academic course work. Custodian of these records is the vice president of academic affairs.
- Special Training Projects: may include records of students under Adult Basic Education (ABE) and English as a Second Language (ESL). The custodian of these records is the coordinator of adult basic education/English as a second language.
Use of Social Security Numbers

The Privacy Act of 1974 requires that when any federal, state or local government agency requests disclosure of an individual's social security number, that individual must also be advised whether that disclosure is mandatory or voluntary, by what statutory or other authority the number is solicited and what use will be made of it.

Accordingly, students are advised that disclosure of their social security number is not required as a condition of registration at TMCC. Students desiring to register who do not wish to disclose their social security number may be assigned a special 10-digit student identifier number by the Admissions and Records Office. Students are responsible for utilizing the same identifier number throughout their attendance at TMCC to ensure accurate and complete records.

The social security number is used to verify the identity of the applicant. The assigned 10-digit student identifier will be used as an identifier on student records throughout the enrollment periods of the student in order to accurately record all necessary data. All permanent academic records maintained by the College utilize the assigned 10-digit student identifier as the unique identifier for a student.

As an identifier the assigned 10-digit student identifier is used in program activities such as determining enrollment, recording grades, certifying school attendance, generating student transcripts and student fees.

Authority is granted under the law for requesting disclosure of a student’s social security number for the Nevada System of Higher Education, Student Accounting system.

Student Bill of Rights

Preamble

Truckee Meadows Community College exists for the transmission of knowledge, the pursuit of truth, the development of students, and
the general wellbeing of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon opportunities and conditions in the classroom, on the campus, and in the larger community.

The responsibility to secure and to respect general conditions conducive to the freedom to learn is jointly shared by all members of the academic community. Students exercising the rights and freedoms defined in this document shall do so with concomitant responsibilities as prerequisites for achievement of the educational objectives involved. Freedom to teach and freedom to learn are alike dependent upon modes of individual and collective conduct as permit the orderly exchange and pursuit of knowledge and opinion. A regard for the College as a physical as well as a social entity is a condition of its satisfactory functioning. Truckee Meadows Community College has a duty to develop policies and procedures that provide and safeguard these conditions. Policies and procedures should be developed at the College within a framework of general standards and with the broadest possible participation of the members of the academic community. The purpose of the following is to enumerate essential student freedoms.

Freedom of Access to Higher Education

See also: Admission to the College

Truckee Meadows Community College shall admit students without regard to age, disability, whether actual or perceived by others (including service-connected disabilities), gender (including pregnancy related conditions), military status or military obligations, sexual orientation, gender identity or expression, genetic information, national origin, race, or religion.

All facilities of the College shall be open to all students who meet the entrance qualifications and who maintain current such academic qualifications as may be required by the College.

In the Classroom

See also: Rules and Disciplinary Procedures for Students

The professor in the classroom and in conferences shall encourage free discussion, inquiry, and expression. Student performance shall be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

1. Protection of Freedom of Expression — Students shall be free to take reasoned exception by legal means to the data or views offered in any course of study and to reserve judgment about matters of opinion, but they shall be responsible for learning the context of any course of study for which they are enrolled.

2. Protection Against Improper Academic Evaluation — Students shall have protection through orderly procedures as established by the President of the College against prejudiced or capricious academic evaluation. At the same time, they shall be responsible for maintaining standards of academic performance established for each course in which they are enrolled.

3. Protection Against Improper Disclosure — The teacher-student relationship is a unique one to society. Information about student views, beliefs, and political associations which professors acquire thorough private consultations and private classroom work intended to be seen only by the professors shall be considered confidential. Protection against unreasonable and improper disclosures about student views, beliefs, and political associations which professors acquire in the classroom is a serious professional obligation. The judgment of ability (academic evaluation) and character (related to the discipline of study) may be provided under appropriate circumstances, normally with the knowledge and consent of the student.

Student Records

See also: Statement of Policy in Accordance with the Family Educational Rights and Privacy Act

1. The privacy and confidentiality of all student records shall be preserved. Official student academic records, supporting documents, and other student files shall be maintained only by full-time members of the institution staff employed for that purpose. Separate files shall be maintained of the following: academic records, supporting documents, general educational records, records of discipline proceedings, medical and psychiatric records, and financial aid records.

