PSYCHOLOGY (PSY)

PSY 101 # - General Psychology  Units: 3
Survey of the basic foundations of psychology with emphasis on psychological theories, research methods and principles of behavior.
Term Offered: All Semesters

PSY 102 # - Psychology of Personal and Social Adjustment  Units: 3
Personality adjustment in healthy persons; adjustment techniques and reactions to frustration and conflict in the context of various social groups.
Term Offered: Spring and Fall

PSY 105 # - Introduction to Neuroscience  Units: 3
This course will provide a framework for understanding the fundamental, biological processes that are involved in human behavior and cognition. Topics surveyed will introduce basic principles of neuroscience, including: the divisions of the human nervous system, the cells of the nervous system and neural function. In addition, students will engage in discussion of how brain function supports higher-order cognitive processes and how behavior and cognition are impacted by neurological diseases. Same as BIOL 105.
Term Offered: Spring and Fall

PSY 130 # - Human Sexuality  Units: 3
A survey of human sexuality emphasizing biological, psychological and socio-cultural influences. Topic areas will include sexual orientation, gender identity, communication, intimacy, sexual variation and dysfunction.
Term Offered: Spring and Fall

PSY 198 # - Special Topics in Psychology  Units: 1-6
Various short courses and experimental classes covering a variety of subjects. The course will be a variable credit of one to six credits depending on the course content and number of hours required. The course may be repeated for up to six credits.
Term Offered: AS NEEDED

PSY 205 # - Elementary Analysis of Behavior  Units: 3
This course will provide an introduction to the science of behavior analysis, with a focus towards the theoretical and applied factors that influence the behavior of humans. Course curriculum will introduce the theoretical, methodological and empirical foundations specific to the field. Throughout, basic learning principles will be reviewed and applied through analysis of real-world and empirical research examples.
Enrollment Requirements: Prerequisite: PSY 101
Term Offered: AS NEEDED

PSY 210 # - Introduction to Statistical Methods  Units: 4
Practice with statistical methods especially useful in the presentation and interpretation of psychological, sociological and educational data, includes elementary computer application.
Enrollment Requirements: Prerequisite: PSY 101; or SOC 101; MATH 96 or equivalent or qualifying Accuplacer, ACT/SAT test results.
Term Offered: Spring and Fall

PSY 228 # - Psychology of Dreams  Units: 3
An introduction to the study of dreams through psychological theory, covering etiology and interpretation.
Term Offered: Spring and Fall

PSY 233 # - Child Psychology  Units: 3
A study of the growth and development of the child with special consideration given to theories of learning and personality formation.
Term Offered: All Semesters
