

SATISFACTORY ACADEMIC PROGRESS

Students progressing towards a degree, emphasis, or certificate at Truckee Meadows Community College must maintain a minimum cumulative grade point average of 2.0, which is equivalent to an average grade of C, to be considered making satisfactory academic progress and remain in "good standing." Students who meet the satisfactory academic progress requirements are considered to be in "good standing" status.

This policy applies to all degree-seeking or certificate-seeking students. Additional progress standards for veterans, scholarship awardees and financial aid recipients are also applied as appropriate.

See the Satisfactory Academic Progress Policy (<https://catalog.tmcc.edu/rules-regulations/satisfactory-academic-progress-policy/>) or Vice President for Academic Affairs (<http://www.tmcc.edu/vpaa/>) to review the policy in its entirety.