2. Access to his records and files is guaranteed every student subject only to reasonable regulation as to time, place, and supervision. The student may waive this right of access in respect to confidential evaluations and references in the graduate and other placement offices, which may be required for the purpose of securing placement in business, industry, government, or education. Exceptions to this right of access are:
   a. Financial records of parents.
   b. Confidential letters and statements of recommendation placed in the file before January 1, 1975.
   c. Records which the student has waived the right to inspect.
   d. Records of instructional, supervisory, and administrative personnel which are in the sole possession of the maker and which are not accessible or revealed to any other person except a regular replacement for that record holder. An example would be a professor’s grade book.
   e. Record of law enforcement agencies which are kept separate from educational records, maintained only for law enforcement purposes, and available only to law enforcement officials of the same jurisdiction.
   f. Privileged records of physicians, psychiatrists, and other professionals or para-professionals concerned with the treatment of a student and available only to other professionals and para-professionals providing treatment. (Students may designate a physician or other appropriate professional to view the records.)

3. No record may be made in relation to any of the following matters except upon the express written request of the student:
   a. race,
   b. religion,
   c. political or social view, and
   d. membership in any organization other than honorary and professional organizations directly related to the educational process.
### Student Affairs

#### Freedom of Association

See also: Regulations Concerning Student Sponsored Events and Regulations Concerning Off-Campus Organizations (p. 323)

1. For any legal purpose students shall be free to organize and join associations to promote their common interests and shall be free to determine their own membership, policies, and actions.
2. Affiliation with an extramural organization shall not in itself affect recognition of a student organization.
3. Campus organizations which include students, including those affiliated with an extramural organization, shall be open to all students without respect to race, creed, or national origin. They shall not be required to submit a membership list as a condition of institutional recognition.

#### Freedom of Inquiry and Expression

See also: Regulations Concerning Student Sponsored Events and Regulations Concerning Off-Campus Organizations (p. 323)

1. Students and student organizations shall be free to examine and discuss all questions of interest to them and to express opinions publicly and privately. They shall be free to support causes by legal and orderly means which do not interfere with the operation of the College or of its educational objectives.
2. Freedom to speak and to hear will be maintained for students, faculty, and staff and college policies and procedures will be used to provide a full and frank exchange of ideas. An effort should be made to allow a balanced program of speakers and ideas.
3. An invitation to speak at Truckee Meadows Community College does not imply that the College endorses the philosophy or ideas presented by the speaker.

Student Participation in College Government — As constituents of the academic community, students shall be free, individually and collectively, to express their views on issues of college policy and on matters of general interest to the student body. The student body shall have clearly defined means to participate in the formulation and application of college policy affecting academic and student affairs. The roles of the student government and both its general and specific responsibilities shall be made explicit, and the actions of the student government within the areas of its jurisdiction shall be reviewed only through orderly and prescribed procedures.

Student Publications — Student publications and the student press are valuable aids in establishing and maintaining an atmosphere of free and responsible discussion and of intellectual exploration of the campus. They are a means of bringing student concerns to the attention of the faculty and the administration and of formulating student opinion on various issues on the campus and in the world at large. In the delegation of editorial responsibility to students, the College shall provide sufficient editorial freedom and financial autonomy for the student publications to maintain their integrity or purpose as vehicles for free inquiry and free expression in the academic community. As safeguards for the editorial freedom of student publications the following provisions are necessary:

1. The student press shall be free of censorship and advance approval of copy, and its editors and managers shall be free to develop their own editorial policies and news coverage.
2. Editors and managers of student publications shall be protected from arbitrary suspension and removal because of student, faculty, administrator, or public disapproval of editorial policy or content (Board of Regents, 7/76).
3. All student publications shall explicitly state that the opinions expressed therein are not necessarily those of the College or student body. The editorial freedom of student editors and managers shall entail corollary responsibilities to be governed by the canons of responsible journalism, as prescribed by the Student Publications Board and approved by the Board of Regents, and offer reasonable opportunities for rejoinder to the same audience.

#### Right to Assemble

TMCC supports constitutionally protected freedom of speech and peaceful assembly rights and has established a public forum area at the Dandini Campus for use by TMCC students, employees and outside entities for this purpose.

#### Off-Campus Freedom of Students

See also: Regulations Concerning Off-Campus Organizations (p. 323)

Exercise of Rights of Citizenship — Truckee Meadows Community College students are both citizens and members of the academic community. As citizens, students have the same freedom of speech, peaceful assembly, and right of petition that other citizens enjoy and, as members of the academic community, they are subject to the obligations that accrue to them by virtue of this membership.

Institutional Authority and Civil Penalties — The College has no legal authority over a student when he is outside college property unless engaged in official college activities, except as provided elsewhere. Students who violate the law may incur penalties prescribed by civil authorities, but institutional authority shall not be used merely to duplicate the function of general laws. Only where institutional interests as an academic community are distinct from those of the general community may disciplinary proceedings be invoked by the institution. Institutional action shall be independent of community pressure.

