

IDS COURSE STUDENT LEARNING OUTCOMES

IDS 299 - General Internship Program

Students will be able to demonstrate interview skills; articulation of their personal brand; and complete networking activities.

Students will be able to research and describe their internship company/ organization; including: size and scope, the product or service, company history, clientele, management style, etc.

Students will be able to work alongside their instructor and internship supervisor to develop a minimum of three learning outcomes that are appropriate to their specific internship.