#### Procedural Standards in Disciplinary Proceedings

See also: Rules and Disciplinary Procedures for Students

The authorities of educational institutions have the inherent power and responsibility to protect the educational purpose through the regulation of the use of their facilities and through the establishing of standards of conduct and scholarship for the students who attend. Disciplinary action plays a role substantially secondary to example, counseling, guidance, and admonition. When warranted, disciplinary proceedings shall be enforced, and when they are, proper procedural safeguards shall be observed to protect the student from the unfair imposition of penalties.

The administration of discipline shall guarantee procedural fairness to an accused student. The jurisdictions of faculty and/or student judicial bodies or other regularly established judicial bodies, the disciplinary responsibilities of college officials, and the regular disciplinary procedures, including the student’s right to appeal a decision, shall be clearly formulated and communicated in advance. In all situations, procedural fair play shall require that the student be informed of the nature of the charges against him/her, and that he/she shall be given a fair opportunity to refute them, that the College shall not be arbitrary in its actions, and that there shall be provision for appeal of a decision.

Standards of Conduct Expected of Students — The College has an obligation to clarify those standards of behavior which it considers
essential to its educational mission and its community life. Offenses shall be clearly defined and interpreted in a manner consistent with the aforementioned principles. Disciplinary proceedings shall be instituted only for violations of existing standards of conduct and those which will be formulated with student participation and published in advance.

It shall be the student’s obligation to become aware of college rules and regulations and to conduct himself/herself as a responsible citizen to abide by the College’s stated rules and regulations, and to express either assenting or dissenting opinions in an orderly manner.

Investigation of Student Conduct
1. Premises occupied by students, whether college controlled or not, and the personal possessions of students shall not be searched without permission or without legal authority. Such legal authority includes that which arises from the College-student relationship.
2. Students accused of serious violations of college regulations shall be informed of their rights by the College official in charge of student discipline, the student conduct officer. Institutional representatives shall not coerce admissions of guilt.

Status of Students Pending Final Action — Pending action on criminal charges off campus or disciplinary proceedings on campus, the status of a student shall not be altered or his/her right to be present on the campus and to attend classes suspended, except for reasons relating to the safety and well-being of students, faculty, administration, or to college property. In circumstances of the magnitude described above, the President of the College may suspend a student pending decision on the charges.

Hearing Procedures — In accordance with Title 2, Chapter 10 of the Nevada System of Higher Education Code, a student is entitled to a hearing on a disciplinary charge. The following suggested procedure shall satisfy the requirements of "procedural due process":

1. Hearings shall be instituted with dispatch after a student is charged with an offense. Students shall be notified in time to prepare an adequate defense against those charges.
2. The student shall be informed, in writing, of the reasons for the proposed disciplinary action with sufficient particularity and in sufficient time to ensure opportunity to prepare for the hearing.
3. The student appearing before a hearing shall have the right to be assisted in his/her defense by an advisor of his/her choice.
4. The burden of proof rests upon the officials bringing the charge.
5. The student shall be given an opportunity to testify and to present evidence and witnesses. The student shall have an opportunity to hear and question adverse witnesses. In no case shall a hearing committee consider written or recorded statements against him/her unless he/she has been advised of their content and the names of those who made them, and unless he/she has been given an opportunity to rebut unfavorable inferences which might otherwise be drawn.
6. All matters upon which the decision may be based shall be introduced into evidence at the hearing. The decision shall be based solely upon such matters. The admissibility of evidence shall be determined by the hearing board or officer and subject to review through appeal.
7. The hearing shall be private unless the student requests an open hearing.

Student Appeals Board
See also: Appeals (p. 304) section in course catalog

Purpose of the Appeals Board
1. The Student Appeals Board is only a recommending board to the Vice President of Student Services. The Vice President makes the final decision.
2. The Student Appeals Board does not handle affirmative action issues, grade change issues, or policies within the classroom, disciplinary issues or student financial aid appeals.
3. Affirmative action issues must follow Board of Regents Handbook policies for discrimination/sexual harassment. Affirmative action issues are referred to the Affirmative Action Officer or the Dean of Equity and Inclusion.
4. Grade change issues or policies within classroom are referred through the instructor, then to the chair or program coordinator, and finally to the appropriate instructional dean. The dean has final authority for grade change issues or policies within the classroom.
5. Disciplinary issues must follow the Board of Regents Handbook and are referred to the appropriate individuals depending upon the type of infringement that has occurred.
6. Financial Aid has its own Student Financial Aids Appeal Board.

Student Right To Know

Student Right-to-Know

TMCC is pleased to provide the following information regarding our institution’s graduation/completion and transfer-out rates. The information is provided in compliance with the Higher Education Act of 1965, as amended. The rates reflect the graduation, completion and transfer-out status of students who enrolled during the Fall 2013 semester and for whom 150% of the normal time-to-completion has elapsed.

During the fall semester of 2013, 618 first-time, full-time, certificate or degree-seeking students entered TMCC. After 3 years, 31% of these students had graduated from our institution or completed their programs and 13% had transferred to other higher education institutions.

Questions related to this report should be directed to:
Institutional Research, Analysis and Effectiveness Office
775-673-8240

While reviewing this information, please bear in mind:

· Graduation and transfer-out rates are based on 3 years of attendance that equates to 150% of our longest program.
· Graduation (and transfer-out) rates do not include students who left the school to serve in the armed forces, on official church missions, or in the foreign service of the federal government. Students who died or were totally and permanently disabled are also excluded.
· The majority of TMCC’s students are not full-time (In Fall 2016, only 28% enrolled in 12 or more units per semester), and graduation is not the only measure of success for all of our students.
Transfer Credit Policy on the Evaluation of Previous Training and Education

1. Advanced Standing from Other Colleges and Universities
   a. Applicants must submit an official transcript from all colleges and universities previously attended.
   b. The accreditation of the institution by one of the eight regional accrediting organizations and the listings published in the American Association of Collegiate Registrars and Admissions Officers Transfer Credit Practices of Designated Educational Institutions governs the acceptance of transfer credit. The eight regional accrediting organizations include: Middle States Association of Colleges and Schools, Middle States Commission on Higher Education (MSCHE), New England Association of Schools and Colleges Commission on Institutions of Higher Education (NEASC-CIHE), New England Association of Schools and Colleges Commission on Technical and Career Institutions (NEASC-CTCI), North Central Association of Colleges and Schools The Higher Learning Commission (NCA-HLC), Northwest Commission on Colleges and Universities (NWCCU), Southern Association of Colleges and Schools (SACS) Commission on Colleges, Western Association of Schools and Colleges Accrediting Commission for Community and Junior Colleges (WASC-ACCJC), Western Association of Schools and Colleges Accrediting Commission for Senior Colleges and Universities (WASC-ACSCU).
   I Credit may be granted for courses in which a grade of D- or better is earned at any of the institutions with general (AG), or provisional (AP) ratings in the Transfer Credit Practices of Designated Educational Institutions. Credit may always be granted as elective credit, but credit intending to satisfy a department equivalent or department elective must be approved by the specific instructional division offering the degree. Transfer credit may be disallowed and may not apply toward degree, emphasis, or certificate requirements if the course was taken so long ago that the student would not possess current knowledge and/or skills. Courses in this category may still be applied as elective credit. Students who believe they have current skills and knowledge in the subject area should contact the appropriate department chair for information on validation or verification. Acceptance of credit for qualification into the health sciences special selection programs requires a grade of C or better.
   II Credit is not accepted from schools that are non-acceptable (N or NP rating). If the school is not listed, refer to the section of this catalog entitled nontraditional credit policy.
   III A maximum of 45 semester units or 75 percent of the total units required for a degree, whichever is greater, of previous training, education or credit by examination toward an associate degree, with the following limitations:
      1. Not more than 75 percent of the units required for a degree may be applied from other colleges and universities.
      2. Not more than 30 semester units from credit by examination.
      3. Not more than 16 semester units from non-traditional sources.

4. If credit is more than 10 years old, only elective credit will be granted unless the student provides copies of course descriptions for Transfer Credit Evaluation. Credit may also be granted if the student has been employed in the field since she/he successfully completed the course.

5. Students who have already completed an Associate of Arts, Associate of Science, baccalaureate, master’s or doctoral degree from a regionally accredited institution are not required to repeat the System or College requirements for general education unless specific general education courses are required for completion of the student’s declared field of study. The College will grant credit for this block as a grade of S, which is Satisfactory. However, evidence of completion of U.S. and Nevada Constitutions and Diversity units are required of all degrees.

2. Advanced Standing for Credit by Examination
   a. The maximum number of units earned by examination that may apply toward a degree may not exceed 30 units.
   b. Grading for examinations will be on an S/U basis. Credit is granted on the basis of the policy below and is posted on the transcript with a grade of S (Satisfactory). Examinations which are graded U (Unsatisfactory) will not be posted to the transcript.
   c. Credit earned by examination may not apply toward satisfying the minimum 15 units in residence required for graduation purposes.
   d. Each student is responsible for arranging to complete the various examinations and for requesting the official score reports be sent directly to the Admissions and Records Office.
   f. Credit by examination does not count as part of a student’s unit load for any given semester nor is it computed into the grade point average.
   g. Only currently admitted students may seek credit by examination.
   h. No examination may be taken or repeated for additional credit.
   i. Credit may not be earned for an examination that covers, at an elementary level, the subject matter of a more advanced course for which the student has already received credit or is currently enrolled in. Decisions about the hierarchy of classes shall be made by the appropriate academic division.
   j. Credit will be granted as general elective credit only, unless specific examinations have been placed on the College’s Challenge List, and therefore have been determined to be equivalent to specific general education or departmental core requirements. If an additional satisfactory essay or demonstration is required in addition to an exam on the challenge list, credit will not be granted unless the additional requirement is fulfilled.
   k. Specific Examinations and Limitations
      I ACT PEP (Proficiency Examination Program): In general, three units may be granted for each examination for scores of 50 or above, a letter grade of C or higher, or a Pass grade, and a satisfactory essay where required.
      II CBAPE (College Board Advanced Placement Examination): Three or more units may be granted for scores of 3, 4 or 5 and a satisfactory essay where required. See complete CBAPE table.
      III CLEP (College Level Examination Program): Three or more units may be granted for subject exams with a score of 50 or more which meets the ACE recommendations for credit.
Some exams may require an essay in addition to the objective test.

IV DANTES (Defense Activity for Nontraditional Education Support) Examinations: Three or more units may be granted for completion of an exam with a score of 50 or higher, and a satisfactory essay, where required.

V Departmental Examinations
1. Only examinations on approved course challenge list may be applied for.
2. A student may not retake a departmental examination.
3. From the time of application for a departmental examination, a student has one full semester in which to complete the examination.

VI International Baccalaureate (IB) Examination
The College grants credit and assigns a grade of “S” for IB higher level (HL) examinations passed with a minimum score of 4. Credit is not granted for the standard level (SL) examinations. A maximum of 24 units may be granted for examinations completed through the IB diploma program. Evaluation is on a course by course basis with a maximum of eight semester units in any one discipline. The following examinations have been determined to have TMCC course equivalence:

3. Advanced Standing from Nontraditional Sources (Military training and schools; United States Armed Forces Institute (USAFI); Defense Activity for Nontraditional Education Support (DANTES); correspondence; extension; certificate; and proprietary schools.)
   a. Applicants must submit all official documents and specific information on the length, content, and other pertinent documentation before an evaluation will be completed.
   b. A maximum of 25 percent of the units required for the degree/ emphasis/certificate may be accepted in this category (except as noted below).
   c. Credit granted in this category may be used for the Associate of Applied Science and Associate of General Studies degrees. These units consist of those designated by ACE guide as lower division baccalaureate units. Upper division baccalaureate units, as defined by ACE, may be in Associate of Arts or Associate of Science degrees.
   d. Credit is granted on the basis of the policy below and is posted on the transcript.
   e. Credit earned from nontraditional sources may not apply toward satisfying the minimum fifteen units in residence required for graduation purposes.
   f. Specific Policies
      1. Military Training and Schools
1. Up to four elective units in physical education are granted if the applicant has completed basic training. This credit is applicable toward all associate degrees.
2. The Community College of the Air Force is considered an accredited college. Refer to the section in this course catalog on Advanced Standing from Other Colleges and Universities.
3. Military Schools
   a. Applicants must submit an in-service training record and DD 214, unless still on active military duty, for an evaluation of service school training;
   b. Applicants must show the exact title of the course, location of the course and length of the course in weeks. Credit may be granted based on the recommendations found in A Guide to the Evaluation of Educational Experiences in Armed Services. If a course is not listed, no credit will be granted;
   c. In the case a course is relevant to a student’s occupational degree objective, a decision as to acceptance and applicability of credit will be made by the department chair. Other courses may be acceptable as elective credit. A maximum of 30 units may be accepted and applied toward the occupational requirements of the Associate of Applied Science degree in military occupations;
   d. The College may require the student to take a test to validate skills in certain areas before credit is granted.

II USAFI/DANTES credit is granted for college level courses by self-study, group study, class instruction, examination or correspondence. TMCC accepts credit by American Council on Education recommendations only. Only elective credit in the Associate of Applied Science and Associate of General Studies degrees may be granted.

III Correspondence Only courses from extension divisions of accredited colleges and universities are acceptable. Only elective credit may be granted. Correspondence courses from the University of Nevada, Reno or the University of Nevada, Las Vegas may be applicable toward degree requirements based on the decision of the vice president of academic affairs.

IV Extension Only courses from extension divisions of accredited colleges and universities are acceptable. Courses in which continuing education units (CEU) have been earned will be evaluated as certificates. Only elective credit may be granted. Extension courses may be applicable toward degree requirements based on the decision of the vice president of academic affairs.

V Certificates Only certificates in the applicant's occupational area for an Associate of Applied Science degree are reviewed. Only elective credit, core/emphasis, may be granted. All certificates must indicate hours and a course outline is required before an evaluation is completed. Decision of acceptability will be made by the appropriate dean. A current, valid state-approved Emergency Medical Technicians (EMT) training program of 110 hours may be evaluated for seven elective units. Refresher course programs will not be accepted for credit. This policy is restricted to students pursuing an Associate of Applied Science degree or certificate of achievement in the following occupational areas: criminal justice, fire science technology and health sciences. The 200-hour certified firefighter certificate may be accepted for up to six units, three of which may be used in lieu of FT 101, upon approval of the vice president of academic affairs. Any certificate training completed after May 1, 1992 may be awarded a maximum of six units applied towards the fire science technology certificate of achievement or Associate of Applied Science fire science technology degree.

Non-traditional education credit can only be applied toward an Associate of Applied Science, and Associate of General Studies or a certificate of achievement. The student must have at least 15 semester units at TMCC before non-traditional credit is considered.

VI Proprietary Schools - A proprietary school must be accredited by a business, technical, or private accreditation association. Credit may be granted for general education courses with the approval of the vice president of academic affairs. Skill courses may be accepted for occupational credit requirements for the associate of applied science degree. Students must provide course descriptions, instructor name and qualifications, syllabi or catalogs along with an official transcript. Approval is dependent upon instructor qualifications and similar course equivalency. Applicability of credit toward the associate of applied science degree is a decision of the vice president of academic affairs. The college may require the student to take a test to validate skill in the area before credit is accepted.

VII Dual Credit through Washoe County Schools - Academic credit will be awarded for college courses identified in the program articulation agreements between the Washoe County School District and TMCC. The amount of credit varies from program to program. Information about the articulated programs may be obtained from Admissions and Records or the Washoe County School District.

VIII Other Recognized Sources
1. Peace Officers Standard Training (POST) - eight elective units will be granted for those taking training after October 1973. For training taken prior to 1973, four units may be granted for a basic certificate and/or four units may be granted for an intermediate certificate. Between 1988 and 1998, students who completed the High Sierra Regional Law Enforcement Academy could purchase 24 units within two years of completion, excluding POST credit.
2. American Institute of Banking (AIB) - Credits are evaluated as regular college or university transfer courses. An official AIB transcript is required for evaluation and the AIB catalog is used to determine the equivalent unit value. The applicability of credit toward degree requirements is the decision of the vice president of academic affairs.
3. Advanced American Red Cross - Adult Education - One elective unit of physical education may be granted.

College-Level Examination Program (CLEP)
Credit may be granted and a grade of "S" assigned upon receipt in the Admissions and Records Office of an official score report, showing completion of at least one general examination with a score of 50 or
above, or subject examinations with a score of 50 or above. Such credit may need to be supported by a satisfactory essay, where specified. Optional essays are an additional charge and require additional proctoring fees. If you are interested in completing an optional essay, you must notify the testing center in writing at testingcenter@tmcc.edu and pay for the additional fees at least 30 days prior to scheduled test date. Information pertaining to test dates, registration and test bulletins (some offering sample exams) are available in the Testing Center at the Meadowood Site (http://www.tmcc.edu/wdce/testing-center/testing-center-information), 5270 Neil Road Reno, Nevada 89502, RM- MDWS 319 or email testingcenter@tmcc.edu.

¹ General English Examination: Scores earned prior to October 1978 or after April 1986 require a satisfactory essay and a score of 500 to 639 for three units, or 640 or higher for six units (which satisfies the English requirement at TMCC). Scores earned from October 1978 through April 1986 require a satisfactory essay and a score of 610 to 749 for three units, or 750 or higher for six units (which satisfies the ENG 101 & ENG 102 requirement at TMCC).

² Principles of Accounting was replaced by Financial Accounting as of June 30, 2007. Principles of Accounting were equivalent to ACC 201 and ACC 202 (6 units).

³ English Subject Examinations: With an objective test score of 64 or higher and a satisfactory essay examination, six units are granted (satisfying the ENG 101 & ENG 102 requirement at TMCC).

⁴ Does not satisfy NV constitution.

⁵ Does not satisfy US or NV constitution.

**College Board Advanced Placement Examination (CBAPE)**

These examinations are for students in high school. Upon receipt of an official score report from the College Board and a satisfactory essay when required, the Admissions & Records Office grants credit as
specified and assigns a grade of "S" for scores of 3, 4, or 5. The students will have satisfied requirements where appropriate.

¹ With an objective test score of 3, three units of BIOL LELC are granted; with an objective of 4 or 5, three units of BIOL 190 and three units of BIOL 191 are granted.

² With an objective test score of 3, three units are granted. With an objective score of 4 or 5, six units are granted.

³ With an objective test score of 3, three units are granted for CS 135; with an objective score of 4 or 5, six units are granted for CS 135 and CS 202.

⁴ With an objective test score of 3, three units are granted for ENG 101. With an objective score of 4 or 5 on the Language and Composition exam, six units are granted for ENG 101 and ENG 102. A maximum of six units may be awarded for the AP exam in English.

⁵ With an objective text score of 3, three units are granted for ENG 101. With an objective score of 4 or 5 on the Literature and Composition exam, six units are granted for ENG 101 and ENG 297. A maximum of six units may be awarded for the AP exam in English.

⁶ Course equivalence with an objective score of 4 or 5 only.

### Truckee Meadows Community College Library Policies

By obtaining a library account, patrons of any TMCC library location agree to:

- Have an active TMCC ID or TMCC Library Card to check out any material.
- Renew or return all materials by the due date.
- Read and respond to all library notices promptly.
- Inform the TMCC library of updates to your patron record with all address changes.
- Be responsible for the borrowed materials and notify the library if material is lost, stolen or damaged beyond repair.
- Pay any fines or fees for non-return of library materials checked out on your patron record.

Patrons are also subject to the Library Circulation Code and any other policies outlined at [www.tmcc.edu/library/](http://www.tmcc.edu/library/). Please visit this website for more information.
VETERANS UPWARD BOUND

Veterans Upward Bound

Location: Meadowood Center, 5270 Neil Road, S303
Phone: 775-829-9007
Website: http://www.tmcc.edu/veterans-upward-bound/

The Veterans Upward Bound Program is an educational program funded by the U.S. Department of Education. It is designed to assist veterans in preparing for success in college and other post-secondary training.

Veterans Upward Bound provides a comprehensive program of support services to improve both academic and motivational skills. Services are available for college preparation and High School Equivalency completion. Specific services include developmental courses to improve basic skills, tutoring, career counseling and advisement, college orientation, assistance with admissions, financial aid and referrals to other agencies. Veterans must meet program eligibility requirements.

For more information, visit the Veterans Upward Bound Office.
WORKFORCE DEVELOPMENT AND COMMUNITY EDUCATION

Workforce Development and Community Education (WDCE) stands committed to enhancing the region’s economic stability by training adults to increase their career opportunities and offering customized employee instruction to area businesses. Classes, most of which are noncredit, and accelerated programs start weekly and do not require admission into TMCC. WDCE also offers Community Education which provides personal enrichment classes to students of all ages in support of the College mission of lifelong learning.

Adult Basic Education (ABE)
775-829-9044

TMCC is able to offer noncredit Adult Basic Education classes at no charge with federal grant funds administered through the Nevada Department of Education, Office of Career, Technical and Adult Education. To qualify, students must be at least 16 years old and not required to be enrolled in a secondary school (per the AEFLA Funds in Nevada policy). Students may stay in ABE programs until they complete all levels or meet personal goals, as long as they show progress in their classes and follow ABE’s 85 percent attendance policy.

English Language Learners (ELL/ESL)
775-829-9044

Adult Basic Education offers noncredit course in English for English Language Learners to assist speakers of other languages to adapt as quickly as possible to an English-language environment. Instruction is geared towards working adults. TMCC’s ELL program is a nationally-renowned model. The program uses a workplace literacy approach through the Comprehensive Adult Student Assessment System (CASAS). Depending on their level of proficiency, students are placed in beginning, intermediate or advanced classes. Students are grouped according to ability based on CASAS entrance and periodic testing scores.

High School Equivalency (HSE)
formerly General Education Development (GED)

HSE Testing: 775-824-3838
HSE Preparation: 775-829-9044

TMCC’s High School Equivalency (HSE) preparation courses prepare students 18 years and older to pass the state-approved HSE examinations. Courses cover the five HSE sub-sections:

1. Language Arts-Reading
2. Language Arts-Writing
3. Science
4. Social Studies
5. Mathematics

Orientation for HSE preparation courses is held several times throughout the semester at TMCC’s Meadowood Center.

Assessments are administered prior to enrollment and throughout the training program. TMCC uses the assessments to gauge what is needed so that the instructors can target specific areas of study. Students are eligible to enroll in the HSE preparation courses upon completion of the preliminary skills analysis assessment. Call for class and individual advisement times.

TMCC provides the following services in an informal classroom environment:

- Pre-testing
- Books and materials
- Practice HSE tests
- Instruction in all subjects covered by the HSE exams
- Post-HSE guidance
- On-site HSE testing (standard testing fee applies)

Certificate Programs: Noncredit

WDCE offers relevant, real-world instruction focused on preparing students for new careers. Programs include:

- Bilingual Office Assistant Certificate
- Bookkeeping Essentials
- Casting Technician
- Certified Specialist of Wine
- Clinical Medical Assistant
- Community Health Worker
- Dialysis Technician
- EKG Technician Certification
- Escrow Assistant
- Florist Fundamentals
- Grant Writing Certificate
- HTML Programming
- Massage Therapy
- Ophthalmic Assistant
- Patient Service Assistant
- Personal Trainer
- Pharmacy Technician
- Property Management
- Spanish/English Court Interpreting
- Spanish/English Medical Interpreting
- Spanish/English Translation/Interpretation Certificate
- Surgical Technician

Business Skills Courses: Noncredit

For those seeking to upgrade their skills, WDCE offers short, accelerated courses to strengthen computer skills, present entrepreneurial opportunities, acquire management and marketing expertise and more. WDCE’s roster of courses includes hundreds of web-based classes from some of the nation’s top online education providers, giving students the ultimate in convenience and diversity of topics.

Customized Employee Training for Business

Since 1987, Nevada businesses have relied on WDCE for timely, customized, quality instruction. With a vast network of highly qualified instructors with real-world experience, WDCE helps companies spend their training dollars only where they are needed. Whether it’s employee skill assessments, curriculum creation, workplace communication or even academic education, each program is uniquely created to fit a
business’ needs. Training is available 7 days a week, 24 hours a day, in a wide variety of languages.

**WorkKeys© Assessments**
This efficient diagnostic tool lets executives know which skills their employees need to learn, so the business can achieve its goals. Individuals may also register for these tests to earn a National Career Readiness Credential through WorkKeys (an ACT product), to prove their expertise to potential employers.

WorkKeys assessments are available in applied mathematics, applied technology, business writing, job fitness, listening, locating information, observation, personal performance, readiness, reading for information and more. Some exams are available in Spanish.

**TMCC Writers’ Conference**
For decades, writers from throughout the western U.S. have traveled to Reno to learn about publishing trends, book marketing and craft improvement. This event, held each April, features agents, publishers and successful authors.

**Nevada Local Technical Assistance Program (LTAP)**
Nevada LTAP provides training for the transportation workforce by delivering the most current concepts and technical assistance available. Workshops focus on workforce development, safety, infrastructure management and organizational excellence. Nevada LTAP also provides a video library, manuals and the Roads Scholar program.

LTAP is a grant-funded program established in 1988 in cooperation with the Federal Highway Administration and the Nevada Department of Transportation. Nevada LTAP bridges the gap between research and practice and is committed to serving local agencies, NDOT, FHWA and the transportation industry through:

- technology transfer
- technical assistance
- training and workforce development
- information services
- assisting with all other transportation needs.

**Teach for WDCE**
WDCE hires instructors with a proven expertise in their field. For details, go online: http://www.tmcc.edu/wdce/.

**Continuing Education Unit (CEU)**
CEUs, which certify completion in noncredit courses, provide a permanent record of educational accomplishments. TMCC follows the International Association of Continuing Education and Training guidelines for the recording of CEUs. One CEU is 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction and qualified instruction. For further details, review the Policy for Implementation and Awarding of the Continuing Education Unit (p. 321) in this catalog or call WDCE at 775-829-9010.

**Additional Information**
Most WDCE programs are self-supporting and solely funded through WDCE enrollments.

Fees may vary depending on the type of projects WDCE offers.

Self-supporting, noncredit courses do not lead to a degree or certificate. A WDCE course may be considered nontraditional and must be approved by the Vice President of Academic Affairs in order to be applied to an Associate of General Studies degree.

Grades are not awarded for most WDCE noncredit classes.

WDCE non-credit courses do not qualify for financial aid. We do have multiple community partners that help fund the cost of certification and professional courses for qualifying individuals. Contact our office for more information at 775-829-9010.

**Residency**
WDCE self-supporting courses are exempt from the Nevada System of Higher Education’s regulations regarding residency tuition. Individuals may enroll in these courses without having their enrollments counted toward matriculation or without having those credits calculated for out-of-state tuition. For complete details, see Regulations for Determining Residency and Tuition Charges (p. 325).
